12-17-81
Vol. 46 No. 242
Pages 61441-61632

federal register

Thursday
December 17, 1981

Highlights

61442, 61485 **Agriculture—Credit** USDA/CCC imposes interest on delinquent debts. FCA proposes to amend Farm Credit System loan policies.

61560 **Air Transportation** DOT/FAA establishes Microwave Landing System requirements for non-Federal navigational facilities. (Part II of this issue)

61486, 61489 DOT/FAA withdraws proposed rules on helicopter noise and flight attendant reduction. (2 documents)

61484 **Nuclear Power Plants** NRC requests comments on petition to extend term of operating licenses.

61531 **Mass Transportation** DOT/FHWA announces availability of report on Federal role in Urban transportation planning.

61450 **Air Safety** DOT/FAA amends emergency aircraft evacuation demonstration requirements.

61612, 61613 **Air Pollution Control** EPA stays requirement and proposes to amend rules on construction of new stationary sources and modifications to existing sources. (2 documents) (Part IV of this issue)

61460 **Postal Service** PS amends procedures for refusing or terminating post office box or caller service.

61454 **Securities** SEC adopts rule on recordkeeping by brokers and dealers.

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

61502 **Pesticides** EPA provides peer review procedures for scientific studies.

61462 **Procurement** Interior amends Procurement Regulations System, and defers effective date of previously published rule. (2 documents)

61473 **Motor Vehicle Safety** DOT/NHTSA issues rule on new pneumatic tires for passenger cars.

61495 **Imports** CITA announces import restraint levels for certain cotton, wool and man-made fiber textile products from People's Republic of China.

61496 CITA announces increase in import restraint levels for certain cotton textile products from Pakistan.

61497 CITA announces import levels for certain cotton, wool and man-made fiber textile products from Taiwan.

61455, 61522 **Privacy Act Documents** Justice. (2 documents)

61533 **Sunshine Act Meetings**

Rules and Regulations

Federal Register
Vol. 46, No. 242
Thursday, December 17, 1981.

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 905

Oranges, Grapefruit, Tangerines, and Tangelos Grown in Florida; Limitation of Shipments

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Amendment to final rule.

SUMMARY: This amendment establishes a total limitation of shipment regulation for fresh Florida oranges, grapefruit, tangerines, and tangelos during the period beginning at 6:00 p.m., e.s.t. December 23, 1981, and ending 12:01 a.m., e.s.t., December 29, 1981. The regulation is needed to assist in preventing the accumulation of excessive market supplies of the specified fruits during the Christmas Holiday period specified, in which it is anticipated there will be a greatly reduced market demand.

EFFECTIVE TIME: 6:00 p.m., e.s.t. December 23, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

SUPPLEMENTARY INFORMATION: This final action has been reviewed under Secretary's Memorandum 1512-1 and Executive Order 12291 and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would not measurably affect costs for the directly regulated handlers.

This rule is issued under the marketing agreement, as amended, and marketing Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines and tangelos grown in Florida, hereinafter referred to collectively as the order. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This action is based upon the recommendations and information submitted by the Citrus Administrative Committee established under the order and other available information. It is found that this action will tend to effectuate the declared policy of the act.

This amendment reflects the Department's appraisal of the marketing situation during the period immediately prior to the week in which Christmas Day occurs and for the period immediately following. It is anticipated that shipments of fresh oranges, grapefruit, tangerines, and tangelos prior to Christmas Day will result in market supplies in excess of market needs. An accumulation of excessive quantities of any variety of citrus fruit in the markets during the period immediately prior to and following Christmas contributes to unstable marketing conditions. It is reported that, absent the shipping holiday, excessive shipments of the specified fruits would occur, causing an accumulation of these varieties of fruit in the market prior to and during the post-holiday period, a period in which there is a drop in consumer demand. Hence the curtailment of orange, grapefruit, tangerine and tangelo shipments, as hereinafter specified, would contribute to a better-managed supply situation and in turn to the establishment of orderly marketing.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this amendment is based and the effective date necessary to effectuate the declared purposes of the act. A reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this amendment effective at the time specified. Determination as to the need for, and extent of, regulation under § 905.52(a)(3) must await the development of the crop and the availability of information about market supplies and the demand for such fruits. The recommendation and supporting information for such regulation were promptly submitted to the Department after an open meeting of the committee, after notice to growers, shippers, and interested persons had been given, and all present were afforded an opportunity to submit information and views. Information regarding specifications of the regulation has been provided to shippers, and the regulation is identical with the recommendations of the committee. Compliance with the regulation will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective time.

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Accordingly, in § 905.306 (Orange, Grapefruit, Tangerine and Tangelo Regulation 6; December 8, 1981, 46 FR 60170) paragraph (d) is redesignated as paragraph (e) and a new paragraph (d) is added to read as follows:

§ 905.306 Orange, Grapefruit, Tangerine and Tangelo Regulation 6.

* * * * *

(d) Notwithstanding the provisions of Table 1 in paragraph (a) of this section during the period beginning at 6:00 p.m. e.s.t., December 23, 1981, and ending at 12:01 a.m. e.s.t., December 29, 1981, no handler shall ship between the production area and any point outside thereof in the continental U.S., Canada, or Mexico, any oranges, grapefruit, tangerines, or tangelos, of the varieties or types, specified in paragraph (a) Table I of this section, grown in the production area.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 11, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 81–36074 Filed 12–16–81; 8:45 am]

BILLING CODE 3410–02–M

7 CFR Part 907

[Navel Orange Reg. 532]

Navel Oranges Grown in Arizona and Designated Part of California; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona navel oranges that may be shipped to market during the period December 18–24, 1981. Such action is needed to provide for orderly marketing of fresh navel oranges for this period due to the marketing situation confronting the orange industry.

EFFECTIVE DATE: December 18, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, 202–447–5975.

SUPPLEMENTARY INFORMATION: *Findings.* This rule has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291 and has been designated a "non-major" rule. This regulation is issued under the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This action is based upon the recommendations and information submitted by the Navel Orange Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1981–82. The marketing policy was recommended by the committee following discussion at a public meeting on October 6, 1981. A regulatory impact analysis on the marketing policy is available from William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

The committee met again publicly on December 15, 1981 at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of navels deemed advisable to be handled during the specified week. The committee reports the demand for navel oranges is good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared policy of the act to make this regulatory provision effective as specified, and handlers have been apprised of such provisions and the effective time.

In accordance with the Paperwork Reduction Act of 1980, (44 U.S.C. 3507), the reporting or recordkeeping provisions that are included in this final rule have been or will be submitted for approval to the Office of Management and Budget (OMB). They are not effective until OMB approval has been obtained.

1. Section 907.832 is added as follows:

§ 907.832 Navel Orange Regulation 532.

The quantities of navel oranges grown in Arizona and California which may be handled during the period December 18, 1981, through December 24, 1981, are established as follows:

(1) District 1: 623,000 cartons;
(2) District 2: Unlimited cartons;
(3) District 3: 77,000 cartons;
(4) District 4: Unlimited cartons.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Dated: December 16, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 81–36246 Filed 12–16–81; 11:28 am]

BILLING CODE 3410–02–M

Commodity Credit Corporation

7 CFR Part 1403

Interest on Delinquent Debts

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Interim rule.

SUMMARY: The Commodity Credit Corporation (CCC) is announcing that interest will be charged on delinquent debts. The imposition of interest with respect to delinquent debts will encourage producers to repay their debts and thus reduce the cost to CCC for additional borrowings from the United States Treasury.

DATE: Effective date: December 17, 1981.

COMMENTS BY: February 16, 1982.

ADDRESS: Interested persons may send comments to the Director, Fiscal Division, ASCS, U.S. Department of Agriculture, P.O. Box 2415, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT: Sally Nunn, Claims Specialist, Fiscal Division, ASCS, U.S. Department of Agriculture, P.O. Box 2415, Washington, D.C. 20013, (202) 447–6613.

SUPPLEMENTARY INFORMATION: This interim rule has been reviewed in conformance with Executive Order 12291 and the Secretary's Memorandum 1512–1 and has been classified as "not major." It has been determined that the provisions of this interim rule will not result in: (1) an annual effect on the economy of $100 million or more; (2) major increases in costs or prices for consumers, individual industries, Federal, State or local government agencies or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This action will not have a major impact specifically on area and community development. Therefore, review as established by OMB Circular A–95 was not used to assure that units of local government are informed of this action.

It has been determined that the Regulatory Flexibility Act is not applicable to this rule since CCC is not required by 5 U.S.C. § 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this interim rule.

The Attorney General and Comptroller General have jointly promulgated the Federal Claims Collection Standards (FCCS) in 4 CFR Parts 101–105 as mandated by the Federal Claims Collection Act of 1966, as amended (31 U.S.C. 951–953). CCC is generally exempt from the provisions of the FCCS, since CCC has the authority under Section 4(k) of the CCC Charter Act (15 U.S.C. 714b(k)) to make final and conclusive settlement and adjustment of all its claims. However, the Board of Directors, CCC, has administratively determined that the FCCS shall be applicable to all claims by CCC regardless of the amount (CCC Claims Policy Docket CZ 161a, Revision 4). The FCCS requires that interest be charged on delinquent debts. Accordingly, CCC will establish an interest rate which shall be charged on delinquent debts and publish such rate as a notice in the **Federal Register.**

Since it is imperative for effective money management and claims

collection to impose a rate of interest to be charged by CCC with respect to delinquent debts in order to encourage the repayment of such debts, it has been determined that this interim rule shall be effective upon date of publication in the **Federal Register** without opportunity for prior public comment.

However, the public is invited to submit written comments with respect to this interim rule to the Director, Fiscal Division, ASCS, U.S. Department of Agriculture, P.O. Box 2415, Washington, D.C. 20013. Comments must be received not later than February 16, 1982 in order to be assured of consideration. This interim rule will be evaluated in view of the comments received and a final rule will be published in the **Federal Register** discussing the comments received and any further amendments to these regulations which may be deemed necessary.

Accordingly, the regulations at Chapter XIV, Subchapter A of Title 7 of the Code of Federal Regulations are amended by adding a new Part 1403 to read as follows:

PART 1403—INTEREST ON DELINQUENT DEBTS

Sec.
1403.1 Purpose.
1403.2 Definitions.
1403.3 Late payment charge.
1403.4 Partial payments.
1403.5 Amount of late payment charge.
1403.6 Applicability.

Authority: Sec. 4, PL 80–89, 62 Stat. 1070, as amended (15 U.S.C. 714b), 4 CFR Parts 101–105.

§ 1403.1 Purpose.

It is the policy of Commodity Credit Corporation (hereafter referred to as "CCC") to apply a late payment charge to the full amount of delinquent debts. This part sets forth the terms and conditions under which such late payment charge will be calculated and assessed.

§ 1403.2 Definitions.

(a) The term "late payment charge" means the amount of interest charged on delinquent debts.

(b) The term "demand for payment" means a written request for payment made by CCC to the debtor when it is determined that any monies which are due and owing by the debtor to CCC are delinquent.

(c) The term "full amount of the delinquent debt" means the sum of the principal, accrued interest, and any other charges which are otherwise due and owing to CCC with respect to the delinquent debt at the time the late payment charge is applied.

(d) The term "delinquent debt(s)" means: (1) A payment that is overdue in accordance with the terms of an arrangement for payment as provided for in the contract, agreement or notification of indebtedness, and (2) Any overdue amount owed to CCC by a debtor which is the subject of an arrangement whereby the debtor agrees to pay any such overdue amount in installments.

§ 1403.3 Late payment charge.

(a) A late payment charge is assessed on the full amount of any delinquent debt.

(b) The method for assessing a late payment charge is as follows:

(1) When a debt results from a contract or agreement containing a provision for a late payment charge, a late payment charge will be assessed by CCC on the amount of the delinquent debt from the day the debt became delinquent unless otherwise provided for by such contract or agreement.

(2) When the debt did not result from a contract or agreement containing a provision for a late payment charge, a late payment charge will be assessed by CCC on the amount of any delinquent debt 30 days after CCC issued a demand letter to the debtor notifying the debtor of such delinquency.

(c) The late payment charge will be applied to the delinquent debt for each 30-day period. In addition, the full amount of the late payment charge will also be applicable to periods of less than 30 days.

§ 1403.4 Partial payments.

When a partial payment of a delinquent debt is made to CCC by a debtor, the partial payment will first be applied against the amount of any late payment charge which has been assessed by CCC against the amount of the delinquent debt. Any sum remaining of such partial payment will then be applied against the full amount of the delinquent debt.

§ 1403.5 Amount of late payment charge.

The late payment charge shall be expressed as a rate of interest which CCC charges on a delinquent debt. CCC will publish such rate of interest as a notice in the **Federal Register**.

§ 1403.6 Applicability.

This part shall only be applicable to: (a) Any debt incurred after the effective date of this part and which subsequently becomes a delinquent debt; (b) Delinquent debts originally incurred before the effective date of this part, the repayment of which is rescheduled by agreement of CCC and the debtor after the effective date of this part; and (c) Any other debt or delinquent debt to which the debtor and CCC agree that this part will be applicable.

Signed at Washington, D.C., on December 1, 1981.

Everett Rank,

Executive Vice President, Commodity Credit Corporation.

[FR Doc. 81–35981 Filed 12–16–81; 8:45 am]

BILLING CODE 3410–05–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 81–NW–27–AD; Amdt. 39–4282]

Airworthiness Directive; McDonnell Douglas Model DC–9 and C–9 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) that requires eddy current or dye-penetrant inspection for cracks in the upper fuselage skin in the area of the aft pressure bulkhead tee on McDonnell Douglas Models DC–9 and C–9 series airplanes. This AD is needed to determine the existence of skin cracks and to prevent crack propagation which, if left unattended, could result in structural failure of the fuselage shell and rapid decompression of the aircraft.

DATE: Effective date January 21, 1982. Compliance schedule as prescribed in the body of the AD, unless already accomplished.

ADDRESSES: The applicable service information may be obtained from: McDonnell Douglas Corporation, 3855 Lakewood Blvd., Long Beach, California 90846, Attention: Director, Publications and Training, C1–750 (54–60). This information also may be examined at FAA Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington 98108, or 4344 Donald Douglas Drive, Long Beach, California 90808, telephone (213) 548–2826.

FOR FURTHER INFORMATION CONTACT: Harry Irwin, Aerospace Engineer, Airframe Branch, ANM–120L, Federal Aviation Administration, Northwest Mountain Region, Los Angeles Area Aircraft Certification Office, 4344 Donald Douglas Drive, Long Beach, California 90808, telephone (213) 548–2826.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to include an Airworthiness Directive requiring eddy current or dye-penetrant inspection for cracks in the upper fuselage skin in the area of the aft pressure bulkhead tee on McDonnell Douglas Models DC–9 and C–9 series airplanes was published in the **Federal Register** on June 15, 1981 (46 FR 31268). This proposal was prompted by the following:

Operators have reported instances of cracks in the upper skin and improperly seated attachments on the upper skin splice area at the fuselage aft pressure bulkhead tees between longerons 14 left and 14 right. Alert Service Bulletin No. A53–147 which was issued by Douglas Aircraft Company on September 2, 1980, requesting fleetwide inspection of these areas, resulted in 128 aircraft being inspected, with 7 found to have cracks in the inspected area. All 7 of these aircraft had accumulated over 43,500 landings. Analysis of the skin panel sections revealed no evidence of overload. Thus it was concluded that the failures were caused by fatigue due to flexing of the lightweight fuselage shell adjacent to the relatively rigid tee frame at the bulkhead. If not repaired, these cracks could propagate and result in a possible loss of pressurization with attendant structural damage. Inspection of high cycle aircraft and accomplishment of the required repairs will ensure structural integrity of the pressure vessel.

Interested parties have been afforded an opportunity to participate in the making of this amendment.

Three comments were submitted by the Air Transport Association on behalf of U.S. air carriers. They are discussed below.

1. Repetitive Inspection Interval of 2,000 Landings for Airplanes With 40,000 Landings and Above

ATA objected to the shortening of the inspection interval for aircraft with 40,000 landings and over, from the 4,000 landings of the McDonnell Douglas Alert Service Bulletin A53–147, to 2,000 landings in the NPRM, as being arbitrary and unjustified. FAA does not agree with ATA for the following reason:

Skin cracking along circumferential rivet rows in the region of the aft pressure bulkhead tees has occurred between longerons 14 left and 14 right. These cracks occurred at multiple sites simultaneously due to similarity of stress level over a wide area. Normally, propagation of a single crack is not influenced by secondary effects which are functions of aircraft life. However, in this case the crack propagation rate can be influenced by crack tip stress intensity factor interaction. This interaction is caused by multiple site cracking occurring at each fastener in a row of fasteners. The length of each of these multiple cracks, each of which may not be of detectable length, is a function of aircraft life. Thus, crack tip stress intensity factor interaction between multiple site cracks can cause the cracks to suddenly join together to form a single long crack of critical proportions. Since the point at which this joining occurs is influenced by aircraft life, the repetitive interval should be on a sliding scale which diminishes as the aircraft age increases. Consequently, FAA considers a reduction in the inspection interval necessary on aircraft with the higher accumulation of landings but, in order to simplify the procedure, has chosen only two different repetitions—4,000 and 2,000 landings.

2. Acceptability of Interim Repairs

ATA pointed out that the proposed interim repairs would have to be replaced at the time of initial inspection by a permanent or preventive repair. This was not intended by the NPRM. An interim repair by reason of the added .090" band (Douglas Service Rework Drawing J060143) has transferred the flexing line of the skin approximately 2 inches forward to virtually undamaged skin with a considerable life extension. This repair differs from the permanent and preventive repairs primarily in not having the .025" finger doublers (Douglas Service Rework Drawing J060143–7) which relieves the sharp edge effect on the skin at the point of flexure.

In response to this comment, the rule, as adopted, requires the conversion of the interim to the terminating repair within the 4,000 landings time span of the repetitive inspection.

3. Terminating Action

ATA commented that the AD should clearly indicate which modifications constitute terminating action. The AD has been changed to state: Preventive repairs covering the periphery of the fuselage from longeron 14L to longeron 14R constitute terminating action.

Permanent repairs which cover only a section of the periphery 14L to 14R, constitute terminating action for that section of the periphery only. Interim repairs are not determined to be terminating action.

After careful review of available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the proposed rule with the changes previously noted.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

McDonnell Douglas: Applies to all Model DC–9 Series and C–9 Series aircraft, certificated in all categories, with 30,000 or more landings accumulated on and after the effective date of this AD. Compliance required as indicated, unless already accomplished. To prevent crack propagation which could result in structural failure of the fuselage shall, accomplish the following:

A. *Inspection Requirements.* Inspect the upper skin splice area for cracks at the tee cap in the aft fuselage pressure bulkhead between longerons 14 left and 14 right. Use either eddy current inspection procedures in accordance with paragraph 5 or use dye-penetrant inspection procedures in accordance with paragraph 6, both listed in the Accomplishment Instructions of McDonnell Douglas Service Sketch No. 3145 as provided in DC–9 Alert Service Bulletin A53–147 Revision 1 dated February 3, 1981 (hereinafter referred to as ASB 53–147). The inspections shall be performed in accordance with the compliance schedule shown in the following tabulation:

Accumulated landings (on effective date of this AD)	Initial inspection landings (from effective date of AD)
30,000 to 39,999	4,000
40,000 to 49,999	1,200
50,000 and over	400

Note.—For airplanes with less than 30,000 landings on the effective date of this AD, inspect before the accumulation of 34,000 landings.

Accumulated landings on date of last inspection	Repetitive inspection (landings)
39,999 or less	4,000
40,000 and over	2,000

B. *Modification Requirements.*

1. Condition 1. If no cracks are found: Accomplish preventive modifications per paragraph 2A of Service Bulletin 53–147, dated March 31, 1981 (hereinafter referred to as SB 53–147), as applicable to Service Rework Drawing No. J060138. This will constitute terminating action, or

Continue repetitive inspections as called for in paragraph A above.

2. Condition 2. If skin cracks were previously repaired by interim repairs specified in ASB 53–147 per Service Rework Drawing J060143:

(a) Remove existing interim repair(s) and accomplish preventive modifications per

paragraph 2A of SB 53–147, as applicable to Service Rework Drawing J060138. This will constitute terminating action; or

(b) Remove existing interim repair(s) and accomplish permanent repairs of all cracked areas per Table I or II of Service Bulletin 53–147, as applicable to Service Rework Drawing J060138. For the segments repaired, this will constitute terminating action. Continue repetitive inspections of areas which did not have cracks, in accordance with ASB 53–147, at the intervals listed above until further preventive modification is accomplished per paragraph 2A of Service Bulletin 53–147.

3. Condition 3. If skin cracks have not been repaired:

(a) Accomplish preventive modifications per paragraph 2A of Service Bulletin 53–147, as applicable to Service Rework. This will constitute terminating action; or

(b) Accomplish permanent repair(s) of all cracked areas per Table I or II of Service Bulletin 53–147. For the segments repaired, this will constitute terminating action. Continue repetitive inspection of areas which did not have cracks, in accordance with ASB 53–147, at the intervals listed above until further permanent repairs cover the region 14L to 14R, or the preventive repair has been accomplished per Service Bulletin 53–147.

C. For the purpose of complying with this AD, with approval of the assigned FAA Maintenance Inspector, the number of landings may be determined by dividing each airplane's total hours time-in-service by the operator's model fleet average time from takeoff to landing.

D. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes unpressurized to a base in order to comply with the requirements of this AD.

E. Alternative means of compliance or other actions which provide an equivalent level of safety may be used when approved by the Chief, Los Angeles Area Aircraft Certification Office, FAA Northwest Mountain Region.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to McDonnell Douglas Corporation, 3855 Lakewood Boulevard, Long Beach, California 90846, Attention: Director, Publications and Training, C1–750 (54–60). These documents also may be examined at FAA Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington 98108, or 4344 Donald Douglas Drive, Long Beach, California 90808.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—The FAA has determined that this document involves a regulation which is not considered to be major under Executive Order 12291 or significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), and will not have a significant economic effect on a substantial number of small entities under the criteria of the Regulatory Flexibility Act, since it involves few, if any, such entities. A final evaluation has been prepared for this regulation and has been placed in the docket. A copy of it may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator. Under section 1006(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1486(a)), it is subject to review by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Seattle, Washington, on December 7, 1981.

Robert O. Brown,

Acting Director, Northwest Mountain Region.

[FR Doc. 81–35754 Filed 12–16–81; 8:45 am]

BILLING CODE 4910–13–M

---

14 CFR Part 39

[Docket No. 81–NM–86–AD; Amdt. 39–4281]

Airworthiness Directive; McDonnell Douglas Model DC–9–80 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This document amends an existing Airworthiness Directive applicable to McDonnell Douglas Model DC–9–81 airplanes, which requires disengagement of the autothrottles prior to reaching 50 feet AGL during approach. This action was necessary to prevent unscheduled reverser deployment. This amendment provides operators with an optional modification which, if they choose to accomplish it, terminates the operating restrictions imposed by the original AD. This amendment also expands the applicability of the original AD to include the Model DC–9–82, but imposes no burden on these aircraft since the AD has been incorporated in all Model DC–9–82 aircraft during production.

DATE: Effective date December 28, 1981. Compliance schedule as prescribed in the body of the AD, unless already accomplished.

ADDRESSES: The applicable service information may be obtained from: McDonnell Douglas Corporation, 3855 Lakewood Boulevard, Long Beach, California 90846, Attention: Director, Publications and Training, C1–750 (54–60). This information also may be examined at FAA Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington 98108, or 4344 Donald Douglas Drive, Long Beach, California 90808.

FOR FURTHER INFORMATION CONTACT: Duane A. Naff, Supervisory Aerospace Engineer, Propulsion Branch, ANM–140L, Federal Aviation Administration, Northwest Mountain Region, Los Angeles Area Aircraft Certification Office, 4344 Donald Douglas Drive, Long Beach California 90808, telephone (213) 548–2835.

SUPPLEMENTARY INFORMATION: AD 81–04–51, Amendment 39–4107 (46 FR 24933, April 30, 1981), requires disengagement of the autothrottle during approach prior to reaching 50 feet AGL to prevent unscheduled deployment of the thrust reversers prior to touchdown on DC–9–81 Series airplanes. The AD requires placarding of each aircraft and revision of the FAA approved Airplane Flight Manual Limitations Section.

After issuing Amendment 39–4107, the Chief, Los Angeles Area Aircraft Certification Office, FAA Northwest Mountain Region, evaluated substantiating data and additional service instructions submitted by the manufacturer. It was determined that the procedures and modifications specified in McDonnell Doulgas DC–9 Super 80 Service Bulletin 78–47 dated August 4, 1981, to: (1) Adjust the clearance between the throttle interlock cam and the throttle interlock crank to prevent thrust reverser lever movement until throttles are fully against the pedestal idle stop, (2) verify and/or increase the gap between the pushrod assembly and lever assembly to ensure overcenter condition of thrust reverser levers when stowed, and (3) replace the one-piece cam assembly to provide adjustment of the reverse thrust switches independent of the low-limit switches, provides an acceptable alternate means of compliance and, thus, terminating action for the original AD. The adjustment allows proper separation between the reverse thrust switch actuation point (which disconnects the autothrottles) and the point at which the thrust reversers are deployed.

The requirements of Amendment 39–4107 have been incorporated in production by McDonnell Douglas in all Model DC–9–82 airplanes. This amendment also makes AD 81–04–51 applicable to the Model DC–9–82 by amending applicability to McDonnell Douglas DC–9–80 Series airplanes. This action will make the terminating action

provided herein applicable to all DC–9–80 Series airplanes.

Since this amendment provides an alternate means of compliance and requires no additional action by any operator, it has no adverse economic impact and imposes no additional burden on any person. Therefore, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending AD 81–04–51, Amendment 39–4107 (46 FR 24933, April 30, 1981) by amending the applicability and by adding a new paragraph D, as follows:

McDonnell Douglas: Applies to McDonnell Douglas Model DC–9–80 series airplanes, fuselage numbers 924 through 1017 inclusive, certificated in all categories. Compliance required as noted in the body of this AD, unless already accomplished. To prevent unscheduled deployment of the thrust reversers during approach prior to touchdown, accomplish the following:

D. Incorporation of the modifications in accordance with Part 2, Accomplishment Instructions, of McDonnell Douglas DC–9 Super 80 Service Bulletin 78–47 dated August 4, 1981, or later revisions approved by the Chief, Los Angeles Area Aircraft Certification Office, FAA Northwest Mountain Region, constitutes terminating action. Following such modification, both the placard and the Airplane Flight Manual limitation required by A. and B. above may be removed.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to McDonnell Douglas Corporation, 3855 Lakewood Boulevard, Long Beach, California 90846, Attention: Director, Publications and Training, C1–750 (54–60).

This document also may be examined at FAA Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington 98108; or the Los Angeles Area Aircraft Certification Office, 4344 Donald Douglas Drive, Long Beach, California 90808.

This amendment becomes effective December 28, 1981.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—The Federal Aviation Administration has determined that this document involves an amendment that is relieving in nature and does not impose any additional burden on any person. It therefore is: (1) Not a major rule under Executive Order 12291 (46 FR 13193; February 19, 1981); and (2) not significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Because its anticipated impact is so minimal, it does not warrant preparation of a regulatory evaluation and will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This rule is a final order of the Administrator. Under section 1006(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1486(a)), it is subject to review by the courts of appeals of the United States or the United States Court of Appeals for the District of Columbia.

Issued in Seattle, Washington, on December 7, 1981.

Robert O. Brown,

Acting Director, Northwest Mountain Region.

[FR Doc. 81–35753 Filed 12–16–81; 8:45 am]

BILLING CODE 4910–13–M

[Airworthiness Docket No. 81–ASW–28; Amdt. 39–4280]

Airworthiness Directives; Societe Nationale Industrielle Aerospatiale (SNIAS) Models AS350 and AS355 Series Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment amends an existing Airworthiness Directive (AD) applicable to Aerospatiale Models AS350 and AS355 series helicopters. The amendment is needed to remove the daily inspection and to include a recently approved increased life for an improved design tail rotor blade pitch horn.

DATE: Effective December 18, 1981. Compliance schedule as required by the AD.

ADDRESSES: A copy of the service information may be examined at Office of Regional Counsel, FAA, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas. A copy of the service information may be obtained from Aerospatiale Helicopter Corporation, 2701 Forum Drive, Grand Prairie, Texas 75051, Attention: Customer Support.

FOR FURTHER INFORMATION CONTACT: Chris Christie, Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Office, c/o American Embassy, Brussels, Belgium, or James H. Major, Helicopter Policy and Procedures Staff, Aircraft Certification Division, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101, telephone (817) 624–4911, extension 502.

SUPPLEMENTARY INFORMATION: This amendment amends Amendment 39–4175 (46 FR 38902), AD 81–13–09 which requires daily inspections of the tail rotor pitch horns and requires removal of pitch horns on or before attaining 450 hours' total time in service for Aerospatiale Models AS350 and AS355 series helicopters. After issuing amendment 39–4175, the improved design tail rotor pitch horn assembly, P/N 350A–12–1368–02 was substantiated and approved for 1,250 hours' retirement time without any mandatory daily inspection. Approved Service Bulletin No. 01.07 Revision 2 for Model AS350 series and Service Bulletin No. 01.01 Revision 1 for Model AS355 series were issued with this information. The daily inspections and 450 hours' retirement time requirements for pitch horn assemblies, P/N 350A–12–1368–01, were not changed by the revised bulletins. Therefore, the FAA is amending Amendment 39–4175 by removing the daily inspection requirement and increasing the retirement time for pitch horn asembly, P/N 350A–12–1368–02, from 450 to 1,250 hours' total time in service.

Since this amendment provides a relief and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and good cause exists for making the amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending amendment 39–4175, July 30, 1981, (46 FR 38902) AD 81–13–09, by:

1. Revising, as follows, paragraph (d) to apply to pitch horns, P/N 350A–12–1368–01 thereby retaining the requirements of subparagraphs (d)(1), (2), and (3) without change for the original design pitch horn:

"(d) For pitch horns, P/N 350A–12–1368–01, after initial compliance with paragraphs (a) and (c) of this AD and prior to the first flight of each day, conduct the following:"

2. Revising paragraphs (g)(1) and (2) to apply to only pitch horns, P/N 350A–12–1368–01, as follows:

"(g) For pitch horns, P/N 350A–12–1368–01, accomplish the following:

(1) Horns with 400 hours' or more total time in service on July 31, 1981, remove from service within the next 50 hours' time in service.

(2) Horns with less than 400 hours' total time in service on July 31, 1981, remove from service before attaining 450 hours' total time in service."

3. Adding new paragraph (h) to apply to pitch horns, P/N 350A–12–1368–02, as follows:

"(h) For pitch horns, P/N 350A–12–1368–02, remove from service on or before attaining 1,250 hours' total time in service."

4. Adding new paragraph (i) to allow compliance with recent service bulletins in place of TELEX Service No. 01.07A, as follows:

"(i) AS350 Service Bulletin No. 01.07 Revision 2 and AS355 Service Bulletin No. 01.01 Revision 1 may be used instead of TELEX Service No. 01.07A."

This amendment becomes effective December 18, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this document involves a regulation that is not considered to be major under Section 8 of Executive Order 12291, or significant under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). A copy of the final regulatory evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the various courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Fort Worth, Texas, on December 4, 1981.

Henry N. Stewart,

Acting Director, Southwest Region.

[FR Doc. 81–35836 Filed 12–16–81; 8:45 am]

BILLING CODE 4910–13–M

---

14 CFR Part 39

[Airworthiness Docket No. 81–ASW–57; Amdt. 39–4278]

Airworthiness Directives; Societe Nationale Industrielle Aerospatiale (SNIAS) Models SA360C and SA365C Series Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires reinforcement or strengthening of the tail boom at the stabilizer spar tube mount within 200 hours' time in service and requires initial and repetitive inspections of the stabilizer spar/spar tube junction for certain Aerospatiale SA360C and SA365C series helicopters. The AD is needed to preclude cracking and weakening of the tail boom and to detect possible cracks in the spar tube and thereby preclude failure of this stabilizer tube. Failure of the tail boom or stabilizer spar tube may result in possible loss of helicopter control.

DATES: Effective December 21, 1981. Compliance required as indicated in the AD. Comments must be received on or before January 21, 1982.

ADDRESSES: Send comments on the rule in triplicate to Office of Regional Counsel, Airworthiness Docket No. 81–ASW–57, Federal Aviation Administration, Southwest Region, P.O. Box 1689, Fort Worth, Texas 76101.

A copy of the service information may be examined at Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas. A copy of the service information may be obtained from Aerospatiale Helicopter Corporation, 2701 Forum Drive, Grand Prairie, Texas 75051, Attention: Customer Support.

FOR FURTHER INFORMATION CONTACT: Chris Christie, Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Office, c/o American Embassy, Brussels, Belgium, or James H. Major, Helicopter Policy and Procedures Staff, Aircraft Certification Division, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101, telephone (817) 624–4911, extension 502.

SUPPLEMENTARY INFORMATION: Reports of cracked tail booms were received by Aerospatiale. Service Bulletin No. 05.01 was issued to require an initial and repetitive inspections for cracks in the tail boom structure in the area of the stabilizer spar tube at 20-hour intervals for certain Aerospatiale Model SA360C and SA365C helicopters.

Installation of the tail boom modification, AMS365A.07.1310 contained in Service Bulletin No. 53.01 eliminates the need for repetitive inspections of this area of the tail boom for Model SA360C series helicopters up to S/N 1035 and Model SA365C S/N 5003 helicopter. Model SA360C series helicopters S/N 1035 and subsequent, and Model SA365C series helicopters S/N 5004 and subsequent were equipped with modified tail booms prior to delivery from the factory.

In addition, three recent cases of cracked stabilizer spar tubes have been reported at 440, 880, and 1030 hours' total time in service. Separation of the stabilizer from the helicopter did not occur and only the right side of each stabilizer was affected. Telex Service 05–06 Dauphin was issued by Aerospatiale to require an initial and 50-hour interval repetitive inspections for cracks in the spar tube.

Since cracks are likely to occur in the tail boom structure at the stabilizer spar tube mount for certain Model SA360C and SA365C series helicopters and since cracks are likely to occur in the stabilizer spar tube on Model SA360C and SA365C series helicopters an airworthiness directive is being adopted to require, within 200 hours' time in service, modification of the tail boom for certain helicopters as specified in Aerospatiale Service Bulletin No. 53–01 dated July 17, 1978, rather than requiring repetitive inspections of the tail boom at 20-hour intervals. The AD additionally requires an initial and repetitive inspection at 50-hour intervals for cracks in the stabilizer spar for all Aerospatiale Model SA360C and SA365C series helicopters.

Cracks in unmodified tail booms may occur at the stabilizer attachments and significantly weaken the tail boom structure. Cracks in the stabilizer spar may result in separation of the stabilizer from the helicopter. Loss of the stabilizer may cause possible loss of helicopter control. Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists, for making the amendment effective in less than 30 days.

Request for Comments on the Rule

Although this action is in the form of a final rule, and was not preceded by notice and public procedure, comments are invited on the rule. When the comment period ends, the FAA will use the comments submitted, together with other available information, to review the regulation. After the review, if the FAA finds that changes are appropriate, it will initiate rulemaking proceedings to amend the regulation. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule and determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule.

All comments submitted will be available, both before and after the closing date for comments, in the Office of Regional Counsel, Federal Aviation Administration, Southwest Region, 4400 Blue Mound Road, Fort Worth, Texas, for examination by interested persons. A report summarizing each FAA-public contact, concerned with the substance of the AD, will be filed in the docket.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13. of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Societe Nationale Industrielle Aerospatiale (SNIAS). Applies to Models SA360C and SA365C series helicopters certificated in all categories.

Compliance is required as indicated.

To improve fatigue resistance and prevent possible cracks in the tail boom stabilizer spar attachment structure and to detect possible cracks in the stabilizer spar, accomplish the following:

(a) For Model SA360C series helicopters S/N up to and including 1034 and SA365C helicopter S/N 5003 only, comply with the following within 200 hours' time in service after the effective date of this AD unless already accomplished.

Modify the tail boom at the stabilizer tube mount in accordance with Aerospatiale Service Bulletin No. 53.01 dated July 17, 1978, by installing modification AMS 365A.07.1310 or by installing an equivalent modification approved by Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Office.

(b) For all Model SA360C series and SA365C series helicopters equipped with spar tubes, P/N 360A13.0012.01, comply with the following within 10 hours' time in service after the effective date of this AD unless already accomplished and thereafter at intervals not to exceed 50 hours' time in service from the last inspection.

(1) Remove the stabilizer spar tube, from the helicopter and inspect the spar tube for cracks at the location of the weld beads for spacers and spar tube junction using a dye penetrant or equivalent inspection method.

(2) If the spar tube is cracked discard the tube and install a serviceable tube before further flight and conduct repetitive inspections as specified in subparagraph (b).

(c) Equivalent means of compliance with the AD may be approved by the Chief Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Offices.

(Aerospatiale SA360 Dauphin Service Bulletin No. 05.01 pertains to tail boom inspections. Telex Service 05–06 Dauphin pertains to the stabilizer spar tube inspections. Modification No. AMS07–3255 may improve the spar tube to spacer weld joint.)

This amendment becomes effective December 21, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the various courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Fort Worth, Texas, on December 4, 1981.

F. E. Whitfield,

Acting Director, Southwest Region.

14 CFR Part 71

[Airspace Docket No. 81-ASW-46]

Alteration of Transition Area: Austin, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment will alter the transition area at Austin, TX. The intended effect of the amendment is to provide additional controlled airspace for aircraft executing new instrument approach procedures to the Lakeway Airpark, Austin, TX. This amendment is necessary to provide controlled airspace for aircraft using the Austin VORTAC and RNAV procedures. Coincident with this action, the airport is changed from visual flight rules (VFR) to instrument flight rules (IFR).

EFFECTIVE DATE: March 18, 1982.

FOR FURTHER INFORMATION CONTACT: James L. Owens, Airspace and Procedures Branch (ASW–536), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101, telephone (817) 624–4911, extension 302.

SUPPLEMENTARY INFORMATION: On October 15, 1981, a notice of proposed rulemaking was published in the Federal Register (46 FR 50806) stating that the Federal Aviation Administration proposed to alter the Austin, TX, transition area. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the Federal Aviation Administration. One comment was received from the Air Transport Association of America (ATA). They interposed no objection provided the instrument approach procedures to the Lakeway Airpark do not affect operations at the Robert Mueller Airport. This comment was given due consideration, and it has been determined that VFR and IFR operations at Lakeway Airpark will not have any effect on VFR or IFR procedures at Robert Mueller Airport. Except for editorial changes, this amendment is that proposed in the notice.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, by the Administrator, Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR § 71–181) as republished (46 FR Part 540) is amended, effective 0901 GMT, March 18, 1982, by adding the following:

Austin, TX

* * * and within a 6.5-mile radius of the Lakeway Airpark (latitude 30°21'30" N., longitude 97°59'46" W.), and within 2.5 miles each side of the 349° bearing from the Lakeway Airpark extending from the 6.5-mile radius area to 8.5 miles north, and within 3 miles each side of the 284° bearing from the Lakeway Airpark extending to 13 miles west of the Lakeway Airpark.

(Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.61(c))

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 1103; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal.

Issued in Fort Worth, TX, on December 7, 1981.

F. E. Whitfield,

Acting Director, Southwest Region.

14 CFR Part 71

[Airspace Docket No. 81-AWP-28]

Designation of Federal Airways, Area Low Routes, Controlled Airspace, and Reporting Points; Revocation of Control Zones

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revokes the control zones at Flagstaff, Arizona, (Pulliam Airport), and San Diego, California (Brown Field). This amendment will return to public use airspace no longer required for the protection of aircraft arriving/departing Pulliam and Brown Field Municipal Airports.

EFFECTIVE DATE: December 17, 1981.

FOR FURTHER INFORMATION CONTACT: Thomas W. Binczak, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261; telephone (213) 536–6181.

SUPPLEMENTARY INFORMATION:

History

The purpose of this amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to revoke the designated airspace associated with Pulliam Field and Brown Field Municipal Airports. This amendment is necessary since the airport traffic control towers have been temporarily closed because of the necessity of the FAA to redeploy all available resources and the discontinuance of weather reporting. The basic requirements for establishing or retaining a control zone are that there must be communication capability to the surface of the primary airport, and weather observations, both hourly and special, be taken and reported to the air traffic control facility having jurisdiction of the controlled airspace.

The Rule

This amendment to Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) revokes the Flagstaff, Arizona (Pulliam Field), and San Diego, California (Brown Field), control zones. Because this action reduces a burden on the public by reducing controlled airspace, I find notice and public procedure and publication 30 days before the effective date are unnecessary. Part 71 of the Federal Aviation Administration Regulations (14 CFR Part 71) was republished in the **Federal Register** on January 2, 1981 (46 FR 455).

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 71.171 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (46 FR Part 455) is amended, effective 0901 GMT, December 15, 1981, to read:

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a), and 1510, Executive Order 10845 (24 FR 9565); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); and 14 CFR 11.69)

Flagstaff, Arizona (Pulliam Airport)

San Diego, California (Brown Field)

Revoked.

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Precedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; and (4) will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Los Angeles, California, on December 7, 1981.

H. C. McClure,

Director, Western Pacific Region.

[FR Doc. 81-35838 Filed 12-16-81; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 71

[Airspace Docket No. 81-NE-07]

Alteration of the Brunswick, Maine Control Zone

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: The description of the Brunswick, Maine, Control Zone serving Brunswick Naval Air Station is amended by adding protected airspace for aircraft executing a new VOR/DME or TACAN Runway 19L Standard Instrument Approach Procedure (SIAP).

DATES: Effective December 21, 1981. Comments on the Rule must be received on or before February 21, 1982.

FOR FURTHER INFORMATION CONTACT: Richard Carlson, Operations Procedures and Airspace Branch, ANE–535, Federal Aviation Administration, Air Traffic Division, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 273–7285.

SUPPLEMENTAL INFORMATION: As a result of the addition of a new approach procedure serving the Brunswick Naval Air Station, it is necessary to change the present description of the Brunswick, Maine, Control Zone, by adding protected airspace for aircraft executing a new VOR/DME or TACAN Runway 19L Standard Instrument Approach Procedure (SIAP).

Since this amendment is minor in nature and imposes no additional burden on any person, notice and public procedure herein are unnecessary.

Request for Comments on the Rule

Although this action is in the form of a Final Rule, which was not preceded by notice and public procedure, comments are invited on the Rule. When the comment period ends, the FAA will use the comments submitted, together with other available information, to review the regulation. After the review, if the FAA finds that changes are appropriate, it will initiate rulemaking proceedings to amend the regulation. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the Rule and determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the Rule that might suggest the need to modify the Rule.

The Rule

The FAA is amending subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by amending the description of the Brunswick, Maine, Control Zone.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration amends § 71.171 of Part 71 of the Federal Aviation Regulations (14 CFR of Part 71) as follows:

1. Section 71.171 of Part 71 of the Federal Aviation Regulations is amended by changing the Brunswick, Maine, Control Zone to read as follows:

Within a 5-mile radius of NAS Brunswick (latitude 43°53'35" N, longitude 69°56'20" W) within 2 miles each side of the NAS Brunswick VORTAC 166° radial, extending from the 5-mile radius zone to 8 miles south of the VORTAC within 2 miles each side of the NAS Brunswick VORTAC 015° radial, extending from the 5-mile radius zone to 10 miles northeast of the VORTAC.

(Secs. 307(a) and 313(c), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348(a) and 1354(c); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c) and 14 CFR 11.69))

Note.—The FAA has determined that this document involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 28, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; and (4) will not have a significant economic impact on a substantial number of

small entities under the criteria of the Regulatory Flexibility Act.

Issued in Burlington, Massachusetts, on December 4, 1981.

Robert E. Whittington,

Director, New England Region.

[FR Doc. 81-36036 Filed 12-16-81; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 121

[Docket No. 21269; Amdt. No. 121-176]

Certification and Operations: Domestic, Flag, and Supplemental Air Carriers and Commercial Operators of Large Aircraft; Emergency Evacuation Demonstration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment allows a Part 121 certificate holder to use the results of a successful emergency evacuation demonstration conducted either by a manufacturer under Part 25 of the Federal Aviation Regulations (FAR), or by another Part 121 certificate holder, and to conduct a partial demonstration of emergency evacuation procedures, if certain conditions are met. This amendment reduces the number of demonstrations, reduces the exposure to injury of participants required in those demonstrations, and still maintains the highest level of safety in air transportation. In addition, it reduces burdens on air carrier certificate holders and, therefore, is consistent with Executive Order 12291 and the Regulatory Flexibility Act.

EFFECTIVE DATE: January 18, 1982.

FOR FURTHER INFORMATION CONTACT: Marvin J. Walker, Regulatory Review Branch, AVS-22, Safety Regulations Staff, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 775-8714.

SUPPLEMENTARY INFORMATION:

Background

In the early 1960's National Transportation Safety Board (NTSB) accident reports showed that many deaths and injuries to passengers resulted from post-accident asphyxiation because passengers were unable to evacuate the airplane quickly. The problem of airplane emergency evacuation was further highlighted during an FAA public hearing on June 23, 1964, which led to the issuance of Amendment No. 121-2 (30 FR 3200; March 9, 1965), requiring emergency evacuation demonstrations. Although the amendment achieved the desired result of showing that the airplane could be successfully evacuated within an acceptable time, the demonstrations often resulted in injuries to participants, raising questions about the need for repeated demonstrations. Since the amendment took effect, the FAA has issued over one hundred exemptions from the requirement for emergency evacuation demonstrations. These exemptions proved to be effective in reducing injuries resulting from emergency evacuation demonstrations without compromising passenger safety. Although there is no injury reporting requirement associated with an air carrier's or manufacturer's demonstration of an emergency evacuation, FAA records reveal 169 injuries to participants in a sampling of eight emergency evacuation demonstrations conducted during the past 9 years.

An examination of aircraft evacuations in actual emergency situations provides useful insight into the nature and severity of evacuation-related injuries. Based on data obtained from the FAA and the NTSB, the FAA Civil Aeromedical Institute (CAMI) accident and incident data bank lists 112 evacuations involving 8,888 persons, with 57 of these evacuations producing 157 serious and 465 minor evacuation-related injuries during the 5-year period of 1970-1974. These evacuations were prompted by bomb threats, tire failures, smoke in the cabin, and other abnormal operating situations. Injuries to passengers ranged from simple abrasions to slide burns, lacerations, and fractures.

Based on the number of evacuation-related injuries sustained during repeated evacuation demonstrations conducted under Parts 25 and 121, the FAA issued Notice of Proposed Rulemaking No. 81-1 which was published in the **Federal Register** on January 19, 1981 (46 FR 5484). Proposal number 11-3 would allow a Part 121 certificate holder to use the results of a successful demonstration conducted either by a manufacturer under Part 25, or by another Part 121 certificate holder, rather than to conduct a demonstration of emergency evacuation procedures, if certain conditions are met. The certificate holder instead would conduct a partial demonstration by: (1) opening 50 percent of the floor-level exits; (2) opening 50 percent of the non-floor-level exits whose opening by a flight attendant is defined as an emergency evacuation duty under § 121.397; and (3) deploying 50 percent of the exit slides all within 15 seconds. The flight attendants would be selected by the FAA at random and they would not be coached on the procedures just before the demonstration. However, if a demonstration had not been previously conducted, the rule would continue to require a demonstration upon: (1) the initial introduction of a type and model of airplane into passenger-carrying operations; (2) upon increasing the passenger seating capacity by more than 5 percent; and (3) following any alteration that significantly changes the passenger cabin seating configuration or emergency exits.

Proposal number 11-3 also recognized the regulatory action taken in Airworthiness Review Amendment No. 7 (43 FR 50578; October 30, 1978), in which the emergency evacuation demonstration requirements of § 25.803 were upgraded to those required by Part 121 so that one demonstration would suffice for the issuance of, or changes to, an aircraft type certificate, and also for compliance with the operational requirement in § 121.291.

Proposal number 11-3 also would clarify the requirements concerning successfully demonstrating ditching procedures for those certificate holders who are operating a type and model of airplane for which a successful ditching demonstration had been previously conducted by another Part 121 operator. Finally, proposal 11-3 would provide for the inflation of only one life raft since such a demonstration provides a sufficient test of safety procedures. The FAA is processing proposal 11-3 separately from the others contained in Notice No. 81-1 due to the public interest it has generated.

Discussion

This amendment is the result of a number of significant items raised in the comments on proposal number 11-3 and a recently completed FAA study of the emergency evacuation demonstrations conducted over the past 10 years. The comments and study show the need for a change in the presentation of the final rule, but not its overall effect. Specifics concerning the comments and the study will be discussed separately. In general, the study has shown that there are three problems in ensuring that an aircraft can be safety evacuated: (1) having an aircraft which has the capability of being evacuated within the established time limit; (2) providing training to enable the crewmembers to perform emergency evacuation duties which will ensure that the evacuation is conducted as efficiently and effectively as possible; and (3) having a proper maintenance program to ensure that the aircraft equipment will function properly. Under

proposal 11–3 and this amendment, problem (1) is resolved by a demonstration conducted by the manufacturer during aircraft certification or by a Part 121 operator. Problems (2) and (3) are resolved by a partial demonstration. This demonstration shows that crewmembers who have been trained by the carrier and randomly selected for the demonstration can prepare the aircraft within a 15-second time limit. This time limit has been shown to be more conservative than the average time needed to prepare the aricraft in past evacuation demonstrations. The partial demonstration also provides a test to ensure that all aircraft equipment functions within its standards.

Under paragraphs (a)(1) thru (a)(3) of proposal 11–3, a Part 121 demonstration would be required if there was an increase in passenger seating capacity by more than 5 percent, or following the rebuilding or alteration of an aircraft, or the introduction of a new aircraft. Basing the need for a full demonstration upon these occurrences is unnecessary, since a demonstration would have already been required under § 25.803 if any of these conditions occur. For example, if an operator desired to change the seating configuration of its aircraft, it would be required as part of obtaining FAA approval of the change, to show the emergency evacuation capabilities under the provisions of § 25.803. To require an emergency evacuation demonstration under Part 121 would be redundant and inconsistent with the provisions of Executive Order 12291. Similar provisions in proposed paragraphs (b) and (c) have been revised to ensure the purpose of the partial demonstration is achieved. That purpose is to show that the carrier's procedures, training program, and maintenance programs are capable of preparing the aircraft and deploying the emergency equipment within 15 seconds.

With the revisions just described, clarification has been provided as to when a partial demonstration needs to be repeated by a carrier. The partial demonstration must be conducted upon initial introduction of an aircraft and any time there is a change in the number, location, or emergency evacuation duties or procedures of flight attendants who are required by § 121.391; or a change in the number, location, type of emergency exits, or type of opening mechanism on emergency exits available for evacuation. However, it is not intended that this rule would be applied in the case of a minor change in the flight attendant emergency evacuation duties or procedures which would not affect the outcome of the demonstration. Through this clarification, the carrier has the flexibility to make modifications to its operation while maintaining safety by ensuring that a partial demonstration has shown that the operation will result in preparing the aircraft within the 15-second safety tolerance.

Comments

Six persons submitted written views on proposal number 11–3. Three of these persons represented flight attendant unions. One person represented an aviation consumer group. These individuals representing their respective interest groups state that the proposal, if adopted, would reduce the level of safety afforded the public. These organizations did not submit specific information of data to substantiate their positions. Two commenters generally favor the proposal but offer suggested changes discussed later.

One commenter opposes the proposal, claiming it will bring an end to the assurance that an airline crew can evacuate an airplane in the very short time after crash before escape becomes difficult, if not impossible. The commenter contends that crew training in emergency evacuation can vary from airline to airline, arguing that because one airline can evacuate an airplane in the required time does not mean that another can do the same. This commenter asserts that this may especially be the case when one airline has no experience in wide-body airplanes, or when a new carrier has no history of crew training or evacuation experience. This amendment meets those concerns. Each Part 121 certificate holder must conduct a partial demonstration of emergency evacuation procedures: (1) upon the initial introduction of a type and model of airplane into passenger carrying operations; (2) upon changing the number, location, or emergency evacuation duties or procedures of flight attendants required by § 121.391; or (3) upon changing the number, location, type of emergency exits, or type of opening mechanism on emergency exits available for evacuation. Thus, the rule assures the FAA and the traveling public that the crew training and procedures of each operator for each type of airplane are tested and that the crew is adequately trained to prepare each airplane, whether narrow- or wide-bodied, for an emergency evacuation.

Another commenter objects to the need to conduct partial demonstrations without passengers under any circumstances when an evacuation has been satisfactorily demonstrated by either the manufacturer or a Part 121 certificate holder on the specific type and model of airplane having no more passenger seats than the number demonstrated. The commenter contends that the FAA inspector who oversees the carrier can assure that its training program and procedures meet the level of proficiency required for safety without heeding to conduct a partial demonstration. On the contrary, demonstration of emergency evacuation procedures is the final dress rehearsal for an emergency evacuation. The demonstration assures the FAA and the traveling public that a Part 121 certificate holder's flight attendant training program provides a successful evacuation if an emergency occurs. The adequacy of the certificate holder's training program is reflected in the crew's performance during the demonstration.

Another commenter states that flight attendant training varies from airline to airline and that some operators are better able than others to meet the present full-scale emergency evacuation requirements. The commenter claims that a requirement for only one demonstration conducted by either the manufacturer or a Part 121 certificate holder is totally inadequate. This is not so. While some variation exists in flight attendant training programs among the airlines, all training programs must ensure the level of safety as required by the regulations. There is no evidence (and the commenter submits none) to show that requiring a single emergency evacuation demonstration is inadequate. No substantive data or information exist to indicate that repetitive emergency evacuation demonstrations offer a greater level of safety to the air traveler.

Two commenters suggest changing proposal number 11–3 to authorize the use of analysis to show that an airplane can be successfully evacuated within 90 seconds. This is not necessary because the manufacturer or a Part 121 certificate holder will already have shown that the airplane is capable of being evacuated within 90 seconds. Under this amendment, however, the operator must show that the airplane maintenance and crew training programs result in the airplane being ready for evacuation within 15 seconds.

One commenter supports proposals number 11–3, but suggests that the reference to aisle width and seat pitch be deleted because seating capacity changes are accomplished by varying these and other parameters. This comment has merit. Cabin configuration, including seat pitch and aisle width, are

varied to reduce or increase the passenger seating capacity. The operator cannot increase the seating capacity beyond the maximum passenger seating capacity certificated for the type and model. In addition, Parts 25 and 121 require a minimum aisle width as well as accessibility to the emergency exists. Thus, the references to passenger cabin seating configuration, seat pitch, and aisle width are not necessary and are deleted from § 121.291, as adopted. The commenter also suggests that the acceptable time limit for the exits and slides to be ready should be 15 seconds. The commenter claims that it is inappropriate to refer to a shorter period which may have been achieved during a demonstration conducted under Part 25. This comment has merit, since a time limit of 15 seconds is adequate to ready the exists and slides, as discussed later under "FAA Study." The reference to a lesser period is deleted from § 121.291 as adopted.

In addition to the changes mentioned above, other changes are adopted in this amendment. Section 121.291(a) is changed to incorporate the current § 121.291(c). This editorial change recognizes the amendment to § 25.803 made in 1978 which made the demonstration required of a manufacturer and the demonstration required of a Part 121 certificate holder essentially equivalent. Thus, a demonstration conducted under § 25.803 by a manufacturer after November 30, 1978, or a demonstration conducted by a Part 121 certificate holder under § 121.291 after October 23, 1967, (the date at which the rule was amended to provide for a 90-second time limit as opposed to a 120-second time limit) is acceptable under § 121.291(a) as adopted. In addition, any change in the type design of an airplane must be accomplished under Part 25. Thus, the emergency evacuation requirements of § 25.803 must be met if the type design change affects the emergency evacuation procedures.

Section 121.291, as adopted, also allows a Part 121 certificate holder to increase the seating capacity of an airplane up to the maximum number of passengers certificated for the airplane under Part 25. The limitation to no more than a 5 percent increase in seating capacity (proposed in §§ 121.291(a)(1) and 121.291(b)(1)) is unnecessary and, therefore, deleted. Repeating a demonstration due to increased seating capacity alone is not required, unless the increase is more than the maximum number approved in the type certificate for the airplane. This is because the ability to evacuate the entire aircraft at its maximum capacity has already been demonstrated. However, after an airplane type and model is introduced into passenger-carrying operations, the certificate holder must conduct a partial demonstration upon either changing the number, location, or emergency evacuation duties or procedures of flight attendants required by § 121.391; or upon changing the number, location, type of emergency exits, or the type of opening mechanism on emergency exits available for evacuation. Section 121.391(a) requires an additional flight attendant for each unit (or part of a unit) of 50 passenger seats. Thus, any seating capacity change from one unit of 50 to the next unit would mean an increase in the number of flight attendants which, in turn, would require another partial demonstration. For example, an operator who conducted a partial demonstration of an airplane with 130 passengers could, without repeating the demonstration, either reduce the number of passengers or increase the number of passengers up to 150 without changing the number of flight attendants. Of course, the conditions stipulated in § 121.291(b) (2) and (3) must be met and the airplane must be certificated for 150 passengers. If the airplane was certificated for more than 150 passengers, the operator may wish to increase the passenger seating capacity from 130 to more than 150 passengers. Then, § 121.391 requires an additional flight attendant and this, in turn, would require another partial demonstration. This is because of the addition of one required flight attendant, and because of probable changes in the duties and location of the three flight attendants already required on the airplane.

The use of a practical examination is authorized under § 121.291(c)(3) as adopted. A practical examination, given to flight attendants before they conduct a partial demonstration, will produce results equivalent to those achieved in a written examination on airplane emergency equipment and procedures. Current § 121.291(b), which contains simulated ditching requirements, is redesignated § 121.291(d). No comments were received on proposed § 121.291(e) which simplified the simulated ditching requirements for Part 121 certificate holders seeking to operate airplanes on which one or more successful ditching demonstrations had been previously conducted. An editorial change is made to § 121.291(e), as adopted, to differentiate between airplanes with stowed life rafts and those equipped with the combination slide/life raft. Section 121.391(b) refers to the use of additional flight attendants in an emergency evacuation demonstration. That section is revised editorially to add a refernece to § 121.291(b) for consistency, whether the demonstration is conducted under either § 121.291(a) or § 121.291(b).

FAA Study

The FAA conducted a study to ensure that the safety standards in this amendment are equivalent to those provided by the current regulation. The FAA examined over 10 years of data on emergency evacuation demonstrations. The data consisted of 251 evacuation demonstrations conducted before 1967 when § 121.291 required total evacuation within 120 seconds; 259 evacuation demonstrations conducted under the current rule which requires total evacuation within 90 seconds; and 90 partial demonstrated conducted under exemption where flight attendants demonstrated their ability to ready the exits and slides within 15 seconds with no passengers involved.

Data on evacuation demonstrations conducted under the current rule (total evacuation within 90 seconds), was analyzed and compared to demonstrations conducted under exemptions (exits and slides ready within 15 seconds). In 136 evacuation demonstrations conducted under the current rule, the average time taken to ready the exits and slides for the first passenger to evacuate was 19.5 seconds. By comparison, in 60 partial evacuations conducted under exemptions, the average time to ready the exits and slides was 13.4 seconds. This is 6.1 seconds less than the average time to ready the exits and slides during a demonstration conducted under the current rule.

The reduced time to ready the exits and slides in a partial evacuation may be explained in part by the lack of passenger interference. However, 134 total evacuation demonstrations under the current rule were examined to determine the average time to evacuate the last person when the exits and slides were ready in 15 seconds or less and when they were ready in more than 15 seconds. In the 53 evacuation demonstrations where the exits and slides were ready in 15 seconds or less, the average time to evacuate the last person was 75.9 seconds. In the 81 remaining evacuations where the exits and slides were ready in more than 15 seconds, the average time to evacuate the last person was 78.6 seconds.

Thus, when the exits and slides were ready in 15 seconds or less, a savings of 2.7 seconds was achieved in the average

time to evacuate the airplane as compared to those tests in which it took more than 15 seconds to ready the exits and slides. Thus, the partial demonstration under the exemptions required the air carrier to exhibit faster execution of a vital phase of the evacuation process than is exhibited under the current rule. Concentration and compression of the crucial exit/slide preparation phase allows more time for the passenger evacuation phase and, therefore, establishes a more stringent safety standard than the current rule.

Research tests and evacuation demonstrations show that passengers tend to form continuous lines at available exits when evacuating an airplane. The time to ready the exits and slides allows passengers to gather at the exits, resulting in a continuous flow rate for each type of exit until the last person has evacuated. An examination of 89 evacuation demonstrations revealed an average continuous flow rate of 52.2 persons each minute through Type I floor-level door exits (24x48 inches); 85.8 persons each minute through Type A floor-level door exits (42x72 inches); 39.2 persons each minute through Type III window exits (20x36 inches); and 36 persons each minute through Type IV window exits (19x26 inches). The rate of passenger egress from the same type exit on different make and model airplanes reveals consistent flow rates. Thus, the study concludes that with rare exception, the rates of passenger egress are not significantly different within each type of exit and that changes in the passenger cabin configuration, seat pitch, and aisle width have no significant bearing on the egress rates if the aircraft certification requirements for minimum aisle width and exit accessibility are met.

Furthermore, summary statistics from 20 model evacuation runs computed by the FAA Civil Aeromedical Institute in Oklahoma City revealed predictable patterns of exit utilization and average overall escape times for each exit. Calculations for overall escape times for each exit can be performed by using the total time from test start to the last passenger leaving that exit. This recently gained knowledge on flow patterns and exit utilization, with Part 25 and Part 121 requirements for minimum aisle width and accessibility to emergency exits, lends support to adopting this rule.

Conclusion

Interested persons have been given an opportunity to participate in the making of this amendment and due consideration has been given to all comments presented. This rule requires the carrier to exhibit a faster execution of a vital phase of the evacuation process than has been required until now. This rule, with concentration and compression of the crucial exit/slide preparation phase, allows more time for the passenger evacuation phase. Also, this rule provides an immediate test "failure" when any of the designated airplane exits fail to open properly or when any of the slides fail to extend fully. The rules now allow utilization of the remaining exits for evacuation. In this regard, the rule adopted here is more stringent than a test conducted under today's rule, which provides that the demonstration is unsatisfactory only if the 90-second time limit is not met.

The partial demonstrations required by this rule demonstrate the effectiveness of the flight crewmember and flight attendant training programs, the evacuation procedures, and the airplane equipment serviceability. Partial evacuation demonstrations show how the airplane is prepared for evacuation by the flight crewmember and flight attendants, while the capability to evacuate a particular airplane is shown by the previously demonstrated evacuation.

This rule eliminates the risk of injury to passengers which occurs in emergency evacuation demonstrations. The risk of injury during repetitive emergency evacuations is very real and significant. For instance, two jumbo jet evacuations, each involving 345 passengers, resulted in 35 injuries in one demonstration and 46 injuries in the other. These injuries included friction burns, abrasions, fractures, and sprains. The rule, as adopted, is a reasonable standard which provides the highest level of passenger safety in air transportation.

Adoption of the Amendment

Accordingly, Part 121 of the Federal Aviation Regulations (14 CFR Part 121) is amended as follows, effective January 18, 1982.

PART 121—CERTIFICATION AND OPERATIONS: DOMESTIC, FLAG, AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

1. By revising § 121.291 to read as follows:

§ 121.291 Demonstration of emergency evacuation procedures.

(a) Each certificate holder must conduct an actual demonstration of emergency evacuation procedures in accordance with paragraph (a) of Appendix D to this part to show that each type and model of airplane with a seating capacity of more than 44 passengers to be used in its passenger-carrying operations allows the evacuation of the full seating capacity, including crewmembers, in 90 seconds or less, if that airplane type and model has not been shown to be in compliance with:

(1) Section 25.803 of this chapter in effect on December 1, 1978, during type certification; or

(2) Section 121.291(a) of this chapter in effect on October 24, 1967.

(b) Each certificate holder must conduct a partial demonstration of emergency evacuation procedures in accordance with paragraph (c) of this section upon:

(1) Initial introduction of a type and model of airplane into passenger/carrying operation, if the certificate holder has not conducted an actual demonstration under paragraph (a) of this section;

(2) Changing the number, location, or emergency evacuation duties or procedures of flight attendants who are required by § 121.391; or

(3) Changing the number, location, type of emergency exits, or type of opening mechanism on emergency exits available for evacuation.

(c) In conducting a partial demonstration each certificate holder must:

(1) Demonstrate the effectiveness of its crewmember emergency training and evacuation procedures by conducting a demonstration, not requiring passengers and observed by the Administrator, in which the flight attendants for that type and model of airplane, using that operator's line operating procedures, open 50 percent of the required floor-level emergency exits and 50 percent of the required non-floor-level emergency exits whose opening by a flight attendant is defined as an emergency evacuation duty under § 121.397, and deploy 50 percent of the exit slides. The exits and slides will be selected by the administrator and must be ready for use within 15 seconds;

(2) Apply for and obtain approval from the Flight Standards District Office maintaining surveillance of its operations before conducting the demonstration;

(3) Use flight attendants in this demonstration who have been selected at random by the Administrator, have completed the certificate holder's FAA-approved training program for the type and model of airplane, and have passed a written or practical examination on

the emergency equipment and procedures; and

(4) Apply for and obtain approval from the FAA certificate-holding office having jurisdiction over its operations before commencing operations with this type and model airplane.

(d) Each certificate holder operating or proposing to operate one or more landplanes in extended overwater operations, or otherwise required to have certain equipment under § 121.339, must show, by simulated ditching conducted in accordance with paragraph (b) of Appendix D to this part, that it has the ability to efficiently carry out its ditching procedures.

(e) For a type and model airplane for which the simulated ditching specified in paragraph (d) has been conducted by a Part 121 certificate holder, the requirements of paragraphs (b)(2), (b)(4), and (b)(5) of Appendix D to this part are complied with if each life raft is removed from stowage, one life raft is launched and inflated (or one slide life raft is inflated) and crewmembers assigned to the inflated life raft display and describe the use of each item of required emergency equipment. The life raft or slide life raft to be inflated will be selected by the Administrator.

2. By revising the introductory text of § 121.391(b) to read as follows:

§ 121.391 Flight attendants.

* * * * *

(b) If, in conducting the emergency evacuation demonstration required under § 121.291 (a) or (b), the certificate holder used more flight attendants than is required under paragraph (a) of this section for the maximum seating capacity of the airplane used in the demonstration, he may not, thereafter, take off that airplane—

* * * * *

(Secs. 313, 314, and 601 through 610 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354, 1355, and 1421 through 1430); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.45)

Note.—Since this amendment is relaxatory in nature, it has been determined that this document: (1) involves a regulation which is not a major rule under Executive Order 12291; (2) is not a significant rule pursuant to the Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) under the criteria of the Regulatory Flexibility Act, I certify that the rule will not have a significant economic impact on a substantial number of small entities since this rule reduces the number of full-scale emergency evacuation demonstrations that need to be conducted, without compromising safety. This in turn reduces the exposure to injury caused by the evacuation demonstrations. A copy of the final regulatory evaluation for this action is contained in the public docket. A copy of that evaluation may be obtained by contacting the person identified above under the caption "For Further Information Contact."

Issued in Washington, D.C., on November 10, 1981.

J. Lynn Helms,

Administrator.

BILLING CODE 4910-13-M

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 240

[Release No. 34-18321; File No. S7-904]

Recordkeeping by Brokers and Dealers

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Commission is adopting a rule under the Securities Exchange Act of 1934 (the "Exchange Act") which requires brokers and dealers to file reports and make and preserve records pursuant to the Currency and Foreign Transactions Reporting Act of 1970 (the "Currency Act") and the regulations of the Department of the Treasury promulgated thereunder.

EFFECTIVE DATE: January 18, 1982.

FOR FURTHER INFORMATION CONTACT: Elizabeth S. York, Division of Market Regulation, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, (202) 272-2376.

SUPPLEMENTARY INFORMATION: The Commission solicited comments to proposed rule 17a-8 in Securities Exchange Act Release No. 34-18073 (August 31, 1981).[1] No comments were received by the Commission in response to the rule proposal. This action adopts the rule as previously proposed.

Background

The Currency and Foreign Transactions Reporting Act of 1970 (the "Currency Act")[2] and the Department of the Treasury regulations (the "Treasury regulations") promulgated thereunder[3] require that certain financial institutions, including securities brokers and dealers, make reports and maintain records on, among other things, domestic currency transactions of more than $10,000 and the import and export of currency and monetary instruments of $5,000 or more.

According to the Currency Act, the Treasury is responsible for implementing and administering the reporting and recordkeeping requirements of the Currency Act. With respect to securities brokers and dealers, the Treasury has delegated to the Commission the responsibility for assuring compliance with the Currency Act and Treasury regulations.[4]

The most effective means of enforcing compliance with the reporting and recordkeeping requirements is through on-site examinations of broker-dealer firms conducted by the Commission and the self-regulatory organizations (the "SROs"). In order to assure compliance and effective oversight by the SROs, the Commission is adopting Rule 17a-8 under the Exchange Act. This rule requires brokers and dealers to file reports and make and retain the records specified in the Treasury regulations. Moreover, brokers and dealers are required to make and retain their records in a manner which identifies the receipt and disbursement of currency in connection with securities transactions.[5]

The Currency Act and Treasury Regulations

The Currency Act requires brokers and dealers to file three types of reports. First, domestic financial institutions are required to report the payment, receipt, or transfer of United States currency or other monetary instruments.[6] Second, any person who exports or imports monetary instruments in an amount exceeding $5,000 is required to file with the Treasury.[7] Finally, any resident or citizen of the United States or person doing business therein who engages in any transaction or maintains any relationship with a foreign financial agency is required to file with the Treasury regarding such relationship.[8]

The Treasury regulations were adopted in 1972, in order to implement the above provisions of the Currency Act. Currently, the Treasury regulations require brokers and dealers to file three different reports. First, they must file a report with the Internal Revenue Service (the "IRS")[9] of any transaction in currency exceeding $10,000.[10] Second, a report must be filed with the Commissioner of Customs[11] when a person exports or imports currency or monetary instruments in an amount

[3] 31 CFR 103.11-103.51, 37 FR 6912 (April 5, 1972).

[4] 31 CFR 103.46(a)(6).

[5] 17 CFR 240.17a-3(a)(1).

[6] 31 U.S.C. 1081.

[7] 31 U.S.C. 1101.

[8] 31 U.S.C. 1121.

[9] 31CFR 103.25(a).

[10] 31 CFR 103.22.

[11] 31 CFR 103.25 (b) and (c).

exceeding $5,000.[12] A final reporting provision requires all persons subject to the jurisdiction of the United States to file a report with the Treasury regarding any financial interest or authority over a bank, securities or other financial account in a foreign country.[13]

In addition to the above reporting requirements, the Treasury regulations require financial institutions to make and preserve certain records. For example, a record of extensions of credit in excess of $5,000, a record of transactions involving the transfer of funds of more than $10,000 to outside the United States and a record of financial interests in foreign financial accounts must be made and retained for five years.[14]

The Treasury regulations also require certain additional records to be made and retained by brokers and dealers. Specifically, a broker or dealer must maintain for a period of five years: (1) a record of its customer's taxpayer identification number; (2) a copy of each document granting authority over a customer's account; (3) each record described in rule 17a–3(a)(1)–(9); and (4) a record of any transaction exceeding $10,000 to or from a person, account or place outside the United States.[15]

Rule 17a–8

Rule 17a–8 requires brokers and dealers to make the records and reports required by the Treasury regulations as outlined above. The rule does not specify the required reports and records so as to allow for any revisions the Treasury may adopt in the future.

Rule 17a–8 requires brokers and dealers to retain the records required by the Currency Act for the time specified in the Treasury regulations. Currently, that time period is 5 years. However, where an Exchange Act rule and Treasury regulation require the retention of identical records for varying periods of time, brokers and dealers are required to retain the records for the longer period of time so as to satisfy the requirements of both the Exchange Act and the Currency Act.

The Commission believes that the rule is consistent with the purposes of the Exchange Act and the Commission's obligation to enforce broker-dealer recordkeeping requirements. Adoption of this rule by the Commission will clarify the authority of the SROs to assure compliance by brokers and dealers with the recordkeeping and retention requirements of the Currency Act.

Statutory Basis and Competitive Considerations

All brokers and dealers affected by this rule are already subject to identical Treasury regulations. Therefore, it appears to the Commission that no burden on competition will be imposed by this rule.

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

The Securities and Exchange Commission, acting pursuant to the Securities Exchange Act of 1934, and particularly sections 3, 10, 15, 17 and 23 thereof, hereby amends Part 240 of Chapter II of Title 17 of the Code of Federal Regulations by adding § 240.17a–8 to read as follows:

§ 240.17a–8 Financial recordkeeping and reporting of currency and foreign transactions.

Every registered broker or dealer who is subject to the requirements of the Currency and Foreign Transactions Reporting Act of 1970 shall comply with the reporting, recordkeeping and record retention requirements of Part 103 of Title 31 of the Code of Federal Regulations. Where Part 103 of Title 31 of the Code of Federal Regulations and § 240.17a–4 of this chapter require the same records or reports to be preserved for different periods of time, such records or reports shall be preserved for the longer period of time.

Regulatory Flexibility Act Considerations

Pursuant to 5 U.S.C. 601 et seq., notice was published on September 8, 1981, that the Chairman of the Commission had certified that the proposed rule, if adopted, would not have a significant economic impact on a substantial number of small entities, as defined in the Regulatory Flexibility Act. No comments were received concerning the certification. Therefore, the Commission does not believe that the rule adopted herein will have a significant impact on small, or any other, broker-dealers.

By the Commission.

George A. Fitzsimmons,

Secretary.

Counsel, Justice Management Division, Department of Justice, Room 6239, 10th and Constitution Avenue, N.W., Washington, D.C. 20530.

FOR FURTHER INFORMATION CONTACT: William J. Snider (202–633–3452).

SUPPLEMENTARY INFORMATION: This rule amends 28 CFR 16.96 by removing the exemption of this system from subsection (d) of the Privacy Act.

Since removal of this exemption would be in the public interest, it has been determined that it is impracticable and unnecessary to provide opportunity for public comment and that it is contrary to the public interest to delay the effective date of this rule. This determination is made in accordance with 5 U.S.C. 553(b)(B). Further, this rule is exempt from the application of Executive Order 12291 pursuant to section 1(a)(3) thereof.

Accordingly, pursuant to the authority vested in the Attorney General by 5 U.S.C. 552a and delegated to me by Attorney General Order No. 793–78, 28 CFR 16.96 is hereby amended as described below.

Dated: December 1, 1981.

Kevin D. Rooney,

Assistant Attorney General for Administration.

PART 16—PRODUCTION OR DISCLOSURE OF MATERIAL OR INFORMATION

§ 16.96 [Amended]

Section 16.96 of Title 28 of the Code of Federal Regulations is amended by removing paragraphs (j) and (k).

(5 U.S.C. 553(b)(B))

BILLING CODE 4410–02–M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 82

[CGD 81–087]

Disestablishing of COLREGS Demarcation Lines for Puget Sound and Adjacent Waters of Northwest Washington

AGENCY: Coast Guard, DOT.

ACTION: Interim final rule.

SUMMARY: The Coast Guard is amending those regulations which establish a Line of Demarcation in the Strait of Juan de Fuca, Haro Strait, and the Strait of Georgia in western Washington. This Line of Demarcation separates the waters on which the International Rules for the Prevention of Collisions at Sea, 1972 (COLREGS) apply and those waters where the Inland Navigational Rules apply. At present, vessels navigating from the high seas and Canadian waters into the waters of western Washington must comply with COLREGS until they reach the vicinity of Dungeness Spit, and then must comply with the Inland Rules as they continue into Puget Sound and adjacent waters. Elimination of the Line of Demarcation will simplify the transit of all vessels between the high seas, Canadian waters and Puget Sound. This will result in the application of identical or very similar navigation rules in all waters in the area and should enhance the safety of all vessels.

EFFECTIVE DATES: This regulation becomes effective on December 24, 1981.

ADDRESS: Comments should be mailed to Commander Roger Pike, Chief, Port Safety Branch, Thirteenth Coast Guard District, 915 Second Ave., Seattle, Washington, 98174, (206) 442–5537. The comments will be available for inspection and copying at this location. Normal office hours are between 8:00 am and 4:00 pm, Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Commander Roger Pike, Port Safety Branch, Thirteenth Coast Guard District, 915 Second Ave., Seattle, Washington, 98174, (206) 442–5537.

SUPPLEMENTARY INFORMATION: An Advance Notice of Proposed Rulemaking was published on April 16, 1981 (46 FR 22207) under Docket 80–119. This notice announced that the Coast Guard was considering amending the regulations governing vessel operation on the waters of northwestern Washington, including the Puget Sound Vessel Traffic Service Area (VTS). This arose from the increase in vessel traffic in these waters and the increasing number of conflicts between the various users. A public hearing was held in Seattle, Washington, on July 3, 1981, to discuss the means of alleviating the problem. Nearly all of the commenters at the public hearing recommended that an open conference be held to enable the public to fully participate in finding solutions that would have broad support. The Coast Guard adopted this approach and on October 13–14, 1981, conducted an open conference. Working groups were formed from among the conferees to study specific areas. The conference, in plenary session, adopted a number of recommendations, including that the Line of Demarcation between international and inland waters be abolished. The working group for the Rules of the Road, with broad support of the conferees, stated that it would be desirable for the area described as Puget Sound and adjacent waters to be governed by the COLREGS.

Without this rulemaking the existing navigation rules would be replaced on December 24, 1981, by a new set of rules which are modeled on the COLREGS. While quite similar there are several significant differences between the new Inland Navigational Rules and the COLREGS. Among these are different navigational lighting requirements and differing signals between approaching vessels. With the implementation of the new Inland Rules the Puget Sound area would be under the new rules while the adjoining Canadian waters and the approaches to the Sound would remain under the COLREGS. Since many of the vessels using the Sound also navigate in waters where COLREGS apply, the use of two different sets of navigation rules is a possible source of confusion and is an unnecessary burden.

The Coast Guard has determined that the use of the COLREGS throughout Puget Sound will provide a reasonable solution to the problem. Unless implemented promptly, persons navigating in Puget Sound would be operating under three different sets of navigational rules within a short period of time. The current statutory navigation rules would be replaced by the new Inland Navigation Rules on December 24. The subsequent adoption of the COLREGS in Puget Sound would then create the need to learn a third set of rules. Some of the confusion which naturally arises from a change in rules could be reduced by implementing the COLREGS in the waters of western Washington on December 24, instead of the new Inland Navigation Rules.

Although this document is issued as an interim final rule comments are solicited from the public and will be considered by the Coast Guard. Comment is specifically solicited as to any problems which may arise in complying with the technical lighting requirements of the COLREGS. Comments should be directed as indicated under "Address."

DRAFTING INFORMATION: The principal persons involved in this rulemaking are CDR Roger Pike, Thirteenth Coast Guard District, Seattle, Washington, and LT Michael Tagg, Office of the Chief Counsel, U.S. Coast Guard, Washington, D.C.

REGULATORY ANALYSIS: This interim final rule has been reviewed under the Policies and Procedures for Simplification, Analysis and Review of Regulations (DOT Order 2100.5 of May

22, 1980) and found to be non-significant. The implementation of the COLREGS in Puget Sound will affect the same businesses, individuals, and government bodies as would be affected by the new Inland Rules. Most commercial vessels and many of the pleasure vessels operating on Puget Sound also operate on waters that are subject to the COLREGS, and are already equipped to comply with those rules. The greatest impact of the rulemaking will be on the owners of vessels, primarily small pleasure boats, whose operation is limited to Puget Sound and those adjacent waters presently covered by the Inland Rules. Complying with the COLREGS will impose a slightly greater expense on this group than would be imposed by the new Inland Rules, due to the different navigation lights requirements and the lack of a grandfather clause for existing vessels.

The new Inland Rules will require power driven vessels to have a masthead light, sidelights and a sternlight. Those less than 12M (39'4") may exhibit an all-around white light and sidelights as an optional configuration. Except for power driven vessels under 7M (23') whose maximum speed does not exceed 7 knots, COLREGS requires all power driven vessels less than 50M (164') to have a masthead light, sidelights and a sternlight. Under both COLREGS and the new Inland Rules sailboats under 7M need only have a white light available. Sailboats over 7M must have sidelights and a sternlight. On sailboats less than 20M (65'7") combination lights are permitted. A sailboat under power or a combination of sail and power must display the lights required of power driven vessels.

Some power driven vessels under 12M that are not presently equipped to meet COLREGS will be required to replace an all-around white light with a masthead light and install a sternlight. Motor boats from 26' through 65' that carried an all-around white light, masthead light and sidelights, as permitted by the Motorboat Act of 1940, will be required to modify the all-around light and/or replace it with a sternlight. The cost of these modifications will vary depending on the size of the vessel and the quality of the equipment installed. On those vessels most likely to be affected, it is anticipated that the maximum cost should be no more than $100 per vessel. This expense will be somewhat offset by the ability of COLREGS equipped vessels to operate in both Inland and COLREGS waters. The Inland Navigational Rules Act considers COLREGS equipped vessels to be in compliance with the Act, whereas vessels equipped under the Motorboat Act of 1940 are not permitted to operate to COLREGS waters.

Because of the time constraints involved in the implementation of the Inland Navigational Act on December 24, 1981, the Coast Guard, for good cause, finds that notice and public procedure thereon are impracticable, and that the effective date of the rulemaking must be in less than 30 days.

The regulation is also non-major under Executive Order 12291. The Order defines a major rule as one which has an annual effect on the economy of $100 million, a major increase in costs, or a significant adverse effect on the economy. As noted above, this regulation will have no such impact.

The Regulatory Flexibility Act (94 Stat. 1164, 5 U.S.C. 601) requires a review of a proposed regulation for its effect on small businesses, organizations and governmental bodies. Although, in this case, a notice of proposed rulemaking is not being issued, it is not anticipated that these regulations will have a significant economic impact on any such entities in the Puget Sound area. The COLREGS requirements are quite similar to those which would be imposed under the Inland Rules. The major difference, as noted, lies in the navigation lights. The cost imposed by the change is minor compared to the overall cost of a vessel.

It is therefore certified, pursuant to section 605(b) of the Regulatory Flexibility Act, that this regulation will not have a significant economic impact on a substantial number of small entities.

PART 82—72 COLREGS; INTERPRETIVE RULES

In consideration of the foregoing, the COLREGS Demarcation Lines, 33 CFR Part 82, are amended as follows:

1. § 82.1385 is revised to read:

§ 82.1385 Strait of Juan de Fuca.

The 72 COLREGS shall apply on all waters of the Strait of Juan de Fuca.

2. § 82.1390 is revised to read:

§ 82.1390 Haro Strait and Strait of Georgia.

The 72 COLREGS shall apply on all waters of the Haro Strait and the Strait of Georgia.

3. § 82.1395 is added to Part 82 to read as follows:

§ 82.1395 Puget Sound and Adjacent Waters.

The 72 COLREGS shall apply on all waters of Puget Sound and adjacent waters, including Lake Union, Lake Washington, Hood Canal, and all tributaries.

(33 U.S.C. 151)

Dated: December 3, 1981.

J. B. Hayes,

Admiral, Coast Guard Commandant.

[FR Doc. 81-36102 Filed 12-16-81; 8:45 am]

BILLING CODE 4910-14-M

---

33 CFR Part 110

[CGD05-81-06R]

Elizabeth River, Norfolk, Va.; Anchorage Regulations

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This amendment to the anchorage regulations moves the northern boundary of the anchorage ground (Anchorage K–2) located generally east of the Craney Island and Norfolk Harbor Reaches of the Elizabeth River and across the mouth of the Lafayette River. The northern boundary has been moved in a generally southern direction. Additionally, certain other boundaries of the anchorage ground have been amended to conform the anchorage ground to current channel, shoreline, and use conditions. In the process of correcting the anchorage ground boundaries for these purposes, and for clarity, the shoreward extent of the anchorage has been defined as co-located with the shore in various locations around the perimeter of the anchorage ground. By so doing, the United States does not imply that the included waters are safe for the purpose of anchoring. The United States does not guarantee the non-existence of man-made or natural obstructions in the anchorage ground. This amendment was initiated in response to a proposed project to construct mooring and breasting dolphins in the northwesternmost portion of the anchorage ground. This construction would have encroached into Anchorage K–2 as previously described, thereby interfering with its intended purpose to separate anchored and navigating vessels in order to enhance the safety of both classes. Additional minor boundary revisions were also included by the Coast Guard to realign the boundaries to eliminate areas where the anchorage ground extends into a channel or berthing area, or where it had overlapped a shore area.

This revision specifically exempts from the anchorage ground that portion of the marked, dredged channel entering

the Lafayette River which extends into the anchorage ground.

EFFECTIVE DATE: This amendment is effective on January 18, 1982.

FOR FURTHER INFORMATION CONTACT: Captain E. E. Moran, Chief, Port Safety Branch, Fifth Coast Guard District, 431 Crawford Street, Portsmouth, Virginia 23705, (804) 398–6389.

SUPPLEMENTARY INFORMATION: On April 10, 1981, the U.S. Army Corps of Engineers, Norfolk District, issued a public notice (NAOOP–P 81–0178–01) concerning an application by the Virginia Port Authority (VPA) for a Department of the Army Permit to construct mooring and breasting dolphins south of Norfolk International Terminal, pier number 1. On May 4, 1981, the U.S. Coast Guard objected to this proposed construction. The basis for this objection was the encroachment of these structures into Anchorage K–2. Pursuant to the Coast Guard's request, the U.S. Army Corps of Engineers has acted to place the permit application in an inactive status until the Coast Guard's objection is resolved. Adoption of this final rule resolves the Coast Guard's objection to this proposed construction.

On May 6, 1981, and subsequent dates, the Virginia Port Authority submitted a petition to the Coast Guard to amend the northern boundary of Anchorage K–2 to accommodate the proposed construction. The Coast Guard acted on this petition, and also upon its own initiative (for corrections to the boundaries of Anchorage K–2 other than the change requested by the Virginia Port Authority), and published a notice of proposed rulemaking in the **Federal Register** on September 8, 1981 (46 FR 44782).

This notice proposed the amendments adopted by this final rule. Interested persons were invited to participate in this rulemaking by submitting written views, data, or arguments.

DISCUSSION OF COMMENTS: No comments were received. While the opportunity for a public hearing was announced, none was held because of the lack of comments.

DISCUSSION OF THE RULE: This amendment adjusts the northwesternmost boundaries of Anchorage K–2 to accommodate the proposed mooring and breasting dolphins. The northwesternmost boundary has been aligned so as to be located approximately 50 yards south of the structures when they are erected. This amendment also eliminates that part of Anchorage K–2 which had extended into the Norfolk Harbor Reach of the Elizabeth River Channel. Also eliminated was that portion of Anchorage K–2 which overlapped the dredged berthing and maneuvering area alongside Norfolk International Terminal's property south of their pier number 1. Boundary adjustments of the anchorage to conform it to the existing shoreline have also been included. In the interest of clarity and safety, that portion of the marked, dredged channel entering the Lafayette River has been exempted from the anchorage ground. An environmental assessment completed on this rulemaking resulted in a finding of no significant impact.

DRAFTING INFORMATION: The principal persons involved in drafting this rule are Lieutenant Commander J. G. Kotecki, Port Safety Branch, Fifth Coast Guard District, and Lieutenant D. M. Wrye of the office of the District Legal Officer, Fifth Coast Guard District.

REGULATORY EVALUATION: This regulation has been reviewed under the provisions of Executive Order 12291 and has been determined not to be a major rule. In addition, this regulation is considered to be non-significant in accordance with guidelines set out in the Policies and Procedures for Simplification, Analysis, and Review of Regulation (DOT Order 2100.5 of May 22, 1980). The economic impact of this rule on small businesses, non-profit organizations, and government entities is considered to be minimal because the rule results in only (1) small boundary revisions to Anchorage K–2 that eliminate the previous use conflicts, and (2) a minor reduction in the overall size of the anchorage ground, by eliminating a portion of it generally not used by the public. The changes to this anchorage ground are not matters on which there has been substantial public interest or controversy, nor do they involve impacts on competitive business, state or local government, or the regulations of other programs and agencies. In accordance with Section 605(b) of the Regulatory Flexibility Act (94 Stat. 1164), it is also certified that this rule will not have a significant economic impact upon a substantial number or small entities.

PART 110—ANCHORAGE REGULATIONS

In consideration of the foregoing, Part 110 of Title 33, Code of Federal Regulations, is amended by revising § 110.168(c)(2) to read as follows:

§ 110.168 Hampton Roads, Va., and adjacent waters.

* * * * *

(c) *East of Norfolk Harbor Channel.*

* * *

(2) *Anchorage K–2.* Except for the waters within the marked, dredged channel which enters the Lafayette River, on the east side of Norfolk Harbor Reach and Craney Island Reach at the mouth of the Lafayette River, and within the boundaries described as follows: Starting at Tanner Point, latitude 36°54′13″ N., longitude 76°19′25″ W.; across the mouth of the Lafayette River to Boushs Bluff, latitude 36°54′14″ N., longitude 76°18′43″ W.; thence southerly along the shore to latitude 36°52′58.8″N., longitude 76°19′24.6″ W.; thence to a point on the east side of the dredged area alongside Craney Island Reach at latitude 36°53′04.5″ N., longitude 76°19′58.5″ W.; thence northerly along the side of the dredged area to latitude 36°53′27″ N., longitude 76°20′02″ W.; thence northerly along the side of the dredged area to latitude 36°53′31″ N., longitude 76°20′06″ W.; thence northerly along the east side of Craney Island Reach and Norfolk Harbor Reach to latitude 36°54′46″ N., longitude 76°20′14.6″ W.; thence southeasterly to latitude 36°54′35″ N., longitude 76°19′46.7″ W.; thence south to latitude 36°54′25″ N., longitude 76°19′46″ W.; thence east to latitude 36°54′25″ N., longitude 76°19′34″ W.; thence along the shore to the point of beginning.

[CGD 81–061]

Drawbridge Operation Regulations; Amite River, Louisiana

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: At the request of the Louisiana Department of Transportation and Development, the Coast Guard is changing the regulations governing the State Route 42 swing span bridge across the Amite River, mile 32.0, at Port Vincent, Louisiana. The bridge now is required to open on signal. The change will require the bridge to open on at least 48 hours advance notice. This change in being made because of the limited number of requests for opening the draw. The action will relieve the

bridge owner of the burden of having a person constantly available to open the draw, while still providing for the reasonable needs of navigation.

EFFECTIVE DATE: This amendment is effective on January 18, 1982.

FOR FURTHER INFORMATION CONTACT: Joseph Irico, Chief, Bridge Administration Branch, Eighth Coast Guard District, Hale Boggs Federal Building, 500 Camp Street, New Orleans, Louisiana 70130—(504) 589–2965.

SUPPLEMENTARY INFORMATION: On 5 October 1981, the Coast Guard published a proposed rule (46 FR 48954) concerning this amendment. The Eighth Coast Guard District also published this proposal as a Public Notice dated 5 October 1981. Interested persons were given until 4 November 1981 to submit comments.

DRAFTING INFORMATION: The principal persons involved in drafting this rule are: Joseph Irico, Project Manager, District Operations Division, and Steve Crawford, General Attorney, District Legal Office.

Discussion of Comments

Three comments were received, offering no objections.

These final regulations have been reviewed under provisions of Executive Order 12291 and have been determined not to be a major rule. They are considered to be nonsignificant in accordance with guidelines set out in the Policies and Procedures for Simplification, Analysis, and Review of Regulations (DOT Order 2100.5 of 22 May 1980). An economic evaluation has not been conducted since the impact is expected to be minimal for the reasons discussed above.

In accordance with section 605(d) of the Regulatory Flexibility Act (94 Stat. 1164), it is also certified that these rules will not have a significant economic impact on a substantial number of small entities.

PART 117—DRAWBRIDGE OPERATION REGULATIONS

In consideration of the foregoing, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising paragraph (i)(25) of § 117.245 to read as follows:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

* * * * *

(i) * * *

(25) Amite River, LA; State Highway 16 bridge, mile 21.4, near French Settlement, and State Highway 42 bridge, mile 32.0, at Port Vincent. At least 48 hours advance notice required.

* * * * *

(33 U.S.C. 499, 49 U.S.C. 1655(g)(2), 49 CFR 1.46(c)(5), 33 CFR 1.05–1(g)(3))

Dated: November 18, 1981.

W. H. Stewart,

Rear Admiral, Coast Guard, Commander, Eighth Coast Guard District.

33 CFR Part 117

[CGD 81–055]

Drawbridge Operation Regulations; St. Joseph River, Michigan

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: At the request of the Michigan Department of Transportation, the Coast Guard is revising the regulations governing the operation of the Blossomland (US–33) and Bicentennial (I–94BL) bridges across the St. Joseph River between the Cities of St. Joseph and Benton Harbor, Michigan, by permitting the draws of these bridges to remain closed for extended periods of time during the navigation season. Also, both bridges will require at least twelve hours notice to effect an opening during the winter months. This change is being made in an effort to relieve vehicular traffic tie-ups caused by random bridge openings during periods of time when commuting between the Cities of St. Joseph and Benton Harbor is heaviest. This action will accommodate the needs of vehicular traffic and still provide for the reasonable needs of navigation.

EFFECTIVE DATE: This amendment becomes effective on January 18, 1982.

FOR FURTHER INFORMATION CONTACT: Robert W. Bloom, Jr., Chief, Bridge Branch, 1240 East Ninth Street, Cleveland, Ohio 44199, (216) 522–3993.

SUPPLEMENTARY INFORMATION: On August 31, 1981, the Coast Guard published a proposed rule (46 FR 43699) concerning this amendment. The Commander, Ninth Coast Guard District also published these proposals as a Public Notice dated October 1, 1981. Interested parties were given until September 28, 1981, and October 30, 1981, respectively to submit comments.

DRAFTING INFORMATION: The principal persons involved in drafting this Final Rule are: Robert W. Bloom, Jr., Chief, Bridge Branch, Ninth Coast Guard District, and Lt M. E. Reeves, Project Attorney, Ninth Coast Guard District, Legal Office.

DISCUSSION OF COMMENTS: Three commentors had no objections and supported this change. No other comments were received from the **Federal Register** or public notice.

These regulations have been reviewed under the provisions of Executive Order 12291 and have been determined not to be a major rule. In addition, these regulations are considered to be nonsignificant in accordance with guidelines set out in the Policies and Procedures for Simplification, Analysis, and Review of Regulations (DOT Order 2100.5 of 5–22–80). An economic evaluation has not been conducted since its impact is expected to be minimal because these regulations only regulate vessel traffic through the draws of the Blossomland and Bicentennial bridges during periods of time when vehicle traffic between the Cities of St. Joseph and Benton Harbor, Michigan, is heaviest. Also, they relieve the bridge owner of the burden of having a bridgetender on duty during the winter months when navigation on the river is negligible.

In accordance with section 605(b) of the Regulatory Flexibility Act (94 Stat. 1164), it is also certified that these rules will not have a significant economic impact on a substantial number of small entities.

PART 117—DRAWBRIDGE OPERATION REGULATIONS

In consideration of the foregoing, Part 117 of Title 33 of the Code of Federal Regulations is amended by:

§ 117.641 [Amended]

1. Removing § 117.641(f)(2–a).

2. Adding a new § 117.681 immediately after § 117.680 to read as follows:

§ 117.681 St. Joseph River, Michigan; Blossomland (US–33) and Bicentennial (BL–94) Bridges between St. Joseph and Benton Harbor, Michigan.

(a) The draws shall open on signal from March 1 through May 14 and October 1 through December 15, and from 8 p.m. to 7 a.m. from May 15 through September 30.

(b) From 7 a.m. to 8 p.m. from May 15 through September 30:

(1) The draws of the Blossomland bridge need open only from 3 minutes before to 3 minutes after the hour and half-hour.

(2) The draws of the Bicentennial bridge need open only from 3 minutes before to 3 minutes after the quarter and three-quarter hour.

(c) From December 16 through the last day of February both draws shall open on signal if at least 12 hours notice is given.

(d) Public vessels of the United States, state and local government vessels used for public safety, commercial vessels, and vessels in distress, shall be passed through either draw as soon as possible even though closed periods are in effect.

(e) The owner of or agency controlling these bridges shall keep a copy of these regulations conspicuously posted both upstream and downstream, either on the bridges or elsewhere in such a manner that it can be easily read from an approaching vessel at all times, with instructions stating exactly how notice is to be given to the authorized representative of the bridge owner.

[33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–(g)(3)]

Dated: December 10, 1981.

Henry H. Bell,

Rear Admiral, Coast Guard Commander, Ninth Coast Guard District.

[FR Doc. 81-36104 Filed 12-16-81; 8:45 am]

BILLING CODE 4910-14-M

POSTAL SERVICE

39 CFR Part 111

Amendment of Procedures for Determining Whether Post Office Box or Caller Service Should Be Refused or Terminated

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: This final rule amends regulations prescribing the procedures for refusing or terminating box or caller service. Under the former procedures, cases in which termination of service was sought had to be channeled to a single processing office. This caused considerable delay in processing these cases. Moreover, the former procedures required notice to applicants of the grounds for refusing service only when specifically requested by the unsuccessful applicants. The final rule is designed to simplify and expedite the entire determinative process by increasing the authority of local postmasters, requiring notification of every unsuccessful applicant, providing alternative methods of notification, and establishing practical time limits for required action.

EFFECTIVE DATE: January 17, 1982.

FOR FURTHER INFORMATION CONTACT: John F. Ventresco, (202) 245–4385.

SUPPLEMENTARY INFORMATION: On October 26, 1981, the Postal Service published for comment in the **Federal Register**, 46 FR 52136, proposed changes to 951.35, 951.8 and 952.4 of the Domestic Mail Manual to carry out the purposes described in the Summary. We received one letter of comment from a boxholder who believes that postmasters will abuse their new authority, thereby depriving boxholders of their rights without due process, and embroiling the Postal Service in costly disputes.

The Postal Service believes that application of the new regulations is well within the competence of postmasters. If they are in doubt about the propriety of refusing or terminating service in particular cases, postmasters can obtain advice from their Regional Counsel or the General Counsel. The provisions for notifying customers of adverse determinations, and of the availability of complete review by the Judicial Officer Department insure that due process requirements will be observed in each case.

The Postal Service does not anticipate a substantial increase in costs even if the number of petitions for review by aggrieved customers begins to increase substantially. Under the applicable rules of practice (39 CFR Part 958), summary judgment on the pleadings is available to effect prompt correction of any clearly erroneous actions by postmasters. Moreover, the benefit to customers from eliminating delays in determining whether to refuse or terminate service should far outweigh any concomitant increase in costs.

In view of the above considerations, the Postal Service hereby adopts, without change, the following amendments to the Domestic Mail Manual, which is incorporated by reference in the **Federal Register.** 39 CFR 111.1.

Part 951—Post Office Lockbox Service

1. Revise 951.35 to read as follows:

.35 A box may be rented to another customer 15 days after it has been closed by a final decision of the Postal Service (see 951.8) or surrendered pursuant to 951.32b. A box may be rented to another customer immediately following its surrender pursuant to 951.32a or 951.32c.

2. Revise 951.8 to read as follows:

951.8 Refusal to Provide Service; Termination of Service; Surrender of Service.

.81 *Refusal to Provide Service.* A postmaster may refuse to rent a post office box under any of the following circumstances:

a. The applicant has submitted a falsified application for box service.

b. Within the two years immediately preceding submission of the application, the applicant physically abused a box or violated a regulation or contractual provision relating to the care or use of a box.

c. There is substantial reason to believe that the box will be used for purposes which will violate 951.153.

.82 *Termination of Service.* A postmaster may close a post office box when the boxholder has:

a. Falsified the application for the box;

b. Physically abused the box; or

c. Violated any regulation or contractual term or condition relating to the care or use of the box.

.83 *Postmaster's Determination.*

.831 *Basis for Issuance.* When a postmaster is satisfied that an application for commencement of service should be denied pursuant to 951.81, or that service to a boxholder should be terminated pursuant to 951.82, he will issue a written Determination.

.832 *Content.* The Determination shall state the reasons for its issuance, and also shall contain the following statement:

"You may file a Petition opposing this Determination within twenty days (Sundays and holidays included) after the date you receive it. Your Petition must be in writing and include a statement of your reasons for opposing the Determination.

Your Petition, signed by you or your attorney, must be filed in triplicate at the Post Office address given above. This filing may be accomplished by certified mail, or by delivering the Petition to the above address. Obtain and keep a written receipt to show that your Petition was timely filed. Your Petition will be forwarded to the Recorder, Judicial Officer Department, U.S. Postal Service, Washington, D.C. 20260 for appropriate action as set forth in 39 CFR Part 958.

If you do not file a timely Petition, this Determination will become the final decision of the U.S. Postal Service in this matter."

.833 *Delivery.* The postmaster's Determination shall be delivered to the applicant or boxholder via certified mail, or by any other method provided a signed receipt is obtained from the addressee. If such delivery cannot be effected within fifteen days after issuance of the Determination, it shall be delivered as ordinary mail and the postmaster shall make a written record of the date of such delivery and the prior attempts made to deliver it.

.84 *Petition by Applicant or Boxholder.*

.841 *Procedure.*

a. The applicant or boxholder may file a Petition opposing the postmaster's Determination within twenty days (Sundays and holidays included) after delivery, in accordance with the instructions in the postmaster's Determination and with 39 CFR Part 958.

b. The filing of a Petition will prevent the postmaster's Determination from taking effect and will transfer the case to the Judicial Officer Department, U.S. Postal Service. Thereafter, if a final decision on the merits is rendered by the Judicial Officer Department pursuant to 39 CFR Part 958, it will constitute the final decision of the U.S. Postal Service.

.842 *Effect.*

a. After delivery of the Determination, the postmaster will take no action to implement it for the twenty-day period allowed for filing a Petition, and an additional seven days. If he has not received a Petition by the twenty-seventh day, his Determination will take effect, becoming the final decision of the Postal Service. The postmaster should retain documentation establishing the date and method of delivery of the Determination for at least one year.

b. On receipt of any Petition, even if considered to be late or nonconforming, the postmaster will immediately forward two copies to the Recorder, Judicial Officer Department, U.S. Postal Service, Washington, D.C. 20260. He will also forward to the Assistant General Counsel, Consumer Protection Division, Law Department, U.S. Postal Service, Washington, D.C. 20260, a report which will include the evidence upon which the postmaster's Determination was based and the proof of delivery of the Determination to the customer.

.85 *Surrender of Service.* A post office box will be deemed to have been surrendered when the boxholder:

a. Submits a permanent change of address order;

b. Fails or refuses to pay the pertinent rent due; or

c. Submits a written notice to discontinue the service.

.86 *Mail Addressed to a Closed Box.* When a post office box is closed by a final decision of the Postal Service, the postmaster shall give written notice to the boxholder that mail addressed to him at the box number will thereafter be forwarded pursuant to a valid change of address order, if one has been submitted, or transferred to General Delivery where it will be held the current time limit for forwarding. At the end of the applicable period, all mail so addressed will be handled as undeliverable. However, this procedure will not preclude compliance with the sender's request for a specific retention period in accordance with 122.32.

Part 952—Caller Service

3. Revise 952.4 to read as follows:

952.4 Refusal to Provide Service; Termination of Service; Surrender of Service.

.41 *Refusal to Provide Service.* A postmaster may deny an application for caller service under any of the following circumstances:

a. The applicant has submitted a falsified application for the service.

b. Within the two years immediately preceding submission of the application, the applicant violated a regulation or contractual provision relating to use of the service.

c. There is substantial reason to believe that the service will be used for purposes which will violate 952.191.

.42 *Termination of Service.* A postmaster may terminate caller service when the caller has:

a. Falsified the application for the service; or

b. Violated any regulation or contractual term or condition relating to use of the service.

.43 *Postmaster's Determination.*

.431 *Basis for Issuance.* When a postmaster is satisfied that an application for commencement of caller service should be denied pursuant to 952.41, or that service to a caller should be terminated pursuant to 952.42, he will issue a written Determination.

.432 *Content.* The Determination shall state the reasons for its issuance, and also shall contain the following statement:

"You may file a Petition opposing this Determination within twenty days (Sundays and holidays included) after the date you receive it. Your Petition must be in writing and include a statement of your reasons for opposing the Determination. Your Petition, signed by you or your attorney, must be filed in triplicate at the Post Office address given above. This filing may be accomplished by certified mail, or by delivering the Petition to the above address. Obtain and keep a written receipt to show that your Petition was timely filed. Your Petition will be forwarded to the Recorder, Judicial Officer Department, U.S. Postal Service, Washington, D.C. 20260 for appropriate action as set forth in 39 CFR Part 958.

"If you do not file a timely Petition, this Determination will become the final decision of the U.S. Postal Service in this matter."

.433 *Delivery.* The postmaster's Determination shall be delivered to the applicant or caller via certified mail, or by any other method provided a signed receipt is obtained from the addressee. If such delivery cannot be effected within fifteen days after issuance of the Determination, it shall be delivered as ordinary mail and the postmaster shall make a written record of the date of such delivery and the prior attempts made to deliver it.

.44 *Petition by Applicant or Caller.*

.441 *Procedure.*

a. The applicant or caller may file a Petition opposing the postmaster's Determination within twenty days (Sundays and holidays included) after delivery, in accordance with the instructions in the postmaster's Determination and with 39 CFR Part 958.

b. The filing of a Petition will prevent the postmaster's Determination from taking effect and will transfer the case to the Judicial Officer Department, U.S. Postal Service. Thereafter, if a final decision on the merits is rendered by the Judicial Officer Department pursuant to 39 CFR Part 958, it will constitute the final decision of the U.S. Postal Service.

.442 *Effect.*

a. After delivery of the Determination, the postmaster will take no action to implement it for the twenty-day period allowed for filing a Petition, and an additional seven days. If he has not received a Petition by the twenty-seventh day, his Determination will take effect, becoming the final decision of the Postal Service. The postmaster should retain documentation establishing the date and method of delivery of the Determination for at least one year.

b. On receipt of any Petition, even if considered to be late or nonconforming, the postmaster will immediately forward two copies to the Recorder, Judicial Officer Department, U.S. Postal Service, Washington, D.C. 20260. He will also forward to the Assistant General Counsel, Consumer Protection Division, Law Department, U.S. Postal Service, Washington, D.C. 20260, a report which will include the evidence upon which the postmaster's Determination was based and the proof of delivery of the Determination to the customer.

.45 *Surrender of Service.* Caller service will be deemed to have been surrendered when the caller:

a. Submits a permanent change of address order;

b. Fails or refuses to pay the pertinent fee due; or

c. Submits a written notice to discontinue the service.

.46 *Disposition of Mail.* When caller service is terminated by a final decision of the Postal Service, the postmaster shall give written notice to the caller that mail addressed to him at the caller number will thereafter be forwarded pursuant to a valid change of address order, if one has been submitted, or

transferred to General Delivery where it will be held the current time limit for forwarding. At the end of the applicable period, all mail so addressed will be handled as undeliverable. However, this procedure will not preclude compliance with the sender's request for a specific retention period in accordance with 122.32.

A transmittal letter making these changes in the pages of the Domestic Mail Manual will be published and will be transmitted to subscribers automatically. Notice of these changes will be published in the **Federal Register** as provided in 39 CFR 111.3.

(39 U.S.C. 401)

W. Allen Sanders,

Associate General Counsel, Office of General Law and Administration.

[FR Doc. 81-36101 Filed 12-16-81; 8:45 am]

BILLING CODE 7710-12-M

DEPARTMENT OF THE INTERIOR

Office of the Secretary

41 CFR Ch. 14

Procurement Regulations

AGENCY: Department of the Interior.

ACTION: Final rule and deferral of effective date.

SUMMARY: This rule adopts miscellaneous changes to the Interior Procurement Regulations (IPR) System which are of interest to business concerns and other interested persons. The changes are in response to a request from Secretary Watts for identification of excessive, burdensome or counter-productive rules. These miscellaneous changes are expected to reduce, or simplify existing procurement regulations.

This rule also defers the effective date of a previously published rulemaking action which was to become effective December 15, 1981. The deferred rules established new procedures for issuance and maintenance of agency procurement regulations, updated provisions regarding procurement authority, mistakes in bids, bid protest, and small business related programs, and removed provisions pertaining to internal agency procedures which are not of interest to business concerns and the general public. These rules are expected to significantly reduce the number of procurement regulations published by the Department since these regulations will be limited to only those deemed necessary for business concerns and the general public to understand basic and significant policies and procedures.

The effective date of the October 8, 1981 rulemaking is being deferred in order to have it coincide with the effective date of the miscellaneous changes discussed above.

EFFECTIVE DATE: January 29, 1982.

FOR FURTHER INFORMATION CONTACT: William Opdyke, (202) 343-6431.

SUPPLEMENTARY INFORMATION:

Final Rule

A proposed rule was published in the **Federal Register** on November 4, 1981 (46 FR 54777-54787), and invited comments by December 4, 1981. This rule was the second of two rulemaking actions which made revisions to eliminate, reduce and simplify the Department's procurement regulations. No comments were received so the proposed rule is adopted as a final rule.

The proposed rule omitted a change to § 14-7.650-7, Examination of records. This change is included in the final rule. In addition, the final rule also makes minor editorial changes including a change to § 14-3.808-6(d) in order to clarify the nature of the programs being described.

Deferral of Effective Date

A final rule was published in the **Federal Register** on October 8, 1981. This rule was the first rulemaking action necessary to establish new procedures for issuance and maintenance of the Department's procurement regulations and to remove internal procedures not of interest to business concerns. These internal procedures have been reviewed and eliminated or revised and will be issued as Interior Procurement Regulation Directives. Copies of the directives are available from the Office of Acquisition and Property Management, Department of the Interior, Washington, D.C. 20240, after January 29, 1982.

The rule was to be effective on December 15, 1981. However, it is necessary to defer its effective date until January 29, 1982, in order to have it coincide with the effective date of the rulemaking action discussed above.

Primary Author

The primary author of this rule is William Opdyke, Office of Acquisition and Property Management, telephone (202) 343-6431.

Impact

The Director, Office of Management and Budget has exempted agency procurement regulations from the requirements of Executive Order 12291. The Department of the Interior certifies that this rule will not have a significant economic effect on a substantial number of small entities.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 406(1) and 5 U.S.C. 301)

Accordingly, the amendments to 41 CFR Chapter 14 are adopted as set forth below.

Dated: December 11, 1981.

Richard R. Hite,

Deputy Assistant Secretary of the Interior.

PART 14-1—GENERAL

1. The Table of Contents for Part 14-1 is amended to remove § 14-1.318-1, add a new § 14-1.318-4, and change the caption of §§ 14-1.318 and 14-1.351 as follows:

Subpart 14-1.3—General Policies

1. The caption for § 14-1.318 is revised to read as follows:

Sec.

* * * * *

14-1.318 Disputes.
14-1.318-1 [Removed]
14-1.318-4 Contracting officer's decision.

* * * * *

14-1.351 Paperwork Reduction Act of 1980.

* * * * *

Subpart 14-1.3—General Policies

§ 14-1.318 Disputes.

2. Section 14-1.318-1 is removed and a new § 14-1.318-4 is added to read as follows:

§ 14-1.318 Disputes.

§ 14-1.318-1 [Removed]

§ 14-1.318-4 Contracting officer's decision.

A final decision issued by a contracting officer shall include the paragraph under FPR § 1-1.318-4(b)(1), except the second sentence shall be modified to read as follows: "This decision may be appealed to the Department of the Interior, Office of Hearings and Appeals, Interior Board of Contract Appeals, 4015 Wilson Boulevard, Arlington, Virginia 22203."

3. Section 14-1.327-5 is amended by removing paragraphs (a) and (b) and the designation for paragraph (c) to read as follows:

§ 14-1.327 Protection of the privacy of individuals.

§ 14-1.327-5 Procedures.

The Privacy Act clause under FPR § 1.327-5(c) shall be supplemented by adding a paragraph (d) as follows:

Privacy Act

* * * * *

(d) The regulations of the Department of the Interior implementing the Privacy Act of 1974 are set forth in 43 CFR Subtitle A, Part 2, Subpart D. A copy of the regulations may be obtained by submitting a written request to the Departmental Privacy Act Officer, Office of the Assistant Secretary—Policy, Budget, and Administration, Department of the Interior, 18th and E Streets, N.W., Washington, D.C. 20240.

4. Section 14–1.350 is amended to remove paragraph (a); redesignate paragraphs (b), (c) and (d) as paragraphs (a), (b) and (c), respectively; revise paragraph (a), and revise the "Release of Claims" clause in paragraph (b). As revised, § 14–1.350 reads as follows:

§ 14–1.350 Obtaining a release of claims.

(a) A release of claims shall be required in all construction contracts and all cost-reimbursement contracts which exceed $10,000. Depending upon the circumstances present, a release of claims may be required in service (including architect-engineer) and supply contracts and fixed-price research and development contracts.

(b) Contracts requiring a release of claims shall include a clause substantially as follows:

Release of Claims

After completion of work, and prior to final payment, the Contractor shall furnish to the Contracting Officer, a release of claims against the United States relating to the contract, other than claims specifically excepted from the operation of the release.

(c) Form DI–137 (see IPR § 14–16.850) shall be used for all contracts requiring a release of claims.

5. Section 14–1.351 is amended by changing its caption and revising paragraphs (a), (b), and (c). As revised, § 14–1.351 reads as follows:

§ 14–1.351 Paperwork Reduction Act of 1980.

(a) *General.* The Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.) requires that no federal agency shall conduct or sponsor the collection of information, upon identical items, from ten or more public respondents unless prior approval is obtained from the Office of Management and Budget.

(b) *Procedures.* For contracts which require the collection of information subject to the Paperwork Reduction Act, data requirements shall be defined and clearance obtained prior to issuance of the solicitation, when practical, in accordance with the requirements of Part 305, Chapter 2 of the Department Manual (305 DM 2).

(c) *Clause.* The following clause shall be included in solicitations, and resulting contracts, when performance of the work requires, or may require, collection of information subject to the Paperwork Reduction Act of 1980:

Paperwork Reduction Act

If performance of this contract requires collection of information from ten or more public respondents, no funds shall be expended or any action taken in the solicitation or collection of such information until the contractor has received from the contracting officer written notification that approval has been obtained from the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1980. The contractor shall provide the contracting officer with all information necessary to obtain approval from OMB.

PART 14–3—PROCUREMENT BY NEGOTIATION

1. The Table of Contents for Part 14–3 is amended to add new §§ 14–3.808 thru 14–3.808–7 as follows:

Subpart 14–3.8—Price Negotiation Policies and Techniques

Sec.
14–3.808 Profit or fee.
14–3.808–1 Policy.
14–3.808–2 Structured approach.
14–3.808–3 Profit objective.
14–3.808–4 Profit factors.
14–3.808–5 Contractor effort.
14–3.808–6 Other factors.
14–3.808–7 Facilities capital cost of money.

Authority: Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c), 5 U.S.C. 301.

2. New §§ 14–3.808 thru 14–3.808–7 are added to read as follows:

Subpart 14–3.8—Price Negotiation Policies and Techniques

§ 14–3.808 Profit or fee.

§ 14–3.808–1 Policy.

(a) *General.* Profit generally is the basic motive of business enterprise and it is the policy of the Department to utilize profit to stimulate efficient contract performance. The Government and its contractors should be concerned with harnessing this motive to work for more effective and economical contract performance. Negotiation of very low profits, the use of historical averages or the automatic application of a predetermined percentage to the total estimated cost of a product, does not provide the motivation to accomplish such performance. Negotiations aimed merely at reducing profits, with no realization of the function of profit are not in the Government's best interest. For each contract in which profit is negotiated as a separate element of the contract price, the aim of negotiation should be to employ the profit motive so as to impel effective contract performance by which overall costs are economically controlled. To this end, the profit objective must be fitted to the circumstances of the particular procurement, giving due weight to contractor effort, risk assumed, investment required, complexity of the work to be performed, and other factors appropriate to the circumstances. However, nothing in this Regulation requires or suggests the use of a profit objective which is higher than that proposed by the contractor.

(b) *Contracts Priced on the Basis of Cost Analysis.* When cost analysis is performed pursuant to FPR § 1–3.807–2, profit consideration shall be in accordance with the objectives set forth below.

The Government should establish a profit objective for contract negotiations which will:

(1) Motivate contractors to undertake more difficult work requiring higher skills and reward those who do so;

(2) allow the contractor an opportunity to earn profits commensurate with the extent of the cost risk it is willing to assume; and

(3) encourage contractors to provide their own facilities and financing and establish their competence through development work undertaken at their own risk and reward those who do so.

The structured approach set forth below for establishing profit objectives is designed to provide guidance in applying these principles. This approach, properly applied, will tailor profits to the circumstances of each contract and provide a spread of profits which is commensurate with varying circumstances. The structured approach shall be used in all contracts where cost analysis is performed except as set forth in § 14–3.808–2(b) below.

(c) *Contracts Priced Without Cost Analysis.* On many contracts and subcontracts, good pricing does not require an examination into costs and profits. Where adequate price competition exists and in other situations where cost analysis is not required (see FPR § 1–3.807), fixed-price type contracts will be awarded to the lowest responsible offerors without regard to the amount of their profits. Under these circumstances, the profit which is anticipated, or in fact earned, should not be of concern to the Government. In such cases, if a low offeror earns a large profit, it should be considered the normal reward of efficiency in a competitive system and efforts should not be made to reduce such profits.

(d) *The Cost of Money for Facilities Capital.* When profit analysis is required, the cost of money for facilities capital (FPR § 1–15.205–51) shall not be included when measuring the

contractor's effort. Contract effort for this purpose shall be restricted to normal, booked costs. Further, a reduction in the profit objective shall be made in an amount equal to the amount of facilities capital cost of money allowed in accordance with FPR § 1–15.205–51. This policy shall apply to any tier subcontract or modifications thereto.

§ 14–3.808–2 Structured approach.

(a) *General.* (1) The structured approach provides contracting officers with a technique that will insure consideration of the relative value of the appropriate profit factors described in § 14–3.808–4 in the establishment of a profit objective for the conduct of negotiations. The contracting officer's analysis of these profit factors is based on information available to him prior to negotiations. Such information is furnished in proposals, audit data, performance reports, pre-award surveys and the like. The structured approach also provides a basis for documentation of this objective, including an explanation of any significant departure from this objective in reaching a final agreement. The extent of documentation should be directly related to the dollar value importance, and complexity of the proposed procurement.

(2) The contractor's proposal will include cost information for evaluation and a total proposed profit. Contractors shall not be required to submit the details of their profit objectives but they shall not be prohibited from doing so if they desire. Elaborate and voluminous presentations are neither required nor desired.

(3) The negotiation process does not contemplate or require agreement on either estimated cost elements or profit elements. The profit objective is a part of an overall negotiation objective which, as a going-in objective, bears a distinct relationship to the target cost objective and any proposed sharing arrangement. Since the profit is merely one of several interrelated variables, the Government negotiator shall not complete the profit negotiation without prior agreement on the other variables. Specific agreement on the exact weights or values of the individual factors is not required and should not be attempted.

(b) *Exceptions.* (1) Under the following listed circumstances, other methods for establishing profit objectives may be used. Generally, it is expected that such methods will be supported in a manner similar to that used in the structured approach (profit factor breakdown and documentation of profit objective); however, factors within the structured approach considered inapplicable to the procurement will be excluded from the profit objective.

(i) All procurements where cost analysis is not required;

(ii) architect-engineer contracts;

(iii) management contracts for operation and/or maintenance of Government facilities;

(iv) construction contracts;

(v) contracts primarily requiring delivery of material supplied by subcontractors;

(vi) termination settlements; and

(vii) cost-plus-award-fee contracts (however, contracting officers may find it advantageous to perform a structured profit analysis as an aid in arriving at an appropriate fee arrangement).

(2) Other exceptions may be made in the negotiation of contracts having unusual pricing situations. Such exceptions shall be justified in writing and authorized by the head of the procuring activity or designee in situations where the structured approach is determined to be unsuitable.

(c) *Limitation.* In the event this or any other method would result in establishing a fee objective in violation of limitations established by Statute or this Regulation, the maximum fee objective shall be the percentage allowed pursuant to such limitations (see FPR § 1–3.405–5).

§ 14–3.808–3 Profit objective.

(a) A profit objective is that part of the estimated contract price objective or value which, in the judgment of the contracting officer, is appropriate for the procurement being considered. This objective should realistically reflect the total overall task to be performed and the requirements placed on the contractor. Prior to the negotiation of a contract, change order, or contract modification, where cost analysis is undertaken, the negotiator shall develop a profit objective. The structured approach, if applicable, shall be used for developing this profit objective. If a change or modification is of a relatively small dollar amount and is basically the same type of work as required in the basic contract, the application of the structured approach will generally result in a profit objective similar to the profit objective in the basic contract, and therefore, this basic rate may be applied to the contract change or modification. However, in cases where the change or modification calls for substantially different work, or if the dollar amount of the change or contract modification is significant, a detailed analysis should be made.

(b) Development of a profit objective should not begin until after (1) a thorough review of proposed contract work; (2) review of all available knowledge regarding the contractor, pursuant to FPR Subpart 1–1.12 including capability reports, audit data, pre-award survey reports and financial statements, as appropriate; and (3) analysis of the contractor's cost estimate and comparison with the Government's estimate or projection of cost.

§ 14–3.808–4 Profit factors.

(a) The following factors shall be considered in all cases in which profit is to be specifically negotiated. The weight ranges listed after each factor shall be used in all instances where the structured approach is used.

Profit factors	Weight range (percent)
1. Contractor effort:	
Material Acquisition	1 to 4.
Direct Labor	4 to 12.
Overhead	3 to 8
Other Costs	1 to 3.
General Management	4 to 8.
2. Other factors:	
Cost Risk	0 to 7.
Investment	−2 to +2
Performance	−1 to +1
Socio-Economic Programs	5 to +5
Special Situations	

(b) Under the structured approach the contracting officer shall first measure the "Contractor Effort" by the assignment of a profit percentage within the designated weight ranges to each element of contract cost recognized by the contracting officer. Not to be included for the computation of profit as part of the cost base is the amount calculated for the cost of money for facilities capital.

(c) The suggested categories under the Contractor Effort are for reference purposes only. Often individual proposals will be in a different format; but since these categories are broad and basic, they provide sufficient guidance to evaluate all other items of cost.

(d) After computing a total dollar profit for the Contractor Effort, the contracting officer shall then calculate the specific profit dollars assigned for cost risk, investment, performance, business development programs, and special situations. This is accomplished by multiplying the total Government Cost Objective, exclusive of any cost of money for facilities capital, by the specific weight assigned to the elements within the Other Factors category.

(e) In making a judgment of the value of each factor, the contracting officer should be governed by the definition, description, and purpose of the factors together with considerations for

evaluating them as set forth in §§ 14–3.808–5 and 14–3.808–6.

(f) The structured approach was designed for arriving at profit or fee objectives for other than nonprofit organizations. However, if appropriate adjustments are made to reflect differences between profit and nonprofit organizations, the structured approach can be used as a basis for arriving at fee objectives for nonprofit organizations. Therefore, the structured approach, as modified in (f)(2) of this section shall be used to establish fee objectives for nonprofit organizations. The modifications should not be applied as deductions against historical fee levels, but rather, to the fee objective for such a contract as calculated under the structured approach.

(1) For purposes of this subparagraph, nonprofit organizations are defined as those business entities organized and operated exclusively for charitable, scientific, or educational purposes, no part of the net earnings of which accrue to the benefit of any private shareholder or individual, and which are exempt from Federal income taxation under Section 501 of the Internal Revenue Code.

(2) For contracts with nonprofit organizations where fees are involved, an adjustment of up to 3% will be subtracted from the total profit/fee objective. In developing this adjustment, it will be necessary to consider the following factors:

(i) Tax position benefits;

(ii) granting of financing through letters of credit;

(iii) facility requirements of the nonprofit organization; and

(iv) other pertinent factors which may work to either the advantage or disadvantage of the contractor in its position as a nonprofit organization.

§ 14–3.808–5 Contractor effort.

(a) *General.* This factor is a measure of how much the contractor is expected to contribute to the overall effort necessary to meet the contract performance requirements in an efficient manner. This factor, which is apart from the contractor's responsibility for contract performance, takes into account what resources are necessary and what the contractor must do to accomplish a conversion of ideas and materials into the final product called for in the contract. This is a recognition that within a given performance output, or within a given sales dollar figure, necessary efforts on the part of individual contractors can vary widely in both value and quantity, and that the profit objective should reflect the extent and nature of the contractor's contribution to total performance. A major consideration, particularly in connection with experimental, developmental, or research work, is the difficulty or complexity of the work to be performed, and the unusual demands of the contract, such as whether the project involves a new approach unrelated to existing equipment or only refinements on existing equipment. The evaluation of this factor requires an analysis of the cost content of the proposed contract as follows.

(b) *Material Acquisition (Subcontracted Items, Purchased Parts, and Other Material).* Analysis of these cost items shall include an evaluation of the managerial and technical effort necessary to obtain the required purchased parts, subcontracted items, and other materials, including special tooling. This evaluation shall include consideration of the number of orders and suppliers, and whether established sources are available or new sources must be developed. The contracting officer shall also determine whether the contractor will, for example, obtain the material and tooling by routine orders from readily available supplies (particularly those of substantial value in relation to the total contract cost), or by detailed subcontracts for which the prime contractor will be required to develop complex specifications involving creative design or close tolerance manufacturing requirements. Consideration should be given to the managerial and technical efforts necessary for the prime contractor to administer subcontracts, and select subcontractors, including efforts to break out subcontracts from sole sources, through the introduction of competition. These determinations should be made for purchases of raw materials or basic commodities, purchases of processed material including all types of components of standard or near standard characteristics, and purchases of pieces, assemblies, subassemblies, special tooling, and other products special to the end-item. In the application of this criterion, it should be recognized that the contractor's purchasing program might make a substantial contribution to the performance of the contract. This might be applicable in the management of subcontracting programs involving many sources, involving new complex components and instrumentation, incomplete specifications, and close surveillance by the prime contractor's representative. Recognized costs proposed as direct material costs such as scrap charges shall be treated as material for profit evaluation. If intracompany transfers are accepted at price, in accordance with FPR § 1–15.205–22(e), they shall be evaluated as material. Other intracompany transfers shall be evaluated by individual components of cost, i.e., material, labor, and overhead.

(c) *Direct Labor (Engineering, Service, Manufacturing, and Other Labor).* Analysis of the various labor items of the cost content of the contract should include evaluation of the comparative quality and level of the engineering talents, service contract labor, manufacturing, skills, and experience to be employed. In evaluating engineering labor for the purpose of assigning profit dollars, consideration should be given to the amount of notable scientific talent or unusual or scarce engineering talent needed in contrast to journeyman engineering effort or supporting personnel. The diversity, or lack thereof, of scientific and engineering specialties required for contract performance and the corresponding need for engineering supervision and coordination should be evaluated. Such circumstances as whether the caliber or class of engineer involved is that of an "idea-man," or whether the contractor is required by the contract to assign to the work, because of its nature, unusually skilled talent should be considered as part of the evaluation. Service contract labor should be evaluated in a like manner by assigning higher weights to engineering or professional type skills and lower weights to semi-professional or other type skills required for contract performance. Similarly, the variety of manufacturing and other categories of labor skills required and the contractor's manpower resources for meeting these requirements should be considered. For purposes of evaluation, categories of labor (i.e., quality control, receiving and inspecting, etc.) which do not fall within the definition for engineering, service or manufacturing labor may be categorized as appropriate. However, the same evaluation considerations as outlined above will be applied.

(d) *Overhead and General Management (G&A).* (1) Analysis of these overhead items of cost includes the evaluation of the make-up of these expenses and how much they contribute to contract performance. To the extent practicable, analysis should include a determination of the amount of labor within these overhead pools and how this labor would be treated if it were considered as direct labor under the contract. The allocable labor elements should be given the same profit consideration that they would receive if they were treated as direct labor. The other elements of these overhead pools

should be evaluated to determine whether they are routine expenses such as utilities and maintenance, and hence given lesser profit consideration, or whether they are significant contributing elements. The composite of the individual determinations in relation to the elements of the overhead pools will be the profit consideration given the pools as a whole.

(2) It is not necessary that the contractor's accounting system break down overhead expenses within the classification of engineering overhead, manufacturing overhead, other overhead pools, and general and administrative expenses, unless dictated otherwise by Cost Accounting Standards (CAS). The contractor whose accounting system only reflects one overhead rate on all direct labor need not change its system (if CAS exempt) to correspond with the above classifications. The contracting officer, in an evaluation of such a contractor's overhead rate, could break out the applicable sections of the composite rate which could be classified as engineering overhead, manufacturing overhead, other overhead pools, and general and administrative expenses, and follow the appropriate evaluation technique.

(3) Management problems surface in various degrees and the management expertise exercised to solve them should be considered as an element of profit. For example, a new program for an item which is on the cutting edge of the state of the art will cause more problems, require more managerial time, and abilities of a higher order, than one which is a follow-on contract. If new contracts create more problems and require a higher profit weight, follow-ons should be adjusted downward as many of the problems should have been solved. In any event, an evaluation should be made of the underlying mangerial effort involved on a case-by-case basis.

(4) It may not be necessary for the contracting officer to make a separate profit evaluation of overhead expenses in connection with each procurement action for substantially the same product with the same contractor. Where an analysis of the profit weight to be assigned to the overhead pool has been made, that weight assigned may be used for future procurements with the same contractor until there is a change in the cost composition of the overhead pool or the contract circumstances, or the factors discussed in (d)(3) of this section are involved.

(e) *Other Costs.* Include all other direct costs associated with contractor performance under this item (e.g., travel and relocation, direct support, and consultants). Analysis of these items of cost should include (i) the significance of the cost to contract performance, (ii) nature of the cost, and (iii) how much they contribute to contract performance.

§ 14–3.808–6 Other factors.

(a) *Contract Cost Risk.* The degree of risk assumed by the contractor should influence the amount of profit or fee a contractor is entitled to anticipate. For example, where a portion of the risk has been shifted to the government through cost-reimbursement or price redetermination provisions, unusual contingency provisions, or other risk-reducing measures, the amount of profit or fee should be less than where the contractor assumes all the risk. In developing the pre-negotiation profit objective, the contracting officer will need to consider the type of contract anticipated to be negotiated and the contractor risk associated therewith when selecting the position in the weight range for profit that is appropriate for the risk to be borne by the contractor. This factor should be one of the most important in arriving at pre-negotiation profit objectives.

(1) Evaluation of this risk requires a determination of (i) the degree of cost responsibility the contractor assumes, (ii) the reliability of the cost estimates in relation to the task assumed, and (iii) the complexity of the task assumed by the contractor. This factor is specifically limited to the risk of contract costs. Thus, such risks on the part of the contractor as reputation, losing a commercial market, risk of losing potential profits in other fields, or any risk on the part of the procurement office, are not within the scope of this factor.

(2) The first and basic determination of the degree of cost responsibility assumed by the contractor is related to the sharing of total risk by contract cost by the Government and the contractor through the selection of contract type. The extremes are a cost-plus-a-fixed-fee contract requiring the contractor to use his best efforts to perform a task, and a firm fixed-price contract for a complex item. A cost-plus-a-fixed-fee contract would reflect a minimum assumption of cost responsibility, whereas a firm fixed-price contract would reflect a complete assumption of cost responsibility. Where proper contract type selection has been made, the regard for risk by contract type would usually fall into the following percentage ranges:

	Percent
Cost Reimbursement Type Contracts	0 to 3
Fixed Price Type Contracts	3 to 7

(3) The second determination is that of the reliability of the cost estimates. Sound price negotiation requires well-defined contract objectives and reliable cost estimates. Prior experience assists the contractor in preparing reliable cost estimates on new procurements for similar equipment. An excessive cost estimate reduces the possibility that the cost of performance will exceed the contract price, thereby reducing the contractor's assumption of contract cost risk.

(4) The third determination is that of the difficulty of the contractor's task. The contractor's task can be difficult or easy, regardless of the type of contract.

(i) Within the above ranges, a cost-plus-a-fixed-fee contract normally would not justify a reward for risk in excess of 0%, unless the contract contains cost risk features such as ceilings on overheads, etc. In such cases, up to ½% may be justified. Cost-plus-incentive-fee contracts fill the remaining portion of the above cost range with weightings directly related to such factors as confidence in target cost, share ratio of fee(s), etc. The range for fixed-price contracts is wide enough to accommodate the many types of fixed-price arrangements. These include fixed-price-incentive, firm fixed-price with economic price adjustment, fixed price with prospective or retroactive price redetermination, and firm fixed-price contracts. Weighting should be indicative of the price risk assumed and the end item required, with only firm fixed-price contracts with requirements for prototypes or hardware reaching the top end of the range.

(ii) The contractor's subcontracting program may have a significant impact on the contractor's acceptance of risk under a contract form. It could cause risk to increase or decrease in terms of both cost and performance. This consideration should be a part of the contracting officer's overall evaluation in selecting a factor to apply for cost risk. It may be determined, for instance, that the prime contractor has effectively transferred real cost risk to a subcontractor and the contract cost risk evaluation may, as a result, be below the range which would otherwise apply for the contract type being proposed. The contract cost risk evaluation should not be lowered, however, merely on the basis that a substantial portion of the contract costs represents subcontracts

without any substantial transfer of contractor's risk.

(iii) In making a contract cost risk evaluation in a procurement action that involves definitization of a letter contract, unpriced change orders, and unpriced orders, under BOA's; consideration should be given to the effect on total contract cost risk as a result of having partial performance before definitization. Under some circumstances it may be reasoned that the total amount of cost risk has been effectively reduced. Under other circumstances it may be apparent that the contractor's cost risk remained substantially unchanged. To be equitable the determination of a profit weight for application to the total of all recognized costs, both those incurred and those yet to be expended, must be made with consideration to all attendant circumstances; not just be the portion of costs incurred, or percentage of work completed, prior to definitization.

(iv) Time and material and labor hour contracts will be considered to be cost-plus-a-fixed-fee contracts for the purpose of establishing profit weights, unless otherwise exempt under § 14–3.808–2(b) in the evaluation of the contractor's assumption of contract cost risk.

(b) *Investment.* The Department encourages its contractors to perform their contracts with the minimum of financial, facilities, or other assistance from the Government. As such, it is the purpose of this factor to encourage the contractor to acquire and use its own resources to the maximum extent possible. The evaluation of this factor should include an analysis of the following:

(1) *Facilities.* To evaluate how this factor contributes to the profit objective requires knowledge of the level of facilities utilization needed for contract performance, the source and financing of the required facilities and the overall cost effectiveness of the facilities offered. Contractors who furnish their own facilities which significantly contribute to lower total contract costs should be provided with additional profit. On the other hand, contractors who rely on the Government to provide or finance needed facilities should receive a corresponding reduction in profit. Cases between the above examples should be evaluated on their merits with either a positive or negative adjustment, as appropriate, in profit being made. However, where a highly facilitized contractor is to perform a contract which does not benefit from this facilitization or where a contractor's use of its facilities has a minimum cost impact on the contract, profit need not be adjusted.

(2) *Payments.* In analyzing this factor, consideration should be given to the frequency of payments by the Government to the contractor. The key to this weighting is to give proper consideration to the impact the contract will have on the contractor's cash flow. Generally, negative consideration should be given for payments more frequent than monthly with maximum reduction being given as the contractor's working capital approaches zero. Positive consideration should be given for payments less frequent than monthly with additional consideration given for a capital turnover rate on the contract which is less than the contractor's or the industry's normal capital turnover rate.

(c) *Contractor's Performance.* The contractor's past and present performance should be evaluated in such areas as quality of product, meeting performance schedules, efficiency in cost control (including need for and reasonableness of cost incurred), accuracy and reliability of previous cost estimates, degree of cooperation by the contractor (both business and technical), timely processing of changes and compliance with other contractual provisions, and management of subcontract programs. Where a contractor has consistently achieved excellent results in the foregoing areas in comparison with other contractors in similar circumstances, such performance merits a proportionately greater opportunity for profit or fee. Conversely, a poor record in this regard should be reflected in determining what constitutes a fair and reasonable profit or fee.

(d) *Federal Business Development Programs.* This factor, which may apply to special circumstances or particular acquisitions, relates to the extent of contractor successful participation in the Government sponsored programs such as small business, small disadvantaged business, labor surplus programs, women-owned business and energy conservation efforts. The contractor's policies and procedures which energetically support Government business development programs and achieves successful results should be given positive consideration. Conversely, failure or unwillingness on the part of the contractor to support Government business development programs should be viewed as evidence of poor performance for the purpose of establishing a profit objective.

(e) *Special Situations.*—(1) *Inventive and Developmental Contributions.* The extent and nature of contractor-initiated and financed independent development should be considered in developing the profit objective. The importance of the development in furthering the missions of the Department, the demonstrable initiative in determining the need and application of the development, the extent of the contractor's cost risk, and whether the development cost was recovered directly or indirectly from Government sources should be weighed.

(2) *Unusual Pricing Agreements.* Occasionally, unusual contract pricing arrangements are made with the contractor wherein it agrees to participate in the sharing of contract cost or agrees to accept a lower profit or fee for changes or modifications within a prescribed dollar value. In such circumstances, the contractor should receive favorable consideration in developing the profit objective.

(3) This factor need not be limited to situations which only increase profit/fee levels. A negative consideration may be appropriate when the contractor is expected to obtain spin-off benefits as a direct result of the contract (e.g., products with commercial application).

§ 14–3.808–7 Facilities capital cost of money.

When facilities capital cost of money (cost of capital committed to facilities) is included as an item of cost in the contractor's proposal, a reduction in the profit objective shall be made in an amount equal to the amount of facilities capital of cost of money allowed in accordance with FPR § 1–15.205–51. If the contractor does not propose this cost, a provision must be inserted in the contract that facilities capital cost is not an allowable cost.

3. Section 14–3.809 is revised to read as follows:

§ 14–3.809 Contract audit as a pricing aid.

The Assistant Inspector General for Auditing, Office of Inspector General, is responsible for providing audit reports on contract price proposals and other audit services required by FPR § 1–3.809 in accordance with Part 360, Chapter 3.7 of the Departmental Manual (360 DM 3.7).

PART 14–4—SPECIAL TYPES AND METHODS OF PROCUREMENT

1. The Table of Contents for Part 14–4 is amended by adding new § 14–4.1006–2, and removing "Subpart 14–4.51—Research and Development," (§§ 14–4.5101 through 14–4.5101–3), and § 14–4.5207 as follows:

Subpart 14–4.10—Architect-Engineer Services

Sec.

* * * * *

14–4.1006–2 Procedure.

* * * * *

Subpart 14–4.51 [Removed]

Subpart 14–4.52 Appraisal Services (Real Property)

* * * * *

14–4.5207 [Removed]

Subpart 14–4.10—Architect-Engineer Services

2. Section 14–4.1004–3 is revised to read as follows:

§ 14–4.1004–3 Evaluation criteria.

In addition to the criteria listed under FPR § 1–4.1004–3 for use in evaluating architect-engineer firms, the following additional criteria shall be applied when applicable to a particular procurement:

(a) Computer capability and expertise (where computer use is required.)

(b) Adequacy of facilities for performance of the work including those necessary to provide specialized services that may be required.

(c) Volume and nature of present workload.

(d) Experience and qualifications of proposed key personnel including specialized technical skills, project coordination and management skills, and experience in working together as a team.

(e) Availability of additional contractor personnel or consultants to support expansion or acceleration of the project.

(f) Other specific criterion as may be required.

3. Section 14–4.1006–1 is revised and new § 14–4.1006–2 is added to read as follows:

§ 14–4.1006 Limitation on contracting with architect-engineer firms for construction work.

§ 14–4.1006–1 Policy.

As required by FPR §§ 1–4.1006–1 and 1–18.112, no contract may be awarded for construction of a project to the firm, parent firm, subsidiaries or affiliates that provided architect-engineer services for the project without the written approval of the Assistant Secretary—Policy, Budget, and Administration.

§ 14–4.1006–2 Procedure.

Architect-engineer firms selected for negotiation of a contract for architect-engineer services shall be informed of the policy set forth in IPR § 14–4.1006–1 in accordance with the procedure under FPR § 1–4.1006–2. This policy shall be incorporated into the terms and conditions of the contract.

4. Section 14–4.1050 is revised to read as follows:

§ 14–4.1050 Use of designated personnel.

The contract for architect-engineer services shall include a "Key Personnel" cause in accordance with IPR § 14–16.703.

Subpart 14–4.51 [Removed]

5. Subpart 14–4.51 (§§ 14–4.5101 through 14–4.5101–3) is removed in its entirety.

Subpart 14–4.52—Appraisal Services (Real Property)

6. Section 14–4.5207 is removed and §§ 14–4.5206 and 14–4.5208 are revised to read as follows:

§ 14–4.5206 Qualifications requirements for appraisers.

If it is anticipated that a real property appraisal made under a contract may be subject to court action, a prospective contractor must be recognized as a qualified appraiser in the file maintained by the Land and Natural Resources Division, U.S. Department of Justice. This requirement shall be treated as a special standard of prospective contractor responsibility in accordance with FPR § 1–1.1203–3.

§ 14–4.5207 [Removed]

§ 14–4.5208 Appraisal standards.

All real property appraisals made under a contract shall conform to the requirements of the Interagency Land Acquisition Conference publication entitled "Uniform Appraisal Standards for Federal Land Acquisitions," published by the Government Printing Office. This standard shall be made a part of all solicitations and resulting contracts for real property appraisal services.

PART 14–6—[Removed]

1. The Table of Contents for Part 14–6 is removed.

2. Part 14–6 is removed in its entirety.

PART 14–7—CONTRACT CLAUSES

1. The Table of Contents for Part 14–7 is amended to remove §§ 14–7.150–2, 14–7.150–4, 14–7.150–5, 14–7.203, 14–7.203–15, 14–7.403, 14–7.403–25, 14–7.650–1, 14–7.650–2, 14–7.650–3, 14–7.650–8, and 14–7.650–9; add new §§ 14–7.150–6, 14–7.250, 14–7.250–1, Subpart 14–7.3, §§ 14–7.350, 14–7.350–1, 14–7.450, 14–7.450–1, 14–7.650–10, and 14–7.650–11, and change the caption for § 14–7.5001 as follows:

Subpart 14–7.1—Fixed Price Supply Contracts

Sec.

* * * * *

14–7.150–2 [Removed]

* * * * *

14–7.150–4 [Removed]

14–7.150–5 [Removed]

14–7.150–6 Release of claims.

Subpart 14–7.2—Cost Reimbursement Type Supply Contracts

14–7.203 [Removed]

14–7.203–15 [Removed]

* * * * *

14–7.250 Additional Interior contract clauses.

14–7.250–1 Release of claims.

Subpart 14–7.3—Fixed Price Research and Development Contracts

14–7.350 Additional Interior contract clauses.

14–7.350–1 Release of claims.

Subpart 14–7.4—Cost Reimbursement Type Research and Development Contracts

14–7.403 [Removed]

14–7.403–25 [Removed]

* * * * *

14–7.450 Additional Interior contract clauses.

14–7.450–1 Release of claims.

Subpart 14–7.6—Fixed Price Construction Contracts

14–7.650–1 [Removed]

14–7.650–2 [Removed]

14–7.650–3 [Removed]

* * * * *

14–7.650–8 [Removed]

14–7.650–9 [Removed]

* * * * *

14–7.650–10 Prohibition against use of lead-based paint.

14–7.650–11 Release of claims.

Subpart 14–7.50—Special Contract Clauses

14–7.5001 Paperwork Reduction Act of 1980.

* * * * *

Subpart 14–7.1—Fixed Price Supply Contracts

§§ 14–7.150–2, 14–7.150–4, and 14–7.150–5 [Removed]

1. Sections 14–7.150–2, 14–7.150–4 and 14–7.150–5 are removed.

2. Section 14–7.150–3 is revised and new § 14–7.150–6 is added to read as follows:

§ 14–7.150 Additional Interior contract clauses.

* * * * *

§ 14–7.150–3 Examination of records.

Insert the clause set forth in IPR § 14–63.104 as prescribed in IPR § 14–63.103(b).

§ 14-7.150-6 Release of claims.

The clause set forth in IPR § 14-1.350 shall be used as prescribed therein.

Subpart 14-7.2—Cost-Reimbursement Type Supply Contracts

§§ 14-7.203 and 14-7.203-15 [Removed]

3. Sections 14-7.203 and 14-7.203-15 are removed.

4. Section 14-7.204-5 is revised to read as follows:

§ 14-7.204 Additional clauses.

§ 14-7.204-5 Insurance-liability to third parties.

Except for those contracts listed in IPR § 14-17.150, subparagraph (c)(2) of the clause set forth in FPR § 1-7.204-5 shall be changed to read "subject to the 'Limitation of Cost' or 'Limitation of Funds' clause * * *"

5. New §§ 14-7.250 and 14-7.250-1 are added to read as follows:

§ 14-7.250 Additional interior contract clauses.

§ 14-7.250-1 Release of claims.

The clause set forth in IPR § 14-1.350 shall be used as prescribed therein.

Subpart 14-7.3—Fixed-Price Research and Development Contracts

6. A new Subpart 14-7.3 and §§ 14-7.350 and 14-7.350-1 are added as follows:

Subpart 14-7.3—Fixed-Price Research and Development Contracts

§ 14-7.350 Additional interior contract clauses.

§ 14-7.350-1 Release of claims.

The clause set forth in IPR § 14-1.350 shall be used as prescribed therein.

Subpart 14-7.4—Cost Reimbursement Type Research and Development Contracts

§§ 14-7.403 and 14-7.403-25 [Removed]

7. Sections 14-7.403 and 14-7.403-25 are removed.

8. Section 14-7.404-9 is revised to read as follows:

§ 14-7.404 Additional clauses.

§ 14-7.404-9 Insurance-liability to third parties.

Insert the modified clause set forth under IPR § 14-7.204-5 under the conditions prescribed therein.

9. New §§ 14-7.450 and 14-7.450-1 are added to read as follows:

§ 14-7.450 Additional interior contract clauses.

§ 14-7.450-1 Release of claims.

The clause set forth in IPR § 14-1.350 shall be used as prescribed therein.

Subpart 14-7.6—Fixed Price Construction Contracts

§§ 14-7.650-1, 14-7.650-2, 14-7.650-3, 14-7.650-8, and 14-7.650-9 [Removed]

10. Sections 14-7.650-1, 14-7.650-2, 14-7.650-3, 14-7.650-8 and 14-7.650-9 are removed.

11. Section 14-7.650-5 is amended by removing paragraphs (c), (d) and (e) to read as follows:

§ 14-7.650 Additional interior contract clauses.

* * * * *

§ 14-7.650-5 Local taxes.

* * * * *

(c) [Removed]
(d) [Removed]
(e) [Removed]

* * * * *

12. Section 14-7.650-7 is revised to read as follows:

§ 14-7.650-7 Examination of records.

The clause set forth in IPR § 14-63.104 shall be used under the conditions prescribed in IPR§ 14-63.103(b).

13. New § 14-7.650-10 is added as follows:

§ 14-7.650-10 Prohibition against use of lead-based paint.

Insert the clause set forth in IPR § 14-18.150 under the conditions prescribed therein.

14. New § 14-7.650-11 is added to read as follows:

§ 14-7.650-11 Release of claims.

The clause set forth in IPR § 14-1.350 shall be used as prescribed therein.

Subpart 14-7.50—Special Contract Clauses

15. The caption and contents of § 14-7.5001 are revised to read as follows:

§ 14-7.5001 Paperwork Reduction Act of 1980.

Insert the clause set forth in IPR § 14-1.351 under the conditions prescribed therein.

PART 14-9—PATENTS, DATA, AND COPYRIGHTS

1. A Table of Contents is established for new Part 14-9, and §§ 14-9.107 and 14-9.107-3 as follows:

Subpart 14-9.1—Patents

Sec.
14-9.107 Patent rights under contracts for research and development.
14-9.107-3 Policy.

Authority: Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c), 5 U.S.C. 301.

2. New Part 14-9, Subpart 14-9.1 and §§ 14-9.107 and 14-9.107-3 are added to read as follows:

Subpart 14-9.1—Patents

§ 14-9.107 Patent rights under contracts for research and development.

§ 14-9.107-3 Policy.

It is the policy of the Department of the Interior to adopt, without modification, the provisions of OMB Bulletin No. 81-22 dated June 30, 1981, and any further implementation of Pub. L. 96-517 under FPR Subpart 1-9.1.

PART 14-10—BONDS AND INSURANCE

1. The Table of Contents for Part 14-10 is amended by removing "Subpart 14-10.1—Bonds", §§ 14-10.109 and 14-10.109-50; redesignating § 14-10.450 as § 14-10.401 and changing its caption, and redesignating § 14-10.451 as § 14-10.401-50 and changing its caption to read as follows:

Subpart 14-10.1 [Removed]

Sec.
14-10.109 [Removed]
14-10.109-50 [Removed]

Subpart 14-10.4—Insurance Under Fixed-Price Contracts

14-10.401 Policy.
14-10.401-50 Insurance requirements for aircraft services contracts.
14-10.450 [Removed]
14-10.451 [Removed]

Subpart 14-10.1 [Removed]

2. Subpart 14-10.1 (§§14-10.109 and 14-10.109-50) is removed in its entirety.

Subpart 14-10.4—Insurance Under Fixed-Priced Contracts

3. Section 14-10.450 is redesignated as § 14-10.401, recaptioned, and paragraph (a) is revised to read as follows:

Subpart 14-10.4—Insurance Under Fixed-Price Contracts

§ 14-10.401 Policy.

(a) It is the policy of the Department to insure its own risks only when such

action is in the best interest of the Government. Circumstances where insurance may be required are listed under FPR §§ 1–10.301 and 1–10.401. In these situations, the clause set forth in paragraph (b) of this section shall be used.

* * * * *

4. Section 14–10.451 is redesignated as § 14–10.401–50, recaptioned, and revised to read as follows:

§ 14–10.401–50 Insurance requirements for aircraft services contracts.

(a) *Policy.* It is the policy of the Department to establish minimum insurance requirements for certain types of aircraft services contracts in order to protect the Government and its contractors. These requirements are contained in the clauses set forth under (c) below and are in accordance with FPR § 1–10.301.

(b) *Applicability.* The clauses prescribed by this section are applicable to all contracts involving use of aircraft with contractor or Government-furnished pilot except for one-time charters when the Government exposure is minimal and time limitations are present.

(c) *Clauses.* (1) The following clause shall be inserted in all contracts for operation of aircraft with contractor-furnished pilot:

Risk and Indemnities

The Contractor hereby agrees to indemnify and hold harmless the Government, its officers and employees from and against all claims, demands, damages, liabilities, losses, suits and judgments (including all costs and expenses incident thereto) which may be suffered by, accrue against, be charged to or recoverable from the Government, its officers and employees by reason of injury to or death of any person other than officers, agents, or employees of the Government or by reason of damage to property of others of whatsoever kind (other than the property of the Government, its officers, agents or employees) arising out of the operation of the aircraft. In the event the Contractor holds or obtains insurance in support of this covenant, a Certificate of Insurance shall be delivered to the Contracting Officer.

[End of Clause]

(2) For contracts involving the use of aircraft with Government-furnished pilot where the Government does not have a property interest, insert the following clause:

Liability for Loss or Damage

(a) The Contractor shall indemnify and hold the Government harmless from any and all loss or damage to the aircraft furnished under this contract except as provided in paragraph (d) below. For the purpose of fulfilling its obligation under this clause, the Contractor shall procure and maintain during the term of this contract, and any extension thereof, hull insurance acceptable to the Contracting Officer. The Contractor's insurance coverage shall apply to pilots furnished by the Government who operate the aircraft. The contractor may request a list of Government pilots by name and qualification who are potential pilots.

(b) Prior to the commencement of work hereunder, the Contractor shall furnish to the Contracting Officer a copy of the insurance policy or policies or a certificate of insurance issued by the underwriter(s) showing that the coverage required by this clause has been obtained.

(c) Each policy or certificate evidencing the insurance shall contain an endorsement which provides that the insurance company will notify the Contracting Officer 30 days prior to the effective date of any cancellation or termination of any policy or certificate or any modification of a policy or certificate which adversely affects the interests of the Government in such insurance. The notice shall be sent by registered mail and shall identify this contract, the name and address of the contracting office, the policy, and the insured.

(d) If the aircraft is damaged or destroyed while in the custody and control of the Government, the Government will reimburse the Contractor for the deductible stipulated in the insurance coverage (if any) as follows:

(1) In-Motion Accidents—Up to 5% of the current insured value of the aircraft stated in the policy, or $10,000.00, whichever is less.

(2) Not In-Motion Accidents—Up to $250.00 per accident. Such reimbursement shall not be made, however, for loss or damage to the aircraft resulting from (1) normal wear and tear, (2) negligence or fault in maintenance of the aircraft by the Contractor, or (3) a defect in construction of the aircraft or component thereof.

(e) If damage to the aircraft is established to be the fault of the Government, rental payments to the Contractor during the repair period will be made as set forth elsewhere in this contract. The Government may, at its option, make necessary repairs or return the aircraft to the Contractor for repair. In the event the aircraft is lost, destroyed, or damaged so extensively as to be beyond repair, no rental payment will be made to the Contractor thereafter.

(f) Any failure to agree as to the responsiblity of the Government or the Contractor under this clause shall, after a final finding and determination by the Contracting Officer, be considered a dispute within the meaning of the "Disputes" clause of this contract.

[End of Clause]

(3) For contracts involving the use of aircraft with Government-furnished pilot where the Government has a property interest (e.g., lease with purchase option) insert the following clause:

Liability for Loss or Damage (Property Interest)

(a) The Government assumes all risk and liability for damage to or loss of the aircraft for the term of this contract, while the aircraft is in the Government's possession, except for (1) normal wear and tear to the aircraft, or (2) loss which occurs as a result of negligence or fault in maintenance of the aircraft by the contractor, or (3) loss resulting from a latent defect in the construction of the aircraft or a component thereof.

(b) In the event of damage to the aircraft, the Government may, at its option, make the necessary repairs with its own facilities, or by contract, or pay the Contractor the reasonable cost of repair of the aircraft. If damage to the aircraft is established to be the fault of the Government, rental payments to the Contractor during the repair period will be made as set forth elsewhere in this contract.

(c) In the event the aircraft is lost, destroyed, or damaged so extensively as to be beyond repair, no rental payment will be made to the Contractor thereafter, but the Government will pay to the Contractor a sum equal to the fair market value of the aircraft just prior to such loss, destruction, or extensive damage, less the salvage value of the aircraft.

(d) The Contractor certifies that the contract price does not include any cost attributable to insurance or to any reserved fund it has established to protect its interests in or use of the aircraft, regardless of whether or not the insurance coverage applies for the period during which the Government has possession of the aircraft. If, in the event of loss or damage to the aircraft, the Contractor receives compensation for such loss or damage, in any form, from any source, the amount of such compensation shall be credited to the Government in determining the amount of the Government's liability under this clause; except that this shall not apply to proceeds of insurance received solely as an advance of insurance pending determination of Government liability, or for an increment of value of the aircraft beyond the value for which the Government is responsible.

(e) In the event of loss or damage, the Government shall be subrogated to all rights of recovery by the Contractor against third parties for such loss or damage and such rights shall be immediately assigned to the Government. Except as the Contracting Officer may permit in writing, the Contractor shall neither release nor discharge any third party from liability for such loss or damage nor otherwise compromise or adversely affect the Government's subrogation or other rights hereunder. The Contractor shall cooperate with the Government in any suit or action undertaken by the Government against any such third party.

(f) Any failure to agree as to the responsibility of the Government or the Contractor under this clause shall, after a final finding and determination by the Contracting Office, be considered a dispute within the meaning of the "Disputes" clause of this contract.

[End of Clause]

PART 14–16—PROCUREMENT FORMS

1. The Table of Contents for Part 14–16 is amended by adding a new Subpart 14–16.7 and § 14–16.703 as follows:

Subpart 14-16.7—Forms for Negotiated Architect-Engineer Contracts

Sec.
14-16.703 Terms, conditions, and provisions

Authority. Sec. 205(c), 63 Stat. 390; 40 U.S C. 486(c), 5 U.S.C. 301.

2. Subpart 14-16.7 and § 14-16.703 are added to read as follows:

Subpart 14-16.7—Forms for Negotiated Architect-Engineer Contracts

Subpart 14-16.703 Terms, conditions and provisions

All contracts for architect-engineer services shall contain the "Key Personnel" clause prescribed under FPR § 1-7.304-6.

PART 14-17—EXTRAORDINARY CONTRACTUAL ACTIONS TO FACILITATE THE NATIONAL DEFENSE

1. A Table of Contents is established for new Part 14-17, Subpart 14-17.1 and §§ 14-17.101 and 14-17.150 to read as follows:

Subpart 14-17.1—General

Sec.
14-17.101 Authority.
14-17.150 Policy.

Authority: Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c), 5 U.S.C. 301.

2. Part 14-17 and Subpart 14-17.1 and §§ 14-17.101 and 14-17.150 are added as follows:

Subpart 14-17.1—General

§ 14-17.101 Authority.

The Assistant Secretary—Policy, Budget and Administration must approve in advance any actions taken pursuant to FPR § 1-17.103. The Secretary must approve any provision for the Government to indemnify a Contractor beyond the amount of the contract for liability to third persons as provided under Executive Order 10789, as amended. Approval of such an indemnification provision must be obtained prior to issuance of the solicitation.

§ 14-17.150 Policy.

It is the policy of the Department of the Interior to include the indemnification provision set forth in FPR § 1-7.204-5 only in contracts which facilitate the national defense and are for products-or services which entail risks that are unusually hazardous or nuclear in nature. For all other contracts requiring insurance, the clause set forth under FPR § 1-7.204-5 must be modified as prescribed in IPR § 14-7.204-5.

PART 14-18—PROCUREMENT OF CONSTRUCTION

Subpart 14-18.6—Buy American Act

Section 14-18.604 is revised to read as follows:

§ 14-18.604 Invitation provision.

The provision set forth under FPR § 1-18.604 shall be used in all solicitations for affected construction work (except for contracts executed on Standard Form 19) with the following modifications:

(a) At the end of paragraph (a) of the provision, list the excepted articles, materials, and supplies set forth under IPR § 14-6.105.

(b) At the end of paragraph (b)(2)(i) of the provision, add the following:

ADDITIONAL NONDOMESTIC CONSTRUCTION MATERIALS COST COMPARISON

Identification of material	Quantity	Cost (dollars) [1]
Item 1:		
Nondomestic materials		
Comparable domestic material		
Item 2:		
Nondomestic material		
Comparable domestic material		
Totals		

[1] Delivered to construction site.

(c) Add the following statement to the end of paragraph (b)(3): "However, unless the bidder/offeror specifically states that alternate bid or proposal prices are being submitted for specific items of the bid schedule (based on prices listed for comparable domestic materials), the bid or proposal will be evaluated only on the basis of nondomestic construction materials."

PART 14-19—TRANSPORTATION

Subpart 14-19.1—General

Section 14-19.108-50 is amended by revising paragraph (a), removing its paragraph designation, and removing paragraphs (b) and (c) to read as follows:

§ 14-19.108 Ocean transportation.

§ 14-19.108-50 Contractor compliance.

Concurrent with the award of any contract involving shipment by ocean vessel from or to a foreign country, the contracting officer shall formally notify the contractor of the specific requirements of the "Use of U.S. Flag Commercial Vessels" clause set forth under FPR § 1-19.108-2. The notification shall include a statement that failure to comply with the provisions of this clause may result in a determination of nonresponsibility on future Government procurement requirements.

PART 14-26—CONTRACT MODIFICATIONS

Subpart 14-26.4—Novation and Change of Name Agreements

Section 14-26.402 is amended by removing its paragraph designation and revising the introductory paragraph to read as follows:

§ 14-26.402 Agreement to recognize a successor in interest.

For protection of Government rights in accrual of inventions, patents and data, the novation agreement form set forth under FPR § 1-26.402(e) shall be amended by adding the following item 10 to the "Now THEREFORE" section of the agreement:

* * * * *

PART 14-30—CONTRACT FINANCING

Subpart 14-30.4—Advance Payments

Sections 14-30.414 and 14-30.414-2 (a) and (b) are revised to read as follows:

§ 14-30.414 Agreement for special bank account and contract provisions.

§ 14-30.414-2 Contract provisions for advance payments.

(a) For contracts and modifications where a special bank account agreement is not required for advance payments (see FPR § 1-30.413), the contract provision under FPR § 1-30.414-2 shall be used as modified by (c) below.

(b) For contracts and modifications using the letter of credit method of financing (see FPR § 1-30.408-1), the contract provision under FPR § 1-30.414-2 shall be used as modified by (c) below.

* * * * *

PART 14-63—AUDIT

Subpart 14-63.1—Audit of Contractor's Records

1. The Table of Contents for Part 14-63 is amended by changing the caption for § 14-63.104 and removing §§ 14-63.104-1, 14-63.104-2, and 14-63.104-3 to read as follows:

Subpart 14-63.1—Audit of Contractor's Records

Sec.
* * * * *
14-63.104 Clause.
14-63.104-1 [Removed]
14-63.104-2 [Removed]
14-63.104-3 [Removed]
* * * * *

2. Section 14–63.101 is revised to read as follows:

§ 14–63.101 Audit responsibility

The Office of Inspector General conducts or arranges for audits (i.e., examinations) of contractor's records to the extent that such audits are required or allowed by law, regulation or sound business judgement. Such audits include the conduct of periodic or requested audits of contractors as determined necessary or advisable by the Inspector General and may be influenced by such factors as the financial condition, intergrity, and reliability of the contractor; prior audit experience; adequacy of the accounting system; and the amount of unaudited claims. The audits may also include reviews of cost or price data for contractor's proposal for negotiated contracts (see FPR § 1–3.809).

3. Section 14–63.103 is revised to read as follows:

§ 14–63.103 Requirements.

(a) A preaward audit of proposals shall be made as required by FPR § 1–3.809.

(1) The preaward audit shall not be waived without proper written justification (See FPR § 1–3.809(b)(1)(i)).

(2) Requests for preaward audit along with pertinent documents shall be submitted to the Office of Inspector General. Except under unusual circumstances, at least 30 days should be allowed for the review and evaluation of contractor's proposals.

(b) All awards of noncompetitive contacts which exceed $25,000 shall include the "Examination of Records" clause set forth in IPR § 14–63.104.

(c) In some contracts it may be appropriate to emphasize the scope or extent of an audit, such as (1) the use or dispostion of Government-furnished property or (2) variable or other special features of a contract (e.g., price escalation and compliance with the price warranty or price reduction clauses). In such cases, the contract clause in IPR § 14–63.104 may be appropriately modified with the written concurrence of the Office of Inspector General.

(d) Use of the clause set forth in IPR § 14–63.104 (whether or not modified) does not negate the required use of the "Examination of Records" clause prescribed in FPR § 1–3.814–2(c) or the "Audit" clause prescribed in FPR § 1–3.814–2(a).

4. Section 14–63.104 is revised to read as follows:

§ 14–63.104 Clause.

Insert the following clause under the conditions prescribed in IPR § 14–63.103(b):

Examination of Records

Any Contractor receiving Federal funds agrees that the Secretary of the Interior, the Inspector General, or any of their duly authorized representatives shall, until the expiration of three years after final payment under this contract or the time periods for the particular records specified in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20), whichever expires earlier, have access to, and the right to examine, any books, documents, papers and records of the Contractor involving transactions related to this contract or compliance with any clauses thereunder. The Contractor further agrees to include this provision in all contractual agreements with subcontractors.

[End of Clause]

§§ 14–63.104–1, 14–63.104–2 and 14–63.104–3 [Removed]

5. Sections 14–63.104–1, 14–63.104–2 and 14–63.104–3 are removed.

BILLING CODE 4310–10–M

Bureau of Land Management

43 CFR Public Land Order 6098

Modification of Public Land Order Nos. 5173, 5180, and 5184; Classification and Opening of Lands

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order modifies several public land orders to permit, if the lands described are otherwise available, the filing of settlement claims for purposes of trade and manufacturing sites, headquarters sites, or homesites on certain specified lands; operation of the mineral leasing laws on certain specified lands; and the opening of other lands to operation of the general mining laws. These lands are currently unsurveyed.

EFFECTIVE DATE: December 17, 1981.

FOR FURTHER INFORMATION CONTACT: Beaumont C. McClure, Washington, D.C., (202) 343–6511, or Julienne Gibbons, Alaska State Office, (907) 271–5069, for settlement claims, or Valliere Cacy, Alaska State Office, (907) 271–5060, for minerals.

By virtue of the authority vested in the Secretary of the Interior (hereinafter, Secretary) by subsection 204(a) of the Federal Land Policy and Management Act of October 21, 1976, 43 U.S.C. 1714(a), and by subsection 17(d)(1) of the Alaska Native Claims Settlement Act (hereinafter, ANCSA) of December 18, 1971, 43 U.S.C. 1616(d)(1), it is ordered as follows:

1. Public Land Order Nos. 5173, dated March 9, 1972; 5180, dated March 9, 1972; and 5184, dated March 9, 1972, all as amended, modified, or corrected, which withdrew the lands described herein, among others, pursuant to the authority vested in the President and delegated to the Secretary in Executive Order No. 10355 of May 26, 1952, 17 FR 4831, and the authority vested in the Secretary pursuant to subsection 17(d)(1) of the ANCSA, are hereby modified and amended to permit appropriation of lands under the public land laws, if otherwise available, to the following extent:

a. Subject to valid existing rights, the following described lands will be opened to settlement for trade and manufacturing sites, headquarters sites, and homesites, 43 U.S.C. 687a, as specified herein:

(1) The following described lands will be opened to the foregoing types of settlement at 10:00 a.m., Alaska Standard Time, on February 19, 1982:

Fairbanks Meridian

T. 9 S., R. 20 W.,
Secs. 1 to 3, inclusive;
Secs. 10 to 15, inclusive;
Secs. 21 to 23, inclusive;
Secs. 26 and 27;
Secs. 34 to 36, inclusive.

The area described contains approximately 10,880 acres.

(2) The following described lands will be opened to the foregoing types of settlement on December 31, 1982:

Fairbanks Meridian

T. 7 S., R. 20 W.,
Secs. 12 and 13;
Secs. 23 to 26, inclusive;
Secs. 34 to 36, inclusive.
T. 8 S., R. 20 W.,
Secs. 1 to 3, inclusive;
Secs. 10 to 12, inclusive.

The areas described aggregate approximately 9,600 acres.

(3) The following described lands will be opened to the foregoing types of settlement on December 31, 1983:

Fairbanks Meridian

T. 8 S., R. 20 W.,
Secs. 13 to 15, inclusive;
Secs. 22 to 28, inclusive;
Secs. 32 to 36, inclusive.

The area described contains approximately 9,600 acres.

b. Subject to valid existing rights, the following described lands will be opened to operation of the mineral leasing laws, including, but not limited to, the Mineral Leasing Act of February

25, 1920, as amended and supplemented, 30 U.S.C. 181 et seq., at 10:00 a.m., Alaska Standard Time, on February 19, 1982:

Kateel River Meridian

Tps. 18 S., Rs. 23, 24, and 25 E.
Tps. 19 S., Rs. 24, 25, and 28 E.
Tps. 20, 21, and 22 S., R. 22 E.

Fairbanks Meridian

Tps. 7 S., Rs. 21, 22, and 23 W.

The areas described aggregate approximately 276,480 acres.

c. Subject to valid existing rights, the following described lands will be opened to operation of the general mining laws at 10:00 a.m., Alaska Standard Time, on February 19, 1982:

Kateel River Meridian

T. 17 S., R. 22 E.,
Secs. 34 to 36, inclusive.
T. 17 S., R. 23 E.,
Sec. 13;
Secs. 20 to 29, inclusive;
Secs. 31 to 36, inclusive.
T. 17 S., R. 24 E.,
Secs. 1 to 4, inclusive;
Secs. 7 to 36, inclusive.
Tps. 17 S., Rs. 25 to 29 E., inclusive.
T. 17 S., R. 30 E.,
Secs. 4 to 9, inclusive;
Secs. 16 to 21, inclusive;
Secs. 28 to 33, inclusive.
T. 18 S., R. 22 E., that portion lying outside the Nowitna National Wildlife Refuge.
Tps. 18 S., Rs. 23, 24, 25, and 28 E.
T. 18 S., R. 29 E.,
Secs. 1 to 21, inclusive;
Secs. 28 to 33, inclusive.
Tps. 19 S., Rs. 22, 23, 24, 25, 26, and 28 E.
Tps. 20 S., Rs. 22 and 25 E.
T. 20 S., R. 26 E.,
Secs. 1 to 21, inclusive;
Secs. 28 to 33, inclusive.
T. 20 S., R. 27 E.,
Secs. 1 to 18, inclusive.
T. 21 S., R. 22 E.
T. 21 S., R. 24 E.,
Secs. 1 to 19, inclusive;
Secs. 21 to 32, inclusive;
Secs. 34 to 36, inclusive.
T. 22 S., R. 22 E.

Fairbanks Meridian

T. 6 S., R. 20 W.,
Secs. 19 to 36, inclusive.
T. 6 S., R. 21 W.,
Secs. 19 to 36, inclusive.
T. 6 S., R. 22 W.,
Secs. 4 to 9, inclusive;
Secs. 16 to 36, inclusive.
T. 6 S., R. 23 W.
Tps. 7 S., Rs. 20, 21, 22, 23, and 24 W.
Tps. 8 S., Rs. 20, 21, 22, 23, 24, and 25 W.
Tps. 9 S., Rs. 20, 25, and 26 W.
T. 10 S., R. 20 W., those portions of the following sections lying outside the Denali National Park and Preserve,
Secs. 1 to 12, inclusive.
T. 10 S., R. 22 W., those portions of the following sections lying outside the Denali National Park and Preserve,
Secs. 1 to 11, inclusive;
Secs. 15 to 21, inclusive;
Secs. 28 to 33, inclusive.
T. 10 S., R. 23 W., those portions lying outside the Denali National Park and Preserve.
Tps. 10 S., Rs. 24, 25, 26, and 27 W.
T. 10 S., R. 28 W.,
Secs. 1 and 2;
Secs. 11 to 14, inclusive;
Secs. 23 to 26, inclusive;
Secs. 35 and 36.

The areas described aggregate approximately 950,000 acres.

2. Pursuant to the authority vested in the Secretary by subsection 17(d)(1) of the ANCSA, subject to valid existing rights and subject to the limitations set forth in paragraph 3 of this order, the lands listed in paragraph 1 of this order, and which are otherwise available, are hereby classified as suitable for appropriation under the public land laws as specified therein and are hereby opened to such appropriation on the dates specified therein. The opening time and date set forth in subparagraphs 1(a)(1), 1(b), and 1(c) of this order reflect the expiration of the 90-day preference right of selection for those lands afforded the State of Alaska as required by subsection 6(g) of the Alaska Statehood Act, 48 U.S.C. Ch. 2, Sec. 6(g), as set forth in Public Land Order No. 6092, dated November 16, 1981, 46 FR 57048–57049. The lands opened to appropriation by this order continue to be subject to the authority of the Secretary to make contracts, and to grant leases, permits, rights-of-way, or easements.

3. The purpose of this public land order is to make certain lands available for settlement under the Trade and Manufacturing Site, the Headquarters Site, and the Homesite laws (subparagraphs 1(a)(1), 1(a)(2), and 1(a)(3)), to operation of the mineral leasing laws (subparagraph 1(b)), and to operation of the general mining laws (subparagraph 1(c)). No lands are opened by this order which (1) lie within the Nowitna National Wildlife Refuge, or (2) lie within the Denali National Park and Preserve, or (3) are the subject of prior withdrawals or appropriation still in effect.

4. All oil and gas offers to lease filed for lands described in subparagraph 1(b) of this order must either be filed in person in the Alaska State Office at 701 C Street, Anchorage, Alaska, or mailed to the Alaska State Office, Post Office Box 70, Anchorage, Alaska 99513. Notwithstanding the provisions of 43 CFR 3112.1–1, all lands listed in subparagraph 1(b) of this order will be subject to the filing of regular offers under 43 CFR Subpart 3111, and to the provisions of 43 CFR 1821.2–3(a). Any offers to lease received during the 15-day period, from 10:00 a.m., Alaska Standard Time, February 19, 1982, to 4:15 p.m., March 5, 1982, will be considered as filed at the same time, 4:15 p.m., Alaska Standard Time on Friday, March 5, 1982. Noncompetitive offers to lease which are filed after that time and date will be processed and governed by the specific time and date they are received.

The filing fee and advance rental required for any filings pursuant to the mineral leasing laws must be remitted at the time of filing in accordance with regulations found in Title 43 CFR Subchapter C which are in effect on March 5, 1982.

The Secretary is currently considering changing the amount of filing fees. The general public is hereby notified that the amount of filing fees required to be remitted may change subsequent to the issuance of this order and prior to March 5, 1982. The announcement of any such change will be published in the **Federal Register**, a copy of which will be posted in the Public Room, Alaska State Office, 701 C Street, Anchorage, Alaska.

Garrey E. Carruthers,

Assistant Secretary for Land and Water Resources.

December 14, 1981.

BILLING CODE 4310-84-M

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

49 CFR Part 571

[Docket No. 80-14; Notice 3]

Federal Motor Vehicle Safety Standards; New Pneumatic Tires for Passenger Cars

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Final rule.

SUMMARY: This rule deletes Table I from Appendix A of Federal Motor Vehicle Safety Standard 109. That table required that, before introducing and selling a new tire size, a manufacturer had to submit load and dimensional information to this agency and await the inclusion of the tire size in Table I. The agency has determined that this procedure was an unnecessary burden on the tire manufacturers for several reasons. First, submission to the agency of the load and dimensional data, which is needed for conducting compliance tests, was unnecessary since the data

could be obtained simply from a tire standardization organization. Second, the agency did not attempt to validate independently the submitted data. Instead, NHTSA simply checked the submitted data against that published for the tire size in one of the standardization organization yearbooks. Under the new procedure published today, a manufacturer may introduce new tire sizes as soon as the load and dimensional information for the new size has been either submitted to this agency and to that manufacturer's dealers or published as a part of one of the standardization organization's yearbooks.

DATE: Effective date: This amendment becomes effective June 15, 1982.

Petitions for reconsideration may be submitted on or before January 18, 1982.

ADDRESS: Submit petitions for reconsideration to: Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT: Arturo Casanova, Office of Vehicle Safety Standards, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590, (202–426–1714).

SUPPLEMENTARY INFORMATION: Standard No. 109, *New Pneumatic Tires—Passenger Cars*, 49 CFR 571.109, specifies the requirements for all tires manufactured for use on passenger cars manufactured after 1948. This standard, which was issued under the National Traffic and Motor Vehicle Safety Act (Safety Act), requires that the tires meet specified strength, resistance to bead unseating, endurance, and high speed requirements, and be labeled with certain safety information. Closely related to this standard is Standard 110, *Tire Selection and Rims—Passenger Cars*, 49 CFR 571.110, which requires that each passenger car be equipped with tires that comply with Standard 109, that tires on all cars be capable of carrying the load of that vehicle, that the rims on the car be appropriate for use with the tires, and that certain data about the car and tires appear on a placard in the passenger car.

For purposes of testing tires and vehicles to determine their compliance with these standards, several variable factors such as the tire's inflation pressure, the load on the tire, and the rim on which the tire is mounted, must be specified. Under the procedures previously followed, when a tire manufacturer intended to introduce a new tire size, it had to submit these variable factors to the agency for inclusion via a rulemaking proceeding in Table I of Appendix A of Standard 109. Until these factors were published in Table I, the new tire size could not be imported into or sold in this country.

Michelin Tire Corporation (Michelin) filed a petition with the National Highway Traffic Safety Administration (NHTSA) requesting that the agency eliminate Table I from Standard 109. Michelin argued that Standard 119, which applies to all motor vehicle tires other than those for passenger cars, has been successfully implemented without any tire tables, and that the provision of Standard 109 requiring tire sizes to appear in Table I needlessly delays the introduction of innovative tire technology.

During its consideration of this petition, NHTSA reexamined its role and that of the various tire standardization organizations in connection with the approval of new tire sizes. These standardization organizations are voluntary associations composed of representatives of each of the member tire companies. The purpose of these standardization organizations is to establish and promulgate engineering standards for tires, rims, and their allied parts. Generally, when a tire manufacturer wanted to introduce a new tire size, it first presented the load and dimensional data on the new size to a standardization organization. The standardization organization checked the data against that derived from its established formulae for computing these data, and if they were accurate, published the data as part of its yearbook. Concurrently, the tire manufacturers associations or individual tire company submitted a petition with the appropriate data to NHTSA, requesting the inclusion of the new size in Table I. This agency then duplicated the work of the standardization organizations, checking to see that the load carrying data were calculated according to the proper formula. If they were, the agency included the tire size in the next routine amendment to Table I. No independent testing of the load carrying capabilities of new tire sizes was ever undertaken by the agency before adding those tires to the table.

NHTSA also considered the effect that deleting Table I would have on the substantive requirements of Standard 109 and on the introduction of new tires. There would be no change in the substantive requirements. Any tire to be sold in the United States would still be required to pass all the performance requirements set forth in the standard. However, there would be a change in the ease with which new tires could be introduced. There would no longer be any situations where a tire which fully complied with all of the requirements of Standard 109 would have its introduction delayed because of the necessity of first listing that size in the Standard. With the elimination of the tire table, manufacturers would be able to sell tires in the United States as soon as the manufacturer certified that those tires comply with all of the substantive requirements of Standard 109. Thus, Michelin's petition presented the agency with an opportunity to facilitate the introduction of new technology without relaxing any safety requirements.

The petition also presented the agency with an opportunity to explore the possibility of relying on private standards groups as an alternative to mandatory regulation by a Federal agency. This situation seemed like a particularly excellent opportunity to pursue that alternative since NHTSA was already relying on those organizations' determinations of the validity of their calculations.

Accordingly, because deletion of Table I would enable the agency to remove a requirement that imposed time-consuming administrative burdens and delayed the introduction of new tire technology without providing commensurate safety benefits, the agency decided to issue a proposal deleting that table. The notice of proposed rulemaking (NPRM) was published at 45 FR 57466 on August 28, 1980.

The agency received 11 comments on the NPRM. Comments supporting the proposal to eliminate Table I were submitted by Chrysler, Ford, Michelin, Volkswagen of America, and JATMA (the Japanese standardization organization). Comments opposing the proposal were submitted by General Motors, the Rubber Manufacturers Association (RMA, the trade association representing U.S. tire manufacturers), and the Tire & Rim Association (T&RA, the American standardization organization).

Several commenters stated that, without the tire tables, the intermix controversy could have produced serious safety hazards for persons mounting tires. This controversy involved the only safety issue which has ever arisen in the 14 year history of Table I in connection with a petition to add new tire sizes to that Table. This issue was the possible "intermix" of English unit tires and rims with the more recently introduced metric unit tires designed for use on metric unit rims. Since the sizes of these tires and rims may be a close, but not exact match, it would be possible to mismatch an

English unit tire on a metric rim or vice versa. That mismatching could cause the bead of the tire to explode during inflation, or the tire to suddenly lose air while in use.

There were several other comments related to the mismatch controversy. One commenter, a member of the Illinois Vehicle Equipment Safety Commission, stated that before the tire tables could safely be deleted, some amendment would have to be made to Standard 109 to make it impossible to mount tires on rims not compatible with those tires. Similarly, other commenters stated that the agency assumed in the NPRM that the standardization organizations would undertake new duties which historically they have not undertaken, and which they may be unwilling to undertake.

The agency is not aware of explosions due to mismatch ever actually happening. However, the possibility of such explosions was raised as a possibility when NHTSA proposed to add new metric tire sizes to Table I in 1978 and again in 1980 and 1981. Some provision to eliminate the possibility of such intermix would eliminate any potential safety problems which might arise from "mismatches."

Half of this potential problem has already been removed by the routine incorporation of a "blow-by" feature in the new millimetric tires designed for use on millimetric rims. The "blow-by" feature consists of flutes or grooves in the bead area of the tire which prevent the tire from forming a seal with the rim and holding air when the tire is improperly mounted on an English-unit rim. The agency believes that the manufacturers are very unlikely to stop incorporating this feature on these tires because its use is so simple and inexpensive. Also discontinuance would expose the tire manufacturer to a product liability suit if the tire failed as a result of being intermixed. Accordingly, the agency believes it is reasonable to assume that the problem of intermix of English-unit rims with the millimetric tires will not be a problem in the future.

The agency recognizes that there is apparently no similarly simple design change currently used to prevent an intermix of an English-unit tire with the millimetric rims designed for use with millimetric tires. The agency is considering several options to deal with this situation. One option is the adoption of minimum and maximum well depths for these rims. These requirements prevent an English-unit tire from "buttonholing" on the millimetric rim. "Buttonholing" refers to the process of stretching the beads of a tire over the flange of the rim and derives its name from its similarity to the process of manipulating a button hole so that it fits over a button. T&RA already has a practice of adopting well depth requirements for these rims. Also, the European Tyre Rim and Technological Organisation (ETRTO) has recently established well depth requirements for some millimetric rims. If these requirements were adopted by all of the standardization organizations, they would effectively eliminate the possibility of any intermixing English-unit tires with these rims.

Another option would be for NHTSA to propose requiring that the rim size be labeled on passenger car rims. Such a requirement would parallel the existing requirement in Standard 120 that the rim size be labeled on rims other than passenger car rims. Compliance with that requirement has apparently been accomplished in a fairly simple and inexpensive manner. If the rim size were labeled on car rims, any person mounting a tire could compare the rim size with the tire size required to be labeled on the tire and thereby ensure that the tire and rim sizes were compatible.

Both of these options would effectively minimize the chances of a dangerous intermix actually occurring. In view of the substantial role already played by the standardization organizations in establishing tire load and dimensional specifications, the agency believes that it is appropriate to allow those organizations to solve the potential problem by adopting minimum and maximum well depth requirements for millimetric rims. If these organizations do not undertake to establish these requirements as a routine matter, the agency will examine further the desirability of proposing to require that the rim size be labeled on passenger car rims.

Some commenters stated that deletion of Table I would remove the only single source for determining proper loads and dimensions for all tires used in the United States. The loss of that single source was asserted to be significant, because the foreign standardizing bodies do not list all the information shown in the table. It was suggested that persons desiring to obtain that information would encounter greater difficulty in locating it.

NHTSA agrees that there will not be any single source for this information when Table I is abolished. However, NHTSA does not believe and the commenters do not allege that the loss of that single source would create any significant problems for current users of this table. The three possible users are: (1) a car manufacturer deciding on the most appropriate tires for use on a new or redesigned model; (2) a tire dealer replacing tires on a consumer's car; or (3) this agency when it is testing the tires for compliance with Standard 109. The sources of expertise and information available to car manufacturers and their experience in regularly purchasing large quantities of tires for their new cars make it possible for those manufacturers to maintain full knowledge of all possible tire sizes which could be used on their cars without having to resort to consulting Table I. The tire dealer has limited need for information about the wide variety of tires in Table I since most tire replacements are believed to involve simply using the same tire size already on the car. With respect to those instances in which a different tire size is used, the agency believes that it is most likely that the tire dealer simply consults the booklets published by the individual tire manufacturers or one of the yearbooks published by the standardization organizations to determine an appropriate tire size. It seems improbable that a tire dealer consults a copy of Title 49, Code of Federal Regulations before installing replacement tires on a consumer's car. In the case of this agency, NHTSA can obtain information from the appropriate yearbooks or from the individual tire manufacturers before testing the tires. The data from these sources, together with the information labeled on the sidewall of the tire, will provide all the information that this agency needs to test the tires. Thus, it does not appear that any of the parties which might potentially derive some benefit from the convenience of a single source of specifications for all tire sizes will have any difficulty obtaining the information they need without this single source.

The agency's belief that a single source is not indispensable is borne out by the experience with truck tires under Standard 119. Unlike Standard 109, Standard 119 does not contain a single listing of all tire sizes. Yet, in the eight years since Standard 119 became effective, there have not been any reported safety problems or difficulties that were attributed to any limitation on the availability of specifications for the various sizes. Truck manufacturers have not had any reported problems in deciding on appropriate tires nor have tire dealers had problems selecting appropriate replacement sizes. Further, there have not been any problems for the agency in determining the appropriate tire specifications for compliance testing purposes.

While not indicating why it believed that the absence of Table I might create problems for car manufacturers and tire dealers, one commenter argued that the experience with Standard 119 is not relevant as a guide for what would result under Standard 109 without tire tables because of the differences in marketing car and truck tires. The agency agrees that buyers of truck tires are generally far more knowledgeable about their purchase. It agrees also that there is not as great a variety of truck tire sizes as there is for car tire sizes. However, the significance of these differences is substantially diminished by the reliance of car tire purchasers on the knowledge of tire dealers about the specifications of the new car tires. Since tire dealers typically sell tires made by only a few tire manufacturers, the dealers need to know the capabilities of only those manufacturers' tires. They gain this knowledge from the information booklets distributed by the individual manufacturers and from the standardization organization yearbooks. Since deletion of Table I will have no affect on the continued availability of these sources, dealers will still be able to rely on them in the future.

A commenter argued that deletion of the tire table would allow a single manufacturer to introduce tires and rims incompatible with existing ones, giving rise to safety problems. Absent Table I, this commenter argued that there would be no opportunity for advance notice and scrutiny of these potential conflicts. NHTSA does not agree with this comment. The degree of care induced by the possibility of product liability suits and unfavorable publicity make it unlikely that a manufacturer would knowingly introduce tire and rim sizes which might actually cause safety problems. It is possible that, in spite of reasonable care on the part of the manufacturer, tire or rim sizing could inadvertently give rise to some other safety problems, such as those that theoretically might have occurred as a result of the potential for intermix. Since the only potential problem identified to date is intermix and that problem is likely to be foreclosed as suggested above, it is difficult to foresee what that other safety problem might be. However, if a specific new type of safety problem actually does arise, NHTSA can use its authority under the Safety Act to take appropriate action in response to that concrete situation.

Some commenters stated that the deletion of Table I would lead to proliferation of tire sizes. Commenters stated also that because the formula used by the foreign tire manufacturers to calculate the load-carrying capability of their tires differs from that used by the U.S. manufacturers, the deletion of Table I could result in a proliferation of load schedules for the same size tires. These commenters argued that this proliferation would make it possible for a consumer to buy a replacement tire with the proper size, but insufficient load-carrying capacity for his or her car.

The agency does not believe that deletion of Table I would lead to a proliferation of either tire sizes or load schedules or create a safety problem. The mere existence of the table does not exclude the possibility of multiple load schedules. In the case of several tire sizes, there are already varying load schedules listed for each of those tire sizes. (See, for instance, the values shown for the 225/70 R15 size in Tables I–T and I–JJ. The domestic version of this tire size is preceded by the letter "P", but the dimensions of the tires are identical.)

Like the problem of intermix, the proliferation of tire sizes and load schedules has occurred notwithstanding the existence of Table I. This is because Table I was never intended to serve as a barrier to any manufacturer either introducing any new tire size it wanted, provided that appropriate data for that tire size were listed in the table, or determining the load schedule appropriate for its tires. Table I was designed to be nothing more than it is, i.e., a simple listing of tire sizes. It is not a mechanism for regulating or controlling the number or variety of those sizes or load schedules. The appropriate mechanisms for considering any safety problems regarding tires are proceedings to determine whether new performance requirements should be established or whether a finding of safety-related defect should be made.

These variations in sizes and load schedules have occurred since the load schedules in Table I are freely drawn from the yearbooks of the standardization organizations and since these organizations permit different load schedules to be established for the same tire size. Since the table has had no influence on the incidence of load schedule proliferation, it is not reasonable to suppose that deletion of the table will have any influence on the extent of proliferation either.

NHTSA does not believe that the existence of different load schedules for the same tire size will create any safety problems. The agency has not received reports of any safety problems or of any incidents in which consumers have had tires with insufficient load-carrying capacity installed on on their cars. There are several other factors which underlie the agency's belief. An amendment adopted by this rule requires that the load rating for a tire be equal to or greater than a load rating published for that tire size in the yearbook of one of the standardization organizations. This phraseology differs slightly from that proposed in the NPRM. This nonsubstantive change was made in response to a request by JATMA that the provision be worded so that it would exactly parallel the language of Standard 119. This allows a manufacturer or standardization organization to specify that its tire can carry a greater load than has been published for that size, and be subjected to a more strenuous test by this agency.

More important, the agency believes that deletion of Table I will not reduce the incentive tire dealers have to make certain that the maximum load capability of the tires they sell to consumers is not less than that of the consumers' old tires. Notwithstanding the deletion of the table, the dealers will continue to exercise great care in order to avoid tort liability for selling tires with insufficient maximum load capability. The maximum load of each tire is required to be labeled on the tire by Standard 109. Thus, it does not matter what load schedules are published for that size. To ensure that the replacement tire is appropriate for the vehicle, the dealer can compare the load-carrying capability with the weight of the vehicle on each axle. That information is required to be labeled on the vehicle by Part 567.

The agency disagrees with the suggestion by some commenters that, absent the process of adding new tires sizes to Table I, there would not be any forum for addressing any international concerns about safety problems that might arise regarding new tire sizes. Under section 124 of the Safety Act, domestic and foreign parties could petition the agency to commence rulemaking or defect proceedings to address such problems. Rulemaking and defect proceedings are initiated in response to a petition when the agency finds that the petitioner sufficiently demonstrates the likely existence of a significant safety problem. If proceedings were commenced regarding any tire safety problems, those parties would also have the opportunity to participate in those proceedings.

Further, the membership of the standardization organizations is international. Since all of the tire companies are members of at least one of the tire standardization organizations, they are fully informed about the tire

sizes that the standardization organizations are considering be added to their yearbooks. For instance, Firestone, Goodyear, Uniroyal, Goodrich, and Mohawk are all members of the ETRTO and the STRO (the Scandanavian standardization organization), as well as the T&RA. Thus, there is ample opportunity for these companies to present their views on tire and rim sizing to these organizations, and have these groups address the merits of those views. In the same way, the foreign tire manufacturers are affiliated members of T&RA. They can present any objections they might have regarding tire and rim sizing to that organization. NHTSA believes that these organizations will give any objections a full consideration. If a tire manufacturer is dissatisfied with the response to its objections, it can submit an appropriate petition to NHTSA.

Chrysler, Ford, and General Motors all urged that if the standard were to be revised by deleting Table I, the procedures for conducting the high speed performance test should be revised so that they do not require testing a tire at only 85 percent of its maximum load as proposed in the NPRM. These commenters explained that the 85 percent figure would require them to use larger tires on some of their models even though there isn't any evidence that the tire sizes currently being used by the vehicle manufacturers are causing any safety problems.

In proposing use of the 85 percent figure, NHTSA was unaware of this possibility. It did not intend that deleting Table I would have the indirect effect of necessitating the use of larger tires by the vehicle manufacturers.

The car manufacturers suggested two possible revisions in the high speed test requirement that would avoid having to increase the size of any tires. General Motors suggested that NHTSA use the same reference to the intermediate load formerly shown in Standard 109, but that instead of referring to the intermediate load column in Table I, refer to the intermediate load column in the yearbooks of the various standardization organizations. NHTSA notes that there would be a problem with this suggestion. Only the American standardization organization publishes the intermediate loads which would be needed for the high speed test. Thus, if the agency adopted this approach, all foreign standardization organizations would be forced to publish intermediate loads. This step is unnecessary since the agency has accepted an alternative suggestion by other commenters.

Chrysler and Ford both suggested that the load on the tires during the high speed test be increased from the proposed 85 percent of the load at the maximum permissible inflation pressure to 88 percent of that load. This change, according to both companies, would eliminate any need for using larger tires. The agency agrees. Accordingly, this suggestion is adopted in this final rule.

Two commenters urged that the dimensional requirements be deleted from Standard 109. JATMA argued that these requirements are unnecessary because manufacturers will, as part of their quality control program, produce tires whose dimensions conform with those on the tires' labels. JATMA stated that there have not been any safety problems with improperly-sized truck tires even though Standard 119 has no dimensional requirements. It stated also that there have not been any problems with improperly-sized rims even though neither Standard 110 nor Standard 120 have any dimensional requirements. NHTSA believes that these arguments are accurate, but is unable to adopt the commenters' suggestions in this final rule. A substantive change to a standard cannot be adopted without giving the public an opportunity to comment on the proposed change. Since the NPRM did not indicate that the agency was considering such a step, it cannot be adopted in this final rule. The agency will consider initiating rulemaking to eliminate these requirements from Standard 109 in the future based on the reasons given by JATMA.

Michelin also argued that the dimensional requirements should be deleted because the language in the NPRM referring to these requirements would have effectively prohibited an individual manufacturer from introducing new tire sizes without the approval of some standardization organization. Standard 109 currently allows tire manufacturers desiring to introduce a new tire size either to use the data listed in one of the standardization organization yearbooks for the tire size or to develop their own data for the tire and submit it to NHTSA without first coordinating with any standardization organization. Regardless of their source, these data were submitted to NHTSA for inclusion in Table I. When the tire size and its data were included, the tires of that size were tested in accordance with the included data.

The NPRM proposed two changes in the current procedure. First, the agency proposed to eliminate Table I so that data for new tire sizes would not have to be included in that table prior to the importation or sale of new tires of those sizes. Second, the agency proposed that all new tire sizes would have to be accepted by some standardization organization prior to importation or sale.

Michelin objected to the second proposal. The agency agrees that its goal of facilitating the introduction of new tire technology would be best served if the standardization organizations were not indirectly given ultimate authority over the tire manufacturers in the area of tire sizing. Accordingly, the agency has not adopted that second proposal. Instead, the agency has specified in the amendments made by this notice that, as under the current standard, tire manufacturers may either use the dimensional data published by one of the standardization organizations or furnish the data directly to NHTSA, each of its dealers, and, if requested, to members of the public.

As another reason for retaining Table I, several commenters observed that the NPRM would have required the size factor of tires to be at least as large as that published by one of the standardization organizations even though the foreign standardization organizations do not publish the size factor dimension. This observation is correct, but in a technical sense only. While the yearbooks do not contain the size factor, they do contain equivalent information. Every yearbook specifies a tire's overall diameter and section width. Added together, these dimensions equal the size factor.

The deletion of Table I from Standard 109 becomes effective June 15, 1982. The 180-day period will give the tire manufacturers and the various standardization organizations an opportunity to examine the yearbooks to ensure that all of the sizes currently listed in Table I of Standard 109 are shown in one of the yearbooks.

JATMA requested that the agency state in this preamble that tire sizes which are currently listed in Table I may be produced after the table is deleted. That organization did not explain what problem, if any, prompted this comment. Most tire sizes in Table I are already in at least one of the yearbooks of the standardization organizations. It is only the very old or very new tire sizes that might not be in one of the yearbooks. Addition of the data for those sizes to a yearbook should be a fairly simple process since the data for those sizes already exist in Table I. The leadtime of 180 days provided by this notice should provide ample time for the manufacturers and standardization organizations to add that data. JATMA and the other standardization

organizations should check the tire sizes to be listed in their 1982 yearbooks to be sure that all of the sizes that their members plan to sell in the United States are among those listed sizes.

NHTSA has analyzed the impacts of this action and determined that this action is not "major" within the meaning of Executive Order 12291 or "significant" within the meaning of the Department of Transportation regulatory policies and procedures. The principal impacts of adopting this rule will be to reduce unnecessary paperwork burdens for the manufacturers and to facilitate the introduction of new technology in tires. As a result, there will be some cost savings for the manufacturers. Also, both innovative tire manufacturers and consumers will benefit from the earlier introduction of new tire technology. A regulatory evaluation regarding these impacts has been prepared and placed in the docket for this action. Copies of the evaluation may be obtained by writing the Docket Section or calling it at (202) 426–2768.

The agency has considered the environmental implications of this rule in accordance with the Environmental Policy Act of 1969 and determined that this rule will not significantly affect the human environment.

The Regulatory Flexibility Act is not applicable to this rule since that Act applies only to rulemaking proceedings in which the NPRM was issued on or after January 1, 1981. The NPRM in this rulemaking action was issued in August 1980. If that Act were applicable, NHTSA would have determined that this rule will not "have a significant economic impact on a substantial number of small entities" and that a Regulatory Flexibility Analysis was therefore not required. The reduced costs resulting from this rule does not have a significant effect on the tire manufacturers. Further, the agency believes that few of the tire manufacturers would qualify as small businesses. Any tire manufacturers that do qualify as small businesses will enjoy the same reduction of paperwork and opportunity to avoid delays in the introduction of new tire sizes as the larger manufacturers. Small governmental units and small organizations are generally affected by amendments to the Federal Motor Vehicle Safety Standards as purchasers of new motor vehicle and new motor vehicle equipment. Since this rule will not significantly affect the price of tires, small governmental units and small organizations will not be affected.

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

In consideration of the foregoing, 49 CFR Part 571 is amended as follows:

§ 571.109 [Amended]

Section 571.109, *Standard No. 109; New pneumatic tires,* is amended as follows:

1. Section S4.2.1(c) is revised as follows:

* * * * *

S4.2 *Performance Requirements.*

S4.2.1 *General.* Each tire shall conform to each of the following:

* * * * *

(c) Its load rating shall be that specified in one of the publications described in S4.4.1(b) for its size designation, type, and each appropriate inflation pressure. If the maximum load rating for a particular tire size is shown in more than one of the publications described in S4.4.1(b), each tire of that size designation shall have a maximum load rating that is not less than the published maximum load rating, or if there are differing published ratings for the same tire size designation, not less than the lowest published maximum load.

* * * * *

2. In section S4.2.2.2 the introductory text of paragraph (a) and paragraph (b) are revised to read as follows:

S4.2.2 *Test Requirements.*

S4.2.2.2 *Physical Dimensions.* Each tire, when measured in accordance with S5.1, shall conform to each of the following:

(a) Its actual section width and overall width shall not exceed the section width specified in a submission made by an individual manufacturer, pursuant to S4.4.1(a) or in one of the publications described in S4.4.1(b) for its size designation and type by more than:

* * * * *

(b) Its size factor shall be at least as large as that specified in a submission made by an individual manufacturer, pursuant to S4.4.1(a), or in one of the publications described in S4.4.1(b) for its size designation and type.

3. In section S4.2.2.3.1, the introductory text and paragraph (c) are revised to read as follows:

S4.2.2.3 *Tubeless tire resistance to bead unseating.*

S4.2.2.3.1 When a tubeless tire that has a maximum inflation pressure other than 60 psi is tested in accordance with S5.2, the applied force required to unseat the tire bead at the point of contact shall be not less than:

* * * * *

(c) 2,500 pounds for tires with a designated section width of eight (8) inches or more, using the section width specified in a submission made by an individual manufacturer, pursuant to S4.4.1(a), or in one of the publications described in S4.4.1(b) for the applicable tire size designation and type.

4. In section S4.2.2.3.2, the introductory text and paragraph (c) are amended to read as follows:

S4.2.2.3.2 When a tire that has a maximum inflation pressure of 60 psi is tested in accordance with S5.2, the applied force required to unseat the bead at the point of contact shall be not less than:

* * * * *

(c) 2,500 pounds for tires with a maximum load rating of 1,400 pounds or more, using the maximum load ratings specified in a submission made by an individual manufacturer, pursuant to S4.4.1(a), or in one of the publications described in S4.4.1(b) for the applicable tire size designation and type.

5. Section S4.2.2.4 is revised to read as follows:

S4.2.2.4 *Tire Strength.* Each tire shall meet the requirements for minimum breaking energy specified in Table 1 when tested in accordance with S5.3.

6. Section S4.4.1(a) is revised to read as follows:

S4.4 *Tire and rim matching information.*

S4.4.1 * * *

(a) Listed by manufacturer name or brand name in a document furnished to dealers of the manufacturer's tires, to any person upon request, and in duplicate to: Office of Vehicle Safety Standards, Crash Avoidance Division, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, D.C. 20590; or

* * * * *

7. Section S5.1(a) is revised to read as follows:

S5 *Test Procedures.*

S5.1 *Physical Dimensions.* * * *

(a) Mount the tire on a test rim having the test rim width specified in a submission made by an individual manufacturer, pursuant to S4.4.1(a), or in one of the publications described in S4.4.1(b) for that tire size designation and inflate it to the applicable pressure specified in Table II.

* * * * *

8. Section S5.2.1.2 is revised to read as follows:

S5.2.1 *Preparation of tire-wheel assembly.*

* * * * *

S5.2.1.2 Inflate it to the applicable pressure specified in Table II at ambient room temperature.

* * * * *

9. Section S5.3.1.1 is revised to read as follows:

S5.3 *Tire Strength.*

S5.3.1 *Preparation of tire.*

S5.3.1.1 Mount the tire on a test rim and inflate it to the applicable pressure specified in Table II.

* * * * *

10. Section S5.4.1.1 is revised to read as follows:

S5.4 *Tire endurance.*

S5.4.1 *Preparation of tire.*

S5.4.1.1 Mount a new tire on a test rim and inflate it to the applicable pressure specified in Table II.

* * * * *

11. Section S5.4.2.3 is revised to read as follows:

S5.4.2.3 Conduct the test at 50 miles per hour in accordance with the following schedule without pressure adjustment or other interruptions:

The loads for the following periods are the specified percentage of the maximum load rating marked on the tire sidewall:

	Percent
4 hours	85
6 hours	[illegible]
24 hours	100

12. Sections S5.5.1 and S5.5.3 are revised to read as follows:

S5.5 *High speed performance.*

S5.5.1 After preparing the tire in accordance with S5.4.1, mount the tire and wheel assembly in accordance with S5.4.2.1, and press it against the test wheel with a load of 88 percent of the tire's maximum load rating as marked on the tire sidewall.

* * * * *

S5.5.3 Allow to cool to 100±5° F and readjust the inflation pressure to the applicable pressure specified in Table II.

* * * * *

13. Section S6 is revised to read as follows:

S6. *Nonconforming tires.* No tire that is designed for use on passenger cars and manufactured on or after October 1, 1972, but does not conform to all the requirements of this standard, shall be sold, offered for sale, introduced or delivered for introduction into interstate commerce, or imported into the United States, for any purpose.

14. Appendix A to § 571.109 is amended by removing Table I and redesignating Tables II and III as Tables I and II, respectively.

§ 571.110 [Amended]

Section 571.110, *Standard No. 110: Tire Selection and Rims*, is amended as follows:

15. Section S4.2.1 is revised to read as follows:

* * * * *

S4.2 *Tire load limits.*

S4.2.1 The vehicle maximum load on the tire shall not be greater than the applicable maximum load rating specified in one of the publications described in S4.4.1(b) of Motor Vehicle Safety Standard No. 109 for the tire's size designation and type.

TABLE I.—OCCUPANT LOADING AND DISTRIBUTION FOR VEHICLE NORMAL LOAD FOR VARIOUS DESIGNATED SEATING CAPACITIES

Designated seating capacity, number of occupants	Vehicle normal load, number of occupants	Occupant distribution in a normally loaded vehicle
2 through 4	2	2 in front.
5 through 10	3	2 in front, 1 in second seat

* * * * *

16. In Section S4.3.1, paragraph (c) is revised to read as follows:

S4.3.1 * * *

(c) The tire rating specified in one of the publications described in S4.4.1(b) of Motor Vehicle Safety Standard No. 109 for the tire size at that inflation pressure is not less than the vehicle load on the tire for that vehicle loading condition.

The program official and attorney principally responsible for the development of this final rule are Arturo Casanova and Stephen Kratzke, respectively.

(Secs. 102, 119, and 202, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1392, 1407 and 1442); delegation of authority at 49 CFR 1.50)

Issued on December 8, 1981.

Diane K. Steed,

Acting Administrator.

BILLING CODE 4910–59–M

Proposed Rules

Federal Register
Vol. 46, No. 242
Thursday, December 17, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1135

[Docket No. AO-380-A1]

Milk in the Southwestern Idaho-Eastern Oregon Marketing Area; Decision on Proposed Amendments to Marketing Agreement and to Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This final decision provides certain changes in the Southwestern Idaho-Eastern Oregon order based on industry proposals considered at a public hearing held July 15, 1981. The changes would modify the basis for pooling a distributing plant and would permit more milk when not needed for fluid (bottling) use to move directly from farms to nonpool manufacturing plants and still be priced under the order. The changes are necessary to reflect current marketing conditions and to insure orderly marketing in the area. Cooperative associations will be polled to determine whether producers favor the issuance of the proposed amended order.

FOR FURTHER INFORMATION CONTACT: Maurice M. Martin, Marketing Specialist, Dairy Division, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 447-7183.

SUPPLEMENTARY INFORMATION: This administrative action is governed by the provisions of sections 556 and 557 of Title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12291.

Prior documents in this proceeding:

Notice of Hearing: Issued June 22, 1981, published June 25, 1981 (46 FR 32873).

Order Suspending certain provisions: Issued August 28, 1981; published September 3, 1981 (46 FR 44147).

Recommended Decision: Issued October 27, 1981; published November 2, 1981 (46 FR 54374).

Preliminary Statement

A public hearing was held upon proposed amendments to the marketing agreement and the order regulating the handling of milk in the Southwestern Idaho-Eastern Oregon marketing area. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice (7 CFR Part 900), at Boise, Idaho on July 15, 1981, pursuant to notice thereof issued June 22, 1981 (56 FR 32873).

Upon the basis of the evidence introduced at the hearing, and the record thereof, the Deputy Administrator, Marketing Program Operations, on October 27, 1981, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The hearing notice specifically invited interested persons to present evidence concerning the probable regulatory and informational impact of the proposals on small businesses. Also, at the hearing, the presiding Administrative Law Judge, in his opening remarks, called particular attention to all prospective hearing participants to that portion of the hearing notice related to the Regulatory Flexibility Act. However, no participants at the hearing testified about any potentially adverse impacts of the proposals on small businesses.

Further, William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that the amendments adopted herein, which are based on the hearing record, would not have a significant economic impact on a substantial number of small entities. The amendments will lessen the regulatory impact of the order on certain milk handlers and will tend to ensure that Grade A dairy farmers in the area will have their milk priced under the order and thereby receive the benefits that accrue from such pricing.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein, subject to the following modifications:

1. Under issue 1 "Pool plant qualification standards for a distributing plant," paragraph 14 is revised.

2. Under issue 2 "Diversion of producer milk," paragraph 15 is revised.

The material issues on the record relate to:

1. Pool plant qualification standards for a distributing plant.

2. Diversion of producer milk.

3. Need for emergency action.

Findings and Conclusions

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Pool plant qualification standards for a distributing plant.* The provisions of the order that relate to the basis for pooling a distributing plant should be revised.

Presently, the order provides that a distributing plant shall qualify as a pool plant if during the month it disposes of as Class I milk at least 40 percent of its total Grade A receipts on routes and at least 10 percent of such receipts on routes in the marketing area. If a handler operates more than one distributing plant, each plant must qualify separately as a pool plant.

The order should be changed to permit a handler who operates two or more distributing plants to consider them as a unit for purposes of meeting the 40 percent total route disposition requirement. However, the order should continue to require that the in-area distribution requirement be met by each plant separately.

Dairymen's Creamery Association (DCA) and Mountain Empire Dairymen's Association (MEDA), who represent more than 90 percent of the market's producers, proposed that the order provide for unit pooling for distributing plants, if so requested by the operator of the plants. Under their proposal, the receipts and disposition of each plant in a unit would be combined and treated as a single plant for the purpose of determining whether the unit meets the total route disposition requirement for a pool distributing plant.

DCA is a 50 percent owner of Associated Dairies, Inc., which operates two distributing plants in the market at Boise and Twin Falls, Idaho. This is the only multi-distributing plant operation in the market. In conjunction with its fluid operation at Twin Falls, the handler

maintains a substantial Class II operation at the plant. The principal by-products made at this plant include cottage cheese, ice cream mix and various cream products. Most of these products are transferred to the Boise plant for distribution. The Boise plant processes essentially Class I products.

Proponents stated that the adoption of their proposal would eliminate the need for the two proponent cooperatives, in pooling their member-producers' milk, to make uneconomic and costly movements of milk from the Twin Falls plant to the Boise plant merely to qualify the former plant as a pool plant. In this connection, proponents' spokesman stated that at the hearing held to consider a new order for the area, it was anticipated that each plant would qualify separately as a pool plant and thus provide the means of pooling on an efficient basis the DCA and MEDA member milk available for the market. He pointed out that since the close of the promulgation hearing in February 1980 there have been changes in marketing conditions that necessitate the proposed modification in the order's distributing plant performance requirements.

The changed conditions referred to by proponents' witness include a change in the operations of Associated Dairies' plants. He pointed out that in 1980 the handler transferred its ice cream mix production from a Boise plant to the Twin Falls plant. He testified that as a result of this change, the Twin Falls plant did not qualify as a pool distributing plant in June 1981 when the new order first became partially effective since the plant's total route disposition was only 37 percent of total receipts. The witness stated that by combining the receipts and distribution of the Boise plant with the Twin Falls plant the total route disposition percentage figure for both plants was over 75 percent in June 1981, well over the minimum 40 percent requirement.

Proponents stated that the problem in maintaining pooling status for the Twin Falls plant and the member-producer supplies associated with the plant is further complicated by the buildup in member-producer supplies available for pooling in the market. The witness for proponents stated that this change occurred since the completion of the promulgation hearing in February 1980. He contended that the buildup in producer milk supplies, coupled with the changes in the operation of Associated Dairies' plants, will impair the ability of DCA and MEDA to maintain pooling status for their member-producer supplies. He indicated that such pooling would require shipping to the Boise plant milk supplies that would normally be pooled at the Associated Dairies' Twin Falls plant. This was described as a costly and inefficient means of marketing milk.

The proposed change in the pool distributing plant definition should be adopted. The record clearly establishes that conditions in the market have changed as described by proponents, with the result that there is a problem under the order's present provisions in achieving pooling status for Associated Dairies' Twin Falls plant and its attendant producer milk supplies in an orderly and efficient manner. In fact, because of the magnitude of the pooling problem resulting from the current marketing situation, the Department suspended a portion of the pooling standards for distributing plants beginning July 1, 1981, when the new order became fully effective. This action temporarily mitigated the pooling problem of the involved handler and cooperative associations. However, the record evidence establishes that the pooling problem in question is not of a short duration. Accordingly, the proposed unit pooling provision applicable to distributing plants is reasonable and appropriate under current marketing conditions and the order should be so amended.

As proponents indicated, the shifting of producer deliveries between Associated Dairies' two plants solely for the purpose of qualifying each plant individually accommodates the pooling of their producer milk associated with the market. However, this practice unnecessarily adds to the cost of handling and transporting the milk to be pooled. Providing for unit pooling will remove the need to make uneconomic movements of milk solely for pooling purposes and will allow the assignment of producers to the plant where it is most practicable for them to deliver milk.

Order provisions should not impede the ability of a multi-plant handler to achieve operational efficiencies by specializing in the processing of fluid milk products in one plant and by-products in another. With unit pooling, as herein adopted, it will be possible for a multi-plant handler to confine certain specialized operations to one plant in order to achieve an economy of scale comparable to that which would be realized by maintaining his total operation in one plant.

As indicated previously, to qualify for unit pooling, each distributing plant in the unit would still have to dispose of at least 10 percent of its receipts as route disposition in the marketing area. At the hearing, proponents requested that the 10 percent in-area route disposition requirement apply to the entire unit. Except for making the request, proponents did not present any testimony in support of the request. In fact, there was no evidence indicating that either of the distributing plants operated by Associated Dairies would have a problem meeting the 10 percent in-area route disposition requirement on an individual plant basis.

As a condition to qualify for unit pooling, a handler would be required to notify the market administrator in writing prior to the first month in which plants are to be considered as a unit for pooling purposes. Unit pooling would be continued in each following month without further notification. However, if other plants of the handler are added to or dropped from the unit, the handler would need to notify the market administrator prior to the month in which such change is to be effective.

A proprietary handler who did not testify at the hearing, in his post-hearing brief and exceptions to the recommended decision, opposed the unit pooling proposal on the basis that proponents' pooling problem is temporary and that they could resolve it under existing order provisions. The handler also expressed concern that a unit pooling provision would enhance proponents' ability to pool additional producer milk supplies with the consequences of reducing producer returns.

As indicated, the unit pooling provision adopted herein is needed to reflect current marketing conditions and to insure orderly marketing in the area. It is not apparent that unit pooling could provide a means of pooling any significant quantities of additional milk. Although unit pooling would provide proponents more flexibilty in directing the movement of milk from member-producers' farms to the multi-plant handler's two distributing plants, proponent cooperatives' potential for associating milk supplies with the market actually would be no greater whether the plants are qualified individually or on a combined basis.

A proposal that would reduce the total Class I route disposition requirement for a pool distributing plant from 40 percent to 30 percent of its receipts of milk during the month was included in the notice of hearing. At the hearing, proponents (DCA and MEDA) abandoned the proposal. No other party supported the proposal. Accordingly, no action is taken on the proposal.

2. *Diversion of producer milk.* The order should be amended to increase by 10 percentage points the amount of producer milk that a cooperative association or other handlers may divert from pool plants to nonpool plants.

The present order provides that a cooperative association may divert up to 60 percent of its total member milk received at all pool plants or diverted therefrom during the months of September through February and 70 percent in other months. Similarly, the operator of a pool plant or a proprietary bulk tank handler may divert during the months of September through February up to 60 percent of their producer receipts that are not under the control of a cooperative association, and 70 percent in other months.

DCA and MEDA proposed that the limits on allowable diversions by a cooperative association from pool plants to nonpool plants be increased 10 percentage points. The proposal would apply only to cooperative associations. As proposed, a cooperative association would be allowed to divert to nonpool plants up to 70 percent of its member milk received at all pool plants or diverted therefrom in the months of September through February and 80 percent in other months.

Proponents' witness testified that less restrictive diversion provisions are needed to reflect a change in marketing conditions that has occurred since the new order's present diversion limitations were developed. The changed market situation cited by the witness focused on the recent buildup in milk supplies for the market. He noted that the amount of milk available to the market by the two cooperatives in June 1981 was nearly 41 million pounds compared with a June 1978 projection of 18 million pounds. According to the witness, the substantial increase in the cooperatives' milk supplies for the market is due to an increase in the number of producers associated with the market and a significant increase in milk production by member-producers in the major supply area for the market.

Proponents' witnesses maintained that in view of this change in supply conditions, the current limits on diversions to nonpool plants are unduly restrictive and should be relaxed. According to the spokesman, the proposed change is designed to enable the proponent cooperatives to pool their available milk supplies without the need to move milk back and forth between plants for the purpose of maintaining pool status for their available milk supplies. He added that "one way or another this milk would get pooled."

Further, proponents' spokesman claimed that the cooperatives are the only handlers on the market that need an increase in diversion limitation percentages. According to the witness, this is because the proponent cooperatives alone provide the balancing function for the market since all of the market's proprietary handlers rely on the cooperatives to balance their milk supplies. Therefore, he concluded, proponents' proposal to relax diversion limitations should apply only to cooperative associations.

The record evidence establishes that current marketing conditions in the market are substantially different than existed at the time the present diversion limitations were adopted. The current provisions were adopted on the basis of evidence presented at a hearing held December 5–8, 1978, and February 5–8, 1980. Data placed in the record show a significant increase in the amount of milk available for pooling under the order since the diversion limitations in question were initially developed.

As indicated by proponents, their available milk supplies for pooling under the new order have increased from a June 1978 projection of 18 million pounds to nearly 41 million for June 1981. In contrast, it was estimated in the final decision for the new order (46 FR 21944) that producer receipts for the market would average about 27 million pounds monthly, with a 40–45 percent Class I utilization.[1]

The record shows that this substantially greater volume of milk on the market than was projected initially is largely because of two factors. First, proponent cooperatives have chosen to associate more producers with the market than was previously contemplated. For example, in June 1978 the cooperatives anticipated associating with the new order approximately 158 producers. Data for June 1981 show that they projected associating with the market a total of 279 producers.

The second factor contributing to the upsurge in milk supplies for the market is the substantial increase in milk production by producers for the market. Production in the State of Idaho, for example, was 12 percent higher in 1980 than in 1979. Milk production for the first 5 months of 1981 was up over 9 percent compared to the same months in 1980. This follows nearly a 15 percent increase in milk production during the first 5 months of 1980 from the comparable period in 1979.

[1] Official notice is taken of the Assistant Secretary's decision, Docket No. AO–380, issued April 6, 1981 (46 FR 21944).

The record also established that DCA and MEDA provide the basic function of balancing the market's supplies with the fluid needs of distributing plants. Currently, milk from the proponent cooperatives' members accounts for nearly 90 percent of the total producer milk on the market. With the relatively few distributing plants operating in the market, proponents are limited in adjusting supplies among the plants where it is not needed for fluid use to other plants where it is needed.

In view of the urgency of the changed market situation concerning the market's current supply situation, the diversion limitations were suspended beginning July 1, when the new order became effective (46 FR 37237). As noted previously, the total route distribution requirement for distributing plants was also suspended at the same time. The initial suspension was applicable for July and August 1981 and it was further extended based on the current record through December 1981 (46 FR 44147).[2] As a result of this action, about 48 million pounds of milk were pooled under the order in July 1981 (the first month that the order was fully effective) and about 49 million pounds, in August 1981.[3] The Class I utilization for July and August 1981 was 18 percent and 17 percent, respectively, for the two months.

From these data and based on the evidence developed at the hearing, it is apparent that proponent cooperatives will not be able to meet the order's present diversion limits. Accordingly, relaxing the limits by 10 percentage points, as herein provided, appears to be both appropriate and necessary to allow the proponent cooperatives to keep their available milk supplies pooled in an orderly and efficient manner.

As noted elsewhere, proponents indicated that their proposal to relax diversion limits should apply only to cooperative associations. In view of the nature of the supply situation in the market, it would appear that proprietary plant operators may have a similar need for less restrictive diversion provisions. Accordingly, the proposed action to increase the limit on the amount of producer milk that may be diverted to nonpool plants should apply also to proprietary handlers who receive nonmember milk.

A limited number of nonmember producers testified in opposition to

[2] Official notice is taken of the issuance of these two suspension orders by the Department on July 15, 1981, and August 28, 1981, respectively.

[3] Official notice is taken of the July and August 1981 "Market Administrator's Report" for Federal Orders 124, 125, and 133.

proponent's proposals. Much of their testimony was directed against the marketwide pooling feature of the order and the need for an order rather than on the specific proposed amendments. However, they did express some concern that the proposals, if adopted, would "dilute" the pool to their disadvantage. Further, in its post-hearing brief and exceptions to the recommended decision, the same proprietary handler who opposed the unit pooling proposal essentially reiterated the same reasons for opposing an increase in diversion limits.

The opposing arguments are not overriding in this matter. As indicated, the market's current supply situation is significantly different than when the order's present diversion limits were established. Relaxing diversion limits as proposed will provide greater flexibility in the handling of the increase in the market's reserve milk supplies and thus prevent uneconomic movements of some milk through pool plants merely for the purpose of qualifying it for producer milk status under the order.

Also, it is not likely that blend prices under the order would be materially enhanced if the order's present diversion limits were continued. As indicated, the record shows proponent cooperatives would take the necessary steps to assure the pooling of their available milk supplies to the market. Presumably, they would do this in the absence of any change in diversion limits, even though hauling inefficiencies would be involved. Moreover, much of the buildup in reserve milk supplies on the market are a result of increased milk production of all producers in the general supply area.

3. *Need for emergency action.* The notice of hearing provided for taking evidence to determine whether emergency marketing conditions exist that would warrant omission of a recommended decision on the proposal to revise the basis for pooling a distributing plant and the proposal to relax the limit on the amount of producer milk that a cooperative association may divert from pool plants to non pool plants.

At the hearing, proponents urged prompt action of both proposals. The request for emergency action by proponents was based on the view that the Department would not have sufficient time after the hearing to issue both a recommended decision and final decision and make any resulting action effective by September 1, 1981. In his post-hearing briefs, a proprietary handler opposed omission of a recommended decision.

As previously cited, the suspension action taken on August 28, 1981, with respect to the proposals in question removed the need for omission of a recommended decision. Accordingly, the proposal to omit the issuance of a recommended decision is denied.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the request to make such findings or reach such conclusions are denied for the reasons stated in this decision.

General Findings

The following findings and determinations supplement those that were made when the order was first issued. The previous findings and determinations are hereby ratified and affirmed, except where they conflict with those set forth below.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to Section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the market area. The minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on Exceptions

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing Agreement and Order

Annexed hereto and made a part hereof are two documents, a Marketing Agreement regulating the handling of milk, and an Order amending the order regulating the handling of milk in the Southwestern Idaho-Eastern Oregon Marketing Area which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the **Federal Register.** The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

Determination of Producer Approval and Representative Period

October 1981 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order; as hereby proposed to be amended, regulating the handling of milk in the Southwestern Idaho-Eastern Oregon Marketing Area is approved or favored by producers, as defined under the terms of the order (as hereby proposed to be amended), who during such representative period were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on December 11, 1981.

John Ford,

Deputy Assistant Secretary, Marketing and Inspection Services.

Order [1] Amending the Order, Regulating the Handling of Milk in the Southwestern Idaho-Eastern Oregon Marketing Area

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Southwestern Idaho-Eastern Oregon Marketing Area.

The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Southwestern Idaho-Eastern Oregon Marketing Area shall be in conformity to and in compliance with the terms and conditions of the order as hereby amended as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Deputy Administrator, Marketing Program Operations, on October 27, 1981 and published in the **Federal Register** on November 2, 1981 (46 FR 54374) shall be and are the terms and provisions of this order amending the order and are set forth in full herein.

PART 1135—MILK IN THE SOUTHWESTERN IDAHO-EASTERN OREGON MARKETING AREA

1. In § 1135.7 paragraph (a)(2) is revised to read as follows:

§ 1135.7 Pool plant.

* * * * *

(a) * * *

(2) Total route disposition (except filled milk) during the month equal to not less than 40 percent of such receipts. A unit consisting of two or more distributing plants operated by a handler shall be considered as one distributing plant for the purpose of meeting this requirement if the handler notifies the market administrator in writing before the first day of the month that the plants should be considered as a unit. The unit shall continue from month to month thereafter without further notification. If, however, there is any change in the composition of the unit, the handler shall notify the market administrator in writing on or before the first day of the month such change is to be made.

* * * * *

2. In § 1135.13 paragraphs (f)(3), (4) and (5) are revised to read as follows:

§ 1135.13 Producer milk.

* * * * *

(f) * * *

(3) The total quantity of milk diverted by a cooperative association during the month may not exceed 70 percent in the months of September through February, and 80 percent in other months, of the producer milk that the cooperative association causes to be delivered to or diverted from pool plants during the month. Two or more cooperative associations may have their allowable diversions computed on the basis of the combined deliveries of the producer milk which the associations cause to be delivered to pool plants or diverted from pool plants during the month if each association has filed a request in writing with the market administrator on or before the first day of the month the agreement is to be effective. This request shall specify the basis for assigning over-diverted milk to the producer deliveries of each cooperative according to a method approved by the market administrator;

(4) The total quantity of milk diverted during the month by a proprietary bulk tank handler described in § 1135.9(d) may not exceed 70 percent in the months of September through February, and 80 percent in other months, of the producer milk that the handler causes to be delivered to or diverted from pool plants during the month;

(5) The operator of a pool plant may divert for its account any milk that is not under the control of a cooperative association or a proprietary bulk tank handler that diverts milk during the month pursuant to paragraph (f)(3) and (4) of this section. The total quantity so diverted during the month may not exceed 70 percent in the months of September through February, and 80 percent in other months, of the producer milk received at or diverted from such pool plant during the month that is eligible to be diverted by the plant operator; and

BILLING CODE 3410-02-M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 50

[Docket No. PRM-50-30]

Council on Energy Independence; Filing of Petition for Rulemaking

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of receipt of petition for rulemaking from the Council on Energy Independence.

SUMMARY: The Commission is publishing for public comment this notice of receipt of a petition for rulemaking filed before the Commission on September 14, 1981, by the Council on Energy Independence. The petition, which has been assigned Docket No. PRM-50-30, requests that the Commission amend its regulations in 10 CFR Part 50 to extend the operating life of nuclear power plants.

DATE: Comment period expires February 16, 1982.

ADDRESSES: A copy of the petition for rulemaking is available for public inspection in the Commission's Public Document Room, 1717 H Street, NW., Washington, DC. A copy of the petition may be obtained by writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

All persons who desire to submit written comments concerning the petition for rulemaking should send their comments to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docket and Service Branch.

FOR FURTHER INFORMATION CONTACT: J. M. Felton, Director, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone: (301) 492-7211.

SUPPLEMENTARY INFORMATION: The petitioner states that—

. . . The Commission has issued Operating Licenses (OL) for nuclear power plants for a term of 40 years from the date of Construction Permit (CP) issuance. Thus, in the 1960's and early 1970's the actual length of permitted operation for such a plant was around 35 years. This was due to the fact that it only took about 5 years to construct the plant and obtain an operating license. Obviously, this is no longer the case.

It now takes much longer to construct a plant and obtain an OL. Thus, the number of years the plant may be operating is shrinking. Accordingly, the useful and economic life of the plant is also diminished.

The petitioner requests that—

. . . The Commission propose a change to Section 50.51 which would restore the originally intended operating life of the plant. Two alternatives are obvious: (1) tie the expiration date of the OL to the date of issuance of the operating license . . . [or] . . . (2) lengthen the duration [of the license], e.g., the license will expire 50 years from date of issuance of the CP.

Finally, the petitioner states that—

It was obviously the Commission's original intent to allow a licensed plant to operate for a period of around 35 years. Due to the growing length of time between CP and OL this allowed operating time is shrinking and in many cases will result in an opeating life of less than 30 years. While § 50.51 does allow for renewal of licenses this is not a given . . . and a licensee should not have to resort to such a request in order to be permitted to operate his facility for a time period originally intended by the Commission.

The Commission specifically requests public comment on the petitioner's first alternative ((1) Provide that the OL expire 40 years from the date of issuance). Comments on the petitioner's second alternative ((2) The license will expire 50 years from date of issuance of the CP) will not be helpful since the Commission is permitted by statute (42 U.S.C. 2133) to issue operating licenses for nuclear power plants for a period not to exceed 40 years. It is thus not within the power of the Commission to adopt, through rulemaking, a regulation which provides for a license term exceeding 40 years.

Dated at Washington, DC, this 14th day of December 1981.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

[Docket No. CAS-RM-80-118]

Energy Conservation Program for Consumer Products; Proposed Rulemaking Regarding Amendments to Test Procedures for Refrigerators, Refrigerator-Freezers and Freezers; Correction

AGENCY: Office of Conservation and Renewable Energy, DOE.

ACTION: Proposed rule; corrections.

SUMMARY: This document corrects errors made in the proposed amendments to test procedures for refrigerators, refrigerator-freezers, and freezers in FR Doc. 81-29661 appearing at and following page 50544 of the October 14, 1981 **Federal Register.**

FOR FURTHER INFORMATION CONTACT: James A. Smith, Department of Energy, Forrestal Building, Room GH-065, CE-113.1, 1000 Independence Ave., S.W., Washington, D.C. 20585 (202) 252-9127.

SUPPLEMENTARY INFORMATION: Upon careful review of the **Federal Register** publication of proposed amendments to the test procedures for refrigerators, refrigerator-freezers, and freezers, a number of typographical and other errors were found in five amendment items. Consequently, the proposed amendment to test procedures for refrigerators, refrigerator-freezers, and freezers is corrected as set forth below.

Issued in Washington, D.C., December 4, 1981.

Howard S. Coleman,

Acting Assistant Secretary, Conservation and Renewable Energy.

PART 430—ENERGY CONSERVATION PROGRAM FOR CONSUMER PRODUCTS

Accordingly, § 430.22(b)(4)(i) of the October 14, 1981 proposed amendments is corrected to read as follows:

§ 430.22 [Amended]

* * * * *

(b) * * *

(4) The energy factor for freezers, expressed in cubic feet per kilowatt-hour per cycle, shall be—

(i) For freezers not having an anti-sweat heater switch, the quotient of (a) the adjusted net refrigerated volume in cubic feet, determined according to 4.2 of Appendix B or 6.1 of Appendix B1 of this subpart, divided by (B) the average per-cycle energy consumption for the standard cycle in kilowatt-hours per cycle, determined according to 4.1 of Appendix B or 6.2 of Appendix B.1 of this subpart, the resulting quotient then being rounded off to the second decimal place, and

* * * * *

Appendix A1 [Amended]

Section 2.2 of Appendix A1 is corrected by removing the words "of the air surrounding the unit being tested" from the first sentence.

Section 5.1 of Appendix A1 is corrected by revising the first sentence to read as follows:

"Compartment temperatures shall be measured at the locations prescribed in Figures 7.1 and 7.2 of HRF-1-1979 and shall be accurate to within ± 0.5°F (0.3°C) of true value. * * * "

Appendix B1 [Amended]

Section 5.2.1.3 of Appendix B1 is corrected by revising the first equation to read as follows:

$$ET = (1440 \times EP1/T1) + (EP2 - (EP1 \times T2/T1)) \times K \times 12/CT$$

Section 6.2.1 of Appendix B1 is corrected by removing "(0.1)" from the first sentence.

BILLING CODE 6450-01-M

FARM CREDIT ADMINISTRATION

12 CFR Part 614

Loan Policies and Operations

AGENCY: Farm Credit Administration.

ACTION: Proposed rule.

SUMMARY: The Farm Credit Administration, by its Federal Farm Credit Board, publishes for comment a proposed amendment to its regulation concerning the banks for cooperatives of the Farm Credit System. The proposed amendment, which would implement new authorities conferred on institutions of the Farm Credit System by the Farm Credit Act Amendments of 1980 (Pub. L. 96-592), would authorize banks for cooperatives to finance both financial and leverage leases involving noncooperative lessors where the lessee is a stockholder of the bank and the equipment and facilities are to be utilized by the stockholder in its operations in the United States.

DATE: Written comments must be received on or before February 17, 1982.

ADDRESSES: Comments or suggestions should be submitted in writing to Donald E. Wilkinson, Governor, Farm Credit Administration, Washington, DC 20578. Copies of all communications

received will be available for inspection by interested persons in the Office of Director, Congressional and Public Affairs Division, Office of Administration, Farm Credit Administration.

FOR FURTHER INFORMATION CONTACT: Larry H. Bacon, Deputy Governor, Office of Administration, 490 L'Enfant Plaza, S.W., Washington, DC 20578 (202–755–2181).

PART 614—LOAN POLICIES AND OPERATIONS

Part 614 of Chapter VI, Title 12 of the Code of Federal Regulations is amended as shown below.

Section 614.4120 is amended by designating the existing paragraph as (a) and adding paragraph (b) to read as follows:

Subpart C—Lending Authorities

§ 614.4120 Banks for cooperatives.

(a) The banks are authorized to make loans and commitments to eligible cooperatives and to extend to them other financial assistance, including, but not limited to, discounting notes and other obligations, guarantees, collateral custody, or participation with ohter banks for cooperatives and commercial banks or other financial institutions in loans to eligible cooperatives. The banks are authorized to make or participate in loans, commitments, and extend other technical and financial assistance to a domestic or foreign party with respect to its transactions with an eligible cooperative, and to a domestic or foreign party in which an eligible cooperative has at least a minimum ownership interest for the export or import of agricultural commodities, farm supplies, or aquatic products through purchases, sales, or exchanges. The eligible cooperative must substantially benefit as a result of such a loan, commitment, or assistance for the purpose of facilitating the eligible cooperative's export or import operations. This type of activity shall be made under policies determined by the board of directors and approved by the Farm Credit Administration.

(b) The banks may make or participate in loans and commitments to finance and extend technical and financial assistance to domestic non-cooperative lessors for the purpose of providing leased assets to eligible cooperative borrowers. The terms of the contract between the lessor and lessee shall establish that the leased assets are effectively under the control of the lessee and that such control shall continue in effect for essentially all of the term of the lease. The term of such a loan shall not be longer than the total period of the lease. The lessee must be a stockholder of the bank for cooperatives and the leased equipment and facilities may only be for use in its operations in the United States.

(Secs. 5.9, 5.12, 5.18, Pub. L. 92–828, 85 Stat. 619, 620, 621 (12 U.S.C. 2243, 2246 and 2252))

Donald E. Wilkinson,

Governor.

[Docket No. 13410; Notice Nos. 79–13, –13A, –13B]

Civil Helicopter Noise Type Certification, Airworthiness Certification, and Acoustical Change Approvals; Proposed Noise Standards for Helicopters in the Normal, Transport, and Restricted Categories

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Withdrawal of notice of proposed rulemaking.

SUMMARY: This notice withdraws Notice 79–13 published in the **Federal Register**, July 19, 1979 (44 FR 42410). That notice proposed noise standards for helicopters certificated in the normal, transport, and restricted categories. It also proposed to prohibit certain changes in type designs of helicopters that might increase their noise levels beyond prescribed limits. The notice is being withdrawn to avoid adoption of a rule that has not been clearly justified at this time. This withdrawal is consistent with the spirit of Executive Order 12291.

FOR FURTHER INFORMATION CONTACT: Richard N. Tedrick, Noise Policy and Regulatory Branch (AEE–110), Noise Abatement Division, Office of Environment and Energy, Federal Aviation Administration, 800 Independence Avenue, Washington, D.C. 20591; telephone (202) 755–9027.

SUPPLEMENTARY INFORMATION:

Background

Notice No. 79–13 (44 FR 42410; July 19, 1979) proposed noise standards for helicopters certificated in the normal, transport, and restricted categories. For purposes of the proposal, "helicopters" included other aircraft for which lift is furnished, in whole or in part, by an engine-driven rotor during takeoff, hover, or landing. The proposal covered noise levels and test procedures for the issuance of new type certificates and of original standard airworthiness certificates and restricted category airworthiness certificates for newly produced helicopters of older design types. It also proposed to prohibit certain changes in type designs of helicopters that might increase their noise levels beyond prescribed limits. The original comment period for Notice No. 79–13 closed on November 19, 1979. Subsequently, the FAA was requested to extend the comment period 60 days until January 19, 1980. Notice 79–13A (44 FR 61376; October 25, 1979) did that. Later, the FAA was requested to reopen the docket to receive additional comment. In response to that request, the FAA issued Notice 79–13B (46 FR 931; January 5, 1981) reopening the comment period until March 5, 1981.

Reasons for the Decision

The FAA has considered the proposed rules in Notice 79–13 in relation to a broad spectrum of public input. Review of all available information indicates that the relatively small noise benefits that might result from the imposition of such regulations would be far outweighted by the potential costs. Therefore, the FAA has determined that the rulemaking proposed in Notice 79–13 is not justified.

On February 17, 1981, the President issued Executive Order 12291 on "Federal Regulations" (46 FR 13193; February 19, 1981). Section 2 of the Executive Order specifies five general requirements for the rulemaking conducted by the Federal Government. These requirements guide the Federal Aviation Administration rulemaking activity. The proposals in Notice 79–13 have not been shown to satisfy these criteria.

The Decision and Withdrawal

Accordingly, I conclude that the FAA should not proceed with rulemaking based on the proposals contained in the notice of proposed rulemaking now pending. Therefore, Notice 79–13 (44 FR 42410; July 19, 1979) is withdrawn. This action neither precludes the FAA from considering similar proposals in the future nor commits it to any further or future course of action on this subject matter.

(Secs. 313(a), 601(a), 603, and 611(b), Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421(a), 1423, and 1431(b)); sec. 6(c), Department of transportation Act (49 U.S.C. 1655(c)))

Note.—The FAA has determined that this notice of withdrawal is not a major action

under Executive Order 12291, since withdrawal of the rule proposal will impose no burden on the affected industry. Further this notice is not a "significant rule" under Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979) and does not warrant preparation of a regulatory evaluation because the anticipated impact is so minimal.

Issued in Washington, D.C., on November 25, 1981.

Dated: November 25, 1981.

Donald R. Segner,

Associate Administrator for Policy and International Aviation.

14 CFR Part 71

[Airspace Docket No. 81-AWP-27]

Establishment of Transition Area, Ramona, Calif.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to designate a 700 foot transition area for Ramona Airport, Ramona, California, in order to provide controlled airspace for aircraft executing an instrument approach procedure to the Ramona Airport.

DATES: Comments must be received on or before January 18, 1982.

ADDRESSES: Send comments on the proposal in triplicate to Director, Federal Aviation Administration, Attn: Chief, Airspace and Procedures Branch, AWP-530, 15000 Aviation Boulevard, Lawndale, California 90261. A public docket will be available for examination in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261; telephone: (213) 536-6270.

FOR FURTHER INFORMATION CONTACT: Thomas W. Binczak, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261; telephone: (213) 536-6182.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons, may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the Airspace Docket Number and be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261. All communications received on or before January 18, 1982, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments received will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons.

Availability of NPRM

Any peson may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Chief, Airspace and Procedures Branch, AWP-530, 15000 Aviation Boulevard, Lawndale, California 90261, or by calling (213) 536-6180. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to designate a 700 foot transition area at Ramona, California. This action will provide controlled airspace for aircraft utilizing IFR procedure to and from Ramona Airport.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend Subpart G, 71.181 (46 FR 540) of Part 71 of the Federal Aviation Administration (14 CFR Part 71) by adding the following transition area:

§ 71.181 Ramona, California.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Romona Airport (latitude 33°02'15" N., longitude 116°54'30" W.) and within 3 miles each side of the Julian, California, VORTAC (latitude 33°08'26" N., longitude 116°35'06" W.) 249° T (234° M), radials extending from the 5-mile radius area to the Julian VORTAC.

(Secs 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65)

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major call" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a Regulatory evaluation as the anticipated impact is so minimal; and (4) will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Los Angeles, Calif., on December 7, 1981.

H. C. McClure,

Director, Western Pacific Region.

Proposed Designation of Transition Area, Aurora, North Carolina

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking

SUMMARY: This proposed rule will designate the Aurora, North Carolina, Transition Area. A special instrument approach procedure has been developed for the Lee Creek Airport. Controlled airspace is required to protect aircraft Instrument Flight Rule (IFR) operations and must be designated before IFR flight procedures can become effective.

DATE: Comments must be received on or before: February 1, 1982.

ADDRESSES: Send comments on the proposal to:

Federal Aviation Administration, Attn: Chief, Airspace and Procedures Branch, ASO-530, P.O. Box 20636, Atlanta, Georgia 30320;

The official public docket will be available for examination in the Office of the Regional Counsel, Room 652, 3400 Norman Berry Drive, East Point, Georgia 30344, telephone: (404) 763-7646.

FOR FURTHER INFORMATION CONTACT: Eleanor J. Williams, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone: (404) 763-7646.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Chief, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320. All communications received on or before February 1, 1982, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each public contact with FAA personnel concerned with this rulemaking will be filed in the public, regulatory docket.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Chief, Airspace and Procedures Branch (ASO-530), Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320, or by calling (404) 763-7646. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR 71) to designate the Aurora, North Carolina, 700-foot Transition Area. This action will provide controlled airspace protection for Texasgulf aircraft executing the NDB Runway 9 special instrument approach procedure at the Lee Creek Airport. The Aurora NDB (nonfederal, nondirectional radio beacon), which will support the approach procedure, is proposed for establishment in conjunction with the designation of the Transition Area. If the proposed designation is acceptable, the airport operating status will be changed from VFR to IFR.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Subpart G, § 71.181 (46 FR 540), of Part 71 of the Federal Aviation Regulations (14 CFR 71) by adding the following:

Aurora, North Carolina

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Lee Creek Airport (Lat. 35°23'22" N., Long. 76°47'06" W.); within 3 miles each side of the 263° bearing from the Aurora RBN (Lat. 35°23'15" N., Long. 76°48'12" W.), extending from the 8.5-mile radius area to 8.5 miles west of the RBN.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Note.—The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are

necessary to keep them operationally current. It, therefore, (1) is not a major rule under Executive Order 12291; (2) is not a significant rule under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; (4) is appropriate to have a comment period of less than 45 days; and (5) at promulgation will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This proposed amendment involves only a small alteration of navigable airspace and air traffic control procedures over a limited area.

Issued in East Point, Georgia, on December 7, 1981.

George R. LaCaille,

Acting Director, Southern Region.

Proposed Designation of Transition Area, Erwin, North Carolina

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule will designate the Erwin, North Carolina, Transition Area. A standard instrument approach procedure has been developed for the Harnett County Airport. Controlled airspace is required to protect aircraft Instrument Flight Rule (IFR) operations and must be designated before IFR flight procedures can become effective.

DATE: Comments must be received on or before: February 1, 1982.

ADDRESSES: Send comments on the proposal to:

Federal Aviation Administration, Attn: Chief, Airspace and Procedures Branch, ASO-530, P.O. Box 20636, Atlanta, Georgia 30320;

The official public docket will be available for examination in the Office of the Regional Counsel, Room 652, 3400 Norman Berry Drive, East Point, Georgia 30344, telephone: (404) 763-7646.

FOR FURTHER INFORMATION CONTACT: Eleanor J. Williams, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone: (404) 763-7646.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Chief, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320. All communciations received on or before February 1, 1982, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each public contact with FAA personnel concerned with this rulemaking will be filed in the public, regulatory docket.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Chief, Airspace and Procedures Branch (ASO-530), Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320, or by calling (404) 763-7646. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR 71) to designate the Erwin, North Carolina, 700-foot Transition Area. This action will provide controlled airspace protection for aircraft executing the NDB Runway 23 standard instrument approach procedure at the Harnett County Airport. The Harnett NDB (nonfederal, nondirectional radio beacon) which will support the approach procedure is proposed for establishment in conjunction with the designation of the Transition Area. If the proposed designation is acceptable, the airport operating status will be changed from VFR to IFR.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Subpart G, § 71.181 (46 FR 540), of Part 71 of the Federal Aviation Regulations (14 CFR 71) by adding the following:

Erwin, North Carolina

That airspace extending upward from 700-feet above the surface within a 7.5-mile radius of Harnett County Airport (Lat. 35°22'43" N., Long. 78°44'04" W.).

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a major rule under Executive Order 12291; (2) is not a significant rule under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; (4) is appropriate to have a comment period of less than 45 days; and (5) at promulgation will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This proposed amendment involves only a small alteration of navigable airspace and air traffic control procedures over a limited area.

Issued in East Point, Georgia, on December 4, 1981.

George R. LaCaille,

Acting Director, Southern Region.

14 CFR Part 121

[Docket No. 21269; Ref. Notice No. 81-1]

Flight Attendants

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Withdrawal of notice of proposed rulemaking.

SUMMARY: This notice withdraws proposal number 11-14 contained in Notice No. 81-1 published in the Federal Register January 19, 1981 (46 FR 5484). That proposal would have amended § 121.391(c) of the Federal Aviation Regulations to allow the number of flight attendants required on a particular flight to be reduced by blocking a number of passenger seats. This proposal is withdrawn because there is a lack of substantial evidence in the record that the present level of passenger safety would be maintained. This is consistent with Executive Order 12291.

FOR FURTHER INFORMATION CONTACT: E. Wendell Owens, Regulatory Review Branch, AVS-22, Safety Regulations Staff, Federal Aviation Administration, 800 Independence Avenue, SW.,

Washington, D.C. 20591; telephone (202) 775–8714.

SUPPLEMENTAL INFORMATION:

Background

Notice No. 81–1 (46 FR 5484) was issued on January 19, 1981 as part of the Operations Review Program. In that notice, the FAA proposed to amend § 121.391(c) to allow the number of required flight attendants on specific flights to be reduced under specific conditions by blocking passenger seats. The number of flight attendants required on passenger carrying aircraft is based on the seating capacity of the aircraft, basically in the ratio of one flight attendant for each 50 seats, or less. The actual number of passengers on a particular flight does not affect this requirement. The existing rule allows the number of flight attendants to be reduced if a sufficient number of passenger seats are physically removed from the passenger cabin.

This proposal resulted from industry and FAA discussions during the Operations Review Conference. Interested persons have been afforded the opportunity to comment on the safety and economic impact resulting from the proposal. The FAA is processing this proposal separately from the others contained in Notice No. 81–1 due to the public interest it has generated.

Reasons for the Decision

An acceptable level of safety has been established and verified under the current aircraft certification and operation rules. As stated above, the number of required flight attendants now is based on the number of installed passenger seats. The data used to develop this proposal and the comments submitted in response to the notice of proposed rulemaking do not support the proposed change to the current standards and do not establish that the level of passenger safety would be maintained. Therefore, until data is developed which fully supports and justifies the societal benefits that would result from the proposed change, rulemaking on this subject should not proceed.

The Decision and Withdrawal

Accordingly, I conclude that the FAA should not proceed with rulemaking based on the proposal contained in the notice of proposed rulemaking now pending. Therefore, proposal number 11–14 contained in Notice No. 81–1 published in the **Federal Register** January 19, 1981 (46 FR 5484) is withdrawn. This action does not preclude the FAA from considering similar proposals in the future or commit it to any further or future course of action on this subject.

(Secs. 313, 314, and 601 through 610, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354, 1355, and 1421 through 1430); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.45)

Note.—Since this notice withdraws a proposal for rulemaking action and imposes no new standards, it does not impact or change the present regulations. It has been determined that this action, therefore: (1) is not a "major rule" under executive Order 12291; (2) is not a "significant rule" under Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation because there is no anticipated impact; and (4) I certify that this action will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C., on November 10, 1981.

J. Lynn Helms,

Administrator.

BILLING CODE 4910–13–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A–4–FRL–1996–8]

Approval and Promulgation of Implementation Plans; Florida: Repeal of Complex Source Rules

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: Florida has revised its air pollution control rules by revoking the provisions for the preconstruction review of complex sources—highways, airports, parking facilities. These are known as "indirect" sources since they may indirectly increase emissions by causing increased motor vehicle traffic where they are built. EPA proposes to approve this revision. The public is invited to comment on the proposed approval action.

DATES: To be considered, written comments must be received on or before January 18, 1982.

ADDRESSES: The material submitted by the State of Florida may be examined during normal business hours at the following location:

Public Information Reference Unit, Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460;

Air Programs Branch, EPA, Region IV, 345 Courtland Street, N.E., Atlanta, Georgia 30365;

Bureau of Air Quality Management, Twin Towers Office Building, 2600 Blair Stone Road, Tallahassee, Florida 32301.

Written comments should be directed to the EPA, Region IV Air Programs Branch at the address given.

FOR FURTHER INFORMATION CONTACT: Mr. Archie Lee, EPA, Region IV Air Programs Branch at 404/881–3286 (FTS 257–3286).

SUPPLEMENTARY INFORMATION: In 1973, EPA promulgated regulations in 40 CFR 51.18 requiring the states to revise their SIPs to include indirect source regulations. The 1977 Clean Air Act Amendments severely limited EPA's authority to require states to review indirect sources. Section 110(a)(5)(iii) provides that a state may revise its SIP to suspend or revoke any existing indirect source review program, provided that the SIP "meets the requirements of this section." The United States Court of Appeals for the Second Circuit interpreted Section 110(a)(5)(A)(iii) as prohibiting EPA from approving a State Implementation Plan (SIP) revision which revokes a state adopted indirect source regulation unless the SIP is fully adequate to assure attainment and maintenance of the National Ambient Air Quality Standards (NAAQS) without the indirect source regulation. *Manchester Environmental Coalition* v. *EPA*, 612 F. 2d 45 (2d Cir. 1979).

EPA today proposes to approve Florida's repeal of its complex source rule. EPA issued final approval of the Florida ozone Part D SIP on May 14, 1981 (46 FR 26640). This Part D SIP demonstrates attainment and maintenance of the ozone NAAQS without relying on the complex source rule.

In addition to ozone, complex sources are a source of carbon monoxide. Through use of the Federal Motor Vehicle Control Program, the existing Florida CO SIP demonstrates maintenance of the CO standard without relying on the complex source regulation. There are no carborn monoxide nonattainment areas in Florida requiring a CO Part D SIP revision.

Moreover, the state has informed EPA that other Florida State agencies have adopted similar rules, which require air quality analyses be conducted in consultation with the Department of Environmental Regulation to assure compliance with the Florida SIP.

The public is invited to participate in this rulemaking by submitting written comments on the proposed approval.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator has certified (46 FR 8709) that the attached rule will not, if promulgated, have a significant economic impact on a substantial number of small entities. This action imposes no regulatory requirements but merely ratifies state actions.

Under Executive Order 12291, EPA must judge whether a regulation is major and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation is not major because it only proposes to approve state actions and not to impose any new requirements.

(Sec. 110, Clean Air Act (42 U.S.C. 7410))

Dated: October 23, 1981.

John A. Little,

Acting Regional Administrator.

BILLING CODE 6560-38-M

---

40 CFR Part 52

[A-6-FRL-2003-7]

Approval and Promulgation of Implementation Plans; New Mexico Plan for Nonattainment Areas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This action proposes approval of revisions to the State Implementation Plan (SIP) for both the primary and secondary sulfur dioxide (SO_2) standards for Grant County, New Mexico. These revisions include changes to Regulation 652 which primarily affect emission limitations from the Chino Mines Company primary copper smelter at Hurley, New Mexico. Stack emissions under the revised plan are limited by the following: An annual average emission rate; a median annual emission level; and a series of 3-hour average emission levels, each with a fixed number of allowable cumulative occurrences. The allowable frequency and emission rate levels of these occurrence limits are based upon a statistical analysis of smelter emissions data and air quality data in the Hurley area of Grant County.

DATE: Interested persons are invited to submit comments on this proposed action on or before February 1, 1982.

ADDRESSES: Written comments should be submitted to the U.S. Environmental Protection Agency, Region VI, Air Programs Branch, 1201 Elm Street, Dallas, Texas 75270. The docket for the revision (NM-1-81) is available for inspection during normal business hours at the above address and at the following location: Environmental Protection Agency, Public Information Reference Unit, Room 2922, EPA Library, 401 M Street, S.W., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Randy Brown, Implementation Plan Section, Environmental Protection Agency, Region VI, Air Programs Branch, 1201 Elm Street, Dallas, Texas 75270, (214) 767-2730.

SUPPLEMENTARY INFORMATION: The sulfur dioxide (SO_2) nonattainment area in Grant County consists of a 3.5-mile radius circle around the Kennecott (now Chino Mines Company) Copper Smelter. Emissions from the smelter are the only known source of SO_2 in the county. In accordance with the requirements of the 1977 Clean Air Act Amendments, New Mexico submitted its plan for attainment of the national ambient air quality standards (NAAQS) for sulfur dioxide to EPA in January 1979.

Control of the smelter emissions through New Mexico Regulation 652 (Non-Ferrous Smelters-Sulfur) was the basis for the State's control strategy. On April 10, 1980 (45 FR 24460), EPA approved Regulation 652 and approved the control strategy for the primary SO_2 standards, but disapproved the control strategy for the secondary SO_2 standard. On May 7, 1981, the State approved a primary non-ferrous smelter order (NSO) for the Chino Mines Company, New Mexico, smelter. Pursuant to Section 119 of the Clean Air Act, EPA proposed conditional approval of the NSO on August 19, 1981 at 46 FR 42084. The NSO suspends the current State Implementation Plan (SIP) emission limitations until January 1, 1983.

On June 22, 1981, the Governor of New Mexico submitted a new Regulation 652. On May 12, 1981 and August 13, 1981, the New Mexico Environmental Improvement Division submitted a revised control strategy demonstration for attainment of the primary and secondary SO_2 standards in Grant County with revised Regulation 652.

Requirements Under Revised Regulation 652

The revised regulation for sulfur dioxide contains the following key provisions: (1) Stack emission limits for sulfur dioxide requiring compliance with an annual average emission limit of 7,000 lbs/hour, a median 3-hour running average of 5,309 lbs/hr, and cumulative occurrence limits at specified frequencies and 3-hour running average emission rates; (2) to account for startup and malfunctions, separate occurrence limits are specified for normal versus abnormal smelter operating conditions; (3) fugitive emissions control requirements and an evaluation of the effectiveness of these controls; (4) requirements for continuous SO_2 monitoring of stacks to determine compliance with the aforementioned emission limits; and (5) continued operation of ambient air quality monitors around the Hurley smelter to assess the adequacy of the emission limits in protecting the NAAQS. The revised Regulation 652 emission limits take into account a proposed change in configuration and increased capacity at the smelter that is included in a State construction permit issued June 13, 1981. Under this permit, Chino Mines is to replace the existing reverberatory furnace (for which SO_2 emissions are now uncontrolled) with a flash furnace. Emissions from the new flash furnace will be collected and treated by upgrading the existing sulfuric acid plant. Secondary converter hoods will collect fugitives for release from the converter stack. Average annual emissions from the existing smelter stacks will be reduced from 14,470 pounds per hour to 7,000 pounds per hour after smelter modification and implementation of revised Regulation 652. Overall SO_2 control of the modified smelter under the revised regulation will be increased from about 60 percent to about 92 percent.

Control Strategy Demonstration

The form of the emission limits in the New Mexico SIP was derived from a general approach known as Multipoint Rollback (MPR). Designed to accommodate the highly variable sulfur dioxide emissions produced by smelters, MPR produces a cumulative frequency distribution of allowed emission rates. Under MPR, observed emissions and air quality data over an extended period of time—usually a year or more—are treated as cumulative distributions of values. In its simplified application, a reduction factor is calculated based on the difference between observed air quality and the NAAQS for sulfur dioxide, and the existing distribution curve for emissions is reduced proportionally, or "rolled back," by the reduction factor to produce an allowable distribution of emission rates.

The New Mexico approach departs from this procedure to accommodate the changes expected in the smelter's emission pattern when the smelter is modified. Because the currently observed distribution of emission rates does not accurately represent expected emissions from the modified smelter, a

different distribution of emission rates was projected. The details of the New Mexico approach are described in the SIP submittal and the EPA technical evaluation report[1] (both available for review at the addresses noted above). The approach may be summarized briefly as follows.

The distribution of air quality values is assumed to be the product of the distribution of emission rates and an independent distribution of values representing dispersion conditions. The emission and dispersion distributions (both assumed to be "gamma" probability distributions) are defined by two parameters, an average value and a "shape factor" that measures variability; the air quality distribution (a "gamma product" distribution) has three parameters, an average value and two shape factors, one each for emission and dispersion. Using the observed air quality and emission distributions, New Mexico calculated the cumulative distribution of dispersion values, and used this distribution as a constant representation of the dispersive capacity of the air in the region surrounding the smelter. Given this "fixed" dispersion distribution, proposed distributions of emission rates were to be evaluated by computing a projected air quality distribution for each emission distribution and comparing the result with the NAAQS for sulfur dioxide.

Because a "gamma" distribution is defined by two parameters, it is possible to project a distribution if either the average emission rate or the shape factor is known. New Mexico selected an assumed average emission rate based on engineering projections for the new smelter and computed the shape factor to produce an allowable distribution of emission rates. Sulfur dioxide emissions at or below the rates established by this distribution are projected to provide for attainment of the NAAQS with an acceptably low probability of violation. Thus, although there is no direct "roll back", the New Mexico approach produces a cumulative frequency distribution of allowed emission rates, or a "multipoint" emission limit.

The New Mexico approach is based on cumulative distributions of emissions and air quality data aggregated over a long period of time. Thus, in setting emission limits to protect the short-term NAAQS, it only attempts to account for the worst foreseeable combinations of emission and dispersion conditions by considering the likelihood of their simultaneous occurrence and attempts to assure that this probability is acceptably low. A proposed emission limitation is stringent enough only if it can be shown to predict attainment of the NAAQS with an acceptably high probability. While New Mexico has provided estimates of the probability that the new emission limits will protect against violations of the 24-hour and three-hour NAAQS at existing ambient monitoring sites, EPA has not yet developed standardized methods for determining such probabilities, and is continuing to study both the New Mexico estimates and the general question of how such estimates should be made. Interested persons are encouraged to submit comments on these matters, and are further encouraged to inspect the docket periodically for further information.

Based on the information currently available to EPA, the control strategy and emission limitations for the Chino Mines Division smelter appear reasonably likely to attain and maintain the NAAQS for sulfur dioxide in Grant County. The 52 percent reduction from 1979 annual emissions required by this strategy is more stringent than the reduction factor calculated using measured ambient air quality data.[2] Moreover, the SIP includes a requirement for continued operation of the existent ambient monitoring network after the new emission limits take effect, providing future opportunity to assess the adequacy of this strategy and make any necessary improvements. In view of these factors, EPA proposes to accept the New Mexico statistical demonstration and control strategy.

In reviewing and evaluating the subject SIP revision, the Agency developed general technical criteria that evolved from its review of a September 1979 Arizona SIP revision for copper smelters. These general criteria are listed below:

1. Ambient air quality monitoring data and emission data must meet accpetable quality assurance criteria. Data records must be of sufficient length to reasonably describe atmospheric dispersion conditions and their frequencies. To the extent possible, ambient data must also reflect locations of maximum expected air quality impact. Running average concentrations shall be used to determine both the location of the limiting case site and the limiting case averaging period (i.e., 3-hour or 24-hour).

2. Neither ambient data nor emission data can be influenced by dispersion techniques, i.e., supplementary control system or stack heights greater than good engineering practice (GEP).

3. Ambient data concentration distributions shall be developed for all possible discrete average periods (e.g., for 3-hour at 12 a.m., 3 a.m., 6 a.m.; 1 a.m., 4 a.m., 7 a.m.; 2 a.m., 5 a.m., 8 a.m.). The rollback factor shall be based upon the highest once-per-year maximum concentration provided by these distributions.

4. Baseline emission profiles should be based upon continuous emission measurement (CEM) data. Where it is not initially possible to do so, then profiles must be based upon conservative assumptions. Allowable emission profiles must ultimately be verified by CEM data.

5. To respresent a fully acceptable demonstration of attainment, measures adequate to ensure that fugitive emissions wil not violate the NAAQS must be incorporated directly into the control strategy.

6. Regulations should require that continuous emission monitors (CEMs) measure at least 95 percent of the hours in which emissions occur. CEM downtime should be minimized by providing an incentive to sources to strive for 100 percent data capture. This may be accomplished by reducing cumulative occurrence limits by the percent missing data or other comparable approaches.

7. Regulations shall not exempt malfunctions from either the emission profile determination of the ultimate emission limitations.

8. If the data base permits that the control strategy be developed in a probabilistic manner, then the control strategy must consider the probability that the source causes a violation anywhere rather than simply at the worst site. Concurrently, the probability for a violation of the NAAQS must be shown to be consistent with Agency policy in effect at that time.

A discussion of how the plan adheres to each of the recommended criteria is contained in the EPA evaluation report. Two major technical concerns, however, were identified. The first involves the use of production curtailments (supplementary control system of SCS) during the period of record. The second pertains to the selection of the design value in the attainment demonstration.

With regard to the first point, the use of SCS during the period of record violates a basic principle inherent in the derivation of the MPR approach, i.e., that emissions and dispersion are

[1] EPA Review of New Mexico State Implementation Plan Revision of June 22, 1981 (Non Ferrous Smelters), August 1981.

[2] Source of data is Table I–SO_2 concentrations at CMD Ambient Monitors in 1979 in SIP documentation. The reduction factor is calculated using the formula in § 51.13(e)(2)(i).

independent. However, no acceptable alternate data are available. Accordingly, the approach utilized in the New Mexico attainment demonstration attempts to correct for the SCS influence on the ambient measurements. In short, the correction hopes to project ambient concentrations that were not measured due to SCS. EPA has reviewed and evaluated this correction approach and finds there is not enough data available to quantify the impact of SCS on ambient data. On the basis that the correction approach represents a reasonable attempt to adjust for ambient concentration bias, EPA proposes to accept this portion of the New Mexico demonstration.

The second technical concern involves the selection of the design value. Whereas, the Arizona design value was a maximum discrete 3-hour ambient concentration predicted to occur at an annual frequency of 1/2920, the New Mexico design value is based upon the third highest running 3-hour concentration, i.e., predicted to occur at an annual frequency of 3/8760. Although 1/2920 and 3/8760 reduce to equivalent numerical values, if the running average includes non-overlapping hours, then the statistical probabilities differ. The State has provided technical information to show that, in this case, their design value approach yields results comparable to the value determined using the approach required by criterion number three above.

EPA has reviewed this support and determined that the Arizona and New Mexico approaches yield equivalent design values. Therefore, EPA proposes to accept the New Mexico design value included in the demonstration.

Regulation Deficiencies

The first deficiency concerns the amount of continuous emission monitoring (CEM) downtime allowed by the regulations. The revised Regulation 652 specifies that CEMs must operate a minimum of 90 percent of the time; the cumulative occurrence limits were reduced to account for missing data. However, the Arizona regulations and the general MPR criteria require a minimum of 95 percent CEM operation. Chino Mines Company has indicated that they could meet the minimum 95 percent requirement. Since complete emissions data from CEMs are essential in determining compliance with multipoint emission limits, sources should strive for 100 percent data capture. Reducing cumulative occurrence limits, or regulatory provisions requiring backup or redundant monitoring equipment are considered reasonable approaches toward this goal. Therefore, both the 95 percent minimum data capture level and measures adequate to secure even better data capture should be included in the regulation.

In addition, there were several areas in the regulation where clarification is necessary in order for EPA to enforce the regulation. These clarifications are discussed in the evaluation report and were identified to the State in a letter dated August 28, 1981.

Proposed Action

Based upon its evaluation of revised Regulation 652 and the MPR analysis, EPA is proposing to approve the revised plan for attainment of the primary and secondary SO_2 standards in Grant County with the understanding that the State will correct the regulation deficiencies described above. The State and the affected source have expressed a willingness and commitment to correct these deficiencies. The State has agreed to complete the following actions by May 15, 1982: (1) The State will revise Regulation 652 to require a minimum of 95 percent CEM data capture and measures adequate to provide even greater reliability in data capture and (2) the State will provide clarifications to the regulation either by changing Regulation 652 or providing written interpretations of those sections of the regulation needing clarification as identified by EPA's August 28, 1981 letter.

Under Executive Order 12291, EPA must judge whether a rule is major and therefore subject to requirements of a regulatory impact analysis. This proposed action is not a major rule because it imposes no new requirements but only approves a State action.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator has certified (46 FR 8709) that the proposed rule will not, if promulgated, have a significant economic impact on a substantial number of small entities. This action only proposes approval of State action. It imposes no new requirements. In addition, this action only applies to one facility.

This notice of proposed rulemaking is issued under the authority of Sections 110(a) and 172 of the Clean Air Act, 42 U.S.C. 7410(a) and 7502.

Dated: September 17, 1981.

Frances E. Phillips,

Acting Regional Administrator.

Wyoming Advisory Committee; Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the Wyoming Advisory Committee to the Commission will convene at 11:00 a.m., and will end at 2:00 p.m., on January 30, 1982, at the Casper Library, in the Cooper Room, 307 Second Street, Casper, Wyoming, 82601. The purpose of this meeting is to review the follow-up report on *Workplace Conditions in Wyoming*; discuss plans for a press conference to release the report, and discuss program plans for future projects.

Persons desiring additional information or planning a presentation to the Committee, should contact the Chairperson, Jamie C. Ring, 520 Parkview Drive, Casper, Wyoming, 82601, (307) 237–9604 or contact the Rocky Mountain Regional Office, Brook Towers, 1020 Fifteenth Street, Suite 2235, Denver, Colorado, 80202, (303) 837–2211.

The meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission.

Dated at Washington, D.C., December 16, 1981.

John I. Binkley,

Advisory Committee Management Officer.

BILLING CODE 6335–01–M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcing Import Restraint Levels for Certain Cotton, Wool and Man-Made Fiber Textile Products from the People's Republic of China, Effective January 1, 1982

December 14, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing import restraint levels for certain cotton, wool and man-made fiber textile products produced or manufactured in the People's Republic of China and exported to the United States during the twelve-month period beginning on January 1, 1982.

(A detailed description of the textile categories in terms of TSUSA numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409))

SUMMARY: The Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of September 17, 1980, between the Governments of the United States and the People's Republic of China establishes specific levels of restraint for Categories 331 (Cotton Gloves and Mittens), 334 (Men's and Boys' Other Cotton Coats), 335 (Women's, Girls' and Infants' Cotton Coats), 338 (Men's and Boys' Cotton Knit Shirts), 339 (Women's, Girls' and Infants' Cotton Knit Shirts and Blouses), 340 (Men's and Boys' Woven Cotton Shirts), 341 (Women's, Girls' and Infants' Woven Cotton Blouses), 347/348 (Cotton Trousers), 445/446 (Wool Sweaters) and 645/646 (Man-Made Fiber Sweaters) during the agreement year which begins on January 1, 1982 and extends through December 31, 1982. The agreement also provides a consultation mechanism for categories of textile products which are not subject to specific ceilings and for which levels may be established during the year upon agreement between the two governments. In the letter published below, the Chairman of the Committee for the Impalementation of Textile Agreements directs the Commissioner of Customs, in accordance with the terms of the bilateral agreement, to prohibit entry into the United States for consumption, or withdrawal from warehouse for consumption, of textile products in Categories 331, 334, 335, 338, 339, 340, 341, 347/348, 445/446 and 645/646, produced or manufactured in the People's Republic of China and exported during the twelve-month period beginning on January 1, 1982 and extending through December 31, 1982, in excess of the designated levels of restraint. The levels of restraint for Categories 331 and 335 have been reduced to account for respective amounts of 231,701 dozen pairs and 14,583 dozen which represent carryforward used during the 1981 agreement year.

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT: Carl J. Ruths, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230, (202)/377–4212).

Arthur Garel,

Acting Chariman, Committee for the Implementation of Textile Agreements.

December 14, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229.

Dear Mr. Commissioner: Under the terms of the Bilateral Cotton, Wool and Man-Made

Fiber Textile Agreement of September 17, 1980, between the Governments of the United States and the People's Republic of China, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1982, entry into the United States for consumption, and withdrawal from warehouse for consumption, of cotton, wool and man-made fiber textile products in Categories 331, 334, 335, 338, 339, 340, 341, 347/348, 445/446 and 645/646 in excess of the following levels of restraint:

Category	12-Month level of restraint
331	3,177,607 dozen pairs
334	192,600 dozen.
335	250,417 dozen
338	742,000 dozen of which not more than 530,000 dozen shall be in TSUSA numbers 379.0240 and 379.4050
339	865,280 dozen
340	584,064 dozen.
341	443,456 dozen.
347/348	1,730,560 dozen
445/446	252,500 dozen
645/646	583,495 dozen

In carrying out this directive entries of textile products in the foregoing categories which have been exported to the United States on and after January 1, 1981 and extending through December 31, 1981, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the twelve-month period beginning on January 1, 1981 and extending through December 31, 1981. In the event that the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels set forth above are subject to adjustment in the future according to the provisions of the bilateral agreement of September 17, 1980 between the Governments of the United States and the People's Republic of China, which provide, in part, that: (1) specific limits may be exceeded by designated percentages in any agreement year; (2) specific limits may be increased for carryover and carryforward up to 11 percent of the applicable category limit; and (3) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement. Any appropriate adjustments under the provisions of the bilateral agreement, referred to above, will be made to you by letter.

A detailed description of the textile categories in terms of TSUSA numbers was published in the Federal Register on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the People's Republic of China and with respect to imports of cotton, wool and man-made fiber textile products from China have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

Announcing an Increase in the Import Restraint Levels for Certain Cotton Textile Products From Pakistan

December 14, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Increasing to 29,412 dozen the consultation level for cotton dressing gowns in Category 350, produced or manufactured in Pakistan, and controlling imports at that level during the eighteen-month period which began on January 1, 1981.

(A detailed description of the textile categories in terms of TSUSA numbers was published in the Federal Register on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409))

SUMMARY: Under the terms of the Bilateral Cotton Textile Agreement of January 4 and 9, 1978, as amended, between the Governments of the United States and Pakistan, agreement has been reached to increase the consultation level for cotton textile products in Category 350 during the agreement period which began on January 1, 1981 and extends through June 30, 1982. The United States has decided to control imports at the increased level during that agreement period in the same manner as other categories are currently being controlled.

EFFECTIVE DATE: December 21, 1981.

FOR FURTHER INFORMATION CONTACT: Gordana Slijepcevic, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-2184).

SUPPLEMENTARY INFORMATION: On December 24, 1980, there was published in the Federal Register (45 FR 85140) a letter dated December 19, 1980 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, which established levels of restraint for certain specified categories of cotton textile products, produced or manufactured in Pakistan and exported to the United States during the eighteen-month period which began on January 1, 1981 and extends through June 30, 1982. In accordance with the terms of the bilateral agreement, the United States Government has agreed to increase the consultation level for cotton textile products in Category 350. In the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to increase the level to the designated amount. The level of restraint has not been adjusted to reflect any imports after December 31, 1980. Imports in this Category during the January–October 1981 period have amounted to 4,686 dozen and will be charged. As the data become available, further charges will be made to account for the period beginning on November 1, 1981 and extending to the effective date of this action.

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

December 14, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229.

Dear Mr. Commissioner: This directive further amends, but does not cancel, the directive issued on you on December 19, 1980 by the Chairman, Committee for the Implementation of Textile Agreements, concerning imports into the United States of certain cotton textile products, produced or manufacturerd in Pakistan.

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton Textile Agreement of January 4 and 9, 1978, as amended, between the Governments of the United States and Pakistan, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on December 21, 1981, and for the eighteen-month period beginning on January 1, 1981 and extending through June 30, 1982, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 350, produced or manufactured in Pakistan in excess of 29,412 dozen.[1]

[1] The level of restraint has not been adjusted to account for any imports after December 31, 1980. Imports during the January–October 1981 period have amounted to 4,686 dozen.

Textile products in Category 350 which have been exported to the United States prior to January 1, 1981 shall not be subject to this directive.

Textile products in Category 350 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

The action taken with respect to the Government of Pakistan and with respect to imports of cotton textile products from Pakistan has been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

Announcing Import Levels for Certain Cotton, Wool and Man-Made Fiber Textile Products From Taiwan, Effective on January 1, 1982

December 14, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing import levels for certain cotton, wool and man-made fiber textile products from Taiwan, effective on January 1, 1982.

SUMMARY: The Bilateral Textile Agreement of June 8, 1978, as amended, concerning cotton, wool and man-made fiber textile products from Taiwan establishes specific ceilings for cotton, wool and man-made fiber textile products in Categories 331, 333/334/335, 338/339, 340, 341, 347/348, 445/446, 633/634/635, 638, 639, 640, 641, 648 and 659pt., produced or manufactured in Taiwan and exported during the agreement year which begins on January 1, 1982 and extends through December 31, 1982.

In the latter published below, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs, in accordance with the bilateral agreement, to prohibit entry into the United States for consumption, or withdrawal from warehouse for consumption, of textile products in the foregoing categories, produced or manufactured in Taiwan and exported during the twelve-month period which begins on January 1, 1982 and extends through December 31, 1982, in excess of the designated levels.

(A detailed description of the textile categories in terms of TSUSA numbers was published in the Federal Register on February 28, 1980 (45 FR 131172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409))

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT: Ronald Sorini, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-4212).

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

December 14, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229.

Dear Mr. Commissioner: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Textile Agreement of June 8, 1978, as amended, concerning cotton, wool and man-made fiber textile products from Taiwan; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1982 and for the twelve-month period extending through December 31, 1982, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products in the following categories, produced or manufactured in Taiwan, in excess of the indicated levels of restraint:

Category	12-Month Level of Restraint
331	482,360 dozen pairs.
333/334/335	113,051 dozen of which not more than 59,206 dozen shall be in Cat. 333/334 and not more than 70,802 dozen shall be in Cat. 335.
338/339	551,144 dozen
340	657,295 dozen
341	380,752 dozen
347/348	935,359 dozen of which not more than 459,384 dozen shall be in Cat. 347 and not more than 709,814 dozen shall be in Cat. 348.
445/446	126,284 dozen
633/634/635	1,490,308 dozen of which not more than 982,883 dozen shall be in Cat. 633/634 and not more than 730,971 dozen shall be in Cat. 635
638	1,707,129 dozen.
639	5,033,179 dozen
640	3,285,788 dozen
641	738,545 dozen.
648	3,120,164 dozen
659 pt.[1]	3,245,519 pounds

[1] In Category 659, only TSUSA numbers 703.0500 and 703.1000.

In carrying out this directive entries of textile products in the foregoing categories, which have been exported to the United States on and after January 1, 1981 and extending through December 31, 1981, shall to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the twelve-month period beginning on January 1, 1981 and extending through December 31, 1981. In the event that the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels of restraint set forth above are subject to adjustment in the future pursuant to the provisions of the bilateral agreement of June 8, 1978, as amended, which provide in part, that: (1) within the aggregate and applicable group limits, specific levels of restraint may be exceeded by designated percentages; (2) these same levels may be increased for carryover and carryforward up to 11 percent of the applicable category limit; (3) administrative arrangements or adjustments may be made to resolve problems arising in the implementation of the agreement. Any appropriate adjustments under the provisions of the bilateral agreement referred to above will be made to you by letter.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the Federal Register on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the authorities in Taiwan and with respect to imports of cotton, wool, and man-made fiber textile products from Taiwan have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

COMMODITY FUTURES TRADING COMMISSION

New York Cotton Exchange's Proposed Amendment to Cotton No. 2 Contract

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of proposed contract market rule amendment.

SUMMARY: The New York Cotton Exchange ("NYCE" or "Exchange") has submitted an amendment to its Bylaw section 6.03(u) (formerly 9.03(24)) increasing the differential for one and one thirty-second of an inch staple length cotton deliverable on the Cotton No. 2 contract. The Commission has determined that the amendment is of major economic significance and that, accordingly, publication of the proposed amendment is in the public interest, will assist the Commission in considering the views of interested persons, and is consistent with the purposes of the Commodity Exchange Act.

DATE: Comments must be received on or before January 18, 1982.

ADDRESS: Interested persons should submit their views and comments to Jane K. Stuckey, Secretary, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581. Reference should be made to NYCE Bylaw Section 6.03(u)—Staple Differences.

FOR FURTHER INFORMATION CONTACT: Nicholas Memoli, Division of Economics and Education, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, (202) 254–703; or George L. Garrow, Jr., Esq., Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, (202) 254–8955.

SUPPLEMENTARY INFORMATION: The text of NYCE's proposed amendment is as follows:

Section 6.03(u)

An addition shall also be made for each bale having a staple of one and three thirty-seconds of an inch or longer, which shall be equal to the full average premium for like staple over one and one-sixteenth of an inch staple quoted on the sixth business day prior to the day of delivery in such of the spot markets above referred to as do quote staple differences. A deduction shall also be made for each bale having a staple of one and one thirty-second of an inch, which shall be equal to [125%] *200%* of the full average discount for like staple under one and one-sixteenth of an inch quoted as aforesaid.

Other materials submitted by NYCE in support of its proposed rule amendment may be available upon request pursuant to the Freedom of Information Act (5U.S.C. 552) and the Commission's regulations thereunder (17 CFR Part 145 (1981)). Requests for copies of such materials should be made to the FOI, Privacy and Sunshine Acts Compliance staff of the Office of the Secretariat at the Commission's headquarters in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views or arguments on the proposed rule amendment submitted by NYCE should send such comments to Jane K. Stuckey, Secretary, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, by January 18, 1982. Such comment letters will be publicly available except to the extent that they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9.

Issued in Washington, D.C., on December 14, 1981.

Jane K. Stuckey,

Secretary of the Commission.

Army Science Board; Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following Committee Meeting:

Name of the committee: Army Science Board (ASB)

Dates of meeting: 4 January 1982; 5 January 1982

Times: 0800–1700 hours, 4 January 1982 (Closed); 0800–1600 hours, 5 January 1982 (Closed)

Place: The Pentagon, Washington, D.C.

Proposed agenda: The Army Science Board Ad Hoc Sub-Group conducting a study on Improving the Acquisition Process will meet to present and receive briefings and hold discussions. This meeting will be closed to the public in accordance with section 552b(c) of Title 5, U.S.C., specifically subparagraph (1) thereof, and Title 5, U.S.C. App. 1, subsection 10(d). The classified and non-classified matters to be discussed are so inextricably intertwined so as to preclude opening any portion of the meeting. The ASB Administrative Officer, Helen M. Bowen, may be contacted for further information at (202) 697–9703 or 695–3039.

Helen M. Bowen,

Administrative Officer.

BILLING CODE 3810-01-M

Defense Science Board Task Force on Very High Speed Intergrated Circuits (VHSIC)

The Defense Science Board Task Force on Very High Speed Intergrated Circuits (VHSIC) will meet in closed session on January 7 and 8, 1982 at the Pentagon, Washington, D.C.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Research and Engineering on overall research and engineering policy and to provide long-range guidance to the Department of Defense in these areas.

At the meeting on January 7 and 8, 1982, the Task Force will review, using the guidelines established in its Terms of Reference, industry and university relationships to DoD VLSI programs, with particular emphasis on VHSIC. Additionally, the Task Force's ongoing review of the structure and progress of the DoD VHSIC Program will be initiated.

In accordance with 5 U.S.C. App. 1 section 10(d) (1976), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in U.S.C. 552b(c)(1) (1976), and that accordingly this meeting will be closed to the public.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

December 14, 1981.

BILLING CODE 3810-01-M

DEPARTMENT OF ENERGY

Office of Assistant Secretary for International Affairs

Peaceful Uses of Atomic Energy; Agreement Between the U.S. and the European Atomic Energy Community (EURATOM); Proposed Subsequent Arrangement

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of a proposed "subsequent arrangement" under the Additional Agreement for Cooperation Between the Government of the United States of America and the European Atomic Energy Community (EURATOM) Concerning Peaceful Uses of Atomic Energy, as amended.

The subsequent arrangement to be carried out under the above mentioned agreement involves approval for the sale of 0.01 grams of natural uranium, and 0.01 grams of thorium, to the Centre des Faibles Radioactivities, France, for use as standard reference materials. Contract Number S–EU–704 has been assigned to this transaction.

In accordance with section 131 of the Atomic Energy of 1954, as amended, it has been determined that the furnishing of these nuclear materials will not be inimical to the common defense and security.

These subsequent arrangements will take effect no sooner than January 4, 1982.

For the Department of Energy.

Dated: December 11, 1981.

Harold D. Bengelsdorf,

Director, Office of International Nuclear and Non-Proliferation Policy.

BILLING CODE 6450-01-M

Economic Regulatory Administration

D. H. Hunt; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of action taken on Consent Order.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces notice of a final Consent Order.

EFFECTIVE DATE: December 17, 1981

FOR FURTHER INFORMATION CONTACT: Rod McKim, 12th and Pennsylvania Avenue, NW., Room 6443, Washington, D.C. 20461, telephone 202–633–9641.

SUPPLEMENTARY INFORMATION: On November 2, 1981, 46 FR 54398 (1981), the Office of Enforcement of the ERA published notification that it had executed a proposed Consent Order with D. H. Hunt on October 20, 1981 which would not become effective sooner than thirty days after publication. Pursuant to 10 CFR 205.199J(c), interested persons were invited to submit comments concerning the terms and conditions of the proposed Consent Order.

Although interested persons were invited to submit comments regarding the proposed Consent Order, no comments were received. The proposed Consent Order, therefore, was finalized and made effective on the date of publication of this Notice.

Issued in Washington, D.C. on the 11th day of December, 1981.

Robert D. Gerring,

Director, Program Operations Division, Office of Enforcement.

DOE Issues $996,540 Agreement With D. H. Hunt

On December 17, 1981 the Department of Energy issued in final form a Consent Order with D. H. Hunt which had been signed on October 20, 1981. D. H. Hunt is a producer, with its home office located in Dallas, Texas.

The Department's Office of Enforcement alleged that during the period June 1, 1979 through January 27, 1981 D. H. Hunt improperly calculated its selling prices for crude oil at prices in excess of those allowed by Federal regulations.

D. H. Hunt, without admitting any violation or non-compliance with DOE regulations, has agreed to pay $996,540 into a special escrow fund for ultimate

disposition by DOE. The Department provided a thirty day period for public comment on the proposed Consent Order. The Department did not receive any comments. The proposed Consent Order became effective on [date of publication].

Further information concerning the Consent Order can be obtained by contacting Rod McKim, 12th and Pennsylvania Avenue, NW., Room 6443, Washington, D.C. 20461, telephone number 202–633–9641.

BILLING CODE 6450–01–M

Office of Hearings and Appeals

Issuance of Proposed Decision and Order; Week of November 16 Through November 20,1981

During the week of November 16 through November 20, 1981, the proposed decision and order summarized below was issued by the Office of Hearings and Appeals of the Department of Energy with regard to applications for exception.

Under the procedural regulations that apply to exception proceedings [10 CFR Part 205, Subpart D], any person who will be aggrieved by the issuance of a proposed decision and order in final form may file a written notice of objection within ten days of service. For purposes of the procedural regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date an aggrieved person receives actual notice, whichever occurs first.

The procedural regulations provide that an aggrieved party who fails to file a Notice of Objection within the time period specified in the regulations will be deemed to consent to the issuance of the proposed decision and order in final form. An aggrieved party who wishes to contest a determination made in a proposed decision and order must also file a detailed statement of objections within 30 days of the date of service of the proposed decision and order. In the statement of objections, the aggrieved party must specify each issue of fact or law that it intends to contest in any further proceeding involving the exception matter.

Copies of the full text of these proposed decisions and orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B–120, 2000 M Street, N.W., Washington D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except federal holidays.

December 9, 1981.

George B. Breznay,

Director, Office of Hearings and Appeals.

Milder Oil Company, Omaha, Nebraska, BEE–1326, Petroleum products

Milder Oil Company filed an Application for Exception from a consent order which was executed between the firm and DOE. The exception request, if granted, would relieve Milder of its obligation to make certain refunds pursuant to the Consent Order. On November 19, 1981, the Department of Energy issued a Proposed Decision and Order which determined that the exception request be denied.

[FR Doc. 81–36092 Filed 12–16–81; 8:45 am]

BILLING CODE 6450–01–M

Issuance of Decisions and Orders; Week of November 16 Through November 20, 1981

During the week of November 16 through November 20, 1981, the decisions and orders summarized below were issued with respect to appeals and applications for exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeals

Collier, Shannon, Rill & Scott, 11/16/81, BFA–0748

Collier, Shannon, Rill & Scott filed an Appeal from a denial by the DOE Region VII Authorizing and Denying Official of a Request for Information which the firm had submitted under the Freedom of Information Act (the FOIA). In considering the Appeal, the DOE found that the documents were properly withheld under exemptions 4 and 5 and should not be released to the public. Important issues that were considered in the Decision and Order were (i) adequacy of the Authorizing Official's descriptions of the documents, (ii) adequacy of the Authorizing Official's justification for withholding the documents and (iii) the applicability of exemption 4 to commercial information which is seven years old.

Shepherd Oil Company, Inc., 11/17/81, HFA–0005

Shepherd Oil Company, Inc. filed an Appeal from a denial by the Southwest District Manager of the ERA of a Request for Information which the firm had submitted under the Freedom of Information Act (the FOIA). In considering the Appeal, the DOE found that portions of the document in question were erroneously withheld by the Southwest District Manager under 5 U.S.C. 552(b)(4). However, an independent review of the document revealed that the withheld portions constitute investigatory records exempt from disclosure under 5 U.S.C. 552(b)(7)(A).

Remedial Orders

A. Tarricone, Inc., 11/20/81, DRO–0182

A. Tarricone, Inc. objected to a Proposed Remedial Order which the Economic Regulatory Administration's Office of Enforcement issued to the firm on February 16, 1979. In the Proposed Remedial Order, the ERA found that in January 1975 Tarricone improperly obtained 23,157 entitlements that it should not have received as an eligible importer of residual fuel oil under the provisions of 10 CFR 211.67(a)(3) which were in effect from November 29, 1974 through March 31, 1975. The DOE concluded that the Proposed Remedial Order should be issued as a final Order.

Memphis Aero Corporation, 11/20/81, DRO–0244

Memphis Aero Corporation objected to a Supplemental Proposed Remedial Order which Region IV Office of Enforcement issued to the firm on August 21, 1979. In the Supplemental Proposed Remedial Order, Region IV proposed that Memphis Aero Corporation fulfill certain refund obligations which result from a previously issued Remedial Order by making direct refunds to the United States Treasury. The OHA determined that the refund provisions in the Supplemental Proposed Remedial Order were appropriate, and therefore concluded that the Supplemental Proposed Remedial Order should be issued as a final Order.

In the following case involving a Proposed Remedial Order no Statement of Objections was filed. The DOE therefore issued the order in final form.

Company Name and Case No.

Garland Alston, d.b.a. Garland Exxon, BRW–0090

Request for Exception

Wallace Barnes d.b.a. North Eastham Exxon, 11/17/81, BEE–1652

Wallace Barnes d/b/a North Eastham Exxon (Barnes) filed an Application for Exception from the provisions of 10 CFR 212.93. In the application, Barnes requested retroactive relief which would excuse him from the obligation to refund overcharges which he made during the period August 1, 1979 through June 27, 1980 from selling motor gasoline at prices in excess of those permitted under 10 CFR 212.93. The Office of Hearings and Appeals had previously issued a Remedial Order to Barnes requiring him to repay these overcharges plus interest to the United States Treasury. *Wallace Barnes*, 7 DOE ¶ 83,018 (1981). In considering Barnes's exception request, the DOE found that adherence to the provisions of the Remedial Order would likely force him into bankruptcy. The DOE therefore concluded that Barnes would experience a severe and irreparable injury unless he was relieved of the obligation to refund the overcharges specified in the Remedial Order, and that compelling circumstances existed which warranted the approval of a retroactive exception. Accordingly, exception relief was granted.

Motion for Discovery

Office of Special Counsel for Compliance, 11/19/81, BRD–0126

The Office of Special Counsel for Compliance (OSC) filed a Motion for Discovery directed toward the Atlantic Richfield Company (ARCO) in connection with Arco's objections to a Proposed Remedial Order (PRO) issued to the firm on May 1, 1979 by the OSC. In the motion, OSC sought discovery concerning Arco's "corporate state of mind" in applying the DOE Mandatory Petroleum Price Regulations and antecedent regulations governing the first sale price of crude oil. In considering the OSC motion, the DOE stated that discovery of corporate state of mind is appropriate when a firm has put that matter into issue through its affirmative defenses. The DOE then determined that notwithstanding the fact that it had not yet filed a Statement of Legal Objections, Arco had already put its corporate state of mind into issue in the proceeding by arguing that three interpretive rulings on which OSC relied in the PRO could not be applied retroactively and by seeking to invoke the beneficial aspects of these rulings despite its claim that the rulings were invalid. Additionally the DOE determined that the OSC discovery motion was not barred by a March 1979 Agreement between Arco and the OSC. Accordingly, the OSC Motion for Discovery was granted.

Special Refund Procedures

Office of Enforcement, 11/20/81, BEF–0036, BEF–0008, BEF–0014, BEF–0021

The Office of Enforcement filed Petitions for the Implementation of Special Refund Procedures in connection with consent orders entered into with Coline Gasoline Corporation, National Helium Corporation, Palo Pinto Oil & Gas, Belridge Oil Company, and Aluminum Company of America. The DOE issued a final Decision and Order setting forth procedures to be used in adjudicating claims to the settlement funds involved in those cases. The decision established a two-stage procedure. In the first stage, those firms that purchased natural gas liquids from the firms involved and who believed they were entitled to a portion of the consent order funds could file Applications for Refund. In the second stage, it was tentatively determined that refunds could be channelled through first purchasers. The determination set forth in detail the information that should be included in a firm's Application for Refund. Since the amount of money that would be left over after all Applications for Refund is unable to be determined at this time, no final determination was reached on the proposed second stage. Further comments on the proposed second stage were solicited.

Dismissals

The following submission was dismissed without prejudice:

Company Name and Case No.

Belcher Oil Company, DRO–0192

Copies of the full text of these decisions and orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B–120, 2000 M Street, N.W., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except federal holidays. They are also available in *Energy Management; Federal Energy Guidelines*, a commercially published loose leaf reporter system.

George B. Breznay,

Director, Office of Hearings and Appeals.

December 9, 1981.

[FR Doc. 81–36094 Filed 12–16–81; 8:45 am]

BILLING CODE 6450–01–M

Objection to Proposed Remedial Orders Filed; Week of November 16 Through November 20, 1981

During the week of November 16 through November 20, 1981, the notices of objection to proposed remedial orders listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Any person who wishes to participate in the proceeding the Department of Energy will conduct concerning the proposed remedial orders described in the Appendix to this Notice must file a request to participate pursuant to 10 CFR 205.194 on or before January 6, 1982. The Office of Hearings and Appeals will then determine those persons who may participate on an active basis in the proceeding and will prepare an official service list, which it will mail to all persons who filed requests to participate. Persons may also be placed on the official service list as non-participants for good cause shown.

All requests to participate in these proceedings should be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

George B. Breznay,

Director, Office of Hearings and Appeals.

December 9, 1981.

Exxon Company, Washington, D.C., HRO–0013, crude oil

On November 20, 1981, Exxon Company, U.S.A., P.O. Box 2180, Houston, Texas 77001 filed a Notice of Objection to (a Proposed Remedial Order) which the DOE Office of Special Counsel issued to the firm on October 13, 1981.

In the (PRO or IROIC) the Office of Special Counsel found that during March 1975 to December 1977, Exxon failed to apply the equal application requirements of the banking rules to its sales of motor gasoline by refinery-operated service stations pursuant to the retail price equalization adjustment.

According to the (PRO) the Exxon violation resulted in the overstatement of the company's bank of unrecouped costs by $39,745,460.

Lampton-Love Incorporated, Washington, D.C., HRO–0015, Propane

On November 20, 1981, Lampson-Love, Inc., 1055 Thomas Jefferson Street, N.W., Washington, D.C. filed a Notice of Objection to (a Proposed Remedial Order) which the DOE Southeast District Office of Enforcement issued to the firm on September 22, 1981.

In the (PRO) the Southeast District found that during November 1, 1973 to May 1, 1974, Lampton-Love sold propane gas to its customers at prices in excess of its maximum lawful selling prices.

According to the (PRO) the Lampton-Love violation resulted in $284,984.46 of overcharges.

Mobil Oil Corporation, Fairfax, Virginia, HRO–0014, Propane

On November 20, 1981, Mobil Oil Corporation, 3225 Gallows Road, Fairfax, Virginia 22037 filed a Notice of Objection to a Proposed Remedial Order which the DOE Southwest Refiner District, Office of Spacial Counsel issued to the firm on September 18, 1981.

In the PRO the Southwest District found that during the period August 1973 to December 1976, Mobil incorrectly determined its marine and comportation cost component of the imported crude oil costs for refiner pricing purposes.

According to the PRO the Mobil violation resulted in a $393,443 overstatement of the firm's marine and comportation and related costs.

Mobil Oil Corporation, Fairfax, Virginia, HRO–0016, Crude oil

On November 20, 1981, Mobil Oil Corporation, 3225 Gallows Road, Fairfax, Virginia 22037 filed a Notice of Objection to a Proposed Remedial Order which the DOE Southwest District Office of Enforcement issued to the firm on September 11, 1981.

In the PRO the Southwest District found that during October 1976 to March 1978, Mobil received over $2.65 million in refunds to supplemental fees which it had previously paid and included in the costs of its imported crude oil. The audit further revealed that Mobil failed to reduce its crude oil costs during the same period by the amount of refunds received.

Texaco, Incorporated, Wilmington, Delaware, HRO–0012, Crude oil

On November 19, 1981, Texaco, Inc., 1105 N. Market Street, P.O. Box 1347, Wilmington, Delaware 19899 filed a Notice of Objection to a Proposed Remedial Order which the DOE Southwest District Office of Special Counsel for Compliance issued to the firm on September 4, 1981.

In the (PRO) the Southwest District found that during December 1, 1973 to February 1, 1977, Texaco failed to properly charge prices and compute cost recoveries on its sales of gasoline and reported erroneous levels of unrecovered costs to DOE.

According to the (PRO) the Texaco violation resulted in $142,783,783.00 of overcharges.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-250032; PH-FRL-2007-7]

Peer Review Procedures

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended in 1980, requires that EPA publish in the Federal Register procedures for peer review of scientific studies. Those procedures are detailed in this notice.

EFFECTIVE DATE: This policy is effective December 17, 1981.

FOR FURTHER INFORMATION CONTACT: Amy S. Rispin, Hazard Evaluation Division (TS–769C), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Room 821 CM #2, 1921 Jefferson Davis Highway, Arlington, VA. 22202, (703–557–7490).

SUPPLEMENTARY INFORMATION: .

I. Introduction

A. Legislative Authority and History

Under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA has the responsibility for ensuring that pesticides marketed in the United States do not cause unreasonable adverse effects to man or the environment. This responsibility is carried out through decisions on whether to register (license) pesticide products, and whether to suspend or cancel existing regulations. The "reasonableness" of the risk is determined by weighing the potential risks a pesticide may pose to humans, other nontarget life, and the environment against its economic and social benefits. Risks are usually assessed by examining data gathered in scientific studies, most of which are conducted by pesticide producers, universities, or government agencies including the Environmental Protection Agency.

In December 1980, section 25 of FIFRA was amended to require EPA to establish written procedures for peer review of major scientific studies performed or sponsored by EPA (the Wampler Amendment). The amendment pertains to studies performed by an institution or individual under grant, contract or cooperative agreement from or with the EPA. The Wampler Amendment further states that the Administrator shall also provide for peer review of any such studies relied upon for actions relating to change in classification, suspension or cancellation of a pesticide. Peer review of studies is to be performed by the Scientific Advisory Panel (SAP) or peer review subpanels constituted from the SAP membership and augmented by scientists selected by the SAP.[1] The amendment directed EPA to publish procedures for implementing the amendment by December 17, 1981.

B. Applicability and Purpose of the Peer Review Procedures

These peer review procedures apply to all major scientific studies performed or sponsored by the Office of Pesticide Programs (OPP), henceforth referred to as major scientific studies. The procedures establish a mechanism by which all major scientific studies performed or sponsored by the OPP are subjected to a complete, rigorous, and objective review by scientific peers before the Agency uses the results of these studies to make regulatory decisions.

Even if studies are not considered major scientific studies, the OPP may at it discretion, submit other studies for peer review. The Agency will use peer review when appropriate to examine studies critical to registration denials, cancellations, suspensions or significant changes in the use classification of a pesticide.

In addition, the OPP may submit for peer review, at its discretion, any studies which are especially controversial or which present unusual difficulties in interpretation, even if they are not by themselves the primary basis for denial or other adverse regulatory action.

C. Interpretation of the Wampler Amendment

The intent of the Wampler amendment is to ensure that significant scientific studies sponsored or undertaken by EPA are properly peer reviewed—both prior to their conduct and after completion—in order to enhance the scientific basis for regulatory action. EPA believes, then, that the statutory requirements of the amendment apply to major studies sponsored or conducted by the Agency which will provide information upon which significant regulatory action can be based. There are many studies, either conducted by other parties or which do not fall under the statutory requirement for peer review, which EPA may nevertheless wish to have peer reviewed as a matter of good sense and good science.

D. Definition of Types of Studies

1. *Major scientific studies.* Major scientific studies are those studies which the OPP undertakes or sponsors that are anticipated to provide information that will be critical to an EPA decision to cancel or restrict users of a pesticide(s). These studies will be peer reviewed.

2. *Pivotal regulatory studies.* Pivotal regulatory studies are those studies, usually not originated or sponsored by OPP, which the Agency relies upon for actions relating to a significant change in classification, suspension or cancellation of a pesticide, or a denial of registration. Pivotal studies may be submitted by industry or other sources. Pivotal studies will be peer reviewed at the discretion of the Agency.

3. *Supporting studies.* Supporting studies are studies which do not impel major regulatory decisions or policies, or which do not lead to significant changes in classification, suspension, or cancellation of a pesticide. Examples are studies designed to test a monitoring scheme or analytical method. These studies will generally not be peer reviewed.

4. *Other special studies.* Occasionally there will be other special studies which the Agency chooses to submit for peer review because they are especially controversial or they present unusual difficulties in interpretation.

The following Figure 1 is a schematic diagram showing how to determine whether or not studies are subject to these peer review procedures.

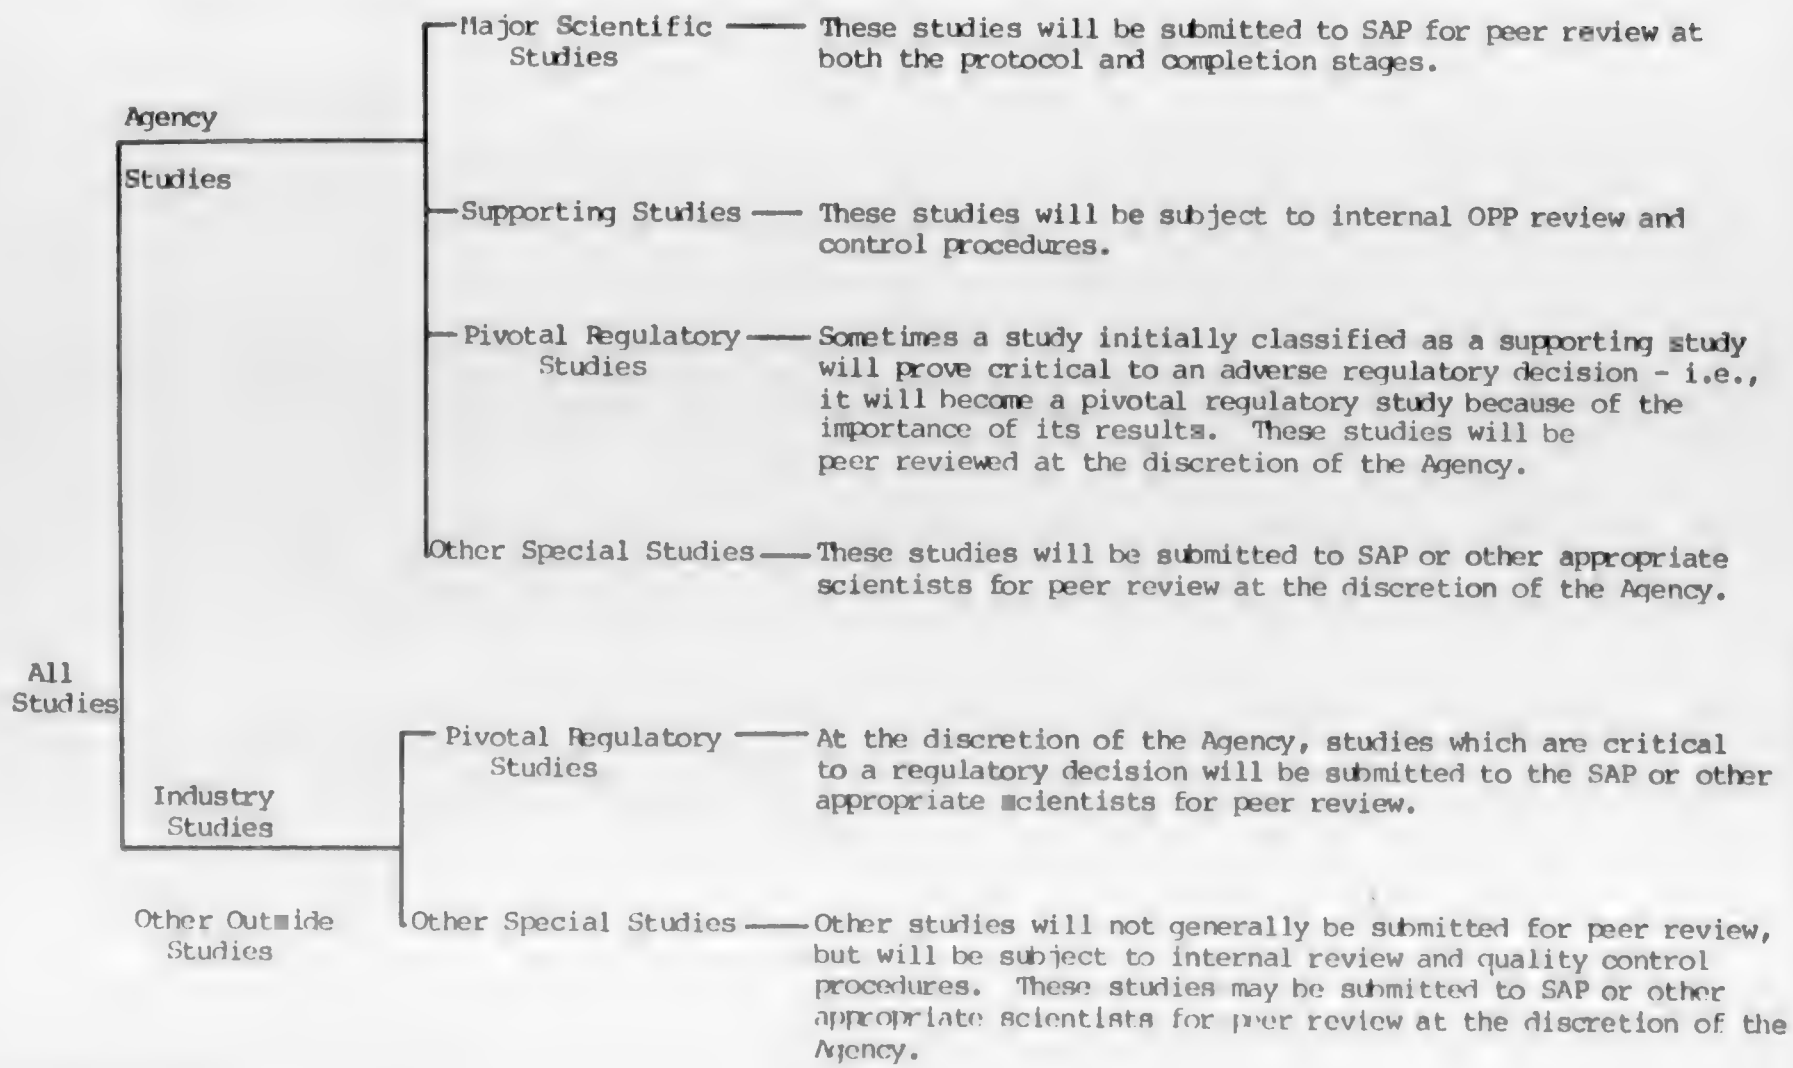
BILLING CODE 6560-32-M

[1] The SAP is a body of seven independent scientists created by law in 1975 to review all EPA regulations and proposals to cancel pesticides under authority of the FIFRA. It is a quality control checkpoint on the scientific bases for EPA regulatory decisions under FIFRA.

Figure 1 -- SCHEMATIC DIAGRAM SHOWING LOGIC TO CLASSIFY STUDIES TO DETERMINE IF SAP PEER REVIEW IS NECESSARY

Major Scientific —— These studies will be submitted to SAP for peer review at

Figure 1 -- SCHEMATIC DIAGRAM SHOWING LOGIC TO CLASSIFY STUDIES TO DETERMINE IF SAP PEER REVIEW IS NECESSARY



BILLING CODE 6560-32-C

II. General OPP/SAP Administrative Procedures

Peer review of each major scientific study will be conducted at two times: after study protocol development but before initiation of the work and after completion of the study but before use or release of the findings. The only exception to this rule will be in an emergency situation, at which time the completed report rather than the protocol will be submitted for peer review. Studies not funded by the Agency will normally be reviewed only after completion. Studies underway prior to the establishment of these procedures will be peer reviewed after completion, in accordance with their classification under Figure 1.

In requesting peer review of the SAP, the Agency will provide to the Executive Secretary the full study or protocol, a covering description of the study that includes the regulatory context, issues, focus and implications; any prior reviews of the study that have been performed by scientists within or without the Agency; and a list of nominees by discipline which the SAP may or may not use to augment its list of reviewers, and a suggestion as to the appropriate number of reviewers.

The Wampler amendment provides that EPA will provide for peer review using the SAP "or appropriate experts appointed by the Administrator from a current list of nominees" maintained by the SAP. The SAP will draw the list of nominees from SAP members, a standing list of scientists maintained by the SAP, and such other specialists as considered essential to the purposes of the review. The Executive Secretary will form an ad hoc sub-panel (for studies which require more than one researcher) consisting of a member of the SAP, as chair, and the reviewers that are designated from the list of nominees. The sub-panel chair will be appointed from SAP membership by the Panel Chairman in consultation with the SAP Executive Secretary. The Executive Secretary will distribute to the chair and members of the sub-panel copies of the study or protocol, the covering description, other available reviews, the names and addresses of the sub-panel members and the instructions of the sub-panel chair. The Executive Secretary will be responsible for all administrative work necessary to appoint sub-panel members. All sub-panel members will be cleared to review Confidential Business Information under FIFRA.

The chair of the sub-panel will compile the written reviews of the sub-panel members, resolving conflicts that may arise and obtaining additional reviews as deemed necessary, and prepare a summary report to the Agency. The report will address in particular the quality of the study or protocol in relation to the questions raised by the Agency, and suggest alternatives to the study in the event it does not meet the Agency's concerns.

Peer reviews will be completed within 60 days of submission to the SAP. In the event of emergency actions by the Agency, the same procedures will be followed, except that the process will be completed within 30 days, or less if needed, after submission to the SAP. There could also be an occasion in which the Agency finds an emergency situation that requires immediate regulatory action. In these cases, in accordance with the 1980 amendment, if EPA takes an emergency suspension action, the basis for that action will be referred to the SAP for review promptly after issuance of the suspension order.

III. OPP Division Administrative Procedures

All studies which require SAP peer review, as defined under I and II of this document, will be subject to the following procedures and requirements for preparation of the study for transmittal to the SAP:

A. Agency Studies

When the OPP identifies a study which is needed to provide essential regulatory data, and which will be funded directly by OPP, the study proposal will be submitted for internal OPP review within the annual budget planning process. The study proposal will classify the study, for peer review purposes, as a major scientific study, a supporting study or as a study which requires peer review because of special circumstances. Division management will make the decision on classification of the study, with an information notification to higher management, who may recommend a change in classification.

For major scientific studies the proposal and protocol will be submitted to SAP for peer review, and peer review will be completed, if possible before funds are obligated. Because of the occasional need to fund extramural projects according to a funding cycle, such as for cooperative agreements, it may be necessary to commit or obligate funds in advance of completing peer review of the protocol. Nevertheless, work will generally not begin for major scientific studies until the protocol has completed peer review.

For those Agency studies which require peer review at the planning stage (major scientific studies and other special studies as deemed appropriate) a peer review plan will be prepared and the plan, plus the protocol, will be sent to SAP for peer review. The peer review plan will identify the regulatory context of the study, discuss any special issues and will suggest appropriate peer reviewers. The plan will also include copies of any prior internal OPP review.

EPA will then send the completed study to the SAP, along with copies of the previously peer reviewed protocol. EPA will provide a summary of the study and its regulatory context, as well as suggestions for the number and identity of potential peer reviewers (most likely the same individual(s) who reviewed the protocol). The Agency generally will not make the completed study publicly available until after peer review is complete and revisions made as appropriate.

Supporting studies normally will receive only internal OPP peer review and will not be peer reviewed by the SAP prior to initiation. Occasionally, however, studies which are considered supporting studies will reveal important regulatory conclusions when they are completed, and consequently these studies will impact significantly on chemical registration status or use patterns. These studies thus become pivotal regulatory studies and will be submitted for peer review of final results at the discretion of the Agency.

B. Industry Studies, Other Outside Studies

As shown in Figure 1, these studies are classified in only two categories—those studies which are pivotal regulatory studies because they lead to some significant adverse regulatory action and those which are not. Generally speaking, these studies will not be submitted to the SAP or other outside scientists, but will be reviewed by EPA scientists. Those studies which are pivotal regulatory studies may be submitted for peer review at the discretion of EPA. Most of these will be studies rather than protocols; there could be exceptions, such as the review of new protocol designs in lieu of current guideline recommendations. Those studies, whether performed by industry or not, which present unusual difficulties in interpretation, may be submitted for peer review at the

discretion of EPA. This specifically means that there will be many important studies done by industry and by the public sector which the Agency will not submit for peer review because these studies do not have a significant adverse impact on registration status or use patterns. Studies submitted for peer review will contain a peer review plan as described in III A.

(Sec. 25 as amended, 92 Stat. 819 (7 U.S.C. 136))

Dated: December 9, 1981.

Edwin L. Johnson,

Director, Office of Pesticide Programs.

BILLING CODE 6560-32-M

[OPTS-51367; TSH-FRL-2009-2]

Toxic Substances; Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of interim policy published in the **Federal Register** of May 15, 1979 (44 FR 28558) and November 7, 1980 (45 FR 74378). This notice announces receipt of five PMNs and provides a summary of each.

DATE: Written comments by: PMN 81-625, 81-626, 81-627, 81-628, and 81-629—February 6, 1982.

ADDRESS: Written comments, identified by the document control number "[OPTS-51367]" and the specific PMN number should be sent to: Document Control Officer (TS-793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-409, 401 M St., SW., Washington, D.C. 20460 (202-755-5687).

FOR FURTHER INFORMATION CONTACT: David Dull, Acting Chief, Notice Review Branch, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-216, 401 M St., SW., Washington, D.C. 20460 (202-426-2601).

SUPPLEMENTARY INFORMATION: The following are summaries of information provided by the manufacturer on the PMNs received by EPA:

PMN 81-625

Close of Review Period. March 8, 1982.

Manufacturer's Identity. Claimed confidential business information. Organization information provided:

Annual sales—Between $100,000,000 and $499,999,999.

Manufacturing site—Middle Atlantic region.

Standard Industrial Classification Code—2891.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Blocked isocyanate.

Use. The manufacturer states that the PMN substance will be used as a water carried adhesive component.

PRODUCTION ESTIMATES

	Kilograms per year	
	Minimum	Maximum
1st year	10,000	20,000
2d year	20,000	40,000
3d year	30,000	70,000

Physical/Chemical Properties

Melting point—135° C.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that during manufacture up to 10 workers may experience dermal and inhalation exposure during reactor charging, filtering, drying and quality control.

Environmental Release/Disposal. Disposal is by a Resource Conservation and Recovery Act (RCRA) licensed waste handler.

PMN 81-626

Close of Review Period. March 8, 1982.

Manufacturer's Identity. Claimed confidential business information. Organization information provided:

Annual sales—Over $500,000,000.

Manufacturing site—Middle Atlantic region.

Standard Industrial Classification Code—285.

Specific Chemical Identity. Ethylene glycol acrylate trimelliate.

Use. The Manufacturer states that the PMN substance will be used as a site-limited surface coatings intermediate.

PRODUCTION ESTIMATES

	Kilograms per year	
	Minimum	Maximum
1 year	2,000	4,000
2 year	6,000	10,000

PRODUCTION ESTIMATES—Continued

	Kilograms per year	
	Minimum	Maximum
3 year	10,000	13,500

Physical/Chemical Properties

Specific gravity—1.13.

Viscosity (Brookfield) @ 22° C—52 cps.

Weight/gallon (1b)—9.4.

Toxicity Data

Acute oral toxicity LD_{50}—3,400 mg/kg.

Acute dermal toxicity LD_{50}—>2,000 mg/kg.

Eye irritation—Severe.

Ames salmonella—Negative.

Exposure. The manufacturer states that during manufacture 3 workers may experience dermal exposure 0.5 hr/day, 40 days/yr.

Environmental Release/Disposal. The manufacturer states that there will be no release to the environment. Disposal is by incineration.

PMN 81-627

Close of Review Period. March 8, 1982.

Manufacturer's Identity. Claimed confidential business information. Organization information provided:

Annual sales—Over $500,000,000.

Manufacturing site—Middle Atlantic region.

Standard Industrial Classification Code—285.

Specific Chemical Identity. Polymer of ethylene glycol acrylate mellitate and bisphenol-A epichlorohydrin.

Use. The manufacturer states that the PMN substance will be used as a site-limited surface coatings intermediate.

PRODUCTION ESTIMATES

	Kilograms per year	
	Minimum	Maximum
1 year	12,000	24,000
2 year	36,000	60,000
3 year	60,000	[illegible]

Physical/Chemical Properties

Specific gravity—1.19.

Viscosity (Brookfield) @ 22° C—400,000 cps.

Weight/gallon (1b)—9.9.

Toxicity Data

Acute oral toxicity LD_{50}—>5,000 mg/kg.

Acute dermal toxicity LD_{50}—>2,000 mg/kg.

Eye irritation—Moderate.

Ames salmonella—Negative.

Exposure. The manufacturer states that during manufacture 3 workers may experience dermal exposure 2.5 hr/day, 40 days/yr.

Environmental Release/Disposal. The manufacturer states that there will be no release to the environment. Disposal is by incineration.

PMN 81-628

Close of Review Period. March 8, 1982.

Manufacturer's Identity. Claimed confidential business information. Organization information provided:

Annual sales—Over $500,000,000.

Manufacturing site—Middle Atlantic region.

Standard Industrial Classification Code—285.

Specific Chemical Identity. Adduct of toulene diisocyanate with 2-hydroxyethyl acrylate and caprolatum.

Use. The Manufacturer states that the PMN substance will be used as a site-limited intermediate.

PRODUCTION ESTIMATES

	Kilograms per year	
	Minimum	Maximum
1 year	2,000	3,000
2 year	4,000	7,000
3 year	7,000	9,000

Physical/Chemical Properties

Specific gravity—1.30.

Viscosity (Brookfield) @ 22° C—226,000 cps.

Toxicity Data

Acute oral toxicity LD_{50}—>5,000 mg/kg.

Acute dermal toxicity LD_{50}—>2,000 mg/kg.

Eye irritation—Moderate.

Ames salmonella—Negative.

Exposure. The manufacturer states that during manufacture 3 workers may experience dermal exposure 3 hrs/day, 3 days/yr.

Environmental Release/Disposal. The manufacturer states that there will be no release to the envoronment. Disposal is by incineration.

PMN 81-629

Close of Review Period. March 8, 1982.

Manufacturer's Identity. Claimed confidential business information. Organization information provided:

Annual sales—Over $500,000,000.

Manufacturing site—Middle Atlantic region.

Standard Industrial Classification Code—285.

Specific Chemical Identity. Polymer of linseed oil, polymer with maleic anhydride and pentaerythritol, formaldehyde polymer with 4-(1,1-dimethylethyl)phenol, methyl phenol, and 4-nonyl phenol.

Use. The manufacturer states that the PMN substance will be used as a surface coating.

PRODUCTION ESTIMATES

	Kilograms per year	
	Minimum	Maximum
1st year	8,600	17,000
2d year	17,000	25,000
3d year	21,000	43,000

Physical/Chemical Properties

Specific gravity—0.911.

Viscosity (Brookfield) @ 22° C—190-250 cps.

Weight/gallon (lb)—7.6.

Non-volatile material—45%.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that during manufacture 3 workers may experience dermal exposure 4 hrs/day, 6 days/yr.

Environmental Release/Disposal. The manufacturer states that there will be no release to the environment. Disposal is by incineration.

Dated: December 9, 1981.

Woodson W. Bercaw,

Acting Director, Management Support Division.

FEDERAL MARITIME COMMISSION

The Hellenic Mediterranean Lines Co. Ltd. and Touristik Union International GmbH KG. c/o The Hellenic Mediterranean Lines Co. Ltd.; Order of Revocation

The Hellenic Mediterranean Lines Co., Ltd. and Touristik Union International GmbH KG. have ceased to operate the passenger vessel AQUARIUS to and from United States ports; and

Certificate (Performance) No. P-197, issued to the Hellenic Mediterranean Lines Co. Ltd. and Touristik Union International GmbH KG., has been returned for revocation.

Therefore, it is ordered, that Certificate (Performance) No. P-197, covering the AQUARIUS, be and is hereby revoked effective December 3, 1981.

By the Commission.

Francis C. Hurney,

Secretary.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Brighton Bancshares, Inc.; Formation of Bank Holding Company

Brighton Bancshares, Inc., Branson, Missouri, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 80 percent or more of the voting shares of the National Bank of Brighton, Brighton, Illinois. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Bank of St. Louis. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than January 2, 1982. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve Board System, December 11, 1981.

Theodore E. Downing, Jr.,

Assistant Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

[E-81-34]

Delegation of Authority to the Secretary of Defense

1. *Purpose.* This delegation authorizes the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in proceedings before the Federal Energy Regulatory Commission involving electric rates.

2. *Effective date.* This delegation is effective immediately.

3. *Delegation.*

a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the Federal Energy Regulatory Commission involving the petition of the Department of the Air Force for recognition of Plattsburgh Air Force Base as a preference customer for purchase of Niagara Power Project electricity.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration (GSA), and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

d. The Department of Defense shall add GSA to its service list in this case so that GSA will receive copies of testimony, briefs and other Department of Defense filings.

Dated: December 5, 1981.

Ray Kline,

Deputy Administrator of General Services.

BILLING CODE 6820-AM-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control

Mine Health Research Advisory Committee, Surveillance Subcommittee; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control announces the following National Institute for Occupational Safety and Health (NIOSH) Committee meeting:

Name: Surveillance Subcommittee of the Mine Health Research Advisory Committee
Date, time: January 6, 1982, 8:30 a.m. to 4:30 p.m.
Place: Conference Room M, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857
Type of meeting: Open
Contact person: Dennis Groce, Industrial Hygienist, Division of Respiratory Disease Studies, National Institute for Occupational Safety and Health Centers for Disease Control, 944 Chestnut Ridge Road, Room 117, Morgantown, WV 26505, Telephone: (304) 599-7421
Purpose: To discuss options for conducting environmental and medical surveillance in the mining industry.

The Mine Health Research Advisory Committee (MHRAC) was established by the Federal Mine Safety and Health Act of 1977. This legislation also provides the mandate for determining if materials or physical agents are potentially toxic at the concentrations that are found in a mine. Such determinations are to be made on a continuing basis, and the results are to be submitted to the Secretary of Labor.

Interested parties wishing to participate in the meeting are requested to contact Mr. Dennis Groce at the address above in order to be assured appropriate time for presentation. Four copies of the text of the presentation must be provided to the subcommittee chairperson, Dr. L. Christine Oliver, 135 Freeman Street, #1A, Brookline, Massachusetts 02146, prior to or at the subcommittee meeting.

The subcommittee will present its report on this subject to the MHRAC at their next meeting currently scheduled for February 1-2, 1982. The final subcommittee report, as approved by the MHRAC, will be available subsequent to the February meeting.

Dated: December 11, 1981.

Donald R. Hopkins,

Acting Director, Centers for Disease Control.

Public Health Service

Preventive Health and Health Services Block Grant; Delegation of Authority

Notice is hereby given that in furtherance of the delegations by the Secretary of Health and Human Services to the Assistant Secretary for Health on November 23, 1981 of authority under Title XIX of the Public Health Service Act and on November 24, 1981 of authority under Title XVII of the Omnibus Budget Reconciliation Act of 1981, the Assistant Secretary for Health has delegated to the Director, Centers for Disease Control, (1) all the authority delegated to the Assistant Secretary for Health under Part A, Title XIX, of the Public Health Service Act (42 U.S.C. 300w *et seq.*), as amended, with authority to redelegate only to officials who report directly to the Director, Centers for Disease Control, concerning the Preventive Health and Health Services Block Grant program, and (2) the authority delegated to the Assistant Secretary for Health under Subtitle C, Chapter 2, Block Grant funds, of Title XVII of the Omnibus Budget Reconciliation Act of 1981 (31 U.S.C. 1243 note), as amended, with authority to redelegate to officials who report directly to the Director, Centers for Disease Control; to officials within the Office of the Director, Centers for Disease Control; and through normal channels to the Regional Health Administrators; insofar as it pertains to Part A, Title XIX of the Public Health Service Act, Preventive Health and Health Services Block Grant.

The delegation to the Director, Centers for Disease Control, became effective on December 2, 1981.

Dated: December 2, 1981

Edward N. Brandt, Jr.,

Assistant Secretary for Health.

BILLING CODE 4160-18-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Environmental Quality

[Docket No. NI-89]

Intended Environmental Impact Statement; Historic District, Decatur, Ill.

The Department of Housing and Urban Development gives notice that an Environmental Impact Statement (EIS) is intended to be prepared for the following project under HUD programs as described in the appendix to this Notice: Assisted Housing in the Decatur Historic District, Decatur, Illinois. This Notice is required by the Council on Environmental Quality under its rules (40 CFR 1500).

Interested individuals, governmental agencies, and private organizations are invited to submit information and comments concerning the project to the specific person or address indicated in the appropriate part of the appendix.

Particularly solicited is information on reports or other environmental studies planned or completed in the project area, issues and data which the EIS should consider, recommended mitigating measures and alternatives, and major issues associated with the proposed project. Federal agencies having jurisdiction by law, special expertise or other special interests should report their interests and indicate their readiness to aid the EIS effort as a "cooperating agency."

Each Notice shall be effective for one year. If one year after the publication of a Notice in the **Federal Register** a Draft EIS has not been filed on a project, then the Notice for that project shall be cancelled. If a Draft EIS is expected more than one year after the publication of the Notice in the **Federal Register**, then a new and updated Notice of Intent will be published.

Issued at Washington, D.C., December 8, 1981.

Francis G. Haas,

Deputy Director, Office of Environmental Quality.

Appendix

EIS on Assisted Housing in Decatur Historic District, Decatur, Illinois

The Department of Housing and Urban Development (HUD) Chicago, Illinois Area Office intends to prepare an EIS on the project described below. The Department hereby solicits comments and information for consideration in the EIS.

Description: The Historic District is irregularly shaped, its rough boundaries include Eldorado, Hayworth/Crea, Lincoln Park Place/Edward, and Union/Church. The primary site being considered for assisted housing is bounded by North, Pine, William and Monroe Streets.

No project is under current review for the area. However, because of the recognized need and the area's desirability for elderly or family housing, HUD anticipates submission of applications for assistance in the future. In the past the primary site (identified above), was submitted for 202 funding.

Need: An EIS is being prepared as any new housing construction within the district may be viewed as an adverse impact by State Historic Preservation Officer (SHPO) or Advisory Council on Historic Preservation (ACHP) as was the previous application, and the EIS would constitute the most appropriate level of clearance.

Alternatives: The EIS will consider arrangement of site and design alternatives for assisted housing within the district, including size, number of units and type of housing.

Scoping: Responses to this notice will help determine potentially significant environmental issues and consequently will assist in identifying policy areas that the EIS should address. Presently potential issue areas include impact on the Historic District, parking congestion, and sewer capacity.

Comments: Comments should be sent on or before January 7, 1982 to: Eugene Goldfarb, Environmental Officer, Department of Housing and Urban Development, Chicago Area Office, One North Dearborn Street, Chicago, Illinois 60602.

BILLING CODE 4210-01-M

DEPARTMENT OF THE INTERIOR

Geological Survey

Oil and Gas and Sulphur Operations in the Outer Continental Shelf

AGENCY: Geological Survey, Interior.

ACTION: Notice of the receipt of a proposed development and production plan.

SUMMARY: This Notice announces that McMoRan Offshore Exploration Co., designated Subunit Operator (Tenneco Oil Exploration and Production Company is the Unit Operator), of the Vermilion Block 218 Federal Unit Agreement No. 14-08-0001-8816, submitted on October 30, 1981, a proposed supplemental plan of development describing the activities it proposes to conduct on the Vermilion Block 218 Federal Unit.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Geological Survey is considering approval of the plan and that it is available for public review at the offices of the Conservation Manager, Gulf of Mexico OCS Region, U.S. Geological Survey, 3301 N. Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: U.S. Geological Survey, Public Records, Room 147, open Weekdays 9:00 a.m. to 3:30 p.m., 3301 N. Causeway Blvd., Metairie, Louisiana 70002, phone (504) 837-4720, ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the U.S. Geological Survey makes information contained in development and production plans available to affected States, executives of affected local governments, and other interested parties became effective on December 13, 1979 (44 FR 53685). Those practices and procedures are set out in a revised § 250.34 of Title 30 of the Code of Federal Regulations.

Dated: December 11, 1981.

Lowell G. Hammons,

Conservation Manager, Gulf of Mexico OCS Region.

Bureau of Land Management

Canon City District Grazing Advisory Board; Meeting

Notice is hereby given in accordance with Pub. L. 92-463 that a meeting of the Canon City District Grazing Advisory Board will be held at 10:00 a.m., Friday, January 22, 1982, at the Chaffee County Bank, 146 G Street, Salida, Colorado.

The purpose of the meeting will be to review allotment management plan implementation, discuss the Rangeland Program Summary Update for the Royal Gorge Resource Area, and to initiate, conduct and settle business pertaining to expenditure of Range Betterment and Improvement Funds.

The meeting will be open to the public. However, facilities and space to accommodate members of the public are

limited and persons will be accommodated on a first come, first served basis. Any person may file with the Board a written statement concerning matters to be discussed.

Persons wishing further information concerning this meeting may contact Melvin. D. Clausen, District Manager, Bureau of Land Management, 3080 East Main Street, Canon City, Colorado, at (303) 275–0631.

Minutes of the meeting will be made available for public inspection 30 days after the meeting.

Dated: December 11, 1981.

Melvin D. Clausen,

District Manager.

[U–011437]

Utah; Proposed Continuation of Withdrawal and Opportunity for Public Hearing

1. In accordance with the provisions of section 204 of the Federal Land Policy and Management Act, the Bureau of Land Management is proposing continuation of an existing experimental range withdrawal, created by Public Land Order 1728 dated September 5, 1958, affecting the following described lands:

Salt Lake Meridian, Utah

T. 24 S., R. 17 W.,
Secs. 1 to 4, inclusive, and 9 to 36, inclusive.
T. 24 S., R. 18 W.,
Secs. 25 and 36.
T. 25 S., R. 17 W.,
Secs. 1 to 36, inclusive.
T. 25 S., R. 18 W.,
Secs. 1, 2, and 11 to 14, inclusive, and 22 to 28, inclusive, and 33 to 36, inclusive.

2. The area described aggregates 55,680 acres in Millard County, Utah.

3. The purpose for the withdrawal is for use by the Forest Service, Department of Agriculture, as the Desert Experimental Range. The lands are closed to all forms of appropriation under the public lands laws, including the mining, but not the mineral leasing laws. No change in the segregative effect or use of the land would be effected by the continuation.

4. Notice is hereby given that a public hearing may be afforded in connection with the proposed withdrawal continuation. All interested persons who desire to be heard on the proposal must submit a written request for a hearing to the undersigned on or before March 17, 1982. Upon a determination by the State Director, Bureau of Land Management, that a public hearing should be held, a notice will be published in the Federal Register giving the time and place of such hearing. Public hearings will be scheduled and conducted in accordance with BLM Manual 2351.16B. Additionally, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal continuation may present their views in writing to the undersigned authorized officer of the BLM on or before April 1, 1982.

5. The authorized officer of the BLM will undertake such investigation as are necessary and prepare a report for consideration by the Office of the Secretary of the Interior. The final determination on the continuation of the withdrawal will be published in the **Federal Register**. The existing withdrawal will continue until such final determination is made.

6. All communications in connection with this proposed withdrawal continuation should be addressed to the undersigned officer, Bureau of Land Management, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111.

Darrell Barnes,

Chief, Branch of Lands and Minerals Operations.

Dated: December 10, 1981.

BILLING CODE 4310-84-M

Colorado; Final Intensive Wilderness Inventory

Decision by the Interior Board of Land Appeals to Affirm the Colorado State Director's Final Intensive Wilderness Inventory Decision Regarding Castle Peak (CO-070-433) and Pisgah Mountain (CO-070-421).

Notice is hereby given on the decision of the Interior Board of Land Appeals (IBLA) to affirm the Colorado State Director's Wilderness Inventory decision designating the Castle Peak unit as a wilderness study area (WSA) and declaring the Pisgah Mountain unit unsuitable as a wilderness study area.

The State Director's Final Intensive Wilderness Inventory decision under the authority of section 603 of the Federal Land Policy and Management Act of 1976 (FLMA), 43 U.S.C. 1782 (1976), was published on November 14, 1980 (45 FR 75584). At that time Castle Peak was identified as a WSA and Pisgah Mountain was listed as no longer subject to wilderness review. This portion of the decision was protested. Attempts to resolve the protest were not successful and an appeal was filed with IBLA on February 26, 1981. A notice of this, as well as all other appeals relating to the Final Intensive Wilderness Inventory decision, was published in 46 FR 48774 (October 2, 1981).

In their decision on November 17, 1981, IBLA affirmed the original decision by the Colorado State Director with respect to both units. Accordingly, as of November 17, 1981, Pisgah Mountain (CO-070-421) is released from further wilderness review. Castle Peak (CO-070-433) is reaffirmed as a wilderness study area, and will continue to be subject to the Bureau's interim management policy for WSAs.

Copies of the IBLA's decision (60 IBLA 54) can be obtained from BLM by contacting: Colorado State Office, 1037 20th Street, Denver, Colorado 80202; Attention: Barry A. Tollefson, State Wilderness Coordinator; Telephone (303) 837-3393.

Dated: December 3, 1981.

George C. Francis,

State Director, Colorado, Bureau of Land Management, Denver, Colorado.

BILLING CODE 4310–84–M

Wilderness Decision

The Bureau of Land Management (BLM) has completed the wilderness inventory of public lands in the Stateline area (where Idaho joins with Oregon, Nevada, and Utah).

The Stateline inventory was not completed with the Statewide inventories for each state, due to appeals received in Idaho on all of the Idaho Stateline inventory units that were proposed for intensive inventory.

Twenty five responses were received during the 90-day public comment period on the intensive inventory proposed decision (April 8, 1981 to July 7, 1981). The information provided on the wilderness characteristics of the Stateline areas, especially the presence or absence of naturalness and outstanding opportunities for solitude or primitive and unconfined recreation, was utilized in formulating the final decision.

Publication of this notice marks the beginning of a 30-day protest period from December 18, 1981, to January 18, 1982. The decisions will become final on January 18 unless timely protests are received by the Idaho, Oregon, Nevada, or Utah State Directors of the BLM.

Persons wishing to protest any of these decisions must file a written protest with BLM State Directors (addresses below) by the close of business January 18, 1982. Only those protests received by the State Directors by the time and date specified will be accepted.

The protest must specify the inventory unit(s) to which it is directed. It must include a clear and concise statement of the reasons for the protest as well as data to support the reasons stated.

A written decision will be issued on any protest which is filed according to the above requirements, with publication in the **Federal Register** of the action taken in response to the protest.

Any person adversely affected by the decision on a written protest may appeal such decision under the provisions of 43 Code of Federal Regulations (CFR) Part 4.

Idaho BLM State Director, Box 042, Federal Building, 550 W. Fort Street, Boise, Idaho 83724

Nevada BLM State Director, P.O. Box 12000, Reno, Nevada 98520
Oregon BLM State Director, P.O. Box 2965, Portland, Oregon 97208
Utah BLM State Director, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111

[Bureau Order No. 701]

Lands and Resources; Redelegations of Authorities

AGENCY: Bureau of Land Management, Interior.

ACTION: Amendment to Bureau Order No. 701.

SUMMARY: This gives notice of an amendment to Bureau Order No. 701, Part 1, Section 1.6(a) Oil and Gas Leases, to give the Director, Alaska State Office, Bureau of Land Management, authority to issue oil and gas leases in the National Petroleum Reserve—Alaska.

EFFECTIVE DATE: December 17, 1981.

[Bureau Order No. 701, Amendment No. 35]

Lands and Resources—Redelegation of Authority

Bureau Order No. 701, dated July 23, 1964, is further amended as follows:

Section 1.6(a) is amended by removing the period at the end of the first sentence and adding the phrase ", the Naval Petroleum Reserves Production Act of 1976 (42 U.S.C. 6504), and the Department of the Interior Appropriations Act, Fiscal Year 1981 (94 Stat. 2957)."

December 11, 1981.

BILLING CODE 4310-84-M

Availability of Final Environmental Impact Statement on the Rocky Mountain Pipeline Project

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability of final environmental impact statement on the Rocky Mountain pipeline project.

SUMMARY: Pursuant to Section 102(2)(c) of the Environmental Policy Act of 1969, the Department of the Interior's Bureau of Land Management (BLM) and the Department of Energy's Federal Energy Regulatory Commission (FERC) has prepared and is making available this statement covering a proposal by the Rocky Mountain Pipeline Company to construct and operate a 610-mile long, 36-inch diameter, natural gas pipeline from Lincoln County, Wyoming into San Bernardino County, California. The proposed system would cross approximately 343 miles of Federal land.

The Forest Service (FS), the Bureau of Indian Affairs (BIA), the Fish and Wildlife Service (FWS) and several state and county government departments have assisted in the preparation of this EIS.

In addition to the proposed route, six alternative routes and seven route variations have been assessed and analyzed in the document.

DATE: Federal decisions will be made following a waiting period of 30 days from the date that the Environmental Protection Agency's Notice of Availability for the FEIS is published in the **Federal Register**. This waiting period

is expected to end on or about January 17, 1982.

ADDRESS: Notice is hereby given that written comments on the content of the final EIS may be submitted during the 30-day waiting period as noted above. Comments should be directed to:

State Director, Utah State Office, Bureau of Land Management, 136 East South Temple, Salt Lake City, Utah, 84111
Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426

FOR FURTHER INFORMATION CONTACT: Dell T. Waddoups, Project Manager, Bureau of Land Management, 136 East South Temple, Salt Lake City, Utah 84111; Telephone: (801) 524–5645 FTS 588–5645.

Limited copies of FEIS's are available upon request from: Rocky Mountain Pipeline Project Leader, Bureau of Land Management, EIS Offices, Third Floor East, 555 Zang Street, Denver, Colorado 82008, and the Federal Energy Regulatory Commission, Division of Public Information, at the above listed address. Copies of the FEIS are available for review at public libraries and at the following BLM locations:

Office of Public Affairs, Main Interior Building, 18th and C Streets NW., Washington, D.C. 20240
Federal Building, Room 398, 550 West Fort Street, Box 042, Boise, Idaho 83724
Federal Office Building, Room E–2841, 2800 Cottage Way, Sacramento, California 95825
Federal Building, Room 3008, 300 Booth Street, P.O. Box 12000, Reno, Nevada 89520
University Club Building, 136 East South Temple, Salt Lake City, Utah 84111
2515 Warren Avenue, P.O. Box 1828, Cheyenne, Wyoming 82001

Dated: December 8, 1981.

Roland G. Robison, Jr.,

Utah State Director.

[FR Doc. 81–36007 Filed 12–16–81; 8:45 am]

BILLING CODE 4310–84–M

[Serial No. I–17737]

Idaho; Conveyance of Public Lands, Jefferson County

Notice is hereby given that pursuant to the Act of October 21, 1976 (90 Stat. 2750; 43 U.S.C. 1713), the following-described public land has been sold by direct sale to Reese Sanders, Hamer, Idaho 83425.

Boise Meridian, Idaho

T. 7 N., R. 36 E.,
Sec. 14, SE¼NW¼.
Comprising 40.00 acres.

The lands were conveyed on December 10, 1981, to resolve a complicated situation that was created in 1942 by an agreement for an exchange of land between the family of Mr. Reese and the Taylor Grazing Service. The exchange was never consummated but the conditions of the agreement were such that Mr Reese was under the impression that his family obtained possession of the land in 1942 and it has been fenced, used and considered as part of his private holdings for many years. The public interest was well served through completion of the sale.

The fair market value of the public land was appraised at $4,725 and payment in this amount was received by the United States.

Louis B. Bellesi,

Chief, Division of Technical Services.

[FR Doc. 81–36008 Filed 12–16–81; 8:45 am]

BILLING CODE 4310–84–M

Intent To Prepare Environmental Impact Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent to prepare an environmental impact statement (EIS).

SUMMARY: Notice is hereby given in accordance with 40 CFR 1501.7 that the Coeur d'Alene District Office is starting the preparation of an EIS. Completion of the EIS will be an important step in the District's Management Framework Plan process. The amendments will cover five Wilderness Study Areas (WSAs) in northern Idaho. The purpose of the EIS is to assess land use allocation alternatives for these WSAs and to develop recommendations on the suitability of these lands for inclusion in the National Wilderness Preservation System. These lands total 38,468 acres and are identified as:

Unit	Name	Acres
61–1	Selkirk Crest	720
61–10	Crystal Lake	9,027
61–15a and 15b	Grandmother Mountain	17,129
62–1	Snowhole Rapids	1,068
62–10	Marshall Mountain	6,524
Total		38,468

Scoping for this EIS began on February 5, 1981 when a Notice of Management Framework Plan Amendment Preparation was published in the **Federal Register**. Requests for public input concerning issues to be considered in the plan amendment and EIS were made in March and July, 1981. The following major issues have been identified to date:

1. How would wilderness designation affect other resource activities; what resource opportunities/values would be foregone?
2. How would wilderness designation affect the potential for energy and mineral resource development?
3. Would livestock grazing be affected by wilderness designation?
4. How would wilderness designation affect the management of adjacent lands?
5. What wilderness values do the WSAs contain?
6. Are the WSAs manageable as wilderness areas?
7. Is there a need for additional wilderness areas?
8. How would wilderness characteristics be protected in each WSA?
9. What are the social and economic values of wilderness; how would wilderness designation affect current socio-economic conditions of local communities?

A full spectrum of alternatives will be described and analyzed in the EIS. These alternatives will include, but are not limited to:

1. All Wilderness.
2. No Wilderness—to include a range of sub-alternatives ranging from considering resource production to resource protection.
3. Partial Wilderness.
4. No Action.

An interdisciplinary team will develop the EIS. The following disciplines will be represented: forestry, range management, wildlife, hydrology, wilderness, soils, recreation, archaeology, geology, land use planning, sociology and economics.

The draft EIS is currently scheduled for publication in June, 1982. A notice of availability will be published in the **Federal Register** and publicized through the media. A public hearing will be held following the publication of the draft EIS. Details concerning this hearing will be published in the **Federal Register** and announced through the media.

Documents associated with this EIS will be available for public review at the Coeur d'Alene District Office in Coeur d'Alene, Idaho.

FOR FURTHER INFORMATION CONTACT: Ted Graf, EIS Team Leader, Bureau of Land Management, 1808 North 3rd St., Coeur d'Alene, Idaho 83814. Telephone (208) 667–2561, extension 356.

Dated: December 10, 1981.

Wayne W Zinne,

Coeur d'Alene District Manager.

BILLING CODE 4310–84–M

Federal Coal in Rosebud, Big Horn, and Powder River Counties, Mont.; Public Comment Period on Application of Unsuitability Criteria

December 10, 1981.

AGENCY: Bureau of Land Management, Miles City District, Montana.

ACTION: Notice of public comment period.

SUMMARY: Notice is hereby provided to announce a public comment period on the application of unsuitability criteria on 97,226 acres of federal coal in Rosebud, Big Horn, and Powder River Counties, Montana. This notice is in accordance with 43 CFR 3461.3–1(a)(2), Coal Management, Federally Owned Coal.

DATES: The comment period is open until February 28, 1982, and will include public meetings in Colstrip, Montana, and Sheridan, Wyoming, at times and dates to be announced in local media.

ADDRESS: Written comments may be addressed to the District Manager, Miles City District, West of Miles City, P.O. Box 940, Miles City, Montana.

SUPPLEMENTARY INFORMATION: A draft amendment to plans covering the management of public land in the Powder River Resource Area has been released by the Miles City District to make six federal coal areas available for further lease consideration. The draft amendment includes the application of unsuitability and small scale maps displaying those areas:

a. To which no criteria would apply;

b. To which a criterion would apply;

c. To which a criterion would apply where the authorized officer does not intend to consider an exception; and

d. To which a criterion and an exception thereto have been applied.

Large-scale maps and overlays depicting the same information in more detail are available for public inspection at the Miles City District Office and will be available in Colstrip and Sheridan during the public meetings. Copies of the draft amendment are also available at the Miles City District Office. The draft amendment also contains multiple use analysis, and surface owner consultation sections and the overall document is open to public comment through the period.

Robert A. Teegarden,

Acting District Manager.

[FR Doc. 81–36012 Filed 12–16–81; 8:45 am]

BILLING CODE 4310–84–M

Outer Continental Shelf Advisory Board, South Atlantic Technical Working Group; Meeting

Notice of this meeting is issued in accordance with the Federal Advisory Committee Act (Pub. L. No. 92–463).

Name: South Atlantic Technical Working Group.
Date: January 12, 1982.
Place: The World Trade Institute, Rooms 3 and 4 One World Trade Center, 55th Floor New York, New York
Time: 9:00 a.m. to 4:30 p.m.

Committee membership consists of representatives from federal agencies, the coastal states of Virginia through Florida, the petroleum industry, and other private interests.

Agenda: Overview of proposed changes to the OCS oil and gas leasing program; discussion of scenarios, alternatives and significant issues to be considered for the Sale No. 78 DEIS (scoping); discussion of future roles of the Regional Technical Working Group.

The meeting will be open to the public. Public attendance may be limited by the space available. Persons wishing to make oral presentations to the Committee regarding matters on the agenda should contact Richard Barnett of the New York OCS Office (212–264–1061) by January 5, 1982. Written statements should be submitted by January 19, to the New York OCS Office, Bureau of Land Management, 26 Federal Plaza, Suite 32–120, New York, New York 10278.

Minutes of the meeting will be available for public inspection and copying by March 9, 1982 at the above address.

Frank Basile,

Manager, New York OCS Office.

BILLING CODE 4310–84–M

Office of Surface Mining Reclamation and Enforcement

Move of Administrative Record Room

AGENCY: U.S. Department of the Interior, Office of Surface Mining.

ACTION: Notice of move of the administrative record room.

SUMMARY: The Office of Surface Mining (OSM) is moving the Administrative Record Room from 1951 Constitution Avenue to 1100 L Street N.W. The Administrative Record Room will be open to the public at 1100 L Street on December 24, 1981. Due to this move the Administrative Record Room will be closed on December 22–23, 1981.

FOR FURTHER INFORMATION CONTACT: Joel Anderson, Office of Surface Mining, 1951 Constitution Avenue, Washington, D.C. 20240, (202) 343–5447.

SUPPLEMENTARY INFORMATION: On December 24, 1981 the Administrative Record Room will be open to the public at Room 5315, 1100 L Street, N.W., Washington, D.C. Because of this move the Administrative Record Room will be closed on December 22–23, 1981.

The Administrative Record Room maintains all technical literature which is cited in OSM regulations. It also maintains all comments on rulemaking and State Programs.

OSM usually requests that comments on rulemaking be addressed to the Administrative Record Room. Therefore commenters sending comments in after December 23, 1981 should use the following address: Administrative Record Room, U.S. Department of the Interior, Office of Surface Mining, Room 5315 L Street, 1951 Constitution Avenue, N.W., Washington, D.C. 20240.

OSM maintains the Constitution Avenue address as its only mailing address. The mail is then shuttled to 1100 L Street. In addition to hand delivery at Room 5315, 1100 L Street, N.W., OSM will accept hand carried mail at Room 241 in the South Interior Building, 1951 Constitution Avenue. This will enable commenters to have their comments date stamped and delivered to 1100 L Street for filing and logging in the Administrative Record.

Street parking is adjacent to the 1100 L Street building. Commercial parking lots are located on 11th Street and New York Avenue and 10th Street above Massachusetts Avenue.

Carson W. Culp,

Assistant Director, Office of Surface Mining, Management and Budget.

BILLING CODE 4310–05–M

INTERSTATE COMMERCE COMMISSION

Motor Carriers; Finance Applications; Decision Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find: Each transaction is exempt from section 11343 (formerly section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the

Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be comsummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice sball have no further effect.

It Is Ordered:

The following applications are approved, subject to the conditions stated in the publication, and further subject to the administrative requirements stated in the effective notice to be issued hereafter.

By the Commission, Review Board No. 3, Members Krock, Joyce, and Dowell.

MC–FC–79467. By decision of 12/1/81 Review Board 3 approved the transfer to DON ESTRIN, of San Pedro, CA, of control of License No. MC–12429 issued to RADS TRANSFER & STORAGE COMPANY, of San Pedro, CA, formerly jointly controlled by Estrin, John Tillotson, and Eldon R. Clawson, authorizing a brokerage service at Medford, Eugene, Klamath Falls, and Portland, OR, Vancouver and Seattle, WA, and Los Angeles, CA, of household goods between points in the United States. Representative: Don Estrin, 350 W. 5th St., San Pedro, CA 90731.

MC–FC–79479. By decision of 12/3/81, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to R-LIL TRUCK COMPANY, INC., of Camano Island, WA, of Permit No. MC–142332 (Sub-1) issued October 18, 1977, MC–142332 (Sub-No. 3) issued October 26, 1978, MC–142332 (Sub-No. 5) issued April 21, 1980, and MC–142332 (Sub-No. 6) issued July 20, 1981, to MEAT HANDLERS' EXPRESS, INC., of Camano Island, WA, authorizing the movement of named commodities, from and between various points in the United States under continuing contract(s) with (1) Florence Packing Co. of Stanwood, WA; (2) Pacific Grinding Wheel, Incorporated, of Marysville, WA; and (3) The Boeing Company of Seattle, WA ; and authority in MC–142332 (Sub-No. 1) from Stanwood and Chehalis, WA, to the port of entry on the US-Canada Boundary line located at or near Detroit, MI, is restricted to the transportation of traffic destined to Montreal, Quebec, and Toronto, Ontario, Canada. Representative: Michael D. Duppenthaler, 211 South Washington Street, Seattle, WA 98104, (206) 622–3220. TA lease is not sought. Transferee is not a carrier.

MC–FC–79491. By decision of 12/1/81 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to R. C. MASON MOVERS, INC. of certificate No. MC–21854 issued to EARL E. WARMAN, INC. authorizing the transportation of *household goods* as defined by the Commission, between points in Essex County, MA, on the one hand, and, on the other, points in ME, NH, VT, CT, RI, NY, DE, NJ, and PA. Representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. TA lease is not sought. Transferee is a carrier.

MC–FC–79495. By decision of 12/3/81 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to PAUL GERARD HOFFMANN, d.b.a. BUD HOFFMANN MOVERS, of Yonkers, NY, of Cerfificate No. MC–91484 issued to FRANCIS L. HOFFMANN d.b.a. BUD HOFFMANN MOVERS, of Yonkers, NY, authorizing the transportation of *household goods* as defined by the Commission, between New York, NY, on the one hand, and, on the other, points in NY, NJ, and CT. Representative: Paul Gerard Hoffmann, 93 Vernon Avenue, Yonkers, NY 10704.

Note.—Transferee is a non-carrier; TA is not sought.

MC–FC–79501. By decision of December 8, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to GOLDEN ISLES COACHES, INC., of Brunswick, GA, of Certificate No. MC–136102 (Sub 1), issued to SANDHILL STAGE LINES, INC., of Jacksonville, FL, authorizing the transportation of *passengers and their baggage,* in charter operations, beginning and ending at Hilton Head Island, SC, and extending to points in FL, GA, NC, SC, and TN. Representative: James Perry Fields, 1612 Union Street, P.O. Box 797, Brunswick, GA 31521.

Notes.—TA has not been filed. Transferee is not a carrier, but is affiliated with Coastal Trucking Co., Inc., which holds common carrier authority under MC–151141.

MC–FC–79503. By decision of 12/1/81 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to JONATHAN SPINOSI, d.b.a. JONATHAN'S TRAVEL of License No. MC–12698 issued to CLARENCE E. WIDELL d.b.a. VIKING TRAVEL AGENCY authorizing the transportation of *passengers and their baggage,* in Charter and special operations, in round-trip tours, beginning and ending at points in Camden, Gloucester, and Burlington (except Fort Dix and McGuire Air Base) Counties, NJ, and extending to points in the United States including AK and HI. Applicant is authorized to engage in the above-specified operations as a broker at Camden and Haddonfield, NJ. Representative: Paul Gerard Hoffmann, 93 Vernon Avenue, Yonkers, NY 10704.

Note.—Transferee is a non-carrier.

MC–FC–79505. By decision of 12/3/81, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to CHEVALLEY TRANSPORTATION COMPANY, INC., of Dewey, OK, of Certificate No. MC–74077 issued June 5, 1973, to STONE TRANSFER & STORAGE CO., of Dewey, OK, authorizing: *household goods,* between Oklahoma City, OK, and points within 150 miles of Oklahoma City, on the one hand, and on the other, points in AR, KS, MO, NE, NM, and TX; and *uncrated new household furniture,* between Oklahoma City, OK, on the one hand, and, on the other, points in KS, MO, TX, and NM. Representative: Billy R. Reid, 1721 Carl Street, Fort Worth, TX 76103, (817) 332–4718.

Note.—TA lease is not sought. Transferee is not a carrier.

MC–FC–79506. By decision of 12/3/81, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to DENNY BUS LINES LTD., of Acton, Ontario, Canada, of Certificate No. MC–119228 issued August 4, 1960, and MC–119228 (Sub–1) issued April 22, 1966, to MASON MOTOR COACHES, LTD., of Acton, Ontario, Canada, authorizing *passengers and their baggage,* in round

trip charter operations, beginning and ending at ports of entry on the United States-Canada boundary line in that part of Michigan and New York which border the Province of Ontario, Canada, and extending to points in NY, IL, IN, MI, OH, NJ, and PA; and *passengers and their baggage*, in round-trip charter operations, beginning and ending at the ports of entry on the United States-Canada Boundary line and extending to points in the United States, except those in HI, IL, IN, MI, NJ, NY, OH, and PA. Representative: William J. Hirsch, 1125 Convention Tower, 43 Court Street, Buffalo, NY 14202, (716) 853–0200.

Note.—TA lease is not sought. Transferee is not a carrier.

MC–FC–79514. By decision of December 10, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to GLOBAL FORWARDING, INC., A TEXAS CORPORATION, of Permit No. FF–350 (Sub-No. 1), issued September 15, 1977, to GLOBAL FORWARDING, INC., A CALIFORNIA CORPORATION, authorizing the transporation of (a) *used household goods and unaccompanied baggage* and (b) *automobiles*, between points in the United States (including HI and AK), restricted in (b) above to the transportation of export-import traffic. Representative: Alan F. Wohlstetter, 1700 K Street, NW., Washington, DC 20006.

Notes.—TA has not been filed. Transferee is not a carrier, but is affiliated with transferor. Transferor is a subsidiary of Gloval Van Lines, Inc., a motor carrier under MC–41098.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81–36048 Filed 12–16–81; 8:45 am]

BILLING CODE 7035–01–M

Motor Carriers; Finance Applications; Decision-Notice

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed By Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the **Federal Register**. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Dated: December 14, 1981.

By the Commission, Review Board Number 3, Members, Krock, Joyce, and Dowell.

MC–F–14745, filed November 30, 1981. Applicant: ROSS NEELY EXPRESS, INC., P.O. Drawer B, Pratt City Sta., Birmingham, AL 35214. Representative: JOHN P. CARLTON, CARLTON, BOLES, VANN & STICHWEH, 727 Frank Nelson Building, Birmingham, AL 35203. Ross Neely Express, Inc. (RNX) seeks approval to continue in control of Neely Transport, Inc., (Neely) upon the institution of operations by the latter as a common carrier in interstate commerce. The application is related to MC–150706 (Sub-1) in which Neely has been granted authority to transport general commodities (except classes A and B explosives) over regular routes between points in AL and GA, serving all intermediate points and all other points in AL and GA as off-route points. Ross Neely, Jr., who controls RNX, seeks authority to continue in control of Neely through the transaction. (Hearing: Birmingham, AL, Washington, D.C.)

MC–F–14743, filed November 20, 1981. HENRY ANDERSEN, INC. (P.O. Box 75, King George, VA 22485)—Merger—HENRY ANDERSEN OF TEXAS, INC. (P.O. Box 1129, Stratford, TX 79084). Representative: Chester A. Zyblut, 366 Executive Building, 1030 Fifteenth St. NW., Washington, D.C. 20005. Henry Andersen, Inc., seeks authority to merge the interstate operating rights and property of Henry Andersen of Texas, Inc., its wholly-owned subsidiary, into Henry Andersen, Inc., for ownership, management, and operation. W. Henry Andersen, the sole stockholder of Henry Andersen, Inc., also seeks authority to control the merged rights through the merger. The operating rights to be merged are contained in Permit No. MC–139091, and Certificate No. MC–148245, and sub numbers thereunder, authorizing the transportation of vacuum bottles and fillers lunch and picnic boxes, plastic articles and meat and meat products and frozen foods, from and to specified points in the states of TX, KS, NE, IA, IL, LA, MI, TN, OH, and CT. All operating authority of Henry Andersen of Texas, Inc., is to be merged. This does not purport to be a complete description of said operating rights. Henry Andersen, Inc., is authorized pursuant to Permit No. MC–135553 and Certificate No. Mc–145252 and subs thereunder to transport meat and meat

products, chimney assemblies, doors, chemicals, and related products, plastic film, to, from and between various specified points or areas in the United States. Henry Andersen, Inc., was authorized to control Henry Andersen of Texas, Inc., formerly Logan Motor Lines, Inc., in No. MC–F–13697F. Application for TA has not been filed. Condition: Athough W. Henry Andersen has signed the application as Chairman of the Board of each of the involved carriers, he has not signed in his own right as the party who will control the merged rights after consummation of the transaction. Thus, our approval is conditioned upon W. Henry Andersen seeking joinder in the application as such party who will control the merged rights.

MC–F–14742, filed November 20, 1981. ROBERT D. BOWHAY (Bowhay) (P.O. Box 150, Summerfield, KS 66541)—Purchase (Portion)—SULLIVAN TRANSFER & STORAGE CO. (Sullivan) (301 North 8th Street, Lincoln, NE 68508). Representatives: Donald L. Stern, Ste. 610, 7171 Mercy Road, Omaha, NE 68106, and Michael J. Ogborn, P.O. Box 82028, Lincoln, NE 68501. Bowhay seeks authority to purchase certain operating rights of Sullivan, generally for the transportation by irregular routes of (1) *metal products*, between Peoria, IL and Kansas City, MO, on the one hand, and on the other, points in Lancaster County, NE; (2) *textile mill products and machinery*, between Chicago, IL and points in Fulton County, IL, on the one hand, and, on the other, points in Lancaster County, NE; (3) *petroleum, natural gas and their products*, between Tulsa, OK, on the one hand, and, on the other, points in Lancaster County, NE; and (4) *metal products*, between points in Pueblo County, CO and Lancaster County, NE.

Note.—Bowhay has filed an application for temporary authority concurrently with the purchase application.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

[Docket No. AB–1 (Sub-No. 134)]

Rail Carriers; Chicago & North Western Transportation Co.—Abandonment—in Webster County, IA; Notice of Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that the Commission, Review Board Number 3, has issued a certificate authorizing the Chicago and North Western Transportation Company to abandon its rail line between milepost 1.7 near Gypsum to railroad milepost 6.9 near Evanston, a distance of 5.2 miles in Webster County, IA, subject to certain conditions. Since no investigation was instituted, the requirement of Section 1121.38(b) of the Regulations that publication of notice of abandonment decisions in the **Federal Register** be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing Exhibit I (Section 1121.45 of the Regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this notice. The offer, as filed, shall contain information required pursuant to § 1121.38(b) (2) and (3) of the Regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective 30 days from the service date of the certificate.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81–36045 Filed 12–16–81; 8:45 am]

BILLING CODE 7035–01–M

[Docket No. AB–43 (Sub-No. 76)]

Rail Carriers; Illinois Central Gulf Railroad Co.—Abandonment—at Middleton, near Bemis, in Chester, Madison and Hardeman Counties, TN; Notice of Findings

The Commission has found that the public convenience and necessity permit the Illinois Central Gulf Railroad Company to abandon its 35.8-mile rail line between Middleton, TN (milepost 368.6) and Bemis, TN (milepost 404.4) (excluding Middleton and Bemis) in Chester, Madison and Hardemann Counties, TN. A certificate will be issued authorizing this abandonment unless within 15 days after this publication the Commission also finds that: (1) A financially responsible person has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and (2) It is likely that the assistance would fully compensate the railroad.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to the Deputy Director, Section of Finance, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice. Any offer previously made must be remade within this 10-day period.

Information and procedures regarding financial assistance for continued rail service are contained in 49 U.S.C. 10905 and 49 CFR 1121.38.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

[F.D. No. 30,000 and Related Dockets]

Rail Carriers; Union Pacific Corp. and Union Pacific Railroad Co.—Control—Missouri Pacific Corp. and Missouri Pacific Railroad Co.

AGENCY: Office of Policy and Analysis, Energy and Environment Branch, ICC.

ACTION: Notice of availability of addendum to environmental assessment previously prepared for above-entitled proceeding.

SUMMARY: On or about September 2, 1981 the ICC's Energy and Environment Branch served on all parties of record to the above-entitled proceeding a copy of an environmental assessment which analyzed the environmental impacts of the applicants' proposals for consolidation of the Union Pacific Railroad Company, the Missouri Pacific Railroad Company, and the Western Pacific Railroad Company. Comments on the environmental assessment were invited and a number of these were in fact received.

The Energy and Environment Branch has now prepared an addendum to the environmental assessment. This document responds to issues raised in comments. A copy of the addendum will be served on all parties who filed comments on the environmental assessment. Other interested members of the public may obtain a copy of the addendum upon request made to John O'Connell, Energy and Environment Branch, Room 5380, Interstate Commerce Commission, Washington, DC 20423, Tel. (202) 275–7872.

Secretary.

[FR Doc. 81–36046 Filed 12–16–81; 8:45 am]

BILLING CODE 7035–01–M

[Ex Parte No. MC-43]

Motor Carriers; Lease and Interchange of Vehicles by Motor Carriers

Decided: December 3, 1981.

Kenosha Auto Transport Corporation (MC-30837) and Dallas & Mavis Forwarding Co., Inc. (MC-29886) have filed a petition for waiver of Subpart B (§§ 1057.11 and 1057.12) of the Lease and Interchange of Vehicles Regulations (49 CFR Part 1057), with respect to equipment augmented between them.

Findings: 1. Petitioners are commonly controlled and administer a common safety program.

2. Petitioners have acceptable fitness records.

3. Greater economy and efficiency would result if the waiver were granted in part.

It is ordered: 1. The petition of Kenosha Auto Transport Corporation and Dallas & Mavis Forwarding Co., Inc., for waiver of Subpart B (Sections 1057.11 and 1057.12), is granted, except for paragraph (b) of § 1057.11, with respect to equipment augmented between them, provided petitioners or their authorized representatives agree in writing that the lessee shall have control and responsibility for the operation of the equipment from the time possession is taken by the lessee and the receipt required under paragraph (b) of § 1057.11 is given to the lessor until possession of the equipment is returned to the lessor and the receipt required under paragraph (b) of § 1057.11 is received by the lessee or possession of the equipment is returned to the lessor or given to another authorized carrier in an interchange of equipment. A copy of the agreement must be carried in the equipment while it is in the possession of the lessee.

2. The waiver granted in this decision does not affect the application of the leasing regulations to a lease between an owner-operator and the lessor carrier.

By the Motor Carrier Leasing Board, Board Members J. Warren McFarland, Bernard Gaillard, and John H. O'Brien.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Correction

In FR Doc. 81-33022, appearing at page 56513 in the issue of Tuesday, November 17, 1981, the motor carrier number reading, "MC 133134 (Sub-5)" in the seventeenth line of column two of page 56516 should have read, "MC 153134 (Sub 5)" instead.

BILLING CODE 1505-01-M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-95]

Certain Surface Grinding Machines and Literature for the Promotion Thereof; Request for Comments Regarding Proposed Termination

AGENCY: U.S. International Trade Commission.

ACTION: A request for public comment on the proposed termination of two respondents based on settlement agreements and the proposed termination of two respondents based on consent order agreements.

SUMMARY: The settlement agreements in question would result in the termination of the investigation as to respondents Jones and Henry Tool Co. and Cactus State Machinery Company. The consent order agreements would result in the termination of the investigation as to respondents Equipment Importers, Inc. dba Jet Equipment and Tool and Kabaco Tools, Inc. dbe KBC Machinery. This notice requests public comments on the proposed terminations of the aforementioned respondents on the basis of the agreements in question.

DATE: Comments will be considered if received on or before January 6, 1982. Comments should conform with § 201.8 of the Commission's Rules of Practice and Procedure (19 CFR 201.8), and should be addressed to Kenneth R. Mason, Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436.

SUPPLEMENTARY INFORMATION: Complainant Brown and Sharpe Manufacturing Company and respondents Jones and Henry Tool Co. and Cactus State Machinery Company moved in separate joint motions for termination of this investigation as to those respondents on the basis of settlement agreements. The Commission investigative attorney supports the motions. The presiding officer recommended that the separate joint motions be granted. Complainant, respondents Equipment Importers, Inc. dba Jet Equipment and Tool and Kabaco Tools, Inc. dba KBC Machinery, and the Commission investigative attorney have also moved in separate joint motions to terminate Equipment Importers and Kabaco Tools from this investigation on the basis of consent order agreements.

Notice of the institution of the investigation was published in the **Federal Register** of January 22, 1981 (46 FR 7107).

Settlement Agreements

The settlement agreements provide in pertinent part as follows:

Respondent shall refrain from importing, buying, selling, leasing or transferring reproductions, copies, imitations or simulations of surface grinding machines from Taiwan or other countries into the United States identified under the designations "510", "612", "824", "1024", "1030", "1244" and "1236" or which are of the type heretofore offered for sale by Lian Feng Machine Co.

Respondent shall refrain from copying, reprinting, using, selling, or distributing any unauthorized copies of printed material prepared or owned by B & S [Brown & Sharpe] and bearing a B & S copyright notice.

Respondent shall refrain from printing, distributing, or authorizing the printing of promotional material referring to B & S or its trademarks, except in connection with the sale or servicing of B & S equipment.

Respondent shall refrain from using any B & S printed material, whether or not protected by copyright, in connection with the maintenance, repair, or sale of surface grinding machines or components thereof, other than B & S surface grinding machines or components thereof.

Respondent shall refrain from importing, buying, selling, or otherwise transferring surface grinding machines made in foreign countries which simulate the trade dress of B & S high precision surface grinding machines.

Respondent agrees to give to B & S two copies of all catalogs, manuals, advertisements and promotional pieces promoting or making reference to surface grinding machines made by Lian Feng Machine Co. that have been used, sold, or distributed by Respondent.

Respondent shall deliver to B & S prior to May 1, 1981 in affidavit form a statement relating to Respondent's purchase and sale of surface grinding machines made or sold by Lian Feng Machine Co., including (a) the total number purchased; (b) the dates of purchase; (c) the price paid; (d) the total number in inventory; (e) the total number sold; (f) the price of each sale; (g) the date of each sale.

Respondent shall deliver to B & S prior to May 1, 1981, all copies of catalogs, manuals, and advertisements in its possession that were prepared by or for Lian Feng Machine Co. that

contain reference to surface grinding machines that are reproductions of B & S high precision surface grinding machines that have been sold under the designations "510", "612", "824", "1024", "1030", "1244" and/or "1236".

B & S and the Respondent agree to file a joint motion before the Commission to terminate the investigation with respect to Respondent without prejudice.

B & S agrees to refrain from instituting any civil action for any matters which have been raised in the complaint filed with the Commission.

B & S releases the Respondent from any and all claims arising from issues raised in the B & S complaint filed in the investigation, including but not limited to copyright and trademark infringement and unfair competition.

Consent Order Agreements

The consent order agreements provide in pertinent part as follows:

Respondent will refrain from importing surface grinding machines directly or indirectly from Taiwan or other countries of the type and style which are reproductions, copies, imitations or simulations in whole or significant part of B & S surface grinding machines including those that have been sold under the designations "510", "612", "818", "824", "1024", "1030", "1224", and "1236" or are of the type or style offered heretofore by Lian Feng Machine Co. of Taiwan, China, under the designations, "612", and "618", "718", and "818" and/or those identified by the complainant. Respondent will refrain from selling, leasing or otherwise transferring all surface grinding machines identified in the proceeding sentence that were imported into the United States after July 15, 1981 or after the effective date of this order, whichever occurs first.

Respondent shall (a) refrain from copying, reprinting, using, selling or distributing unauthorized copies of manuals, catalogs, brochures or other printed material prepared or owned by B & S and bearing a B & S copyright notice (b) refrain from using or distributing for use any B & S manual catalog, or other printed material, or copies thereof in whole or in part, whether or not protected by copyright, in connection with the maintenance, repair or sale of surface grinding machines and components thereof, other than B & S surface grinding machines and components thereof; (c) refrain from using photographs of B & S surface grinding machines in any manner to market surface grinding machines except those of B & S; (d) refrain from using B & S Micromaster, B & S or other rigistered trademarks of B & S or colorable imitations thereof except in connection with the sale of B & S products; (e) refrain from any act which suggests or creates an impression that Respondent is selling surface grinding machines made by B & S, except to the extent that such is true.

Respondent shall file a report under oath with the Commission within thirty (30) days of the anniversary date of the effective date of this order and annually for two (2) years thereafter.

Respondent shall notify the Commission at least 20 days prior to any proposed material change in the Respondent's organization during the two (2) year period commencing on the anniversary date of the effective date of this order.

In determining whether there has been compliance with the requirements and prohibitions of this Consent Order the Commission may consider evidence of any activity engaged in by the Respondent which is brought to its attention or of which it becomes aware.

Respondent shall retain all records relating to the importation, sale or distribution of surface grinding machines made or received in the conduct of its business for two (2) years from the close of the fiscal year to which they pertain.

For the purpose of determining or securing compliance with this Consent Order the Commission shall, upon written notice to the Respondent, be permitted to inspect and copy records and documents in the possession of or under the control of the Respondent relating to matters contained in this Consent Order and to interview officers, directors, agents, partners, or employees of the Respondent regarding matters contained in this Consent Order.

Written Comments Requested

In order to discharge its statutory obligation to consider the public interest, the Commission seeks written comments from interested persons regarding the effects of terminating this investigation as to respondents Jones and Henry Tool Co., Cactus State Machinery Company, Kabaco Tools, Inc, dba KBC Machinery, and Equipment Importers, Inc. dba Jet Equipment and Tool on the Basis of the agreements in question on (1) the public health and welfare, (2) competitive conditions in the U.S. economy, (3) the production of like or directly competitive articles in the United States, and (4) U.S. consumers. All written comments must be filed with the Secretary to the Commission no later than January 6, 1982. In addition, pursuant to 19 CFR 210.14(a)(2), the Commission has requested comments from the Department of Health and Human Services, the Department of Justice, the Federal Trade Commission, and the U.S. Customs Service.

Additional Information

The original and 19 copies of all written submissions must be filed with the Secretary to the Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202–523–0161. Any person desiring to submit a document (or portion thereof) to the Commission in confidence must request *in camera* treatment. Such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why the Commission should grant such treatment. The Commission will either accept the submission in confidence or return it. All nonconfidential written submissions will be available for public inspection at the Secretary's office.

FOR FURTHER INFORMATION CONTACT: Clarease E. Mitchell, Esq., Office of the General Counsel, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436; telephone 202–523–0148.

By order of the Commission.

December 14, 1981.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020–02–M

DEPARTMENT OF JUSTICE

[AAG/A Order No. 78–81]

Privacy Act of 1974; Notice of Modified System of Records

Pursuant to subsection (e)(4) of the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Justice, Federal Bureau of Investigation, is republishing the following system of records, which most recently was published in the **Federal Register** on July 8, 1981.

FBI Alcoholism Program (JUSTICE/FBI–014)

This system has been reprinted below to reflect that its examination from the access provisions of the Privacy Act (5 U.S.C. 552a(d)) has been removed. In addition, a separate order on rulemaking is being published in today's **Federal Register** to accomplish this removal from Title 28 of the Code of Federal Regulations.

Pursuant to the authority vested in the Attorney General by 5 U.S.C. 552a and delegated to me by Attorney General Order No. 793–78, the system notice is hereby revised to show that the system

is not exempt from any Privacy Act provisions.

Dated: December 1, 1981.

Kevin D. Rooney,

Assistant Attorney General for Administration.

JUSTICE/FBO–014

SYSTEM NAME:

FBI Alcoholism Program

SYSTEM LOCATION:

FBI Headquarters, Administrative Services Division, 10th and Pennsylvania Avenue, N.W., Washington, D.C. 20535; and FBI Field Divisions.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

This system contains information on current and former FBI employees who have been counseled or otherwise treated regarding alcohol abuse or referred to the Alcoholism Program Coordinator or Counselor.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains correspondence and records regarding employees and/or their families who have been referred to the Alcoholism Program Coordinator or Counselor, the results of any counseling which may have occurred, recommended treatment and results of treatment, in addition to interview appraisals and other notes or records of discussions held with employees relative to this program.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The maintenance of this system is authorized by Pub. L. 91–616 and Pub. L. 92–255, as amended by Pub. L. 93–282, Section 122, and the implementing regulations, 42 CFR Part 2.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USES AND THE PURPOSE OF SUCH USES:

All disclosures of information pertaining to an individual are made in compliance with Public Law No. 91–616, Section 333, and the Confidentiality of Alcoholism and Drug Abuse Patient Records Regulations, 42 CFR Part 2.2, as amended, for the sole purpose of administering the program.

These records are used to document the nature of an individual's alcohol abuse problem and progress made, and to record an individual's participation in and the results of community or private sector treatment or rehabilitation programs.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

Records are retrieved by employee's name.

SAFEGUARDS:

Files are maintained in locked file cabinets, or safes under the immediate control of the Alcoholism Program Coordinator or other authorized individuals. Access is strictly limited to the Coordinator and other authorized personnel.

RETENTION AND DISPOSAL:

Pursuant to the preliminary injunction with modifications issued by Judge Harold H. Greene, FBI destruction programs have been suspended. *American Friends Service Committee* v. *Webster* (D.D.C.), Civil Action No. 79–1655.

SYSTEM MANAGER(S) AND ADDRESS:

Director, FBI J. Edgar Hoover Building, 10th and Pennsylvania Avenue, N.W., Washington, D.C. 20635.

NOTIFICATION PROCEDURES:

Inquiry concerning this system should be in writing and made to the system manager listed above.

RECORD ACCESS PROCEDURES:

Requests made by employees should be made in writing to the Director, FBI, Washington, D.C. 20535. Requests must contain employee's full name, date and place of birth, and current office of assignment and/or home address where records are to be sent. If the individual making the request is a former employee, he/she must submit a duly notarized signature in order to establish identity. In addition, the requester must specify the location of the system of records sought, i.e., those maintained at FBI headquarters or those maintained in a particular field division.

CONTESTING RECORD PROCEDURES:

Requests for correction/amendment of records in this system should be made in writing to the Director, FBI, Washington, D.C. 20535, specifying the information to be amended, and the reasons and justifications for requesting such amendment.

RECORD SOURCE CATEGORIES:

See categories of individuals.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE 4410–02–M

Proposed Consent Decree in Action to Enjoin Discharge of Air Pollutants

In accordance with Department policy, 28 CFR 50.7, 38 FR 19029, notice is hereby given that on December 1, 1981, a proposed consent decree in *United States of America* v. *United Cement Co., a division of Texas Industries, Inc.*, Civil # EC–80–279–LS–P, was lodged with the United States District Court for the Northern District of Mississippi. The proposed decree would require that the defendant operate a clinker cooler at its Artesia, Mississippi, Portland cement plant in compliance with Clean Air Act emission limit regulations.

The Department will receive for a period of thirty (30) days from the date of this notice (January 18, 1982) written comments relating to the proposed decree. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, U.S. Department of Justice, Tenth Street and Pennsylvania Avenue, N.W., Washington, D.C. 20530, and should refer to *United States of America* v. *United Cement Co.*, D.J. Ref. No. 90–5–2–1–353.

A copy of the proposed consent decree may be examined at: (1) the Office of United States Attorney, Northern District of Mississippi (Attn.: Patricia Rodgers), Room 255, Federal Building, 91 West Jackson Avenue, Oxford, Mississippi 38655; (2) the Office of the Regional Counsel, Region IV, U.S. Environmental Protection Agency, 345 Courtland Street, N.E., Atlanta, Georgia 30365; and (3) the Environmental Enforcement Section, Land and Natural Resources Division, Department of Justice, Room 1254, Tenth Street and Pennsylvania Avenue, N.W., Washington, D.C. 20530. A copy of the proposed consent decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division, U.S. Department of Justice, Room 1254, Tenth Street and Pennsylvania Ave., N.W., Washington, D.C. 20530. In order to cover the reproduction costs, all requests for copies must be accompanied by a check or money order in the amount of $1.20 (10 cents per

page) payable to the Treasurer of the United States.

Carol E. Dinkins,

Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410-01-M

NATIONAL TRANSPORTATION SAFETY BOARD

Reports, Recommendations, Responses; Availability

• **Special Investigation Report.** *Air Traffic Control System (NTSB-SIR-81-7).* Related recommendations A-154 through -156 to Federal Aviation Administration, Dec. 10, re use of NASA's Aviation Safety Reporting System by controllers, use of student evaluations prepared by training personnel as controller replacement tool, and monitoring of standardization of ATC practices/proficiency of controllers using staff specialist and first-line supervisors.

• **Special Study.** *Cabin Safety in Large Transport Aircraft (NTSB-AAS-81-2).* Related recommendations A-139 through -143 to Federal Aviation Administration, Oct. 6: consolidate crashworthiness requirements for transport category aircraft; revise 14 CFR 25.561 to eliminate "minor crash landing" and to include descriptive crash model; establish interim standards for design of seat and restraint systems and cabin furnishings; establish interim standards for static and dynamic testing of seat/restraint systems; establish procedures for periodic review of crashworthiness state of the art.

• **Highway Accident Report.** *ARA Services, Inc., Tour Bus, Denali National Park and Preserve, Alaska, June 15, 1981 (NTSB-HAR-81-7).* Related recommendations H-81-82 through -87 to National Park Service: Clarify minimum and maximum road width standards; require tour busdriver training, require convex mirrors on both sides of buses; require installation and use of occupant restraints on tour buses; determine if other national parks have similar road/bus conditions and correct where necessary; establish roadway/bridge improvement program.

• **Safety Effectiveness Evaluation.** *Federal Highway Administration (FHWA) Non-Interstate Resurfacing, Restoration, and Rehabilitation Program (NTSB-SEE-81-4).*—Related recommendations H-81-88 through -92 to the Secretary, DOT, to direct FHWA to (1) review and document current State practices in RRR projects, (2) develop analysis to describe design criteria for RRR projects, (3) prepare analysis showing best combination of construction/reconstruction and RRR projects, (4) develop/publish a plan to monitor/evaluate impact of RRR projects on Federal-aid Highway System, and (5) administer RRR program under existing new construction standards.

• **Recommendation Responses from.** *Federal Aviation Administration: Dec. 1, A-73-2 and -5:* will amend 25.787(b) to require service wear/deterioration consideration in design; has amended 25.783, all lavatory doors must be designed so that no one can be trapped inside. *Dec. 1, A-74-98:* finds no need for auto-discharge fire extinguishers in transport aircraft lavatory waste containers. *Dec. 1, A-81-74-102 and -103:* has amended 25.772 to require means of cabin entry other than through cockpit door; has withdrawn change to 121.313, not cost-beneficial. *Dec. 1, A-81-97 and -98:* Boeing 727 Operations Manual being revised. *Dec. 1, A-81-119 and 120:* Issued AD 39-3236, inspections of elevator torque tube fasteners; incidence of elevator buffet is not a Convair fleet-wide problem. *Dec. 1, A-81-124 through -127:* plans no action on DC-10 galley personnel lift circuitry pending review; will not issue AD to DC-10 operators re Douglas SB 25-266; will review galley personnel/food cart lift door interlock system design; has issued GENOT to regions re galley door and regions will review training programs.

Note.—Single copies of reports, recommendations, and responses are free on written request, identified by recommendation or report number, to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594. (Multiple copies of reports are obtainable from National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22161.)

B. Sharon Flemming,

Director, Executive Secretariat.

BILLING CODE 4910-58-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-364]

Alabama Power Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 11 to Facility Operating License No. NPF-8 issued to Alabama Power Company (the licensee), which revised Technical specifications for operation of the Joseph M. Farley Nuclear Plant, Unit No. 2 (the facility) located in Houston County, Alabama. The amendment was effective on October 12, 1981.

The amendment modifies the Technical Specifications to allow one-time temporary relief from diesel generator operability and surveillance frequency requirements for three days during repairs to diesel generator 1-2A. The amendment was authorized on an expedited basis to maintain the plant at a steady-state condition and avoid a shutdown transient shown by our evaluation to be unnecessary but require by Technical Specifications unless amended.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since this amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the request for amendment dated October 12, 1981, (2) the Commission's letter to the licensee dated October 13, 1981, (3) Amendment No. 11 to License No. NPF-8 and (4) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the George S. Houston Memorial Library, 212 W. Burdeshaw Street, Dothan, Alabama 36303. A copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 3rd day of December 1981.

For the Nuclear Regulatory Commission.
Steven A. Varga,
Chief Operating Reactors Branch No. 1, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-247]

Consolidated Edison Company of New York, Inc.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 74 to Facility Operating License No. DPR-26, issued to the Consolidated Edison Company of New York, Inc. (the licensee), which revised Technical Specifications for operation of the Indian Point Nuclear Generating Unit No. 2 (the facility) located in Buchanan, Westchester County, New York. The amendment is effective as of the date of issuance.

The amendment modifies the Technical Specifications to account for the effects that degraded grid voltage may have on plant operations.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated April 27, 1981, (2) Amendment No. 74 to License No. DPR-26, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the White Plains Public Library, 100 Martine Avenue, White Plains, New York. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 10th day of December 1981.

BILLING CODE 7590-01-M

[Docket No. 50-245]

Northeast Nuclear Energy Co.; Issuance of Amendment to Provisional Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 80 to Provisional Operating License No. DPR-21, issued to The Connecticut Light and Power Company, The Hartford Electric Light Company, Western Massachusetts Electric Company, and Northeast Nuclear Energy Company (the licensees), which revised the Technical Specifications for operation of the Millstone Nuclear Power Station, Unit 1 (the facility), located in the Town of Waterford, Connecticut. The amendment is effective within 30 days of its date of issuance.

The amendment establishes a new scale for a vessel level setpoint that is consistent with the installation of a common reference level required by TMI Action Item II.K.3.27 in NUREG-0737.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated October 9, 1981, (2) Amendment No. 80 to License No. DPR-21, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555, and at the Waterford Public Library, Rope Ferry Road, Route 156, Waterford, Connecticut. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 11th day of December 1981.

BILLING CODE 7590-01-M

[Docket Nos. 50-282 and 50-306]

Northern States Power Co.; Notice of Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 52 and 46 to Facility Operating License Nos. DPR-42 and DPR-60 issued to Northern States Power Company (the licensee), which revised Technical Specifications for operation of Prairie Island Nuclear Generating Plant, Unit Nos. 1 and 2 (the facilities) located in Goodhue County, Minnesota. The amendments are effective as of the date of issuance.

The amendments revise the common Technical Specifications for the Prairie Island Nuclear Generating Plant Unit Nos. 1 and 2 to limit conditions for operation and establish surveillance requirements of the reactor coolant system and secondary coolant activities.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated November 12, 1981, (2) Amendment Nos. 52 and 46 to License Nos. DPR-42 and DPR-60, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Environmental Conservation Library, 300 Nicollet Mall, Minneapolis, Minnesota 55401. A copy of items (2)

and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 4th day of December, 1981.

BILLING CODE 7590-01-M

Draft Regulatory Guide; Notice of Issuance and Availability

The Nuclear Regulatory Commission has issued for public comment a draft of a new guide planned for its Regulatory Guide Series together with a draft of the associated value/impact statement. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

The draft guide, temporarily identified by its task number, MS 901-4 (which should be mentioned in all correspondence concerning this draft guide), is entitled "Identification of Values for Inclusion in Inservice Testing Programs" and is intended for Division 1, "Power Reactors." It is being developed to provide guidance on the NRC staff's practice in identifying valves for inclusion in the licensee's inservice testing program and the information needed by the staff for its review of the program.

This draft guide and the associated value/impact statement are being issued to involve the public in the early stages of the development of a regulatory position in this area. They have not received complete staff review, have not been reviewed by the NRC Regulatory Requirements Review Committee, and do not represent an official NRC staff position.

Public comments are being solicited on both drafts, the guide (including any implementation schedule) and the draft value/impact statement. Comments on the draft value/impact statement should be accompanied by supporting data. Comments on both drafts should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, by February 23, 1982.

Although a time limit is given for comments on these drafts, comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of draft guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future draft guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Technical Information and Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated in Rockville, Maryland this 10th day of December 1981.

For the Nuclear Regulatory Commission.

G. A. Arlotto,

Director, Division of Engineering Technology, Office of Nuclear Regulatory Research.

[FR Doc. 81-36080 Filed 12-16-81; 8:45 am]

BILLING CODE 7590-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-18334; File No. SR-MSE-81-11]

Self-Regulatory Organizations; Proposed Rule Change by Midwest Stock Exchange, Inc.

In the matter of market maker quotations in cabinet issues; comments requested on or before January 7, 1982.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s (b)(1), notice is hereby given that on November 23, 1981, the Midwest Stock Exchange, Incorporated filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed fule change establishes a program which provides for the voluntary dissemination of continuous two-sided quotations by market makers in those issues lacking a registered specialist (Cabinet Issues). Any floor member who is willing to abide by the dictates of the program may request to be assigned as the market maker for a subject issue. Once a market maker is assigned to such an issue, it will no longer be classified as a Cabinet Issue. Under the program, a market maker who agrees to provide the quotes for a Cabinet System issue will be considered the "Post" for the issue, and will handle limit orders under the same guidelines which apply to specialists except for application of the Best requirement which will be limited to 100 shares.

II. Self-Regulatory Organization's Statement of the Purpose of and Statutory Basis for the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to increase the number of quoted MSE issues by establishing a program in which floor members can volunteer to act as market makers providing continuous two-sided quotations in issues currently relegated to trading in the exchange's Cabinet System.

The basis under the Act for the proposed rule change is Section 6(b)(5) since it is believed that the assignment of Cabinet Issues to Market Makers who will disseminate a continuous two-sided quote for such issues will work towards a more competitive national market system in the public interest.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Midwest Stock Exchange, Incorporated does not believe that any

burdens will be placed on competition as a result of the proposed rule change.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Comments have neither been solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) and subparagraph (e) of Securities Exchange Act Rule 19b–4. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, N.W., Washington, D.C.

Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before January 7, 1982.

For the Commission By the Division of Market Regulation pursuant to delegated authority.

Dated: December 14, 1981.

George A. Fitzsimmons,

Secretary.

[FR Doc. 81–36107 Filed 12–16–81; 8:45 am]

BILLING CODE 8010–01–M

[Release No. 18333; File No. SR–NYSE–81–26]

Self-Regulatory Organizations; Proposed Rule Change by New York Stock Exchange, Inc.

In the matter of rate increases affecting the floor brokerage component of the transaction charge; comments requested on or before January 7, 1982.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on December 9, 1981 the New York Stock Exchange, Inc. filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change.

The Exchange is instituting rate increases affecting the Floor Brokerage component of the Transaction Charge.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C), of the most significant aspects of such statements.

(A) The purpose of this change is to offset in part the increased costs of supplying services provided by the Exchange. These costs include manpower, systems, and utilities. Projected usage of these services before the price increase is insufficient to cover these related costs. The Basis under the Act for the proposed rule change is Section 6(b)(4) permitting the rules of an Exchange to provide for equitable allocation of reasonable dues, fees, and other charges among its members, issuers and other persons using its services.

(B) *Self-Regulatory Organization's Statement on Burden on Competition.* The fee changes are not expected to create a burden on competition.

(C) *Self-Regulatory Organization's Statement of Comments on the Proposed Rule Change Received From Members, Participants, or Others.* The Exchange has not received any comments on this proposed change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19 (b)(3) of the Securities Exchange Act of 1934 and subparagraph (c) of Securities Exchange Act Rule 19 b–4. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such action if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purpose of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, N.W., Washington, D.C. Copies os such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before January 7, 1982.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Dated: December 14, 1981.

George A. Fitzsimmons,

Secretary.

[FR Doc. 81–36108 Filed 12–16–81; 8:45 am]

BILLING CODE 8010–01–M

Federal Aviation Administration

Legal Opinion as to the Recordability of Artisans' Liens and Identification of Those States From Which Such Liens Will Be Accepted

The Federal Aviation Administration Aircraft Registration Branch (Registry) has received many inquiries from the public as to the acceptance and the procedural requirements for artisans' liens submitted for recording against specific aircraft on which work has been provided, fuel and equipment added, or storage provided. A recent study indicates that the procedural requirements vary among the States, and since the Federal Aviation administration is required by Section 506 of the Federal Aviation Act of 1958 (49 U.S.C. 1406) to recognize the validity of instruments submitted for recordation in accordance with State law, those procedural aspects critical to the submission for recordation must be given effect.

Because of the substantial interest to the aviation community and the modification to the Registry procedures, the Federal Aviation Administration has concluded that the information contained in a legal opinion given to one of those inquiring should receive broad dissemination.

Accordingly, the Federal Aviation Administration publishes its response to Attorney James N. Davis, of Daytona Beach, Florida, concerning the recordability of an aircraft artisan's lien submitted for recordation to the Registry.

FOR FURTHER INFORMATION CONTACT: Mr. R. Bruce Carter, Office of the Aeronautical Center Counsel, Mike Monroney Aeronautical Center, P O. Box 25082, Oklahoma City, Oklahoma 73125, Telephone (405) 686–2296.

Issued in Oklahoma City, Oklahoma on December 8, 1981.

Joseph T. Brennan,

Aeronautical Center Counsel.

November 2, 1981.

Mr. James N. Davis,

Attorney at Law, 428 North Peninsula Drive, Daytona Beach, Florida

Re: N5595L; Claim of Lien

Dear Mr. Davis: We appreciate very much the dialogue we have had with you on mechanic's liens (or more properly, artisan's liens), and welcome the information you have provided on such laws and cases in Florida. We recognize that historically attorneys in Florida, and elsewhere, have asserted, and recorded, both locally and with the FAA Registry, liens in favor of artisans, hangarkeepers, and fuelers for work, services, and supplies on aircraft, and we have no quarrel with the existence of such liens, and the manner of foreclosing them, each aspect determined by applicable State law.

However, we are of the opinion that the right to assert such claims of lien by recording them with the Registry must be governed by State legislation in order to assure uniformity and nondiscriminatory standards. We also recognize that this involves a change in the Registry procedures. The Registry has previously accepted such liens, but has experienced some difficulty with liens which have not been released, claimants who can no longer be found, and some liens which are alleged to be spurious, but have nevertheless found their way into the recorded documents against certain aircraft. At the present time, the Registry is named a party in two suits to clear the title to aircraft encumbered by mechanics' liens, asking for either a purge of the records, or clear title in the record owner of the aircraft. Of course, we will abide by the judgment of the court in each case.

Our survey of the statutes of the laws of States, and three other jurisdictions for which the Registry provides aircraft recording and registration services under the Federal Aviation Act, shows 16 States or territories which have recording, or notice provisions for personal property liens:

Alaska	Nebraska
Arkansas	Oklahoma
Georgia	Oregon
Illinois	South Carolina
Indiana	South Dakota
Kansas	Virgin Islands
Kentucky	Washington
Maine	Wyoming

The common elements of the notice statute is the presence or absence of the following requirements:

—The time within which the claim must be recorded;

—Whether the claim must be signed by the claimant, or may be signed by his agent or attorney;

—Whether the claim must be verified;

—Where the claim is to be filed (Of course, for aircraft, there is Federal preemption of place of filing: The FAA Aircraft Registry at Oklahoma City).

These elements are not available by statute in Florida. We recognize that by precedent and case law these liens have been recorded in various offices in Florida, and accorded judicial recognition, but not because required to be noticed by any Florida statute.

Therefore, in the interest of consistency, and because the recordability of such documents must be governed by State law (Federal Aviation Act of 1958, Section 506 (49 U.S.C. 1406)), we have advised the FAA Registry effective immediately to accept for recordation only mechanic's (artisan's) liens from those States listed above. We recognize that the State statutes may change in this regard, and we have already been contacted for the purpose of suggesting appropriate State legislation, which we do by reference to those State statutes that have the notice provisions. Where States do change their notice statutes to provide for recordation of personal property liens, specifically aircraft, we will modify our list to accommodate those States. Specifically, we have had inquiries to date from Florida, California, Texas, and Nevada.

We will continue to record judgments against aircraft owners for liens on their aircraft, where the aircraft is specifically identified in the judgment by make, model, serial number, and registration (N#). Additionally, where the State statute provides for lien foreclosure by selling the aircraft at public or private auction (the claimant being in possession), we will recognize the sale in support of an application for registration when the applicant sends us a copy of the applicable law, his affidavit of compliance with that law, and copies of the public notice and notice sent to the registered owner.

We appreciate very much the material you have sent, and the opportunity to explain our advice to the Registry.

Sincerely,

Joseph T. Brennan,

Aeronautical Center Counsel.

BILLING CODE 4910-13-M

[Summary Notice No. PE-81-32]

Petitions for Exemption; Summary of Petitions Received and Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR Part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR Chapter I) and of dispositions of certain petitions previously received. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATE: Comments on petitions received must identify the petition docket number

involved and must be received on or before: January 4, 1982.

ADDRESS: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-204), Petition Docket No. ———, 800 Independence Avenue, SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT: The petition, any comments received and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC-204), Room 916, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-3644.

This notice is published pursuant to paragraphs (c), and (e), and (g) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR Part 11).

Issued in Washington, D.C., on December 11, 1981.

John H. Cassady,

Deputy Assistant Chief Counsel, Regulations and Enforcement Division.

PETITIONS FOR EXEMPTION

Docket No.	Petitioner	Regulations affected	Description of relief sought
22454	Empire Airlines, Inc	14 CFR 135.261(b)	To permit petitioner to reduce the crew rest requirement from 10 hours of consecutive rest to 8 hours of consecutive rest during the 24 hours preceding the planned completion of the assignment.
18864	Continental Helicopters, Inc	14 CFR 135.261(b)	Extension of Exemption No. 2701 which permits petitioner to assign a flight crewmember, and to permit a flight crewmember to accept an assignment, without compliance with the 10-consecutive hours rest period required during the 24-hour period preceding the planned completion of the assignment.
22452	Provincetown-Boston Airline, Inc	14 CFR 121.311	To permit petitioner to operate its DC-3 and Martin 404 aircraft beyond the March 6, 1982, compliance date without installation of seat belt/shoulder harness at each flight deck station.
20243	Summit Airlines, Inc	14 CFR 121.623(a)	Extension of Exemption No. 3149 which permits petitioner to operate its CV-580 aircraft without listing at least one alternate airport for each destination airport in the flight release.
16787	Petroleum Helicopters, Inc	14 CFR 133.1(b) and 133.45(a)(3)	Extension of Exemption No. 2534 which permits the use of petitioner's Bell 212 and Puma SA-330 helicopters to lower and hoist harbor pilots, on an external hoist, to and from ships at sea.
22358	Zantop International Airlines, Inc	14 CFR 121.311	To permit petitioner to operate its DC-6, CV-340/440, and L-188 aircraft after the March 6, 1982, compliance date without installation of the required combined safety belt and shoulder harness.
21444	The Flying Tiger Line, Inc	14 CFR 121.391(a)	Reconsideration of a Denial of Exemption to allow petitioner to transport up to nine passengers without the presence of a flight attendant on the upper deck of B-747-245F and 249F series cargo-only aircraft when the aircraft are in a 12 to 20-seat configuration.
22458	Western Airlines, Inc	14 CFR 121.411(a)(6)	To permit petitioner to use check airmen in its B-727 simulator training program who do not hold Class III medical certificates.
22456	Arabian American Oil Company	14 CFR 91.200	To permit petitioner to operate its F-27 aircraft after the March 6, 1982, compliance date without installation of the combined safety belt and should harness at each required flight attendant seat in the passenger compartment and at each flight deck station.
22348	Steven S. Fern	14 CFR 61.65(e)(1)	To permit petitioner to apply for an instrument-helicopter rating even though he does not have the required 50 hours of cross-country flight experience in helicopters.
21776	Louis McCollum	14 CFR 61.58(c)(1) and 91.4	Reconsideration of a Denial of Exemption to permit petitioner to serve as pilot in command of certain large aircraft without completing the proficiency or flight checks required in each particular type of aircraft.
22115	Piedmont Aviation, Inc	14 CFR 121.391(a)	Reconsideration of a Denial of Exemption to permit petitioner to block off 12 seats and to operate its B-737 aircraft with two flight attendants when a third flight attendant cannot be made available without undue delay or flight cancellation.
22328	The Flying Tiger Line, Inc	14 CFR 121.578	To permit petitioner to operate their B747-132 aircraft until August 20, 1982 without compliance with the provisions of the cabin ozone concentration regulations.
22468	Eastern Air Lines, Inc	14 CFR 121.311(f)	To permit petitioner to operate its DC-9 and B-727 aircraft after March 6, 1982, compliance date without installation of combined safety belt and shoulder harness on flight attendant seats in the passenger compartment.
22463	Cochise Airlines	14 CFR 121.311	To permit petitioner to operate its Convair 440 aircraft after March 6, 1982, compliance date without installation of combined safety belt and should harness at each flight deck station and on each flight attendant seat in the passenger compartment.
22467	USAir	14 CFR 121.311(f)	To permit petitioner to operate its DC-9-31 and BAC 1-11 aircraft after March 6, 1982, compliance date without installation of combined safety belt and should harness on flight attendant seats in the passenger compartment.

DISPOSITIONS OF PETITIONS FOR EXEMPTION

Docket No.	Petitioner	Regulations affected	Description of relief sought disposition
22053	Zantop Int'l Airlines, Inc	14 CFR 91.305 (b)(2)(1)	To allow petitioner to operate DC-8 aircraft in the U.S. until January 1985 without meeting the January 1, 1983 59 percent phased fleet noise compliance requirement. *DENIED 11/25/81.*
22351	World Airways, Inc	14 CFR 121.318(b)(2)	To permit petitioner to operate its DC-8 and DC-10 aircraft after November 30, 1981 without having a public address system at each floor-level exit in a passenger compartment which is readily accessible to a flight attendant seated in a seat adjacent to that exit. *PARTIAL GRANT 11/30/81.*
22433	Eastern Airlines, Inc	14 CFR 121/318(b)(2)	To permit petitioner to operate its B-727 aircraft after December 1, 1981 without having a public address system at each floor-level exit in a passenger compartment which is readily accessible to a flight attendant seated in a seat adjacent to that exit. *GRANTED 11/30/81.*

DISPOSITIONS OF PETITIONS FOR EXEMPTION—Continued

Docket No	Petitioner	Regulations affected	Description of relief sought disposition
22198	Pilgram Airlines	14 CFR 121.503(e)	To permit petitioner's flight crewmembers to fly more than 1,000 hours annually. *DENIED 12/1/81.*
19634	Douglas Aircraft Co.	14 CFR 121.310(d)(4)	Extension of Exemption 3055 which permits the operation of DC-8 aircraft with an emergency light system without a cockpit control device that has an "on," "off," "armed" position. *GRANTED 12/1/81.*
21977	Bradley G. Clark	14 CFR 65.91(c)(1)	To enable petitioner to become eligible for an inspection authorization without meeting the requirement to have held an A&P license for 3 years. *DENIED 12/1/81.*
22413	Braniff Airways	14 CFR 121.318(b)(2)	To permit petitioner to operate its B-747 aircraft after December 1, 1981 without having a public address system at each floor-level exit in a passenger compartment which is readily accessible to a flight attendant seated in a seat adjacent to that exit. *GRANTED 12/3/81.*
21717	Dade Helicopter Service, Inc.	14 CFR 145.47(a) 145.49(a)	To permit petitioner to qualify for a repair station certificate without meeting the equipment and material requirements of the FAR. *DENIED 11/16/81.*
22352	Air Florida, Inc	14 CFR 121.318(b)(2)	To permit petitioner to operate B-737 aircraft after December 1, 1981, without having a public address system at each floor-level exit in a passenger compartment which is readily accessible to a flight attendant seated in a seat adjacent to that exit. *GRANTED 12/1/81.*
21989	Sundance International Airlines	14 CFR 121.291(a)(1)	To permit petitioner to introduce its B-727-100 series aircraft configured with 129 passenger seats into passenger-carrying service without first conducting a full-seating capacity emergency evacuation demonstration. *CONSIDERED WITHDRAWN 12/2/81.*
21792	Aeronaves de Mexico, S.A.	Portions of 14 CFR Parts 21 & 91	To permit petitioner to operate two leased, U.S.-registered, DC-10-15 aircraft, N10038 and N1003N, and two DC-9-30 aircraft, N1003P and N1003U, using FAA-approved master minimum equipment lists (MMEL) and to maintain the aircraft under continuous airworthiness maintenance programs. *GRANTED 12/8/81.*
22059	Pacific Alaska Airlines	14 CFR 45.13(e)	To permit the installation of an aircraft identification plate on an aircraft other than that from which removed. *withdrawn 12/8/81.*

BILLING CODE 4910-13-M

Radio Technical Commission for Aeronautics (RTCA); Special Committee 136—Installation of Emergency Locator Transmitters (ELT) in Aircraft; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of Special Committee 136 on Installation of Emergency Locator Transmitters (ELT) in Aircraft to be held on January 14-15, 1982 in RTCA Conference Room 267, 1717 H Street, N.W., Washington, D.C. commencing at 9:30 a.m.

The Agenda for this meeting is as follows: (1) Chairman's Introductory Remarks; (2) Approval of Minutes of the Eleventh Meeting Held on September 24-25, 1981; (3) Review Comments on Final Report on Installation of Emergency Locator Transmitters Within Aircraft; (4) Review First Draft of Minimum Performance Standards for Emergency Locator Transmitters; (5) Discussion of Transition Plan for Implementing Committee Recommendations; and (6) Other Business.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the RTCA Secretariat, 1717 H Street, N.W., Washington, D.C. 20006; (202) 296-0484. Any member of the public may present a written statement to the committee at any time.

Issued in Washington, D.C. on December 8, 1981.

Karl F. Bierach,
Designated Officer.

Federal Highway Administration

Environmental Impact Statement; Williams, Mountrail and Ward County, North Dakota

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Williams, Mountrail & Ward County, North Dakota.

FOR FURTHER INFORMATION CONTACT: Marvin Espeland, Division Administrator, Federal Highway Administration, P.O. Box 1755,

Bismarck, ND 58502. Telephone Number is (701) 225–4011. (FTS 783–4204).

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the North Dakota State Highway Department will prepare an Environmental Impact Statement (EIS) on a highway improvement porject in North Dakota.

The proposed project would involve the construction of two-lane roadway parallel to the existing roadway on US Highway #2 from the Junction US Highway 85 to the Junction of US Highway 52 West of Minot. The purpose of the project is to provide a four-lane divided highway.

Alternates under consideration from Junction US Highway 52 to Berthold consist of which side of the existing facility to construct the additonal roadway. At Ray, North Dakota, an alternate bypass the city and two alternates through the city are proposed. Throughout the ramainder of the project, the added roadway will be constructed on the south side of the existing roadway. The "No Action Alternate" is also proposed.

Letters soliciting views and comments on the proposed project were sent to various federal, state and local agencies. The Draft EIS will be available for public and agency review and comment. A public hearing will be held to discuss alternates and impacts of the proposed action. Public notice will be given for the time and place of the public hearing. No formal scoping meeting will be held.

Issued on December 9, 1981.

Marvin I. Espeland,

Division Administrator.

BILLING CODE 4910–22–M

Urban Mass Transportation Administration

[FHWA Docket No. 81–10]

Urban Transportation Planning Comprehensive Review; Request for Public Comment

AGENCIES: Federal Highway Administration (FHWA), Urban Mass Transportation Administration (UMTA), DOT.

ACTION: Notice and request for comment.

SUMMARY: As part of FHWA and UMTA's continuing efforts to evaluate their programs, and in light of the shift in Federal priorities for capital programs and the President's efforts to eliminate the intrusion of the Federal Government into essentially State and local issues, a comprehensive review of the urban transportation planning process is being undertaken. As part of this effort, a document entitled, "Solicitation of Public Comment on the Appropriate Federal Role in Urban Transportation Planning—Issues and Options," was prepared. The purpose of this notice is to announce the availability of this document and request comments on it from the general public.

DATE: Written comments are due on or before January 29, 1982.

ADDRESS: Copies of the document may be obtained from: FHWA, Urban Planning Division, HHP–21, 400 Seventh Street, SW., Washington, D.C. 20590. Submit written comments to FHWA Docket No. 81–10, Federal Highway Administration, Room 4205, HCC–10, 400 Seventh Street, SW., Washington, D.C. 20590. All comments received will be available for examination at the above address between 7:45 a.m. and 4:15 p.m. ET, Monday through Friday. Those desiring notification of receipt of comments must include a self-addressed, stamped postcard.

FOR FURTHER INFORMATION CONTACT: FHWA: Thomas P. Kozlowski, Urban Planning Division (202) 426–2961; or Jerry Bonne, Office of the Chief Counsel, (202) 426–0791; or UMTA: Robert Kirkland, Office of Planning Assistance (202) 426–4991; or Anthony Anderson, Office of the Chief Counsel (202) 426–1906. All located at 400 Seventh Street, SW., Washington, D.C. 20590. FHWA office hours are from 7:45 a.m. to 4:15 p.m. ET., UMTA office hours are from 8:30 a.m. to 5:00 p.m. ET, Monday through Friday.

SUPPLEMENTARY INFORMATION: This notice requests comments on the document, "The Appropriate Federal Role in Urban Transportation Planning—Issues and Options." It was prepared as part of FHWA and UMTA's efforts to evaluate their role in urban transportation planning and its purpose is to solicit ideas, reactions, and recommendations from the general pulbic as to what the Federal role should be.

The paper addresses overall evaluative policy questions on the need for the process, its benefits, costs and its relationships to other programs. It also focuses on action-oriented issues and proposes questions and options to be considered.

The comments received along with FHWA and UMTA's experience in administering the urban transportation planning process and possible legislative action will be used to define FHWA and UMTA's future role. Recommendations as to legislative, regulatory and administrative changes will be made. If it is decided to revise any regulations a notice of proposed rulemaking will be published in the **Federal Register.**

(Catalog of Federal domestic Assistance Program Number 20.205, Highway Research, Planning and Construction; 20.500, Urban Mass Transportation Capital Grants; 20.501, Urban Mass Transportation Capital and Operating Assistance Formula Grants. The provisions of OMB Circular No. A-95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects apply to these programs)

Issued on: December 10, 1981.

Arthur E. Teele, Jr,

UMTA Administrator.

R. A. Barnhart,

Federal Highway Administrator.

BILLING CODE 4910–22–M

Federal Railroad Administration

[FRA Waiver Petition Docket HS–81–22]

Maryland and Pennsylvania Railroad Co.; Petition for Exemption From the Hours of Service Act

In accordance with 49 CFR 211.41 and § 211.9, notice is hereby given that the Maryland and Pennsylvania Railroad (Ma & Pa) has petitioned the Federal Railroad Administration (FRA) for an exemption from the Hours of Service Act (83 Stat. 464, Pub. L. 91–169, 45 U.S.C. 64a(e)). That petition requests that the Ma & Pa be granted authority to permit certain employees to continuously remain on duty for in excess of twelve hours.

The Hours of Service Act currently makes it unlawful for a railroad to require or permit specified employees to continuously remain on duty for a period in excess of twelve hours. However, the Hours of Service Act contains a provision that permits a railroad, which employs no more than fifteen employees who are subject to the statute, to seek an exemption from this twelve hour limitation.

The Ma & Pa seeks this exemption so that it can permit certain employees to remain continuously on duty for periods not to exceed sixteen hours. The petitioner indicates that granting this exemption is in the public interest and will not adversely affect safety. Additionally, the petitioner asserts that it employs no more than fifteen employees and has demonstrated good cause for granting this exemption.

Interested persons are invited to participate in this proceeding by submitting written views or comments.

FRA has not scheduled an opportunity for oral comment since the facts do not appear to warrant it. Communications concerning this proceeding should identify the Docket Number, Docket Number HS–81–22, and must be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590.
Communications received before January 29, 1982, will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All comments received will be available for examination both before and after the closing date for comments, during regular business hours in Room 5101, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590.

(Sec. 5 of the Hours of Service Act of 1969 (45 U.S.C. 64a), 1.49(d) of the regulations of the Office of the Secretary, 49 CFR 1.49(d))

Issued in Washington, D.C. on December 4, 1981.

Joseph W. Walsh,

Chairman, Railroad Safety Board.

[FR Doc. 81–35752 Filed 12–16–81; 8:45 am]

BILLING CODE 4910–06–M

[FRA Waiver Petition Docket HS–81–21]

Sierra Railroad Co.; Petition for Exemption From the Hours of Service Act

In accordance with 49 CFR 211.41 and § 211.9, notice is hereby given that the Sierra Railroad (Sierra) has petitioned the Federal Railroad Administration (FRA) for an exemption from the Hours of Service Act (83 Stat. 464, Pub. L. 91–169, 45 U.S.C. 64a(e)). That petition requests that the Sierra be granted authority to permit certain employees to continuously remain on duty for in excess of twelve hours.

The Hours of Service Act currently makes it unlawful for a railroad to require or permit specified employees to continuously remain on duty for a period in excess of twelve hours. However, the Hours of Service Act contains a provision that permits a railroad, which employs no more than fifteen employees who are subject to the statute, to seek an exemption from this twelve hour limitation.

The Sierra seeks this exemption so that it can permit certain employees to remain continuously on duty for periods not to exceed sixteen hours. The petitioner indicates that granting this exemption is in the public interest and will not adversely affect safety. Additionally, the petitioner asserts that it employs no more than fifteen employees and has demonstrated good cause for granting this exemption.

Interested persons are invited to participate in this proceeding by submitting written views or comments. FRA has not scheduled an opportunity for oral comment since the facts do not appear to warrant it. Communications concerning this proceeding should identify the Docket Number, Docket Number HS–81–21, and must be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, Nassif Building, 400 Seventh Street, SW., Washington, D.C. 20590.
Communications received before January 29, 1982, will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All comments received will be available for examination both before and after the closing date for comments, during regular business hours in Room 5101, Nassif Building, 400 Seventh Street, SW., Washington, D.C. 20590.

(Sec. 5, Hours of Service Act of 1969 (45 U.S.C. 64a), 1.49(d) of the regulations of the Office of the Secretary, 49 CFR 1.49(d))

Issued in Washington, D.C. on December 4, 1981.

Joseph W. Walsh,

Chairman, Railroad Safety Board.

DEPARTMENT OF THE TREASURY

Customs Service

[TMK–2–CO:R:E:E]

Application for Recordation of Trade Name; SON-EXPORT, S.A. de C.V.

Application has been filed pursuant to § 133.12, Customs Regulations (19 CFR 133.12), for the recordation under section 42 of the Act of July 5, 1946, as amended (15 U.S.C. 1124), of the trade name SON-EXPORT, S.A. de C.V., used by Son-Export, S.A. de C.V., a company governed by the laws of The Republic of Mexico, located at Plutarco Elias Calles y Rosales #124, Desp. 3003, Hermosillo, Sonora, Mexico.

The application states that the trade name is associated with fresh frozen shellfish (shrimp). Appropriate accompanying papers were submitted with the application.

Before final action is taken on the application, consideration will be given to any relevant data, views, or arguments submitted in writing by any person in opposition to the recordation of this trade name. Any such submission should be addressed to the Commissioner of Customs, U.S. Customs Service, Washington, D.C. 20229, in time to be received not later than February 18, 1982.

Notice of the action taken on the application for recordation of the trade name will be published in the **Federal Register.**

Anthony L. Piazza,

Acting Director, Entry, Procedures and Penalties Division.

The Federal Communications Commission will hold a Closed Meeting on the subjects listed below on Thursday, December 17, 1981, following the Open Meeting which is scheduled to commence at 9:30 a.m., in Room 856, at 1919 M Street, N.W., Washington, D.C.

Agenda, Item No., and Subject

Hearing—1—Joint Petition for approval of a settlement agreement in the Stamford, Connecticut, comparative AM and FM renewal proceedings (Docket Nos. 19872-73, and BC Docket Nos. 80-650-80). Exceptions to the Initial Decision in Docket Nos. 19872-73 and related pleadings.

This meeting may be continued the following work day to allow the Commission to complete appropriate action.

Additional information concerning this meeting may be obtained from Maureen P. Peratino, FCC Public Affairs Office, telephone number (202) 254-7674.

Issued: December 10, 1981.

William J. Tricarico,
Secretary, Federal Communications Commission.

5

FEDERAL COMMUNICATIONS COMMISSION

The Federal Communications Commission will hold an Open Meeting on the subjects listed below on Thursday, December 17, 1981, which is scheduled to commence at 9:30 a.m., in Room 856, at 1919 M Street, NW., Washington, D.C.

Agenda, Item No., and Subject

General—1—*Title:* Fourth Notice of Inquiry Relating to Preparation for an International Telecommunication Union (ITU) 1983 World Administrative Radio Conference (WARC) for Mobile Telecommunications. *Summary:* The Commission seeks to inform the public and to obtain comments of interested persons on the U.S. Draft Proposals for the 1983 World Administrative Radio Conference for Mobile Telecommunications.

General—2—Renewal of Radio Broadcasting Advisory Committee. The Advisory Committee on Radio Broadcasting has assisted the Commission in preparing for the Region 2 Administrative Radio Conference, now being held in Rio. The committee's charter expires 31 December 1981. To enable the Commission to utilize its expertise in this area while considering the results of the Conference, it is proposed to renew the committee for one year.

Private Radio—1—*Title:* Memorandum Opinion and Order concerning application for review, filed by John Fabick Tractor Company, of Private Radio Bureau action denying its request for rule waivers and dismissing its applications for authority to use a VHF band Forestry Conservation Radio Service frequency in the Business Radio Service. *Summary:* The FCC will consider whether to grant or deny the application for review, filed by John Fabick Tractor Company, of Private Radio Bureau action which denied Fabick's request for waivers of Sections 90.25(b) and 90.75(b) of the rules to permit its use of a VHF band frequency allocated to the Forestry Conservation Radio Service for a wide area land mobile radio system in portions of Illinois and Missouri in the Business Radio Service.

Private Radio—2—*Title:* Report and Order concerning the general exemption from the radiotelegraph requirements for cargo vessels of 1600 gross tons and upward engaged on coastwide voyages. *Summary:* The Commission will consider granting a general exemption from the radiotelegraph requirements of the Communications Act cargo ships of 1600 gross tons and upward when navigated on domestic voyages along the coasts of the contiguous 48 states. The ships will be required to have specific radiotelephone equipment for both terrestrial and satellite communications and also meet additional operational requirements.

Common Carrier—1—*Title:* Petition for Reconsideration of the Commission's action deferring the proceeding in Docket No. 20694, 59 FCC 2d 240 (1976). *Summary:* The Commission will consider whether to continue deferral of the proceeding in Docket No. 20694 concerning the joint application for authority for additional expenditures for the Hawaii-3/Transpac-2 Cable System (File No. 8241-M *et al.*)

Common Carrier—2—*Title:* Petition for declaratory ruling by ARINC that surcharges for access to telephone exchanges by interstate private line users must be tariffed at the FCC rather than at state level. *Summary:* ARINC (Aeronautical Radio, Inc.) has filed a petition asking the FCC to issue a ruling that telephone companies which impose "access" surcharges for initiating or completing calls carried over private lines which terminate in their exchange areas must first comply with all the FCC's usual

tariff filing requirements. An access "surcharge" is a charge imposed on the private line users in addition to a charge equivalent to the exchange carrier's rate for local exchange service.

The prevalent form of private line access charge is the "open end" charge levied on users of "FX" ("foreign exchange" service The FCC has not required telephone exchange carriers to submit tariff filings before revising their open end FX rates, as long as the rates to interstate users were kept equal to their rates for local exchange service.

According to ARINC, Rochester Telephone Company (RTC), New York Telephone Company, and Pacific Telephone and Telegraph (PTT) impose, or plan to impose, surcharges on FX users in addition to the usual open end charge. ARINC states that PTT and RTC also impose access surcharges on users of private lines terminating in their exchange areas in customer-controlled switching arrangements through which access to the local exchange networks can be established.

ARINC contends that by imposing these surcharges the carriers intend to unfairly shift revenue burdens from intrastate ratepayers to interstate private line users and that the FCC should therefore force the carriers to demonstrate in tariff filings that their surcharges are justified on the basis of costs.

Common Carrier—3—*Title:* American Telephone and Telegraph Company Tariff F.C.C. No. 260, Offering of Trunk-Side Switching Terminations to Customers of Switched Private Line Services. *Summary:* The Commission will consider whether to initiate on its own motion a rule making proceeding to determine the lawfulness of tariff provisions in AT&T's private line tariff which limit the ability of customers of switched private line services to connect their own equipment to the trunk side of Bell switches.

Common Carrier—4—*Title:* Procedures for Implementing the Deregulation of Customer Premises Equipment and Enhanced Services. (Second Computer Inquiry) *Summary:* Commission will consider whether to adopt staff's proposed notice of inquiry relating to implementation of Second Computer Inquiry.

Common Carrier—5—*Title:* In the Matter of Communications Satellite Corporation, File Nos. I–P–C–7387–8 237–CSG–P/L–80. Application for authority to construct and operate a communications satellite earth station at Cayey, Puerto Rico. *Summary:* The Commission will consider the applications of Comsat to construct and operate a satellite earth station on Puerto Rico to secure direct access to the INTELSAT network.

Common Carrier—6—*Title:* IRC applications to provide wholly domestic non-voice services. *Summary:* Commission will consider whether it is in the public interest to permit the five largest international record carriers to provide wholly domestic non-voice services between and among their various gateways and points of operation.

Common Carrier—7—*Title:* Cellular Communications Systems. *Summary:* Before the Commission is a *Memorandum Opinion and Order* which considers and resolves various petitions for reconsideration of the Commission's Report and Order in Docket 79–318, *Cellular Communications Systems*, 86 FCC 2d 469 (1981).

Common Carrier—8—*Subject:* CC Docket 78–196, Revision of USOA—Establishment of Advisory Committee Membership. *Summary:* The Commission will consider the appointment of the membership of the Telecommunications Industry Advisory Group.

Common Carrier—9—*Title:* Prescription of Revised Depreciation Rates (AT&T). *Summary:* The Commission will consider revised whole-life and remaining-life depreciation rates for all or portions of the plant for long lines department and the operating companies of the American Telephone & Telegraph Co.

Common Carrier—*Title:* Prescription of Revised Depreciation Rates (GTE). *Summary:* The Commission will consider revised remaining-life depreciation rates for all or portions of the plant of the companies of the GTE Service Corporation for which the Commission prescribes depreciation rates.

Common Carrier—*Title:* Prescription of Revised Depreciation Rates. (Continental Telephone Co. of Virginia) *Summary:* The Commission will consider revised remaining-life depreciation rates for all of the plant of the Continental Telephone Co. of Virginia.

Television—1—*Title:* Petition for Reconsideration filed by Scripps-Howard Broadcasting Company, licensee of Television Station KJRH, Tulsa, Oklahoma. *Summary:* The Commission will consider the assignment of the call letters KBJH to a new television station in Tulsa, Oklahoma.

Broadcast—1—*Title:* Application for Review filed by Northern Sun Corporation. *Summary:* The Commission will consider the competing requests of Northern Sun Corporation and First Media of Washington, Inc. for the relinquished KLFM call sign.

Broadcast—2—*Title:* Amendment of Part 73, Subpart E of the Commission's Rules concerning the operation of television broadcast stations by remote control. *Summary:* The FCC will consider whether to adopt the rules proposed in BC Docket No. 81–239. The *Notice* proposed to delete specific vertical interval test signals for remote control stations along with the accompanying mandatory transmission requirement.

Broadcast—3—*Title:* With reference to subsidiary use of FM and AM broadcast spectrum for utility load management purposes: *Report and Order*, Docket No. 81–352, concerning FM subsidiary communications authorization use; and *Notice of Proposed Rule Making*, concerning AM carrier use. *Summary:* On May 21, 1981, the Commission adopted a *Notice of Proposed Rule Making*, BC Docket No. 81–352, proposing to amend its FM subsidiary communications rule to permit commercial FM broadcast stations to transmit coded signals to manage energy loads by utility companies. This *Report and Order* will consider the action proposed in the *Notice*. In response to that *Notice*, a number of commenters requested that load management use also be permitted on the AM broadcast carrier. The Commission, in a *Notice of Proposed Rule Making*, will consider a proposal to amend its rules and allow such use.

Broadcast—4—*Title:* Amendment of Section 73.3597 of the Commission's Rules. (Applications for Voluntary Assignments or Transfers of Control) *Summary:* The Commission will consider whether to issue a *Notice of Proposed Rule Making* regarding changes in the three year holding period for broadcast stations.

Broadcast—5—*Title: Third Further Notice of Proposed Rule Making* in Docket No. 21474. (Broadcast Equal Employment Opportunity Rules) *Summary:* The Commission will consider whether to issue a *Third Further Notice of Proposed Rule Making* in its ongoing equal employment opportunity ("EEO") proceeding. The proposals under consideration would modify various data filing requirements.

Broadcast—6—*Title:* Reconsideration of the Broadcast Bureau's action assigning Channel 234 to Lockhart, Texas. *Summary:* The Commission will consider whether to affirm the assignment of Channel 234 to Lockhart, Texas, in view of a conflicting application for transmitter site relocation by Houston, Texas, FM Station KLEF.

Broadcast—7—*Title:* Changes in the rules relating to noncommercial, educational FM stations. *Summary:* The Commission will consider a *Third Report and Order* in Docket No. 20735 which would implement new protection criteria for Channel 6 TV reception.

This meeting may be continued the following work day to allow the Commission to complete appropriate action.

Additional information concerning this meeting may be obtained from Maureen Peratino, FCC Public Affairs Office, telephone number (202) 254–7674.

FEDERAL COMMUNICATIONS COMMISSION

Deletion of agenda item from December 17th open meeting

The following item has been deleted at the request of the Common Carrier Bureau from the list of agenda items scheduled for consideration at the December 17, 1981, Open Commission Meeting and previously listed in the

Commission's Notice of December 10, 1981.

Agenda, Item No., and Subject

Commom Carrier—5—*Title:* In the Matter of Communications Satellite Corporation, File Nos. I–P–C–7387–8 237–CSG–P/L–80. Application for authority to construct and operate a communications satellite earth station at Cayey, Puerto Rico. *Summary:* The Commission will consider the applications of Comsat to construct and operate a satellite earth station on Puerto Rico to secure direct access to the INTELSAT network.

Issued: December 15, 1981.

William J. Tricarico,

Secretary, Federal Communciations Commission.

FEDERAL DEPOSIT INSURANCE CORPORATION

Changes in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its open meeting held at 2:00 p.m. on Monday, December 14, 1981, the Corporation's Board of Directors determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Director Charles E. Lord (Acting Comptroller of the Currency), that Corporation business required the withdrawal from the agenda for consideration at the meeting, on less than seven days' notice to the public, of the following matters:

Memorandum and Resolution re: Recommended Definition of Bank Capital to be Used in Determining Capital Adequacy.

Memorandum and Resolution re: Mandatory Accrual Accounting Guidelines for Commercial Banks and Mutual Savings Banks.

Memorandum re: Renewal of lease for office space in the building located at 1709–11 New York Avenue, N.W., Washington, D.C.

By the same majority vote, the Board further determined that no earlier notice of these changes in the subject matter of the meeting was practicable.

Dated: December 14, 1981.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

BILLING CODE 6714–01–M

8

FEDERAL DEPOSIT INSURANCE CORPORATION

Changes in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its closed meeting held at 2:30 p.m. on Monday, December 14, 1981, the Corporation's Board of Directors determined, on motion of Chairman William M. Isaac, seconded by Director Irvine H. Sprague (Appointive), concurred in by Director Charles E. Lord (Acting Comptroller of the Currency), that Corporation business required the withdrawal from the agenda for consideration at the meeting, on less than seven days' notice to the public, of a recommendation regarding the liquidation of assets acquired by the Corporation from The Hamilton National Bank of Chattanooga, Chattanooga, Tennessee (Committee Case No. 45,008–L).

The Board further determined, by the same majority vote, that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of the following matters:

Request by Metropolitan Savings Bank, New York (Brooklyn), New York, for relief from a previously imposed condition of an order issued pursuant to section 18(c) of the Federal Deposit Insurance Act.

Request by Peoples Westchester Savings Bank, Tarrytown, New York, for relief from a previously imposed condition of an order issued pursuant to section 18(c) to the Federal Deposit Insurance Act.

The Board further determined, by the same majority vote, that no earlier notice of the changes in the subject matter of the meeting was practicable; that the public interest did not require consideration of the matters added to the agenda in a meeting open to public observation; and that the matters added to the agenda could be considered in a closed meeting by authority of subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(6), (c)(8), and (c)(9)(A)(ii)).

Dated: December 14, 1981.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

Part II

Department of Transportation

Federal Aviation Administration

Microwave Landing System Requirements for Non-Federal Navigational Facilities

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 171

[Docket No. 20669; Amdt. 171-11]

Microwave Landing System Requirements for Non-Federal Navigational Facilities

AGENCY: Federal Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes minimum standards and procedures for the approval, installation, operation, and maintenance of a Microwave Landing System (MLS) facility that is not operated and maintained by the FAA or other Federal agency. MLS is a system designed to take the place of the Instrument Landing System (ILS) used at commercial airports in the United States and around the world since 1945. MLS is projected to meet both civil and military requirements for the foreseeable future and to provide more flexibility in terminal area operations, abate noise, and be cost effective. MLS has been selected for standardization by the International Civil Aviation Organization (ICAO) for eventual installation at terminal areas of member States. The aviation community recognized the need for a new system to fulfill future requirements. MLS has been chosen to satisfy this need. Since these facilities may be operated and maintained by persons other than the FAA, the requisite standards and procedures to operate these facilities in the National Airspace System (NAS) must be provided in the form of a regulation to govern those activities. This amendment is consistent with the requirements of Executive Order 12291.

EFFECTIVE DATE: December 17, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Sotires P. Mantis, Airway Facilities Service, (AAF-720), Airway Systems Division, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-3008.

SUPPLEMENTARY INFORMATION:

I. Background

This rule is based on Notice of Proposed Rule Making (NPRM), Notice Number 80-15, Non-Federal Navigation Facilities; Proposed Microwave Landing System Requirements (45 FR 59256) published in the **Federal Register** September 8, 1980. All interested persons have been given an opportunity to participate in the making of this rule and due consideration has been given to all information submitted.

The search for an adequate successor to the present ILS has been underway for several decades. ILS was adopted for national service in 1941 and has been installed at approximately 700 locations in the United States. ILS is also the international standard and as such is installed in many other locations worldwide. Although significant improvements in system design have been made since it entered service, ILS is basically the creation of an older technology which limits its utility in some applications and falls short of meeting the full range of operational requirements as now defined nationally and internationally.

In 1967, the Radio Technical Commission for Aeronautics (RTCA) formed a special committee (SC-117) to collect user requirements and synthesize a set of operational requirements which would meet the needs of a wide range of civil and military users for precision approach and landing guidance well into the future. The RTCA operational requirements emerged in 1969 with a recommendation that microwave systems using a Doppler or scanning beam signal format should be investigated for implementation.

In the early 1970s ICAO adopted similar operational requirements and invited member states to propose candidate systems as a successor to the standard ILS. In July 1971, a U.S. National Plan for the joint development of an MLS was published by the Department of Transportation (DOT), Department of Defense (DOD) and the National Aeronautics and Space Administration (NASA). The time referenced scanning beam (TRSB) MLS which emerged from this development program became the U.S. candidate system proposed for international adoption. In April 1978 ICAO selected the TRSB MLS for international standardization.

It should be noted that an interim standard microwave landing system (ISMLS) was adopted in 1975 for use at locations where a VHF/UHF ILS would not perform in an effective manner, or where the need for a low approach service would be better served by the use of the ISMLS. This system was intended as an adjunct to the ILS system and was considered necessary to fulfill some immediate aviation growth needs during a transition period. That transition period was the time necessary to develop an MLS which meets international standards.

II. Need for the Regulation

This regulation makes provision for approval of an instrument approach procedure using an MLS not provided by the Federal Government, which will satisfy the needs of various operators. Among these are operators who desire an instrument approach procedure but do not qualify for Federally provided equipment; operators who qualify for Federally provided equipment but prefer an MLS to an ILS; operators with locations on which the ILS cannot be properly sited; and operators who desire immediate installation of an MLS system without having to wait for the installation of a Federal system.

In the next one to three years the FAA expects no more than ten facilities to be installed and five to ten per year thereafter. These numbers, however, are estimates since there is no way of identifying the requirements for privately funded facilities. The numbers will vary depending upon manufacturer prices and consumer needs.

There are no current FAA MLS facilities; however, FAA is preparing Federal specifications to proceed with a procurement of approximately 95 systems beginning in 1983. The FAA has programmed for the installation of over one thousand systems by the year 2000.

The MLS system proposed herein provides for a $\pm 10°$ approach sector and a continuum of glideslopes consistent with a minimum vertical proportional guidance sector of 0.9° to 7.5°. This minimal system does not preclude the use of additional units to produce a system with a wider approach sector, steeper glidepaths, a back azimuth capability, precision DME, or the use of redundant units to maximize system availability. While the MLS specified in this proposal is the minimum system which would be approved for use in an IFR procedure, the provisions of this proposed subpart are not intended to prevent the selection of an MLS system which has increased performance characteristics, as long as the system selected performs in accordance with the standards now in process of publication by ICAO. A finding of no significant environmental impact can be found in the public docket for this rulemaking action.

III. Relationship to International Standards

Subsequent to the ICAO selection of an MLS in 1978, the process of creating and adopting international Standards and Recommended Practices (SARPS) has proceeded. The basic SARPS, which will assure interoperability between

ground and airborne equipment, was approved for inclusion in Annex 10 to the Convention of International Civil Aviation at the divisional meeting in April 1981 at Montreal.

All ground systems must be interoperable with regard to channeling, signal format, timing, and performance accuracy. This includes non-Federal, Federal, and International systems. The United States, as a member of ICAO comprising 148 member states, has contributed to the standardization of precision landing systems to insure interoperability worldwide. Both the FAR and FAA procurement specifications will be identical with respect to interoperability and performance requirements, both of which conform to the ICAO SARPS.

IV. General

This amendment adds a new subpart to Part 171 of the Federal Aviation Regulations to provide requirements for a non-Federal MLS facility. This rule sets forth minimum requirements that must be met before the FAA authorizes instrument flight rule approaches to the airport and air traffic control procedures incorporating that facility. Such a facility is designed to interface with existing and planned Federal facilities and systems.

The performance requirements of this rule are derived from the SARPS on MLS developed by ICAO. The SARPS as adopted by ICAO in Montreal in April 1981 are a culmination of the efforts of the member states. The United States, as a member, contributed and assisted in the recommendation process for inclusion of SARPS for MLS in the amendment of Annex 10. The FAA has and will continue to fully participate in the international standardization process.

In addition, persons affected by this rule should determine the applicability of FCC regulations to the installation and operation of the MLS. The regulations of the FCC applicable to radio frequency allocations and use are found in Parts 2 and 87 of Title 47 of the Code of Federal Regulations.

As part of the requirements, the FAA also incorporates by reference several technical documents in accordance with 5 U.S.C. 552. The following documents are available for inspection in accordance with § 171.71, and also at the Office of the Federal Register Information Center, Room 8301, 1100 L Street, NW., Washington, D.C. 20408, and may be purchased from the National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22161: FAA Handbook 8260.3, through change 3 dated June 3, 1980, United States Standard for Terminal Instrument Procedures (TERPS), and FAA Handbook AOP 8200.1, through change 35, dated May 15, 1981, United States Standard Flight Inspection Manual.

In addition, the following publication of ICAO is available from ICAO, Aviation Building, 1080 University Street, Montreal 101, Quebec, Canada, Attention: Distribution Officer: International Standards and Recommended Practices, Aeronautical Telecommunications, Volume 1 of Annex 10 to ICAO, through amendment 61 dated April 10, 1980. This incorporated material is not subject to frequent change. Readers, however, should contact the FAA to assure that they are consulting the current edition. This incorporation by reference was approved by the Director of Federal Register on October 20, 1981.

V. Discussion of Comments

Forty-five comments were received in response to Notice 80–15. These represent views from a broad cross section of user groups including airport operators, state and county aviation authorities, pilot and airline associations, communter airlines, manufacturers and others. The majority of the comments received supported the rule as proposed.

One commenter states that the implementation of non-Federal MLS at this time is "premature" and recommends that the rule be deferred until after implementation of the national MLS program. The FAA concludes an immediate requirement exists for a non-Federal MLS program. At the MLS public hearings in January 1981, there was an overwhelming positive response to rapid transition to MLS in both the Federal and non-Federal areas. This view is supported by a positive response to the proposed rule from the many segments of the aviation community.

One commenter states that the proposed rule, as written, would not encourage rapid and widespread implementation of non-Federal MLS. This was based on the assessment that the specified system accuracy and volumetric coverage requirements were excessive and, in their view, favored larger airports. The FAA does not agree. The rule specifies requirements for a minimum capability, single accuracy system as defined by ICAO and should prove beneficial at all airports, large or small.

Several commenters state that the requirements of specification FAA–G–2100, incorporated by reference in various sections of the rule, which provides general equipment requirements, and governs quality control, type testing, reliability and maintainability, establishes environmental requirements, and identifies component selection parts lists, are excessive. They contend that the specification levies reliability and maintainability requirements which are inappropriate for non-Federal application and the inclusion of FAA–G–2100 would have a negative cost impact on the program. After further analysis, the FAA concurs that the inclusion of FAA–G–2100 would increase the initial cost of a non-Federal MLS; therefore, all reference to FAA–G–2100 is deleted from the rule, however, the requirement to design for high reliability and maintainability remains in § 171.323. These requirements provide for system integrity.

One commenter concludes MLS is not ready for implementation since no FAA (Federal) MLS system exists. The FAA recognizes the need for implementation of Federal MLS where needs and justifications are provided; however, this rule provides the public a means to establish an MLS without Federal justification. Since the public is soliciting for MLS at this time, the FAA is providing for a non-Federal MLS standards consistent with ICAO recommendations. Further, the FAA is currently preparing Federal specifications in conformance with ICAO, resulting in a compatible interface between Federal and non-Federal MLS.

Several commenters suggested relaxing, tightening, deleting or adding to the MLS functions, signal formats, tolerances, specifications, performance, and definitions. As already noted, the FAA concurs with the ICAO SARPS and the rule reflects these standards.

The majority of the comments to the proposed rule involved specific technical issues concerning the MLS. These comments are addressed in the sections that follow:

Section 171.303 Definitions.

The rule describes twenty four definitions in an initial section that apply throughout the subpart.

One commenter objected to the stated definition of "mean time between failures" and submitted a revised definition. The revised definition submitted defines "mean time between outages." After analysis, the FAA concludes that the use of the phrase "mean time between failures" is correct but that a definition is needed for the word "failure" to avoid

misinterpretation of the meaning of that word.

Another commenter states that the definition of "minimum glidepath" is ambiguous and it is not clear whether the word consistent as used in the definition means the highest angle or the lowest angle. The FAA concludes that the definition conforms to the definition given in the SARPS and is not ambiguous. (The term "SARPS" is used herein to describe the provisions agreed upon by ICAO at the April 1981 meeting in Montreal, concurred in by the FAA.)

Additionally, the FAA adds to the rule a definition for "beamwidth," and revises the definitions of "MLS approach reference datum," "MLS back azimuth reference datum," "data rate," and "path following error" to make these definitions consistent with ICAO standards. The definition for "clearance guidance sector" is revised to be consistent with the use of the terms "fly-left/fly-right clearance" as used in § 171.311(i)(2)(iv) and Figure 8.

Section 171.305 Requests for IFR procedure.

That section lists the requirements for each person who requests an IFR procedure based on an MLS facility which that person owns. The required information includes a description of the facility and shows that the equipment meets specified performance requirements; a proposed procedure for operating the facility; a proposed maintenance organization and manual; a statement of intent to meet the requirements of the subpart, and a demonstration that the MLS facility has an acceptable level of operational reliability and maintainability. A provision also specifies the procedures to be followed after the FAA inspects and evaluates the facility. No comments were received on these requirements and the rule is adopted without change.

Section 171.307 Minimum requirements for approval.

That section prescribes the minimum requirements that must be met before the FAA approves an IFR procedure for an MLS facility. Those requirements relate to performance, installation, operation, maintenance, operational records, inspection, withdrawal from service, and costs.

One commenter suggests that the FAA should bear all costs of FAA-required normal flight and ground inspections. This suggestion is not accepted since the requirement as written in the rule reflects existing FAA policy; furthermore, the systems proposed by this order are systems installed and maintained by the owner for his benefit at his own expense. As stated in the rule, the owner must bear all costs of installation and flight inspection prior to commissioning. The rule is adopted as proposed.

Section 171.309 General requirements.

That section describes the MLS as a precision approach and landing guidance system which provides position information and various ground to air data. It also states that the position information is provided in a wide coverage section and is determined by an azimuth angle measurement, an elevation angle measurement and a range (distance) measurement.

An MLS constructed to meet the requirements of this subpart must include: approach azimuth equipment, associated monitor, remote control and indicator equipment; approach elevation equipment, associated monitor, remote control and indicator equipment; a means for the transmission of basic data words, associated monitor, remote control and indicator equipment; and distance measuring equipment (DME), associated monitor, remote control and indicator equipment. In addition, MLS may include as an option, back azimuth equipment, associated monitor, remote control and indicator equipment; a wider proportional guidance; precision DME, associated monitor, remote control and indicator equipment; and VHF marker beacons (75 MHz), associated monitor, remote control and indicator equipment. That section also prescribes environmental ambient conditions covering temperature, humidity, wind, hail, rain, and ice loading that the electronic equipment must meet when installed in shelters and outdoors. The MLS and its components must meet specified standards prescribed under this subpart.

One commenter suggests specifying the MLS performance requirements as those contained in ICAO SARPS, thus eliminating the need for §§ 171.311 through 171.319. This commenter points out that other Subparts of FAR 171 incorporate by reference performance requirements contained in ICAO SARPS. The FAA concludes that due to the present unavailability of an ICAO MLS SARPS publication, the specifications must be fully presented in this rule.

Another commenter requests that an option be granted allowing the requirement of § 171.309(b)(3) which provides a means for the transmission of data, to be included with § 171.309(b)(1) which includes the azimuth equipment. The FAA disagrees. The order of the paragraphs as proposed does not inhibit the combining of functions where appropriate but provides clarity and this change is not accepted.

Another commenter asks whether or not DME monitor, remote control, and indicator equipment could be integrated with the MLS. After analysis of this comment, the FAA agrees that the equipment can be integrated. Therefore, the rule is changed in §§ 171.309 (b) and (c) by including a note stating that this equipment may be integrated.

Another commenter requests a clearer definition of the capabilities of remote control and indicator equipment. Accordingly, a note is added to § 171.309(b)(4) setting the minimum requirements for the remote control and indicator equipment.

One commenter points out that § 171.309(c)(2), which provides for a wider proportional guidance sector, does not include the wider proportional guidance sector cited in § 171.317, Elevation performance requirements. An addition is made to § 171.309(c)(2) citing § 171.317.

Another commenter recommends that 15 degrees of proportional guidance be specified on the elevation equipment instead of 7.5 degrees. Since the SARPS specifies the minimum elevation proportional guidance as 7.5 degrees, proportional guidance above 7.5 degrees is optional, and the rule is adopted as proposed.

Several commenters object to the service and environmental conditions requirements as specified in § 171.309(d). One commenter states that the requirements are too restrictive and appear to be written for FAA procurement. Another commenter suggests specifying optional environmental requirements for different climatic conditions. Another commenter states that a reduced ambient temperature requirement would reduce costs and satisfy the requirements of most of the purchasers of the equipment. After considering these comments, the FAA concludes that a change in the service and environmental condition requirements would be inconsistent with standardized design concepts. Electronic equipment installed outdoors must conform to environmental standards regardless of geographical placement. A geographic boundary for climatic variations would be difficult to describe. For example, even though Florida would seem an inappropriate locale for the use of de-icers, there are occasions when de-icers would be necessary. The rule is adopted as proposed.

Several commenters object to the applicability of specification FAA–G–2100 as it relates to DME and markers. Clarification is made to § 171.309 which

now describes DME and marker requirements separately in two paragraphs (e) and (f), respectively. It is made clear that when DME, or markers are components of MLS, they must conform to the requirements of FAR 171, Subpart G and H, respectively. All reference to Specification FAA–G–2100 is removed from this rule.

Additionally, in accordance with the requirements of SARPS, a change is made in § 171.309(b)(4). This change deletes the mandatory requirement for a marker beacon and a note is added which permits the use of a VHF marker beacon (75 MHz) in lieu of a DME at locations where the VHF marker beacon (75 MHz) is already located. Also §§ 171.309(c) (3) and (4) are added allowing as an option the use of a precision DME and marker beacon respectively. The rain requirements in § 171.309(d)(4) are restated for clarification since the proposed wording was confusing.

Section 171.311 Signal format requirements.

That section provides for signals radiated by the MLS which must conform to the signal format which describes specific minimum requirements such as frequency assignment, tranmission rates and sequences, digital codes, and data modulation.

One commenter interprets § 171.311(a) Frequency Assignment to mean that all ground equipments must operate on more than one channel. This is not the intent. The ground components must operate on a single frequency assignment; however, the design of the ground equipment must allow for the capability to incorporate any one of the 200 listed channels with minimum adjustment. Accordingly the rule is changed to clarify this fact.

One commenter suggests deleting the requirement for short-term frequency stability. No changes are made since the above requirements are consistent with the SARPS, and the rule is adopted as proposed.

A recommendation is made to delete the requirement for OCI signals and another commenter recommends that OCI be made mandatory on all installations. The FAA does not agree. The OCI pulse requirements are needed to accommodate those sites where OCI signal is necessary to suppress false courses. The need for OCI signal is highly site dependent and not considered essential at all minimum capability system installations. OCI signal remains an option to be provided as needed.

Another commenter states that the preamble of the signal format should indicate carrier transmission termination time. The FAA concurs and a note is added to Tables 2, 4a, 4b, 5, and 7, in § 171.311 explaining that when the "event time slot begins, the previous event time slot ends."

Another commenter recommends that the test pulses of the system test pulse requirements in § 171.311 should be artificially beam shaped. After reevaluation the system test pulse requirements are eliminated as the characteristics of the pulses have not been standardized; however, the time slot is retained.

One commenter suggests deleting the high rate approach azimuth function in § 171.311(f). The FAA concludes that this function has applicable system benefits. The rule is adopted as proposed.

Another commenter requests more information on the meaning of the phrase "undesirable flag action" in § 171.311(i)(2)(ii). After further evaluation the FAA concludes that this phrase is inappropriate and it is deleted. One commenter suggests clarification of the phrase "positive clockwise angles" in § 171.311(i)(2)(iii)(B) as it is ambiguous. The FAA concludes that this phrase is in common use and is widely understood. The rule is adopted as proposed.

One commenter suggests deleting the clearance function in § 171.311(i)(2)(iv) based on the premise that insufficient testing has been performed on this function. This commenter makes this same point again regarding § 171.313. The FAA concludes that the clearance function must be retained as a design option to be required at minimum capability installations where proportional guidance is provided to less than ±40 degrees in accordance with ICAO SARPS. A commenter also suggests that the width of the clearance pulse be equivalent to the scanning beam pulse (150 μs) for a 3° beamwidth. This change is not acceptable since tests of the clearance signal resulted in the optimization of the clearance pulse width as stated. Another commenter states that it is inconsistent to use the phrase "right clearance pulse/left clearance pulse" in the text of § 171.311(i)(2)(iv) and to use the phrase "fly-right clearance pulse/fly-left clearance pulse" in Figure 8 of § 171.311. The FAA concurs and the phrase "fly-right clearance pulse/fly-left clearance pulse" is inserted accordingly. Another commenter recommends deletion of the clearance function in § 171.311(i)(2)(iv) and replacing it with full proportional scan to that angle necessary to overcome erroneous signals which are generated at a particular site by causes such as multipath. The FAA concludes that deletion of the clearance function can optionally be permitted if the required approach guidance sector is provided by proportional guidance and adds a phrase so stating to that section.

Another commenter states that the data element in § 171.311(j)(3) requires ground equipments to do something which is not yet defined. This data element is undefined; however, a space in the timing sequence for the data element remains. In the future, the data transmission of the operational status of the equipment in use will be standardized and defined. A standard format for this Basic Data Word requirement has not been formalized; however, this data word space must be available in the data timing for future use and definition.

One commenter states that the allowable range of the back azimuth distance in Basic Data Word Seven is not balanced against the allowable range of the approach azimuth to threshold distance in Basic Data Word One in § 171.311, Table 8. After further analysis, the FAA concludes that the 3,100 meter (10,000 feet) maximum permitted in Basic Data Word One is sufficient for this application.

Another commenter suggests the need for additional Basic Data regarding DME distance information. The FAA concurs and includes this information in Tables 3 and 8 of § 171.311 and §§ 171.311(j) (17), (18), and (19), as recommended by ICAO.

Additionally, § 171.311(c)(1) and Figure 1 of this section are changed so that the phase transition is made without amplitude modulation and the phase rate of change is consistent with the requirements of paragraph (d) of this section. This change makes the DPSK compatible with the receiver decoding circuit chosen by the Radio Technical Committee on Aeronautics, Special Committee—139 (RTCA SC–139) for MLS receiver standards and as agreed upon by ICAO at the meeting in Montreal in April 1981.

Section 171.313 Azimuth performance requirements.

The performance requirements for the azimuth equipment components of the MLS are listed. Included are requirements concerning approach and back azimuth coverage, siting, accuracy, and antenna coordinates and characteristics.

Some commenters recommend relaxing the accuracy and coverage requirements. Another suggests

establishing various levels or categories of MLS service. The provisions of the SARPS, which were approved for adoption by ICAO in April 1981, served as the technical base for the requirements of the rule. Comments which suggest changes to the accuracy, coverage, signal format, or timing cannot be implemented since this would make the rule inconsistent with SARPS.

One commenter states that there is no means to indicate to the airborne receiver whether the azimuth antenna coordinates are, as permitted in § 171.313(d), conical or planar. The small displacements between conical and planar beams in this sector are operationally acceptable and need not be identified. Further, highest capability users can obtain this information from auxiliary data transmissions, where provided. The rule is adopted as proposed.

One commenter states that a "fundamental problem" exists with including airborne error and ground system error with the specification of accuracy on a system basis in regard to Table 10 in § 171.313. Another commenter, with regard to Table 10, states that the CMN error accuracy requirement should be annotated "for information only" since it was only "a recommendation" in the SARPS. Beam stepping noise is controlled by the CMN value for the ground subsystem. The values stated in Table 10 limit the beam stepping noise of the ground equipment; therefore, it is a requirement rather than a recommendation. The system accuracy numbers give the equipment designer the information he needs on allowances for propagation errors. The rule is adopted as proposed.

One commenter suggests inclusion of the degradation allowance to the approach azimuth accuracy requirement. The FAA concurs and § 171.313(e) is modified to include the degradation allowance to make the rule consistent with the SARPS.

One commenter states that in § 171.313(a)(1) a reduction in the specified ±40 degree coverage sector when intervening obstacles prevent full coverage should be allowed. After further analysis, the FAA concurs. A reduction in the specified ±40 degree coverage sector must be permitted when full coverage is prevented by intervening obstacles. Therefore, a sentence is added to the end of § 171.313(a)(1) to so provide.

One commenter states that in § 171.313(a)(3) the proportional guidance requirements in the runway region do not allow for offset installations for a minimum system. The FAA concludes that this requirement should not apply to azimuth offset installations and, therefore, the statement, "This requirement does not apply to azimuth offset installations," is added to the rule.

One commenter states that in § 171.313(f)(1) the drift requirement for the approach azimuth antenna characteristics should be reduced and furthermore met without internal environmental control equipment. The FAA concludes that the given tolerances are adequate for system performance; however, the FAA agrees that the service conditions should be met without internal environmental control equipment to provide for maximum system availability and integrity and the rule is changed in § 171.313(f)(1) to so require.

One commenter suggests that in § 171.313(f)(2) the beam pointing error be defined, and another commenter states that drift and beam pointing error be deleted due to the inability to separate the two in actual field installations. After further evaluation, the FAA concludes that beam pointing error is defined in § 171.313(f) (1) and (2) as is the requirement that the measurement be made in a multipath free environment. Another commenter suggests that beam pointing error be deleted as it is overly restrictive. Beam pointing error cannot be deleted because it is needed to assure linearity of the azimuth guidance in the centerline region and acceptable PFE when flying orthogonal to the centerline; however, the required coverage within which the beam pointing error applies is reduced from full coverage to ±0.5 degree of the zero degree azimuth.

Several commenters request that § 171.313(f)(3) on boresighting be expanded to include means other than only mechanical or optical for accomplishing the boresight procedure. The FAA concludes that electrical boresighting procedures can be utilized and the option for electrical boresighting is added to the rule. Another commenter requests that the antenna alignment tolerance in this section be relaxed. The FAA does not agree and the antenna alignment tolerance is adopted as proposed to insure system accuracies.

One commenter states that § 171.313(f)(4) refers to "sidelobe levels shown in Figure 10"; however, Figure 10 does not mention sidelobes and therefore reference to sidelobe levels in Figure 10 is deleted. The commenter further states that no minimum beamwidth is specified and that there is no limit to the amount of beam broadening that may occur off boresight of the scanning antenna. The FAA concurs. This section is changed to permit the beamwidth to broaden from the value at boresight by a factor of 1/cos D, where D is the angle off boresight. The scanning beam pulse width is now specified as 0.5 degrees minimum and 5.0 degrees maximum anywhere in proportional coverage. Another commenter suggests expanding this section to include effective sidelobe levels. The FAA concurs and adds a new § 171.313(f)(4)(ii) on effective sidelobe levels. One commenter states that the sidelobe levels specified are three decibels stronger than those shown in specification FAA–ER–700–08C. The change in the rule to specify effective sidelobe levels removes this ambiguity.

One commenter states that in § 171.313(g)(1) the minimum proportional guidance for back azimuth is omitted from the proposed rule. Also, that certain provisions are missing for siting the back azimuth. The FAA concurs and adds a provision for the minimum proportional guidance for back azimuth and provisions for siting the back azimuth in § 171.313(h) (1) through (6).

With reference to § 171.313(g)(4), one commenter states that the back azimuth power density levels are excessive, based on the reduced back azimuth range requirement. After further analysis, the FAA concludes that the minimum power densities required for back azimuth are consistent with the levels required in ICAO SARPS and are not excessive. Another commenter states that back azimuth coverage could be misinterpreted to mean that back azimuth must be provided at all facilities. The requirements for back azimuth in § 171.309 are clearly stated and should not be misinterpreted to mean that back azimuth must be provided at all facilities. The rule is adopted as proposed.

In addition a new § 171.313(f)(6) is added describing the radiation pattern of the data antenna. Also § 171.313(j) is expanded by adding back azimuth accuracy degradation allowances. These requirements were inadvertently omitted from the proposed rule and are now included to be consistent with ICAO SARPS.

Section 171.315 Azimuth monitor system requirements.

This section prescribes monitor systems that must provide an "Executive Alert" to the designated control points if any one of several conditions persist, such as an abnormal reduction in radiated power.

One commenter submits extensive revision to § 171.315 on azimuth monitor requirements. This proposal is not adopted as it is not necessary that the

rule specify the arrangement of the monitor system. Another commenter describes the timing accuracy tolerance (reference Table 11) as unrealistic due to a 10 μsec switching time. He further states that this requirement may also be difficult if not impossible to check during routine maintenance monitor checks. Table 11 specifies the timing tolerances for events internal to the transmitting equipment and is easily measured. The 10 microseconds referenced concern a rise time which occurs subsequent to the event time; therefore, the stated timing accuracy is a realistic requirement. This commenter also advises including degradation allowance in § 171.315(a)(1). The FAA concurs and degradation allowance is included in this section.

One commenter states that when referring to internal timing accuracies in Table 11 of § 171.315 that a specification should be included to indicate that the scan must be symmetrical about the mid scan point. The FAA concurs and adds Note 1 to Table 11 indicating that the tolerances shown therein apply to the timing of the specific events as shown in Tables 2, 4a, 4b, 5 and 7 of § 171.311.

Section 171.317 Approach elevation performance requirements.

The performance requirements for the elevation equipment components of the MLS included are requirements as to elevation coverage, siting, accuracy, and antenna coordinates and characteristics.

This section generated a number of comments. Many of the comments to § 171.313 were either repeated or are similar to the comments in this section. Accordingly, the explanations given earlier are equally valid here and are not repeated.

One commenter states that the threshold crossing height (TCH) requirement of this section does not provide for STOL aircraft. After further analysis, the FAA concludes that elevation siting requirements for STOL operations should be included. Section 171.317(b)(2)(i) is added to the rule to include TCH requirements for STOL aircraft operations.

Several commenters suggest that elevation accuracy degradations of § 171.317(d)(1) be allowed to be consistent with ICAO SARPS. The FAA concurs. This section is changed so that degradation limits are included in the rule to conform to SARPS.

Information relative to the glidepath planar angle was inadvertently omitted in the proposed rule and is now included in § 171.317(b)(2) to be consistent with ICAO SARPS.

Section 171.319 Approach elevation monitor system requirements.

That section prescribes monitor systems that must provide an "Executive Alert" to the designated control points if any one of several conditions persist, such as an abnormal reduction in radiated power.

One commenter states that § 171.319(a)(1) should include a reference to § 171.317(d). The FAA concurs and the reference is added to the rule.

One commenter states that § 171.319(a) should include requirements that when multiple sensor inputs are used to monitor a single parameter, at least two sensors must agree. The FAA disagrees. A monitor must insure integrity; however, it is left to the designer to incorporate specific design parameters. The rule is adopted as proposed.

One commenter suggests deletion in § 171.319(a)(1) of the phrase "consistent with published approach procedures and obstacle clearance criteria." The FAA concurs that the deletion removes an undesirable restriction on monitoring and deletes the phrase.

Section 171.321 DME and marker performance requirements.

DME equipment must meet the performance requirements prescribed in Subpart G of this part and marker beacon equipment must meet the performance requirements prescribed in Subpart H of this part. Both subparts impose requirements that performance features must comply with International Standards and Recommended Practices, Aeronautical Telecommunications, Part I, to ICAO Annex 10.

One commenter suggests including the DME location and the zero range point in this section. After further consideration the FAA concurs and includes in this section the location of the DME and zero range point.

One commenter suggests that a reference to compass locators should be added to § 171.321. The FAA concludes that a compass locator is not part of an MLS and no changes are made in this section.

Section 171.323 Fabrication and installation requirements.

The MLS facility must be permanent in nature, located, and installed in accordance with best commercial engineering practices, and with applicable safety codes and Federal Communications Commission (FCC) licensing requirements. Suitable primary and secondary power sources must be provided. The facility must also have, or be supplemented by ground, air or landline communications services with the location of antenna phase centers and the runway centerline at threshold determined by a survey within certain limits of accuracy.

One commenter states that § 171.323 (a) and (b) appear to be beyond the scope of the minimum requirements, further stating that the requirements of § 171.323 (b), (d), and (e) should be a "market place" item rather than Federal regulations. These requirements are provided to ensure maintainability and integrity of the MLS which is part of the NAS. These are the minimum requirements. No change is made since the requirements as stated are in the best interest of the owner and the NAS and the rule is adopted as proposed.

Two commenters suggest that in § 171.323(b) of the proposed rule traveling wave tube amplifiers (TWTA) should not be excluded from use. The FAA concurs and a phrase is added to § 171.323(b) that in addition to allowing the use of solid state amplifiers the rule permits the use of TWTA.

One commenter states inconsistencies in referencing Tables 10 and 13 for maintenance alerts in § 171.323(c). The FAA concurs and the references to Tables 10 and 13 are deleted from § 171.323(c). Several commenters further state that the requirements for interfacing with FAA remote monitoring are unclear. The FAA concurs and states in § 171.323(d) that this requirement may be complied with by the addition of optional software and/or hardware in space provided in the original equipment. Furthermore, this interface requirement exists only in the event the sponsor requests the FAA to assume ownership of the MLS.

One commenter requests a reduction of the requirement to operate on the battery backup power in § 171.323(h) and also a clarification of the intent that battery power is not required for the environmental subsystem or de-icing. After further analysis, the FAA concurs. The requirement for battery operations was reduced from 3 hours to 2 hours. This reduction will reduce costs and not significantly impact operation. The text further clarifies that radome de-icers and the environmental systems need not operate from the battery during periods when prime power is not available.

One commenter states that in § 171.323(l) the marking and accuracy of the location of the phase centers of the antenna enclosures is beyond the minimum requirements of this regulation. The antenna phase centers must be marked, since this is considered essential in satisfying siting and installation requirements. Furthermore, the accuracy of the established phase centers is considered essential to flight inspection. Experience has shown that

many operational problems have been the result of poor location surveys. Meaningful flight inspection is not possible without precise location of the origin of the signal. Therefore, the FAA concludes that the marking and the accuracy of the location of the phase centers of the antenna enclosures must be a requirement; however, this section is clarified by specifying the two separate accuracy requirements necessary to locate both the MLS datum point and the lateral and vertical offsets from the MLS datum point. The survey accuracy requirement for latitude, longitude and mean sea level elevation of the MLS datum point is ±3 meters (±10 feet) laterally and ±0.3 meter (±1.0 foot) vertically, while the accuracy for lateral and vertical offsets from the MLS datum point for the other elements referenced to it is ±0.3 meter (±1.0 foot) laterally and ±0.03 meter (±0.1 foot) vertically. Another commenter requests clarification on who is to conduct the survey. The responsibility for conducting the antenna phase center survey is clarified in this Section and clearly states that the owner must bear all costs of the survey.

Section 171.325 Maintenance and operations requirements.

The owner of the facility must establish an adequate maintenance system and provide qualified maintenance personnel to maintain the facility at the level attained at the time it was commissioned. The owner must have an approved operations and maintenance manual that sets forth the mandatory procedures for operations and periodic and emergency maintenance.

One commenter questions the requirement in § 171.325(a) for written approval of the qualification of maintenance personnel. This requirement is deleted since the criteria for its application are not finalized. One commenter states that procedures in § 171.325(c)(17) for conducting ground checks of the DME and marker beacon are not described. The requirement to ground check DME and marker beacons is deleted as no formal procedure exists for ground checking these components.

One commenter states that § 171.325(e) on equipment modifications is ambiguous in that it is not clear whether or not manufacturers' suggested modifications are mandatory. The FAA concurs. The statement was ambiguous and the paragraph is revised so that all FAA approved modifications must be accomplished.

One commenter states that § 171.325(g) could permit various FAA regions to establish changes and maintenance procedures without public process and concludes that this provision should be deleted. After further analysis, the FAA concurs. FAA regions should not be permitted to establish changes and maintenance procedures, therefore, § 171.325(g) is deleted from the rule. One commenter states that requirements for FAA approved test equipment in § 171.325(i) is outside the scope of the MLS proposal. The FAA concludes that the test equipment used on the NAS facilities must be approved by the FAA to insure system integrity and is within the scope of the proposal. The rule is adopted as proposed.

One commenter suggests that the inservice test evaluation of the system in § 171.325(k) should be made more specific to avoid multiple interpretations in the field. The FAA concurs and adds information to this section specifying the frequency of checking the monitor and the length of the burn-in time. Another commenter suggests adding the DME to the list of equipment being checked in § 171.325(k). The FAA concurs and the DME is added.

Section 171.327 Operational Records.

The owner of the facility, or his maintenance representative, must submit the following data at the indicated time to the appropriate FAA regional office: (1) Facility Equipment Performance and Adjustment Data (FAA Form 198); (2) Facility Maintenance Log (FAA Form 6030-1); and (3) Technical Performance Records (FAA Form 6830).

One commenter questions whether or not the forms referenced in this section contained reasonable data requirements as the specific forms were not included in the proposed rule for examination. The FAA concludes that these forms are necessary and they are required in all other non-Federal facilities. These forms constitute a record establishing a description and the operational performance requirements for each components of the MLS. The rule is adopted as proposed.

VI. The Amendment

Accordingly, Part 171 of the Federal Aviation Regulations (14 CFR Part 171) is amended, effective December 17, 1981, by adding a new Subpart J to read as follows:

PART 171—NON-FEDERAL NAVIGATION FACILITIES

* * * * *

Subpart J—Microwave Landing System (MLS)

Sec.
171.301 Scope.
171.303 Definitions.
171.305 Requests for IFR procedure.
171.307 Minimum requirements for approval.
171.309 General requirements.
171.311 Signal format requirements.
171.313 Azimuth performance requirements.
171.315 Azimuth monitor system requirements.
171.317 Approach elevation performance requirements.
171.319 Approach elevation monitor system requirements.
171.321 DME and marker beacon performance requirements.
171.323 Fabrication and installation requirements.
171.325 Maintenance and operations requirements.
171.327 Operational records.

Authority: Secs. 305, 307, 313(a), 601, and 606, Federal Aviation Act of 1958, as amended (49 U.S.C. 1346, 1348, 1354(a), 1421, 1426); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

Subpart J—Microwave Landing System (MLS)

§ 171.301 Scope.

This subpart sets forth minimum requirements for the approval, installation, operation and maintenance of non-Federal Microwave Landing System (MLS) facilities that provide the basis for instrument flight rules (IFR) and air traffic control procedures.

§ 171.303 Definitions.

As used in this subpart:

"Back azimuth reference datum" means a point located 15 meters (50 feet) above the runway centerline at the runway midpoint.

"Basic data" means data transmitted by the ground equipment that are associated directly with the operation of the landing guidance system.

"Beamwidth" means the width of the scanning beam main lobe measured at the −3 dB points and defined in angular units on the boresight, in the horizontal plane for the azimuth function and in the vertical plane for the elevation function.

"Clearance guidance sector" means the volume of airspace, inside the coverage sector, within which the azimuth guidance information provided is not proportional to the angular displacement of the aircraft, but is a constant fly-left or fly-right indication of the direction relative to the approach course the aircraft should proceed in order to enter the proportional guidance sector.

"Control Motion Noise (CMN)" means those fluctuations in the guidance which

affect aircraft attitude, control surface motion, column motion, and wheel motion. Control motion noise is evaluated by filtering the flight error record with a band-pass filter which has corner frequencies at 0.3 radian/sec and 10 radians/sec for azimuth data and 0.5 radian/sec and 10 radians/sec for elevation data.

"Data rate" means the average number of times per second that transmissions occur for a given function.

"Differential Phase Shift Keying (DPSK)" means differential phase modulation of the radio frequency carrier with relative phase states of 0 degree or 180 degrees.

"Failure" means the inability of an item to perform within previously specified limits.

"Guard time" means an unused period of time provided in the transmitted signal format to allow for equipment tolerances.

"Integrity" means that quality which relates to the trust which can be placed in the correctness of the information supplied by the facility.

"Mean corrective time" means the average time required to correct an equipment failure over a given period, after a service technician reaches the facility.

"Mean course error" means the mean value of the azimuth error along a specified radial of the azimuth function.

"Mean glide path error" means the mean value of the elevation error along the glidepath of the elevation function.

"Mean time between failures (MTBF)" means the average time between equipment failures over a given period.

"Microwave Landing System (MLS)" means the MLS selected by ICAO for international standardization.

"Minimum glidepath" means the lowest angle of descent along the zero degree azimuth that is consistent with published approach procedures and obstacle clearance criteria.

"MLS approach reference datum" means a point 15 meters (50 feet) above the runway threshold on the minimum glidepath.

"MLS back azimuth reference datum" means a point 15 meters (50 feet) above the runway centerline at the runway midpoint.

"MLS datum point" means a point defined by the intersection of the runway centerline with a vertical plane perpendicular to the centerline and passing through the elevation antenna phase center.

"Out of Coverage Indication (OCI)" means a signal radiated into areas outside the intended coverage sector where required to specifically prevent invalid removal of an airborne warning indication in the presence of misleading guidance information.

"Path Following Error (PFE)" means the guidance perturbations which could cause aircraft displacement from the desired course or glidepath. It is composed of a path following noise and of the mean course error in the case of azimuth functions, or the mean glidepath error in the case of elevation functions. Path following errors are evaluated by filtering the flight error record with a second order low pass filter which has a corner frequency at 0.5 radian/sec for azimuth data or 1.5 radians/sec for elevation data.

"Path Following Noise (PFN)" means that portion of the guidance signal error which could cause aircraft displacement from the actual mean course line or mean glidepath as appropriate.

"Split-site ground station" means the type of ground station in which the azimuth portion of the ground station is located on the centerline beyond the stop end of the runway, and the elevation portion is located alongside the runway near the approach end.

"Time Division Multiplex (TDM)" means that each function is transmitted on the same frequency in time sequence, with a distinct preamble preceding each function transmission.

§ 171.305 Requests for IFR procedure.

(a) Each person who requests an IFR procedure based on an MLS facility which that person owns must submit the following information with that request:

(1) A description of the facility and evidence that the equipment meets the performance requirements of §§ 171.309, 171.311, 171.313, 171.315, 171.317, 171.319, and 171.321 and is fabricated and installed in accordance with § 171.323.

(2) A proposed procedure for operating the facility.

(3) A proposed maintenance organization and a maintenance manual that meets the requirements of § 171.325.

(4) A statement of intent to meet the requirements of this subpart.

(5) A showing that the facility has an acceptable level of operational reliability and an acceptable standard of performance. Previous equivalent operational experience with a facility with identical design and operational characteristics will be considered in showing compliance with this subparagraph.

(b) FAA inspects and evaluates the MLS facility; it advises the owner of the results, and of any required changes in the MLS facility or in the maintenance manual or maintenance organization. The owner must then correct the deficiencies, if any, and operate the MLS facility for an in-service evaluation by the FAA.

§ 171.307 Minimum requirements for approval.

(a) The following are the minimum requirements that must be met before the FAA approves an IFR procedure for a non-Federal MLS facility:

(1) The performance of the MLS facility, as determined by flight and ground inspection conducted by the FAA, must meet the requirements of §§ 171.309, 171.311, 171.313, 171.315, 171.317, 171.319, and 171.321.

(2) The fabrication and installation of the equipment must meet the requirements of § 171.323.

(3) The owner must agree to operate and maintain the MLS facility in accordance with § 171.325.

(4) The owner must agree to furnish operational records as set forth in § 171.327 and agree to allow the FAA to inspect the facility and its operation whenever necessary.

(5) The owner must assure the FAA that he will not withdraw the MLS facility from service without the permission of the FAA.

(6) The owner must bear all costs of meeting the requirements of this section and of any flight or ground inspection in accordance with the FAA Flight Inspection Manual made before the MLS facility is commissioned, except that the FAA may bear certain costs subject to budgetary limitations and policy established by the Administrator. Incorporated by reference is Flight Inspection Manual, FAA Handbook 8200.1 through change 35, dated May 15, 1981, which prescribed standardized procedures for flight inspection of air navigation facilities. It is available from the National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22161 and also available for inspection at the Office of the Federal Register Information Center, Room 8301, 1100 L Street, NW., Washington, D.C., 20408.

(b) [Reserved]

§ 171.309 General requirements.

The MLS is a precision approach and landing guidance system which provides position information and various ground-to-air data. The position information is provided in a wide coverage sector and is determined by an azimuth angle measurement, an elevation angle measurement and a range (distance) measurement.

(a) An MLS constructed to meet the requirements of this subpart must include:

(1) Approach azimuth equipment, associated monitor, remote control and indicator equipment.

(2) Approach elevation equipment, associated monitor, remote control and indicator equipment.

(3) A means for the transmission of basic data words, associated monitor, remote control and indicator equipment.

(4) Distance measuring equipment (DME), associated monitor, remote control and indicator equipment.

(5) Remote controls for paragraph (a) (1), (2), (3), and (4) of this section must include as a minimum on/off and reset capabilities and may be integrated in the same equipment.

(6) At locations where a VHF marker beacon (75 MHz) is already installed, it may be used in lieu of the DME equipment.

(b) In addition to the equipment required in paragraph (a) of this section the MLS may include:

(1) Back azimuth equipment, associated monitor, remote control and indicator equipment.

(2) A wider proportional guidance sector which exceeds the minimum specified in §§ 171.313 and 171.317.

(3) Precision DME, associated monitor, remote control and indicator equipment.

(4) VHF marker beacon (75 MHz), associated monitor, remote control and indicator equipment.

(5) The MLS signal format will accomodate additional functions (e.g., flare elevation) which may be included as desired. Remote controls for paragraphs (b) (1), (2) and (3) of this section must include as a minimum on/off and reset capabilities, and may be integrated in the same equipment.

(c) MLS ground equipment must be designed to operate on a nominal 120/240 volt, 60 Hz, 3-wire single phase AC power source and must meet the following service conditions:

(1) AC line parameters, DC voltage, elevation and duty:

120 VAC nominal value—102 V to 138 V (±1 V)*
240 VAC nominal value—204 V to 276 V (±2 V)*
60 Hz AC line frequency—57 Hz to 63 Hz (±0.2 Hz)*
24 VDC nominal value—20 V to 30 V (±0.25 V)*

*Note.—Where discrete values of the above frequency or voltages are specified for testing purposes, the tolerances given in parentheses indicated by an asterisk apply to the test instruments used to measure these parameters.

Elevation—0 to 3,000 meters (10,000 feet) above sea level
Duty—Continuous, unattended

(2) Ambient conditions within the shelter for electronic equipment installed in shelters are:

Temperature, −10°C to +50°C
Relative humidity, 5% to 90%

(3) Ambient conditions for electronic equipment and all other equipment installed outdoors (for example, antenna, field detectors, and shelters):

Temperature, −50°C to +70°C
Relative humidity, 5% to 100%

(4) All equipment installed outdoors must operate satisfactorily under the following conditions:

Wind Velocity: The ground equipment shall remain within monitor limits with wind velocities of up to 70 knots from such directions that the velocity component perpendicular to runway centerline does not exceed 35 knots. The ground equipment shall withstand winds up to 100 knots from any direction without damage.
Hail Stones: 1.25 centimeters (½ inch) diameter.
Rain: Provide required coverage with rain falling at a rate of 50 millimeters (2 inches) per hour, through a distance of 9 kilometers (5 nautical miles) and with rain falling at the rate of 25 millimeters (1 inch) per hour for the additional 28 kilometers (15 nautical miles).
Ice Loading: Encased in 1.25 centimeters (½ inch) radial thickness of clear ice.
Antenna Radome De-Icing: Down to −6°C (20°F) and wind up to 35 knots.

(d) The transmitter frequencies of an MLS must be in accordance with the frequency plan approved by the FAA.

(e) The DME component listed in paragraph (a)(4) of this section must comply with the minimum standard performance requirements specified in Subpart G of this part.

(f) The marker beacon components listed in paragraph (b)(4) of this section must comply with the minimum standard performance requirements specified in Subpart H of this part.

§ 171.311 Signal format requirements.

The signals radiated by the MLS must conform to the signal format in which angle guidance functions and data functions are transmitted sequentially on the same C-band frequency. Each function is identified by a unique digital code which initializes the airborne receiver for proper processing. The signal format must meet the following minimum requirements:

(a) *Frequency Assignment.* The ground components (except DME/Marker Beacon) must operate on a single frequency assignment or channel, using time division multiplexing. These components must be capable of operating on any one of the 200 channels spaced 300 KHz apart with center frequencies from 5031.0 MHz to 5090.7 MHz and with channel numbering as shown in Table 1. The operating radio frequencies of all ground components must not vary by more than ±10 KHz from the assigned frequency. Any one transmitter frequency must not vary more than ±50 Hz in any one second period.

TABLE 1.—FREQUENCY CHANNEL PLAN

Channel No.	Frequency (MHz)
500	5031.0
501	5031.3
502	5031.6
503	5031.9
504	5032.2
505	5032.5
506	5032.8
507	5033.1
508	5033.4
509	5033.7
510	5034.0
511	5034.3
598	5060.4
599	5060.7
600	5061.0
601	5061.3
698	5090.4
699	5090.7

(b) *Polarization.* (1) The radio frequency emissions from all ground equipment must be nominally vertically polarized. Any horizontally polarized radio frequency emission component from the ground equipment must not have incorrectly coded angle information such that the limits specified in paragraphs (b)(2) and (3), of this section are exceeded.

(2) Rotation of the receiving antenna thirty degrees from the vertically polarized position must not cause the guidance information to change by more than 40% of the allowable path following error applicable at that location.

(3) All system accuracy limits must be met with the receiving antenna up to thirty degrees from the vertically polarized position.

(c) *Modulation Requirements.* Each function transmitter must be capable of DPSK and continuous wave (CW) modulations of the RF carrier which have the following characteristics:

(1) *DPSK.* The DPSK signal must have the following characteristics:

bit rate	15.625KHz
bit length	64 usec.
logic "0"	no phase transition
logic "1"	phase transition
phase transition	less than 10μsec.
phase tolerance	± 10 degrees

It is intended that the phase transition be made without amplitude modulation. Figure 1 illustrates the phase characteristics of two logic "1" bits in sequence. Control must be such that the time interval for phase transition does not exceed 10μsec and the phase rate of change is consistent with the requirements of paragraph (d) of this section. The phase characteristic inside

section. The phase characteristic inside the transition region must be as linear as possible and in no case deviate more than ± 90 degrees from a linear transition.

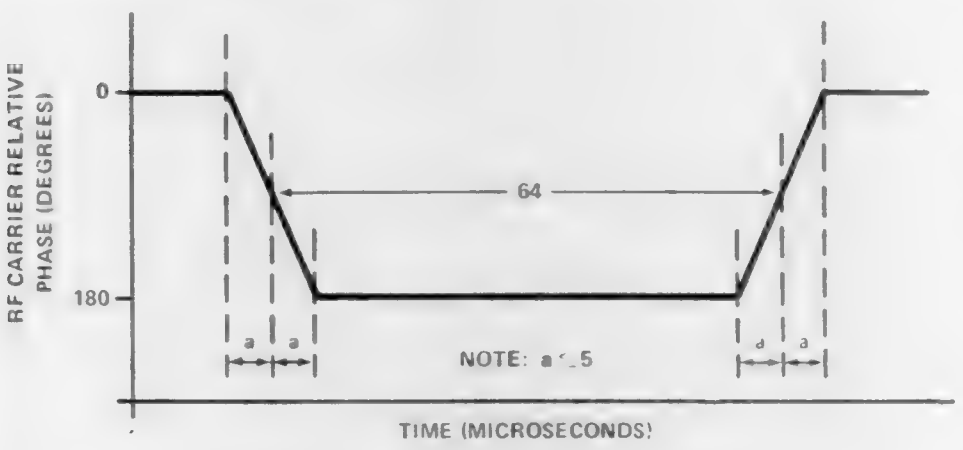

FIGURE 1. DPSK PHASE CHARACTERISTICS

(2) *CW.* The CW pulse transmissions and the CW angle transmissions as may be required in the signal format of any function must have characteristics such that the requirements of paragraph (d) of this section are met.

(d) *Radio Frequency Signal Spectrum.* The transmitted signal must be such that during the transmission time, the mean power density above a height of 600 meters (2000 feet) does not exceed −100.5 dBW/m² for angle guidance and −95.5 dBW/m² for data, as measured in 150 KHz bandwidth centered at a frequency of 840 KHz or more from the assigned frequency.

(e) *Synchronization.* Synchronization between the azimuth and elevation components is required and, in split-site configurations, would normally be accomplished by landline interconnections. Synchronization monitoring must be provided to preclude function overlap.

(f) *Transmission Rates.* Angle guidance and data signals must be transmitted at the following average repetition rates:

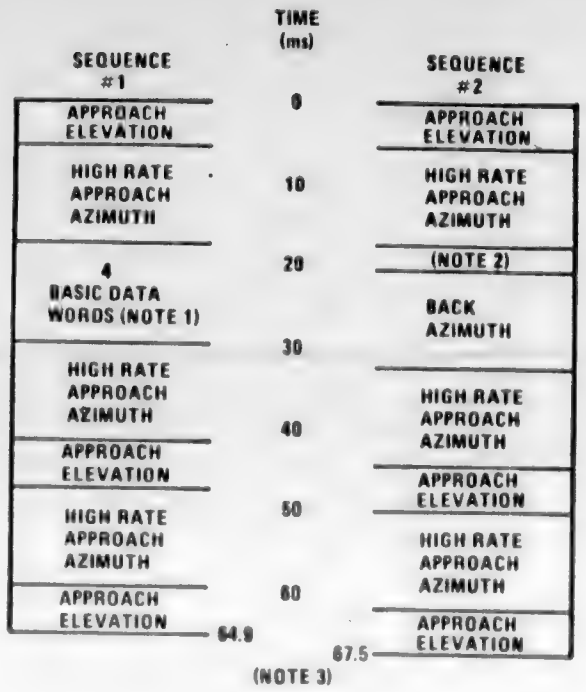
Function	Average data rate (Hertz per second)
Approach Azimuth	13 ± 0.5
High Rate Approach Azimuth	[1] 39 ± 1.5
Approach Elevation	39 ± 1.5
Back Azimuth	6.5 ± 0.25
Basic Data	[2]

[1] The higher rate is recommended for azimuth scanning antennas with beamwidths greater than two degrees. It should be noted that the time available in the signal format for additional functions is limited when the higher rate is used.

[2] Refer to Basic Data Functions Timing, Table 7

(g) *Transmission Sequences.* Sequences of angle transmissions which will generate the required repetition rates are shown in Figures 2 and 3.

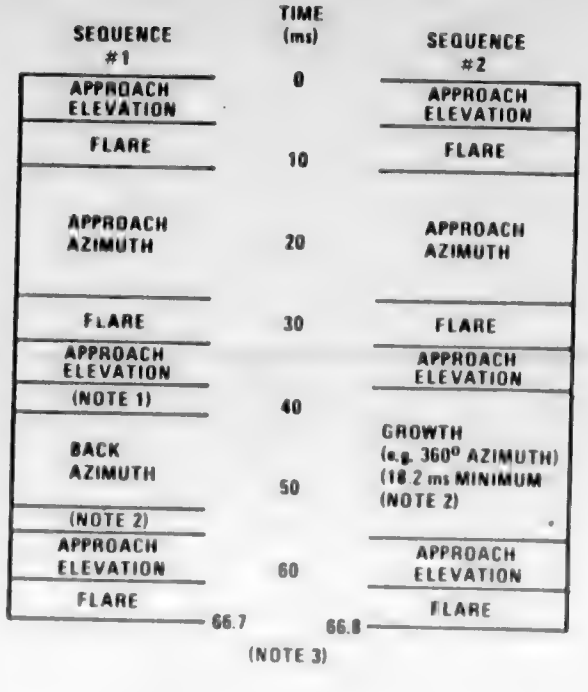
BILLING CODE 4910-13-M



NOTES:

1. BASIC DATA WORDS MAY BE TRANSMITTED IN ANY OPEN TIME PERIODS.
2. WHEN BACK AZIMUTH IS PROVIDED, BASIC DATA WORD #2 MUST BE TRANSMITTED ONLY IN THIS POSITION.
3. THE TOTAL TIME DURATION OF SEQUENCE #1 PLUS SEQUENCE #2 MUST NOT EXCEED 134 ms.

FIGURE 3. TRANSMISSION SEQUENCE PAIR WHICH PROVIDES FOR THE MLS HIGH RATE APPROACH AZIMUTH ANGLE GUIDANCE FUNCTION



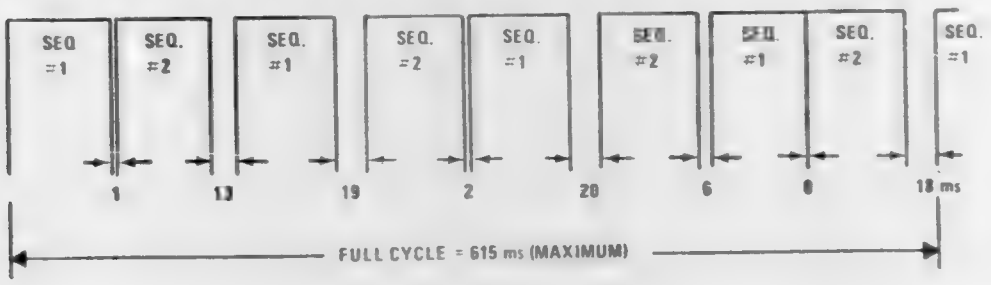
NOTES:

1. WHEN BACK AZIMUTH IS PROVIDED, BASIC DATA WORD #2 MUST BE TRANSMITTED ONLY IN THIS POSITION.
2. BASIC DATA WORDS MAY BE TRANSMITTED IN ANY OPEN TIME PERIODS.
3. THE TOTAL TIME DURATION OF SEQUENCE #1 PLUS SEQUENCE #2 MUST NOT EXCEED 134 ms.

FIGURE 2. TRANSMISSION SEQUENCE PAIR WHICH PROVIDES FOR ALL MLS ANGLE GUIDANCE FUNCTIONS

BILLING CODE 4910-13-C

(h) *TDM Cycle.* The time periods between angle transmission sequences must be varied so that exact repetitions do not occur within periods of less than 0.5 second in order to protect against synchronous interference. One such combination of sequences is shown in Figure 4 which forms a full multiplex cycle. Basic data may be transmitted during suitable open times within or between the sequences.



NOTE: Angle sequences are those from Figure 2 or 3. Do not mix sequences.

FIGURE 4. A COMPLETE FUNCTION MUTIPLEX CYCLE

(i) *Function Formats (General).* Each angle function must contain the following elements: A preamble; sector signals; and a TO and FRO angle scan organized as shown in Figure 5a. Each data function must contain a preamble and a data transmission period organized as shown in Figure 5b.

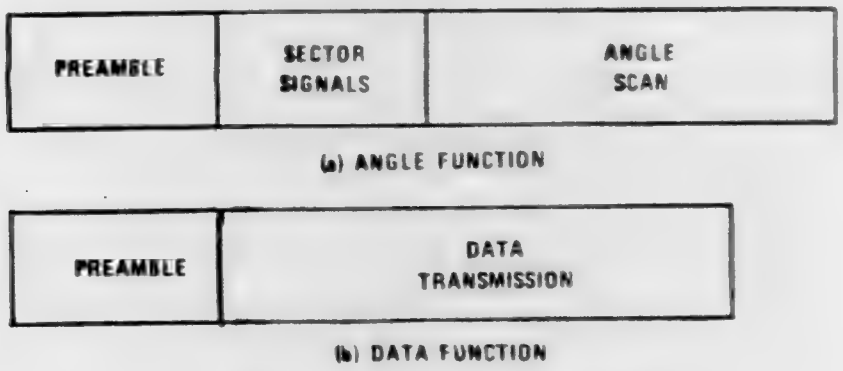


FIGURE 5. FUNCTION FORMAT

(1) *Preamble Format.* The transmitted angle and data functions must use the preamble format shown in Figure 6. This format consists of a carrier acquisition period of unmodulated CW transmission followed by a receiver synchronization code and a function identification code. The preamble timing must be in accordance with Table 2.

FIGURE 6.—PREAMBLE ORGANIZATION

	Carrier acquisition	Synchronization code	Function identification code
Clock pulse 0	13	18	25

(i) *Digital Codes.* The coding used in the preamble for receiver synchronization is a Barker code logic 11101. Receiver timing is established on the transition to the last bit (I_5) of the code (see Table 2). The function identification codes must be as shown in Table 3. The last two bits (I_{11} and I_{12}) of the code are parity bits obeying the equations:

$I_6+I_7+I_8+I_9+I_{10}+I_{11}=\text{Even}$
$I_8+I_9+I_{10}+I_{12}=\text{Even}$

(ii) *Data Modulation.* The digital code portions of the preamble must be DPSK modulated in accordance with § 171.311(c)(1) and must be transmitted throughout the function coverage volume.

TABLE 2.—PREAMBLE TIMING [1]

Event	Event time slot begins at [2]	
	15.625 kHz clock pulse (number)	Time (milliseconds)
Carrier acquisition (CW transmission)	0	0
Receiver reference time code		
$I_1=1$	13	0.832
$I_2=1$	14	0.896
$I_3=1$	15	0.960
$I_4=0$	16	1.024
$I_5=1$	17	[3] 1.088
Function identification code		
I_6	18	1.152
I_7	19	1.216

I_{10}	22	1.408
I_{11}	23	1.472
I_{12}	24	1.536
End preamble	25	1.600

[1] Applies to all functions transmitted.
[2] The previous event time slot ends at this time.
[3] Reference time for receiver synchronization for all function timing.

TABLE 3.—FUNCTION IDENTIFICATION CODES

Function	Code						
	I_6	I_7	I_8	I_9	I_{10}	I_{11}	I_{12}
Approach azimuth	0	0	1	1	[illegible]	[illegible]	1
High rate approach azimuth	[illegible]	[illegible]	1	0	1	0	0
Approach elevation	1	1	[illegible]	0	0	0	1
Back azimuth	1	[illegible]	[illegible]	1	0	0	1
Basic data 1	0	1	0	1	0	0	0
Basic data 2	0	1	1	1	1	0	[illegible]
Basic data 3	1	[illegible]	1	0	0	1	[illegible]
Basic data 4	1	[illegible]	[illegible]	0	1	1	0
Basic data 5	1	1	[illegible]	1	1	0	0
Basic data 6	0	[illegible]	0	1	1	0	1
Basic data 7	1	1	1	0	0	1	0
Basic data 8	1	[illegible]	1	0	1	1	1

(2) *Angle Function Formats.* The timing of the angle transmissions must be in accordance with Tables 4a, 4b, and 5. The actual timing of the TO and FRO scans must be as required to meet the accuracy requirements of §§ 171.313 amd 171.317.

(i) *Preamble.* Must be in accordance with requirements of § 171.311(i)(1).

(ii) *Sector Signals.* In all azimuth formats, sector signals must be transmitted to provide Morse Code identification, airborne antenna selection, and system test signals. These signals are not required in the elevation

formats. In addition, if the signal from an installed ground component results in a valid indication in an area where no valid guidance exists, OCI signals must be radiated as provided for in the signal format (see Tables 4a, 4b, and 5). The sector signals are defined as follows:

(A) *Morse Code.* DPSK transmissions that will permit Morse Code facility identification in the aircraft by a four letter code starting with the letter "M" must be included in all azimuth functions. They must be transmitted and repeated at approximately equal intervals, not less than six times per minute, during which time the ground subsystem is available for operational use. When the transmissions of the ground subsystem are not available, the identification signal must be suppressed. The audible tone in the aircraft is started by setting the Morse Code bit to logic "1" and stopped by a logic "0" (see Tables 4a and 4b). The identification code characteristics must conform to the following: The dot must be between 0.13 and 0.16 second in duration, and the dash between 0.39 and 0.48 second. The duration between dots and/or dashes must be one dot plus or minus 10%. The duration between characters (letters) must not be less then three dots.

(B) *Airborne Antenna Selection.* A signal for airborne antenna selection shall be transmitted as a "zero" DPSK signal lasting for a six-bit period (See Tables 4a and 4b).

TABLE 4a.—APPROACH AZIMUTH FUNCTION TIMING

Event	Event time slot begins at: [1] 15.625 kHz clock pulse (number)	Time (milliseconds)
Preamble	0	0
Morse code	25	1.600
Antenna select	26	1.664
Rear OCI	32	2.048
Left OCI	34	2.176
Right OCI	36	2.304
TO test	38	2.432
TO scan [2]	40	2.560
Pause		8.760
Mid scan point		9.060
FRO scan [2]		9.360
FRO test		15.560
End function (airborne)		15.688
End guard time; end function (ground)		15.900

[1] The previous event time slot ends at this time.
[2] The actual commencement and completion of the TO and FRO scan transmissions are dependent on the amount of proportional guidance provided. The time slots provided will accommodate a maximum scan of ±62 degrees. Scan timing must be compatible with accuracy requirements.

TABLE 4b.—HIGH RATE APPROACH AZIMUTH AND BACK AZIMUTH FUNCTION TIMING

Event	Event time slot begins at: [1] 15.625 kHz clock pulse (number)	Time (milliseconds)
Preamble	0	0
Morse code	25	1.600
Antenna select	26	1.664
Rear OCI	32	2.048
Left OCI	34	2.176
Right OCI	36	2.304
TO test	38	2.432

FRO test		11.560
End function (airborne)		11.688
End guard time; end function (ground)		11.900

[1] The previous event time slot ends at this time.
[2] The actual commencement and completion of the TO and FRO scan transmissions are dependent upon the amount of proportional guidance provided. The time slots provided will accommodate a maximum scan of ±42 degrees. Scan timing must be compatible with accuracy requirements.

TABLE 5.—APPROACH ELEVATION FUNCTION TIMING

Event	Event time slot begins at: [1] 15.625 kHz clock pulse (number)	Time (milliseconds)
Preamble	0	0
Processor pause	25	1.600
OCI	27	1.728
TO scan [2]	29	1.856
Pause		3.406
Mid scan point		3.606
FRO scan [2]		3.806
End function (airborne)		5.356
End guard time; end function (ground)		5.600

[1] The previous event time slot ends at this time.
[2] The actual commencement and completion of the TO and FRO scan transmissions are dependent upon the amount of proportional guidance provided. The time slots provided will accommodate a maximum scan of −1.5 degrees to +29.5 degrees. Scan timing must be compatible with accuracy requirements.

(C) *OCI.* Where OCI pulses are used, they must be: (*1*) Greater than any guidance signal in the OCI sector; (*2*) at least 5dB less than the level of the scanning beam within the proportional guidance sector; and (*3*) for azimuth functions with clearance signals, at least 5dB less than the level of the left (right) clearance pulses within the left (right) clearance sector. The duration of each pulse measured at the half amplitude points must be 100 (±10) microseconds and the rise and fall times must be less than 10 microseconds.

Note.—If desired, two pulses may be sequentially transmitted in each OCI time slot. Where pulse pairs are used, the duration of each pulse must be 45 (±5) microseconds and the rise and fall times must be less than 10 microseconds.

(D) *System Test.* Time slots are provided in Tables 4a and 4b to allow radiation of TO and FRO test pulses. Radiation of these pulses is not required, however, since the characteristics of these pulses have not yet been standardized.

(iii) *Angle encoding.* The encoding must be as follows:

(A) *General.* Azimuth and elevation angles are encoded by scanning a narrow beam between the limits of the proportional coverage sector first in one direction (the "TO" scan) and then in the opposite direction (the "FRO" scan). Angular information must be encoded by the amount of time separation between the beam centers of the TO and FRO scanning beam pulses. The TO and FRO transmissions must be symmetrically disposed about the midscan point listed in Table 4a, 4b, 5, and 7. The midscan point and the center of the time interval between the TO and FRO scan transmissions must coincide with a tolerance of ±10 μsec. Angular coding must be linear with angle and properly decoded using the formula:

$$\theta = \frac{V}{2}(T_o - t)$$ where:

θ = Receiver angle in degrees
V = Scan velocity in degrees per microsecond
T_o = Time separation in microseconds between TO and FRO beam centers corresponding to zero degrees.
t = Time separation in microseconds between TO and FRO beam centers

The timing requirements are listed in Table 6 and illustrated in Figure 7.

TABLE 6.—ANGLE SCAN TIMING CONSTANTS

Function	Max value of t_1 (μsec)	T_o (μsec)	V(deg/μsec)	T_m (μsec)	Pause time (μsec)	T_1 (μsec)
Approach azimuth	13,000	6,800	0.02	7,972	600	13,128
High rate approach azimuth	9,000	4,800	02	5,972	[illegible]	9,128
Approach elevation	3,500	3,350	.02	2,518	400	NA
Back azimuth	9,000	4,800	.02	5,972	600	9,128

BILLING CODE 4910-13-M

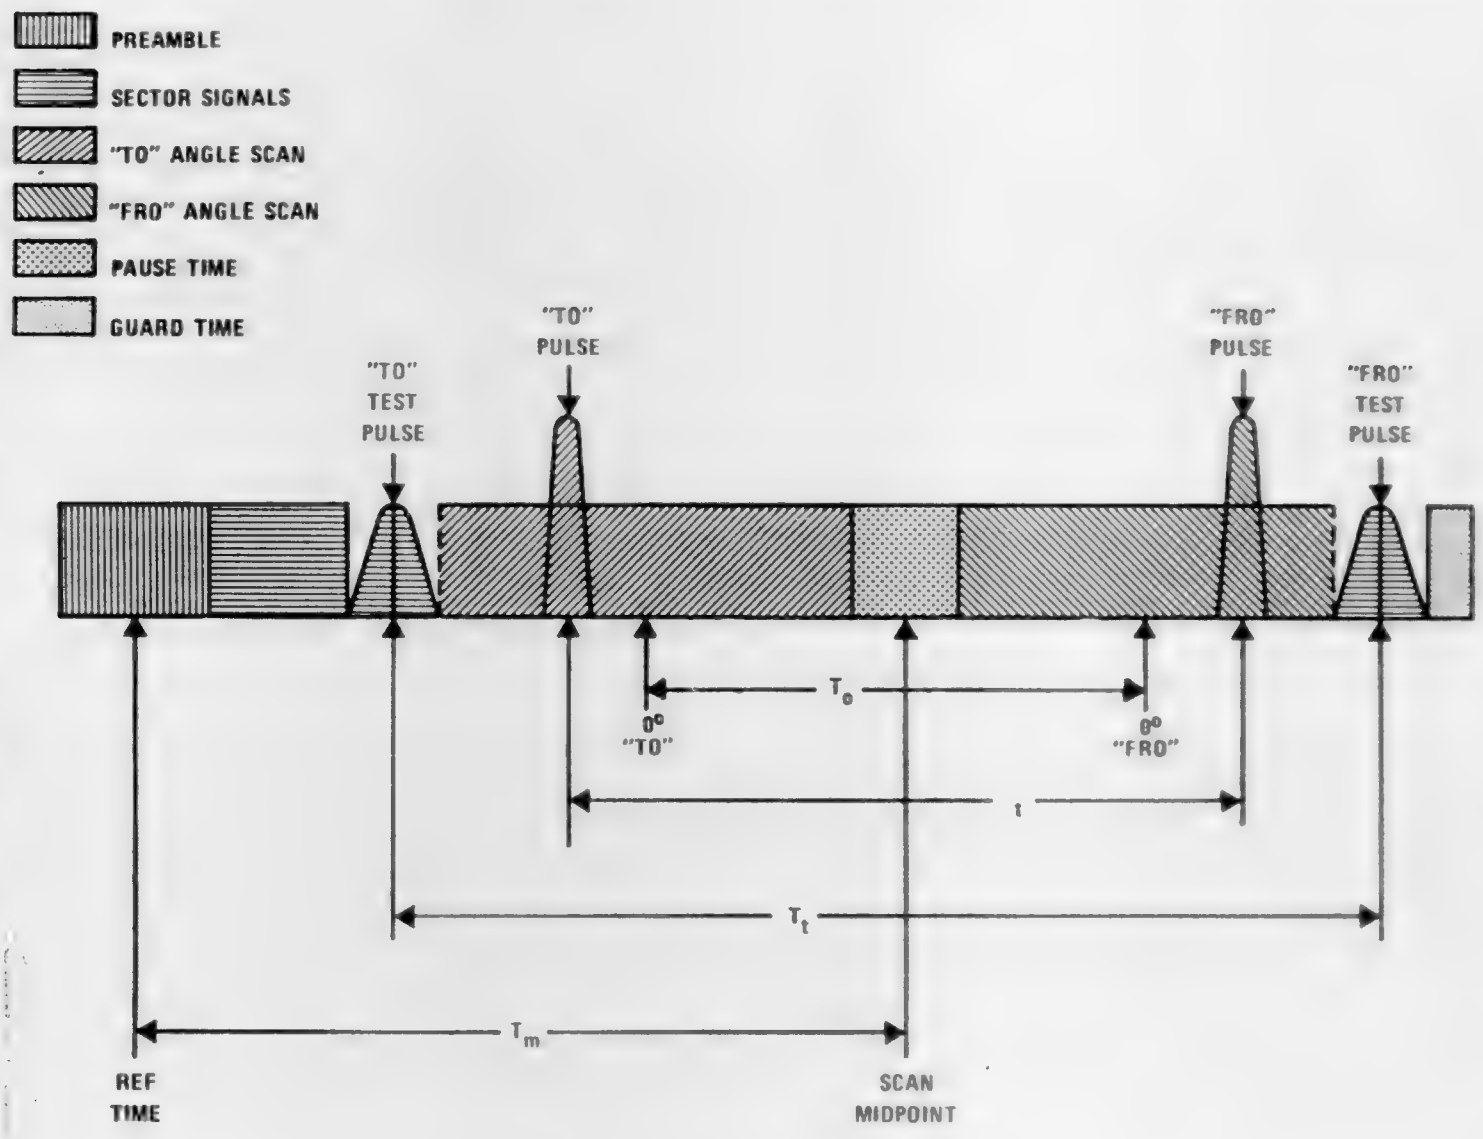

FIGURE 7. AZIMUTH ANGLE SCAN TIMING (NOT TO SCALE)

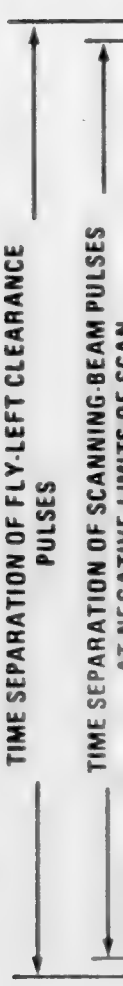
BILLING CODE 4910-13-C

(B) *Azimuth Angle Encoding.* The radiation from azimuth equipment must produce a beam that scans from negative to positive azimuth angles and then scans back through the proportional coverage sector. The antenna has a narrow beam in the plane of the scan direction and a broad beam in the orthogonal plane which fills the vertical coverage. Increasing positive angles must be seen as a clockwise rotation when viewed from above. Zero angle must be defined along the midpoint of the proportional sector.

(C) *Elevation Angle Encoding.* The radiation from elevation equipment must produce a beam which scans from the horizon up to the highest elevation angle and then scans back down to the horizon. The antenna has a narrow beam in the plane of the scan direction and a broad beam in the orthogonal plane which fills the horizontal coverage. Elevation angles are defined from the horizonal plane containing the antenna phase center; positive angles are above the horizontal and zero angle is along the horizontal.

(iv) *Clearance Guidance.* The timing of the clearance pulses must be in accordance with figure 8. For azimuth elements with proportional coverage of less than ±40 degrees, clearance guidance information must be provided by transmitting pulses in a TO and FRO format adjacent to the stop/start times of the scanning beam signal. The fly right clearance pulses must represent positive angles and the fly left clearance pulses must represent negative angles. The duration of each clearance pulse must be 50 microseconds with a tolerance of ±5 microseconds. The transmitter switching time between the clearance pulses and the scanning beam transmissions must not exceed 10 microseconds. The rise time at the edge of each clearance pulse must be less than 10 microseconds. In the right clearance guidance sector, the transmitted fly right clearance pulses must exceed the transmitted fly left clearance pulses by more than 15 dB and must exceed the sidelobes of the scanning beam signal by at least 5 dB. The fly right clearance pulses must be at least 5 dB below the scanning beam leval at the scanning beam positive angle scan limit. The converse applies to the fly left clearance guidance sector. Clearance guidance pulses must be at least 5 dB greater than any other signal in the appropriate clearance sector. Optionally, clearance guidance may be provided by scanning throughout the approach guidance sector. For angles outside the approach azimuth proportional coverage limits as set in Basic Data Word One, proper decode and display of clearance guidance must occur to the limits of the guidance region.

BILLING CODE 4910-13-M



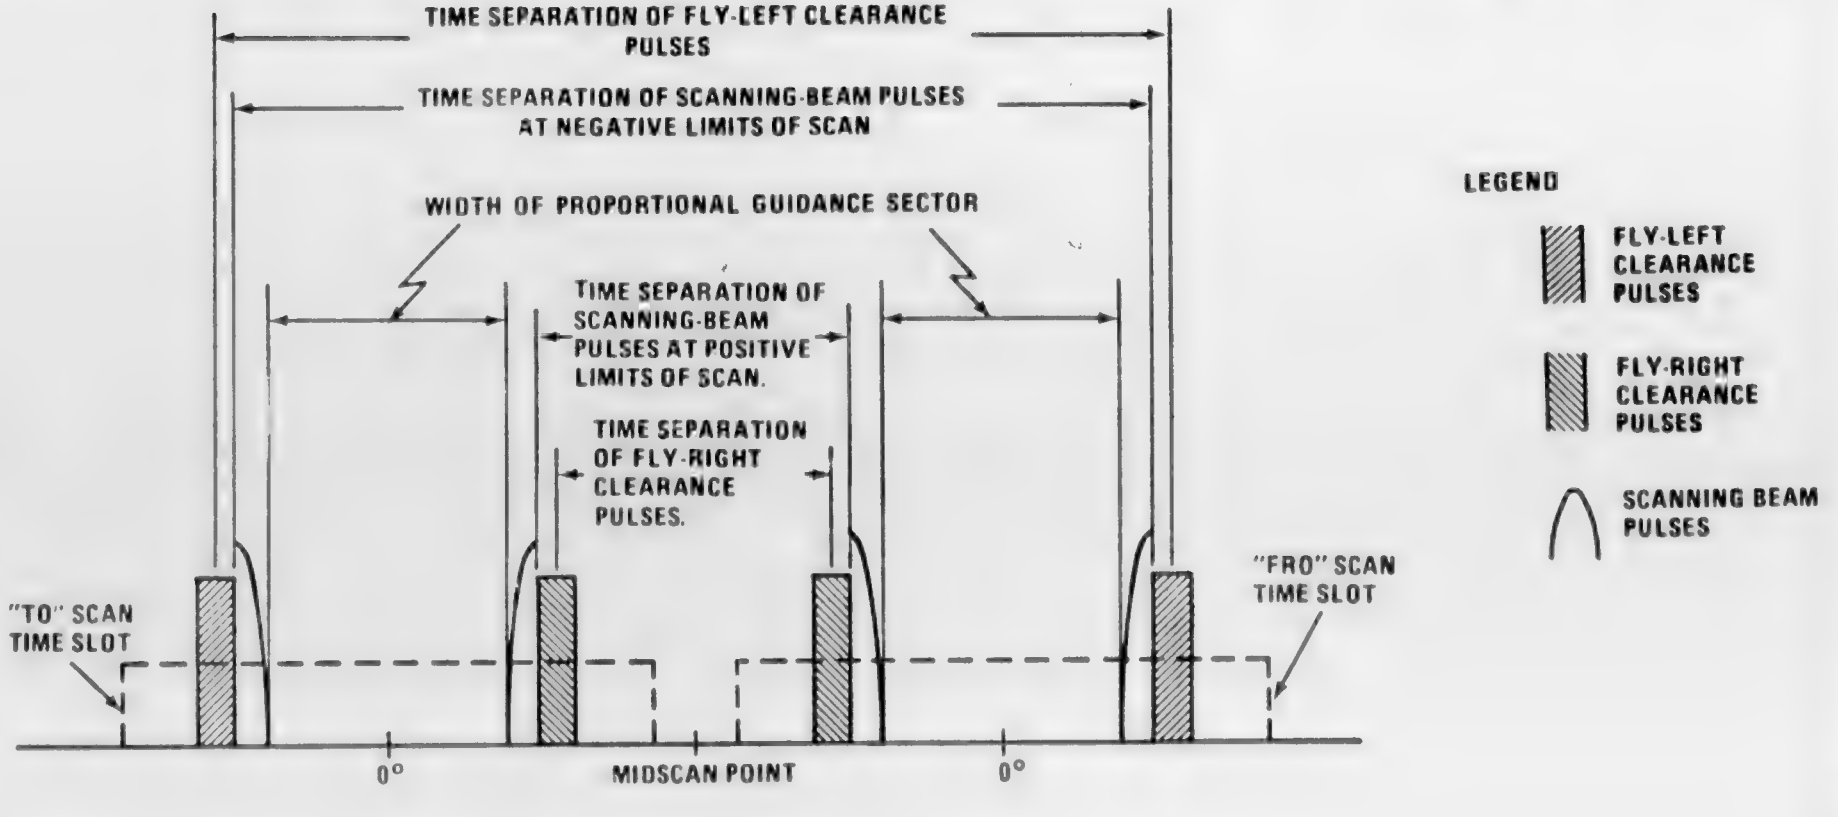


FIGURE 8. CLEARANCE PULSE TIMING FOR AZIMUTH FUNCTIONS

BILLING CODE 4910-13-C

(3) *Data Function Format.* Basic data words provide equipment characteristics and certain siting information. Basic data words must be transmitted from an antenna located at the approach azimuth or back azimuth site which provides coverage throughout the appropriate sector. Data function timing must be in accordance with Table 7 as follows:

TABLE 7.—BASIC DATA FUNCTION TIMING

Event	Event time slot begins at:[1]	
	15.625 kHz clock pulse (number)	Time (milliseconds)
Preamble	0	■
Data transmission (bits I_{12}–I_{32})	25	1.600
Parity Transmission (bits I_{33}–I_{43})	43	2.752
End function (airborne)	45	2.880
End guard time; end function (ground)		3.100

[1] The previous event time slot ends at this time.

(i) *Preamble.* Must be in accordance with requirements of § 171.311(i)(l).

(ii) *Data Transmissions.* Basic data must be transmitted using DPSK modulation. The content and repetition rate of each basic data word must be in accordance with Table 8. For data containing digital information, binary number 1 must represent the lower range limit with increments in binary steps to the upper range limit shown in Table 8.

(j) *Basic Data Word Requirement.* Specific basic data word requirements are as follows:

(1) Approach azimuth to threshold distance must represent the distance measured parallel to the runway centerline from the approach azimuth antenna to runway landing threshold.

(2) Approach azimuth proportional coverage limit must represent the limit of the sector in which proportional approach azimuth guidance is provided.

(3) Ground equipment performance level must represent the operational status of the equipment in use. The exact use of this basic data item is not yet defined.

(4) Approach elevation antenna height must represent the height of the elevation antenna phase center relative to the height of the MLS datum point.

(5) Approach elevation antenna offset must represent the minimum distance between the elevation antenna phase center and a vertical plane containing the runway centerline.

(6) Back azimuth next function must indicate that the next function to be transmitted will be back azimuth.

(7) Minimum glidepath must represent the minimum glidepath as defined.

(8) Beamwidth must represent, for a particular function, the antenna beamwidth as defined to the nearest least significant bit provided for in the data word.

(9) Approach azimuth guidance alert must represent the elevation angle in the specified azimuth sector below which guidance is unreliable or unsafe. A binary code "0" on this message element must indicate that all approach azimuth angles in a particular sector are usable.

(10) DME distance must represent the distance measured parallel to the runway centerline from the DME antenna phase center to the MLS datum point.

(11) DME offset must represent the minimum distance between the DME antenna phase center and a vertical plane containing runway centerline.

(12) DME channel must represent the DME channel associated with the selected MLS channel.

(13) Approach azimuth antenna offset must represent the minimum distance between the approach azimuth antenna phase center and a vertical plane containing runway centerline.

(14) MLS ground equipment identification must represent the last 3 characters of the system identification specified in § 171.311(i)(2). The characters must be encoded in accordance with the 5-unit code of the International Telegraph Alphabet No. 2. Even character parity must also be provided.

Note.—Restriction of data content to alpha characters eliminates the need for transmission of signal numbers 29 and 30 designating letters and figures.

(15) Back azimuth antenna distance must represent the horizontal distance measured parellel to the runway centerline from the back azimuth antenna phase center to the back azimuth reference datum.

(16) Back azimuth proportional coverage limit must represent the limit of the sector in which proportional back azimuth guidance is provided.

(17) DME status must represent the operational status of the equipment in use.

(18) DME or DME/P must represent whether the equipment in use is conventional or precision DME.

(19) MLS datum point to threshold distance must represent the distance measured along the runway centerline from the MLS datum point to the runway threshold.

BILLING CODE 4910-13-M

NOTES

NOTE 1 Parity checks that there is an even number of ones in Bits I_{13} to I_{30} and obeys the equations:

$$I_{13} + I_{14} \cdots + I_{29} + I_{30} + I_{31} = \text{EVEN}$$

$$I_{14} + I_{16} + I_{18} \cdots + I_{28} + I_{30} + I_{32} = \text{EVEN}$$

NOTE 2 Coding not yet defined.

NOTE 3 Code for I_{21} is:

0 = No Back Azimuth Transmission
1 = Back Azimuth Transmission to follow

NOTE 4 Data word 6 is transmitted for both approach azimuth and back azimuth coverages alternately and at the 10-second maximum time between transmissions for each coverage sector, if back azimuth guidance is provided.

NOTE 5 Data word 7 is transmitted from the back azimuth equipment.

NOTE 6 These bits are reserved for future applications requiring high transmission rates.

NOTE 7 The convention for the coding of negative numbers is as follows:

MSB is the sign bit: 0 = +
1 = -

-Other bits represent the absolute value.

The convention for the antenna location is as follows: as viewed from the MLS approach reference datum looking toward the MLS datum point, a positive number shall represent a location to the right of the runway centre line (lateral offset) or above the runway (vertical offset).

NOTE 8 Coding not yet defined. 9 bits provide the capability to encode frequency and mode separately.

§ 171.313 Ground equipment performance requirements.

This section prescribes performance requirements for azimuth equipment as follows:

(a) *Approach azimuth equipment. Requirements.* The approach azimuth equipment must provide the information throughout the volume of coverage—

(1) Horizontally, to plus or minus 40° from the runway centerline (measured at the ILS and extended ILS reference datum) and extending to a distance of 18.5 km (10 NM) from the runway threshold along lines at proportionally increasing angles to plus or minus 40° at the runway centerline extended 10 NM. The volume of coverage must be that required to provide the required guidance signals in the presence of obstacles that penetrate the proportional plus or minus 40° guidance surface. The minimum coverage required is that sufficient to provide

§ 171.313 Azimuth performance requirements.

This section prescribes the performance requirements for the azimuth equipment of the MLS as follows:

(a) *Approach Azimuth Coverage Requirements.* The approach azimuth equipment must provide guidance information in at least the following volume of space (see Figure 9).

(1) Horizontally within a sector plus or minus 40 degrees about the runway centerline originating at the datum point and extending in the direction of the approach to 20 nautical miles from the runway threshold. The minimum proportional guidance sector must be plus or minus 10 degrees about the runway centerline. Clearance signals must be used to provide the balance of the required coverage, where the proportional sector is less than plus or minus 40 degrees. When intervening obstacles prevent full coverage, the ±40° guidance sector can be reduced as required.

(2) Vertically between:

(i) A conical surface originating 2.5 meters (8 feet) above the runway centerline at threshold inclined at 0.9 degree above the horizontal, and

(ii) A conical surface originating at the azimuth ground equipment antenna inclined at 15 degrees above the horizontal to a height of 6,000 meters (20,000 feet).

(iii) Where intervening obstacles penetrate the lower surface, coverage need be provided only to the minimum line of sight.

(3) Runway region.

(i) Proportional guidance horizontally within a sector 45 meters (150 feet) each side of the runway centerline beginning at the stop end and extending parallel with the runway centerline in the direction of the approach to join the approach region. This requirement does not apply to azimuth offset installations.

(ii) Vertically between a horizontal surface which is 2.5 meters (8 feet) above the farthest point of runway centerline which is in line of sight of the azimuth antenna, and, a conical surface originating at the azimuth ground equipment antenna inclined at 20 degrees above the horizontal up to a height of 600 meters (2,000 feet). This requirement does not apply to azimuth offset installations.

(4) Within the approach azimuth coverage sector defined in paragraph (a) (1), (2) and (3) of this section, the power densities must not be less than those shown in Table 9 but the equipment design must also allow for:

(i) Transmitter power degradation from normal by −1.5 dB;

(ii) Rain loss of −2.2 dB at the longitudinal coverage extremes.

(b) *Siting Requirements.* The approach azimuth antenna system must, except as allowed in paragraph (c) of this section:

(1) Be located on the extension of the centerline of the runway beyond the stop end;

(2) Be adjusted so that the zero degree azimuth plane will be a vertical plane which contains the centerline of the runway served;

BILLING CODE 4910-13-M

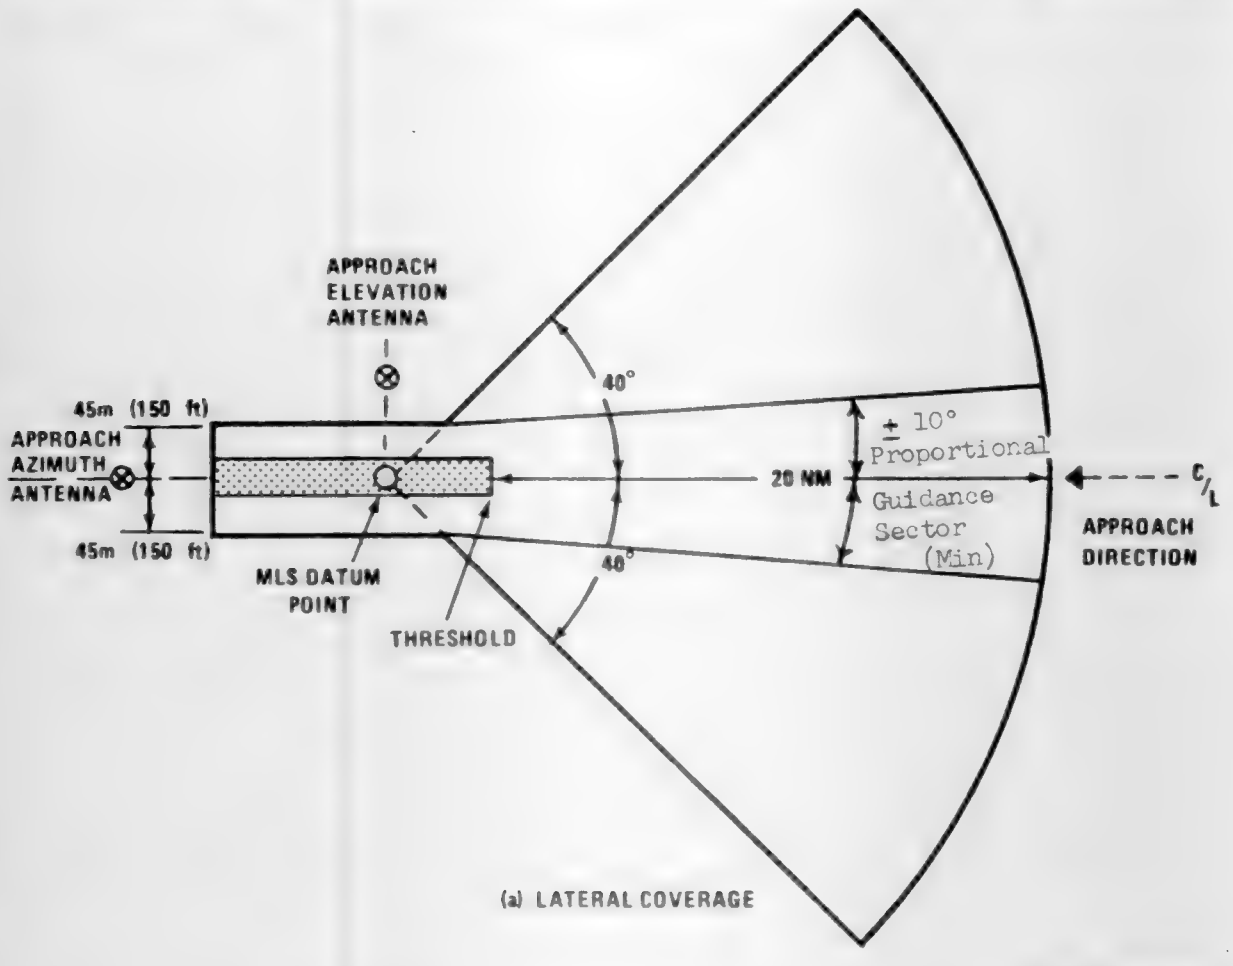

FIGURE 9. APPROACH AZIMUTH COVERAGE

BILLING CODE 4910-13-C

TABLE 9.—AZIMUTH POWER DENSITY REQUIREMENTS (dBW/m²)

Function	DPSK	Clearance	Antenna beamwidth (3dB) 1°	2°	3°
Approach azimuth	89.5	88	−88	85.5	−82
High rate approach azimuth	89.5	88	−88	−88	86.8
Back azimuth	−81	−88	−79.5	−77	−73.5

(3) Have the minimum height necessary to comply with the coverage requirements prescribed in paragraph (a) of this section;

(4) Be located at a distance from the stop end of the runway that is consistent with safe obstruction clearance practices;

(5) Not obscure any light of an approach lighting system; and

(6) Be installed on frangible mounts or beyond the 300 meter (1,000 feet) light bar.

(c) On runways where limited terrain prevents the azimuth antenna from being positioned on the runway centerline extended, and the cost of the land fill or a tall tower antenna support is prohibitive, the azimuth antenna may be offset. In an offset azimuth antenna is used, the criteria in Subpart C of Part 97 (TERPS) of this chapter is applicable. Incorporated by reference is United States Standard for Terminal Instrument Procedures (TERPS), FAA Handbook AOP 8260.3 through change 3, dated June 3, 1980, which prescribes standardized methods for use in designing instrument flight procedures. It is available from the National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22161 and also available for inspection at the Office of the Federal Register Information Center, Room 8301, 1100 L Street, N.W., Washington, D.C. 20408.

(d) Antenna coordinates. The scanning beams transmitted by the approach azimuth equipment within ±40° of the centerline may be either conical or planar.

(e) Approach azimuth accuracy.

(1) The system and subsystem accuracies shown in Table 10 and the associated notes are required at the approach reference datum. From this point accuracy degradations must not exceed the following limits:

(i) *With distance.* The system PFE limit and PFN limit, expressed in angular terms at 20 nautical miles from the runway threshold along the extended runway centerline at the lower coverage limit is the lesser of either 2 times the value specified at the approach reference datum or 0.3 degrees. The CMN limits expressed in angular terms at 10 nautical miles from the reference datum along the extended runway centerline is 1.3 times the value specified at the approach reference datum or 0.1 degree, whichever is less.

(ii) *With azimuth angle.* The system PFE limit and PFN limit, expressed in angular terms at plus or minus 40 degrees azimuth angle is 1.5 times the value on the extended runway centerline at the same distance from the approach reference datum. The CMN limit, expressed in angular terms at plus or minus 40 degrees azimuth angle is 1.3 times the value on the extended runway centerline at the same distance from the approach reference datum.

(iii) *With elevation angle.* The system PFE and PFN limit, do not degrade from the lower coverage limit up to an elevation angle of 9 degrees. The system PFE limit or PFN limit expressed in angular terms at an elevation angle of 15 degrees from the approach azimuth antenna phase center is 2 times the value permitted below 9 degrees at the same distance from the approach reference datum and the same azimuth angle. The CMN limit does not degrade with elevation angle.

(2) The system and ground subsystem accuracies shown in Table 10 are to be demonstrated at commissioning as maximum error limits. Subsequent to commissioning, the accuracies are considered to be the 95% probability limits.

TABLE 10.—APPROACH AZIMUTH ACCURACIES AT THE APPROACH REFERENCE DATUM

Error type	System	Angular error (degrees) Ground subsystem	Airborne[5] subsystem
PFE	±20 ft[1,2] (6.1m)	·10 ft[3]	±0.017
CMN	±10.5 ft (3.2m)[1,4]	·0.030	±0.015

NOTES
[1] Includes errors due to ground and airborne equipment and propagation effects
[2] The system PFN component must not exceed ±3.5 meters (11.5 feet)
[3] The equivalent angular error must not exceed 0.12
[4] The system control motion noise must not exceed 0.1
[5] The airborne subsystem angular errors are provided for information only

(f) Approach azimuth antenna characteristics are as follows:

(1) *Drift.* Any azimuth angle as encoded by the scanning beam at any point within the proportional coverage sector must not vary more than ±0.07 degree over the range of service conditions specified in § 171.309(d) without the use of internal environmental controls. Multipath effects are excluded from this requirement.

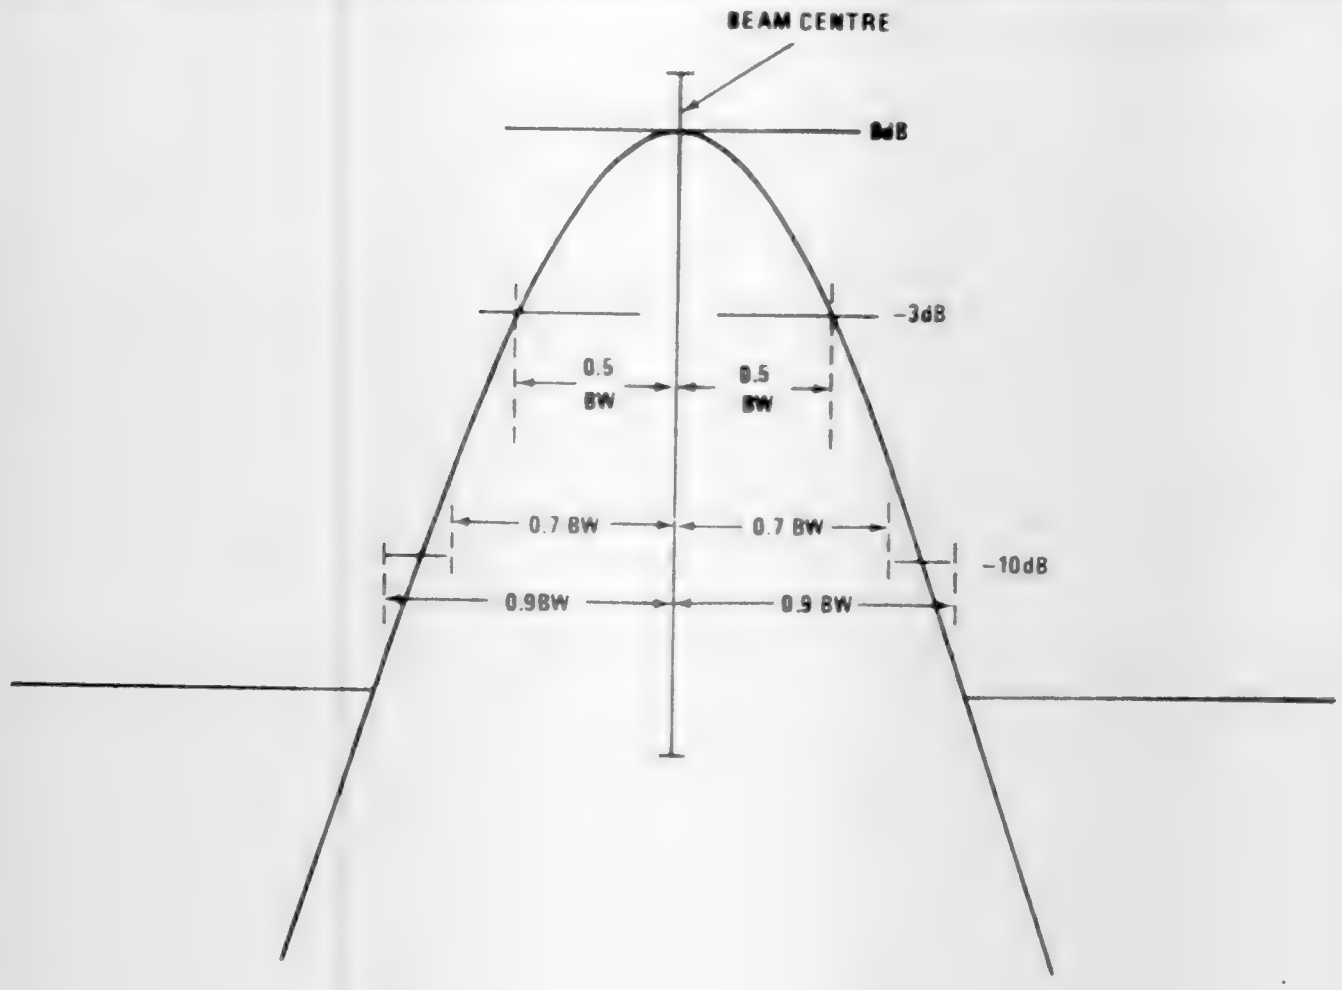
(2) *Beam pointing errors.* The azimuth angle as encoded by the scanning beam at any point within ±0.5 degree of the zero degree azimuth must not deviate from the true azimuth angle at that point by more than ±0.05 degree. Multipath and drift effects are excluded from this requirement.

(3) *Antenna alignment.* The antenna must be equipped with suitable optical, electrical or mechanical means or any combination of the three, to bring the zero degree azimuth radial into coincidence with the approach reference datum with a maximum error of 0.02 degree. Additionally, the azimuth antenna bias adjustment must be electronically steerable at least to the monitor limits in steps not greater than 0.01 degree.

(4) *Antenna far field patterns in the plane of scan.* On boresight, the azimuth antenna mainlobe pattern must conform to Figure 10, and the beamwidth must be such that, in the installed environment, no significant lateral reflections of the mainlobe exist along the approach course. In any case the beamwidth must not exceed three degrees. Anywhere within coverage the −3 dB width of the antenna mainlobe, while scanning normally, must not be less than 25 microseconds (0.5 degree) or greater than 250 microseconds (5 degrees). The antenna mainlobe may be allowed to broaden from the value at boresight by a factor of $1/\cos\phi$, where ϕ is the angle off boresight. The sidelobe levels must be as follows:

(i) *Dynamic sidelobe levels.* With the antenna scanning normally, the dynamic sidelobe level that is detected by a receiver at any point within the proportional coverage sector must be down at least 10dB from the peak of the main beam. Outside the coverage sector, the radiation from the scanning beam antenna must be of such a nature that receiver warnings will not be removed or suitable OCI signals must be provided.

BILLING CODE 4910-13-M



NOTES: THE BEAM ENVELOPE IS SMOOTHED BY A 26 kHz VIDEO FILTER BEFORE MEASUREMENT
BW=BEAMWIDTH.

FIGURE 10. FAR FIELD DYNAMIC SIGNAL IN SPACE

BILLING CODE 4910-13-C

(ii) *Effective sidelobe levels.* With the antenna scanning normally, the sidelobe levels in the plane of scan must be such that, in the installed environment, errors contributed by sidelobe reflections will not exceed the angular equivalent of 9 feet at the approach reference datum over the required range of aircraft approach speeds.

(5) *Antenna far field pattern in the vertical plane.* The azimuth antenna free space radiation pattern below the horizon must have a slope of at least −8dB/degree at the horizon and all sidelobes below the horizon must be at least 13 dB below the pattern peak. The antenna radiation pattern above the horizon must satisfy both the system coverage requirements and the spurious radiation requirement.

(6) *Data antenna.* The data antenna must have horizontal and vertical patterns as required for its function.

(g) *Back azimuth coverage requirements.* The back azimuth equipment where used must provide guidance information in at least the following volume of space (see Figure 11):

(1) Horizontally within a sector plus or minus 20 degrees about the runway centerline originating at the back azimuth ground equipment antenna and extending in the direction of the missed approach at least to 5 nautical miles from the runway stop end. The minimum proportional guidance sector must be ±10 degrees about the runway centerline. Clearance signals must be used to provide the balance of the required coverage where the proportional sector is less than ±20 degrees.

(2) Vertically in the runway region between:

(i) A horizontal surface 2.5 meters (8 feet) above the farthest point of runway centerline which is in line of sight of the azimuth antenna, and,

(ii) A conical surface originating at the azimuth ground equipment antenna inclined at 20 degrees above the horizontal up to a height of 600 meters (2000 feet).

(3) Vertically in the back azimuth region between:

(i) A conical surface originating 2.5 meters (8 feet) above the runway stop end, inclined at 0.9 degree above the horizontal, and,

(ii) A conical surface originating at the missed approach azimuth ground equipment antenna, inclined at 15 degrees above the horizontal up to a height of 1500 meters (5000 feet).

(iii) Where obstacles penetrate the lower coverage limits, coverage need be provided only to minimum line of sight.

(4) Within the back azimuth coverage sector defined in paragraph (g) (1), (2), and (3) of this section, the power densities must not be less than those shown in table 9, but the equipment design must also allow for:

(i) Transmitter power degradation from normal by −1.5 dB.

(ii) Rain loss of −2.2 dB at the longitudinal coverage extremes.

(h) *Back azimuth siting.* The back azimuth equipment antenna must:

(1) Normally be located on the extension of the runway centerline at the threshold end;

(2) Be adjusted so that the vertical plane containing the zero degree course line contains the back azimuth reference datum;

(3) Have minimum height necessary to comply with the course requirements prescribed in paragraph (g) of this section;

(4) Be located at a distance from the threshold end that is consistent with safe obstruction clearance practices;

(5) Not obstruct any light of an approach lighting system; and

(6) Be installed on frangible mounts or beyond the 300 meter (1,000 feet) light bar.

(i) *Back azimuth antenna coordinates.* The scanning beams transmitted by the back azimuth equipment may be either conical or planar.

(j) *Back azimuth accuracy.* The requirements specified in § 171.313(e) apply except for the degradation allowance which must not exceed the following:

(1) *With distance.* The system PFE limit and PFN limit, expressed in angular terms at the maximum range and lower limit of coverage along the extended runway centerline is the lesser of either 2 times the value specified at the back azimuth reference datum or 0.6 degree. The CMN limit, expressed in angular terms at 7.5 nautical miles from the runway stop end along the extended runway centerline is 1.3 times the value specified at the back azimuth reference datum.

(2) *With azimuth angle.* The system PFE limit and PFN limit, expressed in angular terms at plus or minus 20 degree azimuth angle is 1.5 times the value on the extended runway centerline at the same distance from the back azimuth reference datum. The CMN limit, expressed in angular terms at plus or minus 20 degrees azimuth angle is 1.3 times the value on the extended runway centerline at the same distance from the back azimuth reference datum.

(3) *With elevation angle.* The system PFE limit and PFN limit do not degrade from the lower coverage limit up to an elevation angle of 9 degrees. The system PFE limit or PFN limit expressed in angular terms at an elevation angle of 15 degrees from the back azimuth antenna phase center is 2 times the value permitted below 9 degrees at the same distance from the back azimuth reference datum and the same azimuth angle. The CMN limit does not degrade with elevation angle.

(k) Back azimuth antenna characteristics. The requirements specified in § 171.313(f) apply.

(l) *Scanning conventions.* Figure 12 shows the approach azimuth and back azimuth scanning conventions.

§ 171.315 Azimuth monitor system requirements.

(a) The approach azimuth or back azimuth monitor system must cause the radiation to cease and a warning must be provided at the designated control point if any of the following conditions persist for longer than the periods specified:

(1) There is a change in the ground equipment contribution to the mean course error component such that the path following error at the reference datum or in the direction of any azimuth radial, exceeds the limits specified in § 171.313(e)(l) or § 171.313(j) for a period of more than one second.

(2) There is a reduction in the radiated power to a level not less than that specified in § 171.313(a)(4) or § 171.313(g)(4) for a period of more than one second.

(3) There is an error in the preamble DPSK transmissions which occurs more than once in any one second period.

(4) The timing standards specified in Table 11 are exceeded for a period of more than one second.

(5) There is an error in the time division multiplex synchronization of a particular azimuth function such that the requirement specified in § 171.311(e) is not satisfied and if this condition persists for more than one second.

(6) A failure of the monitor is detected.

TABLE 11.—SIGNAL FORMAT TIMING TOLERANCES

Signal format item	Timing tolerance
Clearance and OCI signals	As specified ±2 μsec.
DPSK phase transitions	As specified ±2 μsec.

TABLE 11.—SIGNAL FORMAT TIMING TOLERANCES—Continued

Signal format item	Timing tolerance
TO–FRO scan timing (internal to scan).	As required to meet accuracy specs.

NOTE 1.—The tolerances shown apply to the timing of the specific events as shown in Tables 2, 4a, 4b, 5 and 7.
NOTE 2.—The timing jitter relative to the specified value plus the tolerance above, must be less than 1 μsec rms.

(b) The period during which erroneous guidance information is radiated must not exceed the periods specified in § 171.315(a). If the fault is not cleared within the time allowed, the ground equipment must be shutdown. After shutdown, no attempt must be made to restore service until a period of 20 seconds has elapsed.

§ 171.317 Approach elevation performance requirements.

This section prescribes the performance requirements for the elevation equipment components of the MLS as follows:

(a) *Elevation coverage requirements.* The approach elevation facility must provide proportional guidance information in at least the following volume of space (see Figure 13):

(1) Laterally within a sector originating at the datum point which is at least equal to the proportional guidance sector provided by the approach azimuth ground equipment.

(2) Longitudinally from 75 meters (250 feet) from the datum point to 20 nautical miles from threshold in the direction of the approach.

(3) Vertically within the sector bounded by:

(i) A surface which is the locus of points 2.5 meters (8 feet) above the runway surface;

(ii) A conical surface originating at the datum point and inclined 0.9 degree above the horizontal and,

(iii) A conical surface originating at the datum point and inclined at 7.5 degrees above the horizontal up to a height of 6000 meters (20,000 feet).

Where the physical characteristics of the approach region prevent the achievement of the standards under paragraph (a) (1), (2), and (3) of this section, guidance need not be provided below a conical surface originating at the elevation antenna and inclined 0.9 degree above the line of sight.

(4) Within the elevation coverage sector defined in paragraph (a) (1), (2), and (3) of this section, the power densities must not be less than those shown in Table 12, but the equipment design must also allow for:

(i) Transmitter power degradation from normal by −1.5 dB.

(ii) Rain loss of −2.2 dB at the coverage extremes.

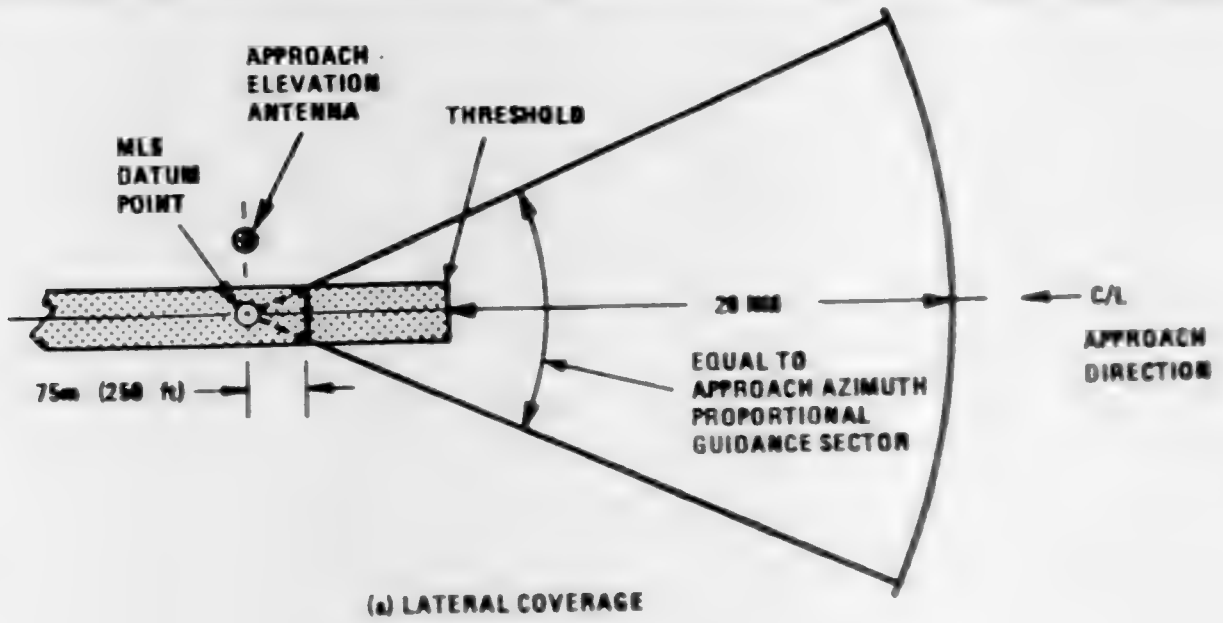
(b) *Elevation siting requirements.* The elevation antenna system must:

(1) Be located within 150 meters (500 feet) of runway centerline.

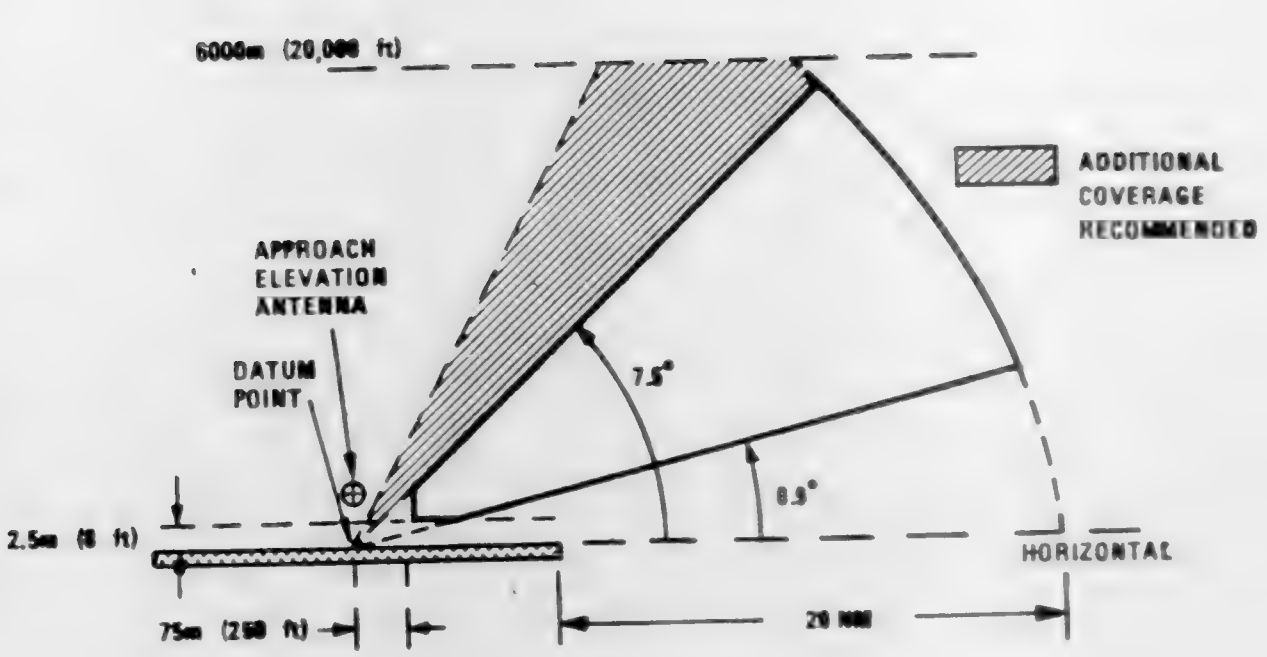
(2) Be located near runway threshold such that the minimum glidepath planar angle with respect to the antenna phase center and the horizontal plane crosses runway threshold at a height between 15 and 18 meters (50 and 60 feet).

(i) For STOL operations using minimum glidepaths of greater than 4°, this height may be as low as 12 meters (35 feet).

BILLING CODE 4910-13-M



(a) LATERAL COVERAGE



(b) VERTICAL COVERAGE

FIGURE 13. APPROACH ELEVATION COVERAGE

BILLING CODE 4910-13-C

(3) Satisfy obstacle clearance criteria specified in Subpart C of Part 97 of this chapter.

(c) *Antenna coordinates.* The scanning beams transmitted by the elevation subsystem must be conical.

TABLE 12.—ELEVATION POWER DENSITY REQUIREMENTS (dBW/m ²)

DPSK	Antenna beamwidth (3dB)	
	1°	2°
−89.5	−88.0	−88.0

TABLE 13.—ELEVATION ACCURACIES AT THE APPROACH REFERENCE DATUM

Error type	System	Angular error (degrees)	
		Ground subsystem	Airborne [4] subsystem
PFE	±2.0 ft.[1] (0.6m) [2]	[3] 0.093	0.017
CMN	±.75 ft. (0.3m) [1]	0.020	0.010

[1] Angular error calculations assume the following: 262 meters (861 feet) antenna to reference datum. Distance calculation assumed 16 meters (50 feet) threshold crossing on 3° glidepath, 3 meters (10 feet) antenna phase center height and a 122 meters (400) feet antenna offset from runway centerline. Elevation equipment sited to provide a minimum glidepath higher than 3° must provide angular accuracies no less than those specified for equipment sited for a 3° minimum glidepath.

[2] The system PFN component must not exceed ±0.4 meter (1 3 feet).

[3] The mean glidepath error component contributed by the ground equipment must not exceed ±0.3 meters (1 foot).

[4] The airborne subsystem angular errors are provided for information only.

(d) *Elevation accuracy.* (1) The accuracies shown in Table 13 ae required at the approach reference datum. From this point, the degradation limits must not exceed the following:

(i) With distance—The system PFE limit and PFN limit, expressed in angular terms at 20 nautical miles from the runway threshold on the minimum glidepath is 0.2 degree. The CMN limit, expressed in angular terms at 10 nautical miles from the reference datum on the minimum glidepath is 1.3 times the value specified at the approach reference datum.

(ii) With azimuth angle—The system PFE limit and PFN limit expressed in angular terms at plus or minus 40 degrees azimuth angle is 1.3 times the value on the extended runway centerline at the same distance from the approach reference datum. The CMN limit, expressed in angular terms at plus or minus 40 degrees azimuth angle is 1.3 times the value on the extended runway centerline at the same distance from the approach reference datum.

(iii) With elevation angle—For elevation angles above the minimum glidepath or 3 degrees, whichever is less and up to the maximum of the proportional guidance coverage and at the locus of points directly above the approach reference datum the system PFE limit, PFN limit and CMN limit expressed in angular terms is allowed to degrade linearly such that at an elevation angle of 15 degrees the limit is 2 times the value specified at the reference datum. In no case will the CMN directly above the reference datum exceed plus or minus 0.07 degree. For other regions of coverage within the angular sector from an elevation angle equivalent to the minimum glidepath up to the maximum angle of proportional coverage the degradations with distance and azimuth angle specified in paragraph (d)(1) (i) and (ii) of this section apply.

(iv) For elevation angles below 60 percent of the minimum glidepath and down to the limit of coverage and at the locus of points directly below the approach reference datum the system PFE limit, the PFN limit and the CMN limit expressed in angular terms, is allowed to increase linearly to 6 times the value at the approach reference datum. For other regions of coverage within the angular sector from an elevation angle equivalent to 60 percent of the minimum glidepath value, and down to the limit of coverage, the degradations with distance and azimuth angle specified in paragraph (d)(1) (i) and (ii) of this section apply. In no case will the PFE be allowed to exceed 0.8 degree, or the CMN be allowed to exceed 0.4 degree.

(2) The system and ground subsystem accuracies shown in Table 13 are to be demonstrated at commissioning as maximum error limits. Subsequent to commissioning, the accuracies are to be considered at 95% probability limits.

(e) Elevation antenna chacteristics are as follows:

(1) *Drift.* Any elevation angle as encoded by the scanning beam at any point within the coverage sector must not vary more than 0.04 degree over the range of service conditions specified in § 171.309(d) without the use of internal environmental controls. Multipath effects are excluded from this requirements.

(2) *Beam pointing errors.* The elevation angle as encoded by the scanning beam at any point within the coverage sector must not deviate from the true elevation angle at that point by more than ±0.04 degree for elevation angles from 2.5° to 3.5°. Above 3.5°, these errors may linearly increase to ±0.1 degree at 7.5°. Multipath and drift effects are excluded from this requirements.

(3) *Antenna alignment.* The antenna must be equipped with suitable optical, electrical, or mechanical means or any combination of the three, to align the lowest operationally required glidepath to the true glidepath angle with a maximum error of 0.01 degree. Additionally, the elevation antenna bias adjustment must be electronically steerable at least to the monitor limits in steps not greater than 0.005 degree.

(4) *Antenna far field patterns in the plane of scan.* On the lowest operationally required glidepath, the antenna mainlobe pattern must conform to Figure 10, and the beamwidth must be such that in the installed environment, no significant ground reflections of the mainlobe exist. In any case, the beamwidth must not exceed 2 degrees. The antenna mainlobe may be allowed to broaden from the value at boresight by a factor of $1/\cos\phi$, where ϕ is the angle off boresight. Anywhere within coverage, the 3 dB width of the antenna mainlobe, while scanning normally, must not be less than 25 microseconds (0.5 degree) or greater than 250 microseconds (5 degrees). The sidelobe levels must be as follows;

(i) *Dynamic sidelobe levels.* With the antenna scanning normally, the dynamic sidelobe levels that is detected by a receiver at any point within the proportional coverage sector must be down at least 10 dB from the peak of the mainlobe. Outside the proportional coverage sector, the radiation from the scanning beam antenna must be of such a nature that receiver warnings will not be removed or a suitable OCI signal must be provided.

(ii) *Effective sidelobe levels.* With the antenna scanning normally, the sidelobe levels in the plane of scan must be such that, when reflected from the ground, the resultant angular errors along any glidepath do not exceed 0.09 degree.

(5) *Antenna far field pattern in the horizontal plane.* The horizontal pattern of the antenna must gradually deemphasize the signal away from antenna boresight. Typically, the horizontal pattern should be reduced by at least 3 dB at 20 degrees off boresight and by at least 6 dB at 40 degrees off boresight. Depending on the actual multipath conditions, the horizontal radiation patterns may require more or less deemphasis.

(6) *Data antenna.* The data antenna must have horizontal and vertical patterns as required for its function.

§ 171.319 Approach elevation monitor system requirements.

(a) The monitor system must act to ensure that any of the following conditions do not persist for longer than the periods specified when:

(1) There is a change in the ground component contribution to the mean

glidepath error component such that the path following error on any glidepath exceeds the limits specified in § 171.317 (d) for a period of more than one second.

(2) There is a reduction in the radiated power to a level not less than that specified in § 171.317(a)(4) for a period of more than one second.

(3) There is an error in the preamble DPSK transmissions which occurs more than once in any one second period.

(4) The timing standards specified in Table 11 are exceeded for a period of more than one second.

(5) There is an error in the time division multiplex synchronization of a particular elevation function such that the requirement specified in § 171.311(e) is not satisfied and this condition persists for more than one second.

(6) A failure of the monitor is detected.

(b) The period during which erroneous guidance information is radiated must not exceed the periods specified in §171.319(a). If the fault is not cleared within the time allowed, radiation shall cease. After shutdown, no attempt must be made to restore service until a period of 20 seconds has elapsed.

§ 171.321 DME and marker beacon performance requirements.

(a) The DME equipment must meet the performance requirements prescribed in Subpart G of this part. This subpart imposes requirements that performance features must comply with International Standards and Recommended Practices, Aeronautical Telecommunications, Vol. I of Annex 10 to ICAO. In addition, this equipment must be sited near the azimuth antenna site and adjusted such that zero range is at the DME antenna. Incorporated by reference is International Standards and Recommended Practices, Aeronautical Telecommunications, Volume I of Annex 10 to ICAO through Amendment 61 dated April 10, 1980 which prescribes applicability of standards and recommended practice for certain forms of equipment for air navigation aids and procedures for air navigation service. It is available from ICAO, Aviation Building, 1080 University Street, Montreal 101, Quebec, Canada, Attention: Distribution Officer and also available for inspection at the Office of the Federal Register Information Center, Room 8301, 1100 L Street, NW., Washington, D.C. 20408.

(b) MLS marker beacon equipment must meet the performance requirements prescribed in Subpart H of this part. This subpart imposes requirements that performance features must comply with International Standards and Recommended Practices, Aeronautical Telecommunications, Vol. I of Annex 10 to ICAO.

§ 171.323 Fabrication and installation requirements.

(a) The MLS facility must be permanent and must be located, constructed, and installed in accordance with best commercial engineering practices, using applicable electric and safety codes and Federal Communications Commission (FCC) licensing requirements and siting requirements of §§ 171.313 (b) and 171.317(b).

(b) The MLS facility components must utilize solid state technology except that traveling wave tube amplifiers (TWTA) may be used. A maximum level of common modularity must be provided along with diagnostics to facilitate maintenance and troubleshooting.

(c) An approved monitoring capability must be provided which indicates the status of the equipment at the site and at a remotely located maintenance area, with monitor capability that provides prealarm of impending system failures. This monitoring feature must be capable of transmitting the status and prealarm over standard phone lines to a remote location. In the event the sponsor requests the FAA to assume ownership of the facility, the monitoring feature must also be capable of interfacing with FAA remote monitoring requirements. This requirement may be complied with by the addition of optional software and/or hardware in space provided in the original equipment.

(d) The mean corrective maintenance time of the MLS equipment must be equal to or less than 0.5 hours with a maximum corrective maintenance time not to exceed 1.5 hours. This measure applies to correction of unscheduled failures of the monitor, transmitter and associated antenna assemblies, limited to unscheduled outage and out of tolerance conditions.

(e) The mean time between failures of the MLS angle system must not be less than 1,500 hours. This measure applies to unscheduled outrage, out-of-tolerance conditions, and failures of the monitor, transmitter, and associated antenna assemblies.

(f) The MLS facility must have a reliable source of suitable primary power, either from a power distribution system or locally generated. Adequate power capacity must be provided for the operation of the MLS as well as the test and working equipment of the MLS.

(g) The MLS facility must have a continuously engaged or floating battery power source for the continued normal operation of the ground station operation if the primary power fails. A trickle charge must be supplied to recharge the batteries during the period of available primary power. Upon loss and subsequent restoration of power, the battery must be restored to full charge within 24 hours. When primary power is applied, the state of the battery charge must not affect the operation of the MLS ground station. The battery must allow continuation of normal operation of the MLS facility for at least 2 hours without the use of additional sources of power. When the system is operating from the battery supply without prime power, the radome de-icers and the environmental system need not operate. The equipment must meet all specification requirements with or without batteries installed.

(h) There must be a means for determining, from the ground, the performance of the system including antenna, both initially and periodically.

(i) The facility must have, or be supplemented by ground, air or landline communications services. At facilities within or immediately adjacent to air traffic control areas, that are intended for use as instrument approach aids for an airport, there must be ground air communications or reliable communications (at least a landline telephone) from the airport to the nearest FAA air traffic control or communication facility. Compliance with this paragraph need not be shown at airports where an adjacent FAA facility can communicate with aircraft on the ground at the airport and during the entire proposed instrument approach procedure. In addition, at low traffic density airports within or immediately adjacent to air traffic control zones or areas, and where extensive delays are not a factor, the requirements of this paragraph may be reduced to reliable communications from the airport to the nearest FAA air traffic control or communications facility. If the adjacent FAA facility can communicate with aircraft during the proposed instrument approach procedure down to the airport surface or at least down to the minimum approach altitude, this would require at least a landline telephone.

(j) The location of the phase centers for all antennas must be clearly marked on the antenna enclosures.

(k) The latitude, longitude and mean sea level elevation of the MLS datum point must be determined by survey with an accuracy of ±3 meters (±10 feet) laterally and ±0.3 meter (±1.0 foot) vertically. The lateral and vertical offsets from the MLS datum point of all antenna phase centers, the back azimuth reference datum (if applicable), and the intersection of runway threshold with

runway centerline must be determined with an accuracy of ±0.3 meter (±1.0 foot) laterally and ±0.03 meter (±0.1 foot) vertically. The owner must bear all costs of the survey. The results of this survey must be included in the "operations and maintenance" manual required by § 171.325 of this subpart and will be noted on FAA Form 198 required by § 171.327.

§ 171.325 Maintenance and operations requirements.

(a) The owner of the facility must establish an adequate maintenance system and provide MLS qualified maintenance personnel to maintain the facility at the level attained at the time it was commissioned. Each person who maintains a facility must meet at least the FCC licensing requirements and demonstrate that he has the special knowledge and skills needed to maintain an MLS facility, including proficiency in maintenance procedures and the use of specialized test equipment.

(b) In the event of out of tolerance conditions or malfunctions, as evidenced by receiving two successive pilot reports, the owner must close the facility by ceasing radiation, and issue a "Notice to Airmen" (NOTAM) that the facility is out of service.

(c) The owner must prepare, and obtain approval of, an operations and maintenance manual that sets forth mandatory procedures for operations, periodic maintenance, and emergency maintenance, including instructions on each of the following:

(1) Physical security of the facility.

(2) Maintenance and operations by authorized persons.

(3) FCC licensing requirements for operations and maintenance personnel.

(4) Posting of licenses and signs.

(5) Relations between the facility and FAA air traffic control facilities, with a description of the boundaries of controlled airspace over or near the facility, instructions for relaying air traffic control instructions and information, if applicable, and instructions for the operation of an air traffic advisory service if the facility is located outside of controlled airspace.

(6) Notice to the Administrator of any suspension of service.

(7) Detailed and specific maintenance procedures and servicing guides stating the frequency of servicing.

(8) Air-ground communications, if provided, expressly written or incorporating appropriate sections of FAA manuals by reference.

(9) Keeping the station logs and other technical reports, and the submission of reports required by § 171.327.

(10) Monitoring of the MLS facility.

(11) Inspections by United States personnel.

(12) Names, addresses, and telephone numbers of persons to be notified in an emergency.

(13) Shutdowns for periodic maintenance and issuing of NOTAM for routine or emergency shutdowns.

(14) Commissioning of the MLS facility.

(15) An acceptable procedure for amending or revising the manual.

(16) An explanation of the kinds of activities (such as construction or grading) in the vicinity of the MLS facility that may require shutdown or recertification of the MLS facility by FAA flight check.

(17) Procedures for conducting a ground check of the azimuth and elevation alignment.

(18) The following information concerning the MLS facility:

(i) Facility component locations with respect to airport layout, instrument runways, and similar areas.

(ii) The type, make and model of the basic radio equipment that provides the service including required test equipment.

(iii) The station power emission, channel, and frequency of the azimuth, elevation, DME, marker beacon, and associated compass locators, if any.

(iv) The hours of operation.

(v) Station identification call letters and method of station identification and the time spacing of the identification.

(vi) A description of the critical parts that may not be changed, adjusted, or repaired without an FAA flight check to confirm published operations.

(d) The owner or his maintenance representative must make a ground check of the MLS facility periodically in accordance with procedures approved by the FAA at the time of commissioning, and must report the results of the checks as provided in § 171.327.

(e) The only modifications permitted are those that are submitted to FAA for approval by the MLS equipment manufacturer. The owner or sponsor of the facility must incorporate these modifications in the MLS equipment. Associated changes must also be made to the operations and maintenance manual required in paragraph (c) of this section. These and all other corrections and additions to this operations and maintenance manual must also be submitted to FAA for approval.

(f) The owner or the owner's maintenance representative must participate in inspections made by the FAA.

(g) The owner must ensure the availability of a sufficient stock of spare parts, including solid state components, or modules to make possible the prompt replacement of components or modules that fail or deteriorate in service.

(h) FAA approved test instruments must be used for maintenance of the MLS facility.

(i) Inspection consists of an examination of the MLS equipment to ensure that unsafe operating conditions do not exist.

(j) Monitoring of the MLS radiated signal must ensure a high degree of integrity and minimize the requirements for ground and flight inspection. The monitor must be checked daily during the in-service test evaluation period (96 hour burn in) for calibration and stability. These tests and ground checks of azimuth, elevation, DME, and marker beacon radiation characteristics must be conducted in accordance with the maintenance requirements of this section.

§ 171.327 Operational records.

The owner of the MLS facility or his maintenance representative must submit the following operational records at the indicated time to the appropriate FAA regional office where the facility is located.

(a) *Facility Equipment Performance and Adjustment Data (FAA Form 198).* The FAA Form 198 shall be filled out by the owner or his maintenance representative with the equipment adjustments and meter readings as of the time of facility commissioning. One copy must be kept in the permanent records of the facility and two copies must be sent to the appropriate FAA regional office. The owner or his maintenance representative must revise the FAA Form 198 data after any major repair, modernization, or retuning to reflect an accurate record of facility operation and adjustment.

(b) *Facility Maintenance Log (FAA Form 6030–1).* FAA Form 6030–1 is permanent record of all the activities required to maintain the MLS facility. The entries must include all malfunctions met in maintaining the facility including information on the kind of work and adjustments made, equipment failures, causes (if determined) and corrective action taken. In addition, the entries must include completion of periodic maintenance required to maintain the facility. The owner or his maintenance representative must keep the original of each form at the facility and send a copy to the appropriate FAA regional office at the end of each month in which it is

prepared. However, where an FAA approved remote monitoring system is installed which precludes the need for periodic maintenance visits to the facility, monthly reports from the remote monitoring system control point must be forwarded to the appropriate FAA regional office, and a hard copy retained at the control point.

(c) *Technical Performance Record (FAA Form 6830 (formerly FAA Form 418)).* This form contains a record of system parameters as specified in the manufacturers equipment manual. This data will be recorded on each scheduled visit to the facility. The owner or his maintenance representative shall keep the original of each record at the facility and send a copy of the form to the appropriate FAA regional office.

(Secs. 305, 307, 313(a), 601, 606, Federal Aviation Act of 1958, as amended (49 U.S.C. 1346, 1348, 1354(a), 1421, 1426); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Note.—The MLS is a newly developed alternative landing system which can be used in place of a conventional ILS. While this regulation describes the technical aspects of an MLS the installation of any non-Federal facility is not mandatory and this subpart provides an additional choice from which to choose when instrumenting an airport. Usually less than 10–20 non-Federal systems of all types, not just MLS, are installed per year with the voluntary installation of a landing aid at only a small number of airports by small entities. Cost of compliance with this MLS standard will be minimal. As a result, the FAA has determined that this document involves a regulation which:

(1) Is not considered to be major under the procedures and criteria prescribed by Executive Order 12291; and

(2) Is not considered significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and

(3) Will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

A copy of the evaluation prepared for this regulation has been placed in the regulatory docket and a copy of it may be obtained by contacting the person identified under the caption, "FOR FURTHER INFORMATION CONTACT".

The reporting and recordkeeping requirements contained herein have been approved by the Office of Management and Budget and forms cleared under OMB #2120–0014.

Issued in Washington, D.C., on November 3, 1981.

J. Lynn Helms,

Administrator, Federal Aviation Administration.

Part III

Department of Transportation

Federal Railroad Administration

Consolidated Rail Corp.; Expedited Supplemental Transaction Proposals; Administrative Determination and Notice of Petition

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Nos. RFA-305-81-1 and RFA-305-81-2; Notice No. 4]

Consolidated Rail Corp.; Expedited Supplemental Transaction Proposals; Administrative Determination and Notice of Petition

AGENCY: Federal Railroad Administration (FRA), DOT.

ACTION: Administrative determination regarding the transfer of Consolidated Rail Corporation (Conrail) lines in Connecticut and Rhode Island and notice of intent to file a petition for a transfer order with the Special Court.

SUMMARY: FRA announces its plan to transfer Conrail's lines in Connecticut and Rhode Island and to continue service over those lines for a period of at least four years. The plan is required by recently enacted legislation. FRA's plan transfers all Conrail lines in Rhode Island and that portion of the Shore Main Line from Old Saybrook, Connecticut, to the Rhode Island border to the Providence & Worcester Railroad Company (P&W), requires that no surcharge be imposed for at least 18 months on the Torrington line and that daily service be provided on that line if required, and otherwise follows the plan set forth in the coordinated proposals of Conrail and the Boston & Maine Railroad (B&M). FRA will petition the Special Court, Regional Rail Reorganization Act of 1973 (Special Court), to enter an order implementing this plan.

DATES: The determinations expressed in this notice will be incorporated in a petition that will be filed with the Special Court not later than December 11, 1981. Under Rule 18 of the Special Court, parties with legal standing that wish to intervene may be required to do so within 7 days of the date this notice is published in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Steve Black, Office of Federal Assistance, FRA, (202) 472-7180.

SUPPLEMENTARY INFORMATION: The bankruptcy of a number of railroad companies serving the Northeast, notably the Penn Central Transportation Company, during the early 1970's caused the Congress to enact the Regional Rail Reorganization Act of 1973 (3R Act), which provided a mechanism for the reorganization of the properties of the bankrupt railroads into one or more new railroad under the auspcies of the United States Railway Association (USRA). USRA prepared the Final System Plan, which created Conrail as a single successor to the bankrupt railroads. The Final System Plan was implemented under amendments to the 3R Act made by Title VI of the Railroad Revitalization and Regulatory Reform Act of 1976 (4R Act).

Section 610 of the 4R Act added a new section 305 of the 3R Act, which provides for the further reorganization of the Northeast rail system through the development of Supplemental Transactions. Supplemental Transactions may be developed by the Secretary of Transportation (the Secretary) or USRA, and either the Secretary or USRA may petition the Special Court for an order directing Conrail to carry out the transaction. The Special Court is required to issue such an order if it determines that a Supplemental Transaction is in the public interest, consistent with the goals of the 3R Act and Final System Plan, and fair and equitable.

One Supplemental Transaction has been developed under the provisions of section 305. In April, 1979, the Secretary, in response to a petition from the State of Connecticut, developed a Supplemental Transaction proposal to convey to the P&W Conrail's 27-mile Norwich Branch between Plainfield and Groton, Connecticut, and Conrail's 3-mile Groton Old Main Line at Groton. In February, 1980, the Secretary petitioned the Special Court for an order directing Conrail to carry out the transaction, and on May 28, 1980, the Special Court issued the order and set the purchase price at $2,750,000. The P&W commenced operations on the Norwich Branch and Groton Old Main Line on June 1, 1980.

Title VI of the Staggers Rail Act of 1980 added a new subsection (f) to section 305 of the 3R Act. Subsection (f) provided for development of an Expedited Supplemental Transaction proposal to transfer all of Conrail's remaining properties in the States of Connecticut and Rhode Island to another railroad in the region. Subsection (f) required the Secretary to determine by May 27, 1981 whether to develop such a proposal. The Secretary was required to develop an Expedited Supplemental Transaction proposal if he could make three statutory findings regarding the prospective purchaser, but he was not required to petition the Special Court for an order directing Conrail to implement the proposal. On December 29, 1980, the Federal Railroad Administrator (Administrator), as delegate of the Secretary, solicited Expedited Supplemental Transaction proposals from prospective purchasers and public comments (45 FR 85542). Only the P&W submitted a proposal by the February 27, 1981 deadline. On April 16, 1981, the Administrator published a preliminary determination that he could not make the three affirmative statutory determinations that were a condition precedent to initiating an Expedited Supplemental Transaction proposal under section 305(f), and solicited public comment (46 FR 22300). On June 4, 1981, the Administrator published a final determination that he could not make two of the three statutory determinations required by section 305(f) (46 FR 30019).

While considering the Northeast Rail Service Act of 1981 (NERSA) the Congress once again devoted considerable attention to rail service in southern New England. Legislation passed by the House of Representatives would have required the Secretary to petition the Special Court within 60 days for an order directing Conrail to transfer its remaining properties in Connecticut and Rhode Island to "another railroad in the region." Conrail would not have been eligible to retain any of its properties in either state (127 Cong. Rec. H3690, June 26, 1981).

Legislation passed in the Senate, on the other hand, would have conferred discretionary authority on the Secretary to transfer Conrail's properties in Connecticut and Rhode Island (127 Cong. Rec. S7060, 7062, 7064, 7094; June 25, 1981). On August 13, 1981, the President signed into law the Omnibus Budget Reconciliation Act of 1981, Pub. L. 97-35, which included NERSA. Section 1155 of NERSA amended section 305(f) of the 3R Act to require the Secretary to petition the Special Court within 120 days (by December 11, 1981) to transfer "some or all" of Conrail's remaining properties in Connecticut and Rhode Island to one or more railroads in the region under a plan providing for continuation of service for at least four years on all properties operated by Conrail as of the effective date of NERSA. Conrail is permitted to be included as a transferee railroad if it agrees to maintain service over any lines it retains for at least four years.

Section 305(f), as amended, requires the transfer of some or all of Conrail's lines in Connecticut and Rhode Island to one or more railroads that have:

(1) Submitted to the Secretary a plan to assume all of Conrail's freight operations and freight service obligations in Connecticut and Rhode Island for a period of at least four years;

(2) Concluded an agreement with Conrail to assume all of Conrail's freight operations and freight service obligations in Connecticut and Rhode

Island for a period of at least four years; or

(3) Submitted to the Secretary, prior to May 1, 1981, a proposal to assume all of Conrail's freight operations and freight service obligations in Connecticut and Rhode Island.

Section 305(f), as amended, requires the Secretary to promote the transfer of non-mainline Conrail properties in States adjacent to Connecticut and Rhode Island that connect with lines in Connecticut and Rhode Island if such a transfer is required to permit efficient and effective rail operations consistent with the public interest. It requires the Special Court to determine a fair and equitable price for the properties to be transferred, establish fair and equitable divisions of joint rates over through routes if the parties cannot agree on such divisions, and establish a method to ensure that such divisions are promptly paid.

Section 1155 of NERSA also added a new subsection (g) to section 305, which mandates a separate Expedited Supplemental Transaction for the transfer of five lines located primarily in the Commonwealth of Massachusetts. That process, which was assigned Docket No. RFA–305–81–2, has been administered in conjunction with the Connecticut/Rhode Island proceeding because of the many issues common to both. FRA's determinations with respect to the five Massachusetts lines, however, are treated in Notice No. 5, which is published separately in this issue of the **Federal Register.**

Chronology of Notices and Public Meetings

On August 21, 1981, the Administrator, as delegate of the Secretary, published Notice No. 1 to announce that informal conferences would be held to assist in structuring the discussions required by section 305(f), as amended, and to solicit the participation of prospective purchasers ("prospective purchasers" includes Conrail except as the context otherwise requires) and other interested parties (46 FR 42565). Conferences were held on August 31, 1981 at New Haven, Connecticut, and on September 1, 1981 at Springfield, Massachusetts. On September 11, 1981, seven railroad companies filed preliminary declarations of interest in acquiring some or all of Conrail's lines in Connecticut and Rhode Island. On September 17, 1981, the Administrator published Notice No. 2, announcing that an additional informal conference would be held to brief interested parties on the status of the Supplemental Transaction process and to solicit public comments, with particular emphasis on the comments of rail shippers (46 FR 46271). This informal conference was held September 28, 1981 at Providence, Rhode Island.

On September 24, 1981, the Administrator published Notice No. 3, which established deadlines, information requirements and guidelines for the Supplemental Transaction process (46 FR 47165). Notice No. 3 established October 23, 1981 as the deadline for the receipt of purchase proposals and November 6, 1981, as the deadline for comments on the purchase proposals. The Administrator subsequently notified the parties that he would hold the docket open as long as practical to receive additional public comments. All comments received through December 7, 1981, were considered in developing this notice and the Administrator's petition to the Special Court.

Proposals

On October 23, 1981, the Administrator received three Supplemental Transaction proposals pursuant to section 305(f), as amended. A summary of these proposals follows.

P&W

The P&W proposed to acquire all Conrail's freight operations and freight service obligations in Connecticut and Rhode Island. In New York State, it proposed to acquire Conrail's freight service obligation on portions of the Shore Main Line, a portion of the Maybrook Branch, and the Beacon Secondary. It also proposed to acquire a portion of the Hartford Main Line in Massachusetts. The P&W sought run-through train service with Conrail from Selkirk Yard, near Albany, New York, to Connecticut. The P&W guaranteed to provide daily service if required on all lines it acquired in Connecticut and Rhode Island, and to upgrade most of the lines to permit 25 m.p.h. operation. It pledged not to impose surcharges on shippers located on lines it acquired.

The P&W assumed in preparing its proposal that it would pay $0 for the Conrail properties it would acquire, as well as 50 road switcher locomotives and 400 freight cars.

The P&W proposed that it receive the so-called "New Haven" divisions, which are the divisions of joint rates over through routes agreed to by the former New York, New Haven & Hartford Railroad (New Haven) and its connections, with a minimum of $400 per car. The divisions vary depending upon the point at which traffic interchanged.

Conrail/B&M

Conrail and the B&M submitted coordinated proposals which, taken together, would continue all Conrail freight operations and freight service obligations in Connecticut and Rhode Island for a period of at least four years. The B&M offered to assume Conrail's freight operations and freight service obligations in Rhode Island and on the Berlin, New Britain, Terryville, Avon, Canal, Waterbury, Torrington, Griffins and Wethersfield lines in Connecticut. Its offer contemplated a grant of trackage rights to the B&M between Springfield, Massachusetts, and New Haven; reciprocal switching rights for certain traffic at New Haven, North Haven, Wallingford, Newington, Hartford, East Hartford, Windsor, Windsor Locks, and Suffield, Connecticut; and the right to move contract cars over Conrail lines to the Long Island Railroad at Fresh Pond, New York. Under the offer, Conrail retained all other freight operations and freight service obligations in Connecticut.

Conrail and the B&M both stated that the purpose of their coordinated proposals was to increase shipper options for single line freight service to Connecticut and Rhode Island by dividing operations in the two states so as to retain Conrail's present east-west service and to introduce single line B&M service for north-south traffic to upper New England and Canada that is now interchanged between the B&M and Conrail at Springfield.

Conrail proposed to continue current service levels, subject to a number of adjustments in its operations stemming from a systemwide program to improve efficiency. It initially reserved the right to impose surcharges under the provisions of the Staggers Rail Act of 1980 on lines and traffic it would retain, but later agreed not to impose branchline surcharges. It proposed to maintain the lines it retained at approximately current levels. The B&M proposed service levels approximately equal to current service levels. The B&M initially offered to reduce the current Conrail surcharge on the Torrington line to $250 per car, and to impose surcharges on Rhode Island traffic only under limited circumstances. It later agreed not to impose a surcharge on the Torrington line for 18 months and not to institute a surcharge thereafter if traffic on the line returns to the 1979 level.

The Conrail/B&M proposal incorporated a divisions agreement, and the B&M offered $1.1 million for the properties and rights it would acquire.

Conrail accepted the offer for the purpose of filing the coordinated proposals, but reserved the right to reopen the purchase price issue with the Secretary and before the Special Court.

S.M. Pinsly Company

The S.M. Pinsly Company (Pinsly) initially offered to acquire Conrail's Willimantic Secondary, between Hartford and Manchester, Connecticut, and its New Milford Secondary, between Danbury and New Milford, Connecticut. On November 20, 1981, it modified its proposal by withdrawing its offer to acquire the New Milford Secondary and offering to acquire Conrail's East Windsor Secondary and South Manchester Industrial Track, both of which connect with the Willimantic Secondary. Its modified proposal is not coordinated with that of any other railroad. Pinsly offered to operate the lines without subsidy for a period of at least four years. It did not provide information with respect to rehabilitation of the lines or proposed divisions with Conrail, although Pinsly later agreed to Conrail's specification of division arrangements. Pinsly offered Conrail $1 million for the Willimantic, East Windsor and South Manchester lines.

Summary of Public Comments

The Administrator received and considered comments through December 7, 1981. In all, approximately 200 comments were received. In general, Rhode Island shippers and elected officials supported the P&W proposal. In Connecticut, most major shippers favored the Conrail/B&M proposal while small shippers especially those located on the Torrington line, supported the P&W proposal. The Connecticut Rail Shippers Association, which represented that its members account for 80 percent of Conrail's shipments in Connecticut, supported the Conrail/B&M proposal. In common with individual shippers that supported the Conrail/B&M proposal, it cited the benefits of single line service from origin to destination offered by Conrail and the B&M and the comparative financial stability of the two railroads as reasons for their support. Among the largest shippers supporting the Conrail/B&M proposal were the Central Connecticut Cooperative Farmers Association, Kimberly-Clark, Tilcon Tomasso Quarries, and Shepherd's Warehouse. The Connecticut Business and Industry Association, which represents more than 4,000 Conecticut businesses, supported the P&W proposal. In common with other shippers supporting the P&W proposal, it cited the P&W's promise to provide daily service, to upgrade the lines it would acquire to permit 25 m.p.h. operation, and to forego imposing surcharges as reasons for its support.

The Rhode Island Department of Transportation supported the P&W proposal based on P&W's service in Rhode Island and its popularity among shippers there. It emphasized that the P&W upgraded the track and increased the frequency of service on lines it acquired in the past. The Connecticut Department of Transportation raised questions regarding specific elements of the P&W and Conrail/B&M proposals, but took no position with regard to either of them. The Department expressed concern that Pinsly's proposal addresses only a few lines and that the primary shipper on one these lines expressed a strong preference for another carrier. The Maine Department of Transportation supported the Conrail/B&M proposal because it would provide single-line service and rate stability for shipments from Maine to Connecticut. The Vermont Department of Transportation supported the Conrail/B&M proposal based on the B&M's operating efficiency and its belief that the addition of operations in Conneticut would enhance the B&M. The New York Department of Transportation opposed that portion of the P&W proposal related to service in New York.

Organized labor divided its support between the Conrail/B&M and P&W proposals. Those railroads that commented supported the Conrail/B&M proposal. Anong elected officials, the Rhode Island Congressional delegation and the Governor of Rhode Island endorsed the P&W proposal. The Connecticut Congressional delegation was divided.

Final Discussions and Negotiations

After the submission of purchase proposals on October 23, 1981, and review of comments on the proposals, the Administrator convened a series of meetings of the prospective purchasers in an attempt to achieve a reconciliation of the competing proposals in a manner that would respond to expressed support among users of rail service, conform to the existing capabilities of the participants, and promote efficient and effective railroad operations in Connecticut and Rhode Island. While the parties responded with new positions which provided potential bases for resolving some areas of disagreement, overall agreement was not reached and the parties, except for Pinsly, chose to rely upon their October 23, 1981, proposals. Pinsly chose to rely upon its modified proposal of November 20, 1981. On December 4, 1981, the Administrator sent a letter to the P&W, Conrail, and the B&M outlining a settlement proposed by FRA, and asking the three railroads to consider it and meet with the Administrator on December 7, 1981 for a final conversation to perfect a plan. The Administrator's proposal for settlement cited six objectives:

(1) Responding to expressions of support from actual users of rail services, without whose confidence no plan can work.

(2) Fashioning a new configuration of rail operations in the states that fits sensibly with existing operations and traffic flows of the railroads already providing service in that area.

(3) Maximizing the benefits that can be realized from consistent implementation of the single line haul policy embodied in the Staggers Rail Act of 1980.

(4) Recognizing the need of any carrier serving Rhode Island to obtain compensatory revenues based on sustainable levels of new investment for acquisition and rehabilitation of facilities.

(5) Providing enhanced levels of service in those areas now claimed to be inadequately served.

(6) Minimizing the levels of new investment necessitated solely by the need to acquire existing assets, thereby avoiding inevitable rate increases either by a new operator or by Conrail in response to lost contribution occasioned by a new divisional arrangement.

The P&W, Conrail and B&M met with the Administrator December 7, 1981, and reached an acommodation of their differences sufficient to permit an agreement in principle on a compromise plan based on the objectives and proposal set forth by the Administrator on December 4, 1981. The basic components of the plan are as follows:

(1) The P&W accepts transfer of Conrail's freight operations and freight service obligations in Rhode Island and on the Shore Main Line from the Rhode Island/Connecticut border to and including Old Saybrook, Connecticut. Conrail retains trackage rights from Old Saybrook to Millstone, Connecticut solely for the movement of stone traffic originating at East Wallingford, Connecticut.

(2) In consideration for the properties it receives, the P&W agrees to pay Conrail $75,000.

(3) The P&W and Conrail agree to enter into a divisions arrangement substantially similar to that proposed by

the Administrator to the parties on December 4, 1981.

(4) The balance of Conrail's properties in Connecticut will be allocated and operated in accordance with the Conrail/B&M proposal.

(5) The B&M agrees to forego any surcharge on the Torrington line for 18 months after transfer, and thereafter if traffic is restored to the 1979 level. In addition, the B&M agres to provide daily service if such service is requested by customers on the line.

(6) Conrail agrees to grant the P&W the exclusive right to succeed to its freight operations and freight service obligations on the Shore Main Line between Old Saybrook and New Haven and within the New Haven station if it withdraws from the market and the Secretary or his delegate finds, on application of the P&W, that the P&W is continuing to operate as a self-sustaining railroad capable of undertaking additional common carrier responsibilities without Federal financial assistance, P&W agrees that, in the event it succeeds to Conrail's operations and obligations, it will guarantee the B&M continued access to property it may acquire within the New Haven station; access through the New Haven station to the Shore Line; and removal of the territorial restriction on the reciprocal switching rights within the New Haven station granted by Conrail to the B&M under the Administrator's proposal. The P&W further agrees that its exclusive right to succeed to Conrail's operations and obligations between Old Saybrook and New Haven and within the New Haven station does not prejudice the rights of any other carrier to succeed to other Conrail operations and obligations within Connecticut.

Further meetings were held by the Administrator with Conrail, P&W and B&M on December 9, 10 and 11 to resolve disputes among the parties which emerged in the process of drafting a proposed order to be presented the Special Court to implement the Administrator's plan. One aspect of the proposed order remained unsatisfactory to Conrail and in the time available the matter could not be resolved.

The FRA wishes to make quite clear that the price and divisions terms for these transactions are supportable only upon the totality of the pertinent circumstances. Those terms are reasonably compensatory to Conrail only when other benefits are taken into account, particularly the ability of Conrail to divest itself of a statutory transfer process. The Department of Transportation does not view those terms as creating any precedent whatsoever for any further disposition of Conrail properties.

Analysis of Proposals

Section 305(f)(2) of the 3R Act requires the Administrator to develop a plan for continuation of rail service now provided by Conrail in Connecticut and Rhode Island. In determining the statutory sufficiency of the proposal made by each prospective purchaser, the Administrator must determine that the proposal (1) accounts for all service operated by Conrail in Connecticut and Rhode Island on the effective date of NERSA, and (2) reasonably assures service for a period of at least four years. While it is not clear that the Congress intended that the Administrator apply in this context the finding requirements set forth in section 305(f)(1), the principles addressed in section 305(f)(1) are wholly consistent with the principles applicable to administration of section 305(f)(2) and (3). Accordingly, the Administrator's determinations herein are made in light of, and consistent with, paragraph 305(f)(1). In that regard, the Administrator has specifically considered the impact on employment of the proposals before the FRA.

The specific considerations applicable to this review and decision are set forth in Notice No. 3, 46 FR 47268 (September 24, 1981). That notice discussed the considerations that would be used in determining the statutory sufficiency of each proposal. It also discussed in general terms considerations that might be taken into account in choosing between statutorily sufficient proposals. The analysis of the Administrator's proposal, as accepted in principle by the P&W, Conrail and the B&M, and the proposal made by Pinsly in terms of the considerations set forth in Notice No. 3 is presented below.

Coverage of All Conrail Services in Connecticut and Rhode Island

Section 305(f)(2) requires that the Administrator submit a plan to the Special Court to continue all service operated by Conrail in Connecticut and Rhode Island on the effective date of NERSA. In Notice No. 3, the Administrator offered the following examples of types of proposals that would satisfy this test:

(1) A proposal to purchase all Conrail properties in Connecticut and Rhode Island and guarantee service for four years.

(2) A proposal to purchase selected Conrail properties in Connecticut and Rhode Island, if contemplated by other proposals such as a submission by a consortium which, considered with the proposal in question, request the transfer of all properties and guarantee service for four years.

(3) A proposal to purchase selected Conrail properties in Connecticut and Rhode Island, if complemented by the undertaking of Conrail to maintain all service on the remaining properties for four years.

The Administrator's proposal, accepted in principle by P&W, Conrail, and B&M, follows the form of example (3), and thus satisfies the service coverage test.

The Pinsly proposal does not offer to purchase all Conrail properties in Connecticut and Rhode Island, nor is it complemented by another proposal or an undertaking by Conrail that would result in maintenance of service on all Conrail lines in Connecticut and Rhode Island for four years.

FRA continues to believe that the procedure set forth in Notice No. 3, requiring purchasers either to agree to assume all Conrail services in Connecticut and Rhode Island or to effect appropriate coordination of their proposals by October 23, 1981, is reasonable in light of the commands of the statute and the time period available to the agency. Although Pinsly did not comply with the procedure set forth in Notice No. 3 by the October 23, 1981 deadline, FRA nevertheless did not foreclose Pinsly from continuing to negotiate with the other prospective purchasers. Indeed, FRA hosted meetings between Pinsly and other prospective purchasers, and endeavored to assist Pinsly in advancing its negotiations. FRA continued to make clear, however, that the responsibility for coordinating its proposal with that of another prospective purchaser or purchasers resided with Pinsly. Pinsly disagreed, and urged that FRA should essentially compel Conrail to include the Pinsly proposal in the Conrail/B&M proposal. FRA pointed out that Conrail could not be compelled by FRA to modify its proposal against its will.

There is also a second, independent, basis for declining to include Pinsly in a final order for transfer. The revised Pinsly proposal covers only three lines. The majority of the carloads on the three lines, the economic foundation of those properties, is grain traffic now handled by Conrail in single line service under agreements highly satisfactory to the shipper. While the Pinsly proposal may indeed offer more active development of other traffic on the line, particularly low volume movements and movements destined to or from the Manchester Industrial Track, through marketing efforts and more frequent

service, it is the judgment of the Administrator that the strong opposition of the principal shipper to transfer of the lines in a manner that would deprive it of continued single line service, and the benefits to be derived from continuing such single line service for existing traffic, outweigh the speculative benefits that might accrue as a result of acquisition of the lines by Pinsly.

Four Year Service Guarantee

To comply with the statute, a proposal must offer a credible guarantee that each prospective purchaser will continue service on the lines it acquires for at least four years. In Notice No. 3, the Administrator indicated that in judging the credibility of the guarantee offered by each prospective purchaser he would evaluate its financial ability to continue the service, consistent with the payment of a fair and equitable purchase price and fair and equitable divisions, and its operational ability to assume the service.

Each of the railroads that has accepted the Administrator's proposal in principle guarantees to continue the freight operations and freight service obligations it will acquire or retain pursuant to that proposal for a period of at least four years. While none of the three carriers involved is, by reason of its current financial status, especially well suited to offer such an unconditional service guarantee, the Administrator has reviewed the particular undertakings agreed upon by each of the railroads involved in his proposal and has concluded that each offers a credible guarantee that it can fulfill the obligations it will undertake. This is in large measure due to the fact that the proposal is designed to minimize the capital outlay required of each party to acquire property and equipment and to maximize the extent to which each can operate the services it will acquire within its existing resources.

Other Considerations

In Notice No. 3, the Administrator discussed a number of considerations to which he would look in preparing a Supplemental Transaction for Conrail's lines in Connecticut and Rhode Island to present to the Special Court. A discussion of the Administrator's proposal, as accepted by the P&W, Conrail, and the B&M, in terms of these considerations is presented below.

Service Quality: The Administrator's proposal will significantly improve the quality of service offered to shippers in Connecticut and Rhode Island. The P&W offers to increase service frequency on the lines it will acquire in Rhode Island, where the public comments received indicated that such service frequency is highly valued by shippers. On the other hand, the comments received from major shippers in Connecticut indicated that they highly value single line service, and the Administrator's proposal will offer increased availability of single line service to Connecticut shippers. Single line service avoids the delay and expense involved in interchanging traffic between carriers, and it enhances the railroad's ability to respond quickly to competitive conditions in the marketplace. In the Staggers Act, the Congress clearly found that single line rail service enhances the ability of the railroads to compete among themselves and with other transportation modes and offers significant benefits to the national transportation system and the shipping community. Comments received from a number of shippers, including the largest rail shippers in Connecticut, and from the Maine and Vermont Departments of Transportation, indicated that single line service is important to many rail shippers and that the Conrail/B&M proposal would enhance such service in Connecticut.

Shippers on the Torrington line indicated through their comments that they place a high value on more frequent service and on service without branchline surcharges. For this reason, these shippers supported the proposal initially offered by the P&W. Due to operating considerations and the preferences of shippers on other Connecticut lines that would have had to accept P&W service for operations of that railroad in western Connecticut to be economically viable, the Administrator's plan does not include P&W service to the Torrington line. However, the B&M, which will acquire the line, has agreed not to impose a branchline surcharge on the Torrington line for at least 18 months, and not to impose a branchline surcharge thereafter if traffic is restored to the 1979 level. In addition, it has offered to provide shippers with daily service, if requested.

Rehabilitation: The Administrator's plan will result in substantial investments by the P&W and the B&M to rehabilitate the lines they will acquire. The lines to be acquired by the P&W will for the most part be upgraded to permit operation at 25 m.p.h. The B&M has obtained a $2.3 million line of credit to guarantee completion of its rehabilitation program. The funds invested by each of the participants will provide a long term benefit to the shippers of Connecticut and Rhode Island.

Employment: The initial P&W and Conrail/B&M proposals would have resulted in continued employment for essentially all Conrail employees currently working in Connecticut and Rhode Island. Under the Administrator's proposal, as accepted in principle by the P&W, Conrail and the B&M, most current Conrail employees in Connecticut will continue to be employed. The P&W is reassessing its requirement for employees in light of the properties it will now acquire in Rhode Island and eastern Connecticut. It should be noted that additional jobs will be generated as the railroads undertake the rehabilitation program to which they have agreed under the proposal.

Labor protection in connection with transactions included in the plan is Federally funded protection provided for by section 701 of the 3R Act, enacted by section 1143 of NERSA. The protection provided in section 701 is that specified in a schedule of benefits to be issued by the Secretary of Labor not later than December 11, 1981. Only Conrail employees who were protected by the compensatory provisions of Title V of the 3R Act immediately prior to the enactment of NERSA are eligible for benefits, and benefit payments to or on behalf of any individual may not exceed a total of $20,000

Benefits will be available to any eligible employees who are deprived of employment as a result of the transfer plan in this notice. It should be noted that an employee who accepts employment with any transferee and who is thereafter deprived of employment as a result of factors growing out of the transaction will remain eligible for benefits. On the other hand, an employee who refuses a final offer of employment with a Class I or Class II transferee will not remain eligible for benefits so long as the final offer is made under a procedure approved by the Administrator.

Rates: The P&W, Conrail and the B&M have all agreed under the Administrator's proposal to forgo branchline surcharges on all lines in Connecticut and Rhode Island. The P&W and Conrail offers are absolute. The B&M reserves the right to impose a $250 per car surcharge on the Torrington Secondary Track if, after an 18-month waiting period, traffic on the line is not restored to the 1979 level. The P&W, Conrail and B&M have agreed under the Administrator's proposal to divisions arrangements among themselves that are, in the Administrator's judgment, fair and equitable, and which should offer reasonable rate stability to shippers in the two states.

Shipper preferences: In each of the public meetings, and at other times throughout the Supplemental Transaction process, the Administrator stressed that he would be strongly influenced by the preferences of the shippers actually using rail service in Connecticut and Rhode Island. The Administrator carefully considered the views shippers expressed to him in meetings and the shipper comments submitted for the Docket. As discussed earlier, the comments indicated that Rhode Island shippers strongly favored service by the P&W, while most Connecticut shippers except those located on the Torrington line strongly desired service by Conrail or the B&M. The Administrator's proposal accommodates most shipper preferences. In the case of the Torrington line shippers, whose preferences could not be accommodated, the B&M has offered to provide service under essentially the same terms offered initially by the P&W, and the B&M offers the additional benefit of offering single line service on some of the shipments destined to the Torrington line.

Administrative Determination: The Administrator has determined that his plan, accepted in principle by the P&W, Conrail and B&M, meets the requirements of section 305(f)(2) and (3) and, to the extent required by law, 305(f)(1). The Administrator has further determined that the proposed order he will submit to the Special Court fairly embodies the agreement of the parties, with the exception of one term not agreed to by Conrail, and that its entry by the Court would be fully consistent with the statutory requirements. Accordingly, he will petition the Special Court no later than December 11, 1981 to enter his proposed order implementing the plan. The Administrator believes the plan will continue and improve railroad service over all Conrail lines in Connecticut and Rhode Island that were in operation as of the effective date of NERSA, and he will strongly recommend that the Special Court find that the plan meets the requirements of section 305(f) and that it is in accord with the public interest.

Issued in Washington, D.C. on December 10, 1981.

Robert W. Blanchette,

Administrator.

Appendix A

Rail Properties and freight service obligations of the Consolidated Rail Corporation (Conrail) in the States of Connecticut and Rhode Island which are proposed for transfer pursuant to section 305(f) of the Regional Rail Reorganization Act of 1973, as amended.

Consolidated Rail Corp.; Expedited Supplemental Transaction Proposals; Administrative Determination Concerning Five Massachusetts Lines

AGENCY: Federal Railroad Administration (FRA), DOT.

ACTION: Administrative determination regarding the transfer of five Consolidated Rail Corporation (Conrail) lines in Massachusetts.

SUMMARY: FRA announces its decision regarding transfer of five Conrail lines in Massachusetts to qualified purchasers that have guaranteed to continue service on the lines for a period of at least four years. The transfer is required by recently enacted legislation. FRA's decision is to transfer the Canaan, North Adams, and East Longmeadow Secondaries and trackage rights at Springfield and between Pittsfield and North Adams Junction to the Boston and Maine Corporation (B&M); and to transfer the Holyoke and Florence Secondaries to the New England Southern Railroad (NES) contingent upon the NES obtaining by March 1, 1981 a railroad charter in the Commonwealth of Massachusetts and financing sufficient to cover the purchase price and start-up costs and to reasonably assure continuous rail service. The transfer order provides that the purchase price for the properties transferred to the B&M be $550,000, and that the purchase price for the properties transferred to NES be $230,000. The transfer also provides for fair and equitable divisions of joint rates over through routes between Conrail and NES.

DATE: The determinations set forth in this Notice are administratively final, effective on December 11, 1981, the date of decision and issuance.

FOR FURTHER INFORMATION CONTACT: Steve Black, Office of Federal Assistance, FRA, (202) 472–7180.

SUPPLEMENTARY INFORMATION: Notice No. 4, published separately in this issue of the **Federal Register**, includes a discussion of the Northeast rail restructuring process prior to August 13, 1981, when the President signed into law the Omnibus Budget Reconciliation Act of 1981, Pub. L. 97–35, which included the Northeast Rail Service Act of 1981 (NERSA).

Section 1155 of NERSA amended section 305(f) of the Regional Rail Reorganization Act of 1973 (3R Act) to require the Secretary to petition the Special Court within 120 days (by December 11, 1981) to transfer all of Conrail's properties in the States of Connecticut and Rhode Island to one or more railroads in the region under a plan that provides for continuation of service for at least four years on all properties operated by Conrail as of the effective date of NERSA. That process, which was assigned Docket No. RFA 305–81–1, has been administered in conjunction with the Massachusetts proceeding described in this Notice because of the many issues common to both. FRA's determinations concerning the Connecticut/Rhode Island proceeding are described in Notice No. 4, which appears elsewhere in this issue of the **Federal Register**.

Section 1155 of NERSA also added a new subsection (g) to section 305, which requires the Secretary to initiate discussions and negotiations for the expedited transfer of the following five Conrail lines located primarily in the Commonwealth of Massachusetts: Canaan, Connecticut to Pittsfield, Massachusetts (Canaan Secondary); North Adams Junction, Massachusetts to North Adams, Massachusetts (North Adams Secondary); Hazardville, Connecticut to Springfield, Massachusetts (East Longmeadow Secondary); Westfield, Massachusetts to Easthampton, Massachusetts (Florence Secondary); and Westfield, Massachusetts to Holyoke, Massachusetts (Holyoke Secondary). Further, Section 305(g) requires the Secretary by December 11, 1981 to:

(1) Transfer, provided a qualified purchaser offers to purchase, Conrail's properties and rail service obligations for the five Massachusetts lines to another railroad or railroads in the region. A qualified purchaser is defined as a financially self-sustaining railroad which guarantees continuous service on the properties it acquires for at least four years.

(2) Determine a fair and equitable price for the rail properties to be transferred.

(3) Establish fair and equitable divisions of joint rates over those through routes that include the transferred properties, unless the purchaser and Conrail have agreed on such divisions.

(4) Determine fair and equitable terms for the provision of trackage rights, not to exceed 5 miles per line transferred, necessary to operate the transferred lines efficiently.

Chronology of Notices and Public Meetings

On August 21, 1981, the Administrator, as delegate of the Secretary, published Notice No. 1 to announce that informal conferences would be held to assist in structuring the discussions required by section 305(f) and section 305(g), as amended, and to solicit the participation of prospective purchasers and other interested parties (46 FR 42565). Conferences were held on August 31, 1981 at New Haven, Connecticut and on September 1, 1981 at Springfield, Massachusetts. On September 11, 1981, seven railroad companies filed preliminary declarations of interest in acquiring some or all of the Conrail lines to be transferred in Massachusetts. On September 17, 1981, the Administrator published Notice No. 2, which announced that an additional informal conference would be held to brief interested parties on the status of the Supplemental Transaction process and to solicit public comments, with particular emphasis on the comments of rail shippers (46 FR 46271). This informal conference was held September 28, 1981 at Providence, Rhode Island.

On September 24, 1981, the Administrator published Notice No. 3, which established deadlines, information requirements and guidelines for the Supplemental Transaction process (46 FR 47165). Notice No. 3, established October 23, 1981, as the deadline for the receipt of purchase proposals from potential purchasers and November 6, 1981, as the deadline for comments on the purchase proposals. The Administrator subsequently notified the parties that he would hold the docket open as long as pracatical to receive additional public comments. All comments received through December 7, 1981 were condsidered in making the determinations set forth in this Notice.

Proposals

On October 23, 1981, the Administrator received four Supplemental Transaction Proposals pursuant to section 305(g), as amended. A summary of the initial proposals, as revised, follows:

Providence and Worcester

The Providence and Worcester Railroad (P&W) proposed to acquire all Conrail's freight operations and freight service obligations on the Canaan, North Adams and East Longmeadow Secondaries and trackage rights at Springfield and between Pittsfield and North Adams, Massachusetts. Since portions of the Canaan and East Longmeadow Secondaries extend into Connecticut, transfer was requested under section 305(f); however, the P&W indicated that if the Secretary elected to transfer the Massachusetts lines under

section 305(g) it would seek trackage rights over the East Longmeadow Secondary under section 305(f).

The P&W proposed to operate the Canaan and North Adams Secondaries and the trackage rights connecting these lines as a self-contained shortline railroad providing frequency of service similar to that being provided by Conrail. The P&W proposed to serve the East Longmeadow Secondary 6 days per week.

The P&W assumed in preparing its proposal that it would pay $0 for Conrail's properties in Connecticut, Rhode Island and Massachusetts, 50 locomotives and 400 frieght cars. No separate price or valuation was offered for the Massachusetts lines. The P&W pledged not to impose surcharges on lines it acquired.

The P&W proposed that it receive the same divisions of joint rates over through routes agreed to by the former New York, New Haven and Hartford Railroad (New Haven) and its connections, with an average minimum of $400 per car. The divisions vary depending upon the point at which traffic is interchanged.

Boston and Maine

The Boston and Maine proposed to acquire, under section 305(g), all Contrail's freight operations and freight service obligations on the Canaan, North Adams and East Longmeadow Secondaries, and trackage rights at Springfield and between North Adams Junction and Pittsfield. It proposed to serve the Canaan and East Longmeadow Secondaries three days per week and the North Adams Secondary five times weekly. No surcharges were proposed on the lines. The B&M proposed to rehabilitate the North Adams and East Longmeadow lines to permit 10 m.p.h. operation, and the Canaan Secondary to permit 25 m.p.h. operation. The B&M proposed to pay $550,000 for the purchase of the three lines, and reached a divisions agreement with Conrail. The B&M proposed to spend approximately $1.65 million to rehabilitate the lines through 1985.

Massachusetts Central

The Massachusetts Central Railroad (MC) proposed to acquire all Conrail's freight operations and freight service obligations on the Holyoke, Florence and East Longmeadow Secondaries, and trackage rights from Westfield to Springfield. The MC proposed to serve the Holyoke Secondary, and Westfield shippers on the Florence Secondary, 5 days per week and the East Longmeadow Secondary and the Florence Secondary outside of Westfield 3 days per week. The MC proposed to interchange traffic with both Conrail and the B&M. It generally proposed no surcharges on the lines.

The MC proposes to rehabilitate the Holyoke Secondary to permit 25 m.p.h. operation and the Florence and East Longmeadow Secondaries to permit 10 m.p.h. operation. The MC proposed to pay $650,000 for the purchase of the three lines, including $409,500 to purchase the Holyoke and Florence Secondaries. It proposed to spend $386,350 for rehabilitation, and $249,000 for equipment acquisitions.

New England Southern

The New England Southern Railroad (NES) proposed to acquire all Conrail's freight operations and freight service obligations on the Florence and Holyoke Secondaries. It proposed to serve Westfield and the Holyoke Secondary 5 days per week and the Florence Secondary outside of Westfield 3 days per week. It proposed to interchange with Conrail at Westfield and with B&M at Holyoke. It proposed surcharges of $100 per car at Easthampton, $50 per car at Southhampton, and $25 per car at Holyoke.

The NES proposed to pay $287,500 to acquire the lines and $300,000 to rehabilitate them.

Summary of Public Comments

Comments were received from three shippers on the Massachusetts lines. The Milton Bradley Company, which has a facility located on the east Longmeadow Secondary, recommended approval of the B&M proposal because it seemed more interested than the P&W in the line and more able than the MC to fulfill its commitment to upgrade service. The W. R. Grace Company, with a facility located on the Florence Secondary, supported either the MC or NES, but indicated its preference for the MC. The Mobil Oil Corporation, which has a facility located on the Holyoke line, expressed no preference between the MC and NES. The Massachusetts Executive Office of Transportation and Construction supported the B&M proposal to acquire the Canaan, North Adams, and East Longmeadow lines. It expressed no preference between the MC and NES proposals.

The Lodge of the Brotherhood of Railway, Airline and Steamship Clerks representing P&W clerks supported the P&W proposal, and the general chairmen of the Brotherhood of Locomotive Engineers and the United Transportation Union for the B&M supported the B&M proposal.

Seven letters were received from city Chambers of Commerce in Massachusetts. Three chambers in Western Massachusetts supported the B&M. The Greater Springfield Chamber of Commerce, on behalf of the East Longmeadow Rail User Association, supported B&M acquisition of the East Longmeadow Secondary. The Greater Westfield Chamber of Commerce, located on the Florence Secondary, indicated that service by either the MC or NES would be satisfactory. Both the Easthampton Chamber of Commerce, located on the Florence Secondary, and the Greater Holyoke Chamber of Commerce supported either the NES or MC proposals but favored the MC application because it proposed no surcharges and is currently an operating railroad.

Final Discussions and Negotiations

After submission of purchase proposals on October 23, 1981, submission of a completed MC proposal dated October 31, 1981, and review of public comments on the proposals, meetings were held between FRA staff and representatives of the MC and NES. Discussions at these meetings focused on additional materials provided to clarify the two proposals, the extent to which each railroad could quality as a purchaser under section 305(g), and the progress of their negotiations with Conrail concerning purchase price and revenue divisions. Meetings were also held with P&W and B&M, as discussed in **Federal Register** Notice No. 4, in the context of their proposals to acquire Conrail properties in Connecticut and Rhode Island as well as Massachusetts.

In response to those meetings and other events that occurred in the interim, both the MC and NES submitted further modifications to their proposals. The NES revised its proposal, reducing surcharges and the amount that would be spent for rehabilitation to $237,500. The MC revised its financing plan by deciding to seek long-term financing from a commercial bank and from the Small Business Administration.

While the MC did not formally modify its proposal to seek transfer of only the Holyoke and Florence Secondaries, it held informal discussions with FRA staff and provided materials regarding its projected financial performance if it were to acquire the Florence and Holyoke lines.

The MC assumed in preparing subsequent financial projections that it would spend $315,000 to purchase the Holyoke and Florence Secondaries, $263,750 to rehabilitate them and $100,000 for equipment.

Analysis of Proposals

Section 305(g) of the 3R Act requires the Administrator to transfer Conrail's properties and freight service obligations for the five Massachusetts lines discussed herein to another railroad or railroads in the region found to be qualified. In assessing the qualifications of the prospective purchasers, and their respective capabilities to meet the legislative requirement to provide service for 4 years on a self-sustaining basis, it was necessary in the analysis of the MC and NES proposals to consider certain financial and operating contingencies implicit in the proposals.

The specific requirements of section 305(g), together with other considerations set forth in Notice No. 3 46 FR 47268 (September 24, 1981), were considered in reviewing the proposals and making this determination.

Providence and Worcester

The P&W initially submitted a proposal under section 305(f) to acquire all of Conrail's freight operations and freight service obligations in Rhode Island and Connecticut and the Canaan, North Adams, and East Longmeadow Secondaries in Massachusetts. It indicated that should the Secretary elect to direct that the Massachusetts lines be transferred under section 305(g) the P&W would seek trackage rights over the East Longmeadow Secondary under section 305(f). In his December 4, 1981 letter to the P&W, Conrail and the B&M proposing elements of an FRA plan in settlement of the issues in dispute under sectin 305(f), which is further discussed in Notice No. 4, the Administrator indicated that the Canaan, North Adams and East Longmeadow Secondaries would be transferred to the B&W under section 305(g). The P&W did not object.

Boston and Maine

The B&W propcsed to acquire the Canaan, North Adams, and East Longmeadow Secondaries, independent of its proposed purchase of Conrail lines in Connecticut. Therefore, the B&M proposal for these lines was considered solely within the requirements of section 305(g). The B&M proposed to devote one locomotive and crew to each of the three lines and to provide service levels greater than existing Conrail service. It proposed to spend $295,550 per year for normalized maintenance of the Cannan and North Adams Secondaries and $64,400 to maintain the East Longmeadow Secondary. All lines would be maintained for not less than 10 m.p.h. operation.

B&M's traffic projections for the North Adams, Canaan, and East Longmeadow Secondaries represent a 10-percent decline in traffic from Conrail's 1980 levels, or 3,396 carloads per year. B&M used the reduced traffic level as a conservative test to its ability to generate a positive cash flow from the operations.

The B&M estimated it would realize revenue of $535 per car for total annual revenues from the lines of $1.818 million. It projected operating costs of $1.564 million annually.

The North Adams Secondary connects with the B&M east-west mainline, and B&M expects to achieve longer hauls on traffic originating or terminating on its system from the Massachusetts lines.

FRA staff analysis concluded that B&M's traffic, revenue and cost projections were very reasonable and would support a determination that service could be maintained on a self-sustaining basis for four years.

Trackage Rights

The B&M requested trackage rights between Pittsfield and North Adams Junction to operate the Canaan and North Adams Secondaries and at Springfield to obtain access to the East Longmeadow line.

New England Southern

Legal Qualifications

Under the laws of the Commonwealth of Massachusetts, the NES must be authorized to operate as a railroad by special act of the legislature before it is permitted to initiate service. A bill that would satisfy this requirement has been introduced in the Massachusetts legislature. NES expects the bill to be enacted in the near future. Pending enactment of that bill, NES would seek interim authorization to operate from the Interstate Commerce Commission and would request the concurrence of the Massachusetts Executive Office of Transportation and Construction with that action.

Financial Qualifications

The NES financial proposal included a written commitment from a commercial bank for an eight-year loan of $150,000 conditioned upon, (1) other investors providing $100,000, and (2) shippers providing funding of $150,000. The NES has secured stock subscription commitments of $90,000, and has deposited $22,510 in an escrow savings account. The NES has made substantial progress in obtaining commitments from shippers to advance $150,000 at low interest terms, with repayment based upon the volume of traffic shipped. The NES stated that it is confident it can achieve a capitalization of not less than $400,000 prior to the commencement of operations. The projected level of capitalization would permit the NES to purchase the properties for cash and to operate with sufficient working capital to cover any anticipated losses from early operations. The level and the balance of debt and equity in the capitalization plan results in a reasonable debt structure with the debt satisfied at the end of eight years.

Operations

The NES proposed five day per week service on the Holyoke Secondary and to customers located at Westfield on the Florence Secondary, and three day per week service on the remainder of the Florence Secondary. It proposed two crew assignments and 70 to 75 crew hours a week to meet the service plan. The NES proposed to spend $93,400 for track maintenance in 1982. In addition, NES proposed to spend $237,500 during the next four years for necessary rehabilitation of the two lines which would be obtained through special tariffs.

While the NES is not currently an operating railroad, it has the services of an experienced short line railroad manager. It has a lease commitment at a reasonable cost for a 1,000 horsepower locomotive, which is sufficient for the proposed operating plan, and has access to a second locomotive on a short term lease basis.

Traffic, Revenues, and Costs

The NES projected it would carry 3,000 cars in 1982, and that traffic will increase to 3,380 cars in 1985. Conrail carried approximately 2,000 cars on the two lines in 1980. The NES traffic projection assumes that the railroad will regain former Conrail traffic through its ability to provide service oriented to shippers' needs, and that it will obtain approximately 500 cars now carried by the B&M by leasing necessary B&M lines adjacent to those NES would assume under this transfer. The NES cited information obtained through extensive interviews with shippers on the lines to support its traffic projections.

The NES projects revenues of $580,000 in 1982, exclusive of revenue from special tariffs received to fund rehabilitation, and operating expenses less description of approximately $527,000. After including the cost of rehabilitation and repayment of shipper advances, the revenue from the special rehabilitation tariff, and $30,000 debt service on its bank loan, the NES projected a positive cash flow before

taxes of approximately $40,000 in 1982. It also projected that it would continue in a positive cash position.

FRA has concluded that there is a reasonable likelihood that NES will obtain its corporate charter and financing in a timely manner. Detailed review by FRA staff indicates that while it is not possible to fully predict traffic and revenue levels, the NES projection falls within an achievable range. In addition, NES expense projections appear conservative. In summary, it appears likely that NES will be able to provide self-sufficient rail service on a continuing basis.

Massachusetts Central

Financial Qualifications

In order to purchase and initiate service on the Florence, Holyoke and E. Longmeadow Secondaries the MC proposed to rely largely on borrowed funds from conventional and government loan sources. The MC's financing proposal included the procurement of a conventional first mortgage loan for approximately $450,000, a Small Business Administration (SBA) guaranteed second mortgage loan of $360,000, and common stock of $110,000. The MC has obtained $110,000 in common stock purchase commitments. Some $50,000 of those commitments would be satisfied by refinancing of a locomotive that secures currently outstanding loans from the investors to the MC and reinvesting the proceeds of the refinancing in common stock. The equity investors have placed $18,000 of the $110,000 in an escrow account, and have assigned a $50,000 demand note from the bank to the account.

A commercial bank provided the MC a letter indicating an SBA guarantee appeared to be a viable method for providng funding and indicating the bank would look forward to pursuing the MC's request for first mortgage financing further with the intention of providing the funding. No commitment has been made to provide the loan. An SBA-certified development corporation has agreed to accept the second mortgage if the SBA approves a loan guarantee. Financial support has been offered to the MC, as well as the NES, by one shipper.

Based on the proposed acquisition of only the Florence and Hoyoke Secondaries, the MC financing proposal was modified to reduce the conventional financing to $383,500 and the SBA guaranteed loan to $307,000.

The MC estimated it would take six to eight months to conclude the financing process, and it proposed to enter into a lease-purchase agreement with Conrail in order to begin interim operations. While it is conceivable that operations could commence in early 1982, FRA's staff analysis indicates that continued operations could not be sustained unless the loans were obtained. The analysis also indicated that if all financing were obtained the level and the balance between debt and equity of the capitalization plan would result in a burdensome debt structure.

Operations

The MC proposed to operate the two lines generally separate from its existing operation of the Ware River Secondary. The Ware River Secondary is leased by the Commonwealth of Massachusetts and the MC is the contract operator. Subsidy is provided on a month to month basis by the Massachusetts Executive Office of Transportation and Construction. In 1980, subsidy payments were approximately $145,000. The MC proposed to continue operation of the Ware River Line. The MC proposed five day per week service on the Holyoke Secondary and to customers located at Westfield on the Florence Secondary, and three day per week service on the remainder of the Florence Secondary. It proposed one crew assignment and 45 to 50 hours per week to meet the service plan. It proposed to spend $68,600 for normalized maintenance in 1982. In addition, the MC proposed to spend $263,750 during the next four years for necessary rehabilitation of the two lines. Funding for the rehabilitation would be obtained through the conventional bank and SBA loans.

FRA staff analysis of the operating plan concluded that the projected schedule of service was optimistic and the actual operating times could be substantially greater.

Traffic, Revenue and Costs

The MC projected it would carry 2,944 cars in 1982. Conrail carried 2,000 cars on the lines in 1980. In common with the NES proposal, the MC proposal included an assumption that it would obtain approximately 500 cars now carried by the B&M by leasing necessary B&M lines adjacent to those MC would acquire under this transfer and that it would regain former Conrail traffic through its ability to provide service oriented to shippers' needs. In addition, the MC projected that it will carry 941 cars on the Ware River Secondary in 1982, compared with the 491 cars it carried on the line in 1980. The MC stated that the projections are based on information obtained in interviews with shippers and MC experience and judgment.

The MC projected revenues of $726,000 in 1982, including revenues from traffic on the Hoyoke and Florence Secondaries of $560,000 and $166,000 in revenues from traffic on the presently subsidized Ware River Secondary. Like those of the NES, it is not possible to fully assess MC's traffic and revenue projections for Holyoke and Florence. No analysis was made of Ware River traffic growth, but we would question the feasibility of a doubling of carloads in one year.

The MC projected expenses, excluding depreciation, of approximately $535,000 to operate the Holyoke, Florence, and Ware River Secondaries in 1982, including $409,000 to operate the Holyoke and Florence Secondaries.

After including the $127,000 debt service on its conventional bank and SBA loans, the MC projected a positive cash flow before taxes on the Holyoke and Florence Secondaries of approximately $25,000.

The FRA considers the MC's operating expense estimates to be based on optimistic assumptions regarding service schedules and car turnaround time. More realistic service schedules and car hire expenses would increase annual operating expense on the Florence and Holyoke Secondaries by approximately $30,000 to $40,000.

FRA staff concludes that the MC would not be able to achieve its financial requirements within a reasonable time and further believes it imprudent to begin interim operations without key elements of the financing package in place. The large annual debt service contemplated in the MC financial plan would place a severe burden on its chances for long term financial viability. In addition, MC's projected expenses are considered optimistic for the level of service proposed.

ADMINISTRATIVE DETERMINATION:

Canaan, North Adams and East Longmeadow Secondaries

Transfer of properties. The Canaan, North Adams and East Longmeadow Secondaries shall be transferred to the B&M. The B&M's proposal provides for more single line service to shippers on the lines and the properties are directly connected to its present system or within a reasonable distance.

Price. The properties shall be transferred for a price of $550,000, the price proposed by the B&M, on the terms with respect to recapture of proceeds of sale agreed to between Conrail and B&M.

Divisions. The division of joint rates over through routes shall be in accordance with the agreement between Conrail and the B&M.

Trackage rights. The B&M shall be granted the trackage rights requested in its proposal between Pittsfield and North Adams and at Springfield. Cars carried over those trackage rights by the B&M shall be assessed the charge agreed to between Conrail and the B&M.

Holyoke and Florence Secondaries

Transfer of Properties. The Administrator cannot find at this time that either the NES or MC is a qualified purchaser fot the Holyoke and Florence Secondaries within the meaning of section 305(g)(2) of the 3R Act. Given a reasonable amount of additional time, however, it appears that the NES is more likely than MC to be able to secure the legal authorizations and financing arrangements necessary to be found fully qualified to undertake service responsibilities on a timely basis and continue those services on a self-sustaining basis. Accordingly, transfer of these properties to the NES is expressly conditioned upon certain terms and conditions to ensure that, at the time of transfer, NES will be financially self-sustaining and able to provide a reasonable assurance of continued service on the acquired lines for at least four years. The Holyoke and Florence Secondaries and Westfield Yard, including the yard office structure at Westfield Yard, shall be transferred to the NES subject to the following conditions:

(1) The transfer shall be consummated no later than March 1, 1982.

(2) As of the conveyance date:

(a) The NES shall have been incorporated in the Commonwealth of Massachusetts;

(b) The NES shall have received all governmental authorizations necessary to provide rail operations over the transferred lines;

(c) The NES shall have obtained financing in the following amounts on terms substantially similar to those stated in the NES proposal under section 305(g):

(i) A loan from a bank or other financial institution of at least $150,000;

(ii) A low-interest loan from one or more shippers on the transferred lines in the principal amount of at least $150,000;

(iii) No less than $100,000 from the sale of common stock of the NES; and

(d) The NES shall have obtained an unconditional written commitment from one or more financially responsible persons to purchase additional NES common stock in the amount of at least $20,000 by no later than July 1, 1982.

(3) Without the prior written consent of the Administrator, during the first four years following consummation of the purchase:

(a) The NES will not declare or pay any dividend or make any other distributions of capital to the holders of any class of its capital stock;

(b) The NES will not purchase or redeem any of its securities;

(c) The NES will not at any time appropriate assets related to or derived from railroad operations to nonrailroad enterprises; and

(d) The NES will not commence rail service over any line other than the transferred lines, nor will it engage in a line of business other than that in which it is engaged at the time the transfer is consummated.

Price: The properties shall be transferred for a price of $230,000, which is fair and equitable considering the purchase price established for the other Massachusetts properties and the division of revenues established for traffic on these properties. The terms of the sale regarding asset conveyance and sales shall be similar to those agreed to by Conrail and the B&M. Under these terms, proceeds from asset sales, should they occur, are to be shared by Conrail and the NES during the initial eight-year period following consummation of the purchase. Additionally, nonoperating assets are excluded from conveyance.

Divisions: The division of joint rates over through routes shall be those established by the Administrator as being fair and equitable.

Trackage rights: no trackage rights have been requested by the NES.

In the event the NES fails to comply with any of the conditions set forth above by March 1, 1982, the transfer process shall be reopened.

In consideration of the foregoing, IT IS ORDERED that Conrail shall transfer its properties and freight service obligations identified in section 305(b)(1) of the 3R Act to the parties designated in this Notice as of the date(s) specified in this Notice or as directed by further Order of the Administrator.

It is further ordered that:

1. Each party that accepts a transfer of properties and freight service obligations pursuant to this Order shall be deemed (i) to guarantee, and shall guarantee, and (ii) to agree to provide, and shall provide, continuous service over such properties substantially in accordance with the acquisition proposal submitted to the FRA by that party for at least four years immediately following consummation of the transfer.

2. Each party that accepts a transfer of properties and freight service obligations pursuant to this Order shall be deemed to agree, and shall agree, that any dispute not otherwise resolved concerning the precise properties to be transferred, conveyance date, operating rights, divisions, payment of the purchase price and any other matter relating to or arising under the transfers directed pursuant to this Order shall be submitted to the Administrator for decision. The Administrator shall decide any such dispute based upon the best available evidence.

3. Each party that accepts a transfer of properties and freight service obligations pursuant to this order shall be deemed to consent, and shall consent, to the in personam jurisdiction of the Special Court created pursuant to section 209 of the 3R Act with respect to any proceeding before that Court seeking enforcement of this Order.

Issued in Washington, D.C., on December 11, 1981.

Robert W. Blanchette,

Administrator.

BILLING CODE 4910-06-C

federal register

Thursday
December 17, 1981

Part IV

Environmental Protection Agency

Requirements for Preparation, Adoption, and Submittal of Implementation Plans; Approval and Promulgation of Implementation Plans

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 51 and 52

[FRL 1983-1A]

Requirements for Preparation, Adoption, and Submittal of Implementation Plans; Approval and Promulgation of Implementation Plans

AGENCY: Environmental Protection Agency (EPA).

ACTION: Partial Stay of Regulations.

SUMMARY: EPA is staying a requirement of those regulations relating to the construction of new stationary sources of air pollution and modifications to existing sources which appear at 40 CFR 51.24, 52.21, Appendix S to Part 51, §§ 51.18(j), and 52.24. The requirement is that certain emissions from marine vessels are to be included in determinations of whether a proposed source or modification would emit a particular pollutant in "major" or "significant" amounts. In the Proposed Rules section of this part of today's **Federal Register**, EPA is proposing to delete that requirement and to amend certain other provisions that relate to vessel emissions.

DATE: The stay takes effect on December 7, 1981.

FOR FURTHER INFORMATION CONTACT: Michael Trutna, New Source Review Section, Office of Air Quality Planning and Standards, Research Triangle Park, North Carolina 27711; 919-541-5591; FTS-629-5591.

SUPPLEMENTARY INFORMATION: EPA's regulations relating to the construction of new sources and modifications contain the requirement that certain vessel emissions are to be included in determinations of whether a proposed source or modification would emit a particular pollutant in "major" or "significant" amounts. In July 1981, EPA (1) announced that it had decided to reconsider that requirement, (2) issued a temporary stay of the requirement, and (3) proposed to extend the stay. See 46 FR 36695 (July 15, 1981). In the Proposed Rules section of this part of today's **Federal Register**, EPA is proposing to delete the requirement, as well as certain other provisions relating to vessel emissions. EPA here is announcing that it is staying the requirement until it reaches a final decision on those proposals. A full description of the background to this stay, a response to the comments on the July 1981 proposal to extend the temporary stay, and other pertinent information appears in the notice in the Proposed Rules section of this part of today's **Federal Register** which announces the proposals to amend the regulations as to vessel emissions. EPA hereby incorporates that material, especially the response to comments, in this notice.

Authority for the stay lies in the following statutory provisions: Sections 101(b)(1), 110, 160-169, 171-178, and 301(a) of the Clean Air Act, as amended (42 U.S.C 7401(b)(1), 7410, 7470-79, 7501-08 and 7601(a)); section 129(a) of the Clean Air Act Amendments of 1977 (Pub. L. No. 95-95, 91 Stat. 685 (August 7, 1977)).

The text of the stay order appears below:

Order Staying Certain Regulatory Provisions Relating to Vessel Emissions

I hereby stay the following definitions of "stationary source," "building," "structure," "facility," and "installation" to the extent that they encompass the activities of vessels:

1. 40 CFR 51.24(b)(5)-(6), originally published at 45 FR 52731 (August 7, 1980);

2. 40 CFR 52.21(b)(5)-(6), originally published at 45 FR 52736;

3. 40 CFR Part 51, Appendix S, § II(A)(1)-(2), originally published at 45 FR 52741-42 and amended at 46 FR 50771 (October 14, 1981);

4. 40 CFR 51.18(j)(2)(i)-(ii), originally published at 45 FR 52743-44 and amended at 46 FR 50771; and

5. 40 CFR 52.24(f)(1)-(2), originally published at 45 FR 52746 and amended at 46 FR 50771.

The purpose of this partial stay of the definitions listed above is to suspend the requirement in 40 CFR 51.24, 52.21, Part 51 (Appendix S), 51.18 and 52.24 that certain vessel emissions are to be included in determining whether a source or modification would emit (or emits) a particular pollutant in "major" or "significant" amounts, until I reach a final decision on the proposal I am making today to delete that requirement.

In issuing this partial stay, I do not intend to change the status of any state-adopted program for new source review which EPA has approved under section 110 of the Clean Air Act. I do intend, however, to affect 40 CFR 52.21, even where EPA under subsection (u) of those regulations has delegated authority to a state to administer them. In such a case, the state may require no more than EPA could under the regulations as stayed.

This partial stay takes effect immediately, and expires when I reach a final decision on the proposal mentioned above.

Dated: December 7, 1981.

Anne M. Gorsuch,

Administrator.

BILLING CODE 6560-26-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 51 and 52

[FRL 1983-1]

Requirements for Preparation, Adoption, and Submittal of Implementation Plans; Approval and Promulgation of Implementation Plans

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposal of Amendments to Regulations.

SUMMARY: EPA here is proposing to amend its regulations relating to the construction of new stationary sources of air pollution and modifications to existing sources which appear at 40 CFR 51.24, 52.21, Appendix S to Part 51, 51.18(j), and 52.24. In particular, EPA is proposing amendments to those regulations which would (1) delete the current requirement that certain emissions from marine vessels are to be incuded in determinations of whether a proposed stationary source or modification would emit a particular pollutant in "major" or "significant" amounts and (2) expressly bar EPA from including vessel emissions in any such determination and from requiring a state to include them. In the Rules section of this part of today's **Federal Register** EPA is also staying the current requirement until it makes a final decision on those proposed amendments, thereby in effect extending the temporary stay at 46 FR 36695 (July 15, 1981). Finally, EPA here is proposing an amendment that would bar it (1) from including vessel emissions and certain emissions from other mobile sources in any preconstruction assessment of the air quality impact of a proposed source or modification and (2) from requiring a state to include those emissions in any such assessment.

DATE: The period for comment on the proposed amendments closes on January 18, 1982.

ADDRESS: *Comments.* Comments should be submitted (in triplicate, if possible) to: Central Docket Section (A-130), Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460. Attention: Docket No. A-81-39.

Docket. EPA has established a docket for the proposals announced here. It bears Docket No. A-81-39. The docket is an organized and complete file of all significant information submitted to or otherwise considered by EPA during this proceeding. The contents of the docket will serve as the record in the case of judicial review under section 307(b) of the Clean Air Act, 42 U.S.C. 7607(b). The docket is available for public inspection and copying between 8:00 a.m. and 4:00 p.m., Monday through Friday, at EPA's Central Docket Section, West Tower Lobby, Gallery I, 401 M Street, S.W., Washington, D.C. A reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: Michael Trutna, New Source Review Section, Office of Air Quality Planning and Standards, Research Triangle Park, North Carolina 27711; 919-541-5591; FTS-629-5591.

SUPPLEMENTARY INFORMATION:

I. Introduction

In August 1980, EPA extensively revised its regulations concerning the construction of new stationary sources and modifications in response to *Alabama Power Company* v. *Costle*, 636 F. 2d 323 (1979). See 45 FR 52676 (August 7, 1980). Five sets of regulations resulted from those revisions. One set, 40 CFR 51.24, specifies the elements of an approvable state program for preconstruction review for prevention of significant deterioration of air quality (the "Part 51 PSD regulations"). Another set, 40 CFR 52.21 (the "Part 52 PSD regulations"), delineates the federal program for PSD preconstruction review, which currently applies in most states. Another set, 40 CFR 51.18(j), specifies the elements of an approvable state program for preconstruction review for nonattainment purposes. It elaborates on Section 173 of the Act. The fourth set, 40 CFR Part 51, Appendix S, embodies EPA's "Emissions Offset Interpretative Ruling." The fifth set, 40 CFR 52.24, embodies the construction moratorium for certain nonattainment areas.

In the fall of 1980, numerous industry and environmental groups petitioned the Court of Appeals for the D.C. Circuit to review, and EPA to reconsider, various provisions of those PSD and nonattainment regulations. *Chemical Manufacturers Association* v. *EPA*, No. 79-1112 and consolidated cases. Among the provisions the industry petitioners challenged were the requirements that (1) certain vessel emissions are to be included in determinations of whether a proposed source or modification would emit a particular pollutant in "major" or "significant" amounts and (2) a physical or operational limitation on emissions capacity must be federally enforceable to be taken into account in any such applicability determination.

Subsequently, in July 1981, EPA announced that it had decided to reconsider those requirements. It also issued a temporary stay of the requirements, which was set to expire ninety days from issuance (*i.e.*, on October 5, 1981). Finally, the Agency solicited comment on whether and under what terms it should extend the stay. See 46 FR 36695 (July 15, 1981).

EPA is here announcing further action on the vessel emissions requirement.[1] As explained in more detail below, EPA has concluded that the Clean Air Act bars it from requiring the inclusion of vessel emissions in *any* determination in the preconstruction review of new sources and modifications. Primarily for that reason, EPA is proposing amendments to the PSD and nonattainment regulations which would (1) delete the current requirements for the inclusion of certain vessel emissions in applicability determinations and (2) expressly bar EPA from requiring the inclusion of any vessel emissions in such determinations. In the Rules section of this part of today's **Federal Register**, EPA is also staying that requirement until it reaches a final decision on the proposal. Finally, EPA here is proposing amendments to the regulations which would also delete the current requirement that certain vessel emissions must be included as "secondary emissions" in assessing the air quality impact of a proposed source or modification.

The balance of this notice first discusses the proposal to delete the requirement for the inclusion of vessel emissions in applicability determinations, including the pivotal legal interpretation and certain other bases for the proposal. It then turns to the stay, in particular, summarizing and responding to the material comments on whether to extend the temporary stay. Finally, it describes the proposal to delete the requirement for the inclusion of vessel emissions in assessments of the air quality impact or proposed projects.

II. Proposal to Delete the Requirement for the Inclusion of Vessels Emissions in Applicability Determinations

A. Background

Whether the five sets for PSD and nonattainment regulations apply to a particular source, especially a marine terminal,[2] and then to a particular

[1] EPA does not plan to extend the temporary stay of the federal enforceability requirement at this time and will announce further action on that requirement in a future **Federal Register** notice.

[2] Typically, a marine terminal consists of docks and storage structures. Vessels move to and from, and stay at, the terminal. Air pollutants emanate mainly from the storage structures and the vessels. For example, storage tanks containing liquid petroleum products emit substantial amounts of volatile organic compounds. Similarly, vessels carrying such products also emit those pollutants.

Continued

pollutant from the source depends greatly on the scope of the term "stationary source." In general, the five sets of regulations aim their substantive requirements only at "major stationary sources" and "major modifications."[3] Furthermore, four of the five sets[4] aim their substantive requirements only at those pollutants regulated under the Act which the new "major stationary source" or "major modification" would emit in "major" or "significant" amounts, depending on the regulations in question.[5] Finally, all five sets define "major stationary source," "major modification" and "significant" in terms of rates of emissions from the "stationary source" in question. The Part 52 PSD regulations, for instance, define "major stationary source" as any "stationary source" with the potential to emit 100 tons or more per year of any pollutant regulated under the Act, or 250 tons or more per year, depending on source type. 45 FR 52735 (§ 52.21(b)(1)).

In revising the PSD and nonattainment regulations in August 1980, EPA defined "stationary source" as "any building, structure, facility, or installation which emits or may emit any air pollutant subject to regulation under the Act." *See, e.g.*, 45 FR 52736 (§ 52.21(b)(5)). The Agency then defined "building, structure, facility, or installation" for PSD purposes, and "building, structure, or facility" for nonattainment purposes,[6] as:

> all of the pollutant-emitting *activities* which belong to the same industrial grouping, are located on one or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control). Pollutant-emitting activities shall be considered as part of the same industrial grouping if they belong to the same "Major Group" (*i.e.*, which have the same first two-digit code) as described in the *Standard Industrial Classification Manual*. 1972 * * * (*See, e.g.*, 45 FR 52736 (§ 52.21(b)(6)) (emphasis added).)

EPA applied those new definitions to marine terminals and vessel emissions in the preamble to the revisions. The Agency stated that it intended "stationary source":

> To encompass the activities of a marine terminal and those dockside activities *that would serve the purposes of the terminal directly and would be under the control of its owner or operator*. The term "dockside activities" means those activities in which the ships would engage while docked at the terminal. (45 FR 52696 (1st column) (emphasis added).)

EPA added that a determination of whether a particular dockside activity would directly serve the purposes of a terminal and would be under the control of its owner or operator would depend on the circumstances of the specific case. *Id.* EPA indicated, however, that it would presume that the activity of loading or unloading a vessel would in every case directly serve the purposes of a terminal and that such an activity would be under the control of the owner or operator of the terminal "to a substantial extent", since no loading or unloading could occur without the consent of the owner or operator. *Id.*

In response to general comments on the problem of how vessel emissions are to be taken into account for new source review, EPA took the position that vessels are not "mobile sources" within the meaning of Section 110(a)(5) of the Act, 42 U.S.C. 7410(a)(5). See 45 FR 52696 (2nd column). Section 110(a)(5), in general,[7] prohibits EPA from requiring a state to include a program of indirect source review in the state implementation plan ("SIP") and from itself inserting such a program into a SIP. The term "indirect source review program" means "the facility-by-facility review of indirect sources of pollution * * *" Section 110(a)(5)(D), 42 U.S.C. 7410(a)(5)(D). An "indirect source" is "a facility, building, structure, installation, real property, road, or highway which attracts, or may attract, *mobile sources* of pollution." Section 110(a)(5)(C), 42 U.S.C. 7410(a)(5)(C) (emphasis added).

GATX Terminals Corporation petitioned the D.C. Circuit for review of the definition of "stationary source" in the five sets of PSD and nonattainment regulations to the extent that the definition, as interpreted by EPA, required vessel emissions to be included in quantifying the emissions of a marine terminal for applicability purposes. GATX also petitioned EPA to reconsider and stay the definition to that extent.

In its challenge to the definition, GATX contended that EPA exceeded its statutory authority in requiring the inclusion of vessel emissions for applicability purposes. One argument GATX made was that vessels are "mobile sources" within the meaning of section 110(a)(5), that marine terminals are therefore "indirect sources" with respect to vessel emissions and, hence, that EPA may neither require a SIP to contain a preconstruction review program which applies in anyway to a marine terminal by virtue of vessel emissions, nor insert such a program into a SIP. *See* Brief of GATX Terminals Corporation on Vessel Emissions Issue, at 17–20 (February 1981); Petition for Reconsideration by GATX Terminals Corporation, at 13–14 (October 1980).

GATX also contended that EPA acted arbitrarily and capriciously. One argument it made was that EPA incorrectly presumed that a terminal owner or operator who does not own or operate the vessels that call at the terminal controls the loading or unloading of the vessels to a substantial extent. In fact, GATX says, such "independent" terminal owners and operators have very little control over those activities. Another argument was that the regulations, which would impose on an independent terminal owner or operator liability for the failure of a vessel to observe the control requirements in a permit, are unfair and irrational in that respect, because the terminal owner or operator would have such little control over the behavior of the vessels.

Finally, GATX contends that EPA violated the procedural requirements of the Clean Air Act by failing to give adequate notice at the proposal stage that it might require the inclusion of vessel emissions for applicability purposes.

B. Legal Interpretation

After considering the arguments of GATX with respect to section 110(a)(5), EPA has decided to reverse its earlier position. EPA agrees that vessels are "mobile sources" within the meaning of that section. First, the term "mobile sources" in its ordinary usage is clearly broad enough to encompass marine vessels. Second, Congress nowhere expressly provided in the Act that the

---

particularly when loading or unloading. The vessels, however, also emit sulfur dioxide. The sulfur dioxide comes from the combustion of fuel in the internal power plants of the vessels. Power is needed, not only for movement, but also for such dockside activities as loading and unloading.

[3] For example, the Part 52 PSD regulations require only new "major stationary sources" and "major modifications" that would be located in "clean air" areas to have PSD permit before construction begins. 45 FR 52738 (§ 52.21(i)).

[4] The construction moratorium, 40 CFR 52.24, simply restricts the construction of a project; it does not require that application of control technology and assessments of air quality impact for the various emissions from the project.

[5] For example, the Part 52 PSD regulations require an applicant for a PSD permit for a "major stationary source" to show that the "stationary source" would have "best available control technology" (BACT) for just those pollutants regulated under the Act that the "stationary source" would emit in "significant" amounts. 45 FR 52740 (§ 52.21(j)).

[6] EPA defined "installation" for nonattainment purposes as "an identifiable piece of process equipment." *See e.g.*, 45 FR 52744 (§ 51.18(j)(1)(iii)). EPA very recently deleted that definition. 46 FR 50766 (October 14, 1981).

[7] The exception lies in section 110(a)(5)(B), which provides that EPA may "promulgate, implement and enforce regulations under section 110(c) respecting indirect source review programs which apply only to federally assisted highways, airports, and other major federally assisted indirect sources and federally owned or operated indirect sources."

term was to have a scope so narrow as to exclude vessels. Third, Congress throughout the Act, and even in section 110, used other terms to refer to subspecies of sources with mobility, for example, "motor vehicles". *See, e.g.,* sections 101(a)(2), 42 U.S.C. 7401(a)(2); section 110(a)(2)(G), 42 U.S.C. 7410(a)(2)(G); section 110(c)(2)(D)(i), 42 U.S.C. 7410(c)(2)(D)(i); section 110(e)(1)(A), 42 U.S.C. 7410(e)(1)(A); section 177, 42 U.S.C. 7507; sections 201–16, 42 U.S.C. 7521–51 *(passim).* Plainly, if Congress has intended "mobile sources" to exclude vessels, it would have said so. Fourth, the House and Senate conferees, in fashioning section 110(a)(5), eliminated a definition of "mobile source-related air pollutant", a term which appeared in the seminal provisions of the House bill and now appears in section 110(a)(5). That definition would have limited the term to just the pollutants regulated under Title II. It is unlikely that the conferees would have jettioned that definition, if they had intended "mobile sources" to exclude vessels. *Compare* H.R. Rep. No. 95–294, 95th Cong., 1st Sess. 437 (1977), *with* H.R. Rep. No. 95–564, 95th Cong., 1st Sess. 93 (1977). Finally, the relevant House report reinforces the conclusion that Congress intended "mobile sources" to include vessels. It reflects a strong antipathy toward the case-by-case preconstruction review of shopping centers and other facilities that attract motor vehicles with respect to emissions from the those vehicles. That antipathy extends logically to case-by-case review of marine terminals with respect to vessel emissions, since the circumstances of marine terminals closely parallel those of shopping centers and the like. See H.R. Rep. No. 95–294, 95th Cong., 1st Sess. 221 (1977).

EPA further agrees that, because vessels are "mobile sources" within the meaning of section 110(a)(5), EPA has no authority to require the inclusion of vessel emissions in applicability determinations. Section 110(a)(5), in general, prohbibits EPA from requiring a SIP to contain a preconstruction review program which applies *in any way* to a project by virtue of emissions from "mobile sources" and from inserting such a program into a SIP. The effect of the current definition of "stationary source," however, is to require each SIP to contain certain preconstruction review programs that would apply to some projects solely because of vessel emissions associated with them. The effect of the definition is also to insert into each SIP certain preconstruction programs which would also apply to some projects solely because of vessel emissions.

EPA, however, would not agree that it has no authority at all to require a SIP to contain a program for the direct control of vessel emissions or to insert such a program into a SIP. The Act requires each states to have an implementation plan which assures attainment and maintenance of each national ambient air quality standard ("NAAQS") and PSD increment. If attainment and maintenance of a NAAQS cannot be assuered without a program for the direct control of vessel emissions, then the SIP must contain such a program. *See* section 110(a)(2)(B), 42 U.S.C. 7410(a)(2)(B); *State of Texas* v. *EPA*, 479 F.2d 289, 316.17 (5th Cir. 1974).

C. Other Bases for the Proposal

EPA also agrees with GATX that the Agency failed to give adequate notice at the proposal stage that it might require the inclusion of vessel emissions for applicability purposes. As GATX pointed out, EPA had informed the D.C. Circuit shortly before EPA proposed its revisions to the PSD and nonattainment regulations in September 1979 that the regulations did not require the inclusion of vessel emissions for those purposes; the definition of "stationary source" which EPA proposed in September did not vary materially from the definition of that term in the regulations; and EPA gave no signal at any time during the rulemaking that it was thinking of requiring the inclusion of vessel emissions.

This failure to provide adequate notice, moreover, was "so serious and related to matters of such central relevance to the rule that there is a substantial likelihood that the rule would have been significantly changed" if the error had not occurred. Section 307(d)(8), 42 U.S.C. 7607(d)(8). In August 1980, when EPA promulgated the new definition of "Stationary source," it did not have before it the petition for reconsideration from GATX, the GATX brief to the D.C. Circuit, and the comments (summarized below) which were submitted in this proceeding on whether to extend the temporary stay. Those materials contain a wealth of data on the relationships between terminal owners and operators and vessel owners and operators. They also expose strong and differing opinions on whether and in what ways the emissions of vessels should be taken into account for applicability purposes. That information and that controversy strongly indicate that the vessel emissions issue deserved much more ventilation than it had.

D. Proposed Amendments

The primary purpose of the amendments proposed here is to conform the PSD and nonattainment regulations to the legal conclusions the Agency has reached. Another purpose is to remedy the error in procedure described above. The amendments would delete the requirement for the inclusion of vessels emissions in applicability determinations and bar EPA from requiring their inclusion. Specifically, EPA proposes to insert into the PSD definition of "building, structure, facility and installation" and the nonattainment definition of "building, structure and facility" a clause which expressly excludes vessel activities from those terms.[8]

EPA solicits comments on the proposed amendments.

III. Stay of Requirement for Inclusion of Vessel Emissions in Applicability Determinations

A. Decision on Extension of Temporary Stay

EPA has also decided to stay those definitions of "building," "structure," "facility," and "installation," insofar as they require the inclusion of vessel emissions in applicability determinations. Notice of the stay appears separately in the Rules section of this part of today's **Federal Register**. In view of EPA's determinations on statutory authority and procedural deficiencies, it is highly likely that the Agency will delete that requirement, either by putting the proposed amendments into effect or changing the regulations in some other way. In addition, the requirement, absent a stay, would impose significant regulatory burdens on companies attempting to obtain permits for the construction or modification of marine terminals. Finally, the possibility that the exclusion of vessel emissions from applicability determinations pending a final decision on the proposals will frustrate substantially the long-term, national goals of the PSD and nonattainment regulations is small, primarily because of the short period of time involved, and certainly not large enough to outweigh the other two considerations (likelihood of deletion and regulatory burden).

B. Comments

The comments which EPA received on whether to extend the temporary stay

[8] The numbering of the nonattainment definitions in the proposed regualtory language at the end of this notice reflects the amendments to the definitions of "installation" and "reconstruction" to which footnote 6 above refers.

and its response to those comments are set forth below.

A number of commenters argued that the stay was procedurally defective because the Agency failed to comply with the notice and comment requirements of section 4 of the Administrative Procedure Act ("APA"), 5-U.S.C. 553, and Section 307(d)(3) of the Clean Air Act, 42 U.S.C. 7607(d)(3), and failed to make sufficient showing of good cause to qualify for the exceptions to those requirements pursuant to section 4(b)(3)(B) of the APA, 5 U.S.C. 553(b)(3)(B). They noted that, where rules are issued in violations of these provisions, the opportunity to submit comments after promulgation does not cure the original error.

With respect to the temporary stay, the Agency does not agree that its "good cause" findings were inadequate. In any event, these objections are clearly irrelevant to the long-term stay pending completion of the reconsideration process promulgated by means of this notice. This stay has been promulgated in full compliance with the APA, after publication of a proposal soliciting comment and a 30-day comment period. The Agency has omitted only the 30-day waiting period between the date of promulgation of a rule and its effective date normally required by section 553(d), since this rule results from a change in the interpretation of the act, and relieves a restriction, 5 U.S.C. 553(d)(1), (2).

Several commenters suggested that the only provision authorizing stays in the Clean Air Act is section 307(d)(7)(B), 42 U.S.C. 7607(d)(7)(B), and since a long-term stay during completion of the reconsideration process would not meet all of the conditions laid out in that provision, such a stay would be invalid. Section 307(d)(7)(B), however, is applicable only to certain stays issued without advance notice and public comment.[9] The long-term stay at issue here is a different kind of stay, issued pursuant to section 301 of the Clean Air Act, after notice and comment.

Many commenters, including the California Air Resources Board, as well as several municipalities and environmental groups, criticized both the proposed stay and the suggestion that vessel emissions be excluded from the emissions of a source in determining the applicability of new source review, on the grounds that such a change would result in significant deterioration of air quality in some areas. These commenters submitted data to show that vessel emissions of sulfur dioxide, particulates and volatile organic compounds in certain areas were substantial, were likely to increase, and in some cases were greatest during activities which occurred in close proximity to on-shore facilities. One commenter referenced calculations that potential emissions just from ships anticipated to call at a particular facility were sufficient to violate the PSD increment and the state ambient air quality standard in that area. The California Air Resources Board stated that, to the extent that vessel emissions were excluded from new source review, the California SIP and local rules would no longer be adequate to ensure that federal standards were maintained or that reasonable further progress was made toward attainment.

Commenters on both sides agreed that the emissions from ships were often the most voluminous emissions associated with a marine terminal and that, if these emissions were excluded, many terminals would drop below the statutory thresholds for new source review. The California Air Resources Board, among others, noted that if this were to happen, on-shore facilities, including small businesses, would be required to make up the difference, that is, to the extent that added vessel emissions degraded the air, on-shore facilities would be required to take measures to reduce their own emissions beyond what would otherwise be necessary.

Some commenters noted that even though a terminal owner or operator might not know exactly what vessels might call on the terminal in a given year, there were reliable means of making reasonable estimates of the emissions associated with those vessels; indeed, the commenters cited a number of instances in which such calculations had actually been done. Commenters argued that there were control measures available now, for both shipboard and dockside activities, which were practical and cost-effective, and they cited several instances in which such control measures (limiting the sulfur content of the fuel burned by ships at the terminal, for example) had been successfully implemented.

The San Francisco Bay Area Air Quality Management District observed that requirements it imposed under the present provision had not resulted in the denial of a permit to any project. In fact, it added, the availability of ship emissions for offsets permitted greater industrial growth than would otherwise have been allowed.

Finally, one commenter noted that even if States remained free to require terminals to obtain permits, despite the removal of the federal requirement, competitive pressures between States would make such provisions difficult to maintain.

None of these arguments went undisputed, however. There were also many commenters who supported both an extension of the temporary stay and the suggested revision to the regulations. They argued that the inclusion of vessel emissions in new source review determinations imposed an unreasonable burden on marine terminal owners and operators. For example, some commenters noted that a terminal could rarely obtain adequate data to perform required modelling, and that not enough is known about emission control techniques for vessels—retrofitting vessels would be onerous, and other suggested approaches raised questions of safety. Commenters explained that sulfur content is not a specification for the bunker fuel burned by ships, so ship captains may not even know what they are burning; moreover, fuel of the sulfur content likely to be required is not available in many ports. One commenter representing marine terminal owners indicated that terminals often did not have contractual relations with the vessels which called on them, could not impose emission control requirements on these vessels, and should not be penalized if ship captains violated the law; indeed, this commenter observed that terminals do not enforce domestic and international maritime safety provisions concerning the operations of vessels. Another commenter observed that because marine terminals themselves typically emit only small amounts of pollutants such as sulfur dioxide, they have few internal sources of offsets to use to "net out" of review, or to meet emission limitations in a more cost-effective way. Many commenters alluded to the substantial cost and delay which results from the present rule on vessel emissions.

Finally, ship owners expressed concern that the present rule permits piecemeal regulation of vessel design and operation, allowing different ports to issue inconsistent regulations and thus burden interstate and international commerce. Terminal owners were likewise concerned that the variations in requirements between ports would affect competition between terminals

[9] Among the comments was the assertion that EPA, in issuing the temporary stay, had taken the position that section 307(d)(7)(B) does not give the Agency the authority to issue such a stay. EPA disagrees. It did not state that section 307(d)(7)(B) does not provide that authority. In fact, the Agency believes that the section does provide the necessary authority.

and possibly disadvantage some of the newer ones.

The answer to all of these comments is the same: as indicated, whatever the actual effect of control of vessel emissions through new source review of terminals, in section 110(a)(5) Congress, in general, prohibited EPA from requiring the states to include such a provision in their SIPs, and from adopting it in SIP programs it administers directly. Pursuant to section 116, however, the States remain free to adopt or retain this approach to new source review if they find it useful. Moreover, under the authority of sections 116 and 110, they may also impose controls on vessels directly.

A number of commenters noted that provisions of the Clean Air Act must be construed in light of the purpose of that legislation, namely, to improve the air quality of the nation, even where improvement occasions some cost or inconvenience. The commenter went on to argue that excluding ship emissions at the dock from new source review frustrates the purposes of the programs created by the Act, and that EPA therefore lacks the authority to define "major stationary source" this way. Obviously, EPA accepts the general principle of statutory construction asserted, and applies it in all areas in which it has discretion. However, the exclusion of vessel emissions at issue here results not from the exercise of Agency discretion but from the direct command of Congress, which has the power to specify with particularity the ways in which its goal is to be achieved.

Similarly, other commenters argued that the use of the term "source," rather than "stationary source," in several of the key provisions of the Act, as well as the statutory commands to take account of the emissions "resulting from" a source, 42 U.S.C. 7503, 7502(b)(5), or "caused" by it, 42 U.S.C. 7475(a), indicate a Congressional intention to define "source" and the emissions attributable to a "source" to include vessel emissions when determining the rate of emissions of a marine terminal. Interpretations based on such general language, however, cannot overcome the specific prohibition of section 110(a)(5).

Finally, one commenter noted that it would be inconsistent for EPA to exclude vessel emissions from the emissions of a terminal when determining the applicability of new source review, while including them as secondary emissions when assessing the air quality impact of terminals that exceeded the statutory threshold independently. EPA agrees and is proposing to eliminate this inconsistency.

C. Effect of the Stay

EPA, under subsection (u) of the Part 52 PSD regulations, has delegated the authority to administer those Part 52 regulations to some states. Each delegate state must now administer the Part 52 PSD regulations as now stayed. By contrast, in staying the requirements for inclusion of vessel emissions, EPA does not intend to change the status of any state-adopted program for new source review which it has already approved under section 110 of the Clean Air Act. However, while the stay remains in effect, EPA will not disapprove any state-submitted program for new source review, or any revision to such a program, on the grounds that it fails to embody the now stayed requirements.

D. Miscellaneous

EPA regards the issuance of the stay as "nationally applicable" "final action" within the meaning of section 307(b)(1) of the Clean Air Act, 42 U.S.C. 7607(b)(1). Any petition for review of the stay must be filed, therefore, with the U.S. Court of Appeals for the D.C. Circuit on or before February 16, 1982.

EPA is putting the stay into effect immediately, because it results from a change in legal interpretation, and "relieves a restriction" within the meaning of section 4(d) of the APA, 5 U.S.C. 553(d). In addition, EPA finds that it has "good cause" within the meaning to section 4(d) to do so, because EPA will most likely delete the stayed requirement at the end of the rulemaking.

Under Executive Order 12291, EPA must judge whether an action it takes is a "major rule" and therefore subject to the requirement of a Regulatory Impact Analysis. This partial stay is not a "major rule," because it is not permanent and lifts current regulatory burdens.

The partial stay has been submitted to the Office of Management and Budget for review under Executive Order 12291. Any comments from OMB to EPA and any EPA responses are available in the docket for the proceeding.

Pursuant to the provisions of 5 U.S.C. 605(b), EPA hereby certifies that the partial stay will not have a significant adverse impact on small entitites.

IV. Proposal To Delete the Requirement for the Inclusion of Vessel Emissions in Air Quality Impact Assessments

A. Background

At the heart of the PSD and nonattainment regulations is the requirement that an applicant for a permit must provide an assessment of the air quality impact of the proposed project. *See, e.g.*, 45 FR 52740 (§ 52.21(k)). The relevant provisions add that any such assessment must include the "secondary emissions" of the project and define that term as:

> Emissions which would occur as a result of the construction or operation of a major stationary source or major modification, but do not come from the major stationary source or major modification itself * * *.[10] Secondary emissions may include, but are not limited to:
>
> (i) *Emissions from ships or trains coming to or from the new or modified stationary source;* and
>
> (ii) Emissions from any offsite support facility which would not otherwise be constructed or increase its emissions * * *. [*E.g.*, 45 FR 52737 (emphasis added).]

Industry petitioners have also petitioned the D.C. Circuit to review, and EPA to reconsider, the requirement for the inclusion of "secondary emissions" in air quality impact assessments. In response to those challenges and in light of its interpretation of "mobile sources" in section 110(a)(5), EPA has concluded that it has no authority to treat emissions from ships and trains as "secondary emissions" and, hence, to require their inclusion in air quality impact assessments. EPA, therefore, proposes to conform the regulations to that conclusion by deleting the clause underlined above and adding the following sentence to the definition: "Secondary emissions do not include any emissions which come directly from a mobile source, such as the emissions from the tailpipe of a motor vehicle, from a train, or from a marine vessel."

EPA solicits comments on this proposed amendment.[11]

V. Miscellaneous

Under Executive Order 12291, EPA must judge whether an action it proposes to take would be a "major rule" and therefore subject to the requirement of a Regulatory Impact Analysis. The amendments EPA is proposing here would not constitute a "major rule," primarily because they would relieve current regulatory burdens.

The requirement for performing an economic impact assessment in section 317 of the Act, 42 U.S.C. 7617, does not

---

[10] The definition adds here that an applicant need include only those "secondary emissions" which are quantifiable and would impact the same general area as the proposed project.

[11] EPA and industry petitioners are currently negotiating a settlement of the challenges to the secondary emissions requirement. EPA may agree to propose to delete the requirement entirely. If EPA does propose to do so, that proposal will subsume this one.

apply to the amendments EPA is proposing here. Section 317 applies only to "revisions which the Administrator determines to be substantial revisions." The proposed amendments are not substantial revisions, because they relieve current regulatory burdens and the Act requires them.

The proposed amendments have been submitted to the Office of Management and Budget for review under Executive Order 12291. Any comments from that office on the amendments will be placed in the docket for this proceeding.

Pursuant to the provisions of 5 U.S.C. 605(b), EPA hereby certifies that the proposed amendments will not have a significant adverse impact on small entities.

(Sec. 101(b)(1), 110, 160–169, 171–178, and 301(a), Clean Air Act as amended (42 U.S.C. 7401(b)(1), 7410, 7470–79, 7501–08 and 7601(a)); sec. 129(a), Clean Air Act Amendments of 1977 (Pub. L. No. 95–95, 91 Stat. 685 (August 7, 1977)))

Dated: December 7, 1981.

Anne M. Gorsuch,

Administrator.

Proposal To Delete Certain Regulatory Requirements Relating to the Emissions of Mobile Sources

Requirements for State PSD Plans

§ 51.24 [Amended]

Section 51.24 of Title 40 of the Code of Federal Regulations is proposed to be amended as follows:

a. By adding the following clause to the first sentence of paragraph (b)(6) immediately before the period at the end of the sentence: "* * *, except the activities of any marine vessel"; and

b. By removing the last sentence of paragraph (b)(18) and substituting the following: "* * * Secondary emissions include emissions from any offsite support facility which would not otherwise be constructed or increase its emissions as a result of the construction or operation of the major stationary source or major modification. Secondary emissions do not include any emissions which come directly from a mobile source, such as the emissions from the tailpipe of a motor vehicle, from a train, or from a marine vessel."

New Source Review for PSD Purposes

§ 52.21 [Amended]

Section 52.21 of Title 40 of the Code of Federal Regulations is proposed to be amended as follows:

a. By adding the following clause to the first sentence of paragraph (b)(6) immediately before the period at the end of the sentence: ",* * * except the activities of any marine vessel"; and

b. By removing the last sentence of paragraph (b) (18) and substituting the following: "* * * Secondary emissions include emissions from any offsite support facility which would not otherwise be constructed or increase its emissions as a result of the construction or operation of the major stationary source or major modification. Secondary emissions do not include any emissions which come directly from a mobile source, such as the emissions from the tailpipe of a motor vehicle, from a train, or from a marine vessel."

Emission Offset Interpretative Ruling

Appendix S [Amended]

3. Section II of Appendix S of Part 51 of Title 40 of the Code of Federal Regulations is proposed to be amended as follows:

a. By adding the following clause to the first sentence of subsection (A)(2) immediately before the period at the end of the sentence: ", except the activities of any marine vessel"; and

b. By removing the last sentence of subsection (A)(8) and substituting the following: "Secondary emissions include emissions from any offsite support facility which would not otherwise be constructed or increase its emissions as a result of the construction or operation of the major stationary source or major modification. Secondary emissions do not include any emissions which come directly from a mobile source, such as the emissions from the tailpipe of a motor vehicle, from a train, or from a marine vessel."

State Plans for New Source Review for Nonattainment Purposes

§ 51.18 [Amended]

4. Section 51.18 of Title 40 of the Code of Federal Regulations is proposed to be amended as follows:

a. By adding the following clause to the first sentence of paragraph (j)(1)(ii) immediately before the period at the end of the sentence: "* * *, except the activities of any marine vessel"; and

b. By removing the last sentence of paragraph (j)(1)(viii) and substituting the following: "* * * Secondary emissions include emissions from any offsite support facility which would not otherwise be constructed or increase its emissions as a result of the construction or operation of the major stationary source or major modification. Secondary emissions do not include any emissions which come directly from a mobile source, such as the emissions from the tailpipe of a motor vehicle, from a train, or from a marine vessel."

Restrictions on Construction for Nonattainment Areas

§ 52.24 [Amended

Section 52.24 of Title 40 of the Code of Federal Regulations is proposed to be amended as follows:

a. By adding the following clause to the first sentence of paragraph (f)(2) immediately before the period at the end of the sentence: "* * *, except the activities of any marine vessel"; and

b. By removing the last sentence of paragraph (f)(8) and substituting the following: "* * * Secondary emissions include emissions from any offsite support facility which would not otherwise be constructed or increase its emissions as a result of the construction or operation of the major stationary source or major modification. Secondary emissions do not include any emissions which come directly from a mobile source, such as the emissions from the tailpipe of a motor vehicle, from a train, or from a marine vessel."

Office of Management and Budget

Cumulative Report on Rescissions and Deferrals

OFFICE OF MANAGEMENT AND BUDGET

Cumulative Report on Rescissions and Deferrals

December 1, 1981.

This report is submitted in fulfillment of the requirements of section 1014(e) of the Impoundment Control Act of 1974 (pub. L. 93–344). Section 1014(e) provides for a monthly report listing all budget authority for this fiscal year with respect to which, as of the first day of the month, a special message has been transmitted to the Congress.

This report gives the status as of December 1, 1981 of three rescission proposals and 218 deferrals contained in the first six messages of FY 1982. These messages were transmitted to the Congress on October 1, 20, 23, and 29, and November 6, and 13, 1981.

Rescissions (Table A and Attachment A)

Rescission proposals totaling $108.7 million are currently pending before the Congress. Table A summarizes the status of rescissions proposed by the President as of December 1, 1981, while Attachment A shows the history and status of each rescission proposed during FY 1982.

Deferrals (Table B and Attachment B)

As of December 1, 1981, $2,651.7 million in 1982 budget authority was being deferred from obligation and another $1.5 million in 1982 obligations was being deferred from expenditure. Attachment B shows the history and status of each deferral reported during FY 1982.

Information From Special Messages

The special messages containing information on the rescissions and the deferrals covered by the cumulative report are printed in the Federal Registers of:

Friday, October 16, 1981 (Part VII, Vol. 46, No. 200)
Monday, October 26, 1981 (Part IV, Vol. 46, No. 206)
Friday, October 30, 1981 (Part XI, Vol. 46, No. 210)
Tuesday, November 3, 1981 (Part III, Vol. 46, No. 212)
Thursday, November 12, 1981 (Part V, Vol. 46, No. 218)
Thursday, November 19, 1981 (Part IV, Vol. 46, No. 223)

David A. Stockman,
Director.

BILLING CODE 3110-01-M

TABLE A

STATUS OF 1982 RESCISSIONS

	Amount (In millions of dollars)
Rescissions proposed by the President	$ 108.7
Accepted by the Congress	-0-
Rejected by the Congress	-0-
Pending before the Congress	$ 108.7

* *

TABLE B

STATUS OF 1982 DEFERRALS

	Amount* (In millions of dollars)	
Deferrals proposed by the President	$ 2,759.8	
Routine Executive releases (-$106.6 million) and adjustments (-$0.1 million) through December 1, 1981.	-106.7	
Overturned by the Congress	-0-	
Currently before the Congress	$ 2,653.2	a.

* Amounts do not add to total due to rounding.

a. This amount includes $1.5 million in outlays for a Department of the Treasury deferral (D82-23).

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday).

This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/FHWA	USDA/SCS		DOT/FHWA	USDA/SCS
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/MA	LABOR		DOT/MA	LABOR
DOT/NHTSA	HHS/FDA		DOT/NHTSA	HHS/FDA
DOT/RSPA			DOT/RSPA	
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday. Comments on this program are still invited.

Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

61822 **Grant Programs—Agricultural Science** USDA/SEA announces plant biology and human nutrition competitive research grants for fiscal year 1982. (Part III of this issue)

61640 **Loan Programs—Agriculture** USDA/FmHA changes regulations on servicing of delinquent and problem case borrowers.

61637 **Peanuts** USDA/CCC approves conditional transfer of contracts for additional peanuts for crushing and export.

61687 **Imports** CITA exempts certain man-made fiber luggage and related products from quota and export visa requirements.

CITA announces import levels for certain cotton, wool and man-made fiber textile products from:

61685 India
61687 Singapore
61688 Republic of Philippines
61689 Thailand
61690 Malaysia
61691 Polish People's Republic
61692 Socialist Republic of Romania
61692 Republic of Korea

61684 **Countervailing Duty** Commerce/ITA issues preliminary results of administrative review on oleoresins of Paprika from Spain.

61643 **Administrative Practice and Procedure—Oceans and Atmosphere** Commerce/NOAA proposes to consolidate procedural rules on civil penalties.

61772 **Minimum Wages** Labor/ESA/W&H publishes minimum wages for Federal and federally assisted construction. (Part II of this issue)

61768 **Sunshine Act Meetings**

Separate Parts of This Issue

61772 **Part II, Labor/ESA/W&H**
61822 **Part III, USDA/SEA**
61828 **Part IV, FTC**

Title 3—

The President

Executive Order 12335 of December 16, 1981

National Commission on Social Security Reform

By the authority vested in me as President by the Constitution of the United States of America, and to establish, in accordance with the provisions of the Federal Advisory Committee Act, as amended (5 U.S.C. App. I), the National Commission on Social Security Reform, it is hereby ordered as follows:

Section 1. *Establishment.* (a) There is established the National Commission on Social Security Reform. The Commission shall be composed of fifteen members appointed or designated by the President and selected as follows:

(1) Five members selected by the President from among officers or employees of the Executive Branch, private citizens of the United States, or both. Not more than three of the members selected by the President shall be members of the same political party;

(2) Five members selected by the Majority Leader of the Senate from among members of the Senate, private citizens of the United States, or both. Not more than three of the members selected by the Majority Leader shall be members of the same political party;

(3) Five members selected by the Speaker of the House of Representatives from among members of the House, private citizens of the United States, or both. Not more than three of the members selected by the Speaker shall be members of the same political party.

(b) The President shall designate a Chairman from among the members of the Commission.

Sec. 2. *Functions.* (a) The Commission shall review relevant analyses of the current and long-term financial condition of the Social Security trust funds; identify problems that may threaten the long-term solvency of such funds; analyze potential solutions to such problems that will both assure the financial integrity of the Social Security System and the provision of appropriate benefits; and provide appropriate recommendations to the Secretary of Health and Human Services, the President, and the Congress.

(b) The Commission shall make its report to the President by December 31, 1982.

Sec. 3. *Administration.* (a) The heads of Executive agencies shall, to the extent permitted by law, provide the Commission such information as it may require for the purpose of carrying out its functions.

(b) Members of the Commission shall serve without any additional compensation for their work on the Commission. However, members appointed from among private citizens of the United States may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in the government service (5 U.S.C. 5701–5707), to the extent funds are available therefor.

(c) The Commission shall have a staff headed by an Executive Director. Any expenses of the Commission shall be paid from such funds as may be available to the Secretary of Health and Human Services.

Sec. 4. *General.* (a) Notwithstanding any other Executive Order, the responsibilities of the President under the Federal Advisory Committee Act, as amended, except that of reporting annually to the Congress, which are applicable to the Commission, shall be performed by the Secretary of Health and Human Services in accordance with the guidelines and procedures established by the Administrator of General Services.

(b) The Commission shall terminate thirty days after submitting its report.

Ronald Reagan

THE WHITE HOUSE,
December 16, 1981.

Editorial Note: The President's statement on the establishment of and the White House announcement on the membership of the Commission, both of Dec. 16, 1981, are printed in the Weekly Compilation of Presidential Documents (vol. 17, no. 51).

Vol. 46, No. 243
Friday, December 18, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 910

[Lemon Reg. 338]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period December 20–26, 1981. Such action is needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: December 20, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, 202–447–5975.

SUPPLEMENTARY INFORMATION:

Findings

This rule has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291 and has been designated a "non-major" rule. This regulation is issued under the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon the recommendations and information submitted by the Lemon Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1981–82. The marketing policy was recommended by the committee following discussion at a public meeting on July 7, 1981. A regulatory impact analysis on the marketing policy is available from William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

The committee met again publicly on December 15, 1981, at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effecutate the declared purposes of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Section 910.638 is added as follows:

§ 910.638 Lemon regulation 338.

The quantity of lemons grown in California and Arizona which may be handled during the period December 20, 1981, through December 26, 1981, is established at 230,000 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 16, 1981.

D. S. Kuryloski,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

BILLING CODE 3410–02–M

7 CFR Part 993

Dried Prunes Produced in California; Order Amending Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule amends the dried prune marketing agreement and order program to improve its operation and effectiveness. The amendment was favored by the required two-thirds majority of growers voting in a referendum. The most significant change would eliminate the use of the smallest prunes in manufacturing prune products each year. The amendment is based on proposals submitted by the Committee which works with USDA in administering the program. These proposals were considered at a public hearing in December 1980. The referendum was conducted by the Department by mail ballot October 24–November 8, 1981.

EFFECTIVE DATE: All changes except the change in § 993.49(c) effective January 18, 1982; change in § 993.49(c) effective August 1, 1982.

FOR FURTHER INFORMATION CONTACT: J. S. Miller, Chief, Specialty Crops Branch, Fruit and Vegetable Division, AMS, USDA, Washington, D.C. 20250 (202) 447–5697.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding:

Notice of Hearing—Issued November 18, 1980, and published November 24, 1980 (45 FR 77448).

Notice of Recommended Decision—Issued May 27, 1981, and published June 1, 1981 (46 FR 29271).

Final Decision—Issued September 22, 1981, and published September 28, 1981 (46 FR 47461).

This administrative action is governed by the provisions of Sections 556 and 557 of Title 5 of the United States Code, and therefore, is excluded from the requirements of Executive Order 12291.

William T. Manley, Deputy Administrator, Agricultural Marketing

Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would result in only minimal costs being incurred by the regulated 13 handlers.

Findings and determinations. The findings and determinations hereinafter set forth are supplementary, and in addition, to the findings and determinations previously made in connection with the issuance of the aforesaid order and each previously issued amendment thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except for the finding as to the base period for parity computation and insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed amendment of the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California.

Upon the basis of the record it is found that:

(1) The order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The order, as amended, and as hereby further amended, regulates the handling of dried prunes produced in the production area in the same manner as, and is applicable only to persons in the respective classes of commercial and industrial activity specified in, the marketing agreement and order upon which hearings have been held;

(3) The order, as amended, and as hereby further amended, is limited in its application to the smallest regional production area which is practicable, consistent with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of dried prunes produced in the production area which make necessary different terms and provisions applicable to different parts of such area; and

(5) All handling of dried prunes produced in the production area is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

(b) *Additional findings.* All amendatory changes, except the change in § 993.49(c) pertaining to a continuing undersized regulation, will be effective January 18, 1982. The change in § 993.49(c) should be effective August 1, 1982, the beginning of the next crop year. The harvesting and drying of prunes usually begin in August, and an August 1, 1982, effective date will enable producers to plan their 1982 operations accordingly.

(c) *Determinations.* It is hereby determined that:

(1) The "Marketing Agreement, as Amended, Regulating the Handling of Dried Prunes Produced in California" upon which the aforesaid public hearing was held has been signed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the commodity covered by the said order, as amended, and as hereby further amended) who, during the period August 1, 1980, through July 31, 1981, handled not less than 50 percent of the volume of such prunes covered by the said order, as amended and as hereby further amended; and

(2) The issuance of this amendatory order, amending the aforesaid order, as amended, is favored or approved by at least two-thirds of the producers who participated in a referendum on the question of its approval and who during the period August 1, 1980, through July 31, 1981 (which has been deemed to be a representative period), have been engaged within California, in the production of dried prunes for market, such producers also having produced for market at least two-thirds of the volume of such commodity represented in the referendum.

Order Relative to Handling

It is therefore ordered, That on and after the effective date hereof, the handling of prunes shall be in conformity to and in compliance with the terms and conditions of the said order, as amended, and as hereby further amended, as follows:

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

1. Section 993.21 is revised to read as follows:

§ 993.21 Salable prunes.

"Salable prunes" means those prunes which are free to be handled pursuant to any salable percentage established by the Secretary pursuant to § 993.54, or, if no reserve percentage is in effect for a crop year, all prunes, excluding the quantity of undersized prunes determined pursuant to § 993.49(c), received by handlers from producers and dehydrators during that year.

2. The center heading preceding § 993.24 is changed from "PRUNE ADMINISTRATIVE COMMITTEE" to "PRUNE MARKETING COMMITTEE" and § 993.24 is amended by revising the introductory paragraph, and adding a new paragraph (e), to read as follows:

§ 993.24 Establishment and membership.

A Prune Marketing Committee (herein referred to as the "Committee"), consisting of 22 members with an alternate member for each such member, is hereby established to administer the terms and provisions of this part, of whom with their respective alternates, 14 shall represent producers, 7 shall represent handlers, and 1 shall represent the public. Committee membership shall be allocated in accordance with the following grouping with the alternate positions identically allocated:

* * * * *

(e) The public member and alternate shall have no financial interest in the prune industry.

3. Section 993.27 is revised to read as follows:

§ 993.27 Eligibility.

Producer members of the Committee shall be at the time of their selection, and during their term of office, producers in the group, for which selected and if to represent a district also producers in the district for which selected, and, except for producer members representing cooperative producers, shall not be engaged in the handling of prunes either in a proprietary capacity or as a director, officer, or employee. Handler members of the Committee shall be handlers in the group they represent or directors, officers, or employees of such handlers. These eligibility requirements shall not apply to the public member and alternate member.

4. In § 993.28 a new paragraph (e) is added to read as follows:

§ 993.28 Nominees.

* * * * *

(e) The producer and handler members of the Committee selected for a new term of office shall nominate a public member and alternate member at the first meeting following their selection.

7. Section
as follows:

5. Section 993.28(b) is revised to read as follows:

§ 993.28 Nominees.

* * * * *

(b) Before April 16 of each even-numbered year nominations of producer members to represent cooperative producers and handler members to represent cooperative handlers shall be submitted to the Secretary by cooperative marketing associations engaged in the handling of prunes. The number of cooperative producer members and handler members to be nominated by each cooperative marketing association shall bear, as near as practicable, the same percentage as each cooperative marketing association's tonnage of prunes handled as first handler thereof is to the total tonnage handled by all cooperative marketing associations during the preceding crop year.

* * * * *

6. Section 993.33 is revised to read as follows:

§ 993.33 Voting procedure.

Decisions of the Committee shall be by majority vote of the members present and voting and a quorum must be present: *Provided,* That decisions on marketing policy, grade or size regulations, pack specifications, salable and reserve percentages, and on any matters pertaining to the control or disposition of reserve prunes or to prune plum diversion pursuant to § 993.62, including any delegation of authority for action on such matters and any recommendation of rules and procedures with respect to such matters, including any such decision arrived at by mail or telegram, shall require at least 14 affirmative votes. A quorum shall consist of at least 13 members of whom at least 8 must be producer members and at least 4 must be handler members. Except in case of emergency, a mimimum of 5 days notice must be given with respect to any meeting of the Committee. In case of an emergency, to be determined within the discretion of the chairman of the Committee, as much notice of a meeting as is practicable in the circumstances shall be given. The Committee may vote by mail or telegram upon due notice to all members, but any proposition to be so voted upon first shall be explained accurately, fully, and identically by mail or telegram to all members. When any proposition is submitted to be voted on by such method, one dissenting vote shall prevent its adoption.

* * * * *

7. Section 993.49(c) is revised to read as follows:

§ 993.49 Incoming regulation.

* * * * *

(c) In no crop year shall a handler receive from producers or dehydrators prunes, other than as undersized prunes, which pass freely through a round opening with a diameter as follows: For French prunes 23/32 of an inch, and for non-French prunes 28/32 of an inch: *Provided,* That the Secretary upon a recommendation of the Committee, may establish larger openings whenever it is determined that supply conditions for a crop year warrant such regulation. The quantity of undersized prunes in any lot received by a handler from a producer or dehydrator shall be determined by the inspection service and entered on the applicable inspection certificate.

* * * * *

8. Section 993.53 is revised to read as follows:

§ 993.53 Above parity situations.

The minimum standards, the minimum sizes, including the minimum undersized regulation in § 933.49(c), and the provisions of this part relating to administration shall continue in effect irrespective of whether the estimated season average price for prunes is in excess of the parity level specified in section 2(1) of the act.

9. Section 993.55 is revised to read as follows:

§ 993.55 Application of salable and reserve percentages after end of crop year.

The salable and reserve percentages established for any crop year shall remain in effect after that crop year until salable and reserve percentages are established for another crop year. After such percentages are established, all reserve obligations shall be adjusted to the newly established percentages.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

All changes except the change in § 993.49[c] effective January 18, 1982; change in § 993.49[c] effective August 1, 1982.

Signed at Washington, D.C. on December 15, 1981.

C. W. McMillan,

Assistant Secretary, Marketing and Inspection Services.

BILLING CODE 3410–02–M

Commodity Credit Corporation

7 CFR Part 1446

[Amdt. 5]

Peanuts; General Regulations Governing 1979 and Subsequent Crops, Peanut Warehouse Storage Loans, and Handler Operations

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Interim rule.

SUMMARY: This rule amends the regulations at 7 CFR 1446.5 (Contracts for additional peanuts for crushing and export), to permit the Deputy Administrator, State and County Operations (DASCO) to approve the transfer of contracts for additional peanuts under specified conditions and with certain contract modifications if it is determined that such modifications will not impair the effective operation of the price support program.

EFFECTIVE DATE: December 18, 1981.

ADDRESS: Send comments to Acting Director, Tobacco and Peanuts Division, Agricultural Stabilization and Conservation Service (ASCS), P.O. Box 2415, U.S. Department of Agriculture, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT: David Kincannon, (202) 447–7301. The Final Regulatory Impact Analysis describing the options considered in developing the final rule and the impact of implementing each option is available upon request from the above-named individual.

SUPPLEMENTARY INFORMATION: This action has been reviewed under USDA procedures and Executive Order 12291 and Secretary's Memorandum No. 1512–1 and has been classified as "not major." It has been determined that this rule will not: (1) Result in an annual effect on the economy of $100 million or more, or a major increase in costs or prices for consumers, industries, Federal, State or local governments, or a geographical region; or (2) have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

James M. Davis, Director, Tobacco and Peanuts Division, ASCS, has determined that an emergency situation exists which warrants publication of this interim rule without prior opportunity for a public comment period. Without this amendment it will be necessary to disapprove many

transfers of contracts between handlers, forcing affected producers to place contract additional peanuts under price support loan. Accordingly, this interim rule shall be effective upon date of publication in the **Federal Register** without prior opportunity for public comment. However, comments are requested on or before February 16, 1982 and this interim rule will be scheduled for review so that a final document discussing comments received and any amendment of this interim rule which may be required can be published in the **Federal Register** as soon as possible.

The title and number of the Federal assistance program to which this rule applies is: Commodity Loans and Purchases; 10.051, as found in the Catalog of Federal Domestic Assistance. This proposed action will not have a significant impact specifically on area and community development. Therefore, review as established by OMB Circular A–95 was not used to assure that units of local government are informed of this action.

It has been determined that the Regulatory Flexibility Act is not applicable to this interim rule since Commodity Credit Corporation (CCC) is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this rule.

Section 359(i) of the Agricultural Adjustment Act of 1938 permits handlers, under regulations prescribed by the Secretary of Agriculture, to contract with producers for the purchase of additional peanuts for crushing or export. All such contracts must be completed and submitted to the Secretary prior to June 15 of the year in which the crop is produced. The applicable regulations provide at 7 CFR 1446.5(a) that if a handler is unable to perform under contracts for additional peanuts for export or crushing because of conditions beyond his control including, but not limited to, insolvency, bankruptcy, death, or destruction of warehouse facilities, the handler and the producers may agree to the delivery of the peanuts to other handlers under the terms of the original contract, if specifically authorized by DASCO.

Due to a severe drought, the 1980-crop peanut supply situation was extremely tight. The resulting high prices had prompted some handlers to contract for 1981-crop additional peanuts for crushing and export at high, extremely speculative prices. The 1981 crop of peanuts is a normal crop, and prices have returned to much lower, historical levels. As a result, several handlers are potentially insolvent and, if additional financial backing is not secured, may face bankruptcy in the near future.

In such a situation, there are handlers willing to accept delivery of additional peanuts which were originally contracted for crushing and export by now insolvent handlers, but not at the high speculative prices agreed to in the original contracts. Under current regulations, authorization of such transfers of contracts under modified terms must be denied and, since the insolvent handlers are unable to perform, the producers are then required by law to place their additional peanuts under loan at the $250 per ton additional price support loan rate. The immediate reduction in price to the producer may equal $200 to $300 per ton with little hope of the additional loan pool paying a dividend equal to the producer's loss on the export contract.

It would be in the best interest of those producers having contracts with handlers who are unable to perform under such contracts to be able to receive the best price possible for the contracted additional peanuts rather than to be required to place such peanuts under price support loan at $250 per ton. In addition, CCC budget exposure would be significantly reduced and the peanut program would not incur program damage as a result of the transfer of such contracts between handlers with modified contract prices. Therefore, this interim rule amends the regulations to permit contracts for additional peanuts to be transferred with modified contract terms if specifically approved by DASCO.

Interim Rule

PART 1446—PEANUTS

Accordingly, the regulations at 7 CFR 1446.5 are revised to read as follows:

§ 1446.5 Contracts for additional peanuts for crushing and export.

(a) *Contracts between handlers and producers.* Handlers who have a U.S. address may contract with producers on Form CCC–1005 to buy additional peanuts from producers for crushing or export, or both. The type and quality of each lot of contract additional peanuts delivered under contract shall be determined by an inspector when such peanuts are delivered by a producer. All such contracts shall be completed and submitted to the county office for approval prior to June 15 of the year in which the crop is produced. Such contracts cannot be sold or traded, except under the terms and conditions specified in paragraph (b) of this section.

The county office shall summarize the contracts and send such summary to the Association through the State office. Contracts shall include at least the following provisions:

(1) Name and address of the farm operator, State and county code, and farm serial number of the farm.

(2) Name, address of handler and registration number.

(3) Amount of Segregation 1 peanuts in pounds by type.

(4) Contract price shown as a percentage of quota peanut support rate.

(5) Requirement for disclosure by producer of any liens on peanuts on date of delivery.

(6) A provision that the producer shall not be liable for failure to deliver against such contract an amount of peanuts in excess of the actual production of such type and quality on the farm: *Provided,* That such physical loss of production resulted solely from an external source such as drought, fire, lightning, inherent explosion, windstorm, tornado, flood, or other acts of God.

(7) Signature of farm operator and producer if different from operator.

(8) Signature of handler or authorized agent.

(9) The following agreement by the handler:

I agree that I will either export or crush the peanuts delivered under this contract as provided in Part 1446, Subpart—General Regulations Governing 1979 and Subsequent Crops Peanut Warehouse Storage Loans and Handler Operations, as amended, by August 31 following the calendar year in which the crop is grown, except that if the final date is extended by the Commodity Credit Corporation to November 30 of that year, I agree to dispose of such peanuts by November 30 of that year, and that, upon my failure to do so, I shall be subject to a marketing quota penalty, as specified in such regulations, on all such peanuts which have not been so crushed or exported. I further agree that if I contract with another handler to market any such peanuts, I shall include as part of the contract the agreement contained herein, and upon my failure to do so, I shall be subject to a marketing quota penalty as specified in the regulations on all such peanuts.

(b) *Contract transfers and delivery of contracted peanuts to other handlers.* If a handler is unable to perform under contracts with producers for additional peanuts because of conditions beyond his control, including but not limited to insolvency, bankruptcy, death, or destruction of warehouse facilities, the

handler and the producer may agree to the delivery of the peanuts to other handlers under the terms of the original contract or under modified terms. Such transfers shall not be valid unless they are approved in writing by the Deputy Administrator, State and County Operations, ASCS. A transfer shall be approved by the Deputy Administrator only if it is determined by the Deputy Administrator that such transfer will not impair the effective operation of the peanut program.

(c) *Deliveries under optional provisions of the contract.* Contracts may also include provisions under which a specified quantity of Segregation 1 peanuts in excess of the quantity specified in paragraph (a) of this section may be delivered under the contract: Provided, That the quantity of Segregation 1 peanuts specified in paragraph (a) of this section has been delivered and the producer retains the right to market Segregation 1 peanuts as quota peanuts to the extent that the farm poundage quota has not been filled. Contracts may also provide for delivery of Segregations 2 and 3 peanuts without regard to any quantity limits specified in this section.

(d) *Contracts between handlers.* Handlers may contract with other handlers to market contract additional peanuts. Such contracts must contain the agreement specified in paragraph (a)(9) of this section and an agreement that such agreement will be included in all subsequent contracts covering resale of such peanuts.

(Secs. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714 b and c); secs. 101, 108, 401, 63 Stat. 1051, as amended (7 U.S.C. 1441, 1421); sec. 359, 52 Stat. 31, as amended (7 U.S.C. 1359))

Signed at Washington, D.C. on December 14, 1981.

Everett Rank,

Executive Vice President, Commodity Credit Corporation.

[FR Doc. 81-36204 Filed 12-17-81; 8:45 am]

BILLING CODE 3410-05-M

Rural Electrification Administration

7 CFR Part 1701

Public Information; Appendix A—REA Bulletins; Bulletin 345-67, REA Specification for Filled Telephone Cables, PE-39

AGENCY: Rural Electrification Administration, USDA.

ACTION: Final rule.

SUMMARY: REA hereby amends Appendix A by issuing a revised Bulletin 345-67. This revision to Bulletin 345-67, REA Specification PE-39 for Filled Telephone Cables, allows (1) the use of an optional jacket material, (2) the use of an optional shield design, and (3) the preconnectorization of cables 100 pair and larger. It also tightens, in two steps, the capacitance unbalance to ground requirement. These revisions cause the specification to reflect the best in state of the art cable manufacturing technology.

EFFECTIVE DATE: November 19, 1981.

FOR FURTHER INFORMATION CONTACT: Harry M. Hutson, Chief, Outside Plant Branch, Telecommunications Engineering and Standards Division, Rural Electrification Administration, Room 1342, South Building, U.S Department of Agriculture, Washington, D.C. 20250, telephone (202) 447-3827. The Final Regulatory Impact Analysis describing the options considered in developing this rule and the impact of implementing each option is available on request from the above office.

SUPPLEMENTARY INFORMATION: Pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA hereby issues revised Bulletin 345-67, REA Specification for Filled Telephone Cables, PE-39. This action has been reviewed under USDA procedures established to implement Executive Order No. 12291 and has been classified as not major. A Regulatory Flexibility Analysis is not required, and an OMB Circular A-95 review is not applicable to this action.

Research and development have resulted in improved, more cost-effective designs and materials for use in telecommunications cables. This revision to PE-39 recognizes these changes by permitting the use of the following: (1) Optional jacketing materials, (2) optional shield designs, and (3) preconnectorization of cables 100 pair and larger.

Retention of the specification without change would have denied REA borrowers the use of newer, more cost-effective products, and thus could lead to higher cost telephone service for rural America. Issuing the changes as addenda to the existing specification would have been cumbersome and could have resulted in confusion to users. As a result, a comprehensive revision of the document was determined to be the most effective method of addressing the problem.

This program is listed in the Catalog of Federal Domestic Assistance as 10.851 Rural Telephone Loans and Loan Guarantees.

A Notice of Proposed Rule Making was published in the **Federal Register** on April 17, 1981, in Volume 46, No. 47, page 22383. Texas Instruments commented on this proposal. A summary of the areas addressed in their comments and REA's response is as follows:

1. The decision to use coated aluminum/coated steel/polyethylene (CACSP) as an REA approved cable shielding material for filled telephone cables;

2. The criteria and methodology for user selection of cable shielding materials based upon soil corrosivity; and

3. The failure to include in PE-39 a reduced cost corrosion resistant cable shielding alternate material for use in areas known to be corrosive to aluminum based shields.

The answer to these comments is summarized as follows:

1. REA has studied the use of coated aluminum bare steel (CASP) and (CACSP) through the use of field trials, field experiments, historical data and cost/benefit models. In over 500 miles of field trial cable only one fault due to corrosion over the last two years was found and the cable had a CASP sheath. By coating the steel (CACSP) this record can only improve. After careful consideration and study of REA's sponsored field experiments, REA feels CACSP can be utilized by our borrowers if good engineer guidelines are provided through TE&CM 670, "Corrosion Considerations in Outside Plant."

2. The criteria and methodology for user selection of cable shielding will be provided in Telecommunications Engineering and Construction Manual 670, "Corrosion Considerations in Outside Plant." This manual has been prepared utilizing input from all of the known corrosion experts in the telecommunications industry.

3. Alternate corrosion resistant materials are listed in PE-39. All material, regardless of cost, must be field tested for both corrosion and gopher resistance before they are allowed as armors in buried cables.

Persons interested in obtaining copies of the detailed comment and reponse can write to Harry M. Hutson, Chief, Outside Plant Branch, Telecommunications Engineering and Standards Division, Rural Electrification Administration, Room 1342, South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated: November 19, 1981.

Harold V. Hunter,

Administrator.

BILLING CODE 3410-15-M

---

7 CFR Part 1701

Public Information; Appendix A—REA Bulletins Specification for Low-Loss Buried Distribution Wire, PE-44, Bulletin 345-42 and Specification for Plastic-Insulated Line Wire, PE-21, Bulletin 345-17

AGENCY: Rural Electrification Administration, USDA.

ACTION: Final rule.

SUMMARY: REA hereby amends Appendix A by withdrawing Bulletin 345-42, Specification for Low-Loss Buried Distribution Wire, PE-44, and Bulletin 345-17, Specification for Plastic-Insulated Line Wire, PE-21. A survey of REA borrowers and manufacturers indicated that these products are no longer being produced or used in rural telephony. Withdrawal of these specifications will, therefore, have no impact on the private sector and will enable the government to save printing and handling costs associated with the documents.

EFFECTIVE DATE: December 9, 1981.

FOR FURTHER INFORMATION CONTACT: Harry M. Hutson, Chief, Outside Plant Branch, Telecommunications Engineering and Standards Division, Rural Electrification Administration, Room 1342, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, telephone (202) 447-3827.

The Final Regulatory Impact Analyses describing the options considered in developing this rule and the impact of implementing each option are available on request from the above office.

SUPPLEMENTARY INFORMATION: Pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et. seq.), REA hereby amends Appendix A by withdrawing Bulletin 345-42, Specification for Low-Loss Buried Distribution Wire, PE-44, and Bulletin 345-17, Specification for Plastic-Insulated Line Wire, PE-21.

This action has been issued in conformance with Executive Order 12291, Federal Regulation, and has been determined to be "not major." A Regulatory Flexibility Analysis is not required, and an OMB Circular A-95 review is not applicable to this action.

A survey of borrowers and manufacturers indicated that neither of these products was currently being produced by manufacturers or in use on the systems of REA borrowers. As other existing materials are filling the borrower's needs, it was felt that withdrawal of the specifications was best for all concerned.

Maintaining existing specifications was considered, however, as material is not manufactured or used in accordance with these documents so that this would be a useless proliferation of paperwork. Revising the documents to force manufacturers to develop innovative and useful products was also considered. Insofar as borrowers' needs are being met with existing products, and the marketplace will force the evolution of new products, this option was also rejected.

This program is listed in the Catalog of Federal Domestic Assistance as 10.851—Rural Telephone Loans and Loan Guarantees.

A Notice of Proposed Rule Making was published in the **Federal Register** on September 4, 1981 (46 FR 44472) However, no public comments were received in response to the notice.

Dated: December 9, 1981.

Jack Van Mark,

Acting Administrator.

PART 1701—PUBLIC INFORMATION

REA hereby amends Appendix A by withdrawing Bulletin 345-42, Specification for Low-Loss Buried Distribution Wire, PE-44, and Bulletin 345-17, Specification for Plastic-Insulated Line Wire, PE-21.

[FR Doc. 81-35975 Filed 12-17-81; 8:45 am]

BILLING CODE 3410-15-M

Farmers Home Administration

7 CFR Part 1960

Special Servicing of Delinquent and Problem Case FmHA Farm Borrowers

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: This action amends Farmers Home Administration (FmHA) regulations regarding the servicing of delinquent and problem case borrowers. Delinquencies and problem cases are increasing, creating the need for the proposed servicing tool. The intended effect is to provide a Guide letter, FmHA guide Letter 1960-A-1, to be used as a means of notifying those delinquent and problem case borrowers who have not been able to show substantial progress, of conditions they must meet to continue receiving FmHA assistance, as agreed upon in their current Farm and Home Plan. The Guide Letter will also notify these borrowers of alternative servicing tool available.

EFFECTIVE DATE: December 18, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. A. Veldon Hall, Loan Officer, Farmer Program Emergency Loan Division, Farmers Home Administration (FmHA) , Room 5344, South Agriculture Building, Washington, DC 20250, telephone: (202) 382-1652, or Mr. Lynn L. Pickinpaugh, Acting Director, Farm Real Estate and Production Loan Division, FmHA, Room 5314, South Agriculture Building, 14th and Independence Avenue, SW., Washington, DC 20250, telephone: (202) 447-5044.

SUPPLEMENTARY INFORMATION: This final action has been reviewed under USDA procedures established in Secretary's Memorandum No. 1512-1 which implements Executive Order 12291 and has been determined to be nonmajor because there is not an annual effect on the economy of $100 million or more; or a major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions; or significant adverse effects on competition, employment, investment, producivity, innovation, or on the ability of United States based enterprises to compete with foreign-based enterprises in domestic or export markets.

This action does not directly affect any FmHA programs or projects that are subject to A-95 Clearinghouse review.

CFDA program numbers and titles of programs affected are listed as follows:

10.404 Emergency loans.
10.406 Farm operating loans.
10.407 Farm ownership loans.
10.408 Grazing association loans.
10.409 Irrigation, drainage, and other soil and water conservation loans.
10.416 Soil and water loans.
10.428 Economic emergency loans.

This document has been reviewed in accordance with 7 CFR Part 1901, Subpart G, "Environmental Impact Statements." It is the determination of FmHA that this action does not constitute a major Federal action significantly affecting the quality of the human environment and in accordance with the National Environmental Policy Act of 1969, Pub. L. 91-190, an Environmental Impact Statement is not required.

FmHA published this amendment as a proposed rule in the **Federal Register** on October 8, 1981, (46 FR 49908), and requested comment. No comments were received.

Major Alternative Actions Considered

(1) Continue with present policy in servicing potential problem case and delinquent borrowers.

This alternative allows potential problem case and delinquent borrowers to continue receiving short notice of FmHA intent to discontinue financial assistance when in most cases it is too late for borrowers to make any type of management decisions that could improve their financial position.

(2) Develop a service guide letter. This action was selected because it provides a servicing tool that can be used for better servicing of loan amounts. The projected cost and savings are undetermined.

In this final rule, FmHA made minor changes in the wording of the regulations to more specifically describe the affected delinquent and problem case borrowers and to ensure that the County Supervisor discuss certain financial conditions with the borrower prior to executing FmHA Guide Letter 1960–A–1.

PART 1960—GENERAL

Therefore, the Farmers Home Adminsitration is amending § 1960.12 of Subpart A of Part 1960, Chapter XVIII, Title 7, Code of Federal Regulations by adding in new paragraph (e) to read as follows:

§ 1960.12 Supervision and servicing by the County Supervisor.

* * * * *

(e) During the beginning of the production season the County Supervisor will discuss with those delinquent and problem case borrowers who plan to continue their farming operations, but who have not been able to show substantial progress, of conditions agreed upon in their current Farm and Home Plans which must be met in order for them to continue receiving FmHA assistance. The County Supervisor will clearly document the discussion in the running case record and within a reasonable period of time execute FmHA Guide Letter 1960–A–1 as a follow-up to his or her discussion with the borrower.

(7 U.S.C. 1989; 7 CFR 2.23; 7 CFR 2.70)

Dated: November 18, 1981.

Charles W. Shuman,

Administrator, Farmers Home Administration.

BILLING CODE 3410–07–M

Animal and Plant Health Inspection Service

9 CFR Part 51

[Docket No. 81–099]

Brucellosis Indemnity

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Suspension of effective date of part of a final rule.

SUMMARY: This action suspends the effective date of that part of a final rule published in the **Federal Register** on November 20, 1981, which increased the maximum federal indemnity which could be paid for breeding swine destroyed because of brucellosis. This action is necessary because it now appears that funds may not be available to pay such increased federal indemnity for breeding swine destroyed because of brucellosis.

EFFECTIVE DATE: December 18, 1981.

FOR FURTHER INFORMATION CONTACT: Dr. G. H. Frye, USDA, APHIS, VS, 6505 Belcrest Road, Federal Building, Room 804, Hyattsville, MD 20782, 301–436–8711.

SUPPLEMENTARY INFORMATION:

Background

On Friday, November 20, 1981, there was published in the **Federal Register** (46 FR 57026–57027), a final rule amending the regulations in 9 CFR Part 51 relating to the payment of indemnity for breeding swine destroyed because of brucellosis. Because of an inadvertent typographical error, the effective date of this amendment was published as December 12, 1981. On Friday, December 11, 1981, (46 FR 60565) a document was published in the Federal **Register** correcting the typographical error and changing the effective date of the final rule to December 21, 1981.

This action suspends the effective date of that part of the final rule published on Friday, November 20, 1981, (46 FR 57026–57027) which amended the second sentences of § 51.3(b) (1), (2) and (3) to raise the maximum indemnity which could be paid for registered, inbred and hybrid swine destroyed because of brucellosis from $25 per head to $50 per head, and to raise the maximum indemnity which could be paid for all other breeding swine destroyed because of brucellosis from $10 per head to $25 per head.

In light of recent reductions in funds for the brucellosis eradication program, the Department believes that the brucellosis eradication program must be re-evaluated. The Department believes that it is inappropriate to raise the indemnity authorized to be paid for breeding swine destroyed because of brucellosis until the re-evaluation of the program can be completed and a determination can be made as to whether there are funds available to pay the higher level of indemnity payments for breeding swine. The maximum federal indemnity authorized to be paid for registered, inbred, and hybrid swine destroyed because of brucellosis shall remain at $25 per head, and the maximum federal indemnity authorized to be paid for all other breeding swine destroyed because of brucellosis shall remain at $10 per head pending re-evaluation of the brucellosis eradication program.

Therefore, the effective date of that part of the final rule published in the **Federal Register** November 20, 1981 (46 FR 57026–57027), amending the indemnity authorized to be paid for breeding swine destroyed because of brucellosis in 9 CFR 51.3(b) (1), (2) and (3) is suspended pending re-evaluation of the brucellosis eradication program.

(Secs. 3, 4, 5, 11, and 13, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; sec. 3, 33 Stat. 1265, as amended, sec. 3, 76 Stat. 130 (21 U.S.C. 111–113, 114, 114a–1, 120, 121, 125, 134b) 37 FR 28464, 28477; 38 FR 19141)

Done at Washington, D.C., this 16th day of December 1981.

K. R. Hook,

Acting Deputy Administrator, Veterinary Services.

BILLING CODE 3410–34–M

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Parts 335 and 338

Securities of Nonmember Insured Banks; Fair Housing

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Final rule.

SUMMARY: The Federal Deposit Insurance Corporation ("FDIC") amends Parts 335 and 338 of its rules and regulations pertaining to its securities disclosure requirements and its fair housing requirements, respectively. The amendments are being made to give notice to the public that the information collection requirements under the regulations have been cleared in accordance with the Paperwork Reduction Act of 1980 ("Act"). The Act requires an agency to obtain a review and approval of its information

collection requirements from the Office of Management and Budget ("OMB") and to give public notice of such approval.

EFFECTIVE DATE: December 14, 1981.

FOR FURTHER INFORMATION CONTACT: Patrick J. Moses, Supervising Financial Analyst, Registration and Disclosure Unit, or Jerry L. Langley, Senior Attorney, Legal Division, Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429, (202) 389–4651 or 389–4237.

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1980 (44 U.S.C. 101 note) seeks, in part, to minimize the Federal paperwork burden and to improve Federal information policies and practices. The Act requires, among other things, that agencies obtain OMB review and clearance of certain recordkeeping and reporting requirements and to give public notice of the clearance number and expiration date.

OMB has reviewed and cleared the recordkeeping and reporting requirements for Parts 335 and 338 of FDIC's regulations. For the Part 335 requirements, the clearance number is 3064–0030 and the clearance expiration date is August 31, 1984. For the Part 338 requirements, the clearance number is 3064–0046 and the clearance expiration date is September 30, 1982. In accordance with OMB instructions, FDIC is amending § 335.101 entitled *"Scope"* to include the clearance information regarding Part 335 and amending § 338.4 entitled *"Recordkeeping requirements"* to include the clearance information on Part 338.

Since the changes are necessitated by statutory requirement and are informational in nature FDIC's Board of Directors has determined that notice of, and public participation in, this rulemaking is unnecessary and that good cause exists for waiver of the 30-day deferral of the effective date for the changes.

Accordingly, 12 CFR Parts 335 and 338 are amended as follows:

PART 335—SECURITIES OF NONMEMBER INSURED BANKS

(1) The authority citation for Part 335 reads as follows:

Authority: Sec. 12(i) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 781(i)).

§ 335.101 [Amend]

(2) In Part 335, § 335.101 is amended by adding a new sentence at the end which reads as follows:

* * * The Office of Management and Budget has reviewed and approved the recordkeeping and reporting required by this part (OMB Control No. 3064–0030 which expires August 31, 1984).

PART 338—FAIR HOUSING

(3) The authority citation for Part 338 reads as follows:

Authority: Sec. 2, Pub. L. 86–671, 714 Stat. 547 (12 U.S.C. 1817); Sec. 8, Pub. L. 797, 64 Stat. 879, as amended by Sec. 202, 204, Pub. L. 89–695, 80 Stat. 1046, 1054, and Sec. 110, Pub. L. 93–495, 88 Stat. 1506 (12 U.S.C. 1818); Sec. 9, Pub. L. 797, 64 Stat. 881, as amended by Sec. 205, Pub. L. 89–695, 80 Stat. 1053, (12 U.S.C. 1920(b)); Sec. 805, Pub. L. 90–284, 82 Stat. 83–84, as amended by Sec. 808, Pub. L. 93–383, 88 Stat. 729 (42 U.S.C. 3605, 3608); Sec. 501, Pub. L. 93–495, 88 Stat. 15212 as amended by Sec. 2, Pub. L. 94–239, 90 Stat. 251 (15 U.S.C. 1691, et seq.); 40 FR 49306, (12 CFR Part 202; 37 FR 3429, 24 CFR Part 110).

(4) In part 338, § 338.4 is amended by adding a new paragraph (f) to read as follows:

§ 338.4 Recordkeeping requirements.

* * * * *

(f) *OMB review.* The Office of Management and Budget has reviewed and approved the recordkeeping and reporting required by this § 338.4 (OMB Control No. 3064–0046 which expires September 30, 1982.)

By Order of the Board of Directors, December 14, 1981.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

[FR Doc. 81–36235 Filed 12–17–81; 8:45 am]

BILLING CODE 6714–01–M

SMALL BUSINESS ADMINISTRATION

13 CFR Part 123

[Rev. 9, Amt. 18]

Disaster Loans; Changes in Policy

AGENCY: Small Business Administration.

ACTION: Final rule.

SUMMARY: This amendment revises SBA's present home disaster loan regulations to prohibit the use of disaster loan funds to restore secondary homes and contents thereof and/or to repair or replace personal property used primarily for recreation or relaxation. As a result of this amendment only the primary residence of an applicant may be repaired or replaced with SBA funds.

In consideration of the need to utilize present and future disaster loan funds for only the most productive and effective uses, these rules become effective December 18, 1981, for all disasters occurring on or after that date.

These changes will eliminate the use of funds to restore or repair property not necessary for an applicant's health, safety and welfare.

EFFECTIVE DATE: December 18, 1981.

FOR FURTHER INFORMATION CONTACT: Questions may be addressed to: Bernard Kulik, Deputy Associate Administrator for Disaster Assistance, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416, [202] 653–6879.

SUPPLEMENTARY INFORMATION: The nation's present economic and fiscal condition dictates the most prudent utilization of both presently available disaster loan funds and future appropriations. By revoking eligibility of secondary homes and furniture, household appliances and other contents of such homes and of boats, vehicles and airplanes used primarily for recreation or relaxation, available funds will be applied to the relief of more serious needs.

After this amendment becomes effective SBA will continue to process applications to restore rental homes which constitute business property. Our guidelines for determining what is a rental home which constitutes business property will be based on those adopted by the Internal Revenue Service under § 280A of the Internal Revenue Code (26 U.S.C. 280A) for deduction of rental expenses (including depreciation) as business expenses. Applications to repair/replace recreational vehicles used for rental purposes will be similarly treated.

It is contemplated that the gross amount of disaster loan funds which will be made unavailable to the owners of secondary residences by virtue of this regulation will be made available to other eligible applicants for SBA disaster assistance. Therefore the economic impact of this regulation is insignificant—it merely establishes eligibility criteria for a government assistance program.

SBA avails itself of its authority pursuant to § 123.0(a) of its Disaster Loan regulation, 12 CFR 123.0(a), to change without advance notice certain regulations affecting disaster home loans. The Administrator has determined that the need to employ all presently available funds and future appropriations to assist the serious needs of eligible applicants presents a circumstance contemplated by 13 CFR 101.9 and 123.0(a), thus rendering impractical and contrary to the public interest any delay in the effectuation of these amendments. Therefore, SBA is

publishing the rule as a final rule at this time, and is not providing an opportunity for public comment.

For the purpose of Executive Order 12291, SBA hereby determines that this rule will not constitute a major rule. In addition, it is hereby certified pursuant to section 605 of the Regulatory Flexibility Act, 5 U.S.C. 605, that this rule will not have a significant economic impact on a substantial number of small entities. In this regard this rule governs only the applications of homeowners for SBA disaster assistance, and therefore does not impact upon small entities as defined in section 601 of that Act, 5 U.S.C. 601.

PART 123—DISASTER LOANS

Accordingly, and pursuant to the authority of section 5(b)(6) of the Small Business Act, as amended, 15 U.S.C. 634(b)(5), Part 123, Chapter I of Title 13 of the Code of Federal Regulations is amended as follows:

§ 123.3 [Amended]

1. Section 123.3(a)(1) is revised to read as follows:

(a) Physical-loss disaster assistance. (1) The purpose of these loans is to restore a victim's primary residence (including a mobile home used as the primary residence of the applicant) or business property as nearly as possible to predisaster condition. Such business loans shall be made to the extent that the required financial assistance is not otherwise available from private sources, see § 120.2(a)(2) of this Chapter. A loan to an individual may be used to repair or replace damaged or lost furniture and other household belongings or personal effects, except for irreplaceable or extraordinarily expensive items. Funds may not be used to repair or replace vehicles (includes airplanes and boats) utilized primarily for recreation or relaxation by the owners thereof. Funds may be used to repair or replace destroyed or damaged inventory, machinery, or equipment. If the disaster victim elects to construct a new home or new business facilities on a different site, the loan may be used for such purpose. However, any such loan shall not exceed the estimated cost of restoring or replacing the damaged or destroyed property. SBA's lien position shall be at least as strong as it would have been if the victim had restored in the original location; and loans to relocate a one to four family residential structure will be subject to the Real Estate Settlement Procedures Act of 1974.

§ 123.5 [Amended]

2. Sections 123.5(c)(3)(iii) is removed in its entirety.

3. Sections 123.5(c)(3)(iv) through (vi) are hereby redesignated as § 123.5(c)(3)(iii) through (v), respectively.

(Catalog of Federal Domestic Assistance Program No. 59.008 (Physical Disaster Loans)

Dated: November 19, 1981.

Michael Cardenas,

Administrator.

BILLING CODE 8025-01-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

15 CFR Parts 904, 922, 970, and 981

50 CFR Parts 216, 218, 246, 285, and 621

Civil Procedures; Interim Regulations

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Interim final regulations.

SUMMARY: NOAA is proposing a consolidation of its procedural regulations for assessing civil penalties under the statutues for which it has enforcement responsibility. The major statutes are the Magnuson Fishery Conservation and Management Act, the Marine Mammal Protection Act, the Endangered Species Act of 1973, and the Deep Seabed Hard Mineral Resources Act. These consolidated regulations replace numerous other sets of regulations.

DATES: These rules are effective December 18, 1981 as interim rules.

Comments must be submitted on or before January 18, 1982.

ADDRESSES: Interested persons are invited to submit written comments to the NOAA Office of General Counsel (GCEL), Room 275, 2001 Wisconsin Avenue, N.W., Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT: Stephen J. Powell or Amy Svoboda, 202-254-8350 [Address above.]

SUPPLEMENTARY INFORMATION:

Classification

The National Oceanic and Atmospheric Administration (NOAA) has determined that these regulations are not major rules as defined by Executive Order 12291, "Federal Regulations". These regulations will not have a significant impact on a substantial number of small entities and do not require preparation of a Regulatory Flexibility Analysis. These regulations do not affect the environment, and an environmental impact statement is not required under the National Environmental Policy Act of 1969. They also do not require information from 10 or more persons, and therefore the Paperwork Reduction Act does not apply.

Discussion

Subpart B—Civil Penalties

These proposed regulations consolidate existing regulations that provide for assessment of civil penalties under statutes for which NOAA has enforcement responsibility. These statutes include the Magnuson Fishery Conservation and Management Act, the Endangered Species Act of 1973, the Marine Mammal Protection Act of 1972, the Lacey Act, the Deep Seabed Hard Mineral Resources Act, the Ocean Thermal Energy Conversion Act of 1980, the Marine Protection, Research, and Sanctuaries Act of 1972, the Atlantic Tunas Convention Act of 1975, the Northern Pacific Halibut Act of 1937, the Tuna Conventions Act of 1950, and the North Pacific Fisheries Act.

The major change in the civil penalty process is extension of the Notice of Violation and Assessment (NOVA) system currently used under the Magnuson Fishery and Conservation Management Act to all civil penalty enforcement proceedings for other statutes covered by these regulations. The current system under statutes other than the Magnuson Fishery and Conservation Act requires a lengthy multi-stage process. An initial Notice of Violation, which proposes a penalty, is issued to an alleged violator. The respondent has varying periods of time to respond to the charges contained in the document. At the end of that time, the Agency may issue a Notice of Assessment which assesses a penalty. The respondent may then request a hearing. If no hearing is requested the assessment becomes final. The NOVA system employs a single charging document, which also assesses a penalty, and gives the respondent 30 days to respond. The timely preparation of two complex documents for each case under the present system has proved burdensome for the agency without adding to the due process protections afforded alleged violators. The availability of two response periods, and the demand on the NOAA resources required to react fully to them, have unduly lengthened the assessment process and substantially frustrated the

goal of prompt adjudication of alleged violations, contrary to efficient administration of an enforcement program and the best interests of the parties. A year's experience with NOVA under the Magnuson Fishery Conservation and Management Act has demonstrated its efficiency both from the viewpoint of the Agency and of persons being charged under the system. The Agency expects to obtain the same benefits by using the system for enforcement of other statutes.

Subpart C—Hearing and Appeal Procedures

These regulations replace numerous sets of regulations that provide for essentially similar hearing procedures for the statutes listed above under which NOAA assesses civil penalties. Most of the changes are technical affecting time periods and other minor provisions so as to make all procedures uniform.

The only significant changes are the addition of two provisions explicitly authorizing the Administrative Law Judge (Judge) to make a summary decision at any time during the proceeding disposing of all or part of the issues (Section 224), and enabling the Judge to make an oral decision in simple cases (Section 262(b)). This latter decision is to provide efficient disposition of cases involving few parties, limited issues and short hearings. It may be utilized only when the Judge has advised the parties in advance of the hearing.

Related to these civil procedures is the Equal Access to Justice Act, which provides for the award of attorneys fees and other expenses to parties who prevail over the federal government in certain administrative proceedings. Regulations implementing this Act will soon be published by the Department of Commerce.

Effective Dates

These rules are effective on December 18, 1981 as interim rules. Although we are requesting comment on the regulations and will review them in light of the comments, we are publishing them as final. A notice and comment period are not required for rules of agency procedure or practice. Because these rules simplify and consolidate existing rules, there is good cause for having them effective as soon as possible.

Subpart B of this part shall apply to any civil penalty proceeding initiated by Notice of Violation and Assessment after these become effective. Procedures initiated by a Notice of Violation or a Notice of Violation and Assessment under regulations amended or repealed by these interim rules shall be governed by the former rules except as otherwise stipulated by the parties.

Dated: November 24, 1981.

Mirco P. Snidero,

Deputy Assistant Administrator for Management and Budget.

Title 15—Commerce and Foreign Trade

1. 15 CFR Part 904 is amended by retitling the Part as "Civil Procedures", and redesignating the present Part 904 as Subpart G of the new Part 904, with the present section numbers of §§ 904.1 through 904.5 redesignated as §§ 904.600 through 904.604. The new Part 904 is further amended by adding the following new Subparts B and C to read as follows, and Subparts A, D, E, and F are reserved.

904.206 Duties and power of Judge.
904.207 Disqualification of Judge.
904.208–904.219 [Reserved]

Prehearing

904.220 Pleadings, motions, and service.
904.221 Amendment of pleadings or records.
904.222 Time computation and extensions.
904.223 Expedition of proceedings.
904.224 Summary decision.
904.225 Failure to appear.
904.226 Dismissal for failure to prosecute or defend.
904.227 Settlements.
904.228 Stipulation.
904.229 Consolidation.
904.230 Prehearing conferences.
904.231—904.239 [Reserved]

Discovery

904.240 Discovery generally.
904.241 Depositions.
904.242 Interrogatories, requests for admission, and production of documents.
904.243 Subpoenas.
904.244—904.249 [Reserved]

Hearings

904.250 Notice of time and place.
904.251 Evidence.
904.252 Witnesses.
904.253 Interlocutory appeals.
904.254 Ex parte communications.
904.255—904.259 [Reserved]

Post-Hearing

904.260 Official transcript.
904.261 Petition for reconsideration.
904.262 Proposed findings and conclusions.
904.263 Documents, copies, and exhibits.
904.264—904.269 [Reserved]

Decision

904.270 Record of decision.
904.271 Decision.
904.272 Administrative review of decision.
904.273—904.299 [Reserved]

Authority: Atlantic Tunas Convention Act of 1975, 16 U.S.C. 971, 89 Stat. 385; Deep Seabed Hard Mineral Resources Act, 30 U.S.C. 1401, 94 Stat. 553; Endangered Species Act of 1973, 16 U.S.C. 1531, 87 Stat. 884; Lacey Act, 18 U.S.C. 41–44, 62 Stat. 686; Magnuson Fishery Conservation and Management Act, 16 U.S.C. 1801, 90 Stat. 331; Marine Mammal Protection Act of 1972, 16 U.S.C. 1361, 86 Stat. 1027; Marine Protection, Research, and Sanctuaries Act of 1972, Title III, 16 U.S.C. 1431, 86 Stat. 1061; Northern Pacific Halibut Act of 1937, 16 U.S.C. 772, 50 Stat. 325; Ocean Thermal Energy Conversion Act of 1980, 42 U.S.C. 9101, 94 Stat. 974; Tuna Conventions Act of 1950, 16 U.S.C. 951, 64 Stat. 777; North Pacific Fisheries Act of 1954, 16 U.S.C. 1021 et seq.

Subpart D—[Reserved]

Subpart E—[Reserved]

Subpart F—[Reserved]

Subpart G—Financial Compensation of Participants in Administrative Proceedings

* * * * *

Subpart B—Civil Penalties

§ 904.100 General.

(a) *Purpose and Scope.* (1) The following statutes administered by NOAA authorize the Administrator to assess a civil penalty for each violation

against any person found to have committed an act prohibited by the statute or an implementing regulation (each day of a continuing violation is a separate offense):

(i) Magnuson Fishery Conservation and Management Act, 16 U.S.C. 1801–1882;

(ii) Endangered Species Act of 1973, 16 U.S.C. 1531–1543;

(iii) Marine Mammal Protection Act of 1972, 16 U.S.C. 1361–1407;

(iv) Lacey Act, 16 U.S.C. 42–44, 3054, 3112;

(v) Deep Seabed Hard Mineral Resources Act, 30 U.S.C. 1401, et seq.;

(vi) Ocean Thermal Energy Conversion Act of 1980, 42 U.S.C. 9101, *et seq.;*

(vii) Marine Protection, Research and Sanctuaries Act of 1972, 16 U.S.C. 1431–1434;

(viii) Atlantic Tunas Convention Act of 1975, 16 U.S.C. 971–971g;

(ix) Northern Pacific Halibut Act of 1937, 16 U.S.C. 772–772j;

(x) Tuna Conventions Act of 1950, 16 U.S.C. 951–961;

(xi) North Pacific Fisheries Act, 16 U.S.C. 1021 et seq.

(2) This subpart provides uniform rules and procedures for assessing civil penalties under the statutes listed in paragraph (a)(1) of this section.

(b) *Filing and service of documents.* (1) Whenever this Subpart requires service of a document or other paper, such service may effectively be made on the agent for service of process or on the attorney for the person to be served. Refusal by the person to be served, or his or her agency or attorney, of service of a document or other paper will be considered effective service of the document or other paper as of the date of such refusal.

(2) Whenever this Subpart or an order issued hereunder requires a document or other paper to be filed within a certain period of time, such document will be considered filed as of the date of the postmark (or as otherwise shown for government-franked mail), if mailed, or (if not mailed) as of the date actually delivered to the office where filing is required. Time periods begin to run on the day following the date of the document, paper, or event which begins the time period and, unless otherwise provided by law or these regulations, includes the last day of the period, unless such day is a Saturday, Sunday, or Federal holiday, in which event it includes the next following day which is not a Saturday, Sunday, or Federal holiday. This method of computing time periods also applies to any act, such as paying a civil penalty, required by this Subpart to take place within a specified period of time.

(3) If an oral or written application is made to the Administrator within 10 days after the expiration of a time period established in this Subpart for the required filing of documents or other papers, the Administrator may permit a late filing if the Administrator finds reasonable grounds for an inability or failure to file within the time period. All extensions will be in writing. Except as specifically provided in this Part, or by order of an Administrative Law Judge under this Part, no requests for an extension of time may be granted.

(c) *Definitions.* Unless the context otherwise requires, terms in this Subpart have the meanings prescribed in the applicable statute or in Subpart A. In addition, the following definitions apply:

(1) *Administrator*—means the Administrator of NOAA or a designee.

(2) *Affected permit*—means a permit or license issued by NOAA under an applicable statute that may be subject to sanctions as a result of civil penalty proceedings under this Part.

(3) *Affected vessel*—means any vessel that is liable *in rem* for any civil penalty proceedings under this Part, or whose permit may be subject to sanction as a result of civil penalty proceedings under this Part.

(4) *Applicable statute*—means a statute listed in § 904.100(a), and its implementing regulations, under which a civil penalty is assessed, or proposed to be assessed.

(5) *Final administrative decision*—means an order of the Administrator assessing a civil penalty which is not subject to further agency review under this Part, and which is subject to collection proceedings or judicial review in an appropriate federal district court as authorized by law.

(6) *Permit*—means any license, permit, certificate or other approval issued by NOAA under an applicable statute.

(d) *Exceptions.* Whenever a particular statute under which a penalty is assessed requires procedures different from the procedures in this Subpart, the alternative procedures for that statute are set forth in the last paragraph of the section of this subpart which is affected.

§ 904.101 A Notice of Violation and Assessment (NOVA)

(a) A notice of violation and assessment (NOVA) will be issued by the Administrator and served personally or by registered or certified mail, return receipt requested, upon the person alleged to be subject to a civil penalty (the respondent). A copy of the NOVA will similarly be served upon the holder of an affected permit, or the owner of an affected vessel, if the holder or owner is not the respondent. Although no specific form is prescribed, the NOVA will contain: (1) A concise statement of the facts believed to show a violation; (2) a specific reference to the provisions of the Act, regulation, license, permit, agreement, or order allegedly violated; (3) the findings and conclusions upon which the Administrator bases the proposed assessment; and (4) the amount of the civil penalty proposed to be assessed.

(b) In respect to the amount of civil penalty, the Administrator will take into account information available to the agency concerning any factor to be considered under the applicable statute, and any other matter that justice or the purposes of the statute require.

(c) The NOVA may also contain an initial proposal for compromise or settlement of the case. The Administrator may also attach documents which illuminate the facts believed to show a violation. The NOVA will advise of the respondent's rights at that point in the proceeding, and will be accompanied by a copy of the regulations in this Part governing civil procedures.

§ 904.102 Procedures upon Receipt of NOVA.

(a) The respondent has 30 days from receipt of the NOVA in which to respond. During this time the respondent may:

(1) Accept the proposed penalty or compromise penalty, if any, by taking the actions specified in the NOVA;

(2) Seek to have the NOVA amended or modified under paragraph (b) of this section;

(3) Request a hearing under paragraph (e) of this section;

(4) Request an extension of time to respond to the NOVA under paragraph (c) of this section; or

(5) Take no action, in which case the NOVA becomes final in accordance with § 904.104. Options (2), (3), (4), and (5) may also be exercised by the holder of an affected permit or the owner of an affected vessel.

(b) The respondent, the permit holder, or the vessel owner may seek amendment or modification of the NOVA to conform to the facts or law as that person sees them by notifying the Administrator at the telephone number or address specified in the NOVA. If amendment or modification is sought, the Administrator will either amend the NOVA or decline to amend it, and so notify the respondent, permit holder or vessel owner, as appropriate.

(c) The respondent, permit holder, or vessel owner may, within the 30-day period specified in paragraph (a) of this section, request an extension of time to respond. The Administrator may grant an extension of up to 30 days unless the Administrator determines that the requestor could, exercising reasonable diligence, respond within the 30-day period. If the Administrator does not respond to the request within 48 hours of its receipt by the Administrator, the request is granted automatically for the extension requested, up to a maximum of 30 days. A telephonic response to the request within the 48 hour period is considered effective response, and will be followed by written confirmation.

(d) The Administrator may, for good cause, grant an additional extension beyond the thirty day period specified in paragraph (c) of this section.

(e) If the respondent, the permit holder, or the vessel owner wishes a hearing, the request shall be dated and in writing, and shall be served either in person or by certified or registered mail, return receipt requested, at the address specified in the NOVA. The request shall either attach a copy of the relevant NOVA or refer to the relevant NOAA case number.

(f) Any denial, in whole or in part, of any request under this section which is based upon untimeliness will be in writing.

(g) The Administrator may, in the Administrator's discretion, treat any communication from a respondent, a permit holder, or vessel owner as a request for a hearing under paragraph (e) of this section.

§ 904.103 Hearing and administrative review.

(a) Any hearing request under § 904.102(e) is governed by the hearing and review procedures in Subpart C.

(b) In any hearing held in response to a request under § 904.102(e), the Administrative Law Judge will render an initial decision. Any party to the hearing may seek the Administrator's review of the Judge's initial decision, subject to the provisions of Subpart C.

§ 904.104 Final administrative decision.

(a) If no request for hearing is filed as provided in § 904.102(e), the NOVA becomes effective as the final administrative decision and order of the Administrator on the 30th day after service of the NOVA, or on the last day of any delay period granted.

(b) If a request for hearing is filed in accordance with § 904.102(e), the date of the final administrative decision is as provided in Subpart C.

§ 904.105 Payment of final assessment.

(a) Respondent shall make full payment of the civil penalty assessed within 30 days of the date upon which the assessment becomes effective as the final administrative decision and order of the Administrator under § 904.104 or Subpart C, or, if the respondent initiates judicial review of the assessment in accordance with the applicable statute during the 30 day period, within 10 days after the appropriate court enters final judgment in favor of the Administrator, unless the court's order provides otherwise. Payment shall be made by mailing or delivering to the Administrator at the address specified in the NOVA a check or money order made payable in United States currency in the amount of the assessment to the "Treasurer of the United States."

(b) Upon any failure to pay the civil penalty assessed, the Administrator may request the Attorney General of the United States to recover the amount assessed in any appropriate district court of the United States, or may act under § 904.106.

§ 904.106 Compromise of civil penalty.

(a) The Administrator, in the Administrator's sole discretion, may compromise, modify, remit, or mitigate, with or without conditions, any civil penalty imposed, or which is subject to imposition, except as stated in paragraph (e) of this section.

(b) The compromise authority of the Administrator under this section is in addition to any similar authority provided in any applicable statute or regulation, and may be exercised either upon the initiative of the Administrator or in response to a request of the alleged violator or other interested person.

(c) If the Administrator acts under this section prior to issuing a NOVA or after a final assessment is payable under § 904.105, the Administrator will prepare a document indicating the action taken and citing this paragraph and the applicable statutory provision as authority. Once the case has been assigned for hearing under Subpart C, the Administrator will, except in unusual circumstances, defer any compromise action under this section until the Administrative Law Judge has rendered an initial decision in the matter. Neither the existence of the compromise authority of the Administrator under this section nor the Administrator's exercise thereof at any time changes the date upon which an assessment is final or payable.

(d) If compromise action is requested or otherwise becomes appropriate for the Administrator's consideration during the pendency of a petition for relief from forfeiture filed under Subpart F, the Administrator may consolidate, in a manner consistent with the provisions of any statute or regulation applicable to the forfeiture, consideration of the two matters.

(e) Exception: The Administrator will not compromise, modify, or remit a civil penalty imposed, or subject to imposition, under the Deep Seabed Hard Mineral Resources Act while an action to review or recover the penalty is pending in a court of the United States.

§ 904.107 Application of this subpart to permit holders and vessel owners.

(a) This Subpart applies to holders of the affected permits as defined in § 904.100(c)(2).

(b) This Subpart also applies to owners of affected vessels as defined in § 904.100(c)(3).

Subpart C—Hearing and Appeal Procedures

General

§ 904.200 Scope and applicability.

(a) These Rules establish uniform procedures for the conduct of hearings and the issuance of initial, recommended, and final decisions of the National Oceanic and Atmospheric Administration (NOAA) in cases involving alleged violations of the laws listed above and regulations implementing these Acts, including civil penalty assessments and permit sanctions. By separate regulation, these rules may be applied to proceedings which do not involve alleged violations of law. These rules shall govern proceedings for which no other rules of practice have been promulgated. By delegation from the Secretary of Commerce or the statute itself, the Administrator of NOAA has authority to carry out the provisions of the Acts and is authorized further to delegate these authorities. These rules are an exercise of that authority.

(b) Subject to the administrative direction of the Chief Administrative Law Judge, each Administrative Law Judge (Judge) assigned by the Chief Administrative Law Judge is delegated authority to make the initial, recommended, or final decision of the agency (whichever is made appropriate by regulation outside this subpart) in proceedings subject to the provisions of this subpart and to take actions to promote the efficient and fair conduct of hearings as set out in these Rules, except that no Administrative Law Judge has authority to rule on challenges to the validity of regulations promulgated by the agency.

(c) The Rules in this subpart will not serve as an independent basis for claiming the right to a hearing, but instead prescribe procedures for the conduct of hearings, the right to which is provided by other authority, including other subparts in this Part.

§ 904.201 Definitions.

"Administrator"—means the Administrator of NOAA or a designee.

"Affected licensee"—means the holder of a license or permit issued by the agency which may be subject to sanctions by the agency as a result of proceedings under this subpart.

"Affected vessel"—means a vessel whose agency-issued permit may be subject to sanctions by the agency as a result of proceedings under this subpart, or would be liable *in rem* for a civil penalty assessed under this subpart.

"Initial decision"—means a decision of the Administrative Law Judge which, under applicable statute and regulation, is subject to review by the Administrator, but which becomes the final agency decision in the absence of such review.

"Final decision"—when used in reference to an Administrative Law Judge decision, means a decision of the Administrative Law Judge which, under applicable statute and regulation, is the final agency decision and is not subject to review by the Administrator.

"Recommended decision"—means a decision of the Administrative Law Judge which, under applicable statute and regulation, is a recommendation considered by the Administrator in reaching a final agency decision, but which does not itself become the final agency decision.

"Agency"—means NOAA.

"Decision"—means an initial, recommended, or final decision of the Administrative Law Judge.

§ 904.202 Use of gender and number.

Words importing the singular number may extend and be applied to several persons or things; words importing the plural may include the singular; and words importing the masculine gender include the feminine gender and the feminine the masculine.

§ 904.203 Docket number.

Each request for hearing promptly upon its receipt for filing in the Office of Administrative Law Judges will be assigned a docket number and thereafter the proceeding shall be referred to by such number.

§ 904.204 Notice of assignment.

Written notice of the assignment of hearing to the Judge will promptly be given to the parties and thereafter all pleadings, papers, and other documents in the proceeding shall be filed directly with the Judge with copies served on the opposing party.

§ 904.205 Appearances.

A party may appear in person or by or with counsel or other qualified representative.

§ 904.206 Duties and powers of Judge.

(a) The Judge shall have all powers and responsibilities necessary to preside over the parties and the proceeding, to hold prehearing conferences, to conduct the hearing, and to make the decision in accordance with these regulations and 5 U.S.C. 554 through 557, including, but not limited to, the authority and duty to:

(1) Rule on a request to participate as a party in the proceeding by allowing, denying, or limiting such participation; provided, however, that the respondent, agency counsel, and if they enter an appearance, the owner of an affected vessel and the holder of an affected license, shall be parties, and provided further that the Judge shall prior to ruling ascertain the views of other parties and base the ruling on whether the request is from a person who could be directly and adversely affected by the decision and who may contribute materially to the disposition of the proceedings;

(2) Schedule the time and place and manner of conducting the pre-hearing conference or hearing, continue the hearing from day to day, adjourn the hearing to a later date or a different place, and reopen the hearing at any time before issuance of the decision, all in the Judge's discretion, having due regard for the convenience and necessity of the parties and witnesses;

(3) Schedule and regulate the course of the hearing and the conduct of the participants and the media, including the power to close the hearings in the interests of justice; seal the record from public scrutiny to protect privileged information, trade secrets, and confidential commercial or financial information; and strike testimony of a witness refusing to answer a question ruled to be proper;

(4) Administer oaths and affirmations to witnesses;

(5) Rule on discovery requests, establish discovery schedules, and, whenever the ends of justice would thereby be served, take or cause depositions or interrogatories to be taken and issue protective orders under § 904.240;

(6) Rule on motions, procedural requests, and similar matters;

(7) Receive, exclude, limit, and otherwise rule on offers of proof and evidence;

(8) Examine and cross-examine witnesses and introduce into the record on the Judge's own initiative documentary or other evidence;

(9) Rule on requests for appearance of witnesses or production of documents and take appropriate action upon a failure of a party to effect the appearance or production of a witness or document ruled relevant and necessary to the proceeding; as authorized by law, issue subpoenas for the appearance of witnesses or production of documents;

(10) Require a party or witness at any time during the proceeding to state his or her position concerning any issue or his or her theory in support of such position;

(11) Take official notice of any matter not appearing in evidence which is among traditional matters of judicial notice; or of technical or scientific facts within the general or specialized knowledge of the Department of Commerce as an expert body; or of a non-privileged document required by law or regulation to be filed with or published by a duly constituted government body; or of any reasonably available public document; provided, that the parties will be advised of the matter noticed and given reasonable opportunity to show the contrary;

(12) Prepare and submit a decision or other appropriate disposition document and certify the record;

(13) Award attorney fees and expenses as provided in Subpart D; and

(14) Grant preliminary or interim relief.

§ 904.207 Disqualification of Judge.

(a) The Judge may withdraw voluntarily from a particular case when the Judge deems himself/herself disqualified.

(b) A party may in good faith request the Judge to withdraw on the grounds of personal bias or other disqualification. The party seeking the disqualification shall file with the Judge a timely affidavit or statement setting forth in detail the facts alleged to constitute the grounds for disqualification, and the Judge shall rule on the matter. If the Judge believes himself/herself not disqualified, and so rules, the Judge shall also cause all matters relating to such claims of disqualification affirmatively to appear in the record.

§§ 904.208–904.219 [Reserved]

Prehearing

§ 904.220 Pleadings, motions, and service.

(a) An original and one copy of all pleadings and documents shall be filed with the Office of Administrative Law Judges and a copy shall be served upon each party of record. All pleadings or documents when submitted for filing shall show that service has been made upon all parties. Such service shall be made by delivering one copy to each party in person or by mailing to the last known address by first-class mail properly addressed with postage prepaid.

(b) All papers to be filed under the Rules in this Subpart may be reproduced by printing or any other process, provided the copies are clear and legible, shall be dated, the original signed in ink, and shall show the docket description and title of the proceeding, and the title, if any, and address of the signatory. If typewritten, the impression shall be on only one side of the paper and shall be double spaced, pica type, if possible, except that quotations shall be single spaced and indented.

(c) Any documents filed shall be signed: (1) By the person or persons filing the same, (2) by an officer thereof if a corporation, (3) by an officer or employee if a government instrumentality, or (4) by an attorney or other person having authority to sign.

(d) The date of service of pleadings or documents shall, unless otherwise specified, be the day when the material is deposited in the United States mail, shown by the postmark thereon (or as otherwise shown for government-franked mailings) or is delivered in person, as the case may be.

(e) Motions shall normally be made in writing and shall state clearly and concisely the purpose of and the relief sought by the motion, the statutory or principal authority relied upon, and the facts claimed to constitute the grounds requiring the relief requested.

(f) Unless otherwise provided, the answer to any written motion, pleading, or petition shall be served within 15 days after date of service thereof. If a motion states that opposing counsel has no objection, it may be acted upon as soon as practicable, without awaiting the expiration of the 15-day period. Answers shall be in writing, unless made in response to an oral motion made at a hearing, shall be so drawn as fully and completely to advise the parties and the Judge concerning the nature of the opposition, shall admit or deny specifically and in detail each material allegation of the pleading answered, and shall state clearly and concisely the facts and matters of law relied upon. Any new matter raised in an answer shall be deemed controverted.

(g) A response to an answer will be called a reply. A short reply restricted to new matters may be served within 10 days of service of an answer. The Judge, in his/her discretion, may dispense with the reply. No further responses are permitted.

§ 904.221 Amendment of pleadings or record.

The Judge, upon his/her own initiative or upon application by a party, may order a party to make a more definite statement of any pleading. In his/her discretion, the Judge may permit either party to amend its pleadings upon conditions fair to both parties. Harmless errors may be corrected by deletion or substitution of words or figures and broad discretion shall be exercised by the Judge in permitting such corrections.

§ 904.222 Time computation and extensions.

(a) If appropriate and justified, the Judge may grant an extension of time. Requests for extensions of time shall, except in extraordinary circumstances, be made in writing.

(b) Saturdays, Sundays, and Federal holidays will be included in computing the time allowed for service of any document or paper, except that when such time expires on a Saturday, Sunday, or Federal holiday, such period shall be extended to include the next business day.

(c) Time periods will begin on the day following the date of the document, paper, or event which starts the time period.

§ 904.223 Expedition of proceedings.

(a) In the interests of justice and administrative efficiency, the Judge on his/her own initiative may expedite the proceeding.

(b) Additionally, a motion of a party to expedite the proceeding may, in the discretion of the Judge, be made orally or in writing with concurrent actual notice to all parties. If a motion for an expedited hearing is granted, the hearing on the merits shall not be scheduled within less than three days notice, unless all parties consent to an earlier hearing.

§ 904.224 Summary decision.

(a) At any time after commencement of a proceeding and before the scheduling of a hearing on the merits, or such later time as permitted by the Judge, a party or the Judge on his/her own motion may move for a summary decision disposing of all or part of the issues.

(b) A summary decision may be rendered if the entire record shows as to the issue or issues under consideration: (1) That there is no genuine issue as to any material fact; and (2) that the moving party is entitled to summary decision as a matter of law.

§ 904.225 Failure to appear.

(a) If a party fails to appear after service of notice proper under these rules, the hearing may proceed. A notation of failure to appear will be made in the record, and the hearing may be conducted with the parties then present, or the matter may be terminated if the Judge determines that proceeding with the hearing will not aid the decisional process.

(b) The Judge shall also cause to be placed in the record all the facts concerning the issuance and service of the notice of time and place of hearing.

(c) Failure of a party to appear after proper notice will be deemed a waiver of any right to a hearing and consent to the making of a decision on the record.

§ 904.226 Dismissal for failure to prosecute or defend.

Whenever the record discloses the failure of either party to file documents, respond to orders or notices from the Judge, or otherwise indicates an intention on the part of either party not to participate further in the proceeding, the Judge may issue an order to show cause why the case should not be dismissed or disposed of adversely to that party's interest, or make such order as is necessary for the just and expeditious resolution of the case, including dimissal of the matter from the docket for failure to prosecute or defend. Such dismissal or other order shall be subject to § 904.272.

§ 904.227 Settlements.

If settlement is reached before the Judge has certified the record, the Judge in his/her discretion may require the submission of a copy of the agreement to assure the Judge's consideration of the case is completed and to order the matter dismissed on the basis of the agreement.

§ 904.228 Stipulation.

The parties may, by stipulation, agree upon any facts involved in the proceeding and include them in the record with the consent of the Judge. Written stipulations shall be signed and shall be served upon all parties of record within the time period specified by the Judge.

§ 904.229 Consolidation.

The Judge may order two or more proceedings which involve substantially the same parties or the same issues consolidated and heard together.

§ 904.230 Prehearing conferences.

(a) Prior to any hearing or at other times deemed appropriate, the Judge may, upon his/her own initiative, or upon the application of any party, arrange a telephone conference and where approporiate, record such telephone conference, or direct the parties to appear before him/her for a conference to consider:

(1) Simplication or clarification of the issues or settlement of the case by consent;

(2) The possibility of obtaining stipulations, admissions, agreements, and rulings on admissibility of documents, understandings on matters already of record, or similar agreements that will avoid unnecessary proof;

(3) Agreements and rulings to facilitate the discovery process;

(4) Limitation of the number of expert witnesses or other avoidance of cumulative evidence;

(5) The procedure, course, and conduct of the hearing;

(6) The distribution to the parties and the Judge prior to the hearing of written testimony and exhibits in order to expedite the hearing;

(7) Such other matters as may aid in the disposition of the proceeding.

(b) The Judge in his/her discretion may issue an order showing the matters disposed of by Order or Agreement in such conference.

§§ 904.231–904.239 [Reserved]

Discovery

§ 904.240 Discovery generally.

(a) Parties may obtain discovery of any relevant matter, not privileged, that is admissible in evidence or appears reasonably calculated to lead to the discovery of admissible evidence. In connection with any deposition or other discovery procedure which the parties cannot voluntarily resolve, the Judge may make any order required to compel proper discovery, to protect a party or person from harassment, undue burden or expense, or to preserve confidentiality where requested or in the Judge's discretion.

(b) Any orders concerning discovery may include limitations on the scope, method, time, and place for same, and upon request, or within the Judge's discretion, an appropriate protective order.

(c) If a party fails to comply with a subpoena or order, including, but not limited to, an order for the taking of a deposition, the production of documents, or the answering of interrogatories or requests for admissions, the Judge may, for the purpose of permitting resolution of relevant issues and disposition of the proceeding without unnecessary delay despite such failure, take such action in regard thereto as is just, including but not limited to the following:

(1) Infer that the admission, testimony, documents, or other evidence would have been adverse to the party;

(2) Rule that for the purposes of the proceeding, the matter or matters concerning which the order or subpoena was issued be taken as established adversely to the party;

(3) Rule that the party may not introduce into evidence or otherwise rely, in support of any claim or defense, upon testimony by such party, officer, or agent, or the documents or other evidence;

(4) Rule that the party may not be heard to object to introduction and use of secondary evidence to show what the withheld admission, testimony, documents, or other evidence would have shown;

(5) Rule that a pleading, or part of a pleading, or a motion or other submission by the party, concerning which the order or subpoena was issued, be stricken, or that a decision of the proceeding be rendered against the party, or both.

§ 904.241 Depositions.

(a) Any party desiring to take the deposition of a witness shall serve written notice on the other parties and the witness setting forth the time when, the place where, and the name and mailing address of the person before whom the deposition is to be taken; the name and address of each witness to appear for deposition; and the subject matter concerning which each witness is expected to testify.

(b) Depositions may be taken orally before any officer authorized to administer oaths by the law of the United States or of the place where the examination is to be held or before a person appointed by the Judge.

(c) Notice shall be given not less than five days before the deposition is to be taken if within the United States and not less than 20 days in advance when the deposition is to be taken elsewhere, unless the Judge by order specifies a different time or excuses the witness from appearing for good cause shown.

(d) Each witness testifying upon deposition shall be sworn and any party shall have the right to cross-examine. The questions propounded and the answers thereto, together with all objections made, shall be reduced to writing, read to the witness, signed by the witness unless waived, and certified by the officer before whom the deposition is taken. All transcription costs associated with the testimony of a deposed witness are to be borne by the party seeking the deposition. Copies of the transcripts shall be made available to any party upon payment of the fee provided in the agreement with the reporter. See also § 904.252(d).

(e) Subject to such objections to the questions and answers as were noted at the time of taking the deposition (or, if reserved, as made at the hearing) which would be valid were the witness personally present and testifying, such deposition may be read and offered in evidence by any party taking it as against any party who was present or represented at the taking of the deposition or who had due notice thereof.

§ 904.242 Interrogatories, requests for admissions, and production of documents.

Any party may serve written interrogatories or a request for admission of facts upon another party. A party served with written interrogatories or a request for admissions shall answer such interrogatories or requests within 15 days of service, unless the Judge by order specifies a different time or excuses the party from answering for good cause shown. Interrogatories shall be answered under oath.

§ 904.243 Subpoenas.

(a) The attendance and testimony of witnesses and the production of documentary evidence at any designated place of hearing on behalf of any party to the proceeding may be required by subpoena as authorized by the statute under which the proceeding is conducted. Subpoenas shall be issued upon a reasonable showing by the applicant of the grounds and necessity thereof. With respect to subpoenas for the production of documents, the request shall also show their competency, relevancy, and materiality. All requests for subpoenas shall be in writing, unless waived for good cause shown. Except for good cause shown, requests for subpoenas shall be submitted by the applicant at least 10 days prior to the date set for hearing.

(b) Any person served with a subpoena may move within 10 days of service, or at hearing, whichever is sooner, to quash or modify the subpoena. The subpoena will be quashed or modified if it is beyond the scope of discovery; does not describe

with sufficient particularity the evidence required to be produced; or is for any other reason insufficient in law, or the subpoena is found to be invalid or unreasonable. Any ruling quashing or modifying a subpoena will state the grounds for such action.

(c) Upon the failure of any person to comply with an order to testify or a subpoena directed or issued, the party requesting the order or subpoena may apply to the appropriate district court for enforcement of the order or subpoena.

(d) A subpoena for the attendance of an Agency employee or for the production of Agency evidence shall be served upon the Agency counsel. Agency counsel may file a motion to quash the subpoena within 10 days of service of the subpoena and prohibit such attendance or production until such time as the Judge rules on the motion to quash.

§§ 904.244-904.249 [Reserved]

Hearings

§ 904.250 Notice of time and place.

(a) The Judge shall promptly cause to be served on the parties notice of the time and place of hearing, and the hearing will not, except in extraordinary circumstances, be held less than 10 days after service of the notice of hearing.

(b) Unless otherwise required by the statute involved, the hearing will not necessarily be scheduled to take place where the respondent resides; however, if practicable, an attempt will be made to schedule the hearing within a reasonable proximity of where the respondent resides.

(c) The Judge may order that all or part of a proceeding be heard on submissions or affidavits if it appears that substantially all important issues of material fact may be resolved by means of written materials and that efficient disposition of the proceeding can be made without oral hearing.

§ 904.251 Evidence.

(a) At the hearing, every party shall have the right to present oral or documentary evidence in support of his/her case or defense, to submit rebuttal evidence, and to conduct such cross-examination as may be required for a full and true disclosure of the facts. This paragraph shall not be interpreted to diminish the powers and duties of the Judge under this subpart.

(b) All evidence which is relevant, material, reliable, and probative, and not unduly repetitious or cumulative, shall be admissible at the hearing, except that formal rules of evidence shall not necessarily apply to the proceedings; and hearsay evidence shall not be inadmissible as such.

(c) Formal exceptions to the rulings of the Judge are unnecessary. It is sufficient that a party, at the time of the ruling, makes known the action which he/she desires the Judge to take or his/her objection to an action taken, and the grounds therefor. Rulings on each objection shall appear in the record.

§ 904.252 Witnesses.

(a) In any case involving a charged violation of law in which the party charged has admitted an allegation, evidence may be taken to establish matters of aggravation or mitigation.

(b) Any witness not a party may have personal counsel to advise him/her as to his/her rights but such counsel may not otherwise participate in the hearing.

(c) If such procedure is requested by either party, or upon the Judge's own initiative, witnesses who are not parties may be excluded from the hearing room prior to taking of their testimony.

(d) Witnesses subpoenaed under these Rules, including § 904.243, shall be paid the same fees and mileage that are paid witnesses in the courts of the United States, and witnesses whose depositions are taken shall be entitled to the same fees as are paid for like services in the courts of the United States. Fees shall be paid by the party at whose instance the witness appears or the deposition is taken.

(e) If a witness is expected to testify in a language other than the English language, the party sponsoring the witness shall provide for the services of an interpreter and advise opposing counsel 10 days prior to the hearing concerning the extent interpreters are to be used. Provisions shall also be made to have any exhibits in a foreign language translated into English before such exhibits are offered into evidence. Copies of both the untranslated and translated versions of the proposed exhibits shall be served on the opposing party at least 10 days prior to the hearing unless the parties otherwise agree.

§ 904.253 Interlocutory appeals.

(a) At the request of a party or on the Judge's own initiative, the Judge may certify to the Administrator authority for review a ruling which does not finally dispose of the proceeding if the Judge determines that an immediate appeal therefrom may materially advance the ultimate disposition of the matter.

(b) Upon certification by the Judge of the interlocutory ruling for review, the Administrator shall expeditiously decide the matter. The parties shall have 10 days to serve any briefs associated with the certification.

(c) No interlocutory appeal shall lie as to any ruling not certified by the Judge.

§ 904.254 Ex parte communications.

(a) "Ex parte communication" means an oral or written communication not on the public record with respect to which reasonable prior notice to all parties is not given, but does not include requests for status reports.

(b) Except to the extent required for disposition of ex parte matters as authorized by law, upon assignment of a matter to the Judge and until the final decision of the Agency is effective under these regulations, no ex parte communication relevant to the merits of the proceeding shall be made, or knowingly caused to be made:

(1) By the Judge or by an Agency employee involved in the decisional process of the proceeding to any interested person outside the Department of Commerce; or

(2) By an interested person outside the Department of Commerce to the Judge or to any Agency employee involved in the decisional process of the proceeding.

(c) An Agency employee or Judge who makes or receives a prohibited communication must place in the hearing record the communication and any response thereto, and the Judge, or Administrator as appropriate, may take action in this respect consistent with these Rules, the applicable statute, and 5 U.S.C. 556(d) and 557(d).

(d) Paragraphs (b) and (c) of this section do not apply to communications to or from the Agency counsel; however, the Agency counsel may not participate or advise in the decision of the Judge or the Administrator's review thereof except as witness or counsel in the proceeding in accordance with this subpart. In addition, the Judge may not consult any person or party on a fact in issue unless notice and opportunity for all parties to participate is provided.

(e)(1) Paragraphs (b) and (c) of this section do not apply to communications concerning national defense or foreign policy matters. Such ex parte communications—

(i) On national defense or foreign policy matters to or from an Agency employee or

(ii) From employees of the United States Government involving intergovernmental negotiations

are permitted if the communicator's position with respect to those matters cannot otherwise be fairly presented for reasons of foreign policy or national defense.

(2) Ex parte communication subject to paragraph (e) of this section shall be made a part of the record to the extent that they do not include information classified pursuant to an Executive Order. Classified information shall be included in a classified portion of the record which shall be available for review only in accordance with applicable law.

§§ 904.255–904.259 [Reserved]

Post-Hearing

§ 904.260 Official transcript.

(a) The official transcript of testimony taken, together with any exhibits, briefs, or memoranda of law filed therewith, shall be filed with the Office of Administrative Law Judges. Transcripts of testimony will be available in any proceeding and will be supplied to the parties upon the payment of fees at the rate provided in the agreement with the reporter.

(b) The Judge may determine whether "ordinary copy," "daily copy," or other copy (as those terms are defined by contract) will be necessary and required for the proper conduct of the proceeding.

§ 904.261 Petition for reconsideration.

Unless an order of the judge specifically provides otherwise, any party may file a petition for reconsideration of an order or decision issued by the Judge. Such petitions must state the matter claimed to have been erroneously decided and the alleged errors or relief sought must be specified with particularity. Petitions must be filed within 20 days after the service of final orders. Neither the filing nor the granting of a petition for reconsideration shall operate as a stay of an order or its effectiveness date (including for purposes of § 904.272) unless specifically so ordered by the Judge. Within 10 days after the petition is filed, any party to the proceeding may file an answer in support or in opposition. The Judge may in his/her discretion reopen the hearing to consider matters raised in a petition which could not reasonably have been foreseen prior to issuance of the order or decision.

§§ 904.262 Proposed findings and conclusions.

(a) Unless a different schedule is established in the discretion of the Judge, including the procedure of paragraph (b) of this section, the parties may file proposed findings of fact and conclusions of law, together with supporting briefs, within 30 calendar days after the Judge closes the hearing. Reply briefs may be submitted within 15 days after service of the proposed findings and conclusions to which they respond, unless the Judge sets a different schedule.

(b) In cases involving few parties, limited issues, and short hearings, the Judge may require that any proposed findings and conclusions and reasons in support, be presented orally at the close of the hearing. In such case, the Judge will advise the parties in advance of hearing.

§ 904.263 Documents, copies and exhibits.

(a) When documents have been received in evidence, a true copy thereof, or of such part as may be material or relevant, may be submitted in lieu of the original during the hearing or at its conclusion. After a decision has become final, the Judge may, in his/her discretion, and after notice to other parties, permit the withdrawal of original exhibits or any part thereof by the party entitled thereto for the purpose of substituting copies. The substitution of true copies of exhibits, or any part thereof, may be required by the Judge in his/her discretion as a condition of granting permission for withdrawal of the original.

(b) Photographs may be substituted for physical evidence in the discretion of the Judge, before or after decision.

§ 904.264–904.269 [Reserved]

Decision

§ 904.270 Record of decision.

(a) The official transcript of testimony and proceedings, exhibits, briefs, requests, and other documents filed or officially noticed in the proceeding, together with all rulings of the Judge thereon, shall constitute the exclusive record for decision. The record shall also be accompanied by any rejected exhibits, being specifically so marked, and any record of *ex parte* communications, also specifically so marked.

(b) The Chief Administrative Law Judge shall arrange for appropriate storage of the records of any proceeding, which place of storage need not necessarily be located physically within the Office of Administrative Law Judges.

§ 904.271 Decision.

(a) After expiration of the period provided in § 904.262 for the filing of reply briefs (unless the parties have waived briefs or presented proposed findings orally at the hearing), the Judge shall render a written decision upon the record in the case, setting forth:

(1) Findings and conclusions, and the reasons or basis therefor, on all material issues of fact, law, or discretion presented on the record, and the ruling on any findings or conclusions presented by the parties;

(2) A statement of any facts noticed or relied upon in the decision, if the parties have not previously been advised of such notice: and

(3) Such other matters as the Judge considers appropriate.

(b) If the parties have presented oral proposed findings at the hearing or have waived presentation of proposed findings, the Judge may at the termination of the hearing announce the decision, subject to later issuance of a written decision under paragraph (a) of this section. The Judge may in such case direct the prevailing party to prepare proposed findings, conclusions, and an order.

(c) The Judge may, after submission of briefs, direct the prevailing party to prepare proposed findings, conclusions, and an order within a time frame prescribed by the Judge.

(d) The Judge shall transmit the written decision to each of the parties by registered or certified mail, return receipt requested, and shall promptly certify to the Administrator the record, including the original copy of the decision, as complete and accurate, except in such particulars as are specified.

§ 904.272 Administrative review of decision.

(a) Subject to the requirements of this section, any party may petition for review of an initial decision of the Judge within 30 days after the date the decision is served.

(b) Review of an initial decision is not a matter of right, but rests with the sound discretion of the Administrator. Unless a petition for discretionary review is filed or the Administrator issues an order to review upon his/her own initiative, an initial decision will become effective as the final decision of the Administrator 30 days after service, unless otherwise provided by statute or regulations. Such petition shall be accomplished by proof of service upon all parties. If a party files a timely petition for discretionary review within that 30 day period, or action to review is taken by the Administrator upon his/her own initiative, the effectiveness of the decision is stayed until further order of the Administrator.

(c) Petitions for discretionary review shall be filed only upon one or more of the following grounds:

(1) A finding of a material fact is clearly erroneous based upon the evidence in the record;

(2) A necessary legal conclusion is contrary to law or precedent;

(3) A substantial and important question of law, policy, or discretion is involved; or

(4) A prejudicial procedural error has occurred.

(d) Each issue shall be separately numbered and concisely stated. Each issue shall be supported by detailed citations of the record, and by statutes, regulations, or principal authorities relied upon. Matters of fact or law not argued before the Judge may not be raised on review unless they were raised for the first time in the initial decision of the Judge, or could not reasonably have been foreseen and raised by the parties during the hearing.

(e) No oral argument on petitions for discretionary review will be permitted.

(f) Within 21 days after service of a petition for discretionary review, any party may file and serve an answer in support or in opposition. No further replies shall be permitted.

(g) The Administrator's decision declining to exercise discretionary review will specify the date upon which the Judge's decision shall become effective as the final decision of the Administrator. Reasons for the Administrator's decision need not be stated unless he/she wishes to state a different reason than those of the Judge. To the extent the Administrator's decision is silent as to any material issue of fact, law, or discretion presented by the record, the decision is deemed to adopt the findings, conclusions, and reasons in the initial decision. A petition for reconsideration of an Administrator's decision declining review will not be permitted.

(h) The Administrator may review the record and issue a final order without further proceedings on any or all the issues where he/she finds that matters raised do not warrant further proceedings. If the Administrator desires further proceedings, he/she will issue an order for review limiting the issues for review and the procedures to be followed. Such issues may constitute one or more of the issues raised in a petition for discretionary review and/or matters which the Administrator desires to review on his/her own initiative. Only those issues specified in the order shall be argued on brief to the Administrator and considered by the Administrator.

§§ 904.273–904.299 [Reserved]

Subpart D [Reserved]

Subpart E [Reserved]

Subpart F [Reserved]

Subpart G—Financial Compensation of Participants in Administrative Proceedings

* * * * *

PART 922—MARINE SANCTUARIES

2. Part 922 of 15 CFR is amended by removing §§ 922.31, 922.32, and 922.33 of Subpart D.

§§ 922.31, 922.32, and 922.33 [Removed].

PART 970—DEEP SEABED MINING REGULATIONS AFFECTING PRE-ENACTMENT EXPLORERS

3. 15 CFR 970.1101 is revised to read as follows:

§ 970.1101 Assessment procedure.

Subpart B of 15 CFR Part 904 governs the procedures for assessing a civil penalty under the Act, and the rights of any person against whom a civil penalty is assessed.

4. 15 CFR 970.1102 is revised to read as follows:

§ 970.1102 Hearing and appeal procedures.

Subpart C of 15 CFR Part 904 governs the hearing and appeal procedures for civil penalties assessed under the Act.

5. 15 CFR 970.1103(g) is revised to read as follows:

§ 970.1103 License sanctions.

* * * * *

(g) *Hearing and decision.* (1) If a timely request for a hearing under paragraph (f) of this section is received, or if the Administrator orders a hearing under paragraph (f)(3) of this section, the Administrator will promptly begin proceedings under this section by forwarding the request, a copy of the NOS and any response thereto to the NOAA Office of Administrative Law Judges which will docket the matter for hearing. Written notice of the referral will promptly be given to the respondent, the affected licensee, and the owner of an affected vessel (if the licensee or owner is not the respondent), with the name and address of the attorney representing the Administrator in the proceedings (the agency representative). Thereafter, all pleadings and other documents shall be filed directly with the NOAA Office of Administrative Law Judges, and a copy shall be served on the opposing party (respondent or agency representative).

(2) The hearing and appeal procedures in 15 CFR Part 904 Subpart C to any hearing held under this section.

(3) If the proposed sanction is the result of a correctable deficiency, the hearing will proceed concurrently with any attempt to correct the deficiency unless the parties agree otherwise or the Administrative Law Judge orders differently.

PART 981—OCEAN THERMAL ENERGY CONVERSION LICENSING PROGRAM

6. 15 CFR 981.590 is revised to read:

§ 981.590 Assessment procedure.

Subpart B of 15 CFR Part 904 governs the procedures for assessing a civil penalty under the Act, and the rights of any person against whom a civil penalty is assessed.

7. 15 CFR 981.600 is revised to read as follows:

§ 981.600 Hearing and appeal procedures.

Subpart C of 15 CFR Part 904 governs the hearing and appeal procedures for civil penalties assessed under the Act.

Title 50—Wildlife and Fisheries

PART 216—REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS

§§ 216.62 through 216.65 [Redesignated as §§ 216.5 through 216.8]

1. In Title 50, §§ 216.62 through 216.65 of Subpart F are redesignated as §§ 216.5 through 216.8 of Subpart A.

Subpart F—[Reserved]

§§ 216.51 through 216.61 [Removed]

2. Sections 216.51 through 216.61 are removed, and Subpart F is reserved.

PART 218—[REMOVED]

3. Part 218 is removed.

PART 246—TRANSPORTATION OF WILDLIFE

§§ 246.6 through 246.16 [Removed]

4. Sections 246.6 through 246.16 are removed.

PART 285—ATLANTIC TUNA FISHERIES

5. In 50 CFR Part 285, § 285.6 is amended by revising paragraph (a) to read as follows:

§ 285.6 Civil procedures.

(a) Subparts B and C of 15 CFR Part 904 shall govern the assessment of civil penalties for violation of the Act and these regulations.

* * * * *

PART 621—CIVIL PROCEDURES

Subpart B—[Reserved]

§§ 621.21 through 621.26 [Removed]

6. Subpart B, consisting of §§ 621.21 through 621.26, is removed and the subpart is reserved.

Subpart C—[Reserved]

§§ 621.31 through 621.42 [Removed]

7. Subpart C, consisting of §§ 621.31 through 621.42, is removed and the subpart is reserved.

BILLING CODE 3510-22-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 520

Oral Dosage Form New Animal Drugs Not Subject to Certification; Diethylcarbamazine Citrate Tablets

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by Med-Tech, Inc., providing for safe and effective use of diethylcarbamazine citrate tablets for prevention of heartworm disease in dogs, control of ascarid infections in dogs, and treatment of ascarid infections in dogs and cats.

EFFECTIVE DATE: December 18, 1981.

FOR FURTHER INFORMATION CONTACT: Bob G. Griffith, Bureau of Veterinary Medicine (HFV-112), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3430.

SUPPLEMENTARY INFORMATION: Med-Tech, Inc., P.O. Box 338, Elwood, KS 66024, filed an NADA (127-627) providing for use of 50, 100, 200, 300, and 400 milligram (mg) diethylcarbamazine citrate tablets for prevention of heartworm disease in dogs caused by *Dirofilaria immitis*, as an aid in the treatment and control of ascarid infections in dogs caused by *Toxocara canis*, and as an aid in the treatment of ascarid infections in cats caused by *Toxocara canis* and *Toxascaris leonina*.

The product is similar to another tablet that was the subject of a National Academy of Sciences/National Research Council (NAS/NRC) Drug Efficacy Study Implementation (DESI) notice which was published in the **Federal Register** of January 8, 1969 (34 FR 275). The NAS/NAR notice stated, and the agency concurred, that the drug is effective as an aid in the treatment of ascarid infections in dogs and cats when administered at 25 to 50 mgs per pound of body weight as a single dose with a repeat dose given after 10 to 20 days. Sponsors of NADA's for products which did not reflect the conclusions of the notice were required to update their applications by submitting revised labeling or adequate documentation to support the labeling used. Those sponsors whose NADA's satisfied the requirements of the NAS/NRC notice or were found equivalent to the NAS/NRC-reviewed products are codified in the regulations in 21 CFR 520.620 and 520.622.

A NAS/NRC DESI notice for diethylcarbamazine medicated premix was published in the **Federal Register** of June 16, 1970 (35 FR 9869). The review concluded that the product is probably effective as an aid in the prevention and elimination of large roundworms in dogs when given as directed in feeds. The agency upon review of additional data concluded that the product is effective for use in prevention of ascarid infections.

Med-Tech, Inc., submitted data from a controlled artificial challenge study and reports from published scientific literature to demonstrate that its product is safe and effective for the prevention of heartworm disease caused by *Dirofilaria immitis* in dogs. The agency granted a waiver from the requirements of 21 CFR 514.111(a)(5)(ii) for a second adequate and well-controlled study, based on the literature. The ascarid claims are approved on the basis of the NAS/NRC reviews. The NADA is approved and the regulations are amended to reflect the approval.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The Bureau of Veterinary Medicine has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

This action is governed by the provisions of 5 U.S.C. 556 and 557 and is therefore excluded from Executive Order 12291 by section 1(a)(1) of the Order.

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10 (formerly 5.1; see 46 FR 26052; May 11, 1981)) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), § 520.622a is amended by adding new paragraph (a)(6) to read as follows:

§ 520.622a Diethylcarbamazine citrate tablets.

(a) * * *

(6) See No. 013983 in § 510.600(c) of this chapter for use of 50, 100, 200, 300, or 400 milligram tablets for prevention of heartworm disease in dogs, as an aid in the control of ascarid infections in dogs, and as an aid in the treatment of ascarid infections in dogs and cats.

* * * * *

Effective date. This amendment is effective December 18, 1981.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: December 10, 1981.

Terence Harvey,

Deputy Director, Bureau of Veterinary Medicine.

BILLING CODE 4160-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-5-FRL 1997-6]

Approval and Promulgation of State Implementation Plans; Ohio

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: On June 15, 1981, the State of Ohio submitted a revision to the ozone (03) portion of its State Implementation Plan (SIP). This revision is in the form of four permits and two variances submitted for six sources located at the

Specialty Materials Division of Fasson-Avery International. The purpose of today's rulemaking is to announce availability and approval of the Fasson-Avery SIP revision. This action will be effective on February 16, 1982, unless notice is received within thirty days (January 18, 1982) that someone wishes to submit adverse or critical comments.

DATE: This action is effective February 16, 1982.

ADDRESSES: Copies of this SIP revision are available for review at the following addresses:

Environmental Protection Agency, Region V, Air Programs Branch, 230 South Dearborn Street, Chicago, Illinois 60604

Environmental Protection Agency, Public Information Reference Unit, 401 M Street SW., Washington, D.C. 20460

Ohio Environmental Protection Agency, Office of Air Pollution Control, 361 East Broad Street, Columbus, Ohio 43216.

Written comments should be sent to: Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, EPA Region V, 230 South Dearborn Street, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Richard Clarizio, Regulatory Analysis Section, Air Programs Branch, EPA, Region V, 230 South Dearborn Street, Chicago, Illinois 60604, (312) 886-6029.

SUPPLEMENTARY INFORMATION: On June 15, 1981, the Governor of Ohio submitted to EPA a revision in the form of four permits and two variances for six paper coating lines operated by the Specialty Materials Division of Fasson-Avery, International. The Specialty Materials Division of Fasson-Avery is located in Lake County, Ohio. The two variances were issued to Reflective Coating Line R-1 and Paper Coating Line P-5. The four permits to operate were issued to Paper Coating Line P-1, 2, 3, and 4. A public hearing on these permits and variances was conducted by the State in Lake County on May 14, 1981. On June 2, 1981, the Director of Ohio EPA approved these permits and variances. Subsequent to the Director's approval, the Governor of Ohio, on June 15, 1981, submitted the Fasson-Avery revisions to EPA for review and approval as a revision to the Ohio ozone SIP.

The purposes of issuing these permits and variances were to provide four of the coating lines with an alternative emission reduction option (bubble) and to provide an emission offset for an anticipated new source, Durable Film Coating Line DF-1. A bubble allows an owner, under certain prescribed circumstances, to increase emissions from certain sources at a plant in exchange for a greater than or equal reduction in emissions from other sources at the same plant. Section I below discusses the acceptability of the Fasson-Avery bubble. Section II discusses the emissions offset provided for the anticipated new source.

Section I—Acceptability of the Bubble

The bubble developed for the Specialty Materials Division of Fasson-Avery involves Reflective Coating Line R-1 and Paper Coating Lines P-1, 3, and 5. These sources are located in Lake County, Ohio, a designated nonattainment area for ozone. In the ozone plan developed for the area, the State of Ohio committed itself to attain the ozone standard by December 31, 1987. The ozone plan, which was approved by EPA on October 31, 1980, (45 FR 72122), contained Rules 04 and 09 of Chapter 3745-21 of the Ohio Administrative Code (hereinafter referred to as Rules 3745-21-04 and 09). These rules establish emission limitations and compliance dates for stationary sources of volatile organic compounds (VOC). VOC emissions from coating lines R-1, P-1, 3 and 5 are regulated by Rules 3745-21-09(F) and 3745-21-04(C)(5). According to Rule 3745-21-09(F) VOC emissions from each of these four coating lines are not to exceed, individually, 2.9 pounds of VOC per gallon (2.9 lbs/gal) of coating employed, excluding water, as measured as a daily volume-weighted average. According to Rule 3745-21-04(C)(5), these sources are to comply with this emission limitation by April 1, 1982. Ohio EPA has calculated that if each coating line were to comply with this emission limitation, the combined total VOC emissions from these four sources would be equal to 773.2 tons per year (tpy).

The purpose of the bubble is to provide these four sources with an alternate method of achieving the 773.2 tpy VOC emissions cap.

Under a bubble scenerio, VOC emissions from these four sources are treated as if they were from one source with a daily volume-weighted average emission limitation of 2.9 lbs/gal. The variances submitted for coating lines R-1 and P-5 allow VOC emissions from these two sources to exceed, individually, the 2.9 lbs/gal emission limitation of Rule 3745-21-09(F). Any VOC emissions from these two sources above 2.9 lbs/gal must be accompanied by a decrease in emissions from coating lines P-1 and 3 such that the combined daily volume-weighted average of VOC emissions from all four coating lines does not exceed 2.9 lbs/gal. This condition is specified in each of the variances and permits issued to these four coating lines. In addition to this emission limitation the permits issued for coating lines P-1 and 3 require that these two sources, individually, may not exceed the 2.9 emission limitation of Rule 3745-21-09(F). Ohio EPA has calculated that the total VOC emissions which will result from the implementation of this bubble will not exceed the 773.2 tpy emission cap. Thus, the total impact of this bubble on air quality will equal the impact which would have resulted through individual compliance with Rule 3745-21-09(F). Compliance with the emission limitations contained in the permits and variances will be achieved through greater usage of water-based coatings and an improved VOC recovery efficiency for the existing control equipment. To ensure that the emission limitations for this bubble are not exceeded, the permits and variances specify a test method to be used to determine compliance with the emission limitations. Proper use of the test method requires the maintenance of specific production and equipment records. The permits and variances require Fasson-Avery to maintain, for two years, the following records for these four coating lines: the density, VOC, water and nonvolatile content of the coatings employed, the daily and monthly usage of the coating materials, the control equipment employed, the expected capture and control efficiencies of the equipment and the daily and monthly amount of VOC recovered or incinerated by the control equipment.

EPA believes that the permits and variances developed for the Fasson-Avery Bubble satisfy its criteria for approval of a Bubble as published in the December 11, 1979 **Federal Register** (44 FR 71780). In particular, the VOC emissions, traded in this bubble are comparable in their health effects. The permits and variances specify emission limitations which are applicable to all four coating lines and which can be quantified through an acceptable test method. Finally, the implementation of the Bubble will not increase VOC emissions in the area or interfere with the area's ability to attain the ozone standard by December 31, 1987. EPA, therefore, approves the emission limitations, interim and final compliance milestones, applicable control equipment requirement and testing procedures specified in and required by the variances and permits issued to coating lines R-1, P-1, 3 and 5 for use in the Fasson-Avery Bubble.

Section II—Emissions Offset Provisions For Proposed New Source DF–1

Within the Specialty Materials Division, Fasson-Avery anticipates operation of new coating line DF–1 in the near future. To offset any increase in VOC emissions from this new source the State is requiring coating lines R–1, P–1, 2, 3, 4 and 5 to reduce their VOC emissions. This decrease in emissions from coating lines R–1, P–1, 3 and 5 is to be in addition to any decrease which may occur as a result of the bubble approved for these coating lines. This additional reduction in VOC emissions will be achieved by limiting the total discharge from these six coating lines to 2.05 pounds of VOC per gallon (2.05 lbs/gal) of coating employed, as measured on a monthly volume-weighted average. The 2.05 lbs/gal emission limitation is contained within the Bubble permits and variances issued to coating lines R–1, P–1, 3 and 5 and within revised operating permits issued to coating lines P–2 and 4. In addition to the 2.05 lbs/gal emission limitation, the permits submitted for coating lines P–2 and 4 require both of these coating lines to individually comply with the 2.9 lbs/gal daily volume-weighted average emission limitation of Rule 3745–21–09(F). The permit for source P–4 also requires that the discharge of VOC from this source shall not exceed in any one calendar month a volume-weighted average of 2.28 lbs/gal. The permits developed for coating lines P–2 and 4 require the use of the same test method and record keeping requirements as specified in the permits and variances submitted for coating lines R–1, P–1, 3 and 5. The final compliance date is April 1, 1982.

Since the offsets being provided for the expected new coating line are internal offsets (i.e., the decrease in emissions is being provided by sources within the same plant as the source which is to be offset) it is not necessary for EPA to approve the offsets as a SIP revision. The State, however, has requested that EPA approve as part of the SIP these permits and variances. EPA's review of the permits and variances indicates that the emission limitations and other special conditions developed for these sources are acceptable. Therefore, EPA approves as part of the ozone SIP those portions of the permits and variances issued to the coating lines R–1, P–1, 2, 3, 4 and 5 which pertain to the new source offset.

EPA notes that in accordance with its New Source Review (NSR) program, the State must analyze the acceptability of these offsets as applied to the new source, prior to its commencing operation. This analysis is independent of EPA's approval today of the provisions contained in these permits and variances.

The public should be advised that today's action will not be effective until February 16, 1982. If notice, however is received by January 18, 1982, that someone wishes to submit adverse or critical comments, EPA will publish two subsequent **Federal Register** notices. One action will withdraw today's final approval. The other action will propose approval and will provide the public with an additional 30 days to submit substantive comments on the proposed approval. At the end of that 30 days public comment period EPA will evaluate all comments received and proceed with the appropriate final action.

On September 4, 1981 (46 FR 44476), EPA published a general notice explaining this special procedure.

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this action will not have a significant economic impact on a substantial number of small entities since it only affects one source and has been estimated to provide that source with an economic savings.

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirements of an Economic Impact Analysis. Today's action does not constitute a major regulation since it merely approves a State action for one source. Furthermore, the implementation of the provisions approved today will provide the source with significant economic savings.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit by February 16, 1982 under section 307(b)(2) of the Clean Air Act the requirements which are the subject of today's actions may not be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

Note.—Incorporation by Reference of the Ohio State Implementation Plan was approved by the Director of the Federal Register on July 1, 1981.

(Section 110 of the Act as amended (42 U.S.C. 7416))

Dated: December 14, 1981.

Anne M. Gorsuch,

Administrator.

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Title 40 of the Code of Federal Regulations, Chapter I, Part 52 is amended as follows:

1. Section 52.1870 is amended by adding paragraph (c)(38) as follows:

§ 52.1870 **Identification of plan.**

* * * * *

(c) * * *

(38) The Governor of Ohio on June 15, 1981 submitted a revision to the ozone portion of the Ohio State Implementation Plan. This revision is for six coating lines located at the Speciality Materials Division of Fasson-Avery located in Lake County, Ohio.

[FR Doc. 81–36185 Filed 12–17–81; 8:45 am]

BILLING CODE 6560–38–M

---

40 CFR Part 81

[A–10–FRL 1998–5]

Designation of Areas for Air Quality Planning Purposes; Attainment Status Designations; Washington

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The purpose of this rulemaking is to redefine the attainment status for carbon monoxide in the Puget Sound Air Quality Control Region as promulgated on March 3, 1978 (43 FR 9043). This action will redefine areas to better correspond with the most recent data and information available. Additionally, such action will allow the State and local planning agencies to tailor the programs within their jurisdiction to more effectively address air pollution problems.

EFFECTIVE DATE: December 18, 1981.

ADDRESSES: The information related to this redesignation may be examined during normal business hours at the following locations:

Central Docket Section (10A–81–11), West Tower Lobby, Gallery I, Environmental Protection Agency, 401 M Street S.W., Washington, D.C. 20460

Air Programs Branch, Environmental Protection Agency, 1200 Sixth Avenue, M/S 625, Seattle, Washington 98101

The Office of the Federal Register, 1100 L Street, N.W., Room 8401, Washington, D.C. 20408

State of Washington, Department of Ecology, 4224 Sixth Avenue, S.E., Rowe Six, Building 4, Lacey, Washington 98503

FOR FURTHER INFORMATION CONTACT: George C. Hofer, Air Programs Branch (M/S 625), Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101, Telephone (206) 442–1352, (FTS) 399–1352.

SUPPLEMENTARY INFORMATION:

A. Background

The Seattle-Tacoma-Everett Federal-Aid Urban Area was designated nonattainment for carbon monoxide (CO) on March 3, 1978 (43 FR 9043). This area was designated as nonattainment because it included areas where CO violations were monitored and because it was a previously established transportation planning study area. Even though the selected area contained portions that had no data showing nonattainment of the CO National Ambient Air Quality Standards (NAAQS), the original area was chosen in order to match the planning boundaries of the local agencies responsible for both transportation planning and development of the Part D Nonattainment Plan.

Prompted in part by the recent decision in *Alabama Power v. Costle*, 636 F.2d 323 (D.C. Cir. 1979) which highlighted the significance of nonattainment area boundaries in siting new stationary sources, the State of Washington submitted a request in July of 1980 containing a proposal to redefine the Puget Sound nonattainment area boundaries. Because of problems in defining attainment area boundaries the State of Washington agreed to re-evaluate their proposed redesignation request. EPA worked with the State, in conjunction with an outside contractor, on a modeling effort designed to provide information on the attainment status of areas where no monitoring data exist. Concurrently, the State of Washington offered explanation and received comments on their proposal at several meetings with the local lead transportation planning agency and two local citizens' advisory groups. As a result of these efforts, the State of Washington submitted a redesignation request on June 19, 1981 containing a proposal to subdivide the original (March 3, 1978) nonattainment area into smaller nonattainment areas, unclassifiable areas and attainment areas. (Detailed maps of these areas are available for public inspection at the locations listed in the "Addresses" section.) The nonattainment boundaries more accurately represent those sites for which there are monitored violations of the CO NAAQS.

The Clean Air Act provides that a State, from time to time, may review and revise its list of attainment status designations and submit these revisions to the Administrator for promulgation (Section 107(d)(5) of the Clean Air Act). EPA is today approving a redefinition of the attainment status for the Puget Sound Air Quality Control Region.

B. Comments on Proposed Rulemaking

During the comment period following EPA's August 20, 1981 proposed rulemaking six comment letters were received. Most of the comments were supportive of the proposed action. The issues raised by these commenters and discussion of these issues follows.

1. Issue: Impact on Transportation Planning

Commenters expressed their concern that past and current transportation planning effort in support of the State Implementation Plan (SIP) may be invalidated or need to be supplemented because of this redesignation action.

Discussion: As stated in the proposed rulemaking (August 20, 1981), this action will neither add nor subtract requirements for the currently approved CO nonattainment plans or the 1982 SIP that is in preparation. This is because today's action does not in anyway chance historical CO data for the Puget Sound area. In other words, the CO problem areas, design values and control requirements (which are based on actual CO data) will not be affected by today's action. This redesignation merely defines CO nonattainment areas based on monitoring data rather than fiscal planning boundaries.

Because this action does not physically change the CO problem areas or sources, it does not alter programmed solutions. That is, CO emission reduction measures (such as Transit and Inspection and Maintenance (I/M) programs) will not be affected since these measures were implemented because they are cost-effective solutions to actual CO problems.

2. Issue: Unclassifiable Areas

Clarification of what is intended by the "unclassifiable" designation was requested in the comments received.

Discussion: Some areas are designated as unclassifiable in today's action because there is insufficient information to make an attainment or nonattainment designation. On one hand, these unclassifiable area do not have monitoring data indicating violations of the CO NAAQS (therefore suggesting a designation of attainment) yet on the other hand, a conservative modeling technique indicates that there may be a potential for violations of the CO NAAQS (therefore suggesting a designation of nonattainment). These areas are unclassifiable because a designation of attainment or nonattainment cannot be made with a reasonable degree of certainty. The State of Washington intends to monitor CO air quality in these unclassifiable areas in order to establish each area's actual attainment/nonattainment status. The State of Washington does not as yet have a detailed monitoring schedule for this task, but intends to proceed, pursuant to 40 CFR Part 58, as resources allow.

3. Issue: Public involvement

One comment letter expressed concern that the State of Washington request for redesignation was made without an opportunity for input from the public or local transportation planning groups.

Discussion: The public and, in particular, local transportation planning groups had many direct and indirect opportunities to comment on and contribute to the proposal developed by the State of Washington DOE during the summer of 1980. Although State public involvement procedures are not expressly spelled out in section 107 of the Clean Air Act, the DOE chose to work with local interests in order to insure that their concerns were taken into account. After working with groups and individuals representing the Puget Sound Council of Governments, the Washington Lung Association, the Citizens Advisory Committee on Air Quality and Transportation Control Planning, the Environmental Protection Agency, and private industry for nearly one year, the DOE submitted a redesignation proposal that was significantly different from the earlier one. The differences were in part the result of public involvement. Further opportunity for public comment was provided by proposing this action in the **Federal Register**.

4. Issue: Monitoring and Modeling

One commenter expressed concern that the nonattainment areas were limited in extent and number because of the monitoring and modeling approach used to redefine the CO nonattainment areas.

Discussion: As mentioned in the proposed rulemaking published in the **Federal Register** (August 20, 1981) the purpose of this action is to redesignate nonattainment area boundaries to accurately reflect the CO nonattainment areas in the Puget Sound region. The importance of designation area boundaries was recently re-enforced by the U.S. Court of Appeal for the District of Columbia circuit in *Alabama Power* v. *Costle*, 636 F.2d 323 (D.C. Cir. 1979). In keeping with the need to substantiate the basis for nonattainment area designations, today's action is based on monitored violations of the CO NAAQS. These violations were observed at

monitoring sites that use the reference method for CO measurement (Non-Dispersive Infrared technique) and that are located in accordance with *Guidance for Air Quality Monitoring Network Design and Instrument Siting, Supplement A—Carbon Monoxide Siting* (OAQPS #1.2–012R1, Sept. 1975).

Air Quality modeling was used to define areas where CO air quality is uncertain. In keeping with the court opinion that nonattainment area designations correspond to actual air qualities the areas with uncertain CO air quality are designated as unclassifiable. (See discussion following issue #2 above.) While there are other ways of dealing with these areas of uncertain air quality, the State of Washington feels that with the information currently available this approach is appropriate. In accordance with section 107 of the Clean Air Act as amended, EPA is promulgating their submittal through today's action.

Summary of Comments

Most of the comment letters were supportive of the proposed action and raised questions or issues that are discussed above. No comments or corrections were received on the actual area boundaries. While comments received on the background, procedure, and purpose of today's action did offer alternate suggestions, no substantive reasons were mentioned for failing to redefine the Puget Sound CO nonattainment area. Since there are significant and substantive reasons in favor of redesignation, EPA is today making this action final.

Final Action

CO Nonattainment Areas

The following areas in the Puget Sound region are designated as CO nonattainment areas:

1. Seattle-Central Business District (CBD);
2. Seattle-Dearborn Street and Rainier Avenue Corridor;
3. Seattle-University District;
4. Bellevue-CBD; and,
5. Tacoma-CBD.

Detailed boundary descriptions for these nonattainment areas were published in the **Federal Register** on August 20, 1981 (46 FR 42296).

CO Unclassifiable Areas

The following areas in the Puget Sound Region are designated as CO Unclassifiable areas:

1. Everett;
2. Seattle;
3. Bellevue;
4. Tacoma;
5. Puyallup; and,
6. Auburn.

Detailed boundary descriptions for these unclassifiable areas were published in the **Federal Register** on August 20, 1981 (46 FR 42296–42297).

CO Attainment Areas

All portions of the original (March 3, 1978) Puget Sound CO nonattainment area that are not designated as nonattainment or unclassifiable in this rulemaking are designated as CO attainment areas.

Impact Summary

The primary effect of these redesignations is to change the permit requirements for new major stationary sources and major modifications. Such sources proposing to locate in an old CO nonattainment area must install the Lowest Achievable Emission Rate (LAER) levels of controls and obtain at least a one-for-one emission offset so that reasonable further progress (RFP) towards attainment is maintained. Such sources proposing to locate in the areas which are designated as attainment or unclassifiable today will have to apply the Best Available Control Technology (BACT) and ensure that the source's emissions will not cause or contribute to violations of the NAAQS for CO. Since LAER and BACT for CO are essentially the same, the only real impact of this redesignation is to eliminate the automatic requirement of a greater than one-for-one offsetting emission reduction. Rather, offsets will only be required to ensure attainment and maintenance of the CO standards.

An additional effect of these proposed redesignations is that a Part D (nonattainment area) plan is no longer required to bring the unclassifiable areas into attainment with the CO standard. This result, however, will have no impact on the currently approved CO nonattainment plans since all the provisions included in those plans are still necessary in order to attain the NAAQS in the remaining CO nonattainment areas and to maintain those standards throughout the Puget Sound region.

Under section 307(b)(1) of the Clean Air Act, judicial review of this final action is available *only* by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of date of final rulemaking. Under section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

Pursuant to the provisions of 5 U.S.C. 605(b) the Administrator has certified that attainment status redesignations under section 107(d) of the Clean Air Act will not have a significant economic impact on a substantial number of small entities (46 FR 8709, January 27, 1981). This rule constitutes an attainment status redesignation under section 107(d) within the terms of the January 27 certification. This action imposes no regulatory requirements but only changes area air quality designations. Any regulatory requirements which may become necessary as a result of this action will be dealt with in a separate action.

Under Executive Order 12291, EPA must judge whether a regulation is "major" and, therefore subject to the requirements of a regulatory impact analysis. This regulation is not major because it is merely changing boundaries of a nonattainment area as requested by the State. There will by no additional regulatory burden.

(Sec. 107(d), 171(2), 301(a) of the Clean Air Act, as amended (42 U.S.C. 7407(d) and 7501(2), 7601(a)))

Dated: December 14, 1981.

Anne M. Gorsuch,

Administrator.

PART 81—DESIGNATION OF AREAS FOR AIR QUALITY PLANNING PURPOSES

Part 81 of Chapter I, Title 40, Code of Federal Regulations should be amended as follows:

Subchapter C—Section 107 Attainment Status Designations

In § 81.348, the following status designation table for carbon monoxide is revised to read as follows:

§ 81.348 Washington.

* * * * *

WASHINGTON—CO

BILLING CODE 6560-38-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 81-176; RM-3746]

TV Broadcast Station in Orchard, Nebr.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns UHF television Channel 16 to Orchard, Nebraska, in response to a petition filed by Virgil Pinkerman. The assignment could provide a first commercial television service to Orchard.

DATE: Effective February 16, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.606(b), table of assignments, television broadcast stations (Orchard, Nebraska); Report and order (Proceeding Terminated).

Adopted: December 8, 1981.

Released: December 15, 1981.

By the Acting Chief, Policy and Rules Division:

1. The Commission has under consideration a *Notice of Proposed Rule Making*, 46 FR 19269, published March 30, 1981, proposing the assignment of UHF television Channel 16 to Orchard, Nebraska, as its first commercial television assignment. The *Notice* was issued in response to a petition filed by Virgil Pinkerman ("petitioner"). Supporting comments were filed by the petitioner. No oppositions to the proposal were received.

2. Orchard (population 467),[1] in Antelope County (population 9,047), is located approximately 225 kilometers (140 miles) northwest of Omaha, Nebraska. It has no local television broadcast service.

3. In comments to the proposal, the petitioner incorporated by reference the information contained in the *Notice* demonstrating the need for a first television assignment to Orchard. Petitioner also restated his intent to apply for the channel, if assigned.

4. We believe that the petitioner has adequately demonstrated a need for a first UHF television assignment to Orchard, and that the public interest would be served by assigning UHF television Channel 16 to that community. The assignment can be made in compliance with the minimum distance separation requirements and other technical criteria.

5. Accordingly, pursuant to authority contained in sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules, it is ordered, That effective February 16, 1982, the Television Table of Assignments (§ 73.606(b) of the rules) is amended with respect to the community listed below:

City	Channel No
Orchard, Nebr.	16

6. It is further ordered, that this proceeding is terminated.

7. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division, Broadcast Bureau.

47 CFR Part 73

[BC Docket No. 80-512; RM-3595]

FM Broadcast Station in Tremonton, Utah; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns a Class A FM channel to Tremonton, Utah, in response to a petition and counterproposal filed by Bear River Broadcasting Company, Inc. and Simmons Family, Inc., respectively. The proposed station will provide Tremonton with its first fulltime local aural broadcast service.

DATE: Effective February 16, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Freda Lippert Thyden, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations (Tremonton, Utah); Report and order (proceeding terminated).

Adopted: December 8, 1981.

Released: December 15, 1981.

By the Acting Chief, Policy and Rules Division:

1. The Commission has before it the *Further Notice of Proposed Rule Making*, 46 FR 37925, published July 23, 1981, which proposed the assignment of either FM Channel 264 or Channel 285A to Tremonton, Utah. Comments were filed by Bear River Broadcasting Company, Inc. ("Bear River"), the original proponent in this proceeding. Both comments and a reply pleading were submitted by Simmons Family, Inc. ("Simmons"), licensee of FM Station KSFI, Salt Lake City, Utah.

2. Although noting that it would apply for a Class A channel if one were assigned to Tremonton, Bear River continues to advocate the assignment of a Class C channel to that community. Excellent service will be provided the underserved and unserved areas surrounding Tremonton, contends petitioner, as they are located north and northwest of the community in precisely the same direction as proponent's proposed transmitter site (the same site being used for a new AM station licensed to Bear River). While it is Bear River's intention to establish a facility which will render a reception service to a wide area, it affirms its primary

obligation to serve the community needs of Tremonton. As the county is a vast, sparsely populated area, submits Bear River, a Class C channel is needed to serve all of it. In addition, petitioner contends that a substantial area must be served to develop an adequate demographic base to make the station viable in terms of an adequate listening audience and such service can only be given by a Class C facility. Bear River also submits that the possible service to be rendered by unbuilt stations should not play a part in this proceeding. Although in the *Further Notice of Proposed Rule Making* the Commission said such service was being considered, proponent argues that even if the application to upgrade the facilities of Station KJKJ, Logan, Utah, is granted, as well as a pending application for a new Class C station at Roy, Utah, there is no real assurance that the facilities will be constructed exactly as proposed. In such case the elimination of much of the first and second service which Channel 264 at Tremonton would have provided would not occur.

3. Also submitting comments, as well as a reply, is Simmons, licensee of Station KSFI–FM, Salt Lake City, Utah. Simmons advocates assigning a Class A channel to Tremonton and not a Class C based on the size of the community. Additionally, opponent notes that Bear River fails to indicate that even if the above applications are granted, its proposal will provide significant first and/or second service.

4. As was stated in both the *Notice* and *Further Notice*, high-powered, wide-coverage area Class C channels are normally not assigned to communities as small as Tremonton. Exceptions to this policy are made, however, where a Class C channel could provide a significant amount of first or second FM service to surrounding areas and populations. Consequently, in addition to a Class A proposal, we proposed in the alternative a Class C allocation. Although initially the assignment of a Class C channel to Tremonton would have provided first and second service to approximately 3,000 and 600 persons, respectively, this is not the present situation. First, an application to upgrade the facilities of Station KJKJ, Logan, Utah, was granted by the Commission on August 27, 1981. This modification completely eliminates the area of first service which Channel 264 at Tremonton would have served. Second, there are presently four mutually exclusive applications pending for a new Class C station at Roy, Utah. The granting of any of these four applications would result in a significant decrease in the amount of second service which the channel at Tremonton would have provided. Since granting a Class C channel to a community the size of Tremonton (population 3,464) [1] is unusual, we believe it is appropriate to take into account the grant of increased facilities for Station KJKJ and the likelihood that one of the four Roy applicants will ultimately construct a station. Furthermore, although petitioner notes its transmitter site is in a northwesterly direction of the city in which unserved and underserved areas lie, it failed to indicate any first FM service or any significant second FM service in view of the above facts. Thus, we conclude that a Class C assignment should not be made to such a small community.

5. In view of the needs of Tremonton and Box Elder County (population 33,222), as well as the Commission's FM assignment policy to provide at least one local assignment to every community wherever possible,[2] we are assigning FM Channel 285A to Tremonton. We believe we have the requisite expression of interest from petitioner in the use of a Class A allocation, and we note that Channel 285A is available for use at petitioner's AM station's site. This assignment is in accord with our general policy of assigning Class A channels to smaller communities.[3] See also *Cabool, Missouri*, 52 F.C.C. 2d 246 (1975).

6. In view of the foregoing, it is ordered, that effective February 16, 1982, the FM Table of Assignments, § 73.202(b) of the Commission's Rules, is amended to read as follows for the community listed:

City	Channel No.
Tremonton, Utah	285A

7. Authority for the adoption of the amendment contained herein appears in Sections 4(i), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules.

8. It is further ordered, that this proceeding is terminated.

9. For further information concerning this proceeding, contact Freda Lippert Thyden, Broadcast Bureau, (202) 632–7792.

BILLING CODE 6712-01-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1016

[Ex Parte No. 55 (Sub-No. 52)]

Special Procedures Governing Recovery of Expenses by Parties to Adjudicatory Proceedings

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: The Commission is adopting final rules implementing the Equal Access to Justice Act. The Act requires Federal agencies to award attorney's fees and other expenses to certain parties who prevail over the Federal government in particular administrative proceedings. The rules establish uniform procedures for the submission and consideration of applications for an award.

DATE: Effective date: January 18, 1982.

FOR FURTHER INFORMATION CONTACT: Richard Armstrong, (202) 275–6430.

SUPPLEMENTARY INFORMATION: By a notice published at 46 FR 41825, August 18, 1981, the Commission proposed rules to implement the Equal Access to Justice Act. (Pub. L. 96–481, 94 Stat. 2325.) Generally, the Act requires Federal agencies to award attorney's fees and other expenses to certain small organizations and individuals when they prevail over the Federal government in certain adversarial administrative proceedings conducted under 5 U.S.C. 554, unless (1) the position of the government as a party to the proceeding was substantially justified or (2) special circumstances make an award unjust.

The rules which we proposed and now adopt closely follow the model rules issued by the Chairman of the Administrative Conference of the United States. The model rules were published at 46 FR 32900 on June 25, 1981. Our reliance upon the model rules is due to the requirements of the Act that each agency establish uniform procedures for handling award applications and consult with the Chairman of the Administrative Conference before issuing rules implementing the Act.

In our notice, we sought public comments on the proposed rules. We received written comments only from the Office of the Chairman of the Administrative Conference. In response to these comments, we agree that the term "adjudicatory officer" which appeared in § 1016.104 of our proposed rules should be "adjudicative officer." The latter term is used in the Act and throughout the remaining rules. We also agree that the word "similar" should not appear the second time in § 1016.107(c)(1), and we will delete it. The term was inadvertently included, as we did not intend for our provision to differ from the corresponding model rule. However, we decline to follow the recommendation that we repeat in § 1016.108 the language of the Act concerning the criteria in rulemakings upon which to base an increase in the maximum rate for attorney fees. The possible increase in convenience for interested persons is not sufficient to justify the repetition of the language.

The Office of the Chairman comments further that the clarifying language added to § 1016.105(a) is unnecessary. This language was added to make clear that a party must have stood in an adversarial relationship to the position of agency counsel to be eligible for an award. We remain convinced that this language is appropriate, if not necessary, for § 1016.105, because that section sets forth other eligibility requirements for applicants. However, for the sake of clarity, we will adopt the suggestion of the Office of the Chairman and redraft the first sentence of § 1016.105(a) to read:

> To be eligible * * * the applicant must be a party to the adversary adjudication for which it seeks an award, it must have stood in an adversary relationship to the position taken by agency counsel * * *.

Finally, upon our own reconsideration, we are revising the language in § 1016.103(a) exempting ratemaking proceedings from coverage by the Act. The second sentence of § 1016.103(a) will now read: "Proceedings for the purpose of establishing or fixing a rate are not covered by the Act." This change does not necessarily reduce the number of proceedings covered by the Act. We never intended to alter the coverage mandated by Congress. The change in language removes any doubt since the exemption is now expressed in the same terms used in the Act.

Accordingly, we adopt a new Part 1016 to Title 49 of the Code of Federal Regulations as set forth in the appendix to this decision.

We realize that the award provisions begin to apply to covered adversary adjudications pending as of October 1, 1981. Should there be any applications for an award which are filed before our rules become effective, the applications will be handled on an *ad hoc* basis.

Pursuant to 5 U.S.C. 605(b), we certify that these rules will not have a significant economic impact on a substantial number of small entities. The rules merely implement the Equal Access to Justice Act and do not impose significant economic burdens or benefits.

This decision will not significantly affect the quality of the human environment or conservation of energy resources.

(49 U.S.C. 10321, 5 U.S.C. 504(c)(1) and 5 U.S.C. 553)

Decided: December 3, 1981.

By the Commission, Chairman Taylor, Vice-Chairman Clapp, Commissioners Gresham and Gilliam.

Agatha L. Mergenovich,

Secretary

In Title 49 of the Code of Federal Regulations, Part 1016 is added to read as follows:

PART 1016—SPECIAL PROCEDURES GOVERNING THE RECOVERY OF EXPENSES BY PARTIES TO COMMISSION ADJUDICATORY PROCEEDINGS

Subpart A—General Provisions

Sec.
1016.101 Purpose of these rules.
1016.102 When the Act applies.
1016.103 Proceedings covered.
1016.104 Decisionmaking authority.
1016.105 Eligibility of applicants.
1016.106 Standards for awards.
1016.107 Allowable fees and expenses.
1016.108 Rulemaking on maximum rates for attorney fees.
1016.109 Awards against other agencies.

Subpart B—Information Required From Applicants

1016.201 Contents of application.
1016.202 Net worth exhibit.
1016.203 Documentation of fees and expenses.

Subpart C—Procedures for Considering Applications

1016.301 When an application may be filed.
1016.302 Filing and service of documents.
1016.303 Answer to application.
1016.304 Reply.
1016.305 Comments by other parties.
1016.306 Settlement.
1016.307 Further proceedings.
1016.308 Decision.
1016.309 Agency review.
1016.310 Judicial review.
1016.311 Payment of award.

Authority: Sec. 203(a)(1), Pub. L. 96–481, 94 Stat. 2325 (5 U.S.C. 504(c)(1)), 5 U.S.C. 553, and 49 U.S.C. 10321.

Subpart A—General Provisions

§ 1016.101 Purpose of these rules.

The Equal Access to Justice Act (5 U.S.C. 504) (called the "Act" in this part), provides for the award of attorney fees and other expenses to eligible individuals and entities who are parties to certain administrative proceedings (called "adversary adjudications") before the Interstate Commerce Commission. An eligible party may receive an award when it prevails over the Commission or another agency of the United States participating in the Commission proceeding, unless the Commission's position in the proceeding, or that of the other agency, was substantially justified or special circumstances make an award unjust. The rules in this part describe the parties eligible for awards and the proceedings that are covered. They also explain how to apply for awards, and the procedures and standards that the Commission will use to make them.

§ 1016.102 When the Act applies.

The Act applies to any adversary adjudication pending before the Commission at any time between October 1, 1981 and September 30, 1984. This includes proceedings begun before October 1, 1981 if final Commission action has not been taken before that date, and proceedings pending on September 30, 1984, regardless of when they were initiated or when final Commission action occurs.

§ 1016.103 Proceedings covered.

(a) The Act applies to adversary adjudications conducted by the Commission under 5 U.S.C. 554 in which the position of this or any other agency of the United States, or any component of an agency, is presented by an attorney or other representative (hereinafter "agency counsel") who enters an appearance and participates in the proceeding. Proceedings for the purpose of establishing or fixing a rate are not covered by the Act. Proceedings to grant or renew licenses are also excluded, but proceedings to modify, suspend, or revoke licenses are covered if they are otherwise "adversary adjudications." Generally, the types of Commission proceedings covered by the Act include, but are not limited to, investigation proceedings instituted under 49 U.S.C. 11701 and 49 U.S.C. 10925 and disciplinary proceedings conducted pursuant to 49 CFR 1100.11.

(b) The Commission may also designate a proceeding not listed in paragraph (a) of this section as an adversary adjudication for purposes of the Act by so stating in an order initiating the proceeding, designating the matter for hearing or at any other time during the proceeding. The Commission's failure to designate a proceeding as an adversary adjudication shall not preclude the filing of an application by a party who believes the proceeding is covered by the Act; whether the proceeding is covered will then be an issue for resolution in proceedings on the application.

(c) If a proceeding includes both matters covered by the Act and matters specifically excluded from coverage, any award made will include only fees and expenses related to covered issues.

§ 1016.104 Decisionmaking authority.

Unless otherwise ordered by the Commission in a particular proceeding, each application for an award under this part shall be assigned for an initial decision to the official or decisionmaking body that entered the initial decision in the adversary adjudication. That official or decisionmaking body is referred to in this part as the "adjudicative officer."

§ 1016.105 Eligibility of applicants.

(a) To be eligible for an award of attorney fees and other expenses under the Act, the applicant must be a party to the adversary adjudication for which it seeks an award, it must have stood in an adversary relationship to the position taken by agency counsel, and it must have prevailed on one or more of the issues raised by agency counsel. The term "party" is defined in 5 U.S.C. 551(3). The applicant must show that it meets all conditions of eligibility set out in this subpart and in subpart B.

(b) The types of eligible applicants are as follows:

(1) An individual with a net worth of not more than $1 million;

(2) The sole owner of an unincorporated business who has a net worth of not more than $5 million, including both personal and business interests, and not more than 500 employees;

(3) A charitable or other tax-exempt organization described in section 501(c)(3) of the Internal Revenue Code (26 U.S.C. 501(c)(3)) with not more than 500 employees;

(4) A cooperative association as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 1141j(a)) with not more than 500 employees; and

(5) Any other partnership, corporation, association, or public or private organization with a net worth of not more than $5 million and not more than 500 employees.

(c) For the purpose of eligibility, the net worth and number of employees of an applicant shall be determined as of the date the proceeding was initiated.

(d) An applicant who owns an unincorporated business will be considered as an "individual" rather than a "sole owner of an unincorporated business" if the issues on which the applicant prevails are related primarily to personal interests rather than to business interests.

(e) The employees of an applicant include all persons who regularly perform services for remuneration for the applicant, under the applicant's direction and control. Part-time employees shall be included on a proportional basis. Independent contractors under lease to motor carriers are not employees of the carriers under these rules. Also, agents for motor common carriers of household goods are not employees of their respective principal carriers.

(f) The net worth and number of employees of the applicant and all of its affiliates shall be aggregated to determine eligibility. Any individual, corporation or other entity that directly or indirectly controls or owns a majority of the voting shares or other interest of the applicant or any corporation or other entity of which the applicant directly or indirectly owns or controls a majority of the voting shares or other interest, will be considered an affiliate for purposes of this part, unless the adjudicative officer determines that such treatment would be unjust and contrary to the purposes of the Act in light of the actual relationship between the affiliated entities. In addition, the adjudicative officer may determine that financial relationships of the applicant other than those described in this paragraph constitute special circumstances that would make an award unjust.

(g) An applicant that participates in a proceeding primarily on behalf of one or more other persons or entities that would be ineligible is not itself eligible for an award.

§ 1016.106 Standards for awards.

(a) A prevailing applicant may receive an award for fees and expenses incurred in connection with a proceeding, or in a significant and discrete substantive portion of the proceeding, unless the position of the agency over which the applicant has prevailed was substantially justified. The burden of proof that an award should not be made to an eligible prevailing applicant is on the agency counsel, which may avoid an award by showing that its position was reasonable in law and fact.

(b) An award will be reduced or denied if the applicant has unduly or unreasonably protracted the proceeding or if special circumstances make the award sought unjust.

§ 1016.107 Allowable fees and expenses.

(a) Awards will be based on rates customarily charged by persons engaged in the business of acting as attorneys, agents and expert witnesses, even if the services were made available without charge or at a reduced rate to the applicant.

(b) No award for the fee of an attorney or agent under these rules may exceed $75.00 per hour. No award to compensate an expert witness may exceed the highest rate at which the Commission pays expert witnesses (which is currently $24.09 per hour). However, an award may also include the reasonable expenses of the attorney, agent, or witness as a separate item, if the attorney, agent or witness ordinarily charges clients separately for such expenses.

(c) In determining the reasonableness of the fee sought for an attorney, agent or expert witness, the adjudicative officer shall consider the following:

(1) If the attorney, agent or witness is in private practice, his or her customary fee for similar services, or, if an employee of the applicant, the fully allocated cost of the services;

(2) The prevailing rate for similar services in the community in which the attorney, agent, or witness ordinarily performs services;

(3) The time actually spent in the representation of the applicant;

(4) The time reasonably spent in light of the difficulty or complexity of the issues in the proceeding; and

(5) Such other factors as may bear on the value of the services provided.

(d) The reasonable cost of any study analysis, engineering report, test, project or similar matter prepared on behalf of a party may be awarded, to the extent that the charge for the service does not exceed the prevailing rate for similar services, and the study or other matter was necessary for preparation of the applicant's case.

§ 1016.108 Rulemaking on maximum rates for attorney fees.

Any person may file with the Commission a petition for rulemaking to increase the maximum rate for attorney fees in accordance with our rules appearing at 49 CFR Part 1103.

Notwithstanding the requirements of Part 1103, the petition shall identify the rate the petitioner believes the Commission should establish and the types of proceedings in which the rate shall be used. It should also explain fully the reasons why the higher rate is warranted.

§ 1016.109 Awards against other agencies.

If an applicant is entitled to an award because it prevails over another agency of the United States that participates in a proceeding before this agency and takes a position that is not substantially justified, the award or an appropriate portion of the award shall be made against that agency.

Subpart B—Information Required From Applicants

§ 1016.201 Contents of application.

(a) An application for an award of fees and expenses under the Act shall identify the applicant and the proceeding for which an award is sought. The application shall show that the applicant has prevailed and identify the position of the Commission or other agencies in the proceeding that the applicant alleges was not substantially justified. Unless the applicant is an individual, the application shall also state the number of employees of the applicant and describe briefly the type and purpose of its organization or business.

(b) The application shall also include a statement that the applicant's net worth does not exceed $1 million (if an individual) or $5 million (for all other applicants, including their affiliates). However, an applicant may omit this statement if:

(1) It attaches a copy of a ruling by the Internal Revenue Service that it qualifies as an organization described in section 501(c)(3) of the Internal Revenue Code (26 U.S.C. 501(c)(3) or, in the case of a tax-exempt organization not required to obtain a ruling from the Internal Revenue Service on its exempt status, a statement that describes the basis for the applicant's belief that it qualifies under such section; or

(2) It states that it is a cooperative association as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 1141j(a)).

(c) The application shall state the amount of fees and expenses for which an award is sought.

(d) The application may also include any other matters that the applicant wishes the Commission to consider in determining whether and in what amount an award should be made.

(e) The application shall be signed by the applicant or an authorized officer or attorney of the applicant. It shall also contain or be accompanied by a written verification under oath or under penalty of perjury that the information provided in the application is true and correct.

§ 1016.202 Net worth exhibit.

(a) Each applicant except a qualified tax-exempt organization or cooperative association must provide with its application a detailed exhibit showing the net worth of the applicant and any affiliates (as defined in § 1016.105(f) of this part) when the proceeding was initiated. The exhibit may be in any form convenient to the applicant that provides full disclosure of the applicant's and its affiliates' assets and liabilities and is sufficient to determine whether the applicant qualifies under the standards in this part. The adjudicative officer may require an applicant to file additional information to determine its eligibility for an award.

(b) Ordinarily, the net worth exhibit will be included in the public record of the proceeding. However, an applicant that objects to public disclosure of information in any portion of the exhibit and believes there are legal grounds for withholding it from disclosure may submit that portion of the exhibit directly to the adjudicative officer in a sealed envelope labeled "Confidential Financial Information," accompanied by a motion to withhold the information from public disclosure. The motion shall describe the information sought to be withheld and explain, in detail, why it falls within one or more of the specific exemptions from mandatory disclosure under the Freedom of Information Act (5 U.S.C. 552(b)(1)–(9)), why public disclosure of the information would adversely affect the applicant, and why disclosure is not required in the public interest. The material in question shall be served on counsel representing the agency against which the applicant seeks an award, but need not be served on any other party to the proceeding. If the adjudicative officer finds that the information should not be withheld from disclosure, it shall be placed in the public record of the proceeding. Otherwise, any request to inspect or copy the exhibit shall be disposed of in accordance with the Commission's established procedures governing the inspection of records which are set forth in 49 CFR Part 1001.

§ 1016.203 Documentation of fees and expenses.

The application shall be accompanied by full documentation of the fees and expenses, including the cost of any study, analysis, engineering report, test, project or similar matter, for which an award is sought. A separate itemized statement shall be submitted for each professional firm or individual whose services are covered by the application, showing the hours spent in connection with the proceeding by each individual, a description of the specific services performed, the rate at which each fee has been computed, any expenses for which reimbursement is sought, the total amount claimed, and the total amount paid or payable by the applicant or by another person or entity for the services provided. The adjudicative officer may require the applicant to provide vouchers, receipts, or other substantiation for any expenses claimed.

Subpart C—Procedures for Considering Applications

§ 1016.301 When an application may be filed.

(a) An application may be filed whenever the applicant has prevailed in the proceeding or in a significant and discrete substantive portion of the proceeding, but in no case later than 30 days after an administratively final disposition of the proceeding.

(b) If review or reconsideration is sought or taken of a decision as to which an applicant believes it has prevailed, proceedings for the award of fees shall be stayed pending final disposition of the underlying controversy.

(c) For purposes of this rule, see the Commission's rules governing appellate procedures at 49 CFR 1100.98 to determine when a decision becomes administratively final.

§ 1016.302 Filing and service of documents.

Any application for an award or other pleading or document related to an application shall be filed and served on all parties to the proceeding in the same manner as other pleadings in the proceeding, except as provided in § 1016.202(b) for confidential financial information.

§ 1016.303 Answer to application.

(a) Within 30 days after service of an application, counsel representing the agency against which an award is sought may file an answer to the application. Unless agency counsel requests an extension of time for filing or files a statement of intent to negotiate under paragraph (b) of this section, failure to file an answer within the 30-day period may be treated as a consent to the award requested.

(b) If agency counsel and the applicant believe that the issues in the fee application can be settled, they may jointly file a statement of their intent to negotiate a settlement. The filing of this statement shall extend the time for filing an answer for an additional 30 days, and further extensions may be granted by the adjudicative officer upon request by agency counsel and the applicant.

(c) The answer shall explain in detail any objections to the award requested and identify the facts relied on in support of agency counsel's position. If the answer is based on any alleged facts not already in the record of the proceeding, agency counsel shall include with the answer either supporting affidavits or a request for further proceedings under § 1016.307.

§ 1016.304 Reply.

Within 15 days after service of an answer, the applicant may file a reply. If the reply is based on any alleged facts not already in the record of the proceeding, the applicant shall include with the reply either supporting affidavits or a request for further proceedings under § 1016.307.

§ 1016.305 Comments by other parties.

Any party to a proceeding other than the applicant and agency counsel may file comments on an application within 30 days after it is served or on an answer within 15 days after it is served. A commenting party may not participate further in proceedings on the application unless the adjudicative officer determines that the public interest requires such participation in order to permit full exploration of matters raised in the comments.

§ 1016.306 Settlement.

The applicant and agency counsel may agree on a proposed settlement of the award before final action on the application, either in connection with a settlement of the underlying proceeding, or after the underlying proceeding has been concluded. If a prevailing party and agency counsel agree on a proposed settlement of an award before an application has been filed, the application shall be filed with the proposed settlement.

§ 1016.307 Further proceedings.

(a) Ordinarily, the determination of an award will be made on the basis of the written record. However, on request of either the applicant or agency counsel, or on his or her own initiative, the adjudicative officer may order further proceedings, such as an informal conference, oral argument, additional written submissions or an evidentiary hearing. Such further proceedings shall be held only when necessary for full and fair resolution of the issues arising from the application, and shall be conducted as promptly as possible.

(b) A request that the adjudicative officer order further proceedings under this section shall specifically identify the information sought or the disputed issues and shall explain why the additional proceedings are necessary to resolve the issues.

§ 1016.308 Decision.

The adjudicative officer shall issue an initial decision on the application within 50 days after completion of proceedings on the application. The decision shall include written findings and conclusions on the applicant's eligibility and status as a prevailing party, and an explanation of the reasons for any difference between the amount requested and the amount awarded. The decision shall also include, if at issue, findings on whether the Commission's or other agency's position was substantially justified, whether the applicant unduly protracted the proceedings, or whether special circumstances make an award unjust. If the applicant has sought an award against more than one agency, the decision shall allocate responsibility for payment of any award made among the agencies, and shall explain the reasons for the allocation made.

§ 1016.309 Agency review.

Either the applicant or agency counsel may seek review of the initial decision on the fee application, or the Commission may decide to review the decision on its own initiative, in accordance with its appellate procedures which appear at 49 CFR 1100.98. If neither the applicant nor agency counsel seeks review and the Commission does not take review on its own initiative, the initial decision on the application shall become a final decision of the agency 20 days after it is issued. Whether to review a decision is a matter within the discretion of the Commission. If review is taken, the Commission will issue a final decision on the application or remand the application to the adjudicative officer for further proceedings.

§ 1016.310 Judicial review.

Judicial review of final Commission decisions on awards may be sought as provided in 5 U.S.C. 504(c)(2).

§ 1016.311 Payment of award.

An applicant seeking payment of an award shall submit to the appropriate official of the paying agency a copy of the Commission's final decision granting the award, accompanied by a statement that the applicant will not seek review of the decision in the United States courts. Where the award is granted against the Interstate Commerce Commission the applicant shall make its submission to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423. The Commission will pay the amount awarded to the applicant within 60 days of the applicant's submission unless the judicial review of the award or of the underlying decision of the adversary adjudication has been sought by the applicant or any other party to the proceeding.

BILLING CODE 7035-01-M

Proposed Rules

Federal Register
Vol. 46, No. 243
Friday, December 18, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 959

Onions Grown in South Texas; Proposed Handling Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed regulation would require fresh market shipments of onions grown in designated counties in South Texas to be inspected and meet minimum size and quality requirements. The regulation should promote orderly marketing of such onions and keep less desirable qualities and sizes from being shipped to consumers.

DATE: Comments due February 1, 1982.

ADDRESS: Comments should be sent to: Hearing Clerk, room 1077–S, U.S. Department of Agriculture, Washington, D.C. 20250. Two copies of all written comments shall be submitted, and they will be made available for public inspection at the office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: Charles W. Porter, Chief, Vegetable Branch, F&V, AMS, USDA, Washington, D.C. 20250, (202) 447–2615. The Draft Impact Analysis relating to this proposed rule is available upon request from Mr. Porter.

SUPPLEMENTARY INFORMATION: This proposed rule has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291 and has been designated a "nonmajor" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would not measurably affect costs for the directly regulated handlers.

Marketing Agreement No. 143 and Order No. 959, both as amended (7 CFR Part 959) regulate the handling of onions grown in designated counties of South Texas. It is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The South Texas Onion Committee, established under the order, is responsible for its local administration.

This proposed regulation is based upon recommendations made by the committee at its public meeting in McAllen, Texas, on October 27, 1981. The recommendations of the committee reflect its appraisal of the expected volume and composition of the 1982 early spring crop of South Texas onions and of the marketing prospects for the shipping season which is expected to begin about March 10, 1982.

The proposed grade and size requirements are similar to last season's and are designed to prevent onions of poor quality or undesirable sizes from being distributed in fresh market channels.

Thus, only onions that contain not more than 20 percent defects of U.S. No. 1 grade and are not packed or loaded on Sunday except for export could be shipped from March 10 through May 10 of each season. In order to provide more orderly marketing from all districts, the inspection and container requirements would be extended through June 15 of each season.

The container requirements would prevent the use of off-size or deceptive containers which could adversely affect the reputation and returns of South Texas onions. However, they would not preclude the use of containers customarily packed for the retail trade. The prohibition on packaging and loading onions on Sunday is intended principally to provide more orderly marketing by tailoring shipments from the production area more closely to the ability of receiving markets to accept marketings. Again this season handlers would be permitted, with the approval of the committee, to grade, package and load onions on Sunday for export, provided that they shut down packing and loading operations on the first working day after shipment for the same length of time as they operated on Sunday. This should prevent handlers who ship on Sunday for export from gaining a competitive advantage due to longer packing hours over handlers who do not have export orders.

Exceptions would be provided to certain of these requirements to recognize special situations in which such requirements would be inappropriate or unreasonable. Up to 110 pounds of onions could be handled, other than for resale, per day without regard to requirements of this section in order to avoid placing an unreasonable burden on persons handling noncommercial quantities of onions.

The requirements with respect to special purpose shipments would allow the shipment of onions for experimental purposes or the use of containers including bulk bins which have been the subject of test shipments during past seasons, and would encourage exports by allowing the use of containers required for such purposes. Onions for canning and freezing are exempt under the legislative authority for this part. Shipments for relief or charity would be exempt since no useful purpose would be served by regulating such shipments. The shipment of small gift packages to individuals would be permitted by an exemption from the container requirements.

These standardization and marketing efficiency types of regulation would have no measurable effect on the quantity of onions shipped from South Texas, nor will there be discernable effect on U.S. retail onion prices. This regulation should enable the South Texas onion industry to better compete with major onion producing areas in California and Arizona by ensuring the use of grades, sizes and containers acceptable to buyers.

It is proposed that requirements contained in this proposed handling regulation, effective March 10, 1982, would continue in effect from marketing season to marketing season indefinitely unless modified, suspended, or terminated by the Secretary upon recommendation and information submitted by the committee or other information available to the Secretary. Interested persons are invited to comment through February 1, 1982, with regard to the proposed handling regulation. Heretofore, regulations issued under the marketing order were made effective for a single marketing season. However, virtually the same requirements have been imposed each season since 1962. The proposed change to issue regulations which would continue in effect from marketing season to marketing season reflects the fact that regulations would probably continue to change infrequently from season to

season and it is believed unnecessary to issue them for only a single season. In addition, the proposed change could result in a reduction in operational costs to the committee and the government. Although the final regulation would be effective for an indefinite period, the committee would continue to meet prior to or during each season to consider recommendations for modification, suspension, or termination of the regulation. Prior to making any such recommendations, the committee would submit to the Secretary a marketing policy for the season in accordance with § 959.50 of the order, including an analysis of supply and demand factors having a bearing on the marketing of the crop. Committee meetings are open to the public and interested persons may express their views at these meetings. Interested persons would be able to file comments concerning the committee recommendations with the Hearing Clerk before February 1 each year.

The Department will evaluate committee recommendations and information submitted by the committee, comments filed, and other available information, and determine whether modification, suspension, or termination of the regulations on shipments of South Texas onions would tend to effectuate the declared policy of the act. Any such changes in the handling regulation would be published in the **Federal Register**.

Information collection requirements (reporting or recordkeeping) under this part are subject to clearance by the Office of Management and Budget and are in the process of review. These information requirements shall not become effective until such time as clearance by the OMB has been obtained.

PART 959—ONIONS GROWN IN SOUTH TEXAS

§ 959.321 [Removed]

It is proposed that § 959.321 (46 FR 16238, March 12, 1981, and 17755, March 20, 1981) be removed and a new § 959.322 be added as follows:

§ 959.322 Handling regulation.

During the period beginning March 10 and ending on June 15 each season no handler may package or load onions on Sunday or handle any onions except red varieties, unless they comply with paragraphs (a) through (d) or (e) or (f) of this section. However, the requirements of paragraphs (a) and (b) and the Sunday prohibition shall terminate at 11:59 p.m. on May 10 of each season.

(a) *Grade requirements.* Not to exceed 20 percent defects of U.S. No. 1 grade. In percentage grade lots, tolerances for serious damage shall not exceed 10 percent including not more than 2 percent decay. Double the lot tolerance shall be permitted in individual packages in percentage grade lots. Application of tolerances in U.S. onion standards shall apply to in-grade lots.

(b) *Size requirements.* (1) "Small"—1 to 2¼ inches in diameter, and limited to whites only;

(2) "Repacker" 1 3/4 to 3 inches in diameter, with 60 percent or more 2 inches in diameter or larger;

(3) "Medium"—2 to 3 1/2 inches in diameter; or

(4) "Jumbo"—3 inches or larger in diameter.

(5) Tolerances for size in the U.S. onion standards shall apply except that for "repacker" and "medium" sizes not more than 20 percent, by weight, of onions in any lot may be larger than the maximum diameter specified. Application of tolerances in the U.S. onion standards shall apply.

(c) *Container requirements.* Except as provided in paragraph (f), only the following containers may be used:

(1) 25-pound bags, with an average net weight in any lot of not more than 27 1/2 pounds per bag, and with inside dimensions not larger than 29 inches by 31 inches; or

(2) 50-pound bags, with an average net weight in any lot of not more than 55 pounds per bag, and with inside dimensions not larger than 33 inches by 39 1/2 inches.

(3) These container requirements shall not be applicable to onions sold to Federal agencies or for export.

(d) *Inspection.* (1) No handler may handle any onions regulated hereunder, except pursuant to paragraphs (e), (f)(1), or (f)(4)(ii) of this section, unless an inspection certificate has been issued by the Texas-Federal Inspection Service covering them and the certificate is valid at the time of shipment.

(2) No handler may transport by motor vehicle or cause such transportation of any shipment of onions for which an inspection certificate is required unless each such shipment is accompanied by a copy of the inspection certificate applicable thereto or by documentary evidence on forms furnished by the committee identifying truck lots to which a valid inspection certificate is applicable and a copy of such inspection certificate or committee document is surrendered upon request to authorities designated by the committee.

(3) For purposes of operation under this part each inspection certificate or committee form required as evidence of inspection is hereby determined to be valid for a period not to exceed 72 hours following completion of inspection as shown on the certificate.

(4) Handlers shall pay assessments on all assessable onions according to the provisions of § 959.42

(e) *Minimum quantity exemption.* Any handler may handle, other than for resale, up to, but not to exceed 110 pounds of onions per day without regard to the requirements of this section, but this exemption shall not apply to any shipment or any portion thereof of over 110 pounds of onions.

(f) *Special purpose shipments.* (1) The minimum grade, size, quality, container, and inspection requirements set forth in paragraphs (a) through (d) shall not be applicable to shipments of onions for charity, relief, canning and freeezing if handled in accordance with paragraph (g) of this section.

(2) Onions may be packed in 50-pound cartons or in 2, 3 or 5 pound containers customarily used for the retail trade. Such shipments shall be exempt from paragraph (c) of this section but must meet the provisions of paragraphs (a), (b) and (d) or paragraph (e) and be handled in accordance with paragraph (g) of this section.

(i) Shipments of such containers shall not exceed 10 percent of a handler's total weekly onion shipments.

(ii) The average gross weight per lot of onions packed in master containers shall not exceed 115 percent of the designated net contents.

(iii) The average net weight per lot of 50-pound cartons shall not exceed 55 pounds.

(3) *Gift packages.* The handling to any person of gift packages of onions, not exceeding 25 pounds per package, individually addressed to such person and not for resale, are exempt from the container requirements of paragraph (c) of this section, but shall conform to all assessment requirements of § 959.42 and the grade, size and inspection requirements of paragraphs (a), (b), and (d) of this section.

(4) *Experimental shipments.* (i) Upon approval of the committee, onions may be shipped in bulk bins with inside dimensions of 47 inches x 37½ inches x 36 inches deep and having a volume of 63,450 cubic inches, or containers deemed similar by the committee. Each container shall have a new perforated polyethylene liner at least 2 mils in thickness. Also, onions may be shipped in 40-pound cartons, upon approval of the committee. Such experimental shipments shall be exempt from paragraph (c) of this section but shall not exceed ten percent of a handler's total weekly onion shipments and shall be handled in accordance with

safeguard provisions of § 959.54 and paragraph (g) of this section. The receiver shall furnish the committee with a report on the arrival condition of each shipment.

(ii) Upon approval of the committee, onions may be shipped for other experimental purposes exempt from regulations issued pursuant to §§ 959.42, 959.52 and 959.60, provided they are handled in accordance with safeguard provisions of § 959.54 and paragraph (g) of this section.

(iii) Upon approval of the committee, onions may be shipped for testing in types and sizes of containers other than those specified in paragraph (c), (f)(2) and (3) above, provided that the handling of onions in such experimental containers shall be under the supervision of the committee.

(5) *Export shipments.* (i) Upon approval of the committee, the prohibition against packaging or loading onions on any Sunday may be modified or suspended to permit the handling of onions for export provided such handling complies with the procedures and safeguards specified by the committee.

(ii) Following approval, if the handler grades, packages and ships onions for export on any Sunday, such handler shall on the first weekday following shipment, cease all grading, packaging and shipping operations for the same length of time as the handler operated on Sunday. Upon completion of such shipments, the handler shall report thereon as prescribed by the committee.

(iii) Export shipments shall also be exempt from all container requirements of this section.

(6) *Onions failing to meet requirements:* Onions failing to meet the grade, size and container requirements of this section, and not exempt under paragraph (e) or (f) of this section, may be handled only pursuant to § 959.126. Such onions not handled in accordance with paragraph (g) of this section shall be mechanically mutilated at the packing shed rendering them unsuitable for fresh market.

(g) *Safeguards.* Each handler making shipments of onions for relief, charity, canning, freezing or experimental purposes or onions packed in 50-pound cartons or 2, 3 or 5 pound containers customarily packed for the retail trade shall:

(1) Apply to the committee for and obtain a Certificate of Privilege to make such shipments;

(2) Furnish reports of each shipment made under the applicable Certificate of Privilege;

(3) Such reports, in accordance with § 959.80, shall be furnished to the committee in such manner, on such forms and at such times as it may prescribe. Each handler shall maintain records of such shipments pursuant to § 959.80(c), and the records shall be subject to review and audit by the committee to verify reports thereon.

In addition to the above, each handler making shipments for canning or freezing shall:

(4) Weigh or cause to be weighed each shipment prior to, or upon arrival at the canner or freezer.

(5) Attach a copy of the weight ticket to a completed copy of the Report of Special Purpose Onion Shipment and return both promptly to the committee office.

(6) Make each shipment directly to the applicable processor and attach a copy of the Report of Special Purpose Onion Shipment.

(7) Each canner or freezer who receives cull onions shall weigh the onions upon receipt, complete the Report of Special Purpose Onion Shipment which accompanies each load and mail it immediately to the committee office.

(8) Each canner or freezer who receives cull onions shall make available at its business office at any reasonable time during business hours, copies of all applicable purchase orders, sales contracts, or disposition documents for examination by the Department or by the committee, together with any other information which the committee or the Department may deem necessary to enable it to determine the disposition of the onions.

(h) *Definitions.* "U.S. onion standards" means the United States Standards for Grades of Bermuda-Granex-Grano Type Onions (7 CFR 2851.3195–2851.3209), or the United States Standards for Grades of Onions (Other Than Bermuda-Granex-Grano and Creole Types) (7 CFR 2851.2830–2851.2854), whichever is applicable to the particular variety, or variations thereof specified in this section. The term "U.S. No. 1" shall have the same meaning as set forth in these standards. All other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 143, as amended, and this part.

(i) *Applicability to imports.* During the approximately mid-March through May period of each year, imported onions shall comply with the minimum grade, size, quality and maturity requirements imposed under this marketing order. The specific beginning and ending dates will be set forth in the summary of onion import regulation to be issued prior to the beginning of each seaon, after the Secretary determines when the imported onions are in most direct competition with regulated onions grown in South Texas. Therefore, under Section 8e of the act and Section 980.117 "Import regulations: onions" (7 CFR 980.117) such imported onions shall have not more than 20 percent defects of U.S. No. 1 grade and be at least 1 inch in diameter for white varieties and at least 1¾ inches in diameter for all other varieties. In percentage grade lots, tolerance for serious damage shall not exceed 10 percent including not more than 2 percent decay. Double the lot tolerance shall be permitted in individual packages in percentage grade lots. Applicants of tolerances in the U.S. onion standards shall apply to in-grade lots.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 15, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 81-36209 Filed 12-17-81; 8:45 am]

BILLING CODE 3410-02-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 50

[Docket No. 78N-0049]

Protection of Human Subjects; Prisoners Used as Research Subjects; Reproposal of Regulations

AGENCY: Food and Drug Administration.

ACTION: Reproposal of rule.

SUMMARY: The Food and Drug Administration (FDA) is reproposing its regulations establishing conditions under which biomedical research on prisoners would be accepted in satisfaction of FDA's regulatory requirements. In the **Federal Register** of July 7, 1981 (46 FR 35085), FDA stayed indefinitely the effective date of the original regulations, pending final action on this reproposal. Under the reproposal, FDA would accept, in addition to the categories of research listed in the original regulation, the results of biomedical research on prisoners if the sponsor of the proposed research establishes that the conditions set forth by the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research had been met.

DATES: Written comments by February 16, 1982. FDA intends that any final rule it may publish on this matter would

become effective 90 days after the date of its publication in the **Federal Register**.

ADDRESS: Written comments may be submitted to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Halyna P. Breslawec, Office of Health Affairs (HFY–2), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–1382.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of May 30, 1980 (45 FR 36386), FDA issued final regulations to provide protection for prisoners used as the subjects of biomedical research within the agency's jurisdiction. The regulations were promulgated to implement the recommendations of the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research (National Commission). The National Commission was created by Congress under the National Research Act of 1974 (Pub. L. 93–348) to investigate research on human subjects and to make recommendations to the Department of Health and Human Services (Department) on, among other things, the requirements for obtaining voluntary and informed consent, free from coercion. Section 205 of the National Research Act required the Secretary of the Department to respond to the National Commission's recommendations.

In a report on research on prisoners issued in 1977 (see the **Federal Register** of January 14, 1977; 42 FR 3076), the National Commission concluded that the prison environment is inherently coercive, diminishing the capacity of prisoners to give informed consent to participation in biomedical and behavioral research. Based on its investigation of the nature of research on prisoners, the conditions under which it is presently conducted, and the social, ethical, and legal questions raised by prison research, the National Commission recommended limitations on the types of research conducted on prisoners and recommended that the following conditions exist in prisons at which research is conducted to enable prisoners to give voluntary and informed consent:

1. *Standard of living.* Living conditions in the prison in which research will be conducted or from which subjects will be recruited are adequate as evidenced by all of the following standards:

(a) The prison population does not exceed designed capacity, and each prisoner has an adequate amount of living space;

(b) There are single occupancy cells available for those who desire them;

(c) There is segregation of offenders by age, degree of violence, prior criminal record, and physical and mental health requirements;

(d) There are operable cell doors, emergency exits and fire extinguishers, and compliance with state and local fire and safety codes is certified;

(e) There are operable toilets and wash basins in cells;

(f) There is regular access to clean and working showers;

(g) Articles of personal care and clean linen are regularly issued;

(h) There are adequate recreation facilities, and each prisoner is allowed an adequate amount of recreation;

(i) There are good quality medical facilities in the prison, adequately staffed and equipped, and approved by an outside medical accrediting organization such as the Joint Commission on Accreditation of Hospitals or a state medical society;

(j) There are adequate mental health services and professional staff;

(k) There is adequate opportunity for prisoners who so desire to work for remuneration comparable to that received for participation in research;

(l) There is adequate opportunity for prisoners who so desire to receive education and vocational training;

(m) Prisoners are afforded opportunity to communicate privately with their visitors, and are permitted frequent visits;

(n) There is a sufficiently large and well-trained staff to provide assurance of prisoners' safety;

(o) The racial composition of the staff is reasonably concordant with that of the prisoners;

(p) To the extent that it is consistent with the security needs of the prison, there should be an opportunity for inmates to lock their own cells; and

(q) Conditions in the prison satisfy basic institutional environmental health, food service and nutritional standards.

2. *Provisions for effective redress of grievance.* A grievance committee exists composed of elected prisoner representatives, prisoner advocates, and representatives of the community. The committee should enable prisoners to obtain effective redress of their grievances (including grievances concerning the existence of conditions established in (a)(2)). The committee should also facilitate inspections and monitoring by the accrediting agency to assure continuing compliance with requirement (a)(2)(C).

3. *Separation of research participation from parole considerations.* Effective procedures exist to assure that parole boards cannot take into account prisoners' participation in research and that prisoners are clearly informed that there is absolutely no relationship between research participation and determinations by their parole boards.

4. *Public scrutiny.* Prisoners are able to communicate, without censorship, with persons outside the prison, and, on a privileged, confidential basis, with attorneys, legal organizations that assist prisoners, the accrediting agency, the grievance committee referred to in this section, and the institutional review board. Each of these persons or organizations must be able to conduct private interviews with any prisoner who so desires. The accrediting agency, Administration, grievance committee, and institutional review board must be allowed free access to the prison. 42 FR 3080.

In accordance with its findings, the National Commission recommended that the Department support or accept research on prisoners if: (1) The research is intended and is reasonably likely to improve the health and well-being of prisoners individually or as a class (42 FR 3079, 3080), or (2) the research fulfills an important scientific need, and there is a compelling need to use prisoners and a determination by the agency head that the conditions for informed consent identified by the National Commission exist at the prison in question (42 FR 3080).

In the **Federal Register** of January 5, 1978 (43 FR 1050), the Department proposed regulations adopting the National Commission's findings and implementing its recommendations. The Department concluded, however, that the requirements for informed consent established by the National Commission for any research other than that benefitting prisoners individually or as a class (nonbeneficial research) were so stringent that it was doubtful that any existing prison and few research projects could meet them. Moreover, the Department found that it did not have the administrative capability to determine whether a prison or research project met the National Commission's criteria for informed consent (43 FR 1050, 1051). The proposed regulations therefore permitted only research that had the intent and reasonable probability of benefitting prisoners individually or as a class. The Department's final regulations were published in the **Federal Register** of November 16, 1978 (43 FR 53652).

The National Research Act did not impose an express obligation on the Department to respond to the National Commission's recommendations with respect to research regulated by or submitted in satisfaction of FDA's regulatory requirements. The Department concluded, however, that because the legislative history of the National Research Act reveals that Congress was also concerned with FDA-regulated research, FDA should consider whether to apply the National Commission's recommendations to research within FDA's jurisdiction (43 FR 1051).

FDA concluded that it had authority under the Federal Food, Drug, and Cosmetic Act (the act) to promulgate regulations protecting the interests of prisoners used as research subjects in clinical investigations submitted to FDA. Therefore, in the **Federal Register** of May 5, 1978 (43 FR 19417), FDA issued its proposal and in the **Federal Register** of May 30, 1980 issued final rules modeled after those of the Department, establishing criteria for acceptance of the results of research on prisoners.

FDA's regulations, codified in Subpart C of 21 CFR Part 50, permitted research on prisoners only when the research had the intent or reasonable probability of benefitting prisoners individually or as a class. FDA's regulations, like those of the Department, did not provide an exception for other types of research that might meet the National Commission's requirements for research not directly beneficial to prisoners. FDA concluded that in view of the National Commission's finding that prisons are inherently coercive and of the lack of evidence that other groups of potential research subjects could not be found, the need to protect prisoners outweighed any need to use prisoners that had yet been presented to FDA (45 FR 36388, 36389). Thus, it appeared to the agency that sponsors of research could never establish a compelling need to use prisoners. FDA therefore did not provide sponsors of research an opportunity to prove the existence of the conditions under which the National Commission concluded that prisoners could give informed consent to participation in nonbeneficial research.

FDA's regulations also included provisions establishing the composition and duties of institutional review boards where prisoners are involved (§§ 50.46 and 50.48). With the provisions for prison research, FDA also promulgated provisions that set out the scope and definitions used in Part 50, FDA's general regulations on protection of human subjects (§§ 50.1 and 50.3).

FDA's regulations were scheduled to become effective June 1, 1981. Shortly after the final regulations were published, however, a lawsuit was filed challenging the regulations. In the **Federal Register** of March 27, 1981 (46 FR 18951), the effective date of the regulations was deferred until 5 months after resolution of the lawsuit. FDA delayed the effective date in part for the purpose of reviewing the regulations under Executive Order 12291.

In the **Federal Register** of July 7, 1981 (46 FR 35085), FDA announced that it had reconsidered the regulations' utility and costs, and that it intended to repropose Subpart C of Part 50 and invite public comment on the reproposal. The notice stayed the effective date of the regulations until final action is taken on the reproposal. At the time the stay was imposed, the regulations had never been put into effect. (The stay did not affect, however, § 50.1 *Scope* and § 50.3 *Definitions*.) In a separate notice published in the **Federal Register** of July 7, 1981 (46 FR 35084), the agency announced that these sections would go into effect on July 27, 1981, with FDA's general informed consent and institutional review board regulations (46 FR 35084; July 7, 1981).

Reproposal

FDA's regulations, as published on May 30, 1980, were premised on a conclusive presumption that sponsors could not establish that research projects not directly beneficial to prisoners satisfied the conditions recommended by the National Commission for such research. FDA has reconsidered its decision to establish broader prohibitions on prisoner research than were recommended by the National Commission. FDA has not altered its belief that it has both the authority and the obligation to ensure the voluntary consent of prisoners used as the subjects of research within FDA's jurisdiction. It is, however, within the expertise of the National Commission to identify the safeguards needed to protect voluntary and informed consent among prisoners. Given that expertise, FDA should, whenever it is practicable, adopt the National Commission's recommendations.

Practicability

FDA possesses the inspectional resources necessary to permit a determination whether conditions at a particular prison meet the National Commission's requirements. FDA has an existing staff of trained investigators responsible for conducting inspections to ensure compliance with the act. Furthermore, the number of prison research projects within FDA's jurisdiction is very small, and the variety of research is limited. The expenditure of resources necessary for FDA to implement an exception procedure for research that does not directly benefit prisoners would thus be minimal.

Accordingly, FDA is reproposing Subpart C of 21 CFR Part 50. The reproposal amends § 50.44 (21 CFR 50.44) to include an exception procedure for research that does not directly benefit prisoners. The exception closely follows the recommendations of the National Commission. Sponsors of proposed research will be required to establish (1) that the research serves an important social or scientific need and the reasons for using prisoners are compelling, (2) that the involvement of prisoners in this type of research satisfies conditions of equity, and (3) that prison conditions permit voluntary and informed consent. Sponsors of proposed research will have the burden of establishing that the research meets each of these conditions. FDA investigators may, however, be sent to the sites of proposed research to assist the IRB in determining whether the National Commission's requirements have been met.

The IRB will make the determination whether the regulations' requirements have been met, after consulting with the Research Involving Human Subjects Committee, an ethical review committee established by the agency (see FDA Staff Manual Guide, 2111.3), whose members include agency officials and members of the public.

Minor revisions have been made in §§ 50.44(a) (1) and (2) and 50.48. The reproposal eliminates the requirements that the agency consult with appropriate experts and publish a **Federal Register** notice announcing its intention to approve research under § 50.44(a) (1) and (2) because FDA believes these requirements were unnecessary and excessively burdensome. The reproposal also eliminates the requirements in § 50.48(a)(7) that research sponsors provide followup examinations of participants. The National Commission did not recommend followup examinations for prisoners, nor does FDA require followup examinations for nonprisoner research subjects. FDA believes that it is not appropriate in this instance to impose additional requirements on research involving prisoners.

Legal Authority

FDA's legal authority to adopt regulations protecting prisoners used as

the subjects of research submitted to FDA was discussed at length in the preamble to the May 5, 1978 proposal and in the preamble to the May 30, 1980 final rule. FDA receives hundreds of reports of clinical investigations each year by those seeking approval by the agency of research and marketing application. FDA must evaluate these reports to determine, among other things, their scientific validity and ethical acceptability. To use its limited resources efficiently, and to guide persons involved with biomedical research within the jurisdiction of the agency, FDA needs standards to screen out clinical investigations that are not acceptable and thus should not be authorized, or warrant no further evaluation in support of a product application. The promulgation of regulations establishing ethical standards for research on prisoners serves this goal.

Specific authority to establish ethical standards for clinical investigations, including requirements governing informed consent, derives from several sections of the act. Sections 505(i), 507(d), and 520(g) of the act (21 U.S.C. 355(i), 357(d), 360j(g)) require that the agency issue regulations that establish the conditions under which drugs and medical devices will be available for investigational use. Those sections of the act direct the agency to issue regulations to protect the public health in clinical investigations and to provide that informed consent will be obtained from the human subjects of the investigations. The act also requires that these regulations, in the case of drugs, have due regard for the interests of patients (21 U.S.C. 355(j)(1) and 21 U.S.C. 357(g)(1)), or, in the case of medical devices, be consistent with ethical standards (21 U.S.C. 360j(g)(1).

Finally, section 701(a) of the act (21 U.S.C. 371(a)) empowers the agency to issue regulations for the efficient enforcement of the act. The Supreme Court has upheld FDA's authority under section 701(a) of the act to promulgate analogous standards for determining whether clinical investigations of drugs intended for human use, submitted to FDA, were scientifically reliable. See *Weinberger* v. *Hynson, Westcott & Dunning, Inc.*, 412 U.S. 609 (1973). To assess the validity of regulations issued under section 701(a) of the act, the issue is whether the statutory scheme as a whole justifies promulgation of the regulation. *National Confectioners Ass'n* v. *Califano*, 569 F. 2d 690, 693 (D.C. Cir. 1978). As explained in the preamble to the May 30, 1980 final rule, FDA believes that ensuring informed consent as well as due regard for the interests of prisoners as research subjects and for consistency with ethical standards requires that special protections be adopted for prisoners involved in clinical investigations. Therefore, the agency believes these regulations are essential to enforcement of the agency's responsibilities under sections 505(i), 505(j), 507(d), 507(g), and 520(g) of the act.

Request for Comments

The agency invites comments on this proposal and specifically requests information and views on the following issues: (1) The reproposed regulations do not set forth the National Commission's detailed criteria for assuring that prisons' conditions are such that informed consent is possible. Should the agency incorporate any or all of these criteria in the regulations? Which of the criteria, if any, would be excessively burdensome for sponsors to establish or beyond FDA's capacity to evaluate? (2) The reproposal imposes on research sponsors the burden of establishing that the requirements for informed consent are met and provides an opportunity to respond if a proposed research project is disapproved. The agency recognizes that due process requires the agency to provide procedural protections appropriate under the circumstances. *See Mathews* v. *Eldridge*, 424 U.S. 319 (1976). What procedures would be appropriate in light of the interests at stake and the issues to be resolved in establishing whether proposed research satisfies ethical requirements?

The agency has prepared a threshold assessment of this proposed regulation and has determined that the economic effects of this regulation do not warrant a regulatory flexibility analysis or regulatory impact analysis. If promulgated, the regulation would not have a significant economic impact on a substantial number of small entities as determined by the Regulatory Flexibility Act. The agency has also determined that the rule does not involve major economic consequences as defined by Executive Order 12291. The threshold assessment has been placed on file in the Dockets Management Branch for public review.

The agency has determined pursuant to 21 CFR 25.24(b)(12) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

Therefore, under the Federal Food, Drug and Cosmetic Act (secs. 406, 409, 502, 503, 505, 506, 507, 510, 513–516, 518–520, 701(a), 706, 801, 52 Stat. 1049–1054 as amended, 1055, 1058 as amended, 55 Stat. 851 as amended, 59 Stat. 463 as amended, 72 Stat. 1785–1788 as amended, 74 Stat. 399–407 as amended, 76 Stat. 794–795 as amended, 90 Stat. 540–560, 562–574 (21 U.S.C. 346, 348, 352, 353, 355, 356, 357, 360, 360c–360f, 360h–360j, 371(a), 376, 381)), and the Public Health Service Act (secs. 215, 351, 354–360F, 58 Stat. 690, 702 as amended, 82 Stat. 1173–1186 as amended (42 U.S.C. 216, 262, 263b–263n)) and under 21 CFR 5.11 (see 46 FR 26052; May 11, 1981), it is proposed that Chapter I of Title 21 of the Code of Federal Regulations be amended in Part 50 by revising Subpart C to read as follows:

PART 50—PROTECTION OF HUMAN SUBJECTS

. . . . . .

Subpart C—Protections Pertaining to Clinical Investigations Involving Prisoners as Subjects

Sec.

50.40 Applicability.
50.42 Purpose.
50.44 Restrictions on clinical investigations involving prisoners.
50.46 Composition of institutional review boards where prisoners are involved.
50.48 Additional duties of the institutional review boards where prisoners are involved.

Subpart C—Protections Pertaining to Clinical Investigations Involving Prisoners as Subjects

§ 50.40 Applicability.

(a) The regulations in this subpart apply to any clinical investigation involving prisoners as subjects that is regulated by the Food and Drug Administration under section 505(i), 507(d), or 520(g) of the act, as well as any clinical investigation involving prisoners that supports any application for a research or marketing permit as defined by § 50.3(b).

(b) Nothing in this subpart shall be construed as indicating that compliance with the procedures set forth herein will authorize research involving prisoners as subjects to the extent such research is limited or barred by applicable State or local law.

§ 50.42 Purpose.

Because prisoners may be under constraints because of their incarceration which could affect their ability to make a truly voluntary and uncoerced decision whether or not to

participate as subjects in research, it is the purpose of this subpart to provide additional safeguards for the protection of prisoners involved in research to which this part is applicable.

§ 50.44 Restrictions on clinical investigations involving prisoners.

(a) Any clinical investigation that is regulated by the Food and Drug Administration under section 505(i), 507(d), or 520(g) of the act, as well as any clinical investigation that supports an application for research or marketing permit as defined by § 50.3(b), may involve prisoners as subjects only if the institution responsible for the conduct of the clinical investigation has certified to the Food and Drug Administration that the institutional review board has approved the clinical investigation under § 50.48; and

(1) The proposed clinical investigation involves solely research on practices that have the intent and reasonable probability of improving the health and well-being of the particular prisoners chosen. Subject to the approval of the institutional review board, prisoners may be assigned to control groups; or

(2) The institutional review board determines, after consultation with the Research Involving Human Subjects Committee, that the proposed clinical investigation involves research on conditions particularly affecting prisoners as a class (for example, vaccine trials and other research on hepatitis, which is much more prevalent in prisons than elsewhere). Subject to the approval of the institutional review board, prisoners may be assigned to control groups; or

(3) If the proposed clinical investigation involves research other than that described in paragraph (a) (1) or (2) of this section, the institutional review board determines, after consultation with the Research Involving Human Subjects Committee, that the following requirements are satisfied:

(i) The type of research fulfills an important social or scientific need, and the reasons for involving prisoners are compelling;

(ii) The involvement of prisoners in the type of research satisfies conditions of equity; and

(iii) A high degree of voluntariness on the part of the prospective participants and of accessibility on the part of the penal institution(s) to be involved characterizes the conduct of the research.

(b) A sponsor that seeks approval of any clinical investigation that is regulated by the Food and Drug Administration under section 505(i), 507(d), or 520(g) of the act as well as any clinical investigation that supports a research or marketing permit as defined by § 50.3(b) shall present evidence to the institutional review board establishing that the proposed research meets the requirements of paragraph (a) (1), (2), or (3) of this section.

(c) Authorized representatives of the Food and Drug Administration may inspect at reasonable times and in a reasonable manner, any prison at which a research activity has been proposed or is being conducted, to assist the institutional review board in determining whether the requirements of this section are met.

(d) The institutional review board shall determine whether the requirements of this section have been met, and shall notify the sponsor of the decision to approve or disapprove the proposed research activity. If the institutional review board disapproves a proposed research activity, it shall include in its written notification to the research sponsor and the agency a statement of the reasons for the disapproval. The sponsor shall be given an opportunity to respond.

(e) Except as provided in paragraph (a) (1), (2), or (3) of this section, any clinical investigation regulated by the Food and Drug Administration under section 505(i), 507(d), or 520(g) of the act, as well as any clinical investigation that supports an application for a research or marketing permit as defined by § 50.3(b), may not involve prisoners as subjects.

§ 50.46 Composition of institutional review boards where prisoners are involved.

In addition to satisfying any other requirements governing institutional review boards set forth in this chapter, an institutional review board, in carrying out responsibilities under this part with respect to research covered by this subpart, shall also meet the following specific requirements:

(a) A majority of the institutional review board (exclusive of prisoner members) may not be associated with the prison(s) involved, apart from their membership on the institutional review board.

(b) At least one member of the institutional review board shall be a prisoner, or a prisoner advocate with appropriate background and experience to serve in that capacity, except that if a particular research project is reviewed by more than one institutional review board only one institutional review board need satisfy this requirement.

§ 50.48 Additional duties of the institutional review boards where prisoners are involved.

(a) In addition to all other responsibilities prescribed for institutional review boards under this chapter, the institutional review board shall review each clinical investigation covered by this subpart and approve such clinical investigation only if it finds that:

(1) The research under review represents one of the categories of research permitted under § 50.44(a) (1), (2), or (3);

(2) Any possible advantages accruing to the prisoner through his or her participation in the clinical investigation, when compared to the general living conditions, medical care, quality of food, amenities, and opportunity for earnings in prison, are not of such a magnitude that his or her ability to weigh the risks of the clinical investigation against the value of such advantages in the limited-choice environment of the prison is impaired;

(3) The risks involved in the clinical investigation are commensurate with risks that would be accepted by nonprisoner volunteers;

(4) Procedures for the selection of subjects within the prison are fair to all prisoners and immune from arbitrary intervention by prison authorities or prisoners; unless the principal investigator provides to the institutional review board justification in writing for following some other procedures, control subjects shall be selected randomly from the group of available prisoners who meet the characteristics needed for that research project;

(5) Any information given to subjects is presented in language which is appropriate for the subject population;

(6) Adequate assurance exists that parole boards will not take into account a prisoner's participation in the clinical investigation in making decisions regarding parole, and each prisoner is clearly informed in advance that participation in the clinical investigation will have no effect on his or her parole; and

(b) The institutional review board shall carry out such other duties as may be assigned by the Food and Drug Administration.

(c) The institution shall certify to the Food and Drug Administration, in such form and manner as the Food and Drug Administration may require, that the duties of the institutional review board under this subpart have been fulfilled.

Interested persons, may, on or before February 16, 1982, submit to the Dockets Management Branch (HFA–305), Food

and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, written comments regarding this proposal. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 17, 1981.

Arthur Hull Hayes, Jr.,

Commissioner of Food and Drug.

Dated: November 25, 1981.

Richard S. Schweiker,

Secretary of Health and Human Services.

BILLING CODE 4160–01–M

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

29 CFR Part 1910

[Docket No. H–111]

Occupational Exposure to Ethylene Dibromide

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The Occupational Safety and Health Administration is considering revising the present occupational health standard regulating employee exposure to ethylene dibromide (EDB), 29 CFR 1910.1000. Table Z–2. Recent scientific studies have reported that EDB caused cancer when administered either orally, by inhalation, or by skin application in 3 strains of rats and 3 strains of mice. In addition, other studies have shown EDB to be a mutagen, teratogen, and testicular toxin in experimental animals. The results of these studies indicate that the present permissible exposure level for EDB of 20 parts per million (ppm) as an 8-hour time weighted average (TWA) exposure does not provide exposed workers adequate protection against cancer and other adverse health effects. This notice summarizes the potential health effects associated with exposure to EDB and invites interested parties to submit comments, suggestions, and information on several important issues.

DATES: Comments in response to this advance notice of proposed rulemaking should be submitted on or before March 1, 1982.

ADDRESS: Comments, in quadruplicate, should be mailed to Docket Officer, Occupational Safety and Health Administration, Docket No. H–111, Room S–6212, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C., 20210, telephone 202–523–7894. All material submitted will be available for inspection and copying at this address.

FOR FURTHER INFORMATION CONTACT: Mr. James F. Foster, Office of Information and Consumer Affairs, Room N–3637, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210, telephone (202) 523–8151.

SUPPLEMENTARY INFORMATION:

1. Background

a. Chemical Identification

Ethylene dibromide (Chem. Abstr. Services Reg. No.: 106–93–4) is a colorless, non-flammable liquid at room temperature with a distinctive, mildly sweet odor detectable in air at levels ranging from 10 to 25 parts per million (*1*) Synonyms for ethylene dibromide include EDB, 1,2-dibromoethane, ethylene bromide, sym-dibromoethane and glycol bromide. It has a chemical formula of $C_2H_4Br_2$, with a molecular weight of 187.9.

b. Production, Use, and Exposure

Ethylene dibromide is produced commercially by reacting ethylene with liquid bromine. The Environmental Protection Agency estimated that about 340 to 360 million pounds of EDB are produced annually in the United States. (*1*) According to EPA's estimates, the major use of EDB (about 230 million pounds per year) is as an anti-knock compound in gasoline. A second major use of EDB (about 13 to 15 million pounds per year) is as an ingredient in pesticides. In addition, EDB is used as an intermediate in the synthesis of dyes and pharmaceuticals, and as a solvent for resins, gums, and waxes.

It is estimated that 12,500 employees may be exposed to EDB in its manufacture or use in gasoline blending and pesticide formulation. In addition, several hundred thousand workers are potentially exposed to EDB while working with leaded gasoline, but information submitted to OSHA suggests that exposures resulting from the use of EDB in leaded gasoline are relatively low. (*2*)

The limited EDB sampling data available indicates that the potential for the highest worker exposure levels for EDB result from its use as a post-harvest fumigant for grain and citrus. Secondary exposure may occur among an estimated 1,000 packers, warehouse and dock workers, and an undetermined number of truckers who handle fruit fumigated with EDB. An additional 10,000 employees in approximately 400 flour mills may have potential for exposure from spot fumigation of milling machinery. The State of California estimated that more than 12,000 workers state-wide are exposed to EDB as a result of post-harvest fumigation to control the recent infestation by the Mediterranean fruit fly. (*3*)

c. Present Standard

The permissible exposure level for occupational exposure to ethylene dibromide is found in Table Z–2 of 29 CFR 1910.1000. The standard provides that an employee's airborne exposure to ethylene dibromide, in any 8-hour workshift of a 40-hour workweek, shall not exceed an 8-hour time weighted average (TWA) limit of 20 parts per million (ppm). Further, an employee's exposure to ethylene dibromide shall not exceed a ceiling concentration of 30 ppm at any time during an 8-hour shift, except for a very brief time period (maximum duration of 5 minutes), when the "acceptable maximum peak" concentration shall not exceed 50 ppm. The standard provides that administrative or engineering controls must be implemented to reduce exposures to within the PEL whenever feasible. When such controls are not feasible to achieve full compliance, protective equipment or any other protective measure shall be used to keep the exposure of employees to EDB within the limits prescribed.

The current standard for EDB was adopted in 1971 as a national consensus standard, under Section 6(a) of the Occupational Safety and Health Act of 1970 (84 Stat. 1593; 29 U.S.C. 655). The source of the standard was the American National Standards Institute (ANSI) 1970 recommendation for acceptable concentrations of ethylene dibromide (ANSI Z37.31–1970). The ANSI exposure limits were intended to protect workers from injury to the lungs, liver, and the kidneys which had been observed from excessive, acute, or chronic exposures to EDB in humans and experimental animals. The potential for EDB to cause cancer or reproductive damage was not a basis for the establishment of the current exposure limits for EDB.

d. Actions by Other Groups

On December 14, 1977, EPA issued a notice of Rebuttable Presumption Against Registration and Continued

Registration (RPAR) of pesticide products containing EDB (42 FR 63134), under the Federal Insecticide, Fungicide and Rodenticide Act, as amended (7 U.S.C. 136 *et seq.*). EPA subsequently proposed immediate cancellation of the EDB registration for stored grain and cancellation of the EDB registration for post-harvest fumigation of citrus, tropical fruits and vegetables as of July 1, 1983 (see 45 FR 81516, 12/10/80). EPA has taken no final action on these proposed cancellations.

In 1977, the National Institute for Occupational Safety and Health (NIOSH) recommended that the acceptable ceiling limit for ethylene dibromide be reduced to 0.13 ppm (or 130 parts per billion (ppb)). (*4*) NIOSH's recommendations for a revised EDB standard included provisions for environmental monitoring, medical surveillance, labeling, personal protective equipment and clothing, employee training, work practices, sanitation practices, and monitoring and recordkeeping requirements. The NIOSH recommendations were based on several scientific reports which indicated that chronic exposure to EDB could lead to cancer, malformations and heritable changes in offspring, sterility, damage to genetic material, and a number of other systemic effects.

After receiving NIOSH's recommendations for a revised standard for EDB, OSHA published a request for comments and information in the **Federal Register** on March 17, 1978 (43 FR 11227). The request asked for comments on several general and specific issues concerning NIOSH's recommendations for a revised standard for occupational exposure to EDB. OSHA received 34 comments from individuals and companies representing a broad range of interests. These submitted comments remain part of the permanent record for EDB and will be considered in any future regulatory decisions.

In addition, EDB has been the subject of three NIOSH Current Intelligence Bulletins. The first, published in 1975, alerted workers, employers, and others of the preliminary results of a National Cancer Institute study indicating that EDB is carcinogenic in laboratory rodents. (*5*) The second, published in 1978, reported that a NIOSH study had found a serious toxic interaction between inhaled ethylene dibromide and ingested disulfiram in laboratory rats and recommended that no worker be exposed to both EDB and disulfiram. (*6*) The third, dated October 26, 1981, provides recent information on EDB's potential carcinogenic risk and reaffirms NIOSH's 1977 recommended workplace exposure limit of 0.13 pp. (*7*)

In 1978, the American Conference of Governmental Industrial Hygienists (ACGIH) added ethylene dibromide to their list of industrial substances suspect of carcinogenic potential for man. The 1981 ACGIH list of threshold limit values assigns no TLV for EDB exposure, but states that "no exposure or contact by any route—respiratory, skin or oral, as detected by the most sensitive methods—shall be permitted."(*8*)

On September 2, 1981, the State of California, Department of Industrial Relations, Division of Occupational Safety and Health, adopted an emergency temporary standard for EDB, which became effective on September 23, 1981.(*9*) The California emergency standard provides that no employee be exposed to EDB in excess of an 8-hour, TWA concentration of 130 ppb (or 0.13 ppm), or in excess of a ceiling concentration of 130 ppb measured over a 15-minute period. The California emergency standard also contains requirements for the reporting of use of EDB and emergencies, exposure monitoring, methods of compliance, personal protective equipment, and training. An administrative interpretation was issued later, effective October 9, 1981, which provides that EDB will not be considered introduced into the workplace if a retail market has less than 2000 pounds of fumigated fruit in storage at any one time. For retail produce markets handling more than 2000 pounds of fumigated produce, an action level of 15 ppb (15 minute sample) has been established. If initial monitoring demonstrates that worker exposures are below the action level, no further monitoring is required and a precautionary sign does not have to be posted.(*10*)

The stated reasons for issuing an emergency standard were the potential widespread use of EDB as an after-harvest fumigant, the large number of workers who could be exposed, and the fact that the present OSHA standard does not take into account recent data concerning the carcinogenicity of EDB. The California emergency temporary standard will remain in effect for 120 days. Public hearings on the permanent standard were held on November 12 and 19, 1981. A permanent standard is expected to be adopted before the expiration date of the emergency temporary standard.

e. Petitions for an Emergency Temporary Standard

On September 2, 1981, the International Brotherhood of Teamsters (IBT) petitioned OSHA for an emergency temporary standard for ethylene dibromide which would reduce the PEL to 15 ppb, as an 8-hour TWA.(*11*) The petition states that IBT members are among a large number of workers in the fruit industry, where ethylene dibromide may be used to control infestation by the Mediterranean fruit fly. The IBT petition later was joined by the Food and Beverage Trades Department, AFL-CIO, in a letter to OSHA dated October 5, 1981,(*12*) and by the American Federation of Labor and Congress of Industrial Organizations (AFL-CIO) in a letter dated October 20, 1981.(*13*) The International Longshoremen's and Warehousemen's Union ILWU also has requested that OSHA issue an emergency temporary standard for EDB. In a letter dated October 16, 1981, the ILWU recommended an exposure limit, both as an 8-hour TWA and a ceiling concentration of 15 ppb.(*14*)

After careful consideration, OSHA denied the petitions because the present situation does not fulfill the statutory criteria necessary for the imposition of an emergency temporary standard. For example, very little information is available about the nature and extent of employee exposure to EDB on a nationwide basis. Therefore, it is unclear whether employees handling EDB fumigated produce are exposed to a grave danger within the meaning of section 6(c) of the OSH Act. Moreover, numerous variables in the work environments of those potentially exposed to EDB make it impossible to support a finding that the provisions requested by the unions are necessary or feasible.

Even though an ETS is not legally supportable on the facts presently known, recent toxicological studies indicate that the present PEL for EDB is not protective for those working with EDB. However, several unanswered questions remain which are critical to the development of a proposed regulation. OSHA presently is conducting a special industrial hygiene survey of several worksites in Texas, Florida, and California where EDB exposure occurs. Through this survey, OSHA hopes to discover the range of potential exposure levels associated with specific jobs, the numbers of workers exposed, and feasible control methods. In addition, OSHA has been working with the U.S. Department of

Agriculture to investigate methods of handling EDB-treated commodities to reduce worker exposure. Comments directed toward the specific nature and levels of EDB exposure in specific operations will assist OSHA in determining the appropriate regulatory action.

2. Potential Health Effects

a. Carcinogenicity

Several scientific studies have been conducted which demonstrated the induction of tumors by ethylene dibromide in experimental animals. The most recently reported study, released in 1981, was conducted by the National Cancer Institute (NCI) and the National Toxicology program. (*15*) In this study, male and female Fisher 344 rats and male and female B6C3F1 mice were exposed by inhalation to airborne concentrations of EDB at either 10 ppm or 40 ppm, 6 hours per day, 5 days per week, for 78 to 103 weeks (depending on survival).

Using nonexposed rats for comparison, it was reported that EDB increased the incidence of tumors of the nasal cavity at 10 ppm and 40 ppm in both male and female rats, and that these increased incidences were statistically significant. In addition, the incidence of tumors of the mammary gland was significantly increased in female rats exposed to both 10 ppm and 40 ppm. Other significant increases in tumor incidences, attributed to EDB, included tumors of the circulatory system and pituitary gland of male and female rats, mesotheliomas in the tunica vaginalis (a membrane covering the testis and epididymis) of male rats, and alveolar/bronchiolar carcinomas or adenomas in female rats.

In mice exposed to EDB at 40 ppm, significant increases were reported for tumors of the respiratory system in male and female animals, and for tumors of the circulatory system, mammary gland, and nasal cavity in female animals. Moreover significantly increased incidences of tumors of the circulatory system and mammary gland were observed in female mice exposed to 10 ppm EDB.

Earlier studies also had reported the induction of tumors by EDB, but in different animal strains and under different experimental conditions. In 1973, Oson and his colleagues reported a high incidence of squamous cell carcinomas of the stomach among Osborne-Mendel rats and (C57BL X C3H)F_1 mice, chronically exposed to ethylene dibromide by oral intubation. (*16*) Tumors were observed as early as 10 weeks after initial exposure.

In 1978, the National Cancer Institute reported that EDB was carcinogenic to Osborne-Mendel rats and B6C3F1 mice after chronic exposure to EDB by oral intubation. (*17*) EDB induced squamous-cell carcinomas of the forestomach in rats of both sexes, hepatocellular carcinomas in female rats, and hemangiosarcomas in male rats. In mice of both sexes, EDB induced squamous-cell carcinomas of the forestomach and alveolar/bronchiolar adenomas.

A study completed by the Midwest Research Institute for NIOSH in 1979 demonstrated that EDB induced tumors in Sprague-Dawley rats exposed to EDB by inhalation at 20 ppm, 7 hours per day, 5 days per week, for 18 months. (*18*) Male rats exposed to EDB had significantly increased tumor incidences in the spleen (including hemangiosarcoma), adrenal glands and subcutaneous tissues, and female rats exposed to EDB showed significantly high tumor incidences in the spleen (hemangiosarcoma), adrenal glands, and mammary glands.

When the rats were treated simultaneously with both EDB and disulfiram (an aldehyde dehydrogenase inhibitor used to treat alcoholism), the carcinogenic and other toxic effects of EDB were greatly enhanced. The incidence of tumors in the liver (including hemangiocarcinoma), spleen, kidneys, thyroids, adrenals and mesentary tissues in both male and female rats, and lung tumors in male rats, was substantially increased as a result of the combined treatment of 20 ppm atmospheric concentration of EDB and 0.05% disulfiram in the diet.

EDB also has been shown to be carcinogenic by skin application. (*19*) In Ha:ICR mice, EDB induced a significant incidence of skin papillomas, skin carcinomas and lung tumors after repeated application of EDB to shaved skin.

Only one epidemiologic study has been published which reports the mortality experience of workers exposed to EDB. Ott and his colleagues followed 161 men exposed to EDB in two production areas of a U.S. chemical plant. (*20*) The authors reported that among 57 individuals employed in production unit two, five had died from cancer compared to an expected number of 2.2 (based on the U.S. white male general population). However, when five additional individuals who had been exposed to both EDB and arsenicals are included in the analysis, the total number of workers in this production area who died from cancer becomes seven, compared to an expected number of approximately 2.8 (P less than 0.01). The additional two workers who died from cancer, both with lung cancer, had been exposed to arsenicals for 1.5 months and 20 months, and to EDB for 102 months and 111 months, respectively. Among the 99 individuals employed in production unit one, two men had died from cancer compared to 3.6 expected. The authors concluded that the findings of the investigation neither rule out nor establish EDB to be a human carcinogen. Although of limited sample size, the observation in unit two raises suspicion of a potential excess cancer risk among workers exposed to EDB.

In response to OSHA's March 1978 request for information on EDB, the Dow Chemical Company submitted unpublished reports from two investigations of workers exposed to EDB. (*21*) Because of severe limitations in design and analysis, neither report can be used to draw inferences concerning the risk of cancer to humans exposed to EDB.

b. Reproductive Effects

Exposure to EDB by inhalation has been shown to affect the reproductive system of male rats, causing testicular degeneration and atrophy after chronic exposure to EDB at 10 ppm and 40 ppm. (*15*) In another study, a high incidence of testicular atrophy was observed among male rats exposed to both disulfiram and 20 ppm EDB. (*18*)

EDB also has been shown to adversely affect other aspects of reproduction. In bulls, oral administration of EDB was shown to affect sperm count and motility. (*22*) In rats, exposure to 89 ppm EDB by inhalation for 7 hours per day, 5 days a week, caused complete failure of reproductive performance. (*23*)

In addition, EDB has been shown to adversely affect the offspring of mice exposed to 20, 38, and 80 ppm. (*24*) Significant dose-related effects were observed, including increased fetal deaths (resorption), low fetal weight, and decreased ossification of the supraoccipital bone in the skull and the incus bone of the ear.

c. Genetic Effects

EDB has been demonstrated to cause mutations and damage of the genetic material in a wide spectrum of non-mammalian test systems and in cultures of mammalian cells. (*25*) In addition, a 1979 study reported that gaseous EDB induced significant numbers of sex-linked recessive lethal mutations in *Drosophila melanogaster* males at concentrations ranging from 0.2 to 2 ppm. (*26*) These findings support the observations of carcinogenicity and

adverse effects on reproduction in animals and suggest that EDB may have the potential to damage the genetic material of exposed workers.

d. Other Health Effects

Ethylene dibromide (EDB) is rapidly absorbed from the lungs when breathed as a vapor, from the gastrointestinal tract when taken by mouth, and through the skin on direct contact or by exposure of the skin to the vapor in the air.

EDB is an irritant to the eyes and respiratory tract. Inhalation exposure in humans has been associated with headache, decreased appetite, inability to sleep, nausea, and dizziness. Dermal contact may result in intense burning pain, swelling, blistering, and repeated contact may cause skin sensitization. Deaths have occurred following the inadvertent ingestion and inhalation of EDB at high doses.

Reports from studies in humans and animals indicate that EDB may cause adverse effects to the liver, kidneys, heart and other internal organs and systems following exposure to high doses. (*4*)

e. Quantitative Assessment of Health Risk

In the development of regulations for occupational health hazards, it is OSHA's policy to consider the significance of risk, and this may involve the quantification of the level of risk at current and proposed exposure levels. However, when data are not available to perform a formal quantitative risk assessment, qualitative evidence, expert testimony and other evidence may be appropriately utilized to base a determination of significance of risk.

Scientists employed by the State of California estimated, on the basis of experimental data, that the lifetime risk of cancer in humans from a working lifetime exposure to EDB at 10 ppm would be 200 excess cancer deaths per 1000 exposed workers. A working lifetime exposure to EDB at 100 ppb was estimated to result in 2 excess cancer deaths per 1000 exposed workers. (*27*)

OSHA is evaluating the scientific evidence concerning the potential carcinogenic and reproductive risks of EDB for the development of a quantitative risk assessment. Comments are requested below on several issues relating to the preparation of a risk assessment for EDB, and on the results of California's risk assessment for EDB. OSHA is particularly interested in estimates of the significance of risk from exposure to EDB under current exposure conditions, and the level of reduction in risk that could be expected if the current OSHA PEL were reduced to 130 ppb or some other level.

3. Regulatory Analysis

In accordance with Executive Order 12291 (46 FR 13193), which requires a study of regulatory analysis for all major regulatory actions, OSHA will initiate a study of regulatory alternatives designed to control exposure to EDB in the workplace. This analysis will examine the potential effects of a revised EDB regulation on economic factors such as prices, employment, productivity, market structure, competition, and balance of trade. As part of this analysis, OSHA will develop a financial and economic profile of the industries producing and using EDB. If the Agency determines that a substantial number of small entities would be affected by a revised regulation for EDB, OSHA also will prepare a Regulatory Flexibility Analysis, as required by the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). OSHA will use the information obtained through these analyses to evaluate the cost-effectiveness of various approaches to reduce worker exposure to EDB. When considering cost-effectiveness, OSHA will not weigh costs of compliance against reductions in health risks. By cost-effectiveness, the Agency is referring to achieving an established health goal by using the least costly method of compliance. In addition, the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*) requires that OSHA consider the environmental impact of major actions significantly affecting the quality of the human environment. OSHA is requesting interested persons to provide information that may aid in the preparation of these analyses.

4. Request for Comments

Interested parites are requested to submit, in quadruplicate, written comments, suggestions, and additional data related to the information provided in this Advance Notice of Proposed Rulemaking. Submission of written comments, suggestions, and additional information also requested which pertains to the industrial manufacture formulation and use of EDB, the blending and distribution of gasoline containing EDB, and the downstream handling of commodities fumigated with EDB. Information is specifically requested in response to the following issues:

a. Are there any unpublished scientific studies that should be considered by OHSA when assessing the potential health risks of EDB?

b. What are the job categories for each operation or process in the industrial, agricultural, wholesale-retail trades, transportation, longshoring, warehousing, or other commercial sectors where there is exposure or potential for exposure to EDB? For each category, give a brief description of the job operation. What are the standard industrial classification (SIC) codes for these industries or processes?

c. How many workers are exposed or have the potential for exposure to EDB in these jobs? For each job category, what is the frequency and duration of exposure to EDB? For example, are exposures limited to a particular season, or to only a part of the workday/workweek?

d. What levels of EDB exposure, from either personal or area samples, have been measured in these job categories or adjacent work areas?

e. What is the labor turnover in industries or processes with EDB exposures?

f. How has the total annual employment in these categories changed over the last 5 years?

g. NIOSH has recommended a ceiling limit for EDB exposure of 130 ppb and the California ETS for EDB establishes this level as both a ceiling limit and an 8-hour TWA. Comments are requested on the appropriateness and feasibility of an OSHA ceiling limit of 130 ppb for EDB, or other alternative exposure limits.

h. What control strategies, i.e., engineering controls, process changes, administrative controls, work practices, substitutions, or personal protective equipment, have been used or are available for each job category or operation to reduce employee exposure to EDB? If possible, detailed information should be provided concerning the effectiveness, applicability to different work settings, cost, and time necessary for implementation for each method.

i. Are there any unique conditions in certain work environments that would restrict the choice of control strategies?

j. Have there been technological inprovements or changes in the production or use of EDB for the purpose of improving productivity or product quality that also have resulted in reductions in EDB exposures?

k. What measurement and analytical methods are available for use in detecting EDB exposure levels under 20 ppm? What are the sensitivity and costs of these methods?

l. What training do workers currently receive in the potential health risks and safe handling and use of EDB? How

much time is spent on this training? What are the costs of this training?

m. The following information is requested to aid in the preparation of a Regulatory Flexibility Analysis:

(1) How many and what kind of small businesses or organizations would be affected by regulating exposures to EDB?

(2) Are there any federal rules which may duplicate, overlap, or conflict with an OSHA regulation concerning EDB?

(3) Could difficulties be encountered by small entities when attempting to comply with specific provisions of an EDB regulation, covering such areas as exposure monitoring, exposure limits, methods of compliance, medical surveillance, respirators, protective clothing, hygiene facilities, recordkeeping, housekeeping, information and training, and labels and signs? Could modifications to certain provisions be made for small businesses which also would assure equal protection of the health of employees of small businesses?

n. How might a revised regulation for EDB exposure affect the environment? In particular, what are the potential direct or indirect impacts on water and air pollution, energy usage, solid waste disposal, or land use?

o. How should OSHA estimate the significance of risk at the current exposure level for EDB?

(1) What methods are most appropriate to quantify the risk of cancer or other adverse health effects from exposure to EDB.

(2) Which studies of EDB should be used for a quantitative risk assessment?

(3) Which tumor incidences, in which animal species, by which route(s) of administration and at which dose level(s) should be selected for use?

(4) How should dose levels in experimental studies be converted to equivalent doses for occupationally exposed persons, and how should the dose levels be expressed?

(5) Should corrections be made for species-to-species extrapolations?

(6) Which mathematical models should be used for describing the dose-response relationship between EDB exposure and the risk of cancer or some other health effect?

p. The following information is requested to aid OSHA in developing a financial and economic profile of the industries where EDB exposure could occur:

(1) The total annual volumes and dollar values (for the last 5 years or relevant business cycles) of production, shipments, inventories, imports, and exports of EDB. Are these figures expected to increase or decrease in future years?

(2) The total annual investments (for the last 5 years) categorized as replacement, expansion, modernization, and health and safety.

(3) For the last 5 years, the retained earnings, after tax income, total assets, stockholders' equity, net worth, depreciation charges, debt-equity ratios, and rate of return on assets and equity.

(4) For each facility, the date it began operation and how much longer it is expected to remain in operation.

5. References

6. Statutory Authority

This document was prepared under the direction of Thorne G. Auchter, Assistant Secretary of Labor for Occupation Safety and Health, 200 Constitution Avenue, N.W., Washington, D.C. 20210. It is issued pursuant to section 6(b) of the Occupational Safety and Health Act of 1970 (84 Stat. 1593; 29 U.S.C. 655).

Signed at Washington, D.C., this 15th day of December 1981.

Thorne G. Auchter,

Assistant Secretary of Labor.

[FR Doc. 81–36210 Filed 12–17–81; 8:45 am]

BILLING CODE 4510–26–M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Parts 840, 842, 843, and 845

State Regulatory Authority Inspection and Enforcement, Federal Inspection and Enforcement, and Civil Penalty Assessments; Permanent Regulatory Program Modifications; Postponement of Public Hearings

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Postponement of public hearings.

SUMMARY: The Office of Surface Mining is announcing the postponement of public hearings on proposed modifications to 30 CFR Subchapter L, concerning inspection and enforcement requirements under the Surface Mining Enforcement and Reclamation Act, in response to requests from the public for additional time to submit comments.

DATES: The new date for public hearings in Lexington, Kentucky, Denver, Colorado, and Washington, D.C. is January 13, 1982.

ADDRESS: Times and locations for the public hearings are unchanged. Written comments must be mailed or hand delivered to the Office of Surface Mining, U.S. Department of the Interior, Room 125 South Building, 1951 Constitution Avenue, N.W., Washington, D.C. 20240, Attention: Carl S. Pavetto.

FOR FURTHER INFORMATION CONTACT: Carl S. Pavetto, Chief, Branch of Inspection, Office of Surface Mining, 1951 Constitution Avenue, N.W., Washington, D.C, 20240. Telephone: (202) 343–5384.

SUPPLEMENTARY INFORMATION: On December 1, 1981, 46 FR 58464, the Department of the Interior published proposed modifications to 30 CFR Subchapter L. That **Federal Register** notice provided for public hearings to be held on January 4, 1982 in Lexington, Kentucky, Denver, Colorado, and Washington, D.C. Since the date of publication, OSM has received several requests for postponement of the public hearings in order to provide a better opportunity for public comment. OSM has agreed to grant these requests, and the public hearing dates are thus extended to January 13, 1982. The public comment period, due to expire on February 1, 1982, remains unchanged.

Dated: December 14, 1981.

J. Steven Griles,

Acting Director.

[FR Doc. 81–36203 Filed 12–17–81; 8:45 am]

BILLING CODE 4310–05–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 65

[AEN–FRL–2010–3]

State and Federal Administrative Enforcement of Implementation Plan Requirements After Statutory Deadlines; Proposed Approval of Administrative Order Issued by New Jersey Department of Environmental Protection to General Electric Co., Central Air Conditioning Department

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The New Jersey Department of Environmental Protection ("NJDEP") issued an adminstrative order on September 14, 1981 requiring General Electric Company, Central Air Conditioning Department, to control the emissions from the Detrex Rotating Elevator Degreaser (NJ #20) and Detrex Return Bend Degreaser to bring its plant at Hamilton Township, New Jersey into compliance with N.J.A.C. 7:27–8.1 *et seq.*, and 7:27–16.1 *et seq.*, a part of the federally-approved New Jersey Implementation Plan with which the source is presently unable to comply. The date for final compliance established by the order is October 31, 1982. The purpose of this notice is to invite public comment on whether EPA should approve the order under section 113(d)(2) of the Clean Air Act (42 U.S.C. 7401 *et seq.*), ("the Act"). Notice of this action and opportunity for a public hearing has been provided by the State of New Jersey. If approved by EPA, the order will become effective as a delayed compliance order under section 113(d) of the Act and will constitute an addition to the New Jersey Implementation Plan. While a delayed compliance order places a noncomplying source on a remedial compliance schedule, it does not alter the underlying State Implementation Plan compliance date. Under section 113(d)(10) of the Act, EPA approval of the order would also insulate the source from federal enforcement action under section 113 of the Act and from citizen enforcement action under section 304 of the Act for violations of the regulation covered by the order during the period the order is

in effect and the source is complying with its terms.

DATE: Written comments must be received on or before January 18, 1982.

ADDRESS: Comments should be submitted to Director, Enforcement Division, U.S. Environmental Protection Agency, Region II, 26 Federal Plaza, New York, New York 10278. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT: Judith K. Meritz, Esq., Enforcement Division, U.S. Environmental Protection Agency, Region II, 26 Federal Plaza, New York, New York 10278, (212) 264–4471.

SUPPLEMENTARY INFORMATION: General Electric Company, Central Air Conditioning Department operates a central air conditioning department at Hamilton Township, New Jersey. The order under consideration addresses emissions from the Detrex Rotating Elevator Degreaser (NJ #20) and Detrex Return Bend Degreaser at the plant, which are subject to N.J.A.C. 7:27–8.1 *et seq.* and 7:27–16.1 *et seq.* These regulations limit the emission of Volatile Organic Substances (compounds) ("VOS(c)") and are part of the federally-approved State Implementation Plan. The order provides for a schedule which is as expeditious as practicable and requires final compliance with the regulations by October 31, 1982. During the period covered by this order, General Electric Company, Central Air Conditioning Department must meet the following increments of progress:

A. Detrex Rotating Elevator Degreaser

1. Complete preliminary engineering study and evaluate the proposals by November 30, 1981;

2. Complete final engineering study, evaluate proposals, select air pollution control equipment and submit Permit to Construct application(s) by December 31, 1981;

3. Purchase the air pollution control equipment, contingent on the approval of the Permit to Construct application(s) by the Bureau of Air Pollution Control by February 28, 1982;

4. Complete the installation of the air pollution control equipment, start-up and debug the entire system, and demonstrate compliance by October 31, 1982.

B. Detrex Return Bend Degreaser

1. Complete preliminary engineering study and evaluate the proposals by September 30, 1981;

2. Complete final engineering study, evaluate proposals, select air pollution control equipment and submit Permit to Construct application(s) by October 30, 1981;

3. Purchase the air pollution control equipment, contingent on the approval of the Permit to Construct application(s) by the Bureau of Air Pollution Control by January 30, 1982;

4. Complete the installation of the air pollution control equipment, start-up and debug the entire system, and demonstrate compliance by April 30, 1982.

In addition, a civil penalty will be paid to the state in connection with this delayed compliance order.

Because this order has been issued to a major source of VOS(c) emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under section 113(d) of the Act. EPA may approve the order only if it satisfies the appropriate requirements of this subsection. If the order is approved by EPA, compliance with its terms would preclude federal enforcement action under section 113 of the Act against the source for violation of the regulations covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (section 304) would be similarly precluded. However, source compliance with the order will not preclude assessment of noncompliance penalties under section 120 of the Act, unless the source is otherwise entitled to an exemption under section 120(a)(2) (B) or (C). All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. Final approval or disapproval will also be published in the **Federal Register**.

Dated: November 16, 1981.

Richard T. Dewling,

Acting Regional Administrator, Region II.

[FR Doc. 81-36184 Filed 12-17-81; 8:45 am]

BILLING CODE 6560-26-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Part 8350

Management Areas; Extension of Comment Period on Proposed Rulemaking

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of extension of comment period.

SUMMARY: This notice extends the time for filing of public comments on the proposed rulemaking on 43 CFR Part 8350, Management Areas, regarding the prohibition of the use of motorized vehicles on all national scenic trails, with certain exceptions as provided by law, from December 18, 1981 to January 18, 1982.

DATE: Comment period is extended to January 18, 1982.

ADDRESS: Comments should be sent to: Director (140), Bureau of Land Management, 1800 C Street, N.W., Washington, D.C. 20240.

Comments will be available for public review in Room 5555 of the above address during regular business hours (7:45 a.m. to 4:15 p.m.), Monday through Friday

FOR FURTHER INFORMATION CONTACT: Larry Young, (202) 343–9353.

SUPPLEMENTARY INFORMATION: A proposed rulemaking to amend 43 CFR Part 8350, Management Areas, was published in the **Federal Register** on October 19, 1981 (46 FR 51258), and concerned the prohibition of the use of motorized vehicles on all segments of the national scenic trails trails administered by the Bureau of Land Management, with certain exceptions provided by the National Trails System Act of 1968, as amended, (16 U.S.C. 1248 et seq.). Comments were requested by December 18, 1981, but it has now been determined that the comment period should be extended for an additional 30 days, to January 18, 1982. This notice extends the comment period to January 18, 1982.

Frank A. DuBois,

Deputy Assistant Secretary of the Interior.

December 16, 1981.

BILLING CODE 4310-84-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 81-854; RM-3839]

FM Broadcast Stations in Sebewaing and Tawas City, Mich.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of a Class A FM channel to Sebewaing, Michigan, and the

substitution of one Class A channel for another at Tawas City, Michigan, in response to a petition filed by Gaeth/Hofmeister, Inc. The proposed channel assignment at Sebewaing would provide for a first FM service to that community.

DATES: Comments must be filed on or before January 29, 1982, and reply comments on or before February 16, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632–7792.

SUPPLEMENTARY INFORMATION:

Notice of Proposed Rule Making and Order To Show Cause

Adopted: December 8, 1981.

Released: December 16, 1981.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Sebewaing and Tawas City, Michigan); BC Docket No. 81–854, RM–3898.

1. A petition for rule making [1] was filed by Gaeth/Hofmeister, Inc. ("petitioner") proposing the assignment of Channel 280A to Sebewaing, Michigan, as its first FM assignment, and the substitution of Channel 257A for Channel 280A at Tawas City, Michigan. Petitioner expressed its intent to apply for Channel 280A, if assigned. No oppositions to the proposal were received.

2. Sebewaing (population 2,053),[2] in Huron County (population 34,083), is located in the northeast portion of Michigan, approximately 150 kilometers (95 miles) north of Detroit. It is without local FM service.

3. According to the petitioner, the economy of Sebewaing is based on beet sugar processing, automobile parts manufacturing, fabricated metal products, grain co-operatives, fishing and tourism. The population of Sebewaing has shown considerable growth, and future growth is anticipated. Petitioner submitted demographic and economic information to demonstrate the need for a first FM assignment to Sebewaing.

4. The study submitted by the petitioner indicates that the proposed assignment will provide a first FM service to 30 square kilometers (11.8 square miles) for 943 persons, and a second FM service to 168 square kilometers (64.8 square miles) for 3,005 persons. No first nighttime aural service will be provided and the second nighttime aural service will be the same as the first FM service.

5. There is a short-spacing between Sebewaing and WOAP-FM, Owosso, Michigan (Channel 280A), of 6.4 kilometers (4 miles). This short-spacing can be avoided by using the petitioner's proposed site for Channel 280A of 8 kilometers (5 miles) northeast of Sebewaing. The proposed station would be short-spaced to Station WKJC, Tawas City, Michigan (Channel 280A), requiring the proposed substitution of Channel 257A for Channel 280A. Additionally, a short-spacing of 24 kilometers (15 miles) to a Canadian allocation on Channel 280A, at Sarnia, Ontario, has been considered. In accordance with the U.S./Canadian FM Agreement, preliminary Canadian concurrence has been obtained. Final Canadian concurrence in the proposed assignment and channel substitution must be obtained.

6. The substitution of Channel 257A for Channel 280A also requires the modification of the license for Station WKJC to specify the new channel. The licensee is therefore requested to respond to the Order to Show Cause herein at paragraph 8. The licensee, Carroll Enterprises, Inc. is entitled to reimbursement for the costs involved in changing the frequency.

7. In view of the foregoing information and the fact that the assignment would provide a first local FM broadcast service to Sebewaing, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the rules, with regard to the following cities.

City	Channel No.	
	Present	Proposed
Sebewaing, Michigan	.....	280A
Tawas City, Michigan	269A, 280A	257A, 269A

8. It is ordered, That pursuant to section 316(a) of the Communications Act of 1934, as amended, Carroll Enterprises, Inc., licensee of Station WKJC, Tawas City, Michigan, shall show cause why its license should not be modified to specify operation on Channel 257A in lieu of Channel 280A.

9. Pursuant to § 1.87 of the Commission's Rules, Carroll Enterprises, Inc. many, not later than January 29, 1982, request that a hearing be held on the proposed modification. If the right to request a hearing is waived, Carroll Enterprises, Inc. may, not later than January 29, 1982, file a written statement showing with particularity why its license should not be modified as proposed in the Order to Show Cause. In this case, the Commission may call on Carroll Enterprises, Inc. to furnish additional information, designate the matter for hearing, or issue, without further proceedings, an Order modifying the license as provided in the Order to Show Cause. If the right to request a hearing is waived and no written statement is filed by the date referred to above, Carroll Enterprises Inc. will be deemed to have consented to the modifications as proposed in the Order to Show Cause and a final Order will be issued by the Commission, if the above-mentioned channel modification is ultimately found to be in the public interest.

10. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

11. Interested parties may file comments on or before January 29, 1982, and reply comments on or before February 16, 1982.

12. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings, to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

13. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632–7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

14. It is ordered, That the Secretary of the Commission shall send, by certified mail, return receipt requested, a copy of this Order to Show Cause to Carroll Enterprises, Inc., 523 Meadow Road, Tawas City, Michigan, 48763.

[1] Public Notice of the petition was given on May 20, 1981, Report No. 1287.

[2] Population figures are taken from the 1980 U.S. Census.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the Notice of Proposed Rule Making to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the notice of proposed rule making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

47 CFR Part 73

[BC Docket No. 81-853; RM-3962]

FM Broadcast Stations in Amarillo, Texas; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign FM Channel 245 to Amarillo, Texas, in response to a petition filed by K. T. Wiggins and R. K. Jack. The assignment would provide Amarillo with a sixth commercial FM allocation.

DATES: Comments must be filed on or before January 29, 1982, and reply comments on or before February 16, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: December 8, 1981.

Released: December 16, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations. (Amarillo, Texas); Notice of proposed rule making.

1. A petition for rule making[1] was filed by K. T. Wiggins and R. K. Jack ("petitioners"), seeking the assignment of Class C FM Channel 245 to Amarillo, Texas, as that community's sixth commercial FM allocation. Petitioners state that if the requested channel is assigned, they will promptly apply for authority to build and operate a station in Amarillo. No oppositions to the petition have been filed, and the channel can be assigned consistant with the minimum distance separation requirements of § 73.207 of the Commission's Rules.

2. Amarillo (population 149,230)[2] the seat of Potter County (population 98,637), is also a part of adjacent Randall County (population 75,062). It is located in the Texas panhandle, approximately 500 kilometers (310 miles) northwest of Fort Worth. Amarillo is currently served by five commercial FM stations (KQIZ, Channel 226; KBUY, Channel 231; KGNC, Channel 250; KYTX, Channel 254; and KWAS, Channel 270); one noncommercial educational FM station (KACV, Channel 210); four full-time AM stations (KDJW, KGNC, KIXZ and KPUR); and two daytime-only AM stations (KQIZ and KZIP). With the exception of Station KWAS (FM), the remaining commercial FM stations are commonly owned by four of the AM facilities licensed to Amarillo.

3. Petitioners state that Amarillo has its own government unit, municipal services, hostelries, health-care facilities, churches, educational institutions, and social, recreational, and entertainment accommodations. Further, they indicate that the population of Amerillo increased significantly during the past decade (approximately 17.5%). The community's healthy economy and continuing growth is largely attributable to the area's energy-related industries, according to petitioners. Additionally, it is asserted that four other major industries also contribute to Amarillo's economic base by providing employment to a work force in excess of 7,200 positions.

4. Although petitioners provided a preclusion study, it is not an adequate showing, as submitted, for consideration herein. Petitioners merely indicate that assignment of proposed FM Channel 245 to Amarillo will not cause "undue preclusion" to other communities. The purpose of a preclusion study is to put other communities on notice that the

---

[1] *Public Notice* of the petition was given August 17, 1981, Report No. 1305.

[2] Population figures are extracted from the 1980 U.S. Census, unless otherwise indicated.

opportunity to receive an FM assignment may be foreclosed. Therefore, petitioners should provide, in supporting comments, a study indicating those communities containing a population in excess of 1,000 persons, and presently without any aural service, that would suffer preclusion as a result of the proposed assignment. Additionally, the availability of alternate channels for assignment to each such affected community should be supplied. Turning to the question of service to an unserved or underserved area, since petitioners did not submit a *Roanoke Rapids*[3] or *Anamosa*[4] study, we assume that no first or second FM or aural services would be provided by this proposal.

5. In view of the fact that the proposed channel assignment does not exceed our population guidelines, and would provide Amarillo with a sixth commerical FM service which could provide an additional broadcast voice in the community, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Rules, as follows:

City	Channel No.	
	Present	Proposed
Amarillo, Texas	226, 231, 250, 254, 270	226, 231, 245, 250, 254, 270

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before January 29, 1982, and reply comments on or before February 16, 1982.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. *See, Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoke or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off-Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the peron(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (see § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

Matanuska Electric Association, Inc.; Finding of No Significant Impact

The Rural Electrification Administration (REA) has made a Finding of No Significant Impact (FONSI) with respect to proposed financing assistance to Matanuska Electric Association, Inc., (Matanuska) of Palmer, Alaska, for construction of 24.8 km (15.5 mi) of 115 kV transmission line from an existing substation in Palmer to the proposed O'Neill Substation in Sutton. The entire project would be in Matanuska Susitna Borough, Alaska.

REA reviewed the Borrower's Environmental Report (BER) which was prepared by Matanuska to describe the environmental aspects of the project. REA used Matanuska's BER, Two-Year Work Plan, and maps to prepare an Environmental Assessment addressing the impacts of the proposed project. REA determined that the proposed project (1) will have no adverse effect or incompatible development associated with wetlands and (2) will have no effect on important farmlands, floodplains, federally listed threatened or endangered species or known cultural resources. Alternatives considered include no action, energy conservation, use of existing facilities and alternate routes. REA determined that the proposed project is an acceptable alternative because it meets Matanuska's need with minimal adverse impacts.

The FONSI, Environmental Assessment and BER may be reviewed in, or requested from, the Office of the Director, Distribution Systems Division, Room 3304 South Building, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, telephone (202) 382–8848, or at the office of Matanuska Electric Association, Inc., (Mr. James F. Palin, General Manager) P.O. Box 1148, Palmer, Alaska 99645, telephone (907) 745–3231.

This Program is listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees.

Dated at Washington, D.C., this 11th day of December 1981.

Jack Van Mark,
Acting Administrator.

[FR Doc. 81-36086 Filed 12-17-81; 8:45 am]
BILLING CODE 3410-15-M

Sam Rayburn G&T, Inc.; Finding of No Significant Impact

Notice is hereby given that the Rural Electrification Administration (REA) has prepared a Finding of No Significant Impact which concludes that there is no need for REA to prepare an environmental impact statement in connection with proposed financing assistance by REA for Sam Rayburn G&T, Inc., (SRG&T) of Texas. The proposed financing assistance will be used by SRG&T to obtain a 10 percent ownership interest in the Gulf States Utilities Company's Nelson Station Unit No. 6 (Project). The plant site is located in Westlake, Calcasieu Parish, Louisiana.

The environmental effects of the Project are discussed and evaluated in a Borrower's Environmental Report (BER) dated May 28, 1980, and an Environmental Assessment which was prepared by REA. Threatened and endangered species, important farmland, archaeological and historic sites, wetlands and floodplains and other potential impacts of the Project are adequately considered in the BER and the Environmental Assessment.

Based on REA's Environmental Assessment and a review of the BER and other available information, a Finding of No Significant Impact was reached in accordance with REA Bulletin 20–21:320–21.

Various alternatives were considered by SRG&T and REA. The alternatives include no action, joint participation, construction of generation by SRG&T and energy conservation. After considering these alternatives, REA determined that the proposed action of providing financing assistance to SRG&T for participation in the Project is an acceptable alternative.

Copies of the Finding of No Significant Impact, the Environmental Assessment and the BER may be obtained from or reviewed in the office of the Director, Power Supply Division, Room 0230, South Agriculture Building, Rural Electrification Administration, Washington, D.C. 20250, or may be reviewed at the office of Sam Rayburn Generation and Transmission, Inc., P.O. Box 479, San Augustine, Texas 75972.

This Program is listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees.

Dated at Washington, D.C., this 11th day of December 1981.

Jack Van Mark,
Acting Administrator.

Soil Conservation Service

Los Olmos Creek Watershed, Texas; Availability of Record of Decision

Note.—This document originally appeared in the Federal Register for Thursday, December 17, 1981. It is reprinted in this issue to meet requirements for publication on the Tuesday/Friday schedule assigned to the Soil Conservation Service, Department of Agriculture.

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of availability of record of decision.

FOR FURTHER INFORMATION CONTACT: George C. Marks, State Conservationist, Soil Conservation Service, P.O. Box 648, Temple, Texas 76503, telephone: 817/774–1214.

Notice: George C. Marks, responsible Federal official for projects administered under the provisions of Pub. L. 83–566, 16 U.S.C. 1001–1008, in the State of Texas, is hereby providing notification that a record of decision to proceed with the installation of the Los Olmos Creek Watershed project is available. Single copies of this record of decision may be obtained from George C. Marks at the above address.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Floor Prevention. Office of Management and Budget Circular A–95 regarding State and

local clearinghouse review of Federal and federally assisted programs and projects is applicable)

Dated: December 7, 1981.

DEPARTMENT OF COMMERCE

International Trade Administration

Importers and Retailers' and Management-Labor Textile Advisory Committees; Public Meetings

AGENCY: International Trade Administration, Commerce.

SUMMARY: The Secretary of Commerce established the Importers and Retailers' Textile Advisory Committee on August 13, 1963 to advise U.S. Government officials of the effects on import markets of cotton, wool and man-made fiber textile agreements.

The Management-Labor Textile Advisory Committee was established by the Secretary of Commerce on October 18, 1961 to advise U.S. Government officials on problems and conditions in the textile and apparel industry and furnish information on world trade in textiles and apparel.

Time and place: January 13, 1982, at 10:30 a.m. for the Importers and Retailers' Textile Advisory Committee and 1:30 p.m. for the Management-Labor Textile Advisory Committee. The meetings will take place at the Main Commerce Building, Room 6802, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230. (Public entrance to the building is on 14th Street between Constitution Avenue and E Streets, N.W.)

Agenda:

(1) Review of import trends, (2) Implementation of textile agreements, (3) Report on conditions in the domestic market, (4) Other business.

Public participation: The meetings will be open to public participation to the extent time is available. The public may file written statements with the Committee before or after the meetings. Approximately 30 seats will be available for the public on a first-come, first-served basis.

FOR FURTHER INFORMATION CONTACT: Helen L. LeGrande, Office of the Deputy Assistant Secretary for Textiles and Apparel, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230, telephone: 202/377-3737.

Dated: December 9, 1981.

Arthur Garel,

Acting Deputy Assistant Secretary for Textiles and Apparel.

BILLING CODE 3510-25-M

Oleoresins of Paprika From Spain; Preliminary Results of Administrative Review of Countervailing Duty Order

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of preliminary results of administrative review of countervailing duty order.

SUMMARY: The Department of Commerce has conducted an administrative review of the countervailing duty order on oleoresins of paprika from Spain. The review is based upon information for January 1, 1979 through June 30, 1980. As a result of this review, the Department has preliminary determined to instruct the Customs Service to collect countervailing duties equal to the calculated value of the net subsidy, 2.05 percent of the f.o.b. invoice price of the merchandise. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: December 18, 1981.

FOR FURTHER INFORMATION CONTACT: Ms. Lorenza Olivas, Office of Compliance, Room 2802, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202-377-1775).

SUPPLEMENTARY INFORMATION:

Procedural Background

On February 28, 1979, the Department of the Treasury published a notice of "Final Countervailing Duty Determination" on oleoresins of paprika from Spain, T.D. 79-71, in the **Federal Register** (44 FR 11214). The notice stated that Treasury had determined that the Government of Spain had provided bounties or grants on the manufacture, production or exportation of oleoresins of paprika, within the meaning of section 303 of the Tariff Act of 1930 (19 U.S.C. 1303) ("the Tariff Act").

On January 1, 1980, the provisions of title I of the Trade Agreements Act of 1979 ("the TAA") became effective. On January 2, 1980, the authority for administering the countervailing duty law was transferred from the Department of the Treasury to the Department of Commerce ("the Department"). The Department published in the **Federal Register** of May 13, 1980 (45 FR 32455) a notice of intent to conduct administrative reviews of all outstanding countervailing duty orders. As required by section 751 of the Tariff Act, the Department has conducted an administrative review of the order on oleoresins of paprika from Spain.

Scope of the Review

The merchandise covered by this review is oleoresins of paprika ("oleoresins"), imported directly or indirectly from Spain. These imports are currently classifiable under item number 450.20 of the Tariff Schedules of the United States (TSUS). The review is based upon information for the period January 1, 1979 through June 30, 1980. The Department reviewed two programs: (1) the Desgravacion Fiscal a la Exportacion, which was found countervailable in the final determination, and (2) a working capital loans program which has been found countervailable in another investigation.

Analysis of Program

(1) Desgravacion Fiscal a la Exportacion—Spain employs a cascading tax system, that is, a turnover tax based upon the total value of inputs at each transaction level, rather than upon the value added at each level. Under this system, the indirect taxes paid include both taxes levied at the final stage of production and prior stage taxes incorporated in the input costs of raw materials, energy and services used in the final stage of production. The Spanish government studied the incidence of prior stage taxes on inputs in various sectors of the economy in order to determine more precisely the cumulative indirect tax incidence on the exported product, in this case, oleoresins. Then, under the Desgravacion Fiscal a la Exportacion program, the government rebated upon exportation the total indirect taxes caculated to be borne by the final product.

Although the Spanish government rebates upon exportation all indirect taxes paid under the cascading tax system, the Tariff Act allows the rebate of only the following: 1) taxes borne by inputs which are physically incorporated in the exported product (see Annex 1.1 of part 355 of the Commerce Regulations) and 2) indirect taxes levied at the final stage (see Annex 1.2 of part 355 of the Regulations). If the tax rebate upon export exceeds the total amount of allowable indirect taxes described above, the Department considers the difference to be an overrebate of indirect taxes and, therefore, a subsidy.

Physical incorporation is a question of fact to be determined for each product

in each case. In this case, the physically incorporated inputs are raw materials previously allowed by the Treasury Department plus oils and preservatives.

The Spanish government and the foreign products alleged that taxes applicable to solvents should also be allowed. The producers stated that solvents accompany the oleoresins throughout the entire production process. In the production process, part of the solvents is recovered, another part is consumed and the rest remains as an impurity in the final product. The producers claimed that the portion consumed, which allegedly is necessary waste, as well as that portion remaining in the final product should not be countervailable. We will allow that portion which is physically present in the final product if the foreign producers submit evidence which will permit us to quantify such portion. We will not allow for necessary waste because this solvent, while necessary to the process, is an impurity in the product rather than a necessary desired constituent element for the final product. Because this is a change in Departmental policy, we invite public comment on this issue during the 30-day comment period.

The rebate of the following additional final stage taxes is allowable when calculating whether or not there is an overrebate of indirect taxes under the Desgravacion Fiscal: the tax on export freight and insurance, the parafiscal tax on export licenses, and the IGTE sales tax applicable to the final stage transaction.

Based upon our review of the Spanish government study of tax incidence and upon our analysis of physically incorporated inputs and certain final stage taxes, we determine that an overrebate upon export of indirect taxes existed in the review period in an amount equal to 1.59 percent of the f.o.b. invoice price of the product.

As of January 1, 1981, the Spanish government increased the IGTE turnover tax on business transactions by 58 percent, while maintaining the previous rate for the export tax rebate. The change in tax incidence has eliminated the overrebate; therefore, we will lower the duty deposit rate for this program to zero for future entries, pending the results of the next annual administrative review.

(2) Working Capital Loans—The Spanish government requires banks to set aside funds to provide short-term (less than one year's duration) operating capital loans. These loans are made at an 8 percent interest rate which is 1.5 percent below the commercially available rate of 9.5 percent in 1979 and 1980. The operating capital loans are applicable to exports of certain goods which are designated by the Spanish government including oleoresins of paprika. the maximum loan principal available to a given exporter is determined as a percentage of the firm's previous year's exports. This amount may be increased by 10 percent if the firm has a government-issued Exporter's Card. In the case of oleoresins, maximum eligibiltiy is 30 percent. For the period of review the subsidy conferred under this progrm is equal to 0.46 percent of the f.o.b. invoice price of the merchandise.

Verification

We verified the submission of the Spanish government through access to company books and records. Documents examined included company financial statements, cost structure records, and production and export records.

Preliminary Results of the Review

As a result of our review, we preliminarily determine that the benefits conferred during the period of review under the two programs cited above are 1.59 percent and 0.46 percent *ad valorem*, respectively. Accordingly, the Department intends to instruct the Customs Service to assess countervailing duties of 2.05 percent of the f.o.b. invoice price on shipments entered, or withdrawn from warehouse, for consumption from January 1, 1980 through June 30, 1980.

The provisions of T.D. 79–71 and section 303(a)(5) of the Tariff Act, prior to the enactment of the TAA, apply to all entires prior to January 1, 1980. Treasury Decision 79–71 provides that "[t]o the extent that it can be established * * * that inports * * * are benefitting from a bounty or grant smaller than the amount which otherwise would be applicable under the above declaration, the smaller amount so established shall be assessed and collected." Therefore, the Department also intends to instruct the Customs Services to assess countervailing duties of 2.05 percent of the f.o.b. invoice price on all unliquidated entiries of this merchandise which were exported on or after February 29, 1979 and entered through December 31, 1979.

Due to the change in the Spanish tax law effective January 1, 1981, the only subsidy remaining is that conferred under the operating capital loans program, which we calculate to be 0.46 percent. The Department considers this to be *de minimis*. Therefore, the Department estimates countervailing duties to be zero for calendar year 1981, and intends to instruct the Customs Service not to collect a cash deposit of estimated countervailing duties on any shipments entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this review. This waiver of deposit shall remain in effect until publication of the final results of the next administrative review.

Pending publication of the final results of the present review, the existing deposit of estimated duties, at the 3.37 percent *ad valorem* rate set forth in T.D. 79–71, shall continue to be required on each entry, or withdrawal from warehouse, for consumption of this merchandise, and liquidation shall continue to be suspended.

Interested parties may submit written comments on these preliminary results within 30 days of the date of publication of this notice and may request disclosure and/or a hearing within 15 days of the date of publication. Any request for an administrative protection order must be made within 5 days from the date of publication. The Department will publish the final results of this administrative review including the results of its analysis of any such comments or hearing.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and section 355.41 of the Commerce Regulations (19 CFR 355.41).

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

December 14, 1981.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcing Import Levels for Certain Cotton, Wool and Man-Made Fiber Textile Products from India

December 15, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing import levels for certain cotton, wool and man-made fiber textile products imported from India, effective on January 1, 1982.

SUMMARY: The Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 30, 1977, as amended, between the Governments of the United States and India establishes, among other things, special ceilings for cotton, wool and man-made fiber textile products in Group II (Categories 330–

369, 431–469, and 630–669, products in Categories 330–359, 431–459 and 630–659, which are certified by the elephant certification, and individual Categories 336, 338/339/340, 341 and 347/348 during the agreement year which begins on January 1, 1982 and extends through December 31, 1982. The agreement also provides consultation levels for categories, such as Categories 335, 342, 351, 359, 447, 636, 640, 641, and 666, which are not subject to specific ceilings and which may be adjusted during the year upon agreement between the two governments. In the letter published below the Chairman, Committee for the Implementation of Textile Agreements, directs the Commissioner of Customs to prohibit entry into the United States for consumption or withdrawal from warehouse for consumption, of textile products in the foregoing categories, produced or manfactured in India and exported during the twelve-month period which begins on January 1, 1982, in excess of the designated levels.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409))

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT: Ross Arnold, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–4212).

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

December 15, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229.

Dear Mr. Commissioner: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 30, 1977, as amended, between the Governments of the United States and India; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1982 and for the twelve-month period beginning on January 1, 1982 and extending through December 31, 1982, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products in the following categories, produced or manufactured in India, and accompanied by a visa, in excess of the indicated twelve-month levels of restraint.

Category	12-Month level of restraint
330–369, 431–469 and 630–669	46,406,111 square yards equivalent.
335	16,949 dozen.
342	39,326 dozen.
351	13,462 dozen.
359	152,174 pounds.
447	5,556 dozen.
636	15,453 dozen.
640	29,167 dozen.
641	48,276 dozen
666	256,410 pounds.

Apparel products in Categories 330–359, 431–459 and 630–659 which are certified by the elephant certification shall be permitted entry up to a level of 3 million dozen for the twelve-month period beginning on January 1, 1982 and extending through December 31, 1982 and shall not be charged to the foregoing levels.

You are further directed to prohibit, effective on January 1, 1982 and for the twelve-month period extending through December 31, 1982, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Categories 336, 338/339/340, 341 and 347/348, produced or manufactured in India, whether accompanied by a visa or an elephant-shaped certification, in excess of the following levels of restraint:

Category	12-Month Level of Restraint
336	220,463 dozen.
338/339/340	1,034,738 dozen.
341	2,264,655 dozen.
347/348	121,024 dozen.

Cotton textile products in Categories 336, 338/339/340, 341 and 347/348 are also chargeable to the level of restraint established for Categories 330–369, 431–469 and 630–669, as a group, unless accompanied by an elephant certification in which case they shall be chargeable to the level of 3 million dozen established for apparel products in Categories 330–359, 431–459 and 630–659.

Floor coverings in Categories 369 (only T.S.U.S.A. numbers 360.7600 and 361.5420), 465 (only T.S. U.S.A. numbers 360.0600, 360.1015, 360.1515, 361.4200 and 361.4500), and 665 (only T.S.U.S.A. number 360.7800), shall not be subject to this directive.

In carrying out this directive, cotton, wool and man-made fiber textile products in all of the foregoing categories, including products accompanied by the elephant certification, produced or manufactured in India and exported to the United States on and after January 1, 1981 and extending through December 31, 1981, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the twelve-month period beginning on January 1, 1981 and extending through December 31, 1981. In the event that the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this directive.

The levels of restraint set forth above are subject to adjustment in the future, as applicable, according to the provisions of the bilateral agreement of December 30, 1977, as amended, between the Governments of the United States and India which provide, in part, that: (1) Within the aggregate, group limits may be exceeded by designated percentages; (2) specific limits may be exceeded by various percentages, subject to various provisions of the agreement; (3) consultation levels may be adjusted upon agreement between the two governments; and (4) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement. Any appropriate adjustments under the provisions of the bilateral agreement referred to above will be made to you by letter.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of India and with respect to imports of cotton, wool and man-made fiber textile products from India have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs

exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

Announcing Import Restraint Levels for Certain Cotton, Wool and Man-Made Fiber Textile Products from Singapore

December 15, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing import restraint levels for certain cotton, wool and man-made fiber textile products imported from Singapore, effective on January 1, 1982.

SUMMARY: The Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of August 21, 1981, as amended, between the Governments of the United States and the Republic of Singapore, establishes specific levels of restraint for cotton and man-made fiber textile products in Categories 333/334/335 (Cotton Coats), 340 (Men's and Boys' Woven Cotton Shirts), 347/348 (Cotton Trousers), and 604 (Other Man-Made Fiber Yarn, Wholly of Non-Cellulosic Filament), produced or manufactured in Singapore and exported to the United States during the twelve-month period beginning on January 1, 1982. It also provides consultation levels for certain categories, such as Categories 317 (Cotton Twill and Sateen), 319 (Carded Cotton Duck), 320 (Other Woven Fabrics), 341 (Women's, Girls' and Infants' Woven Cotton Blouses), 445/446 (Wool Sweaters), and 641 (Woven Blouses of Man-Made Fibers), among others.

The letter published below from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directs that entry into the United States for consumption, or withdrawal from warehouse for consumption, of cotton, wool and man-made fiber textile products in Categories 317, 319, 320, 333/334/335, 340, 341, 347/348, 445/446, 604, and 641 be limited to the designated levels of restraint during the twelve-month period which began on January 1, 1982 and extends through December 31, 1982.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the Federal Register on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409)).

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT: Ronald Sorini, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-4212).

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

December 15, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of August 21, 1981, as amended, between the Governments of the United States and the Republic of Singapore; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1982 and for the twelve-month period extending through December 31, 1982, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products in the following categories, produced or manufactured in Singapore, in excess of the indicated twelve-month levels of restraint:

Category	12-mo. level of restraint
317	8,000,000 square yards
319	3,000,000 square yards
320	6,000,000 square yards
333/334/335	182,326 dozen of which not more than 10,484 dozen shall be in Cat. 333; not more than 55,354 dozen shall be in Cat. 334; and not more than 143,837 dozen shall be in Cat. 335
340	425,428 dozen
341	48,276 dozen
347/348	607,754 dozen of which not more than 523,427 shall be in Cat. 347 and not more than 236,264 dozen shall be in Cat. 348
445/446	20,000 dozen.
604	1,155,000 pounds
641	48,276 dozen.

In carry out this directive, entries of cotton, wool and man-made fiber textile products in the foregoing categories, produced or manufactured in the Republic of Singapore, which have been exported to the United States on and after January 1, 1981 and extending through December 31, 1981, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the twelve-month period beginning on January 1, 1981 and extending through December 31, 1981. In the event the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels set forth above are subject to adjustment in the future according to those provisions of the bilateral agreement of August 21, 1981, as amended, between the Governments of the United States and the Republic of Singapore, provide, in part, that: (1) Within the aggregate and applicable group limits, specific limits and sublimits, may be exceeded by designated percentages; (2) specific levels may be increased for carryover and carryforward up to 11 percent of the applicable category limit; and (3) administrative arrangements for adjustments may be made to resolve problems arising in the implementation of the agreement. Any appropriate adjustments under the provisions of the bilateral agreement, referred to above, will be made to you by letter.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the Federal Register on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of Singapore and with respect to imports of cotton, wool and man-made fiber textile products from Singapore have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

Announcing Exemption of Certain Man-Made Fiber Luggage and Related Products From Quota and Export Visa Requirements During 1982

December 15, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Exempting during 1982 certain luggage, handbags and flat goods of man-made fibers in Category 669 (only T.S.U.S.A. numbers 706.2045, 706.2700, 706.2840 and 706.2850) from the levels of restraint and export visa requirements currently in effect for certain cotton, wool and man-made fiber textile products, regardless of the date of export.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (45 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409)).

SUMMARY: Man-made fiber luggage, handbags and flat goods in Category 669 (only T.S.U.S.A. numbers 706.2045, 706.2700, 706.2840 and 706.2850), were not included in the U.S. bilateral textile and apparel agreements when those agreements were negotiated. Effective on January 1, 1982, these products will be in Category 669 and covered under the textile program, but will not be subject to the limits of current bilateral textile and apparel agreements. To prevent denial of entry of these products, the Chairman of the Committee for the Implementation of Textile Agreements, in the letter published below, directs the Commissioner of Customs to exempt from levels of restraint and export visa requirements man-made fiber textile products in Category 669 (only T.S.U.S.A. numbers 706.2045, 706.2700, 706.2840 and 706.2850) during the twelve-month period beginning on January 1, 1982 and extending through December 31, 1982.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT:
Claire McDermott, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–5423).

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

December 15, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: To facilitate implementation of the U.S. textile import restraint program, it would be appreciated if, effective on January 1, 1982 and extending through December 31, 1982, you would exempt from the levels of restraint and export visa requirements man-made fiber textile products in Category 669 (only T.S.U.S.A. numbers 706.2045, 706.2700, 706.2840 and 706.2850) from all countries, regardless of the date of export.

This letter will be published in the **Federal Register**.

Sincerely,

Authur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

Announcing Import Levels for Certain Cotton, Wool and Man-Made Fiber Textile Products From the Republic of the Philippines, Effective on January 1, 1982

December 14, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing import levels for certain cotton, wool and man-made fiber textile products imported from the Philippines, effective on January 1, 1982.

SUMMARY: The Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of August 22 and 24, 1978, as amended, between the Governments of the United States and the Republic of the Philippines establishes specific ceilings for cotton, wool and man-made fiber textile products in Categories 331, 335, 336pt., 337pt., 340, 341, 347, 348, 443, 445/446, 604, 635pt., 641pt., 645/646pt., and 649, among other categories, during the agreement year which begins on January 1, 1982 and extends through December 31, 1982. In the letter published below, the Chairman, Committee for the Implementation of Textile Agreements, directs the Commissioner of Customs to prohibit entry into the United States for consumption, or withdrawal from warehouse for consumption, of textile products in the foregoing categories, produced or manufactured in the Philippines and exported during the twelve-month period which begins on January 1, 1982, in excess of the designated levels. As agreed between the two governments, the level for Category 645/646 has been reduced by 5,000 dozen to account for overshipments in the category in previous years. The levels for Categories 347 348pt. (all T.S.U.S.A. numbers except 383.0611, 383.0616, 383.2836, 383.4749, 383.4755, 383.4759 and 383.4736), and 604 have been reduced to account for special carryforward in respective amounts of 12,000 dozen, 15,000 dozen and 300,000 pounds applied to the 1981 levels.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409)).

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT:

Carl Ruths, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–4212).

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

December 14, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of August 22 and 24, 1978, as amended, between the Governments of the United States and the Republic of the Philippines; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1982 and for the twelve-month period extending through December 31, 1982, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool, and man-made fiber textile products in Categories 331, 335, 336pt., 337pt., 340, 341, 347, 348, 443, 445/446, 604, 635pt., 641pt., 645/646pt. and 649, produced or manufactured in the Philippines, in excess of the following levels of restraint:

Category	12-month level of restraint
331	[1] 620,681
335 pt.[2]	[3] 33,455
335 pt.[2]	[3] 34,545
336 pt.[4]	[5] 26,089
337 pt.[4]	[3] 38,687
340	[5] 233,920
341 pt.[6]	[3] 66,702
341 pt.[6]	[3] 85,603
347	[3] 231,482
348 pt.[7]	[3] 194,221
348 pt.[8]	[3] 219,328
443	[3] 2,216
445/446	[3] 17,771
604	[9] 1,856,933

Category	12-month level of restraint
635 pt.[9]	[13] 208,381
641 pt.[10]	[14] 173,291
645/646 pt.[11]	[13] 89,700
649	[12] 3,827,185

[1] In Category 335, all T.S.U.S.A. numbers except 383.3405, 383.3410, 383.3415, 383.3445, 383.3455 and 383.3465.
[2] In Category 335, only T.S.U.S.A. numbers 383.3405 383.3410, 383.3415, 383.3445, 383.3455 and 383.3465.
[3] In Category 336, all T.S.U.S.A. numbers except 383.0306, 383.0815, 383.2920, 383.4816, 383.4820, and 383.4823.
[4] In Category 337, all T.S.U.S.A. numbers except 383.0335, 383.0830, and 383.5036.
[5] In Category 341, only T.S.U.S.A. numbers 383.0506 383.4704, 383.4707 and 383.4711.
[6] In Category 341, all T.S.U.S.A. numbers except those listed in footnote 5.
[7] In Category 348, only T.S.U.S.A. numbers 383.0611 383.0616, 383.2836, 383.4749, 383.4755, 383.4759 and 383.4763.
[8] In Category 348, all T.S.U.S.A. numbers except those listed in footnote 7.
[9] In Category 635, all T.S.U.S.A. numbers except 383.8116.
[10] In Category 641, all T.S.U.S.A. numbers except 383.2215 and 383.9030.
[11] In Category 645/646, all T.S.U.S.A. numbers except 383.1857 and 383.8070.
[12] Dozen pair.
[13] Dozen.
[14] Pounds.

In carrying out this directive, entries of textile products in the foregoing categories, except Category 341 pt.[1], which have been exported to the United States on and after January 1, 1981 and extending through December 31, 1981, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the twelve-month period beginning on January 1, 1981 and extending through December 31, 1981. In the event that the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter. Textile products in Category 341 pt.[1] exported prior to January 1, 1982, shall not be subject to this directive.

The levels of restraint set forth above are subject to adjustment according to the provisions of the bilateral agreement of August 22 and 24, 1978, as amended, between the Governments of the United States and the Republic of the Philippines which provide, in part, that administrative arrangements or adjustments may be made to resolve problems arising in the implementation of the agreement. Any appropriate adjustments under the provisions of the bilateral agreement referred to above will be made to you by letter.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of the Philippines and with respect to imports of cotton, wool and man-made fiber textile products from the Philippines have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register**.

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Announcing Import Restraint Levels for Certain Cotton, Wool and Man-Made Fiber Textile Products From Thailand

December 14, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing import restraint levels for certain cotton, wool and man-made fiber textile products imported from Thailand, effective on January 1, 1982.

SUMMARY: The Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of October 4, 1978, as amended, between the Governments of the United States and Thailand establishes specific levels of restraint for certain cotton, wool and man-made fiber textile products in Categories 334/335, 338/339, 340, 341, 347/348, 445/446, 641, and 645/646, produced or manufactured in Thailand and exported to the United States during the twelve-month period beginning on January 1, 1982. The agreement also provides consultation levels for certain categories, such as Categories 315, 319, 320, 435, 604, and 613, which are not subject to specific ceilings and which may be increased during the year upon agreement between the two governments. Accordingly, there is published below a letter from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directing that entry into the United States for consumption or withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products in Categories 315, 319, 320, 334/335, 338/339, 340, 341, 347/348, 435, 445/446, 604, 613, 641, and 645/646 be limited to the designated twelve-month levels of restraint. The level for Category 445/446 has been reduced by 867 dozen to account for carryforward used in 1981 and by 2,579 dozen which represents a reduction agreed between the two governments for 1980 overshipments. (A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409))

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT:

Gordana Slijepcevic, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-2184).

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

December 14, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of October 4, 1978, as amended, between the Governments of the United States and Thailand; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1982 and extending through December 31, 1982 entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool, and man-made fiber textile products in the following catgegories exported from Thailand, in excess of the indicated twelve-month levels of restraint:

Category	12-month level of restraint
315	[1] 5,860,000
319	[1] 5,000,000
320	[1] 8,000,000
334/335	[2] 53,955
338/339	[2] 584,396
340	[2] 103,069
341	[2] 108,819
347/348	[2] 184,100
435	[2] 1,852
445/446	[2] 11,240
604	[3] 487,805
613	[1] 9,500,000
641	[2] 162,720
645/646	[2] 74,180

[1] Square yards.
[2] Dozen.
[3] Pounds.

In carrying out this directive, entries of textile products in the foregoing categories, produced or manufactured in Thailand which have been exported to the United States on and after January 1, 1981 and extending through December 31, 1981 shall to the extent of any unfilled balances, be charged against levels of restraint established for such goods during the twelve-month period beginning on January 1, 1981 and extending through December 31, 1981. In the event the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels of restraint set forth above are subject to adjustment according to the provisions of the bilateral agreement of October 4, 1978, as amended, between the Governments of the United States and Thailand which provide, in part, that: (1) Specific levels of restraint may be increased for carryover and carryforward up to 11 percent of the applicable category limit; and (2) administrative arrangements or adjustments may be made to resolve problems arising in the implementation of the agreement. Any appropriate adjustments under the provisions of the bilateral agreement, referred to above, will be made to you by letter.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with repect to the Government of Thailand and with respect to imports of cotton, wool and man-made fiber textile products from Thailand have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register.**

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

Announcing Import Restraint Levels for Certain Cotton, Wool, and Man-Made Fiber Textile Products From Malaysia

December 14, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing import restraint levels for certain cotton, wool and man-made fiber textile products produced or manufactured in Malaysia and exported during the twelve-month period beginning on January 1, 1982.

SUMMARY: The Governments of the United States and Malaysia exchanged notes dated December 5, 1980 and February 27, 1981 establishing a new Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement for the four-year period beginning on January 1, 1981 and extending through December 31, 1984. The agreement provides, among other things, specific levels of restraint for Categories 331, 333/334/335, 338/339, 340, 347/348, 445/446 and 604 during the agreement year beginning on January 1, 1982. Accordingly, in the letter published below, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to limit imports for consumption, or withdrawals from warehouse for consumption, of cotton, wool and man-made fiber textile products in the foregoing categories to the designated amounts. The level for Category 445/446 has been reduced by 2,322 dozen as a result of a negotiated settlement regarding previous overshipments.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409))

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT: Gordana Slijepcevic, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-2184)

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

December 14, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 5, 1980 and February 27, 1981, between the Governments of the United States and Malaysia; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1982 and for the twelve-month period beginning on January 1, 1982 and extending through December 31, 1982, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products in Categories 331, 333/334/335, 338/339, 340, 347/348, 445/446, and 604, produced or manufactured in Malaysia, in excess of the following levels of restraint:

Category	12-month level of restraint
331	[1] 541,233
333/334/335	[2] 70,735
338/339	[3] 413,519
340	[4] 288,266
347/348	[5] 162,945
445/446	[4] 22,491
604	[6] 1,168,902

[1] Dozen pairs
[2] Dozen of which not more than 35,367 dozen shall be in Cat. 333; not more than 35,367 dozen shall be in Cat. 334, and not more than 35,367 dozen shall be in Cat. 335
[3] Dozen of which not more than 165,075 dozen shall be in Cat. 339.
[4] Dozen.
[5] Dozen of which not more than 85,200 dozen shall be in Cat. 348
[6] Pounds

In carrying out this directive, entries of cotton, wool and man-made fiber textile products in the foregoing categories, produced or manufactured in Malaysia, which have been exported to the United States on and after January 1, 1981 and extending through December 31, 1981, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the twelve-month period beginning on January 1, 1981 and extending through December 31, 1981. In the event the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels set forth above are subject to adjustment in the future according to the provisions of the bilateral agreement of December 5, 1980 and February 27, 1981 between the Governments of the United States and Malaysia which provide, in part, that: (1) Specific limits or sublimits may be exceeded by not more than 5 percent, if a corresponding reduction is made in one or more other specific limits in the same group during the same agreement year; (2) specific levels may be adjusted for carryover and carryforward up to 11 percent of the applicable category limits; and (3) administrative arrangements or adjustments may be made to resolve problems arising in the implementation of the agreement. Any appropriate adjustments under the provisions of the bilateral agreement, referred to above, will be made to by letter.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers

was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121, October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Malaysia and with respect to imports of cotton, wool and man-made fiber textile products from Malaysia have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register**.

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

Announcing Import Restraint Levels for Certain Cotton, Wool, and Man-Made Fiber Textile Products From the Polish People's Republic

December 14, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing import restraint levels for certain cotton, wool and man-made fiber textile products imported from Poland, effective on January 1, 1982.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963), and October 27, 1981 (46 FR 52409))

SUMMARY: The Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of September 15, 1980 and March 20, 1981 between the Governments of the United States and the Polish People's Republic establishes specific ceilings for cotton, wool and man-made fiber textile products in Categories 335,433 and 443/643/644, produced or manufactured in Poland and exported during the twelve-month period which begins on January 1, 1982.

In the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to prohibit entry into the United States for consumption, or withdrawal from warehouse for consumption, of cotton, wool and man-made fiber textile products in the foregoing categories in excess of the designated twelve-month levels of restraint. The levels of restraint for Category 443/643/644 and its sublimit have been reduced to reflect carryforward used in 1981.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT: Carl Ruths, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-4212).

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

December 14, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of September 15, 1980 and March 20, 1981, between the Governments of the United States and the Polish People's Republic; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1982, and for the twelve-month period beginning on January 1, 1982 and extending through December 31, 1982, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products in the following categories, produced or manufactured in Poland, in excess of the indicated levels of restraint:

Category	12-month level of restraint
335	[1] 37,905
433	[2] 7,226
443/643, 644	[3] 14,109
	[4] 12,359

[1] Dozen.
[2] Dozen of which not more than
[3] Dozen shall be applied to all T.S.U.S.A. Numbers in these categories except 379.8351, 379.8352, 379.8920 and 379.9560

In carrying out this directive, entries of cotton, wool and man-made fiber textile products in the foregoing categories, except Category 335, produced or manufactured in Poland, which have been exported to the United States on and after January 1, 1981 and extending through December 31, 1981, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the period which began on January 1, 1981 and extends through December 31, 1981. In the event the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this notice. Textile products in Category 335 which have been exported before January 1, 1982 shall not be subject to this directive.

Textile products in Category 335 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

The levels of restraint set forth above are subject to adjustment in the future according to the provisions of the bilateral agreement of September 15, 1980 and March 20, 1981, between the Governments of the United States and the Polish People's Republic, which provide, in part, that: (1) Within the aggregate and applicable group limits of the agreement, specific levels of restraint may be exceeded by designated percentages; (2) these levels may also be adjusted for carryover and carryforward; and (3) administrative arrangements or adjustments may be made to resolve problems arising in the implementation of the agreement. Any appropriate adjustments under the provisions of the bilateral agreement will be made to you by letter.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Polish People's Republic and with respect to imports of cotton, wool and man-made fiber textile products from Poland have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register**.

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

Announcing the Import Level for Certain Cotton Textile Products From the Socialist Republic of Romania

December 14, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing imports levels for certain cotton textile products imported from Romania during the twelve-month period beginning on January 1, 1982.

SUMMARY: The Bilateral Cotton Textile Agreement of January 6 and 25, 1978, as amended, between the Governments of the United States and the Socialist Republic of Romania establishes a specific ceiling for cotton coats in Category 335, produced or manufactured in Romania and exported during the twelve-month period beginning on January 1, 1982. In the letter published below, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs, in acordance with the terms of the bilateral agreement, to prohibit, during the twelve-month period beginning on January 1, 1982 and extending through December 31, 1982, entry into the United States for consumption or withdrawal from warehouse for consumption, of cotton textile products in Category 335 in excess of 52,430 dozen.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409))

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT: Gordana Slijepcevic, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-4212).

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

December 14, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977, pursuant to the Bilateral Cotton Textile Agreement of January 6 and 25, 1978, as amended, between the Governments of the United States and the Socialist Republic of Romania; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1982 and for the twelve-month period extending through December 31, 1982, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 335, produced or manufactured in Romania, in excess of 52,430 dozen.

In carrying out this directive, entries of cotton textile products in the foregoing category, produced or manufactured in the Socialist Republic of Romania, which have been exported to the United States on and after January 1, 1981 and extending through December 31, 1981 shall to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the twelve-month period beginning on January 1, 1981 and extending through December 31,1981. In the event the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The level of restraint set forth above is subject to adjustment according to the provisions of the bilateral agreement of January 6 and 25, 1978, as amended, between the Governments of the United States and the Socialist Republic of Romania, which provide, in part, that: (1) Within the aggregate and applicable group limits of the agreement, specific levels of restraint may be exceeded by designated percentages; (2) these levels may also be increased for carryover and carryforward; and (3) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Socialist Republic of Romania and with respect to imports of cotton textile products from Romania have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register.**

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreement.

BILLING CODE 3510-25-M

Announcing Import Control Levels for Certain Cotton, Wool and Man-Made Fiber Textile Products From the Republic of Korea

December 14, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing import control levels for certain cotton, wool and man-made fiber textile products imported from the Republic of Korea, effective on January 1, 1982.

SUMMARY: The Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 23, 1977, as amended, between the Governments of the United States and the Republic of Korea, estahblishes specific ceilings for cotton, wool and man-made fiber textile products in Group I (Categories 300–320, 330, 360–369, and 600–627, 630, 665–669), and individual Categories 333/334/335, 338/339, 340, 341, 347/348, 433/434, 440, 444, 445/446, 604, 633/634/635, 638/639, 640 "D", 640 "O", 641, 643, 645/646, and 659pt., among others, during the agreement year which begins on January 1, 1982 and extends through December 31, 1982. In the letter published below, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs, in accordance with the terms of the bilateral agreement, to prohibit entry into the United States for consumption, or withdrawal from warehouse for consumption, of textile products in the foregoing categories, produced or manufactured in the Republic of Korea and exported during the twelve-month period which begins on January 1, 1982 and extends through December 31, 1982, in excess of the designated limits.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409))

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT: William Boyd, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–5423).

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

December 14, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 23, 1977, as amended, between the Governments of the United States and the Republic of Korea; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1982 and for the twelve-month period extending through December 31, 1982, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products in the following categories, produced or manufactured in Korea, in excess of the indicated levels of restraint:

Category	12-month level of restraint
Group I (300–320, 330, 360–369 and 600–627, 630, 665–669) [1]	150,647,118 square yards equivalent.
333/334/335	98,486 dozen of which not more than 56,038 dozen shall be in Category 333/334 and not more than 57,221 dozen shall be in Category 335.
338/339	536,866 dozen.
340	173,836 dozen.
341	108,299 dozen.
347/348	259,145 dozen of which not more than 182,994 dozen shall be in Category 347 and not more than 140,938 dozen shall be in Category 348.
433/434	16,858 dozen of which not more than 12,258 dozen shall be in Category 433 and not more than 6,286 dozen shall be in Category 434
440	208,120 dozen.
444	3,945 dozen.
445/446	50,917 dozen.
604	537,805 pounds.
633/634/635	1,400,280 dozen of which not more than 176,878 dozen shall be in Category 633; not more than 814,805 dozen shall be in Category 634; and not more than 618,640 dozen shall be in Category 635
636/639	5,576,973 dozen.
640 pt.[3]	4,139,284 dozen.
640 pt.[3]	1,661,082 dozen.
641	1,033,571 dozen
643	61,201 dozen.
645/646	3,248,346 dozen.
659 pt.[4]	2,263,063 pounds.

[1] In Category 627, all T.S.U.S.A. numbers except 355.8210

[2] In Category 640, only T.S.U.S.A. numbers 379.3130, 379.9535 and 379.9540.

[3] In Category 640, all T.S.U.S.A. numbers except those listed in footnote 2.

[4] In Category 659, only T.S.U.S.A. numbers 703.0500, 703.1000 and 703.1515.

In carrying out this directive, entries of textile products in the foregoing categories, which have been exported to the United States on and after January 1, 1981 and extending through December 31, 1981, shall, to the extent of any unfilled balances be charged against the levels of restraint established for such goods during the twelve-month period beginning on January 1, 1981 and extending through December 31, 1981. In the event that the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels of restraint set forth above are subject to adjustment in the future pursuant to the provisions of the bilateral agreement of December 23, 1977, as amended, between the Governments of the United States and the Republic of Korea, which provide, in part, that: (1) Within the aggregate and applicable group limits, specific levels of restraint may be adjusted by designated percentages; (2) these same limits may be adjusted for carryover and carryforward up to 11 percent of the applicable category limit; (3) administrative arrangements or adjustments may be made to resolve problems arising in the implementation of the agreement. Any appropriate adjustments under the provisions of the bilateral agreement referred to above will be made to you by letter.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963), and October 27, 1981 (46 FR 52409).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of cotton, wool and man-made fiber textile products from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register.**

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–25–M

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Procurement List 1982; Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Additions to Procurement List.

SUMMARY: This action adds to Procurement List 1982 a commodity to be produced by and services to be provided by workshops for the blind and other severely handicapped.

EFFECTIVE DATE: December 18, 1981.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT: C. W. Fletcher, (703) 557–1145.

SUPPLEMENTARY INFORMATION: On October 2, 1981, July 31, 1981, and August 21, 1981, the Committee for Purchase from the Blind and Other Severely Handicapped published notices (46 FR 48743, 46 FR 39196, and 46 FR 42501) of proposed additions to Procurement List 1982, November 12, 1981 (46 FR 55740).

After consideration of the relevant matter presented, the Committee has determined that the commodity and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c, 85 Stat. 77.

Accordingly, the following commodity and services are hereby added to Procurement List 1982:

Class 8110

Tube, Mailing and Filing
8110–00–412–4410

SIC 7349

Janitorial Service
Internal Revenue Service
120 Church Street
New York, New York

SIC 7369

Commissary Shelf Stocking and Custodial Service
Edwards Air Force Base, California

C. W. Fletcher,

Executive Director.

BILLING CODE 6820-33-M

Procurement List 1982; Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed Additions to Procurement List.

SUMMARY: The Committee has received proposals to add to Procurement List 1982 commodities and military resale commodities to be produced by and services to be provided by workshops for the blind and other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: January 20, 1982.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT: C. W. Fletcher (703) 557-1145

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed action.

If the Committee approves the proposed addition, all entities of the Federal Government will be required to procure the commodities, military resale commodities, and services listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodities, military resale commodities, and services to Procurement List 1982, November 12, 1981 (46 FR 55740):

CLASS 7210

Blanket, White, Flame Resistant
7210-00-NIB-0011 (86" x 90"
(Requirements for Veterans Administration only)

CLASS 7930

Cloth, Filter, Cotton, White
7930-00-NSH-0001 (18" x 18")
(Requirements for Naval Supply Center, Bremerton, Washington only)

Military Resale Item Nos. and Names

No. 542 Kitchen Scrubber w/Handle
No. 541 Bathroom Scrubber w/Handle
No. 543 Grill & Garage Scrubber w/Handle
No. 965 Ironing Board Cover, Color Coated

SIC 7349

Janitorial/Custodial Services
Building 85
Denver Federal Center
Denver, Colorado

SIC 7369

Commissary Shelf Stocking and Custodial Services, Nellis Air Force Base, Nevada.

C. W. Fletcher,

Executive Director.

DEPARTMENT OF DEFENSE

Department of the Army

Command and General Staff College Advisory Committee; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463) announcement is made of the following committee meeting:

Name: Command and General Staff College (CGSC) Advisory Committee
Date: 13-15 January 1982
Place: College Conference Room, Bell Hall, Ft. Leavenworth, KS 66027
Time: 2000-2200, 13 January 1982; 0900-1630, 14 January 1982; 0900-1400, 15 January 1982.

Proposed Agenda:

2000-2200, 13 January 1982; Review of CGSC educational program.
0900-1630, 14 January 1982; Continuation of review.
0900-1000, 15 January 1982; Continuation of review.
1000-1130, 15 January 1982; Executive session.
1300-1430, 15 January 1982; Report to the Commandant.

The purpose of the meeting is for the Advisory Committee to examine the entire range of College operations and, where appropriate, to provide advice and recommendations to the College Commandant and Faculty.

The meeting will be open to the public to the extent that space limitations of the meeting location permit. Because of these limitations, interested parties are requested to reserve space by contacting the Committee's Executive Secretary.

Philip J. Brooks,

Executive Secretary, CGSC Advisory Committee, Bell Hall, Ft. Leavenworth, KS 66027, Phone: 913-684-2741.

BILLING CODE 3710-08-M

Department of the Navy

Strategy Sub-Panel Chief of Naval Operations Executive Panel Advisory Committee; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Strategy Sub-Panel of the Chief of Naval Operations (CNO) Executive Panel Advisory Committee will meet on January 7-9, 1982, from 9:00 a.m. to 5:00 p.m. each day, at the American Embassy, Tokyo and the Naval Base, Yokosuka. All sessions will be closed to the public.

The entire agenda for the meeting will consist of discussions of the nature of collective security in the Pacific and Indian Oceans, centering around the most sensitive intelligence information available on the military and political situations in the area. These matters constitute classified information that is specifically authorized by Executive order to be kept secret in the interest of national defense and is, in fact, properly classified pursuant to such Executive order. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of title 5, United States Code.

For further information concerning this meeting, contact: Lieutenant Kathleen M. Cummings, Executive Secretary, CNO Executive Panel Advisory Committee, 2000 North Beauregard Street, Room 392, Alexandria, VA 22311, Telephone (703) 756-1205.

Dated: December 15, 1981.

F. N. Ottie,

Lieutenant Commander, JAGC, U.S. Navy, Alternate Federal Register Liaison Officer.

BILLING CODE 3810-AE-M

DEPARTMENT OF EDUCATION

Advisory Panel on Financing Elementary and Secondary Education; Hearing and Meeting

AGENCY: Advisory Panel on Financing Elementary and Secondary Education, ED.

ACTION: Notice of hearing and meeting.

SUMMARY: This notice is to inform the general public of its opportunity to attend and participate in the forthcoming hearing and meeting of the Advisory Panel on Financing Elementary and Secondary Education.

The notice sets forth the schedule and proposed agenda for the hearing and meeting and describes the functions of the Advisory Panel. Notice of the hearing and meeting is required under the Federal Advisory Committee Act, section 10(a)(2).

HEARING AND MEETING SCHEDULE: January 18, 1982, Hearing, 9:00 a.m.–5:00 p.m., J.W. McCormack Post Office and Courthouse, Room 208, Federal and Milk Streets, Boston, Massachusetts.

January 19, 1982, Meeting, 9:00 a.m.–5:00 p.m., J.W. McCormack Post Office and Courthouse, Room 504, Federal and Milk Streets, Boston, Massachusetts

FOR FURTHER INFORMATION CONTACT: Will S. Myers, Executive Director, Advisory Panel on Financing Elementary and Secondary Education, P.O. Box 19125, Washington, D.C. 20036, (202) 653–8278.

SUPPLEMENTARY INFORMATION: The Advisory Panel on Financing Elementary and Secondary Education was established by section 1203, Title XII of the Education Amendments of 1978 (Pub. L. 95–561). The Panel provides the Secretary and the Congress with advice and counsel concerning public policies on raising and distributing revenues to support elementary and secondary education. The Advisory Panel also provides advice to the Secretary concerning the conduct of studies authorized by section 1203. The Advisory Panel is scheduled to report its findings and recommendations to the President and Congress at the end of 1982.

AGENDA: The proposed agenda includes:

Hearing: Testimony by invited witnesses and other persons from the State, local, academic, and public and non-public school communities, and the general public in the Northeast region on the prospects for adequate State-local financing of schools in the 1980's, on the issue of public support for private schools, and on the Federal role, if any, in school finance. Specifically, the Panel asks witnesses for policy recommendations it can consider for inclusion in its report to Congress.

Meeting: Report by the Chairman and Executive Director, Status of School Finance studies, Development of policy issues and recommendations, Alternative methods for providing public support for private schools, Agenda for the next Panel meeting.

Persons are invited to submit written testimony for the hearing record. Those interested in presenting oral testimony should contact the Executive Director no later than January 8, 1982. The Advisory Panel asks that testimony, either oral or written, be directed to the topic of the hearing. Both the hearing and meeting of the Advisory Panel are open to the public.

Records are kept of all Advisory Panel proceedings and are available for public inspection at the office of the Advisory Panel on Financing Elementary and Secondary Education located at 1200 19th Street, NW., Suite 725, Washington, D.C.

Signed at Washington, D.C., on December 15, 1981.

Will S. Myers,

Executive Director, Advisory Panel on Financing, Elementary and Secondary Education.

BILLING CODE 4000–01–M

Minority Institutions Science Improvement Program; Application Notice

AGENCY: Department of Education.

ACTION: Application notice for Minority Institutions Science Improvement Program (MISIP).

Applications are invited for new grant awards to be made in fiscal year 1982 under the Minority Institutions Science Improvement Program (MISIP), administered by the Fund for the Improvement of Postsecondary Education under the Office of Postsecondary Education in the Department of Education.

The Secretary makes four types of project grant awards under MISIP. Depending on the type of grant, eligible applicants are public and private nonprofit predominantly minority institutions, nonprofit science-oriented organizations, professional scientific societies, or nonprofit accredited colleges and universities which render a needed service to a group of eligible minority institutions, or which provide in-service training to project directors, scientists, and engineers from eligible institutions.

Authority for this program is contained in section 406A of the General Education Provisions Act, as amended by the Education Amendments of 1980, Pub. L. 96–374.

(20 U.S.C. 1221e–1b)

Closing Dates for Transmittal of Applications

Applications for Institutional, Design, and Cooperative project grants must be mailed or hand-delivered by January 29, 1982. Applications for Special project grants must be mailed or hand-delivered by March 5, 1982.

Applications Delivered by Mail

An application sent by mail must be addressed to the U.S. Department of Education, Application Control Center, Attention: 84.120A, Washington, D.C. 20202–3561.

To establish proof of mailing, an applicant must show one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary.

If an application is sent through the U.S. Postal Service, the Secretary does not accept a private metered postmark or a mail receipt that is not dated by the U.S. Postal Service as proof of mailing. An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail. Each late applicant will be notified that its application will not be considered.

Applications Delivered by Hand

An application that is hand-delivered must be taken to the U.S. Department of Education Application Control Center, Attention: 84.120A, Room 5673, Regional Office Building 3, 7th and D Streets, SW., Washington, D.C.

The Secretary will accept hand-delivered applications between 8:00 a.m. and 4:30 p.m. (Washington, D.C. time) daily, except Saturdays, Sundays, and Federal holidays. Applications for Institutional, Design, or Cooperative project grants that are hand-delivered will not be accepted after 4:30 p.m. on January 29, 1982. Applications for Special project grants that are hand-delivered will not be accepted after 4:30 p.m. on March 5, 1982.

Program Information

The Secretary supports projects that propose to enhance a minority institution's capacity for developing and maintaining a quality science education program for all of its students and to augment the institution's capability for increasing the flow of underrepresented ethnic minorities into the fields of science and engineering.

The Secretary awards grants in the following categories of projects:

(1) Design project grants to assist minority institutions that do not have their own appropriate resources or personnel to plan and develop long-range science improvement;

(2) Institutional project grants to individual minority institutions to

support the implementation of a comprehensive science improvement plan, which may include any combination of activities for improving the preparation of minority students for careers in science and engineering;

(3) Cooperative project grants to assist groups of nonprofit accredited colleges and universities to work together to conduct a science improvement project;

(4) Special project grants for which—

(a) Minority institutions are eligible which support activities that improve quality training in science and engineering or enhance a minority institution's general scientific research capabilities.

(b) All applicants are eligible which support activities that provide a needed service to a group of eligible minority institutions or provide in-service training for project directors, scientists, and engineers from eligible minority institutions.

Available Funds

(a) In September, the President proposed further cuts as a part of his program for economic recovery. Under this proposal, approximately $3.35 million is estimated to be available for Institutional and Cooperative project grant awards in fiscal year 1982. It is estimated that these funds will support approximately 16 awards. The maximum amount of an Institutional or Cooperative project grant is $300,000 for a 36-month period.

(b) Approximately $1.05 million is estimated to be available for Special project and Design project grant awards in fiscal year 1982. It is estimated that these funds will support approximately 17 grant awards for Special and Design projects.

The maximum amount for a Special project grant award is $150,000 for a 24-month project period. The maximum amount for a Design project grant award is $20,000 for a 12-month period.

However, these estimates do not bind the U.S. Department of Education to a specific number of grants or to the amount of any grant, unless the amount is otherwise specified by statute and regulations.

Application Forms

Application forms are included in the program information packages that are expected to be ready for mailing early December 1981. Interested persons may obtain program information packages by writing to the U.S. Department of Education, Office of Postsecondary Education, Fund for the Improvement of Postsecondary Education, Attn: 84.120A, Minority Institutions Science Improvement Program, Room 3100, Regional Office Building 3, 7th and D Streets, S.W., Washington, D.C. 20202–3328. Telephone: 202–245–8091.

Applicable Regulations

Regulations applicable to this program include the following:

(1) The Education Department General Administrative Regulations (EDGAR) in 34 CFR Part 75 (Direct Grants Program) (formerly 45 CFR Part 100a) and Part 77 (Definitions) (formerly 45 CFR Part 100c).

(2) The final regulations for the Minority Institutions Science Improvement Program in 34 CFR Part 637 (formerly 34 CFR Part 735), as revised and republished on October 16, 1981 (46 FR 51204).

Further Information

For further information, contact the U.S. Department of Education, Office of Postsecondary Education, Fund for the Improvement of Postsecondary Education, regarding the Minority Institutions Science Improvement Program (84.120A). Telephone: 202/245–8091.

(Catalog of Federal Domestic Assistance No 84.102A, Minority Institutions Science Improvement Program)

Dated: December 14, 1981.

T. H. Bell,

Secretary of Education.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Energy Information Administration

Publication of Alternative Fuel Price Ceilings and Incremental Price Threshold for High Cost Natural Gas

The Natural Gas Policy Act of 1978 (NGPA) (Pub. L. 95–621) signed into law on November 9, 1978, mandated a new framework for the regulation of most facets of the natural gas industry. In general, under Title II of the NGPA, interstate natural gas pipeline companies are required to pass through certain portions of their acquisition costs for natural gas to industrial users in the form of a surcharge. The statute requires that the ultimate cost of gas to the industrial facility does not exceed the cost of the fuel oil which the facility could use as an alternative.

Pursuant to Title II of the NGPA of 1978, section 204(e), the Energy Information Administration (EIA) herewith publishes for the Federal Energy Regulatory Commission (FERC) computed natural gas ceiling prices and high cost gas incremental pricing threshold which are to be effective January 1, 1982. These prices are based on the prices of alternative fuels.

For further information contact: Leroy Brown, Jr., Energy Information Administration, Federal Building, 12th and Pa. Ave., NW., Rm. 4121, Washington, DC 20461, (202) 633–9710.

Section I. Alternative Fuel Price Ceilings

As required by FERC Order No. 50, computed prices are shown for the 48 contiguous States. The District of Columbia's ceiling is included with the ceiling for the State of Maryland. FERC, by an Interim Rule issued on March 2, 1981, in Docket No. RM79–21, revised the methodology for calculating the monthly alternative fuel price ceilings for State regions. Under the revised methodology, the applicable alternative fuel price ceiling published for each of the contiguous States shall be the lower of the alternative fuel price ceiling for the State or the alternative fuel price ceiling for the multistate region in which the State is located.

The price ceiling is expressed in dollars per million British Thermal Units (Btu's). The method used to determine the price ceilings is described in Section III.

State	Dollars per million Btu's

[1] Region based price as required by FERC Interim Rule, issued on March 2, 1981, in Docket No. RM79-21.
[2] The computed State price and the region based price are the same.

Section II. Incremental Pricing Threshold for High Costs Natural Gas

The EIA has determined that the volume-weighted average price for No. 2 distillate fuel oil landed in the greater New York City Metropolitan area during October 1981 was $40.96 per barrel. In order to establish the incremental pricing threshold for high cost natural gas, as identified in the NGPA, Title II, section 203 (a)(7), this price was multiplied by 1.3 and converted to its equivalent in millions of BTU's by dividing by 5.8. Therefore, the incremental pricing threshold for high cost natural gas, effective January 1, 1982, is $9.18 per million BTU's.

Section III. Method Used To Compute Price Ceilings

The FERC, by Order No. 50, issued on September 29, 1979, in Docket No. RM79-21, established the basis for determining the price ceilings required by the NGPA. FERC also, by Order No. 167, issued a Docket No. RM81-27 on July 24, 1981, made permanent the rule that established that only the price paid for No. 6 high sulfur content residual fuel oil would be used to determine the price ceilings. In addition, the FERC, by Order No. 181, issued on October 6, 1981, in Docket No. RM81-28, established that pirce ceilings should be published for only the 48 contiguous states on a permanent basis.

A. Data Collected

The following data were required from all companies identified by the EIA as sellers of No. 6 high sulfur content (greater than 1 percent sulfur content by weight) residual fuel oil: For each selling price, the number of gallons sold to large industrial users in the months of August 1981, September 1981, and October 1981.[1] All reports of volume sold and price were identified by the State into which the oil was sold.

[1] Large Industrial User—A person/firm which purchases No. 6 fuel oil in quantities of 4,000 gallons or greater for consumption in a business, including the space heating of the business premises. Electric utilities, governmental bodies (Federal, State or Local) and the military are excluded.

B. Method Used To Determine Alternative Price Ceilings

(1) *Calculation of Volume-Weighted Average Price.* The prices which will become effective January 1, 1982, (shown in section I) are based on the reported price of No. 6 high sulfur content residual fuel oil, for each of the 48 contiguous States, for each of the 3 months, August 1981, September 1981, October 1981. Reported prices for sales in August 1981 were adjusted by the percent change in the nationwide volume-weighted average price from August 1981 to October 1981. Prices for September 1981 were similarly adjusted by the percent change in the nationwide volume-weighted average price from September 1981 to October 1981. The volume-weighted 3-month average of the adjusted August 1981 and September 1981, and the reported October 1981 prices were then computed for each State.

(2) *Adjustment for Price Variation.* States were grouped into the regions identified by the FERC (see Section III.C.). Using the adjusted prices and associated volumes reported in a region during the 3-month period, the volume-weighted standard deviation of prices was calculated for each region. The volume-weighted 3-month average price (as calculated in Section III.B.(1) above) for each State was adjusted downward by two times this standard deviation for the region to form the adjusted weighted average price for the State.

(3) *Calculation of Ceiling Prices.* The lowest selling price within the State was determined for each month of the 3-month period (after adjusting up or down by the percent change in oil prices at the national level as discussed in section III.B.(1) above). The products of the adjusted low price for each month times the State's total reported sales volume for each month were summed over the 3-month period for each State and divided by the State's total sales volume during the 3 months to determine the State's average low price. The adjusted weighted average price (as calculated in section III.B.(2)) was compared to this average low price, and the higher of the values was selected as the base of determining the alternative fuel price ceiling for each State. For those States which had no reported sales during one or more months of the 3-month period, the appropriate regional volume-weighted alternative fuel price was computed and used in combination with the available State data to calculate the State's alternative fuel price ceiling base. The State's alternative fuel price ceiling base was compared to the alternative fuel price ceiling base for the multistate region in which the State is located and the lower of these two prices was selected as the final alternative fuel price ceiling base for the State. The appropriate lag adjustment factor (as discussed in section III.B.4.) was then applied to the alternative fuel price ceiling base. The alternative fuel price (expressed in dollars per gallon) was multiplied by 42 and divided by 6.3 to estimate the alternative fuel price ceiling for the State (expressed in dollars per million BTU's).

(4) *Lag Adjustment.* The EIA has implemented a procedure to partially compensate for the two-month lag between the end of the month for which data are collected and the beginning of the month for which ceiling prices become effective. It was determined that *Platt's Oilgram Price Report* publication provides timely information relative to the subject. The prices found in *Platt's Oilgram Price Report* publication are given for each trading day in the form of high and low prices for No. 6 residual oil in 21 cities throughout the United States. The low posted prices for No. 6 residual oil in these cities were used to calculate a national and a regional lag adjustment factor. The national lag adjustment factor was obtained by calculating a weighted average price for No. 6 high sulfur residual fuel oil for the ten trading days ending December 11, 1981, and dividing that price by the corresponding weighted average price computed from prices published by Platt's for the month of October 1981. A regional lag adjustment factor was similarly calculated for four regions. These are: One for FERC Regions A and B combined; one for FERC Region C; one for FERC Regions D, E, and G and one for FERC Regions F and H combined. The lower of the national or regional lag factor was then applied to the alternative fuel price ceiling for each State in a given region as calculated in Section III.B.(3).

Listing of States by Region

States were grouped by the FERC to form eight distinct regions as follows:

Region A

Connecticut	New Hampshire
Maine	Rhode Island
Massachusetts	Vermont

Region B

Delaware	New York
Maryland	Pennsylvania
New Jersey	

Region C

Alabama	North Carolina
Florida	South Carolina
Georgia	Tennessee
Mississippi	Virginia

Region D

Illinois	Ohio
Indiana	West Virginia
Kentucky	Wisconsin
Michigan	

Region E

Iowa	Nebraska
Kansas	North Dakota
Missouri	South Dakota
Minnesota	

Region F

Arkansas	Oklahoma
Louisiana	Texas
New Mexico	

Region G

Colorado	Utah
Idaho	Wyoming
Montana	

Region H

Arizona	Oregon
California	Washington
Nevada	

Issued in Washington, D.C. December 16, 1981.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket No. CP80-435; Docket No. CP78-123, et al.]

Alaskan Northwest Natural Gas Transportation Co., and Northwest Alaskan Pipeline Co.; Amendment to Application and Order Establishing Procedures

Issued: December 9, 1981.

On July 1, 1980, Alaskan Northwest Natural Gas Transportation Company (Alaskan Northwest), project sponsor of the Alaska segment of the Alaska Natural Gas Transportation System (ANGTS), filed in Docket No. CP80-435 a partial application for a final certificate of public convenience and necessity for that segment. The application included a proposed Certification Cost and Schedule Estimate (CCE) and a proposed Center Point for the Incentive Rate of Return (IROR) for the Alaska segment,[1] along with supporting materials. An amendment to the application was filed on November 17, 1980, to reflect changes in the CCE occasioned by routing changes emanating from the Grant of Right-of-Way proposed and subsequently issued by the United States Department of the Interior.

In a Notice and Order issued on August 1, 1980, the Commission instituted a special subproceeding to consider the CCE and Center Point values proposed by Alaskan Northwest and related IROR issues. The order instructed the Commission's Alaskan Delegate, in conjunction with the Director of the Division of Audit and Cost Analysis (Division Director) of the Office of the Federal Inspector (OFI), to convene a series of technical conferences to consider these matters. The Alaskan Delegate and the OFI Division Director presided over those conferences, and submitted their report to the Commission. On August 21, 1981, the Commission issued an order inviting comments on that report. Comments and reply comments have been received in response to that order.

On November 23, 1981, Alaskan Northwest filed a second amendment to its application, styled as a supplement to application. The second amendment provides additional volumes of data relevant to establishing the CCE. The purpose of this order is, first of all, to provide formal notice of Alaskan Northwest's second amendment to its application, and secondly, to establish expedited procedures for considering the data submitted, in order to enable the Commission to proceed with establishing the CCE.

Notice of Amendment to Application

Attached to this order is a formal notice of the amendment to application filed by Alaskan Northwest on November 23, 1981.

Procedures for Considering Amendment to Application

The Commission will utilize the same technical conference and notice and comment format to consider the November 23, 1981 amendment that was used to consider the original application filed on July 1, 1980 and the first amendment thereto filed on November 17, 1980. The technical conferences held in Docket No. CP80-435 will be reconvened. The Commission will designate Barry M. Smoler of the Commission's Office of the General Counsel, and J. Richard Berman, Director of Audit and Cost Analysis of the Office of the Federal Inspector (herinafter referred to as "the presiding officers") to preside over the reconvened technical conferences. The procedures for the reconvened conferences will be the same procedures that were used for the original conferences. Those procedures are set forth in the above referenced order of August 1, 1980, and in the interim report submitted to the Commission by the Alaskan Delegate and OFI Division Director on September 26, 1980.

As soon as practicable after completion of the technical conference deliberations, the presiding officers are instructed to submit to the Commission a report containing their recommendations as to the resolution of the matters raised in the November 23, 1981 amendment to the application.[2] Simultaneous with submission to the Commission, the presiding officers shall serve copies of their report on all parties to Docket Nos. CP78-123, *et al.*, and CP80-435. By this order, the Commission will invite comments on that report. The deadline for filing comments will be 21 days after the date of issuance of the report, and the deadline for filing reply comments will be 35 days after the date of issuance of the report.

The report shall specify the date upon which it was issued, and the dates upon which comments and reply comments are due (calculated as described above). Comments and reply comments will be addressed to the Commission and will be considered with the comments received in response to the above referenced order of August 21, 1981.

The Commission orders:

(A) The technical conferences in Docket No. CP80-435 shall be reconvened to consider the data presented in the second amendment to Alaskan Northwest's application. Barry M. Smoler of the Commission's Office of the General Counsel, and J. Richard Berman, Director of Audit and Cost Analysis of the Office of the Federal Inspector, are designated as the presiding officers at the reconvened technical conferences. At the conclusion of the technical conferences, the presiding officers shall submit a report to the Commission containing their recommendations with respect to the data considered at the conferences. Simultaneously with submission of their report to the Commission, copies of that report shall be served on all parties to Docket No. CP78-123, *et al.*, and No. CP80-435.

(B) Parties of record in Docket No. CP78-123, *et al.*, and No. CP80-435 may submit comments and reply comments

[1] *See* Order No. 31, "Order Setting Values for the Incentive Rate of Return, Establishing Inflation Adjustment and Change in Scope Procedures, and Determining Applicable Tariff Provisions," Docket No. RM78-12 (June 8, 1979); "Order No. 31-B on Rehearing," Docket No. RM78-12 (September 6, 1979).

[2] We note that the report of the Alaskan Delegate and OFI Division Director, attached to the Commission's above referenced order of August 21, 1981, recommended deferring approval of the management plan costs pending preparation by the project sponsors of a detailed management plan. In the event that Alaskan Northwest supplies additional data on that subject at the reconvened technical conferences, such data should be considered by the presiding officers in their report.

on the matters discussed in the report described in ordering paragraph (A) above. Comments may be filed no later than 21 days from the date of issuance of the report, and reply comments may be filed no later than 35 days from the date of issuance of the report. Comments and reply comments should be submitted to the Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, and should reference Docket No. CP80–435. An original and 14 conformed copies should be filed. All written submissions will be placed in the Commission's public files and will be available for public inspection in the Commission's Office of Public Information, 825 North Capitol Street, NW., Washington, D.C., during regular business hours. Copies of all comments and reply comments should be served on all parties to Docket No. CP78–123, *et al.*, and No. CP80–435.

(C) The Secretary of the Commission shall cause this notice and order to be published in the **Federal Register**, and shall serve copies of this notice and order on all parties to the proceedings in Docket No. CP78–123, *et al.*, and Docket No. CP80–435.

By the Commission.

Kenneth F. Plumb,

Secretary.

Take notice that on November 23, 1981, Alaskan Northwest Natural Gas Transportation Company (Applicant), P.O. Box 1526, Salt Lake City, Utah 84110, filed in Docket No. CP80–435–002, pursuant to Section 7(c) of the Natural Gas Act and Section 9 of the Alaska Natural Gas Transportation Act of 1976, an amendment to its application filed July 1, 1980 in the instant docket, as amended November 17, 1980, for a certificate of public convenience and necessity authorizing the construction and operation of the Alaskan pipeline segment of the Alaska Natural Gas Transportation System (ANGTS) so as to provide the Commission with information necessary for it to establish the Certification Cost Estimate (CCE) and Center Point for the Alaska pipeline segment of the ANGTS, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Applicant states that on September 22, 1977, the President issued his *Decision and Report to Congress on the Alaska Natural Gas Transportation System (Decision),* selecting the Alcan Pipeline Company to construct and operate the Alaska pipeline segment of the ANGTS. Condition IV–2 of the *Decision* states that the Commission may use the "final capital cost estimates" for the U.S. segments of the ANGTS as the basis for fixing "a variable rate of return on equity." The variable rate of return would increase the ANGTS sponsors' allowable return on equity for cost underruns and decrease their return for cost overruns. The Commission implemented the *Decision's* variable rate of return concept in the Incentive Rate of Return (IROR) mechanism established by Orders 31 and 31–B.

Applicant states that pursuant to the IROR mechanism, Applicant's rate of return will be determined by a comparison of the target costs for the project with actual costs. Under Orders 31 and 31–B, the target costs for the Alaska pipeline segment are the CCE, which is comprised of a base engineering estimate and a normal contingency, as adjusted for any approved design or scope changes, plus an allowance for abnormal events that could cause the CCE to increase. The allowance for cost impacts from abnormal events is covered by the Center Point.

Applicant further states that in accordance with the requirements of Orders 31 and 31–B, Applicant filed its CCE and Center Point estimates with the Commission on July 1, 1980. Applicant requested therein a CCE of $7.90 billion and a Center Point Ratio of 1.292 for a total target cost estimate of $10.2 billion. Applicant asked the Commission to institute proceedings to review the CCE and Center Point estimates in advance of the other issues which must be resolved prior to final certification of the Alaskan pipeline segment. The Commission, by order issued August 1, 1980, initiated a subproceeding in Docket No. CP80–435 to consider Applicant's CCE and Center Point estimates.

Applicant states that on October 27, 1980, it amended its CCE and Center Point estimates to take into account certain cost increases resulting from the anticipated Right-of-Way Grant over Federal lands in Alaska to be issued by the Department of the Interior. The revisions resulted in a CCE of $8.18 billion and Center Point allowance of $2.30 billion for a total target cost of $10.48 billion, a net increase of $280 million over the July filing.

Applicant further states that on August 21, 1981, the Alaskan Delegate and the OFI Division Director issued their final report. The Commission gave notice of the final report that same day and requested that interested persons file initial comments on or before September 18, 1981, and reply comments on or before October 13, 1981.

Applicant asserts that the report determined that the design which was the basis of the CCE was sufficiently complete for purposes of establishing the CCE and Center Point, and recommended that the CCE be set at $6.73 billion. The report recommended that CCE approval of certain items totalling $887 million be deferred for further Commission proceedings because there was not sufficiently detailed information to set a CCE value for these items. These deferred items included State of Alaska socioeconomic and third party monitoring costs, communications and supervisory systems, project management, and related contingency amounts. Additionally, the report recommended that the Center Point be set at 1.2.

Applicant states that in its Initial Comments on the Final Report, Applicant advised the Commission that its review of the CCE permitted a reduction in the CCE of $203 million, including the $70 million reduction previously agreed to by Applicant in its comments on the draft report, resulting in a total target cost of $10.21 billion (CCE of $7.93 billion plus Center Point allowance of $2.28 billion) (excluding finance charge). The Reply Comments filed by Applicant further advised the Commission that Applicant would shortly be filing adjustments to its CCE estimate reflecting its prior agreement with certain recommended reductions, detailed estimates for deferred items, and certain other adjustments. The amendment filed on November 23, 1981 presents these adjustments.

Applicant states that the July 1, 1980 filing, as amended October 27, 1980, contained a CCE of $8.18 billion. The CCE adjustments contained in this instant filing reflect Applicant's prior agreement with certain recommended reductions in the base estimate, detail the cost estimates for deferred items and items for which cost estimation was not possible at the time of the July 1, 1980 filing, reflect design modifications resulting from coordination of the design of the pipeline and gas conditioning plant, and incorporate certain other revisions. These adjustments result in a net increase to the October 1980 CCE of $373 million, for a CCE of $8.55 billion. The Center Point allowance of $2.28 billion remains unchanged, resulting in a total target cost of $10.83 billion. The Center Point Ratio, however, is reduced to 1.267 from 1.282, because of the upward adjustment to the CCE.

Applicant states that the net upward adjustment of $373 million is the result of 17 adjustments, as follows:

Description	Dollar amount (000's)
Schedule Adjustment to 1986/1987 Heating Season	$106,340
FERC Report Reconciliation Adjustment	(102,108)
Delete Metering Station No. 1	(11,193)
Eliminate Refrigeration System Full Load Tests	(24,949)
Two Compressor Unit Design, Stations 2, 4 and 7	33,054
New Camps Adjustment	183,000
Communications Estimate Adjustment	6,387
Pipeline Alignment Changes	4,015
Affirmative Action Program Adjustment	2,880
Alyeska Data Acquisition	93,230
Third Party Monitoring and Other Related Government Cost Adjustment	(153,918)
Alaska Highway Repair	120,000
Precertification Cost Adjustment	23,829
Tax Adjustment	22,792
Insurance Adjustment	19,463
FERC Filing Fees and Permits Adjustment	10,457
Normal Contingency Adjustment (12%)	40,021
Total CCE Adjustments	373,300

Applicant provides the following brief explanation of each adjustment:

A. *Schedule Change.* The July 1980 CCE filing, as revised in October 1980, was based on a 1985–1986 winter heating season commencement for pipeline operation. The commencement date has been delayed one year to the winter heating season of 1986–1987. This delay requires an extra year of expenses, including staffing, the extension of the duration of the use of certain facilities, and other similar cost increases associated with a project delay. The one-year schedule delay results in an increase of $106 million.

B. *FERC Report Reconciliation Adjustment.* This adjustment, excluding full load testing of refrigeration systems, reflects Applicant's prior agreement with certain recommended reductions in the Compressor and Metering Station, Pipeline, Temporary Facilities and Services, and Project Directorate areas of the base estimate, totalling $102 million.

C. *Delete Metering Station No. 1.* The design upon which the July 1980 CCE was based provided for two meter stations. Since the submission of the CCE for the Alaska pipeline segment, Applicant and the major North Slope producers have been cooperating in the design and engineering of the pipeline and the gas conditioning plant. Coordination of the design of the pipeline and plant indicates that it would be more cost effective and operationally efficient to combine Meter Station No. 1 with metering facilities in the plant. Elimination of Meter Station No. 1 results in a reduction of $11 million.

D. *Eliminate Refrigeration Full Load Testing.* This adjustment reflects Applicant's agreement with the recommendation that full load testing of the refrigeration systems is unnecessary, provided that the refrigeration subsystems are tested to ensure performance according to design specifications. Elimination of full load testing results in a reduction of $25 million.

E. *Two Compressor Design.* The July 1980 filing included one 25,000 BHP compressor at each of the seven compressor stations. Coordination of the design and engineering for an integrated pipeline and gas conditioning plant indicates a need for stand-by compression at the first three compressor stations. Absent the spare compressors, there is an increased danger that the failure of one of these stations would result in a pressure build-up in the plant necessitating shut down of the plant or the flaring of gas. These stand-by compressors would increase the reliability of the pipeline and further ensure the ability of the ANGTS to accept gas conditioning plant output without interruption. The additional compressors result in an increase of $33 million.

F. *New Camps.* The July 1980 filing was premised on the purchase from Alyeska of 21 existing camps (13 to be used at existing sites) and their renovation for use in the construction of the Alaska pipeline segment of the ANGTS. Because negotiations with Alyeska have been unsuccessful, the Temporary Facilities and Services portion of the CCE has been adjusted to account for the cost of constructing new pipeline camps at 10 existing Alyeska locations and three new locations. The new locations are required because the existing sites are owned or leased pursuant to long-term agreements by Alyeska. The change to new camps results in an increase of $183 million.

G. *Communications and Supervisory Systems.* The estimate contained in the July 1980 CCE filing for Communications and Supervisory Systems was $97 million, based on the arithmetic average of four bids—two each for a land-based system and a satellite system. Because the estimate for communications was not based on a specific design, the final report recommended that consideration of a CCE value for the Communications and Supervisory Systems area be deferred. The final report further noted that a cost effective communications design should attempt to utilize existing communications facilities in Alaska as much as practicable, although the report also recognized that litigation concerning the TAPS communication system hampered negotiations at the time of the July 1980 CCE filing.

Alaskan Northwest has now prepared an estimate for communications based on a specific design. This design is a "hybrid" design, with utilizes existing microwave systems, supplemented by new satellite earth stations. The new cost estimate for Communications and Supervisory Systems is $103 million, or $6 million more than the July 1980 estimate.

H. *Pipeline Alignment.* The October 1980 amendment to Applicant's CCE filing was caused by the requirement in the Department of the Interior's Right-of-Way Grant of a 200-foot minimum separation between the Alyeska oil pipeline and the ANGTS. Following Applicant's October 1980 filing with the Commission, the pipeline alignment was reviewed by other state and Federal Government agencies and further modifications were required to accommodate certain environmental, geographic, and geotechnical concerns. The cost of these revisions is included in this adjustment and amounts to an increase of $4 million.

I. *Affirmative Action.* The July 1980 CCE filing included an initial estimate for the management of the affirmative action program required by Section 17 of the Alaska Natural Gas Transportation Act and the implementing regulations (43 CFR Part 34). However, Applicant could not fully estimate the costs of implementing an affirmative action program until the Federal Inspector had approved its affirmative action plan and until issuance of the Federal Right-of-Way Grant, which imposed new requirements relating to Alaskan Natives. The Right-of-Way Grant was issued on December 1, 1980, and the Federal Inspector approved the Applicant's affirmative action plan on August 31, 1981. With these regulatory approvals in place, Applicant was able to prepare a cost estimate for implementing an affirmative action program. Implementing an affirmative action program is now estimated to cost $25 million, or $3 million more than the July 1980 estimate.

J. *Alyeska Data Acquisition.* The final report recognizes that the cost of purchasing design and geotechnical data from Alyeska that were used in preparing the design and engineering estimates for the Alaska gas pipeline segment is appropriate for inclusion in the CCE. This adjustment covers the cost of purchasing such data. Because the Alaskan gas pipeline will be constructed in relatively close proximity to the TAPS line, this data provides immediate access to information required to design a gas system to traverse a similar route. The estimated payment for Alyeska data is an increase of $93 million.

K. *Third Party Monitoring.* The State of Alaska submitted a revised estimate

for its surveillance and socioeconomic costs on February 13, 1981. The CCE is being adjusted to reflect the revised Alaska estimate. However, as previously stated in the July 1980 CCE filing and Applicants's comments on the final report, actual third party monitoring and governmental related costs should be substituted for the estimated cost included in the CCE when the Cost Performance Ratio is calculated. The new State estimate results in a reduction of $153.9 million.

L. *Highway Repair.* The State of Alaska has notified Applicant of its intention to charge the project $300 million in advance for the estimated cost of highway repairs resulting from project activities. The final report advised that if these costs were to be included in the CCE, an estimate should be submitted to the Commission. Although Applicant is prepared to pay the license and permit fees and fuel taxes imposed on all persons using Alaska highways, it does not believe this unprecedented advance payment, which may bear no relation to the project's highway usage, should be assessed against the project, particularly when such a payment would be applied in a highly discriminatory manner solely to Applicant and to no other sponsor of major projects in the State. For the information of the Commission, Applicant has estimated highway repair costs to be $120 million, with the understanding that such amount would only be attributed to the State of Alaska license and permit fees and fuel taxes applied in a nondiscriminatory manner to all highway users.

M. *Qualified Expenditures.* These are the pre-partnership, pre-certification costs incurred by the three project sponsors who joined the Partnership after the July 1980 filing (Columbia Alaskan Gas Transmission Corporation, Tetco Four, Inc., and TransCanada PipeLine Alaska, Ltd.). Applicant agrees with the FERC Trial Staff that the filed amount of $24 million for qualified expenditures should be included in the CCE for IROR purposes, but that the Commission should substitute the actual amounts it approves when it reaches a decision in its pending show cause proceeding in Docket No. CP78–123, *et al.*, on the inclusion of these amounts in rate base.

N. *Taxes.* Taxes have been recomputed on the basis of the revised estimate. In addition, upward and downward adjustments have been made with respect to the State of Alaska *ad valorem* tax, the North Slope Borough sales and use tax, and the North Slope Borough property tax. These adjustments result in an increase of $23 million in estimated taxes.

O. *Estimate.* The estimate for insurance costs increases with the higher estimate for capital costs, and has been recalculated using the same assumptions employed in the July and October 1980 filings. The increase in insurance costs is estimated to be $19 million.

P. *FERC Filing Fees and Permits.* The filing fee under 18 CFR 159.2 has been recomputed because of the cost estimate revisions. This results in an increase of $10 million in the Commission filing fee. As with the treatment of qualified expenditures, Applicant agrees with Staff that the actual fee paid to the Commission should be substituted for the estimated fee when the correct filing fee has finally be determined.

Q. *Contingency.* The 12 percent normal contingency, which the final report found to be reasonable, was applied to the adjusted base engineering estimate of $7.63 billion to produce a contingency of $916 million.

Applicant asserts that the foregoing adjustments are the final cost revisions Applicant would propose for purposes of establishing the CCE and Center Point values under the IROR mechanism subject only to possible schedule revisions.

Any person desiring to be heard or to make any protest with reference to the above described second amendment to the application of Alaskan Northwest Natural Gas Transportation Company filed on November 23, 1981 in Docket No. CP80–435–002, should, on or before January 20, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10 and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. (However, persons who are already parties to Docket No. CP78–123, *et al.*, of No. CP80–435 may participate fully in the Commission's proceedings on the above described second amendment to application without filing any further petitions for that purpose.)

Kenneth F. Plumb,

Secretary.

[FR Doc. 81–36162 Filed 12–17–81; 8:45 am]

BILLING CODE 6717–01–M

[Project No. 3706–001]

American Hydro Power Co.; Application for Short-Form License (Minor)

December 15, 1981.

Take notice that American Hydro Power Company (Applicant) filed on September 25, 1981, an application for license [pursuant to the Federal Power Act 16 U.S.C. 791(a)–825(r)] for construction and operation of a water power project to be known as the Mussers Dam Project No. 3706. The project would be located on Middle Creek in Snyder County, Pennsylvania. Correspondence with the Applicant should be directed to: Mr. Peter A. McGrath, American Hydro Power Company, Two Aldwyn Center, Villanova, Pennsylvania 19085.

Project Description—The proposed project would consist of: (1) an existing 31-foot high, 384-foot long earthfill and timber dam located approximately 0.8 miles upstream of the confluence of Middle Creek with Penns Creek; (2) an existing reservoir with negligible storage capacity; (3) a proposed powerhouse to contain units with an installed capacity of 350 kW; and (4) appurtenant works. The Mussers Dam and Reservoir is owned by the Pennsylvania Fish Commission.

The Applicant estimates that the average annual energy output would be 1,248,000 kWh.

The application was filed during the term of the Applicant's preliminary permit for the Mussers Dam Project, issued April 9, 1981.

Purpose of Project—The energy generated by the project would be sold to a local public utility.

Agency Comments—Federal, State and local agencies that receive this notice through direct mailing from the Commission are requested to provide comments pursuant to the Federal Power Act, the Fish and Wildlife Coordination Act, the Endangered Species Act, the National Historic Preservation Act, the Historical and Archeological Preservation Act, the National Environmental Policy Act, Pub. L. No. 88–29, and other applicable statutes. No other formal requests for

comments will be made.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before February 22, 1982, either the competing application itself [See 18 CFR 4.33 (a) and (d) (1980)] or a notice of intent [See 18 CFR 4.33 (b) and (c) (1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than the time specified in § 4.33(c).

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the rules of practice and procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests or petitions to intervene must be received on or before February 22, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS," "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST," or "PETITION TO INTERVENE," as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Project No. 5599-000]

Anthony B. DeCou and Ruth Ann DeCou; Application For Preliminary Permit

December 15, 1981.

Take notice that Anthony B. DeCou and Ruth Ann DeCou (Applicant) filed on November 3, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 5599 to be known as the DeCou Ranch Project located on Rock and Falls Creeks in the Inyo National Forest in Mono County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Anthony B. DeCou, Route 4, Box 17A–4, Bishop, California 93514.

Project Description—The proposed project would consist of: (1) an intake structure at elevation 6,270 feet on Falls Creek; (2) a 6-inch diameter pipe to a settling pond at elevation 5,725 feet; (3) an intake structure at elevation 6,290 feet on Rock Creek; (4) an 8-inch diameter pipe to the settling pond; (5) a 10-inch diameter pipe from the settling pond to a 30-kW generating unit at elevation 5,285 feet on Applicant's property. Applicant estimates that the project would have an average annual generation of 440 MWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. During the term of the permit Applicant would conduct a detailed financial feasibility study of the project and prepare an application for license. Applicant estimates that the feasibility study would cost $300.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must submit to the Commission, on or before March 22, 1982, the competing application itself, or a notice of intent to file such an application [see: 18 CFR 4.30 et seq. (1981); and Docket No. RM81–15, issued October 29, 1981, 46 FR 55245, November 9, 1981.]

The Commission will accept applications for license or exemption from licensing, or a notice of intent to submit such an application in response to this notice. A notice of intent to file an application for license or exemption must be submitted to the Commission on or before February 22, 1982, and should specify the type of application forthcoming. Any application for license or exemption from licensing must be filed in accordance with the Commission's regulations [see 18 CFR 4.30 et. seq. or section 4.101 et. seq. (1981), as appropriate].

Submission of a timely notice of intent to file an application for preliminary permit, allows an interested person to file an acceptable competing application for preliminary permit no later than March 22, 1982.

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the rules of practice and procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 22, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. And additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-36164 Filed 12-17-81, 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5564-000]

Bitterroot Conservation District; Application for Preliminary Permit

December 11, 1981.

Take notice that Bitterroot Conservation District (Applicant) filed on October 23, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for Project No. 5564 to be known as the Painted Rocks Dam Project located on West Fork Bitterroot River in Ravalli County, Montana. The project is located within Bitterroot National Forest. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Dr. Richard Ormsbee, Bitterroot Conservation District, 111 Old Corvallis Road, Hamilton, Montana 59840.

Project Description—The proposed project would consist of: (1) the existing 160-foot high earthfilled Painted Rocks Dam; impounding; (2) a reservoir with a capacity of 32,400 acre-feet; (3) the modification of the outlet works; (4) a powerhouse containing two generating units, each rated at 1,000 kW; and (5) a transmission line. The average annual energy generation is estimated to be 9.5 million kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant seeks issuance of a preliminary permit for a period of 36 months, during which time it would conduct engineering, economic feasibility, and environmental studies, and prepare an FERC license application. No new roads would be required to conduct the studies. The cost is estimated to be $100,000.

Competing Applications—This application was filed as a competing application to City of Billings' application for Project No. 4635 filed on May 7, 1981. Public notice of the filing of the initial application, which has already been given, established the due date for filing competing applications or notices of intent. In accordance with the Commission's regulations, no competing application for preliminary permit, or notices of intent to file an application for preliminary permit or license will be accepted for filing in response to this notice.

Any application for license or exemption from licensing, or notice of intent to file an exemption application, must be filed in accordance with the Commission's regulations [see: 18 CFR 4.30 et. seq. or 4.101 et seq. (1981), as appropriate].

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's rules may become a party to the proceeding. Any comments, protests or petitions to intervene must be received on or before January 12, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulation to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 208 RB at the above address. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-36165 Filed 12-17-81, 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5395-000]

City of Darrington, Wash.; Application for Preliminary Permit

December 11, 1981.

Take notice that the City of Darrington (Applicant) filed on September 22, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for Project No. 5395 to be known as the Lime Creek Hydropower Project located on Lime Creek within the Baker National Forest, near Darrington in Snohomish County, Washington. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: City of Darrington, P.O. Box 422, Darrington, Washington 98241, Attention: Mayor Geraldine Inman.

Project Description—The proposed project would consist of: (1) an 8-foot high, 80-foot long diversion structure; (2) a 14,000-foot long diversion canal; (3) a 42-inch diameter, 5,900-foot long penstock; (4) a powerhouse containing a single generating unit with a nameplate capacity of 8.1 MW, and (5) a 14-mile long transmission line. Applicant estimates that the average annual energy production would be 45,900,000 kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant has requested a 24-month permit to prepare a definitive project report, including preliminary designs, geological, environmental and economic feasibility studies. The cost of the above activities, along with the preparation of an environmental impact report, obtaining agreements with the U.S. Forest Service and other Federal, State, and local agencies, preparation of an FERC license application, conducting final field studies and preparing designs is estimated by the Applicant to be $100,000.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must submit to the Commission, on or before February 17, 1982, the competing application itself, or a notice of intent to file such an application [see: 18 CFR 4.30 et seq. (1981)].

The Commission will accept applications for license or exemption from licensing, or a notice of intent to submit such an application in response to this notice. A notice of intent to file an application for license or exemption must be submitted to the Commission on or before February 17, 1982, and should specify the type of application forthcoming. Any application for license or exemption from licensing must be filed in accordance with the Commission's regulations [see: 18 CFR 4.30 et.seq. or 4.101 et. seq. (1981), as appropriate].

Submission of a timely notice of intent to file an application for preliminary permit, allows an interested person to file an acceptable competing application for preliminary permit no later than April 15, 1982.

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application.

(A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 17, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", " COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-36168 Filed 12-17-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5621-000]

County of Mono, Calif.; Application for Preliminary Permit

December 15, 1981.

Take notice that the County of Mono, California (Applicant) filed on November 6, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 5621 to be known as the Rock Creek Hydroelectric Project located on Rock Creek near the Town of Bridgeport in Mono County, California. The project would occupy lands of the United States within the Inyo National Forest. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Neil B. Van Winkle, County Counsel, County Courthouse, Bridgeport, California 93517.

Project Description—The proposed project would consist of: (1) an intake structure within the east bank of Rock Creek; (2) a 20,600-foot long channel/pipeline; (3) a 48-inch diameter, 200-foot long penstock; (4) a powerhouse containing generating units with a combined rated capacity of 4,000 kW; and (5) appurtenant facilities.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant has requested a 36-month permit to prepare a definitive project report including preliminary designs, results of geological, environmental, and economic feasibility studies. The cost of the above activities, along with preparation of an environmental impact report, obtaining agreements with the Forest Service and other Federal, State, and local agencies, preparing a license application, conducting final field surveys, and preparing designs is estimated by the Applicant to be $50,000.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must submit to the Commission, on or before February 22, 1982, the competing application itself, or a notice of intent to file such an application [see: 18 CFR 4.30 et. seq. (1981); and Docket No. RM81-15, issued October 29, 1981, 46 FR 55245, November 9, 1981.]

The Commission will accept applications for license or exemption from licensing, or a notice of intent to submit such an application in response to this notice. A notice of intent to file an application for license or exemption must be submitted to the Commission on or before February 22, 1982, and should specify the type of application forthcoming. Any application for license or exemption from licensing must be filed in accordance with the Commission's regulations [see: 18 CFR 4.30 et. seq. or 4.101 et seq. (1981), as appropriate].

Submission of a timely notice of intent to file an application for preliminary permit, allows an interested person to file an acceptable competing application for preliminary permit no later than April 20, 1982.

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the rules of practice and procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests or petitions to intervene must be received on or before February 22, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE, Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-36167 Filed 12-17-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5411-000]

Crown Zellerbach Corp.; Application For Exemption of Small Hydroelectric Facility

December 14, 1981.

Take notice that on September 23, 1981, Crown Zellerbach Corporation (Applicant) filed an application, under section 30 of the Federal Power Act (Act) [16 U.S.C. 823(a)], for exemption of a proposed hydroelectric project from requirements of Part I of the Act. The proposed Port Townsend Mill Hydro-Turbine Generator Project (FERC Project No. 5411) would be located on Crown

Zellerbach's Port Townsend Mill existing 20-inch water supply line, Port Townsend City, Jefferson County, Washington. Correspondence with the Applicant should be directed to: Mr. S.B. Weldon, Crown Zellerbach Corporation, One Bush Street, San Francisco, California 94104.

Project Description—The power generated by the proposed project would be sild to the Puget Sound Power and Light Company.

Purpose of Project—The proposed project would consist of: (1) the existing 20-inch diameter pipeline; (2) a new 58-foot long, 20-inch diameter pipeline; (3) a powerhouse with single generator and installed capacity of 400 kW; and (4) a 150-foot long, 12.5–kV transmission line from the powerhouse to an existing Puget Power Company line. The Applicant estimates that the average annual energy production would be 2.7 million kWh.

Agency Comments—The U.S. Fish and Wildlife Service, The National Marine Fisheries Service, and the Washington State Department of Fisheries and Department of Game are requested, for the purposes set forth in section 408 of the Act, to submit within 60 days from the date of issuance of this notice appropriate terms and conditions to protect any fish and wildlife resources or to otherwise carry out the provisions of the Fish and Wildlife Coordination Act. General coments concerning the project and its resources are requested; however, specific terms and conditions to be included as a condition of exemption must be clearly identified in the agency letter. If an agency does not file terms and conditions within this time period, that agency will be presumed to have none. Other Federal, State, and local agencies are requested to provide any comments they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within 60 days from the date of issuance of this notice, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the rules of practice and procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 1, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal EnergyRegulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-36168 Filed 12-17-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5644-000]

Energenics Systems, Inc.; Application For Preliminary Permit

December 14, 1981.

Take notice that Energenics Systems, Inc. (Applicant) filed on November 13, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 5644 to be known as the Horsetooth project located on Horsetooth Reservoir and the Charles Hansen Canal near Ft. Collins, Larimer County, Colorado. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Thomas Clark, Jr, President, Energenics Systems, Inc., 1727 Q Street, N.W., Washington, D.C. 20009.

Project Description—The proposed project would utilize the existing Horsetooth Dam and Reservoir and the Charles Hansen Canal, both owned and operated by the U.S. Department of the Interior, Bureau of Reclamation. Applicant would utilize the existing outlet conduit at the dam and construct a powerhouse containing two turbine-generator units with a total rated capacity of 3 MW and a 3-mile long transmission line. The project would generate up to 14,000,000 kWh annually. Energy produced at the project would be sold to Platt River Power Authority or the Western Area Power Authority.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The work proposed under this preliminary permit would include economic evaluation, engineering plans, and an environmental assessment. Based on results of these studies, Applicant would decide whether to proceed with more detailed studies and the preparation of an application for license to construct and operate the project. Applicant estimates that the work to be performed under this preliminary permit would cost $35,000.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must submit to the Commission, on or before March 18, 1982, the competing application itself [see: 18 CFR 4.30 et. seq. (1981)]. A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

The Commission will accept applications for license or exemption from licensing, or a notice of intent to submit such an application in response to this notice. A notice of intent to file an application for license or exemption must be submitted to the Commission on or before February 18, 1982, and should specify the type of application forthcoming. Applications for licensing or exemption from licensing must be filed in accordance with the Commission's regulations [see: 18 CFR 4.30 et. seq. or 4.101 et. seq. (1981), as appropriate].

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the rules of practice and procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must

be received on or before February 18, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-36169 Filed 12-17-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5654-000]

Flathead Joint Board of the Flathead, Mission and Jocko Valley Irrigation Districts; Application For Preliminary Permit

December 14, 1981.

Take notice that Flathead Joint Board of the Flathead, Mission and Jocko Valley Irrigation Districts (Applicant) filed on November 16, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 5654 to be known as the Hubbart Dam Power Project located on Little Bitterroot River in Flathead County, Montana. This project lies on lands under the management of the Department of the Interior. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Everitt Foust, President, Flathead Joint Board of the Flathead, Mission and Jocko Valley Irrigation Districts, P.O. Box 69, Moiese, Montana 59824.

Project Description—The proposed project would consist of: (1) the existing Hubbart Dam and Hubbart Reservoir, spillway and outlet works; (2) a powerhouse containing a single generating unit with a capacity of 250 kW; and (3) an 18-mile long, 12.5–kV transmission line. Applicant estimates that the average annual energy production would be 0.61 million kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant has requested a 36-month permit to prepare a definitive project report, including preliminary designs, results of geological, environmental and economic feasibility studies. The cost of the above activities, along with the preparation of an environmental impact report, obtaining agreements with the Department of the Interior and other Federal, State and local agencies, preparing a license application, conducting final field surveys, and preparing designs is estimated by the Applicant to be $55,000.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must submit to the Commission, on or before March 18, 1982, the competing application itself [see: 18 CFR 4.30 et seq. (1981)]. A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

The Commission will accept applications for license or exemption from licensing, or a notice of intent to submit such an application in response to this notice. A notice of intent to file an application for license or exemption must be submitted to the Commission on or before February 18, 1982, and should specify the type of application forthcoming. Applications for licensing or exemption from licensing must be filed in accordance with the Commission's regulations [see: 18 CFR 4.30 et seq. or 4.101 et seq. (1981), as appropriate].

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the rules of practice and procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 18, 1982.

Filing and Service of Responsive Documents—Any filing must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-36170 Filed 12-17-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5653-000]

Flathead Joint Board of the Flathead, Mission and Jocko Valley Irrigation Districts; Application for Preliminary Permit

December 15, 1981.

Take notice that Flathead Joint Board of the Flathead, Mission and Jocko Valley Irrigation Districts (Applicant) filed on November 16, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 5653 to be known as the Mission Dam power project located on Mission Creek in Lake County, Montana. The project would lie on lands under the management of the U.S. Bureau of Indian Affairs, U.S. Department of the Interior. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Everitt Foust, President, Flathead Joint Board of the Flathead, Mission and Jocko Valley Irrigation Districts, P.O. Box 69, Moiese, Montana 59824.

Project Description—The proposed project would consist of: (1) the existing Mission Dam, Mission Reservoir, a spillway and outlet works; (2) a powerhouse containing a single generating unit with a capacity of 300 kW; and (3) 1.5 miles of transmission line. Applicant estimates that the

average annual energy production would be 1.3 million kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant has requested a 36-month permit to prepare a definitive project report, including geological, environmental and economic feasibility studies. The cost of the above activities, along with the preparation of an environmental impact report, obtaining agreements with the U.S. Bureau of Indian Affairs, and other Federal, State and local agencies, and preparing a license application is estimated by the Applicant to be $55,000.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must submit to the Commission, on or before March 22, 1982, the competing application itself [see: 18 CFR 4.30 et seq. (1981)]. A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

The Commission will accept applications for license or exemption from licensing, or a notice of intent to submit such an application in response to this notice. A notice of intent to file an application for license or exemption must be submitted to the Commission on or before February 22, 1982, and should specify the type of application forthcoming. Applications for licensing or exemption from licensing must be filed in accordance with the Commission's regulations [see: 18 CFR 4.30 et seq. or 4.101 et seq. (1981), as appropriate].

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the rules of practice and procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 22, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-36171 Filed 12-17-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5655-000]

Flathead Joint Board of the Flathead, Mission and Jocko Valley Irrigation Districts; Application for Preliminary Permit

December 15, 1981.

Take notice that Flathead Joint Board of the Flathead, Mission and Jocko Valley Irrigation Districts (Applicant) filed on November 16, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 5655 to be known as the Post Creek Power Project located on Post Creek in Lake County, Montana. Project lands are located within the Flathead Indian Reservation. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Everitt Foust, President, Flathead Joint Board of the Flathead, Mission and Jocko Valley Irrigation Districts, P.O. Box 69, Moiese, Montana 59824.

Project Description—The proposed project would consist of: (1) the existing McDonald Dam; McDonald Reservior, spillway and outlet works; (2) a powerplant at the existing McDonald Dam utilizing the existing outlet works tunnel; (3) a powerplant downstream from McDonald Dam along Post Creek which would include a check and intake structure and a 4-foot diameter, 9,000-foot long penstock; and (4) a 7-mile long transmission line. The powerhouse at the McDonald Dam site would contain 2 generating units with a total rated capacity of 400 kW and would have an estimated average annual energy output of 1.34 GWh. The powerhouse at Post Creek would contain 2 generating units with a total rated capacity of 1,500 kW and would have an estimated average annual energy output of 6.95 GWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant has requested a 36-month permit to prepare a definitive project report, including geological, environmental and economic feasibility studies. The cost of the above activities, along with the preparation of an environmental impact report, obtaining agreements with the U.S. Bureau of Indian Affairs, Department of the Interior, and other Federal, State and local agencies, and preparing a license application is estimated by the Applicant to be $100,000.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must submit to the Commission, on or before March 22, 1982, the competing application itself [see: 18 CFR 4.30 et seq. (1981)]. A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

The Commission will accept applications for license or exemption from licensing, or a notice of intent to submit such an application in response to this notice. A notice of intent to file an application for license or exemption must be submitted to the Commission on or before February 22, 1982, and should specify the type of application forthcoming. Applications for licensing or exemption from licensing must be filed in accordance with the Commission's regulations [see: 18 CFR 4.30 et seq. or 4.101 et seq. (1981), as appropriate].

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application (A copy of the application may be obtained by agencies directly from the (Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the rules of practice and procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to

intervene in accordance with the Commission's rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 22, 1982.

Filing and Service of Responsive Documents— Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-36172 Filed 12-17-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 2266-005]

Nevada Irrigation District; Application For Amendment of License

December 15, 1981.

Take notice that on October 5, 1981, Nevada Irrigation District (Licensee) filed an application for amendment of its license for the Yuba-Bear Hydroelectric Project No. 2266 to add Jackson Meadows and Bowman Powerplants in Nevada and Sierra Counties near Sierra City, California. Portions of the project are located in Tahoe National Forest administered by the U.S. Forest Service. Correspondence with the Licensee should be directed to: Ms. Carole B. Friedrich, President, Nevada Irrigation District, P.O. Box 1019, Grass Valley, California 95945.

Licensee seeks authorization to construct, operate and maintain:

(A) *Jackson Meadows Powerplant* which would consist of: (1) a wye combining two outlets of the existing 190-foot high Jackson Meadows Dam and Reservoir; (2) a 350-foot long, 5-foot diameter penstocks; and (3) a main power transfer to step up generation voltage from 4.16 kV to 69 kV. The transmission line would be constructed by the utility that purchases the project output. The Licensee estimates the cost of the proposed project to be $2,215,000.

(B) *Bowman Powerplant* which would consist of: (1) a 4.5-foot diameter penstock connecting the outlet works penstock of the existing 140-foot high Bowman Dam and Reservoir with: (2) a powerhouse with a total installed capacity of 3,000 kW; and (3) a main power transfer to step-up generation voltage from 4.16 kV to 69 kV. The transmission line would be constructed by the utility that purchases the project output. The Licensee estimates the cost of the proposed project to be $1,785,000.

Comment, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the rules of practice and procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a part to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 5, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", OR "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-36173 Filed 12-17-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5294-000]

Plumas County Flood Control & Water Conservation District; Application for Preliminary Permit

December 14, 1981.

Take notice that Plumas County Flood Control and Water Conservation District (Applicant) filed on August 28, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a) 825(r)] for Project No. 5294 to be known as the Chambers Creek Water Power Project located on Chambers and Jackass Creeks near Storrie within Plumas and Lassen National Forests in Plumas County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the applicant should be directed to: Mr. Lawrence J. Brock, Coordinator, PCFC&WCD, Rte 1, Box 279, Quincy, California 95971.

Project Description—The proposed project would consist of:

(1) A 5-foot high diversion structure at Chambers Creek;

(2) A 5-foot high diversion structure at Jackass Creek;

(3) A 1,100-foot long, 24-inch diameter low pressure conduit and a 1,000-foot long, 24-inch diameter pressure conduit conveying water diverted from Jackass Creek into an impact basin at Chambers Creek located upstream of the Chambers Creek diversion;

(4) A 3,300-foot long, 36-inch diameter low pressure pipeline or channel conveying water diverted from Chambers Creek;

(5) A transition structure;

(6) A 8,700-foot long, 21-inch diameter penstock;

(7) A powerhouse with a total installed capacity of 4,800-kW, and

(8) A 0.125-mile long, 12.5-KV transmission line interconnecting with an existing Pacific Gas and Electric transmission line.

The Applicant estimates that the average annual energy output would be 13 million kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The Applicant seeks issuance of a preliminary permit for a period of 36 months, during which it would conduct technical, environmental, economic, and financial studies; and prepare an FERC license application.

Competing Applications—This application was file a competing application to Joseph A. McKinley's application for Project No. 4704-000 filed on May 20, 1981. Public notice of the filing of the initial application, which

has already been given, established the due date for filing competing applications or notices of intent. In accordance with the Commission's regulations, no competing application for preliminary permit, or notices of intent to file an application for preliminary permit or license will be accepted for filing in response to this notice. Any application for license or exemption from licensing, or notice of intent to file an exemption application, must be filed in accordance with the Commission's regulations [see: 18 CFR 4.30 et. seq. or 4.101 et. seq (1981), as appropriate].

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before January 29, 1982.

Filing and Service of Responsive Documents—Any filing must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Room 208 RB at the above address. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-36174 Filed 12-17-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5600-000]

Springfield Utility Board; Application for Preliminary Permit

December 14, 1981.

Take notice that Springfield Utility Board (Applicant) filed on November 3, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 5600 to be known as the Springfield Canal Power Project located on Willamette River and Middle Fork of Willamette River in Lane County, Oregon. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Steve L. Loveland, Springfield Utility Board, 250 North "A" Street, P.O. Box 300, Springfield, Oregon 97477.

Project Description—The proposed project would consist of: (1) an existing concrete dam and mill pond on the Springfield Canal; (2) a 480-foot-long penstock; and (3) a powerhouse containing a single generating unit with a nameplate capacity of 300 kW. Applicant estimates that the average annual energy production would be 2.3 million kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant has requested a 36-month permit to prepare a definitive project report, including preliminary designs, results of geological, environmental and economic feasibility studies. The cost of the above activities, along with the preparation of an environmental impact report, obtaining agreements with Federal, State and local agencies, conducting final field surveys, and preparing designs is estimated by the Applicant to be $50,000.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must submit to the Commission, on or before March 18, 1982, the competing application itself [see: 18 CFR 4.30 et. seq. (1981)]. A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

The Commission will accept applications for license or exemption from licensing, or a notice of intent to submit such an application in response to this notice. A notice of intent to file an application for license or exemption must be submitted to the Commission on or before February 18, 1982, and should specify the type of application forthcoming. Applications for licensing or exemption from licensing must be filed in accordance with the Commission's regulations [see: 18 CFR 4.30 et. seq. or 4.101 et. seq. (1981), as appropriate].

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or petitions to intervene must be received on or before February 18, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-36175 Filed 12-17-81; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 5666-000]

Town of Greenfield; Application for Preliminary Permit

December 14, 1981.

Take notice that the Town of Greenfield (Applicant) filed on November 17, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–

825(r)] for Project No. 5666 to be known as the Greenfield Project located on the Green River in the Town of Greenfield, Franklin County, Massachusetts. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Michael Pill, New England Energy Development Systems, Inc., 109 Main Street, Amherst, Massachusetts 01002.

Project Description—The proposed project would consist of two developments described as follows:

(A) The Green One Development would consist of: (1) An existing dam comprised of a 147.5 foot long earth dike and a 100-foot long, 17-foot high concrete-ogee-type spillway dam; (2) a reservoir with negligible usable storage capacity; (3) a new 90-foot long penstock of undetermined composition and diameter; (4) a new powerhouse containing two turbine-generators with a total rated capacity of 71 kW; and (5) appurtenant facilities. Green One would generate up to 336,000 kWh annually.

(B) The Green Two Development would consist of: (1) An existing 135-foot long, 12-foot high, concrete-ogee-type spillway dam; (2) a reservoir with negligible usable storage capacity; (3) a new 50-foot long penstock of undetermined composition and diameter; (4) a new powerhouse containing three turbine-generators with a total rated capacity of 106 kW; and (5) appurtenant facilities. Green Two would generate up to 564,000 kWh annually.

Both dams are owned by the Applicant. Energy produced at the project would be sold to Northeast Utilities Service Company.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. The work proposed under this preliminary permit would include engineering plans, and an environmental assessment. Based on results of these studies, Applicant would decide whether to proceed with more detailed studies and the preparation of an application for exemption or license to construct and operate the project. Applicant estimates that the work to be performed under this preliminary permit would cost $15,000.

Competing Applications—Anyone desiring to file a competing application for preliminary permit must submit to the Commission, on or before March 18, 1982, the competing application itself [see: 18 CFR 4.30 et. seq. (1981)]. A notice of intent to file a competing application for preliminary permit will not be accepted for filing.

The Commission will accept applications for license or exemption from licensing, or a notice of intent to submit such an application in response to this notice. A notice of intent to file an application for license or exemption must be submitted to the Commission on or before February 18, 1982, and should specify the type of application forthcoming. Applications for licensing or exemption from licensing must be filed in accordance with the Commission's regulations [see: 18 CFR 4.30 et. seq. or 4.101 et. seq. (1981), as appropriate].

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions to Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the rules of practice and procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's rules may become a party to the proceeding. Any comments, protest, or petitions to intervene must be received on or before February 18, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Foom 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

Office of Hearings and Appeals

Cases Filed; Week of November 20 Through November 27, 1981

During the week of November 20 through November 27, 1981, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under DOE procedural regulations, 10 CFR Part 205, any person who will be aggrieved by the DOE action sought in these cases may file written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of the regulations, the date of service of notice is deemed to be the date of publication of this notice (December 18, 1981) or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

George B. Breznay,

Director, Office of Hearings and Appeals.

December 9, 1981.

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS

(Week of Nov 20 through Nov. 27, 1981)

Date	Name and location of applicant	Case No	Type of submission
Nov 23, 1981	Commonwealth Oil & Refining Company Washington, D C	HEE-0004	Exception from the Entitlements Program. If granted: Commonwealth Oil & Refining Company would receive an exception from the provisions of 10 CFR 211 67 which would modify its entitlements purchase obligations for the January 1981 Entitlements Notice
Nov 23, 1981	Mallard Resources, Inc . Washington, D C	HRD-0014	Motion for Discovery. If granted: Discovery would be granted to Mallard Resources, Inc. in connection with the Statement of Objections submitted in response to the Proposed Remedial Order (Case No BRO-1466) issued to Glen A. Martin, et al by the Office of Enforcement.
Nov 23, 1981	San Joaquin Refining Company Newport Beach, Calif	HYR-0012	Request for Modification/Rescission. If granted: The September 22, 1981, Decision and Order (Case No BYR-0159) issued to San Joaquin Refining Company by the Office of Hearings and Appeals would be modified regarding the firm's participation in the entitlements program
Nov 23, 1981	Texaco, Inc , White Plains, N Y	HRZ-0005	Interlocutory Order If granted: The Office of Special Counsel for Compliance would be deemed to have admitted certain matters set forth in Texaco Inc 's Statement of Factual Objection's First Submission in Case No DRO-0199
Nov 23, 1981	True Oil Company, Casper, Wyo	HRD-0013	Motion for Discovery If granted: Discovery would be granted to True Oil Company in connection with the Statement of Objections submitted in response to the August 6, 1981 Proposed Remedial Order (Case No BRO-1464) issued to the firm by the Economic Regulatory Administration
Nov 23, 1981	True Oil Company, Casper, Who	HRH-005	Motion for Evidentiary Hearing. If granted: An Evidentiary Hearing would be convened in connection with the Statement of Objections submitted by True Oil Company in response to the August 6, 1981, Proposed Remedial Order (Case No BRO-1464) issued to the firm by the Economic Regulatory Administration
Nov 23, 1981	Watkins, Ludlam, & Stennis, Jackson, Miss	HFA-0017	Appeal of Information Request Denial If granted: The September 8, 1981, Information Request Denial issued by the Chicago Operations Office would be rescinded, and Watkins, Ludlam, & Stennis would receive access to specific contract proposals
Nov 24, 1981	Office of Special Counsel/Atlantic Richfield Company	HRD-0015, HRJ-0001	Motion for Discovery and Protective Order. If granted: Discovery would be granted to the Office of Special Counsel in connection with the Statement of Objections submitted in response to the Proposed Remedial Order (Case No BRO-1452) issued to Atlantic Richfield Company. The Office of Special Counsel would enter into a Protective Order with Atlantic Richfield Company regarding the release of propretary information to the Office of Special Counsel in connection with Atlantic Richfield Company's Objection (Case No BRO-1452)
Nov 24, 1981	Phibro Corporation, Washington D C	HFA-0018	Appeal of Information Request Denial. If granted: The October 28, 1981, Information Request Denial issued by the Economic Regulatory Administration would be rescinded and Phibro Corporation would receive access to certain DOE information
Nov 25, 1981	Office of Enforcement/Hillcrest Automotive Service Pasadena, Calif	HRW-0001, HRR-0013	Proposed Remedial Order Finalization Modification/Rescission. If granted: The Office of Enforcement has requested that a Proposed Remedial Order issued to Hillcrest Automotive Service on October 31, 1980, be issued as a final Remedial Order. The October 31, 1980, Proposed Remedial Order issued to Hillcrest Automotive Service would be modified regarding repayment of overcharges
Nov 25, 1981	Office of Enforcement/Hipps Chevron Service, Orange, Calif	HRW-0002, HRR-0014	Proposed Remedial Order Finalization and Modification/Rescission. If granted The Office of Enforcement has requested that a Proposed Remedial Order issued to Hipps Chevron Service on October 31, 1980, be issued as a final Remedial Order The October 31, 1980, Proposed Remedial Order issued to Hipps Chevron Service would be modified regarding repayment of overcharges
Nov 25, 1981	Office of Enforcement/Johnny Cappo Auto Center, Orange, Calif	HRW-0003, HRR-0015	Proposed Remedial Order Finalization and Modification/Rescission If granted: The Office of Enforcement has requested that a Proposed Remedial Order issued to Johnny Cappo Auto Center on October 31, 1980, be issued as a final Remedial Order. The October 31, 1980, Proposed Remedial Order issued to Johnny Cappo Auto Center would be modified regarding repayment of overcharges
Nov 25, 1981	Standard Oil Company (Indiana), Chicago, Ill	HEG-0009	Petition for Special Redress. If granted The Office of Hearings and Appeals would review all exceptions previously granted by it for entitlements relief based on permanent expansion of a refiner's crude oil inventory

Office of Hearings and Appeals

Cases Filed; Week of November 27 Through December 4, 1981

During the week of November 27 through December 4, 1981, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under DOE procedural regulations, 10 CFR Part 205, any person who will be aggrieved by the DOE action sought in these cases may file written comments on the application within ten days of

service of notice, as prescribed in the procedural regulations. For purposes of the regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

George B. Breznay,

Director, Office of Hearings and Appeals.

December 14, 1981.

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS

[Week of Nov. 27, 1981, through Dec. 4, 1981]

Date	Name and location of applicant	Case No.	Type of submission
November 27, 1981	K.R. "Ken" Reanck, d/b/a Clearview Gulf Service Center, Metane, Louisiana.	HRX-0005	Supplemental Order. If granted: The November 5, 1981 Decision and Order issued by the Office of Hearings and Appeals regarding the firm's overcharges on sales of gasoline would be rescinded.
November 30, 1981	Dorian Duffin, Boise, Idaho	HFA-0019	Appeal of Information Request Denial. If granted: The October 15, 1981 Information Request Denial issued by Idaho Operations Office would be rescinded, and Dorian Duffin would receive access to certain DOE information.
November 30, 1981.	OSC/Texaco, Inc., Washington, D.C.	HRD-0018	Motion For Discovery. If granted: Discovery would be granted to the Office of Special Counsel in connection with the Statement of Objections to the May 1, 1979 Proposed Remedial Order (Case No. DRO-0199) issued to Texaco, Inc.
November 30, 1981	OSC/Texaco, Inc., Washington, D.C.	HRD-0019	Motion For Discovery. If granted: Discovery would be granted to the Office of Special Counsel in connection with the Statement of Objections by The Louisiana Land Exploration Company to the May 1, 1979 Proposed Remedial Order (Case No. DRO-0199) issued to Texaco, Inc.
December 1, 1981.	Riley, Flaurls, Auburn, Washington	HEE-0005	Exception from The Emergency Building Temperature Restrictions. If granted: Flaurs Riley would receive an exception from the provisions of 10 CFR Part 490, the Emergency Building Temperature Restrictions.
December 4, 1981.	BPM, Inc., Washington, D.C.	HFA-0020	Appeal of an Information Request Denial. If granted: The December 1, 1981, Information Request Denial issued by the Office of Special Investigation/General Counsel would be rescinded, and BPM, Inc. would receive access to information regarding the firm's business activities.
December 4, 1981.	Twin Montana, Inc., Washington, D.C.	HCX-0004	Supplemental Order. If granted: The February 20, 1980, Decision and Order (Case No. DRO-0349) issued to Twin Montana, Inc. by Office of hearings and Appeals would be modified as required by the November 20, 1981 Order issued by the Federal Energy Regulatory Commission.

NOTICES OF OBJECTION RECEIVED

[Week of Nov. 27, 1981 to Dec. 12, 1981]

Date	Name and location of applicant	Case No
Dec. 1 1981	Midler Oil Company, Alexandria, VA	BEE-1326

BILLING CODE 6450-01-M

Objection to Proposed Remedial Orders Filed; Week of November 23 Through November 27, 1981

During the week of November 23 through November 27, 1981, the notices of objection to proposed remedial orders listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Any person who wishes to participate in the proceeding the Department of Energy will conduct concerning the proposed remedial orders described in the Appendix to this Notice must file a request to participate pursuant to 10 CFR 206.194 on or before January 7, 1982. The Office of Hearings and Appeals will then determine those persons who may participate on an active basis in the proceeding and will prepare an official service list, which it will mail to all persons who filed requests to participate. Persons may also be placed on the official service list as non-participants for good cause shown.

All requests to participate in these proceedings should be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

George B. Breznay,

Director, Office of Hearings and Appeals.

December 14, 1981.

M & M Minerals Corp., Jackson, Mississippi, HRO-0018

On November 24, 1981, M & M Minerals Corp., R. W. Tyson, N. C. Ginther, R. E. Kleen, and G. G. Cornwell, Jackson, Mississippi filed a Notice of Objection to a Proposed Remedial Order which the DOE Southeast District Office of Enforcement issued to the firms on October 2, 1981.

In the PRO the Southeast District found that during the period September 1, 1973 to July 31, 1979, the operators of the L. L. Majors Lease violated the crude oil pricing rules contained in 10 C.F.R., Part 212, Subpart D by treating individual wells as separate properties in violation of 10 C.F.R. § 212.72 and Ruling 1977-2.

According to the PRO the violations by M & M Minerals, et al resulted in $247,206 of overcharges.

Mobile Oil Corp., Fairfax, Virginia, HRO-0022

On November 25, 1981, Mobil Oil Corporation (3225 Gallows Road, Fairfax, Virginia), the State of California, and the State of Michigan filed Notices of Objection to a Proposed Remedial Order which the DOE Southwest District Office of Special Counsel issued to the firm on September 28, 1981.

In the PRO the Southwest District found that during August 1973 to September 1976, Mobil overstated its increased product costs available for Recovery.

According to the PRO the Mobil violation resulted in $15,654,636 of overcharges.

Shell Oil Co., Houston, Texas, HRO-0019

On November 25, 1981, the Controller of the State of California and Shell Oil Company of Houston, Texas filed Notices of Objection to a Proposed Remedial Order which the DOE Office of Special Counsel issued to the firm on November 10, 1981.

In the PRO the Office of Special Counsel determined that Shell should recompute its maximum allowable prices for each month

from August 1973 through April 1979 in accordance with the Office's methodology for calculating both domestic and foreign crude oil costs and refund any overcharges resulting from such calculations.

Shell Oil Co., Houston, Texas, HRO–0020

On November 25, 1981, the Attorney General of the State of Michigan and Shell Oil Company of Houston, Texas filed Notices of Objection to a Proposed Remedial Order which the DOE Office of Special Counsel issued to the firm on November 10, 1981.

In the PRO the Office of Special Counsel determined that Shell should recompute its maximum allowable prices for each month from August 1973 through April 1979 in accordance with the Office's methodology for calculating both domestic and foreign crude oil costs and refund any overcharges resulting from such calculations.

Shell Oil Co., Houston, Texas, HRO–0021

On November 25, 1981, Shell Oil Co., P.O. Box 2463, Houston, Texas 77001 filed a Notice of Objection to a Proposed Remedial Order which the DOE Office of Special Counsel issued to the firm on November 10, 1981.

In the PRO the Office of Special Counsel found that Shell be required to recompute its maximum allowable price for each month from January 1977 through February 1980 in accordance with the Office of Special Counsel's methodology for calculating increased non-product costs associated with Shell's OP–5 unit at its Norco complex and be required to refund any overcharges resulting from such calculations.

BILLING CODE 6450–01–M

Office of the Secretary; Proposed Subsequent Arrangements

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of proposed "subsequent arrangements" under the Agreements for Cooperation Between the Government of the United States of America and the Governments of Canada and Japan Concerning Civil Uses of Atomic Energy, as amended.

The subsequent arrangements to be carried out under the above mentioned agreements involve approval of the following contracts:

Contract Number S–CA–312, for the sale of 606.96 grams of natural uranium to Eldorado Nuclear Ltd., Ontario, Canada.

Contract Number S–JA–301, for the sale of 10.32 grams of natural uranium and 2 grams of thorium to the Siesshin Trading Co., Ltd., Kobe, Japan.

The above materials are to be used as standard reference materials.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that the furnishing of these nuclear materials will not be inimical to the common defense and security.

These subsequent arrangements will take effect no sooner than fifteen days after the date of publication of this notice.

For the Department of Energy.

Dated: December 11, 1981.

Harold D. Bengelsdorf,

Director, Office of International Nuclear and Non-Proliferation Policy.

ENVIRONMENTAL PROTECTION AGENCY

[ER–FRL–2010–5]

Availability of Environmental Impact Statements Filed Pursuant to 40 CFR Part 1506.9

RESPONSIBLE AGENCY: Office of Federal Activities, EPA.

INFORMATION CONTACT: Ms. Kathi Wilson (202) 245–3006.

EIS FILED: December 7–11, 1981.

COMMENT DUE DATES: Drafts—February 1, 1982; Finals—January 18, 1982.

Corps of Engineer (COE): Draft—Coosa River Navigation Project, Montogomery to Gadsden, Baldwin County, Alabama (EPS EIS #810990)

COE: Draft—Lower Mobile Bay Natural Gas Production, Permit, Mobile and Baldwin Counties, Alabama (EPA EIS #810999)

COE: Draft—Western Long Island Sound Disposal Site, Connecticut and New York, REDUCED REVIEW 1/18/82 (EPA EIS #811008)

COE: Draft—Hampton Roads, Norfolk and Newport News Harbors Debris Removal, Virginia (EPA EIS #810989)

COE: Final—New Haven Harbor Navigation Improvement, New Haven County, Connecticut (EPA EIS #811003)

COE: Final—Clarks Hill Lake, Operation and Maintenance, Georgia and South Carolina (EPA EIS #811005)

COE: Final—Arthur Kill Fossil Fueled Power Plant, Permit, Richmond County, New York (EPA EIS #810991)

COE: Draft Supplement—West Branch Papillion Creek Flood Control, Douglas and Sarpy Counties, Nebraska (EPA EIS #810995)

COE: Report—Sault Ste. Marie Facilities, Operation and Maintenance, Chippewa County, Michigan (EPA EIS #810992)

DOC: National Oceanic and Atmospheric Administration (NOAA): Draft—Coral and Coral Reefs FMP, Gulf of Mexico and South Atlantic (EPA EIS #810996)

Department of Energy: Final—Jonesboro-Hergett 161 kV Transmission Line, Craighead County, Arkansas (EPA EIS #810971)

DOT: Federal Highway Administration (FHWA): Draft—TN–1 Improvement, TN–1 to TN–145, Rutherford and Cannon Counties, Tennessee (EPA EIS #810997)

DOT: FHWA: Final—Nassau Expressway Construction, Queens and Nassau Counties, New York (EPA EIS #810988)

EPA: Headquarters: Final—North Atlantic Incineration Site Designation, Delaware and New York (EPA EIS #811002)

EPA: Headquarters: Final—Vieques Dredged Material Disposal Site, Puerto Rico (EPA EIS #811001)

Federal Energy Regulatory Commission (FERC): Final—Florida Pipeline System, Natural Gas Curtailment, Florida (EPA EIS #810993)

FERC: Final—Rocky Mountain Pipeline Project, Wyoming, Utah and Nevada (EPA EIS #811004)

Department of Housing and Urban Development (HUD): Draft—Countryside Development, Mortgage Insurance, Loudoun County, Virginia (EPA EIS #811000)

HUD: Draft—Meadowbrooke Park Development, Mortgage Insurance, Laramie County, Wyoming (EPA EIS #810998)

HUD: Final Supplement—Park Forest South New Community, Title VII Termination, Will County, Illinois (EPA EIS #811006)

USDA: Soil Conservation Service: Draft—West Buttrick Creek Watershed Flood Protection, Webster County, Iowa (EPA EIS #810994)

Correction: DOC: NOAA: Draft—Louisiana World Exposition, Jefferson Parish, Louisiana (EPA EIS #811007); should have appeared in FR 12/11/81—review terminates 1–25–82

Comments on Environmental Impact Statements and Other Actions Impacting the Environment—Availability of Report

AGENCY: Office of Federal Activities (A–104), EPA.

SUMMARY: Pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969, and section 309 of the Clean Air Act, as amended, EPA has reviewed and commented in writing on Federal agency actions impacting the environment. A report which identifies EPA's comments released during November 1981 has been prepared and is available upon request. To obtain a copy of this report you should contact: Management Information Unit, Office of Federal Activities (A-104), U.S. Environmental Protection Agency, Washington, D.C. 20460.

Dated: December 15, 1981.

Paul C. Cahill,

Director, Office of Federal Activities.

Intent To Prepare Environmental Impact Statements

AGENCY: Environmental Protection Agency, EIS Section, Region IV, 345 Courtland Street, NE., Atlanta, Georgia 30365.

FOR FURTHER INFORMATION CONTACT: Ronald J. Mikulak (Wetlands Disposal); Dario J. Dal Santo (Tri-State Snyfuels), Telephone: (404) 881-7458 or (FTS) 258-7458.

SUMMARY: Pursuant to EPA regulations for the preparation of EIS's (40 CFR Part 6), EPA announces its intention to prepare two Environmental Impact Statements (EIS). The first Draft EIS will study the disposal of wastewater to freshwater wetlands. This is a generic study which will evaluate existing wetlands disposal practices and problems and develop a strategy or procedure to determine the feasibility and acceptability of using wetlands for wastewater disposal in Region IV's eight southeastern states. EPA has organized Institutional and Technical Review Committees and additionally requests written comments relating to the scope and content considerations for the Draft EIS. Written comments will be accepted for 45 days. The second Draft EIS relates to the issuance of a New Source Dicharge Permit to the Tri-State Synfuels Company (TSSC) for the proposed Henderson County synthetic fuels facility. TSSC proposes to utilize an indirect coal liquefaction process based on Lurgi gasification technology to convert approximately 28,000 tons/day of high sulfur coal to synthetic natural gas and liquid fuels. The proposed facility will be located adjacent to Ohio River mile 809. EPA will hold a meeting to discuss the scope of this Draft EIS on January 27, 1982 in the Henderson County High School auditorium located at 2424 Zion Road in Henderson, Kentucky at 7:30 p.m. Detailed Notices of Intent which describe the two proposals have been distributed and can be obtained by contacting the person specified above.

Dated: December 15, 1981.

Paul C. Cahill,

Director, Office of Federal Activities.

BILLING CODE 6560-37-M

[W-4-FRL-2007-2]

Proposed NPDES Program Revision for North Carolina To Acquire Pretreatment Program Approval

AGENCY: Environmental Protection Agency.

ACTION: Notice of intent to approve a revision to the National Pollutant Discharge Elimination System (NPDES) Permit Program for North Carolina to delegate pretreatment authority to the state.

SUMMARY: In order to seek approval of a state pretreatment program, the North Carolina Department of Natural Resources and Community Development has requested a National Pollutant Discharge Elimination System (NPDES) program revision under the Clean Water Act of 1977, pursuant to 40 CFR 123.13 and 40 CFR 403.10(g).

The State has submitted a completed application on implementation of a state pretreatment program. The state program must be designed to sufficiently provide for attainment of the published national objectives in 40 CFR 403.2 as follows: (a) To prevent the introduction of pollutants into publicly owned treatment works (POTW's) which will interfere with the operation of a POTW, including interference with its use or disposal of municipal sludge; (b) to prevent the introduction of pollutants into POTW's which will pass through the treatment works or otherwise be incompatible with such works; and (c) to improve opportunities to recycle and reclaim municipal and industrial wastewaters and sludges.

DATES: Persons wishing to comment or request a public hearing upon the proposed state pretreatment program submittal are invited to submit them in writing on or before January 18, 1982. A public hearing will be held if there is significant public interest based on the requests received. Public notice of any public hearing will be published at least forty-five (45) days prior to the hearing.

ADDRESSES: Comments should be addressed to the U.S. Environmental Protection Agency, Region IV, 345 Courtland St., N.E., Atlanta, Georgia, 30365, ATTN: Earline Hanson.

The proposed pretreatment program submittal may be reviewed by the public between the hours of 8:15 A.M. and 4:30 P.M. Monday through Friday at the U.S. Environmental Protection Agency, Region IV, Water Management Division, Water Permits Branch, 345 Courtland Street, N.E., Atlanta, Georgia, 30365 or by writing to the same address. The submittal may also be reviewed or copied by contacting Mr. L. Page Benton, Jr., Chief, Water Quality Section, Division of Environmental Management, N.C. Department of Natural Resources & Community Development, P.O. Box 27687, Raleigh, N.C. 27611.

FOR FURTHER INFORMATION CONTACT: Mrs. Jeanette Maulding at the EPA, Region IV address above or by calling (404) 881-2328.

Dated: December 8, 1981.

Charles R. Jeter,

Regional Administrator.

BILLING CODE 6560-38-M

[OPTS-53032; TSH-FRL-2009-3]

Premanufacture Notices; Monthly Status Report for November 1981

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(d)(3) of the Toxic Substances Control Act (TSCA) requires EPA to publish a list in the **Federal Register** at the beginning of each month reporting the premanufacture notices (PMN's) pending before the Agency and the PMN's for which the review period has expired since publication of the last monthly summary. This is the report for November 1981.

DATE: Written comments are due no later than 30 days before the applicable notice review period ends on the specific chemical substance.

ADDRESS: Written comments to: Document Control Officer (TS-793), Management Support Division, Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-409, 401 M St., SW., Washington, DC 20460 (202-382-3532).

FOR FURTHER INFORMATION CONTACT: Kirk Maconaughey, Chemical Control Division (TS-794), Office of Toxic

Substances. Environmental Protection Agency, Rm. E–208, 401 M St., SW., Washington, DC 20460, (202–426–2601).

SUPPLEMENTARY INFORMATION: Section 5(a)(1) of TSCA (90 Stat. 2012 (15 U.S.C. 2604)) requires any person who intends to manufacture or import a new chemical substance to submit a PMN to EPA at least 90 days before manufacture or import commences. A "new" chemical substance is any substance that is not on othe Inventory of existing substances compiled by EPA under section 8(b) of TSCA. EPA first published the Initial Inventory on June 1, 1979. Notices of availability of the Inventory were published in the **Federal Register** on May 15, 1979 (44 FR 28558-Initial) and July 29, 1980 (45 FR 50544-Revised). The requirement to submit PMNs for new chemical substances manufactured or imported for commercial purposes became effective on July 1, 1979. EPA has 90 days to review a PMN once the Agency receives it (section 5(a)(1)). The section 5(d)(2) **Federal Register** notice indicates the date when the review period ends for each PMN. Under section 5(c), EPA may, for good cause, extend the review period up to an additional 90 days. If EPA determines that an extension is necessary, it will publish a notice in the **Federal Register.**

The monthly status report published in the **Federal Register** as required under section 5(d)(3), will identify: (a) PMNs received during the month; (b) PMNs received previously and still under review at the end of the month; (c) PMNs for which the notice review period has ended during the month; (d) chemical substances for which EPA has received a notice of commencement to manufacture; and (e) PMNs for which the review period has been suspended. Therefore, EPA is publishing the November 1981 PMN Status Report.

Interested persons may submit written comments on the specific chemical substance no later than 30 days before the applicable notice review period ends to the Document Control Officer (TS–793), Management Support Division. Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E–409, 401 M St., SW., Washington, DC 20460. Three copies of all comments shall be submitted, except that individuals may submit single copies of comments. The comments are to be identified with the document control number "[OPTS–53032]" and the specific PMN number. Nonconfidential portions of the PMNs, written comments received on individual PMNs, and other documents in the public record may be seen in Rm. E–106 at the above address between 8:00 a.m. and 4:00 p.m., Monday through Friday, excluding legal holidays.

Dated: December 10, 1981.

Woodson W. Bercaw,

Acting Director for Management Support Division.

PREMANUFACTURE NOTICES MONTHLY STATUS REPORT, NOVEMBER 1981

PMN No.	Identity/generic name	"Federal Register" Citation	Expiration date
I. 43 Premanufacture notices received during the month			
81–565	Generic name: Isocyanate modified polyester	46 FR 55558, Nov. 10, 1981	Jan. 31, 1982

81–589	1,4-dihydro-9,10-anthracenedione	46 FR 57633, Nov. 24, 1981	Do
81–590	1,4,4a,9a-tetrahydro-9,10-anthracenedione	do	Do
81–591	Generic name: Nitrogen-containing organic sulfide	46 FR 58178, Nov. 30, 1981	Feb 16, 1982
81–592	Sorbitan nonanoate	46 FR 58718, Nov. 30, 1981	Do
81–593	Sorbitan Nonanoate, poly(oxy-1,2-ethanediyl) derivatives	do	Do
81–594	Generic name: Mixed aromatic diazo dye	46 FR 58358, Dec. 1, 1981	Do
81–595	Generic name: Tall oil/soya/safflower-styrene/acrylic copolymer resin	do	Feb. 17, 1982
81–596	Generic name: Phenylenediimino-bis(chlorotria-zinylimino-substituted phenyleneazo-naphthalene trisulfonic acid), hexasodium salt.	46 FR 58359, Dec. 1, 1981	Do
81–597	Butanamide, 2-[(2-methoxyphenyl)azo)-N-(2,3-dihydro-2-oxo-1H-benzimiazol-5-yl)-3-oxo-	46 FR 58595, Dec. 2, 1981	Feb. 18, 1982
81–598	Generic name: A modified polymer of alkyl methacrylates, a substituted alkyl acrylate, a substituted alkane, an alkenoic acid and a vinyl aromatic compound.	do	Do
81–599	Generic name: Substitutedbenzenesulfonic acid salt	46 FR 58734, Dec. 3, 1981	Do
81–600	Generic name: Dichroic tetra-azo ester dye	do	Do
81–601	Generic name: Dichroic tetra-azo-dye	do	Do
81–602	Decanoic acid, decyl ester	46 FR 58735, Dec. 3, 1981	Feb 23, 1982
81–603	Generic name: A modified polymer of substituted and unsubstituted alkyl methacrylates, a substituted alkane, an alkenoic acid and an alkyl acrylate.	do	Do
81–604	2-chlorobenzamide	46 FR 60055, Dec. 8, 1981	Feb. 25, 1982
81–605	Generic name: Substituted benzophenone reacted with methyl silsequioxane	do	Do
81–606	Generic name: Substituted-(2-hydroxy-benzophenone oxy)propane	46 FR 60056, Dec. 8, 1981	Do
81–607	Generic name: Acrylic copolymer	46 FR 60055, Dec. 8, 1981	Feb. 28, 1982
II. Premanufacture notices received previously and still under review at the end of the month			
80–182	Generic name: Alkanedioic acids mixed alkanolamine salt	45 FR 54425, Aug. 15, 1980	Dec. 18, 1981.

PREMANUFACTURE NOTICES MONTHLY STATUS REPORT, NOVEMBER 1981—Continued

PMN No	Identity/generic name	"Federal Register" Citation	Expiration date
81-489	Generic name: Acrylic modified epoxy-ester resin	46 FR 49945, Oct 8, 1981	Dec 29, 1981
81-490	2,2-dimethyl-1,3-propanediol, polymer with 2-ethyl-2-hydroxymethyl-1,3-propanediol, 1,4-cyclohexane dimethanol, 1,6-hexanedioic acid, 1,3-isobenzofurandrone and tall oil acids.	do.	Do
81-491	Generic name: Amine salt of a phosponic acid	do	Do
81-492	1,3-bis(1-methylethenyl) benzene	do	Do
81-493	Generic name: Co-polymeric organopolysiloxane	46 FR 49946 Oct 8, 1981	Do
81-494	Generic name: (Alkylaminoalkyl)-(substituted) benzotriazole	do	Do
81-495	Bis(3,5-di-*tert*-butyl-4-hydroxybenzyl)malonic acid, diester with 1-acryloi-2,2,6,6-tetra-methyl-4-piperidinol	do	Do
81-496	3-hydroxy-1 propanesulfonic acid	do	Dec 30, 1981
81-497	Generic name: Polymers of alkylamines and aryl epoxides	46 FR 49947, Oct 8, 1981	Do
81-498	Generic name: Disubstitutedpolycarbocycle	46 FR 50149, Oct 9, 1981	Do
81-499	Generic name: Pentasubstitutedbenzopyran	do.	Do
81-500	2-dodecyl-9-H-thioxanthen-9-one	56 FR 50147, Oct 9, 1981	Jan 3, 1982
81-501	Generic name: Polyester of a substituted alkanediol and carbomonocyclic anhydride	do	Do
81-502	Generic name: Polymer of epon resin and alkane-dioic acid	46 FR 50148, Oct 9, 1981	Do
81-503	Generic name: Copolymer of alkylacrylates and methacrylates	do	Do
81-504	Generic name: Copolymer of alkylacrylates and methacrylates	do	Do
81-505	Generic name: Copolymer of alkylacrylates and methacrylates	do	Do
81-506	Generic name: Copolymer of alkylacrylates and methacrylates	do	Do
81-507	Generic name: Isocyanate functional polyester	46 FR 50410, Oct 13, 1981	Jan. 4, 1982
81-508	Generic name: Benzenedicarboxylic acid saturated mixed glycol polyester	do	Do
81-509	Generic name: Lower alkyl ester of an alkyl propionic acid	do	Do
81-510	Generic name: Heteromonocyclic fatty acid ester	46 FR 50411, Oct 13, 1981	Do
81-511	Generic name: Fatty acids, esters with trimethylol propane and a polyol	do	Do
81-512	Generic name: Substitutedheteroplycycle	46 FR 50840, Oct 15, 1981	Do.
81-513	Generic name: N-alkylhalogenatedbenzylamine	do	Jan 5, 1982
81-514	Generic name: Polyester from substituted alkane diols, alkanoic acids, and carbomonocyclic acids	46 FR 50841, Oct 15, 1981	Jan. 7, 1982
81-515	Generic name: Polymer of styrene and acrylic acid with substituted acrylates and methacrylates	do	Do
81-516	Generic name: Polymer of isophthalic acid, diethylene glycol, trimethylol propane, adipic acid, dimethyl ethanolamine, and trimellitic anhydride	do	Do
81-517	Generic name: Alkenyl tetracarbozylate	46 FR 50481, Oct 15, 1981	Do
81-518	Generic name: Oxepanone phthalate polymers	46 FR 50842, Oct. 15, 1981	Do
81-519	Generic name: Acrylic polyester resin	do	Do
81-520	Generic name: Isocyanate functional polyester	46 FR 51643, Oct 21, 1981	Jan 12, 1982
81-521	Generic name: Polymer of linseed oil, pentaerythritol, benzoic acid, and toluene diisocyanate	do	Do
81-522	Generic name: Substituted pyridine	46 FR 52225, Oct 26 1981	Do
81-523	Generic name: Modified polymer of substituted carbomonocycle, carbomonocyclic acid, alkanedioic acid, and a substituted alkanediol	do	Do
81-524	Generic name: Polyester from carbomonocyclic diacids, alkanedioic acid, alkane triol, and substituted alkane diols	do	Do
81-525	Generic name: Polyisobutenylsuccinic acid, metal salt	46 FR 52226, Oct 26, 1981	Do
81-526	Generic name: Hydrogenated dimer fatty acid polyamide resin	do	Do.
81-527	Generic name: Tnsubstitutedheteropolycyclic salt	46 FR 52416, Oct 27, 1981	Jan. 14, 1982
81-528	Generic name: Tnsubstitutedheteropolycyclic salt	do	Do
81-529	Generic name: Polymer of alkyl and polyfluro-alkyl acrylates	do	Jan. 15, 1982
81-530	Generic name: Substitutedthiol salt	do	Do
81-531	Generic name: Dialkylated polyalkylene polyamine	46 FR 52418, Oct. 27, 1981	Jan. 17, 1982
81-532	Generic name: Tetrafunctional secondary aromatic amine	46 FR 53209, Oct. 28, 1981	Jan 18, 1982
81-533	Generic name: Titanium (4) diisopropoxide disbustituted complex	do	Do.
81-534	Generic name: 2,3-epoxycyclohexanone	46 FR 53522 Oct 29, 1981	Jan. 19, 1982
81-535	Generic name: Heteromonocycle modified fumarated rosin ester	do	Do.
81-536	Generic name: Polymer from a carbomonocyclic anhydride, alkanedioic acid and substituted alkane diols.	do.	Do
81-537	1-amino-4-(phenylamino)-9, 10-dihydro-9, 10-dioxo-2-[2'-methoxyethyl)oxo] anthracene	do	Do
81-538	Sodium salt of the sulfonated reaction products of 1-amino-4-(phenylamino)-9,10-dihydro-9,10-dioxo-2-anthracene	46 FR 53523, Oct 29, 1981	Do
81-539	Sodium salt of the sulfonated reaction products of 1-amino-4-(phenyl-amino)-9,10-dihydro-9,10-dioxo-2-[(2'-methoxyethyl)oxo] anthracene.	do.	Do
81-540	Poly(oxy-1,2-ethanediyl),α-(l-oxononyl)-w-[(l-oxononyl)oxyl]	46 FR 54403, Nov 2, 1981	Do
81-541	Generic name: Substituted alkenoic acid methyl ester	do	Do
81-542	Generic name: Substituted propiophenone	do	Do.
81-543	3-hydroxy-1-propanesulfonic acid monosodium salt	46 FR 54792, Nov 4, 1981	Jan 24, 1982
81-544	Generic name: Benzenesulfonic acid, 4-[[4-(2hydroxy-1-naphthalenyl)azo]phenyl]azo]-salt	do	Do
81-545	N,N -Isophthaloyl-bis(trimethylene urea)	do	Do
81-546	Generic name: Substituted carbopolycyclic polyazo poly-sulfonic acid, salt	do.	Jan. 23, 1982
81-547	1,4-bis(1-methylethenyl) benzene	46 FR 55001, Nov 5, 1981	Jan 25, 1982
81-548	Generic name: A polymer of acrylic and methacrylic acid derivatives, a vinly aromatic compound and a substituted propene compound	do	Do
81-549	Generic name: Aliphatic polyurethane-acryflc waterborne dispersion	46 FR 55002, Nov 5, 1981	Do
81-550	Generic name: Aliphatic polyurethane-acrylic waterborne dispersion	do	Do
81-551	Generic name: Aliphatic polyurethane-waterborne dispersion	do	Do
81-552	Generic name: Succinimide of poly(alkene) and alkene/alkene copolymer	do	Do
81-553	Generic name: Organic acid salt of the succinimide of poly(alkene) and alkene/alkene copolymer	do	Do
81-554	Generic name: Metal alkyl thiocarbonate	46 FR 55003, Nov 5, 1981	Do
81-555	Generic name: Sulfonylphenysilane	do	Do
81-556	Generic name: Sulfur containing polyamide	46 FR 55004, Nov. 5, 1981	Jan 26, 1982
81-557	Generic name: Substituted alkenyl alkanoate	46 FR 55146, Nov. 6, 1981	Jan. 27, 1982
81-558	4-hydroxy-3-(5-(2-hydroxysulfonyloxy) ethylsulfonyl)-2-methoxyphenylazo)-7-succinyl-amino-2-naphthalenesulfonic acid disodium salt	do	Do
81-559	5-Acetylamino-4-hydroxy-3-(2-hydroxyl-4-(2-hydroxy-sulfonyl) ethylsulfonyl)-5-methyphenylazo)-2,7-naphthalenedisulfonic acid trisodium salt complex	do	Do
81-560	3-carboxy-4-(4-(2-hydroxysulfonyloxy)ethylsulfonyl)phenylazo)-1-(3-sulfophenyl)-5-pyrazolone disodium salt	do	Do
81-561	4-[4-[2-(hydroxysulfonyoxy)ethylsulfonyl]-5-methyl-2-methoxyphenylazo]-3-methyl-l-(3-sulfophenyl)-5-pyrazolone disodium salt.	do	Do
81-562	Mono, di, and triethanolamine salts of benzoic and phthalic acids	46 FR 55147, Nov. 6, 1981	Jan 28, 1982
81-563	Generic name: N,N-disubstituted hetero monocyclic derivative	do	Do
81-564	Generic name: Disubstitutedbenzene	46 FR 55558, Nov 10, 1981	Do

PREMANUFACTURE NOTICES MONTHLY STATUS REPORT, NOVEMBER 1981—Continued

PMN No	Identity/generic name	"Federal Register" Citation	Expiration date
III. 57 Premanufacture notices for which the notice review period has ended during the month. (Expiration of the notice review period does not signify that the chemical had been added to the inventory)			
81-373	Benzendiazonium, 4,4 -bis(o-chloro)-dichlonde	46 FR 40801, Aug 12, 1981	Nov 1, 1981
81-374	Generic name: Dimethyl benzyl fatty quaternary amine	46 FR 40918, Aug 13, 1981	Do
81-375	Generic name: Alkyl aluminum halide	46 FR 42329, Aug 20, 1981	Nov. 3, 1981
81-376	Generic name: Alkyl aluminum halide	do	Do
81-377	Generic name: Polyamido polymethacrylate copolymer	46 FR 41857, Aug. 18, 1981	Dc
81-378	Generic name: Poly(1,4 butane/neopentyl adipate)	46 FR 40803, Aug 12, 1981	Do
81-379	Generic name: Amine sulfide	46 FR 42329, Aug 20, 1981	Dc
81-380	Generic name: Alkylmethyl silicone glycol copolymer	46 FR 42330, Aug. 20, 1981	Nov 4, 1981
81-381	Generic name: Substituted phenyl butenone	46 FR 42191, Aug 19, 1981	Dc
81-382	Generic name: Polymer of disubstituted benzene, disubstituted benzene and substituted acrylic acid.	46 FR 42330, Aug 20, 1981	Nov 5 1981
81-383	Sodium salt of the sulfonated reaction products of 1-amino-4-(phenylamino)-9,10-dihydro-9,10-dioxo-2-[(3'propanesulfonic acid) oxo] anthracene.	do	Nov 9, 1981
81-384	1-amino-4-(phenylamino)-9,10-dihydro-9,10-dioxo-2-[(3'propanesulfonic acid) oxo] anthracene, sodium salt.	46 FR 42331, Aug 20, 1981	Do
81-385	Generic name: Copper phthalocyaninetnsulfonic acid, salt	46 FR 42751, Aug 24, 1981	Nov 10, 1981
81-386	Generic name: Polyacrylate homopolymer	46 FR 42910, Aug 25, 1981	Do
81-387	Generic name: Polymer of alkyl methacrylates and N-substituted methacrylamide	46 FR 44046, Sept. 2, 1981	Nov 11, 1981
81-388	Generic name: Polyether urethane prepolymer	46 FR 44047, Sept 2, 1981	Nov 10, 1981
81-389	Alkylphenol-modified xylene-formaldehyde resins	46 FR 42751, Aug 24, 1981	Nov 9, 1981
81-390	Phenol-modified xylene-formaldehyde resins	do	Do
81-391	Generic name: Acrylic polymer	46 FR 44047, Sept 2, 1981	Nov 11, 1981
81-392	Generic name: Tnalkoxysilyl alkyl acrylamine	do	Nov 10, 1981
81-393	Generic name. Substituted dithiocarbamic acid salt	46 FR 44048, Sept. 2, 1981	Nov 12, 1981
81-394	Generic name: Capped urethane	46 FR 43300, Aug 27, 1981	Nov 16 1981
81-395	Generic name: Capped urethane	do	Do
81-396	Generic name: Diester of mixed dibasic acids	46 FR 44050, Sept 2, 1981	Nov 15 1981
81-397	Benzenesulfonic acid, 4-(2-((4-sulfooxyethyl) sulfonyl)2,6-dimethoxyphenyl)azo (acetoacetamdo)-2-methyl-5-methoxy-.	do	Dc
81-398	Generic name: Polymer of vinyl acetate and acrylate esters	46 FR 44049, Sept 2, 1981	Nov 18, 1981
81-399	Generic name: Polymer of propenoic acid, alkyl propenoates, and glycol monomethacrylate	do	Do
81-400	Generic name: Substituted carbocycle azo substituted sulfocarbocycle azo substituted carbopolycycle.	do	Dc
81-401	Generic name: C.I. Disperse Red 332 (Impurity of)	46 FR 44286, Sept 3, 1981	Do
81-402	Generic name: C.I. Disperse Yellow 226	do	Dc
81-403	Generic name: C.I. Disperse Red 332	46 FR 44287, Sept 3, 1981	Do
81-404	Generic name: C.I. Disperse Violet 96	do	Do
81-405	Coconut-diethylene glycol-adipicsophthalic resin	46 FR 44496, Sept 4, 1981	Nov 21 1981
81-406	Benzenemethanamne, benzene-ethenyl-N-methano-phosphonic acid/disodium salt, polymer with diethyl benzene.	do	Do
81-407	Generic name: Polyether polyaminoalcohol	do	Nov 22, 1981
81-408	Generic name: Alkenyl pyridine	do	Do
81-409	Polymer of an alkenoic acid, alkyl alkenoate and a substituted alkyl alkenoate	46 FR 44497, Sept 4, 1981	Do
81-410	Generic name: Salt of Bis(substiuted carbomonocyclic) substituted carbopolycycle	do	Nov 23, 1981
81-411	Generic name: Polymer of benzene carboxylic acids and alkanediols	do	Dc
81-412	Generic name: Polymeric alkenoic acid ester of substituted hydroxyalkyl, aryl ether	46 FR 45997 Sept. 16, 1981	Nov 25 1981
81-413	Acylate-methacrylate copolymer	46 FR 45412, Sept. 11, 1981	Nov 24, 1981
81-414	Generic name. Polyalkanediol polyurethane	46 FR 45997, Sept 16, 1981	Nov 29, 1981
81-415	Generic name: Polymer of a propenoic acid derivative and a heteromonocycle	do	Do
81-416	Generic name: Alkyl substituted polyalkylene polyamine	do	Do
81-417	Generic name: Modified poly(urea/urethane)	46 FR 45998, Seept. 16, 1981	Do
81-418	Generic name: Nitropolyhaloalkylbenzenepolyamine	do	Do
81-419	Generic name: Aliphatic ester	do	Nov 30, 1981
81-420	Generic name: Organo phosphorus-containing acid	do	Do
81-421	Bisphenol A-epichlorohydrin resin-mixed acrylic polymer	46 FR 45999, Sept 16, 1981	Do
81-422	Polymer of alkylpropenoate, propenoic acid, substituted propenoic acid, and vinyl benzene	do	Do
81-423	Generic name: Alkenyl succinic acid, monester	do	Do
81-424	Polyurethane thermoplastic	do	Do
81-425	Aromatic aliphatic branched polyester resin	46 FR 45808 Sept. 15, 1981	Do
81-427	Generic name: Epoxidized glycende polyoxy-ethylene ether	do	Do
81-428	Substituted heteromonocyclic derivaterve of a substituted thioxantheno isoquinolin	do	Dc
81-429	Generic name: Silicon substituted organic ester	do	Do
81-461	Benzene-methanamine, ar-ethenyl-N-methanophos-phonic, disodium salt, polymer with diethernyl-benzene	46 FR 47659, Sept 29, 1981	Nov 22, 1981
IV. 21 Chemical substances for which EPA has received notices of commencement to manufacture.			
80-25	Generic name: Bis(substituted-6,6,6-tnacryloyl-oxymethyl-4-oxahenyl)dimethyl-disubstituted heteromonocycle	45 FR 16331, Mar 13, 1981	May 4, 1981
80-321	Generic name: Polymer of an alkyl acrylate, an alkyl methacrylate, and a saturated cyclic methacrylate.	45 FR 82711, Dec. 16, 1981	Oct 26, 1981
81-95	Polymer of D-glucose, succinic acid, propanoic acid, 2-oxo, and galactose, mixed ammonium, calcium, magnesum, postassum, and sodum salt.	46 FR 19316, Mar 30, 1981	Nov 1, 1981
81-277	1,2 ethanediol, 2,5-furanedione, linseed fatty acids, and 1,1'-[(1-methylethylidene)bis(4,1-phenyleneoxy)]bis-2-propanol polymer.	46 FR 35345, July 8, 1981	Sept 21, 1981
81-300	Generic name: Alkenylated cyclohexanone	46 FR 37968, July 17, 1981	November 1981
81-301	Generic name: Substituted benzene sulfide sulfonic acid	46 FR 37085, July 17, 1981	Sept. 21, 1981
81-304	Generic name: 4-substituted amino-substituted-phenylazo-benthiazole sulfonic acid salt	46 FR 37967, July 23, 1981	Oct 30, 1981
81-312	Generic name: Alkenylated cyclohexanone	46 FR 37968, July 23, 1981	November 1981
81-319	2,4-dimethyl-4 phenyltetrahydrofuran	46 FR 45996, Sept. 16, 1981	Sept 29, 1981
81-326	Generic name: Alkyl sulfonic acid, organic-inorganic salt	46 FR 38578, July 28, 1981	Oct 14, 1981
81-350	Generic name: Oxalamide derivative	46 FR 39886, Aug. 5, 1981	Oct 26, 1981
81-353	Generic name: Mixed alkali metal and substituted amine salt of substituted sulfocarbocycle azo sulfocarbocycle azo substituted heterocycle sulfonic acid.	46 FR 39887, Aug. 5, 1981	Nov 2, 1981

PREMANUFACTURE NOTICES MONTHLY STATUS REPORT, NOVEMBER 1981—Continued

PMN No	Identity/generic name	"Federal Register" Citation	Expiration date
81-354	Generic name: Mixed alkali metal and substituted amine salt of substituted sulfocarbocycle azo sulfocarbocycle azo substituted carbocycle-sulfonic acid.	do	Do
81-355	Generic name: Condensation polymer of aromatic sulfonic acid and urea/triazine	do	Oct. 30, 1981
81-358	Polymer of tetrabromophthalic anhydride, isophthalic acid, neopentyl glycol, dipropylene glycol and maleic anhydride.	46 FR 39888, Aug. 5, 1981	Nov. 10, 1981
81-359	Copper para-toluenesulfonate hydrate	do	Dec. 1, 1981
81-366	Generic name: Sulfo phenyl azo naphthalenol, 2, 2',2''-nitrilotris[ethanol]salt	46 FR 40324, Aug. 7, 1981	Nov. 2, 1981
81-368	Generic name: Metallic beta dikenoate	46 FR 40323, Aug. 7, 1981	Nov. 9, 1981.
81-369	Generic name: Aliphatic polyamide	46 FR 40801, Aug. 12, 1981	Nov. 16, 1981
81-373	Benzendiazonium, 4,4'-bis(o-chloro)-dichloride	do	Nov. 2, 1981.
81-388	Generic name. Polyether urethane prepolymer	46 FR 44047, Sept. 2, 1981	Nov. 19, 1981

V. 7 Premanufacture notices for which the review period has been suspended

81-137	Benzeneamine, 4,4'-methylene bis [*N*-(1-methybutylidene)	45 FR 48243, July 18, 1980	Sept 22, 1980
81-138	Benzeneamine, 4,4'-methylene bis [*N*-1-methybutylidene	do	Do.
81-146	Phosphorodithoic acid *0,0'*-di(isohexyl, isoheptyl, isooctyl, isononyl, isodecyl) mixed esters, zinc salt.	45 FR 49153, July 23, 1980	Sept. 17, 1980

BILLING CODE 6560-31-M

FEDERAL COMMUNICATIONS COMMISSION

Advisory Committee for the 1985 ITU World Administrative Radio Conference on the use of the Geostationary Satellite Orbit and the Planning of the Space Services Utilizing it (Space WARC Advisory Committee); Meeting

December 9, 1981.

Meeting

January 27, 1982
9:30 a.m.– 1:00 p.m.
Commission Meeting Room (856)
Federal Communications Commission
1919 M Street NW.
Washington, D.C.

Agenda

(1) Approval of Agenda
(2) Opening Remarks from FCC Chairman Fowler
(3) Overview of Advisory Committee Work for 1982
(4) Working Groups
  (A) Introduction of Chairmen
  (B) Presentation of Work Plan by each Working Group Chairman
(5) Other Business
(6) Adjournment (1:00 p.m.)

William J. Tricarico,

Secretary, Federal Communications Commission.

[FR Doc. 81-36178 Filed 12-17-81; 8:45 am]

BILLING CODE 6712-01-M

[CC Docket No. 80-633; File No. ENF-80-6; FCC 81-476]

ITT, World Communications Inc.; Memorandum Opinion and Order

Adopted: October 7, 1981.
Released: December 10, 1981.

In the matters of ITT World Communications Inc., required rate of return, CC Docket No. 80-633, and ITT World Communications Inc., investigation into rate base and expenses, File No. ENF-80-6.

1. On November 14, 1980, we instituted a hearing into ITT World Communications Inc.'s (ITTWC's) required rate of return and a separate fact-finding investigation into its rate base and expenses. *ITT World Communications Inc.*, 82 FCC 2d 282 (1980) (*Designation Order*). We now consider petitions for reconsideration filed by ITTWC, RCA Global Communications, Inc. (RCAGC), and Western Union International, Inc. (WUI), as well as other motions, responsive pleadings and comments filed by ITTWC, RCAGC, WUI, TRT Telecommunications Corporation, the American Communications Association of the International Brotherhood of Teamsters, The Western Union Telegraph Company, Communications Satellite Corporation, American Telephone and Telegraph Company, the Department of Defense, and a Trial Staff composed of members of the Hearing Division of the Common Carrier Bureau.

2. We affirm our decision to inquire into ITTWC's required rate of return. For reasons of expedition and efficiency, and to maximize the use of available Commission resources, we have decided to terminate the separate fact-finding investigation into ITTWC's allowable rate base and expenses. We also restructure the rate of return proceeding from a full evidentiary hearing to a proceeding based largely upon simultaneous written submissions by all interested parties. After consideration of these submissions, the Commission will issue a decision and prescribe a rate of return. Thereafter, if necessary, ITTWC will file revised tariffs.

Discussion

I. Commision Inquiry Into ITTWC's Required Rate of Return Is Proper

3. Our decision to examine ITTWC's rate of return was based upon our obligation to assure that a carrier's rates for communications services are just and reasonable. 47 U.S.C. 151, 201(b). Given our statutory mandate, to assure service to the public with adequate facilities at no more than reasonable charges, it is the Commission's responsibility to investigate a regulated carrier's rate of return if the reasonableness of that return is questionable [1] "* * * [T]he Commission has an inherent right to enter upon an investigation and hearing concerning any matter over which it has jurisdiction." *Postal Telegraph-Cable Company, et al.*, 5 FCC 524, 527 (1938). *See also Nader* v. *FCC*, 520 F.2d 182, 203–204 (D.C. Cir. 1975).

4. In designating ITTWC's rate of return for hearing, we relied upon the results of the IRC audit in Docket No. 20778 (75 FCC 2d 726 (1980)) and recent financial data for the major IRCs filed

[1] The FCC last determined the lawful return for an IRC in the "bellwether" rate case. The Western Union Telegraph Company, 25 FCC 535 (1958).

with the Commission. This information revealed that ITTWC, of the major IRCs, achieved the highest rate of return overall and for its major services. In particular this data showed that ITTWC was earning at least a 20 percent overall rate of return after taxes. While we made no findings as to the level of return required by ITTWC to support its operations, we stated our belief "that these computed data compel a preliminary observation that ITTWC's earnings may be excessive." *Designation Order* at 284. We have reviewed that analysis, taking into account the relevant comments of the interested parties. Even after some modifications in our analysis based upon RCAGC's comments, ITTWC's rate of return continues to approach or exceed 20 percent, depending upon the method of calculation used. (*See* Appendix A, containing staff recalculations of rates of return for each of the major IRCs.)

5. Evidence of a rate of return in the 20 percent range, even in the face of current high interest rates, is sufficient justification for instituting further inquiry, even assuming that some discrepancies remain in the underlying data. The Commission's most recent rate cases have set rate of return prescriptions substantially below 20%. *See American Telephone and Telegraph Company,* 86 FCC 2d 221 (1981), which established an annual rate of return of 12.75% for AT&T and for the Bell System Operating Companies' interstate and foreign services; and *Communications Satellite Corporation,* 68 FCC 2d 941 (1978), which allowed an overall return of 11.48% with an additional 1% for efficiency pursuant to an earlier order, 56 FCC 2d 1101, 1173 (1975). Although significant departures may ultimately be justified between the rates of return set for AT&T and Comsat and for ITTWC, a rate of return in the 20% range raises a sufficient question to warrant this inquiry.

6. As the comments indicate, there are numerous methods which the Commission may employ to determine a reasonable rate of return for ITTWC. One method would set an industry-wide rate of return based upon the average rate of return of two or more IRCs. Another method would establish a rate of return for each IRC. A bellwether rate approach would focus exclusively upon a single carrier (to be determined in the course of the proceeding). The comments also suggested full evidentiary hearings to be utilized with each method or the opportunity for hearing on any proposed rate reduction.

7. However, the Commission is not required to use any particular method for determining a carrier's rate of return. As we have recently stated, "the Commission is not bound to a single ratemaking approach. Under the statutory [Section 205] standard of 'just and reasonable', it is the result reached and not the method employed that is controlling." *Deregulation of Telecommunications Services,* 84 FCC2d 445, 484 (1981). *Cf. In Re Permian Basin Area Rate Cases,* 390 U.S. 747, 776–777 (1968), noting that ratemaking agencies are not bound to any single regulatory formula unless statutory authority plainly indicates; *FPC v. Hope Natural Gas Co.,* 320 U.S. 591, 602 (1943); *FPC v. Texaco,* 417 U.S. 380, 388–389 (1974). It is within our sound discretion to determine the appropriate manner to conduct our proceedings.

8. Despite many of the commenting parties' characterizations, this proceeding is not a bellwether rate case; this is a proceeding to examine only the lawfulness of ITTWC's rate of return. Indeed we have previously stated that this proceeding is not a bellwether rate case like the 1958 IRC rate case. See *ITT World Communications, Inc.,* 85 FCC2d 561, 566–567 (1981). Because we are here concerned only with ITTWC's required rate of return, we are not determining industry rates, as was done in the 1958 bellwether rate case, *supra.* However, our action here does not preclude us from later inquiring into the required returns for other IRCs, if necessary. No rate adjustments will result from this inquiry unless the filing of revised tariffs is required. In other words, unlike the 1958 bellwether rate case, the outcome of this proceeding will not be *res judicata* as to similar issues so as to impact upon the charges or services of the other IRCs.

9. Given the limited scope of this proceeding, IRC ojbections based upon a right to be heard before their rates are affected are premature. Thus, it is unnecessary to address now IRC claims of potential hardship or allegations of possible impairment of service to the public. If ITTWC is ultimately required to file lower tariffs reflecting a prescribed rate of return, the IRCs and any other interested party may object to those tariffs. If should be emphasized, however, that the IRCs will have a heavy burden. They must demonstrate that any alleged harm is to the public, not just to themselves. *See Hawaiian Telephone Co. V. FCC,* 498 F.2d 771 (D.C. App. 1974). In other words, should the IRCs advocate rates which would lead ITTWC to earn a higher rate of return than that established as just and reasonable in the rate proceeding, the IRCs must demonstrate that the public interest would be served by allowing ITTWC to earn excessively.

10. Several parties advocate an on the record, multi-phase evidentiary hearing or series of hearings, first to select a ratemaking methodology, then to select one or more carriers to be rate regulated, and finally to consider impact on other IRCs. Such lengthy, cumbersome proceedings are unnecessary. In this period of rapid economic, technological and industry changes, information developed in the early stages of such a proceeding or series of proceedings would likely have lost significance by the later stages. For these reasons, we believe it is preferable to continue with a proceeding to determine ITTWC's lawful rate of return than to follow the laborious steps involved in multi-phase evidentiary hearings. The revised procedures we adopt for this proceeding, described below, will help to expedite the process.

II. The Rate of Return Proceeding Will Be Restructured To Achieve Results in the Most Expeditious and Efficient Manner

11. Although we affirm our decision to proceed with ITTWC, we nevertheless believe that restructuring of this proceeding is warranted. In the *Designation Order* we commenced a formal evidentiary hearing into ITTWC's rate of return, with a separated trial staff before an administrative law judge. We also instituted a separate fact-finding investigation into ITTWC's allowable rate base and expenses, to be conducted by non-separated staff members of the Common Carrier Bureau. The rate base and expense investigation was to culminate in a staff report to the Commission, with opportunity for comment. The Commission would then determine whether to take further action regarding rate base and expenses, including designation for hearing, if warranted. *See ITT World Communications,* 82 FCC2d at 289 and 85 FCC2d at 571.

12. The two proceedings as structured do not insure that rate reductions, if ultimately required, would be accomplished in the near term. In fact, continued reliance on these procedures may mean that two or three years would elapse before the public receives whatever reductions in charges may be warranted. We now believe it is premature and perhaps unnecessary to inquire separately into ITTWC's rate base and expenses. By terminating the rate base and expense investigation and

by restructuring the rate of return proceeding in the manner discussed below we will avoid duplication of effort and unnecessary demands upon our personnel and financial resources as well as those of the interested parties. This procedure should also foster a quicker determination of ITTWC's allowable rate of return.

13. The Administrative Procedure Act (APA) and section 205 of the Communications Act afford broad flexibility in the conduct of such proceedings. The APA, 5 U.S.C. 553(c), requires only that the agency give interested persons an opportunity to participate through submission of written data, views or argument with or without opportunity for oral presentation. It further provides that an evidentiary hearing is required only when rules are required by statute to be made on the record. The pertinent statute, section 205(a) of the Act, permits the Commission to determine and prescribe just and reasonable charges and practices "after full opportunity for hearing." 47 U.S.C. 205(a). It does not require an "on the record" evidentiary hearing. Thus trial-type procedures are not required by the APA. *AT&T* v. *FCC*, 572 F.2d 17, 22 (2d Cir. 1978), *cert. denied*, 439 U.S. 875 (1978). Further, the hearing requirement of section 205(a) has been held to be satisfied by notice and comment procedures, *Id.*, p. 23. *See also, RCA Global Communications, Inc.* v. *FCC*, 559 F.2d 881 (2d Cir. 1977), *rehearing in part* 563 F.2d 1 (2d Cir. 1977) and *Bell Telephone Company of Pennsylvania* v. *FCC*, 503 F.2d 1250, 1264 (3rd Cir. 1974), *cert. denied*, 422 U.S. 1028 (1975), *reh. denied*, 423 U.S. 886 (1975).

14. In sum, for reasons of economy and expedition discussed above, we are restructuring this proceeding in the manner which we believe "will best conduce to the proper dispatch of business and to the ends of justice." 47 U.S.C. 154(j). We have therefore decided to terminate the rate base and expense investigation and instead to focus our attention solely upon ITTWC's rate of return. If we conclude that ITTWC's rate of return requires adjustment, we will prescribe a rate of return and require that ITTWC file revised tariffs. At that point we will also consider whether it would be appropriate to investigate ITTWC's rate base and expenses.

III. Procedures Applying to Determination of ITTWC's Lawful Rate of Return

15. The rate of return proceeding will be conducted by written submission of expert witnesses to the Commission, akin to a notice and comment proceeding, rather than by evidentiary hearing as previously designated. We will require that ITTWC, interested parties, and the separated Trial Staff file their projections of ITTWC's rate of return requirements simultaneously. These submissions will be due 60 days from the effective date of this order. Replies by all parties will be filed no later than 60 days following initial submissions. Rebuttals must be filed within 30 days thereafter. All procedural motions or requests made during the pendency of this proceeding shall be directed in the first instance to the Chief, Common Carrier Bureau, for disposition consistent with this order. However, the Chief, Common Carrier Bureau, may, in his discretion, refer any motion or request to the Commission for resolution. Since, as shown below, the relevant data for the rate of return determination is readily available, we do not expect that extensions of time will be routinely granted. If any interested party feels that specific oral proceedings or other mechanisms are necessary to resolve questions of fact, fully supported requests identifying the specific issues for which additional proceedings are required should be made following the completion of the comment period. If a legitimate need for oral testimony or other mechanisms is demonstrated, appropriate action will be taken. *See, Mobil Oil Corporation* v. *Federal Power Commission*, 483 F.2d 1238, 1253–1254, 1258 and 1262–1263 (D.C. Cir. 1973); *Action for Children's Television* v. *FCC*, 564 F.2d 458, 470 (D.C. Cir. 1977).

16. In determining the cost of equity in the rate of return proceeding, estimating ITTWC's investor requirements is complicated by the fact that it is a single subsidiary of the International Telephone and Telegraph Corporation (ITT), a large conglomerate. ITTWC annually accounts for less than two percent of its parent corporation's revenue. Further complexities arise from the fact that all of ITTWC's equity capital is owned by U.S. Telephone and Telegraph Corporation (UST&T), an intermediary corporation wholly owned by ITT, and from the fact that much of ITTWC's debt capital is financed inside the ITT system.

17. For purposes of uniformity and comparability, we direct all filing parties to use the approach to assessing rate of return that was applied in the 1958 rate case. However, we are not designating any issue regarding the definition of ITTWC's rate base or the appropriateness of rate base measurement principles, although we will consider the application of those definitions and principles to ITTWC. As a consequence, in considering the sources of funding which are employed by ITTWC, its parent corporation or any other affiliates authorized by this Commission to provide international communications service, and other matters concerning rate of return, the parties are bound by the rate base principles which we have heretofore set out. *See The Western Union Telegraph Company*, 25 FCC 535, 603–619 (1958), for a definition of rate base, subject to any subsequent amendments. Parties should call to the Commission's attention those items which are not part of the rate base which should properly be considered for purposes of estimating ITTWC's cost of capital and rate of return. In the 1958 IRC rate case, the Commission concluded that the selected IRC's growth and performance was either comparable to AT&T and other regulated utilities, or was better than these companies. This indicated a comparable level of risk. 25 FCC at 588. Essentially, the Commission evaluated all pertinent factors that contributed to the risk of IRC operations. These elements of IRC industry structure and behavior were compared to the behavior and structure of other industries. On the basis of this comparison, the Commission was able to determine an allowable return in relation to returns of other companies. However, in light of the substantial progress made in the field of rate of return analysis since 1958, the parties may also wish to utilize additional methods for determining ITTWC's required rate of return.

18. The types of information used in the comparative earnings methodology are readily available. National Accounts data, such as the GNP and Total Corporate Profits, are available directly from the Bureau of Economic Analysis, Department of Commerce. Data for ITTWC, other IRCs, and AT&T are available from Statistics of Communications Common Carriers published by the Federal Communications Commission. Data for a large sample of utilities and industrials are available from the Compustat data base, a computerized data bank of continually updated financial operating information developed by Standard and Poor's Compustat Services. Thus, there is little, if any, need for discovery or a protracted proceeding.

IV. The Further Objections Raised by the Commenting Parties are Without Merit or are Moot

19. As already noted, this agency may institute a rate proceeding at any time it finds a reasonable basis for action.

Contrary to the contentions of the parties, it is unnecessary for the Commission to postpone a rate proceeding for an indefinite period while waiting to determine the effects of recent efforts to promote competition in the international record market.

20. The data upon which we found that ITTWC's rate of return exceeded 20%, although possibly unreliable as a basis for final decision in a ratemaking proceeding (*Designation Order* at 283), provides an adequate basis for further inquiry. The recalculations made on reconsideration (Appendix A hereto), taking the parties' specific criticisms of the data into account, again show that ITTWC's rate of return approaches or exceeds 20%, a rate which may be excessive in light of the lower rates of return recently prescribed for AT&T and Comsat. *See* paragraph (5) above.

21. We believe the burden of proof was properly assigned to ITTWC (*Designation Order* at 288). Since all participants will now submit rate of return assessments simultaneously, assignment of the burden of proof is no longer at issue and probably the most important aspect of the burden of proof—the burden of going forward—is moot. Should ITTWC choose not to submit sufficient data to justify its own assessment of what its authorized rate of return should be, a determination will be made on the basis of the record developed.

Ordering Clauses

22. Accordingly, it is ordered, That the stay of further proceedings in CC Docket No. 80–633 and ENF–80–6, FCC 81–180, released April 14, 1981, is terminated.

23. It is further ordered, That we affirm our decision initiating a proceeding to determine and prescribe ITTWC's just and reasonable rate of return.

24. It is further ordered, That the following issues are set forth for hearing to determine the appropriate rate of return for ITTWC:

(a) The cost of embedded debt;

(b) The cost of equity capital, common and preferred as appropriate;

(c) The cost of other financing;[2]

(d) The appropriate financial structure to be used for ratemaking purposes and the weights to be accorded the above costs of capital; and

(e) ITTWC's authorized rate of return.

25. It is further ordered, That the investigation into rate base and expenses instituted by our *Designation Order*, 82 FCC2d, 282, is terminated.

26. It is further ordered, That the evidentiary hearing into rate of return instituted by our *Designation Order*, 82 FCC2d 282, is terminated and that written submissions shall be filed in lieu of an evidentiary hearing.

27. It is further ordered, That the petitions filed herein are granted to the extent indicated above and otherwise are denied.

28. It is further ordered, That a separated Trial Staff of the Common Carrier Bureau's Hearing Division will participate in the proceedings before the Commission. .

29. It is further ordered, That all parties shall submit their analyses of ITTWC's required rate of return to the Commission no later than 60 days from the effective date of this order. Replies shall be filed within 60 days thereafter. Rebuttals shall be filed within 30 days thereafter. In reaching its decision, the Commission may take into consideration information and ideas not contained in the comments, providing that such information or a writing indicating the nature and source of such information is placed in the public file, and provided that the fact of the Commission's reliance on such information is noted in the Report and Order.

30. It is further ordered, That the following procedures will apply:

(a) The record for decision will consist of all matters submitted for the record by respondent, other parties of record and the trial staff and any other material placed in the record by the Commission

(b) All matters submitted for the record must be identified as to sponsoring party, numbered consecutively and identified with the name of a person by whom or under whose supervision the submittal was prepared.

(c) The source of all data must be clearly and specifically identified. Supporting documents and working papers must be presented with the submittals to which they apply. Statistical studies will be submitted and supported in the form prescribed in § 1.363 of the Commission's rules.

(d) An original and five copies of all matters submitted as well as of all supporting documentation and workpapers must be filed with the Commission and a copy shall also be served on all interested parties.

31. It is further ordered, That included within its Final Decision herein, consideration may be given to what action, if any, should be taken by the Commission to effect such rate adjustments as may be warranted on the basis of the record and such order or orders will issue as may be appropriate to this end.

32. It is further ordered, That authority is specifically delegated to the Chief, Common Carrier Bureau, to act upon all procedural motions or requests made during the pendency of this proceeding.

33. It is further ordered, That the foregoing actions are taken pursuant to sections 4(i), 4(j), 201, 202, 205, 218, 219, 220(c) and 403 of the Communications Act of 1934, as amended.

Note.—See attached concurring statement of Commissioner Mimi Weyforth Dawson and Separate statement of Commissioner Henry M. Rivera concurring in part and dissenting in part.

Federal Communications Commission.

William J. Tricarico,

Secretary.

[2] This issue will include consideration, as necessary, of the sources of funds and inter-company relationships described in paragraph 4 of our designation order in the AT&T rate of return proceeding, CC Docket No. 79–63 (73 FCC2d 689 (1979)).

APPENDIX A—RATE OF RETURN RECALCULATED

	Method I (major rate base components)			Method II (all rate base items except plant under construction)			Method III (all rate base components)			Method IV (pretax calculation)		
	ITTWC	RCAG	WUI [2]	ITTWC	RCAG	WUI [2]	ITTWC	RCAG	WUI [2]	ITTWC	RCAG	WUI [2]
1978	20.0	9.1	15.8	18.7	8.8	13.9	16.9	8.1	12.9	33.5	15.7	25.6

Concurring Statement of Commissioner Mimi Weyforth Dawson Re: ITTWC Rate of Return

With this decision we have revised our rate of return investigation of ITT World Communications and terminated our fact-finding investigation into its rate base and expenses. Our new approach will rely upon contemporaneous written submissions to determine the appropriate rate of return for ITTWC. This clearly, in my opinion, is the correct approach to take. Because the relevant data for the rate of return determination is readily available, the Commission should be able to move forward without the usual delays that attend either rate of return proceedings or rate base investigations. This approach, therefore, has the potential benefit of a relatively quick pay-off for consumers if ITT's rate of return were found unreasonable, while at the same time effectively utilizing the Commission's limited resources. I must emphasize that I believe this approach is fully consistent with our Congressional mandate. However, should the Commission find ITTWC's rate of return to be unreasonable, it may be appropriate at that time to investigate its rate base and expenses.

Nevertheless, taking a careful look at this Commission's priorities over the next few years, I would be shortsighted not to acknowledge the alternatives which would eliminate both the present need of this Commission's scrutiny of ITTWC's rate of return and the potential future need of conducting a full-blown rate of return and rate base investigation of the international record carriers. That is, it seems clear to me that competition, in the form of additional entrants to the market, and among existing carriers, is likely to have the greatest downward pressure on rates and, consequently, rates of return. Therefore, I hope that the Congress will move expeditiously in its efforts to remove the statutory barrier to Western Union's entry into the international market. In the meantime, we should proceed with determining the appropriate rate of return for ITT World Communications in this circumscribed manner.

Consequently, I concur.

Separate Statement of Commissioner Henry M. Rivera Concurring in Part and Dissenting In Part With Respect To:

CC Docket No. 80-633, CCB ENF-80-6. Hearing concerning ITT World Communications Inc.'s required rate of return and investigation into its rate base and expense.

While I concur in the Commission's decision today with respect to the need to determine ITT World Communications Inc.'s (ITTWC) cost of capital, I dissent from the Commission's decision not to pursue the investigations of ITTWC's rate base and expenses at this time.

In order to perform the statutory duty imposed by section 201(b) of the Communications Act, the Commission must determine a carrier's total revenue requirement. The decision adopted today does not require investigations of two elements required to compute ITTWC's total revenue requirement—rate base and expense. Thus, the practical effect of today's decision is to require the Commission to take ITTWC's word for these two elements. That result, it seems to me, is not the soundest approach for meeting our statutory duty.

By today's decision, the Commission will proceed with a determinatioin of the third element necessary for the calculation of a carrier's revenue requirement—cost of capital. I submit that because the Commission is not making any independent determination of the rate base (either after, before, or during the cost of capital proceeding), the Commission cannot help but begin its analysis of ITTWC's cost of capital by taking the carrier's word for the amount of capital the carrier has as well.

Thus, the Commission is effectively in the posture of taking the carrier's word for all three elements which are necessary to determine the carrier's total revenue requirement. I do not see how that comports with the Commission's responsibilities under the Communications Act. Section 201(b), in my view, does not contemplate the Commission's accepting, at face value, a carrier's representation for any element required to determine the carrier's revenue requirements regardless of the form that representation takes (*e.g.*, financial statements). I believe the statute requires the Commission to make an independent determination even if its conclusion is only accurate during the test period under consideration.

I understand that we have limited resources and I appreciate the Common Carrier Bureau's problem in attempting to allocate those limited resources. I do not doubt that the recommendations set forth by the Common Carrier Bureau are well-intentioned. However, if the Commission's basis for less than effective rate regulation is insufficient resources, then it is incumbent upon it to request from Congress the necessary resoures to fulfill the statutory mandate of insuring "just and reasonable" rates.

BILLING CODE 6712-01-M

[Report No. 1322]

Petitions for Reconsideration of Actions in Rule Making Proceedings

December 8, 1981.

The following listings of petitions for reconsideration filed in Commission rulemaking proceedings is published pursuant to 47 CFR 1.429(e). Oppositions to such petitions for reconsideration must be filed on or before January 4, 1982. Replies to an opposition must be filed within 10 days after the time for filing oppositions has expired.

Subject: Amendment of Part 15 of the FCC Rules to provide for remote control and security devices. (Docket No. 20990, RM's 1617, 2152 & 2223)
Filed By: Robert M. Booth, Jr. & Christopher D. Imlay, Attorneys for The American Radio Relay League, Incorporated on 12-2-81.

Subject: Revision of the Uniform System of Accounts and Financial Reporting Requirements for Telephone Companies (Parts 31, 33, 42 and 43 of the FCC's Rules) (CC Docket No. 78-196)
Filed By: F. T. Tuttle & J. Manning Lee for Satellite Business Systems on 11-30-81.
Subject: Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Martin and Salyersville, Kentucky). (BC Docket No. 81-411, RM-3805)
Filed By: Howard A. Topel, Attorney for Licking Valley Radio Corporation on 11-30-81.

BILLING CODE 6712-01-M

Study Group A of the U.S. Organization for the International Telegraph & Telephone Consultative Committee (CCITT); Meeting

December 10, 1981.

The Department of State announces that Study Group A of the U.S. Organization for the International Telegraph and Telephone Consultative Committee (CCITT) will meet on December 11, 1981 at 10:00 a.m. in Room A 110, of the Federal Communications Commission, 1229 20th Street, N.W., Washington, D.C. This Study Group will deal with U.S. Government aspects of international telegram and telephone operations and tariffs.

The Study Group will discuss international telecommunications questions relating to telegraph, telex, new record services, data transmission and leased channel services in order to develop U.S. positions to be taken at the upcoming international CCITT meetings. This meeting of Study Group A will examine the questions and contributions relating to upcoming meetings of CCITT Study Groups I and III.

Members of the general public may attend the meeting and join in the discussion subject to instructions of the Chairman. Admittance of public members will be limited to the seating available.

Requests for further information should be directed to Earl S. Barbely, Conference Staff, Federal Communications Commission, Washington, D.C., telephone (202) 632-3214.

This notice is being published less than 15 days prior to the meeting because the scheduling of a joint

meeting of Study Groups A and B on December 10 was considered urgent and this meeting of Study Group A has been scheduled the following day for the convenience of Study Group members who do not reside in the Washington area.

William J. Tricarico,

Secretary, Federal Communications Commission.

BILLING CODE 6712-01-M

FEDERAL MARITIME COMMISSION

[Docket No. 81-74; Agreement No. 9718-8]

California-Japan/Korea Space Charter Agreement; Order of Investigation

Agreement No. 9718-8 (Amendment No. 8) has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916 (46 U.S.C.A. 814). Amendment No. 8 amends Agreement No. 9718 [1] (the Agreement) to increase the number of TEU's [2] which the parties may cross-charter under the Agreement.

On January 16, 1981, the Commission conditionally approved Agreement No. 9718 through August 22, 1983. One of the conditions required the parties to agree to limit the total vessel TEU capacity subject to the Agreement to the total vessel TEU capacity operated pursuant to the Agreement as of January 16, 1981.[3] This condition was met on March 5, 1981, and the Agreement was approved by the Commission the following day.

Amendment No. 8, filed June 23, 1981, would permit the replacement of two 13-year old vessels of 836 TEU's and 791 TEU's, respectively, with two newly built vessels of 1450 and 1676 TEU's respectively. The effect of the amendment would be to add the capacity of these new vessels to that of other vessels already being operated under the Agreement and thereby increase the TEU's subject to the Agreement to a level in excess of the ceiling imposed by the Commission.[4]

Notice of Amendment No. 8 was published in the **Federal Register** on July 8, 1981. Protests were subsequently filed by Sea-Land Service, Inc., (Sea-Land), United States Lines, Inc. (USL), American President Lines, Ltd, (APL) and Lykes Bros. Steamship Co., Inc. (Lykes).

Position of the Parties

Proponents' Initial Submissions

Proponents submitted the affidavit of Mitsui's manager of North America Liner operations in support of Amendment No. 8. He argues that the new vessels are an integral part of Y-S and Mitsui's replacement program, that they will reduce costs and increase efficiency, meet the needs of established customers and permit the parties to remain competitive. It is also argued that the new vessels will consume less fuel per TEU than the old vessels and will help to meet the demand for forty foot container and reefer capacity. Mitsui states that the capacity subject to the Agreement has not been increased since 1974 and that approval will curb overtonnaging and lead to improved safety and pollution control. Finally, Mitsui states that neither the scope nor the frequency of the service will be changed by the introduction of the new vessels.

Included within Mitsui's affidavit are several charts which indicate the utilization levels of the vessels to be replaced, the capacity of other vessels recently introduced into the trade by competing carriers, and the growth in both tonnage and cargo over the last six years.

Protests

Sea-Land

Sea-Land claims that the utilization levels of the vessels sought to be replaced do not warrant the introduction of additional tonnage and that those levels may reflect the carriage of cargo which originates in, or is bound for, areas beyond the geographic scope of Agreement No. 9718. Sea-Land also argues that there is no evidence that the demand for 40 foot container or reefer capacity exceeds the supply offered by either the parties to the Agreement or other carriers which serve the trade.

The coordinated activities of Proponents are viewed by Sea-Land as creating a single economic operating entity which has helped Proponents to maintain a large market share and advantage over the other carriers in the trade.[5] Sea-Land urges the Commission to order a hearing which would embrace all of the Japanese agreements, not just Agreement No. 9718-8, and not to approve Amendment No. 8.

USL

USL believes that Amendment No. 8 undermines the limitation previously imposed by the Commission and that it should accordingly be disapproved or set down for a hearing. Approval of the amendment, USL feels, would increase overtonnaging. It is also USL's opinion that the history of the Japanese cross-charter agreements reflects a series of amendments representing continuous increases in capacity justified on the basis of preventing overtonnaging.

APL

APL states that Amendment No. 8 represents an 18% increase in capacity and believes that it is only the first of a series of similar amendments which will be filed with the Commission in the future. APL also alleges that Proponents have not provided the Commission with adequate information concerning the replacement of other vessels involved in space chartering arrangements or the East Asian ports outside of Japan which will be served under the Agreement.

K Line's recently announced three vessel service between Hong Kong, Taiwan and Korea and the U.S. Pacific Coast and its relationship to the Agreement is, according to APL, another issue which warrants attention by the Commission. APL believes the Commission should either disapprove Amendment No. 8 or institute a hearing to develop information relevant to its approvability.

Lykes

Lykes states that approval of Amendment No. 8 would increase by approximately 17 percent the maximum TEU capacity permitted under Agreement No. 9718. Lykes also points out that that agreement is the subject of an appeal pending in the Court of Appeals and that the Commission should not add further capacity until the appeal is resolved. Lykes notes that in the past it has requested the Commission to adopt certain guidelines for approval or disapproval of this type of agreement and submits that the suggested guidelines would be particularly relevant to this amendment.

Finally, Lykes contends that Amendment No. 8 does not meet the *Svenska* standard and that its approval would contribute to overtonnaging.

---

[1] Agreement No. 9718 applies to the trade between ports in California and ports in Japan and Korea, and permits the parties to charter space aboard each other's vessels, interchange equipment and jointly schedule sailings. The parties to the Agreement are Japan Line Ltd. (Japan Line); Kawasaki Kisen Kaisha, Ltd. (K Line); Mitsui O.S.K. Lines Ltd. (Mitsui); and Yamashita-Shinnihon Steamship Co., Ltd. (Y-S Line) (Proponents).

[2] Twenty Foot Equivalent Unit.

[3] As of that date, the capacity of the vessels subject to the Agreement was 8512 TEU's.

[4] Proponents would like the ceiling to be raised from 8512 TEU's to 9126 TEU's as of October 21, 1981, and to 10,011 TEU's as of approximately March 30, 1982.

[5] Sea-Land relied upon the Commission's study entitled "U.S. Reciprocal and Third Country Shares of U.S./East Asian Conference and Non-Conference Trade—1979" to support its figures as to Proponents' share of the market. That study has since been withdrawn by the Commission.

Lykes requests the Commission to disapprove the amendment or set it for hearing and investigation.

Response to Protests

In their response to the protests, Proponents argue that the Commission has received enough information from Proponents to reach a decision on the amendment. They submit that approval will curb overtonnaging, that vessel replacement is a natural incident of vessel ownership and that the increase in capacity which the replacement represents is modest. It is Proponents' position that their future plans concerning vessel replacement are not relevant to approval of this amendment. They add that Y–S Line and Mitsui have no immediate further replacement plans and that Japan Line and K Line have only preliminary plans. Proponents do not believe that they must prove the need for additional capacity in the trade before replacing older vesels. Finally, Proponents question the accuracy of the figures provided by Sea-Land as to Proponents' market share and utilization levels.

Further Comments/Reply

Sea-Land, relying upon Bureau of Census statistics, continues to claim that Proponents hold a significant share of the market. Sea-Land also states that its own capacity increase between 1974 and 1981 is not 72% as claimed by Proponents, but rather only 38%. According to Sea-Land, Proponents have also increased their capacity during that time. Sea-Land repeats its request for a hearing on all of the Japanese agreements.

Proponents respond that Sea-Land's figures offered to illustrate the Japanese-flag share continue to be inaccurate and that its figures as to the U.S.-flag share are too low. Proponents also state that despite Sea-Land's claims to the contrary, it has doubled both its vessels and sailings in the trade since 1974. According to Proponents, Y–S has no additional plans for new vessels. Sea-Land's request for a hearing is described by Proponents as no more than a ploy intended to delay the approval of a fully justified vessel replacement program.

Discussion

As a modification to an agreement presently approved by the Commission pursuant to section 15 of the Shipping Act, 1916,[6] the proposed amendment is subject to the same degree of scrutiny as the agreement which it amends.

Consistent with its obligations under section 15, the Commission has examined the submissions offered by Proponents and Protestants. While there is disagreement between Proponents and Protestants on a substantial number of matters, only two raise material issues of disputed fact which go to Amendment No. 8's approvability under the standards of section 15. *See Marine Space Enclosures, Inc.* v. *Federal Maritime Commission*, 420 F. 2d 577 (D.C. Cir. 1969). These concern the effect which approval of Amendment No. 8 would have upon: (1) The amount of tonnage operated in the trade as compared with the amount of tonnage which the trade can support; and (2) Proponents' relative competitive position as reflected in their market share.[7] It is these issues which must be resolved in assessing the anticompetitive impact of Amendment No. 8 and in determining its ultimate approvability under section 15, particularly under the detriment to commerce and public interest standards. However, on the basis of the record as it now exists, they cannot be. Therefore, further hearings are necessary.

It is well settled that the Commission is not required to order a full trial-type proceeding in all section 15 cases. Instead, the Commission enjoys substantial flexibility to structure the hearings it must provide based upon the nature of the case and the issues which require resolution. *U.S. Lines* v. *Federal Maritime Commission*, 584 F. 2d 519, 536–37 (D.C. Cir. 1978). In light of the nature of the factual disputes which must be resolved, the Commission believes that something less burdensome and time consuming than a full trial-type proceeding is appropriate. Therefore this proceeding will be limited to the submission of affidavits and memoranda directly to the Commission.

In reviewing the submissions offered thus far by Proponents and Protestants, the Commission has noted two matters which, though not going to the approvability of Amendment No. 8, should be resolved at the outset. The first involves cargo carried by Proponents which is transshipped to or from areas beyond the geographic scope of the Agreement. The second concerns the nature of the TEU limit imposed by the Commission in its Order of January 16, 1981.

In their protests, Sea-Land and APL question the utilization figures provided by Proponents, claiming that they may reflect the carriage of cargo either originating in or bound for areas outside of the geographic scope of the Agreement. Proponents respond by admitting that their utilizations have always been reported on the basis of the total TEU's carried, including transshipment cargo. There is nothing in either the Agreement or any order of the Commission which prohibits Proponents from carrying cargo which has its origin or destination beyond the geographic scope of the Agreement. The Commission never intended to place such a restriction upon Proponents' operations. Because Proponents are not prohibited from carrying such transshipped cargo, its inclusion in the calculations which determine utilization levels does not, at this time, appear inappropriate.

In its Order of January 16, 1981, the Commission imposed a condition which required Proponents not to increase the TEU's operated under the Agreement beyond the level as of that date. It was the Commission's intention that this condition would minimize or avoid any adverse impact on trade conditions. While the Commission is reaching no decision at this time concerning the merits of Amendment No. 8, it appears necessary to clarify the nature of the capacity limitation which it imposed. The limitation only applies to TEU's, not to vessels, and only to TEU's which are subject to one of the agreements.[8] The Commission has no desire to interfere with management's judgment as how best to provide that capacity. This means that Proponents are free to introduce vessels of any TEU capacity into the trade provided that they do not place more TEU's under the coverage of the Agreement than is permitted.

The substitution of vessels does not, in this instance, require Commission approval or amendment of existing agreements. Proponents may immediately introduce one or both of the new vessels into the trade and operate them pursuant to the Agreement so long as existing capacity limitations are not violated. For example, the *Shin-Kashu Maru* may immediately begin to operate under the Agreement as long as only 836 of its 1450 TEU's are placed within the Agreement's coverage. The remaining 614 TEU's must be operated independently of the Agreement. Proponents could also, of course, choose to place the full 1450 TEU's of the *Shin-Kashu Maru* under the Agreement if 614 TEU's aboard another vessel, or other vessels, were withdrawn from the

[6] 46 U.S.C.A. section 814.

[7] While there is disagreement over whether or not the history of the Japanese cross charter agreements reflects a series of increases in capacity, the Commission does not believe that the resolution of this dispute is necessary or relevant to the approvability of Amendment No. 8.

[8] In its order of January 16, 1981, the Commission imposed a TEU limitation upon several other agreements in addition to Agreement No. 9718.

Agreement. Obviously, there are other combinations of TEU deployment by which Proponents could operate their new vessel under the Agreement without violating its terms.

Therefore, it is ordered, that pursuant to sections 15 and 22 of the Shipping Act, 1916 (46 U.S.C.A. 814 and 821), a proceeding is hereby instituted to determine whether Agreement No. 9718–8 is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, detrimental to the commerce of the United States, contrary to the public interest, or in violation of the Shipping Act, 1916, and, therefore, whether it should be approved, disapproved, or modified; and

It is further ordered, that the parties, in addressing the approvability of the Agreement under the standards of section 15 specifically address the following issues: (1) The relevant market for purposes of determining the market share of the parties to the Agreement; (2) the market share of the parties to the Agreement; (3) whether the trade to which the Agreement applies is overtonnaged and, if so, to what extent; (4) whether there is adequate forty-foot container and reefer capacity in the trade; and (5) whether there has been or will be enough growth in the overall trade to justify increasing the tonnage in it to the extent proposed by this Agreement; and

It is further ordered, that the carriers listed in the Appendix attached hereto are hereby made Proponents and Protestants as so designated in the Appendix; and

It is further ordered, that in accordance with Rule 42 of the Commission's Rules of Practice and Procedure (46 CFR 502.42), the Commission's Bureau of Hearings and Field Operations (Hearing Counsel) shall be a party to this proceeding; and

It is further ordered, that this proceeding shall be limited to the simultaneous submission to the Commission of affidavits of facts and memoranda of law and replies thereto. Oral argument may also be scheduled if deemed necessary by the Commission. Should any party believe that discovery or a further hearing is required, that party must accompany any such request with a statement setting forth in detail the facts to be developed or proven, their relevance to the issues in this proceeding and why such proof cannot be submitted through affidavit.

(1) Opening submissions shall be filed by all parties of record and served on all other parties of record no later than close of business on February 9, 1982.

(2) Reply submissions shall be filed by all parties of record and served upon all other parties of record no later than close of business on March 11, 1982.

(3) Requests for discovery, further hearing or for oral argument shall be filed with the Commission no later than close of business 10 days after reply submissions; and

It is further ordered, that notice of this Order be published in the **Federal Register**, and a copy thereof be served upon Proponents and Protestants as listed in the Appendix hereto and Hearing Counsel; and

It is further ordered, that any person other than Proponents, Protestants and Hearing Counsel having an interest and desiring to participate in this proceeding file a petition for leave to intervene in accordance with Rule 72 of the Commission's Rules of Practice and Procedure (46 CFR 502.72). In order to expedite the proceeding and facilitate participation, such persons desiring to intervene shall submit their affidavits and/or memoranda simultaneously with their petition to intervene, which will be considered if such petition is granted; and

It is further ordered, that all future notices, orders, and/or decisions issued by or on behalf of the Commission in this proceeding, including notice of the time and place of hearing or prehearing conference, shall be directly mailed to all parties of record; and

It is further ordered, that all documents submitted by any party of record in this proceeding shall be filed in accordance with section 502.118 of the Commission's Rules (46 CFR 502.118) as well as being directly mailed to all parties of record.

By the Commission.[1]

Francis C. Hurney,
Secretary.

[Docket No. 81-75]

E. A. Juffali & Brothers v. Waterman Steamship Co.; Filing of Complaint and Assignment

Notice is given that a complaint filed by E. A. Juffali & Brothers against Waterman Steamship Company was served December 10, 1981. Complainant alleges that respondent has subjected it to payment of rates for ocean transportation in violation of section 18(b)(3) of the Shipping Act, 1916.

This proceeding has been assigned to Administrative Law Judge Paul J. Fitzpatrick. Hearing in this matter, if any is held, shall commence within the time limitations prescribed in 46 CFR 502.61. The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record.

FEDERAL TRADE COMMISSION

Early Termination of the Waiting Period of the Premerger Notification Rules; Ameribond Securities Associates

AGENCY: Federal Trade Commission.

ACTION: Granting of request for early termination of the waiting period of the premerger notification rules.

SUMMARY: Ameribond Securities Associates is granted early termination of the waiting period provided by law and the premerger notification rules with respect to the proposed acquisition of certain assets and voting securities of Jartran Inc. The grant was made by the Federal Trade Commission and the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice in response to a request for early termination submitted by both parties. Neither agency intends to take any action with respect to this acquisition during the waiting period.

EFFECTIVE DATE: November 19, 1981.

FOR FURTHER INFORMATION CONTACT: Roberta Baruch, Senior Attorney, Premerger Notification Office, Bureau of Competition, Room 301, Federal Trade

Commission, Washington, D.C. 20580 (202) 523–3894.

SUPPLEMENTARY INFORMATION: Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Commission and Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

By direction of the Commission.

ACTION: Granting of request for early termination of the waiting period of the premerger notification rules.

SUMMARY: Heldor Industries, Inc. is granted early termination of the waiting period provided by law and the premerger notification rules with respect to the proposed acquisition of all voting securities of Airwick Pool Products, Inc. The grant was made by the Federal Trade Commission and the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice in response to a request for early termination submitted by Heldor Industries, Inc. Neither agency intends to take any action with respect to this acquisition during the waiting period.

EFFECTIVE DATE: November 20, 1981.

FOR FURTHER INFORMATION CONTACT: Roberta Baruch, Senior Attorney, Premerger Notification Office, Bureau of Competition, Room 301, Federal Trade Commission, Washington, D.C. 20580, (202) 523–3894.

SUPPLEMENTARY INFORMATION: Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Commission and Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

By direction of the Commission.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 81C-0376]

Dynapol; Filing of Color Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Dynapol has filed a petition proposing that the color additive regulations be amended to provide for the safe use of Colomer Red (ethenesulfonic acid, sodium salt, polymer with *N*-ethenylacetamide, hydrolyzed, reaction products with 6-bromo-4-methyl-1-phenyl-3*H*-dibenz [*f, i j*] isoquinoline-2, 7-dione) in or on foods and orally ingested drugs.

FOR FURTHER INFORMATION CONTACT:

Blondell Anderson, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5740.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 706(b)(1), 74 Stat. 399-402 as amended (21 U.S.C. 376(b)(1))), notice is given that a petition (CAP 1C0156) has been filed by Dynapol, 1454 Page Mill Rd., Palo Alto, CA 94304, proposing that the color additive regulations be amended to provide for the safe use of Colomer Red (ethenesulfonic acid, sodium salt, polymer with *N*-ethenylacetamide, hydrolyzed, reaction products with 6-bromo-4-methyl-1-phenyl-3*H*-dibenz [*f, i j*] isoquinoline-2, 7-dione) in or on foods and orally ingested drugs and which is subject to certification.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

Dated: December 8, 1981.

Sanford A. Miller,

Director, Bureau of Foods.

BILLING CODE 4160-01-M

[Docket No. 81P-0365]

Tomato Juice Deviating From Identity Standard; Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a temporary permit has been issued to Brooks Foods, Division of Curtice-Burns, Inc., to market test tomato juice prepared from concentrate and preserved by refrigeration. The purpose of this temporary permit is to permit the applicant to measure consumer acceptance of the food.

DATES: This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but no later than March 18, 1982. However, the permit may terminate sooner, depending upon the final action on FDA's proposal to amend the standard of identity for tomato juice published in the **Federal Register** of May 9, 1978 (43 FR 19864). If the proposal is affirmed, the permit will terminate on the effective date of the final regulation. If the proposal is rejected, the permit will expire 30 days after the negative ruling on the proposal.

FOR FURTHER INFORMATION CONTACT:

F. Leo Kauffman, Bureau of Foods (HFF-214), Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204, 202-245-1164.

SUPPLEMENTARY INFORMATION: In accordance with § 130.17 (21 CFR 130.17) concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), notice is given that a temporary permit has been issued to Brooks Foods, Division of Curtice-Burns, Inc., Rte 36, P.O. Box 157, Mt. Summit, IN 47361. The permit covers limited interstate marketing tests of tomato juice that deviates from the standard of identity prescribed for tomato juice under § 156.145 (21 CFR 156.145) in that it is prepared from tomato puree that complies with the requirements of § 155.192(a)(1) (21 CFR 155.192(a)(1)) to which water is added and is preserved by refrigeration. The

test product is equivalent to a single-strenght tomato juice normally found in the marketplace. The finished product contains not less than 5.5 percent tomato-soluble solids and a salt content of 0.80 percent to 0.94 percent by weight. The permit provides for the temporary marketing of 500,000 cases of twelve 32-ounce (1 quart) cartons of the product to be distributed in the States of Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin.

The test product is to be packed at the Bowman Dairy in Madison, WI 53701.

The principal display panel of the label states the product's name as "tomato juice from concentate". Each of the ingredients used is stated on the label as required by the applicable section of 21 CFR Part 101, except that the tomato ingredient complying with the requirements of § 155.192(a)(1) is declared as "tomato concentrate". The statement "Keep Refrigerated" and a coded expiration date are printed on the label. This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but no later than March 18, 1982. However, the permit may terminate sooner, depending upon the final action on FDA's proposal to amend the standard of identity for tomato juice published in the **Federal Register** of May 9, 1978. If the proposal is affirmed, the permit will terminate on the effective date of the final regulation. If the proposal is rejected, the permit will expire 30 days after the negative ruling on the proposal.

Dated: December 10, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs

BILLING CODE 4160-01-M

Advisory Committees; Notice of Meetings

AGENCY: Food And Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces forthcoming meetings of public advisory committees of the Food and Drug Administration (FDA). This notice also sets forth a summary of the procedures governing committee meetings and methods by which interested persons may participate in open public hearings conducted by the committees and is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I), and FDA regulations (21 CFR Part 14) relating to advisory committees. The following advisory committee meetings are announced:

General Hospital and Personal Use Device Section of the General Medical Devices Panel

Date, time, and place. January 11, 8:30 a.m. Rm. 1207, 8757 Georgia Ave., Silver Spring, MD.

Type of meeting and panel section leader. Closed committee deliberations, 8:30 a.m. to 9:30 a.m.; open public hearing, 9:30 a.m. to 10:30 a.m.; open committee discussion, 10:30 a.m. to 4:30 p.m.; Robert Gatling, Bureau of Medical Devices (HFK-420), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7750.

General function of the committee. The committee reviews and evaluates available data on the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Those desiring to make formal presentations should notify the panel section leader before December 28, 1981, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time required to make their comments.

Open committee discussion. The committee will discuss the safety and effectiveness data in premarket approval application P810044 for a hypoglycemia symptom warning device.

Closed committee deliberations. The committee will discuss safety and effectiveness data in premarket approval application P810044 for a hypoglycemia symptom warning device. This portion of the meeting will be closed to permit discussion of trade secret data (5 U.S.C. 552b(c)(4)).

Circulatory System Devices Panel

Date, time, and place. January 15, 8:30 a.m., Rms. 703-747A, 200 Independence Ave. SW., Washington, DC.

Type of meeting and executive secretary. Open public hearing, 8:30 a.m. to 9:30 a.m.; open committee discussion, 9:30 a.m. to 10:30 a.m.; closed committee deliberations, 10:30 a.m. to 4 p.m.; Glenn Rahmoeller, Bureau of Medical Devices (HFK-450), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7559.

General function of the committee. The committee reviews and evaluates available data on the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda-Open public hearing. Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Those desiring to make formal presentations should notify the executive secretary before January 5, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time required to make their comments.

Open committee discussion. The Panel will discuss the petition for reclassification of oxygenators submitted by the Health Industry Manufactures' Association. The Panel will also make its recommendations for the classification of: peripheral transluminal angioplasty catheters; cardiopulmonary resuscitation aids; AC fibrillators; and heparin complex coating. The Panel may also review a premarket approval application for a prosthetic implant.

Closed committee deliberations. The committee may discuss a premarket application and other trade secret information relevant to a premarket notification submission. This portion of the meeting will be closed to permit discussion of trade secret data (5 U.S.C. 552b(c)(4)).

Ophthalmic Device Section of the Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel

Date, time, and place. January 21 and 22, 9 a.m., Auditorium, 200 Independence Ave. SW., Washington, DC.

Type of meeting and panel section leader. Open public hearing, Janmuary 21, 9 a.m. to 10 a.m.; open committee discussion, 10 a.m. to 1 p.m.; closed committee deliberations, 2 p.m. to 5 p.m.; open public hearing, January 22, 9 a.m. to 10 a.m.; open committee discussion, 10 a.m. to 1 p.m.; closed committee deliberations, 2 p.m. to 5 p.m.; George C. Murray, Bureau of Medical Devices (HFK-460), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7940.

General function of the committee. The committee reviews and evaluates available data on the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda--Open public hearing. Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Those desiring to make formal presentations should notify the panel section leader before January 6, 1982, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses or proposed participants, and an indications of the approximate time required to make their comments.

Open committee discussion. On January 21 the committee will discuss premarket approval applications and statistical/epidemiological questions pertaining to intraocular lenses, and may discuss premarket approval applications for other ophthalmic products. If discussion of all pertinent intraocular lens issues is not completed, discussion will be continued the following day. On January 22 the committee may discuss premarket approval applications or general issues (including guideline and matrix revisions) relating to contact lens products.

Closed committee deliberations. On January 21 and 22 the committee will conduct reviews of premarket approval applications for intraocular lenses and discuss confidential data in investigational device exemption applications. These portions of the

meeting will be closed to permit discussion of trade secret data (5 U.S.C. 552b(c)(4)).

Each public advisory committee meeting listed above may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. The dates and times reserved for the separate portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance withe the agenda published in this **Federal Register** notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

A list of committee members and summary minutes of meetings may be requested from the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday. The FDA regulations relating to public advisory committees may be found in 21 CFR Part 14.

The Commissioner, with the concurrence of the Chief Counsel, has determined for the reasons stated that those portions of the advisory committee meetings so designated in this notice shall be closed. The Federal Advisory Committee Act (FACA), as amended by the Government in the Sunshine Act (Pub. L. 94-409), permits such closed advisory committee meetings in certain circumstances. Those portions of a meeting designated as closed, however, shall be closed for the shortest possible time, consistent with the intent of the cited statutes.

The FACA, as amended, provides that a portion of a meeting may be closed where the matter for discussion involves a trade secret; commercial or financial information that is privileged or confidential; information of a personal nature, disclosure of which would be a clearly unwarranted invasion of personal privacy; investigatory files compiled for law enforcement purposes; information the premature disclosure of which would be likely to significantly frustrate implementation of a proposed agency action; and information in certain other instances not generally relevant to FDA matters.

Examples of portions of FDA advisory committee meetings that ordinarily may be closed, where necessary and in accordance with FACA criteria, include the review, discussion, and evaluation of drafts of regulations or guidelines or similar preexisting internal agency documents, but only if their premature disclosure is likely to significantly frustrate implementation of proposed agency action; review of trade secrets and confidential commercial or financial information submitted to the agency; consideration of matters involving investigatory files compiled for law enforcement purposes; and review of matters, such as personnel records or individual patient records, where disclosure would constitute a clearly unwarranted invasion of personal privacy.

Examples of portions of FDA advisory committee meetings that ordinarily shall not be closed include the review, discussion, and evaluation of general preclinical and clinical test protocols and procedures for a class of drugs or devices; consideration of labeling requirements for a class of marketed drugs or devices; review of data and information on specific investigational or marketed drugs and devices that have previously been made public; presentation of any other data or information that is not exempt from public disclosure pursuant to the FACA, as amended; and, notably deliberative sessions to formulate advice and recommendations to the agency on matters that do not independently justify closing.

Section 10.210 (21 CFR 10.210) of FDA's procedural regulations requires FDA to give notice of the availability of reimbursement for participation in certain FDA proceedings including advisory committee meetings. However, on November 27, 1981, the United States Court of Appeals for the Fourth Circuit held that FDA does not have authority to reimburse public participants in its administrative proceedings. *Pacific Legal Foundation* v. *Goyan*, No. 80-1854 (4th Cir. November 27, 1981). Accordingly, until further notice, reimbursement will not be available for participation in the proceedings described in this notice.

Dated: December 11, 1981.

Arthur Hull Hayes, Jr.,

Commissioner of Food and Drugs.

[FR Doc. 81-36029 Filed 12-17-81; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 80P-0369/CP]

Tomato Juice Deviating From Identity Standard; Extenson and Amendment of Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the amendment and extension of a temporary permit issued to the T. H. Richards Processing Co. to market test tomato juice from concentrate. This action enables the T. H. Richards Processing Co. to imporve the quality of information to be derived from the market test by expanding the areas of distribution.

DATES: This amended permit is effective on December 18, 1981, and shall terminate either on the effective date of an affirmative order ruling on the FDA proposal to amend the identity standard for tomato juice, which was published in the **Federal Register** of May 9, 1978 (43 FR 19864), or 30 days after a negative order ruling on the proposal, whichever the case may be.

FOR FURTHER INFORMATION CONTACT: F. Leo Kauffman, Bureau of Foods (HFF-214), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-245-1164.

SUPPLEMENTARY INFORMATION: A temporary permit was issued to the T. H. Richards Processing Co., under § 130.17 (21 CFR 130.17) concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341). Notice of the issuance of the permit was published in the **Federal Register** of March 17, 1981

(46 FR 17144). The permit covers limited interstate marketing tests of tomato juice from concentrate that deviated from the standard of identity prescribed for tomato juice under § 156.145 (21 CFR 156.145). The finished product contains not less than 5.5 percent by weight of tomato soluble solids, which is equivalent to a single-strength tomato juice normally found in the marketplace. The existing permit provides for the temporary marketing of a total of 200,000 cases of twelve 46-ounce containers and 50,000 cases of forty-eight 5½-ounce containers of the product, produced at its plant in Sacramento, CA, to be distributed in the States of Arizona, California, Colorado, Florida, Idaho, New Mexico, New York, Ohio, Oregon, and Washington. The existing permit is effective for 15 months beginning on the date the new food was introduced or cause to be introduced into interstate commerce, but no later than June 15, 1981. However, the permit might terminate sooner, depending upon the final action on FDA's proposal to amend the standard of identity for tomato juice published in the **Federal Register** of May 9, 1978 (43 FR 19864). The proposed amendment to the standard of identity would, among other things, (1) permit the use of concentrated tomato juice to prepare a single-strength tomato juice product, (2) require the name "tomato juice from concentrate" when concentrated tomato juice is used in the preparation of the canned juice, (3) establish in the identity standard a minimum tomato soluble solids requirement of 5.5 percent, by weight, for the product made from concentrate, and (4) require label declaration of all optional ingredients.

The T. H. Richards Processing Co. has requested that its existing temporary permit be extended and amended by expanding the areas of distribution. The company has requested that its temporary permit be extended for the duration of the administrative proceedings pertaining to the proposal to amend the standard of identity for tomato juice. The company has also requested that its temporary permit be amended to expand the areas of distribution to all States except Alaska and Hawaii.

FDA concludes that it will be in the interest of consumers to extend the time period of the temporary permit to allow market testing of 200,000 cases of twelve 46-ounce containers and 50,000 cases of forty-eight 5½-ounce containers as provided for by the existing permit, of the product per month, in all the States except Alaska and Hawaii. The product is to be packed at the T. H. Richards Processing Co. plants in Sacramento, CA 95811, and Leipsic, OH 45856.

Under § 130.17, all interested persons may participate in the market test under the conditions that apply to the T. H Richards Processing Co., including the labeling requirements and the amounts to be distributed. The designated areas of distribution do not apply to the interested persons. Any interested person who elects to participate in the extended market test shall notify FDA in writing of that fact, the amount to be distributed, and the area of distribution, and shall submit, along with this notification, the labeling under which the food is to be distributed.

This permit extension, as issued to the T. H. Richards Processing Co., and any others who participate in accordance with § 130.17(i), is effective on December 18, 1981, and expires either on the effective date of an affirmative order ruling on the FDA proposal of May 9, 1978, or 30 days after a negative order ruling on the proposal, whichever the case may be.

Dated: December 10, 1981

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 81-36028 Filed 12-17-81; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 81M-0383]

NARCO Air-Shields; Premarket Approval of Jaundice Meter 101

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing its approval of the application for premarket approval under the Medical Device Amendments of 1976 of the Jaundice Meter 101 sponsored by NARCO Air-Shields, Hatboro, PA 19040. After reviewing the recommendation of the General Hospital and Personal Use Device Section of the General Medical Devices Panel, FDA notified the sponsor that the application was approved because the device had been shown to be safe and effective for use as recommended in the submitted labeling.

DATE: Petitions for administrative review by January 18, 1982.

ADDRESS: Requests for copies of the summary of safety and effectiveness data and petitions for administrative review may be sent to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Charles Kyper, Bureau of Medical Devices (HFK-402), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7445.

SUPPLEMENTARY INFORMATION: On March 5, 1981, NARCO Air-Shields, Hatboro, PA 19040, submitted to FDA an application for premarket approval of the Jaundice Meter 101, a diagnostic device used on infants to identify their degree of jaundice and thus to indicate whether a serum bilirubin test is necessary. The application was reviewed by the General Hospital and Personal Use Device Section of the General Medical Devices Panel, an FDA advisory committee, which recommended approval of the application. On November 20, 1981, FDA approved the application by a letter to the sponsor from the Acting Director of the Bureau of Medical Devices.

A summary of the safety and effectiveness data on which FDA's approval is based is on file in the Dockets Management Branch (address above) and is available upon request from that office. A copy of all approved final labeling is available for public inspection at the Bureau of Medical Devices. Contact Charles Kyper (HFK-402), address above. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition under section 515(g) of the act (21 U.S.C. 360e(g)) for administrative review of FDA's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and of FDA's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issue to be reviewed, the form of review to be

used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before January 18, 1982, file with the Dockets Management Branch (address above), four copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: December 9, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

[Docket No. 81N-0121]

International Drug Scheduling; Convention on Psychotropic Substances and Single Convention on Narcotic Drugs

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is requesting interested persons to submit comments concerning proposals by the World Health Organization that the Commission on Narcotic Drugs (CND) of the United Nations: (1) Impose international manufacturing and distribution restrictions, pursuant to international treaty, on certain benzodiazepine drugs (drugs that produce sedative-hypnotic, anti-anxiety, and anti-convulsant effects) and (2) impose no international controls on certain opioid agonist/antagonist drugs (drugs that are used to alleviate pain). The specific treaty under which the control recommendations were made for the benzodiazepines is the Convention on Psychotropic Substances (Psychotropic Convention). The agonist/antagonist drugs were considered under the Psychotropic Convention and the Single Convention on Narcotic Drugs (Single Convention), and no recommendations for control were made under either convention. The United States is a party to both conventions (treaties).

The comments received in response to this notice will be considered in preparing the United States' position on these proposals for a meeting of the CND scheduled to begin on February 2, 1982. The issuance of this notice requesting comments is required by the Controlled Substances Act.

DATE: Comments by January 4, 1982.

ADDRESS: Written comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Edwin V. Dutra, Jr., Bureau of Drugs (HFD-30), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-1382.

SUPPLEMENTARY INFORMATION: This notice is being published to afford interested persons an opportunity to comment on international drug control measures that have been proposed by the World Health Organization (WHO) under the Psychotropic Convention for certain benzodiazepine drugs, listed below. This notice is also being published to afford interested persons an opportunity to comment on the recommendation by WHO that no international controls be imposed under either the Psychotropic Convention or the Single Convention for certain agonist/antagonist drugs, listed below.

Earlier this year the United States was notified that WHO may make recommendations to the CND on whether any changes would be justified in the present scheduling status: (1) under the Psychotropic Convention of the following benzodiazepine drugs: chlordiazepoxide, clonazepam, clorazepate, diazepam, flurazepam, lorazepam, medazepam, nitrazepam, oxazepam, oxazolam prazepam, and temazepam, and (2) under the Psychotropic Convention or Single Convention of the following agonist/antagonist drugs: pentazocine, buprenorphine, butorphanol, cyclazocine, and nalbuphine. Currently, none of these substances is subject to international control under either treaty. The United States was asked to supply WHO with information and data that would aid WHO in making its recommendations to the CND. The CND, of which the United States is a member, will meet in February 1982, to make international scheduling decisions. Under section 201(d)(2)(A) of the Controlled Substances Act (21 U.S.C. 811(d)(2)(A)), FDA, on behalf of the Department of Health and Human Services (DHHS), issued a notice in the Federal Register of April 10, 1981 (46 FR 21447) requesting interested persons to submit relevant comments and data. Comments and information received from the public and from government agencies were subsequently submitted to WHO, as requested. A WHO expert group then met in September 1981, to evaluate the scheduling status of the agonist/antagonist drugs and in November 1981, to evaluate the scheduling status of the benzodiazepines.

DHHS learned on December 14, 1981, that WHO will recommend that the CND control the following benzodiazepine substances in schedule IV of the Psychotropic Convention: Chlordiazepoxide, clonazepam, clorazepate, diazepam, flurazepam, lorazepam, medazepam, nitrazepam, oxazepam, oxazolam, prazepam, and temazepam. The information DHHS received from the Department of State is on file in the Dockets Management Branch, FDA (address above). This information may be seen in that office between 9 a.m. and 4 p.m., Monday through Friday.

Placing these substances in schedule IV of the Psychotropic Convention would require each of the member countries (including the United States) to impose controls regarding licensing, prescriptions, recordkeeping and reporting, and government inspections. Because of existing domestic controls now in force for nine of these benzodiazepine drugs (nine are currently controlled domestically in CSA schedule IV) under the Controlled Substances Act (21 U.S.C. 801 et seq.), the proposed CND action, if adopted, would not obligate the United States to reschedule any of these nine substances domestically. However, the proposed CND action, if adopted, would require additional manufacturer reporting requirements to be issued by the Drug Enforcement Administration under section 307(e) of the Controlled Substances Act (21 U.S.C. 827(e)), as amended by Pub. L. 95-633 (Psychotropic Substances Act of 1978). Also, it should be noted that medazepam, nitrazepam, and oxazolam are not currently marketed nor controlled in the United States. These three substances, if controlled under the Psychotropic Convention, would have to be placed into a schedule under the CSA. Substances that are not legally marketed in the United States but which are controlled under the CSA are normally placed in CSA schedule I even if they are under investigation to establish their medical usefulness.

DHHS has also learned the WHO will recommend that the CND not take any scheduling actions under either the Psychotropic Convention or the Single Convention with respect to the following five agonist/antagonist drugs: (1) Pentazocine (currently controlled CSA IV); (2) buprenorphine (currently controlled in CSA II); (3) butorphanol (currently uncontrolled domestically); (4) cyclazocine (currently uncontrolled

domestically); and (5) nalbuphine (currently uncontrolled domestically). These recommendations will also be considered by the CND at its February 1982 meeting and, if adopted, would not require any domestic scheduling action by the United States. It should be noted that the CND cannot make any permanent scheduling change in the status of a substance under the Single Convention in the absence of a WHO recommendation to control the substance under the Single Convention. No such provision exists, however, in the Psychotropic Convention.

Therefore, as required by section 201(d)(2)(B) of the Controlled Substances Act (21 U.S.C. 811(d)(2)(B)), the Food and Drug Administration, at the direction of the Assistant Secretary for Health, DHHS, invites interested persons to submit comments about these proposed CND actions. The comments received will be considered by FDA on behalf of DHHS in its evaluation of the WHO recommendations. DHHS will then recommend to the Secretary of State the position which the United States should take when voting on the scheduling proposals at the CND meeting in February 1982.

Finally, it should be noted that the United States will also be called upon to vote at the CND meeting on the status of certain exemptions taken by various nations (Chile, Hungary, and Sweden) under the Psychotropic Convention. A **Federal Register** notice on these exemptions was published earlier this (46 FR 21446; April 10, 1981). FDA also intends to consider any comments received on these exemptions in formulating the DHHS recommendations to the Secretary of State on the United States' position on them for the CND meeting.

Interested persons may, on or before January 4, 1982 submit to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, written comments regarding this notice. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Note.—Because the information about WHO's actions did not reach FDA until December 14, 1981, the period for the submission of comments is limited to 15 days so that the United States has adequate time to consider the comments received in reaching a decision on how to vote on these proposals at the upcoming CND meeting scheduled to begin on February 2, 1982.

Dated: December 15, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4310–84–M

Management Framework Plan (MFP) and Rangeland Management Environmental Impact Statement (EIS); Price River Resource Area; Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Bureau of Land Management, Moab District intends to prepare a Management Framework Plan (MFP) and Rangeland Management Environmental Impact Statement (EIS) on the Price River Resource Area in central Utah. The area includes the Price River, Wattis, Range Creek and Summerville Planning Units, and encompasses all of Carbon County and portions of Emery, Utah, Duchesne and Uintah Counties.

Land status is as follows:

Land ownership	Acres	Percent
Public Lands (BLM)	1,071,357	63
State	185,949	11
Private	448,837	26
Other [1]	3,536	
Total	1,709,678	100

[1] Reservoir, wildlife refuge, recreation area

The general types of issues which have been identified at this time are: (1) Competitive forage demand between wildlife and livestock, (2) effects of livestock grazing on wildlife habitat, (3) livestock distribution, (4) wildlife reintroductions, (5) grazing-recreation conflicts and (6) grazing-energy development conflicts.

The disciplines to be represented on the interdisciplinary team are: range conservationist, botanist, wildlife biologist, hydrologist, archaeologist, recreation planner and economist.

A public scoping meeting will be held February 3, 1982 from 7 p.m. to 9 p.m. at the Bureau of Land Management Area Office, 900 North 700 East, Price, Utah. The purpose of this meeting is to identify issues and alternatives that will be discussed in the MFP and EIS.

Other public participation activities related to this planning action will include: A request for written comments on the Draft EIS, a public hearing for oral comments on the Draft EIS, a 30 day comment period on the Final EIS and public notification of decisions on the MFP and Rangeland Management Program. The dates, times and locations of these public participation activities will be announced by **Federal Register** Notice of Availability of Draft and Final EIS, by local media release, and by mailings to interested parties.

Leon Berggren, Price River Resource Area Manager, may be contacted for further information at the Price Area Office, 900 North 700 East, Price, Utah 84501 or (801) 637–4584. Documents relevant to the planning and EIS process can be examined at the Price Area Office from 7:45 a.m. to 4:30 p.m., Monday through Friday.

Gene Nodine,

District Manager.

BILLING CODE 4310–84–M

Richfield District Multiple-Use Advisory Council; Meeting

December 11, 1981.

Notice is hereby given that a meeting of the Richfield District Advisory Council will be held February 2, 1982.

The council will convene at 10:00 a.m. in the conference room of the Richfield District Office at 150 East, 900 North in Richfield.

The agenda for the meeting includes discussion of the following items:

1. Report on Fiscal Year 1982 Annual Work Plan.
2. Status of Henry Mountain Planning effort and coal study.
3. Wilderness study schedule and strategy.
4. Proposed Desert Land Entries on the West Desert.
5. Changes in hydro-carbon lease program.
6. Status of Paiute reservation proposals.
7. Impacts of IPP to public lands.
8. Update on State of Utah Project BOLD.
9. Effects of BLM right-of-way policy on rural electric cooperatives.

The meeting is open to the public. Interested persons may present oral statements to the council on February 2, 1982 or file a written statement for the council's consideration.

Persons who wish to make oral statements should notify the District Manager, Bureau of Land Management, 150 East 900 North, Richfield, Utah 84701, or telephone (801) 896–8221. by February 1, 1982.

Summary minutes of the council will be maintained in the District Office and will be available for public inspection and reproduction during regular business hours within 30 days following the meeting.

Donald L. Pendleton,

District Manager.

BILLING CODE 4310–84–M

Vale District Grazing Advisory Board; Meeting

December 7, 1981.

Notice is hereby given in accordance with Pub. L. 92–463 that meetings of the Vale District Grazing Advisory Board will be held January 5 and 6, 1982.

The meetings will begin at 9:00 a.m. in the conference room of the Bureau of Land Management Office at 365 "A" Street West, Vale, Oregon 97918.

The order of discussion of agenda items for the January 5 and 6 meetings will be (1) Allotment management plans for the Ironside EIS area, (2) Range maintenance policy, and (3) Livestock shifts.

The meetings are open to the public. Interested persons may make oral statements to the Council or may file written statements for the Council's consideration. Anyone wishing to make oral statements may do so at 1:30 p.m. on either day, but must notify the District Manager, Bureau of Land Management, 365 "A" Street West, Vale, Oregon 97918, by January 5, 1982.

Summary minutes of the Council meetings will be maintained in the District office and be available during regular business hours for public inspection, for the cost of duplication, within 30 days following the meeting.

Fearl M. Parker,

District Manager.

INTERSTATE COMMERCE COMMISSION

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's rules of practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to coform to the Commission's policy of simplifying grants of operating authority.

Finding:

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions)

we find, preliminarily, that each applicant has demonstrated a public need for the proposed operations and that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract."

Please direct status inquiries to the Ombudsman's Office, (202) 275–7326

Volume No. OPI–320

Decided: December 9, 1981.

By the Commission, Review Board No. 1, members Parker, Chandler, and Fortier. (Member Parker participating in part.)

MC 340 (Sub-61), filed November 27, 1981. Applicant: QUERNER TRUCK LINES, INC. 1131–33 Austin Street, San Antonio, TX 78208. Representative: M. Ward Bailey, 2412 Continental Life Bldg., Fort Worth, TX 76102 (817) 335–2505. Transporting *food and related products*, between points in the U.S.

Note.—The person or persons who appear to be engaged in common control of another regulated carrier must either file an application under 49 U.S.C. 11343(a) or submit an affidavit indicating why such approval is unnecessary to the Secretary's office. In order to expedite issuance of any authority, please submit a copy of the affidavit or proof of filing the application(s) for common control to Team 5, Room 6370.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81–36133 Filed 12–17–81; 8:45 am]

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's rules of practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested only on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated a public need for the proposed operations and that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract."

Please direct status inquiries to the Ombudsman's Office, (202) 275–7326.

Volume No. OPI–321

Decided: December 9, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier. (Member Parker not participating in part.)

MC 159461, filed November 27, 1981. Applicant: LEE K. CULBERTSON, 43 Coral Key Drive, Ocoee, FL 32761. Representative: Lee K. Culbertson, P.O. Box 10042, Norfolk, VA 23513; (804) 420–9467. Transporting *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizers, and other soil conditioners* by the owner of the motor vehicle in such vehicle, between points in the U.S.

BILLING CODE 7035-01-M

[Volume No. 211]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: December 15, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Ewing, and Shaffer.

MC 2416, (Sub-14)X, filed December 4, 1981. Applicant: HULME TRANSPORTATION CO., P.O. Box 101, Foster, RI 02825. Representative: Richard E. MacNeil, P.O. Box 101, Foster, RI 02825. Subs 6 and 9 permits:

(1) broaden (a) petroleum products, in bulk, and such miscellaneous commodities as are used in conducting or operating retail gasoline service stations, and rejected or damaged shipments of petroleum products, in bulk to "petroleum, natural gas and their products and such miscellaneous commodities used in conducting or operating retail gasoline service stations," Sub 6; and (b) prefabricated non-ferrous structural units for use in the construction industry to "products used in the construction industry," Sub 9; and (2) change the territorial authority to between points in the U.S., under continuing contract(s) with an unnamed shipper in Sub 6 and a named shipper in Sub 9.

MC 6557, (Sub-6)X, filed December 3, 1981. Applicant: PARK MOTOR CARRIER, INC., 232 Dey Street, Jersey City, NJ 07306. Representative: Morton E. Kiel, Suite 1832, Two World Trade Center, New York, NY 10048–0640. Lead and Subs 2 and 5 broaden (1)(a) by removing all restrictions in general commodity authority, except Classes A and B explosives, lead (b) from window glass to "clay, concrete, glass or stone products," Sub 2 and (c) from musical instruments, books and clothing to "musical instruments or parts, printed matter, and textile mill products," Sub 5, (2) city to county wide authority: (a) points in NJ within 30 miles of Newark, NJ to Bergen, Hudson, Essex, Passaic, Morris, Sussex, Hunterdon, Somerset, Middlesex, Union and Monmouth Counties, NJ, lead; (b) Windsor Locks CT to Hartford County, Sub 1 and (c) a described portion of the NY commercial zone to New York, NY, Subs 1 and 2, (3) remove (a) ex-water restriction in Subs 1 and 2; (b) against transportation of window glass restriction Sub 2 and (c) restriction to transportation of import traffic originating at the named origin; sub 5 and (4) to radial authority.

MC 58561, (Sub-3)X, filed November 30, 1981. Applicant: J.A.R. TRUCKING, INC., 3926 Valley Rd., Cleveland, OH 44109. Representative: Stephen J. Habash, 100 E. Broad St., Columbus, OH 43215. Authority acquired in MC–FC 79279F. Broaden iron and steel articles to "metal products" and remove household goods restriction in general commodities authority.

MC 63837 (Sub-8)X, filed December 7, 1981. Applicant: DIGGINS & ROSE, INC., 3 Sagamore Park Road, Hudson, NH 03051. Representative: James M. Burns, 1383 Main Street, Suite 413, Springfield, MA 01103. Lead broaden mill machinery to "machinery," Androscoggin County for Auburn and Lewiston, ME; Suffolk County for Boston, MA; between points in MA within 25 miles of Boston to Suffolk, Middlesex, Norfolk, Plymouth, Essex, and Worcester Counties, MA; points in that part of MA on and east of MA Hwy 12 to Worcester, Middlesex, Essex, Norfolk, Suffolk, Bristol, Plymouth, and Barnstable Counties, MA; ports of entry at designated points in VT to all points of entry located in VT.

MC 95376 (Sub-21)X, filed December 4, 1981. Applicant: McVEY TRUCKING, INC., P.O. Box 116, Oakwood, IL 61858. Representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240. Subs 1 and 14: (1) broaden commodity description: sand, gravel haydite, limestone, crushed rock and coal to "commodities in bulk" in Sub 1; dryweed, killing compounds, dry insecticides and fungicides, dry bagged fertilizer, and dry fertilizer ingredients to "chemicals and related products", and dry corn and soybean products to "food and related products" in Sub 14; (2) eliminate facilities limitation in Sub 14; (3) broaden territorial description: Danville to Vermillion County, IL, in Sub 14; (4) change one-way to radial authority; and (5) remove the restrictions against in bulk and/or in tank trailers and originating at in Sub 14.

MC 96769 (Sub-12)X, filed November 30, 1981. Applicant: LIBERTY TEX–PACK EXPRESS, INC., P.O. Box 470308, Dallas, TX 75247. Representative: Austin L. Hatchell, P.O. Box 2023, Austin, TX 78768. Sub 10F broaden to (1) remove maximum weight per shipment restriction, (2) off-route point of Wolf City, TX, to Hunt County and (3) service at all intermediate on all regular routes.

MC 113651 (Sub-350)X, filed December 8, 1981. Applicant: INDIANA REFRIGERATOR LINES, INC., 10838 Old Mill Road, Suite 1, Omaha, NE 68154. Representative: James F. Crosby, 7363 Pacific St., Suite 210B, Omaha, NE 68114. Subs 142, 203, 242, 244, 320F, and 336F (1) remove restriction against: hides, Sub 203 and 244; commodities in bulk, Subs 142, 203, 242, 244, 320F, and 336F; vehicles equipped with mechanical refrigeration, Sub 242; originating at and destined to and facility restrictions, Subs 142, 203, 244 and 320F; and ex-water restrictions, Sub 244, (2) to radial authority, Subs 142, 203, 242, 244, and 320F; (3) to "food and related products" from (a) meat, meat products, and meat by-products, and articles distributed by meat packinghouses, Sub-Nos. 142, 203, 244, and 336F; and (b) foodstuffs in Sub-No. 242; (4) facilities to county-wide authority; (a) from Council Bluffs, IA, to Pottawattamie and Mills Counties, Sub 142, and Omaha, NE, to Washington, Douglas, Sarpy, and Cass Counties, NE and Pottawattamie and Mills Counties, IA, Sub 142 and 203.

MC 133255 (Sub-2)X, filed December 4, 1981. Applicant: ACE TRANSPORT, INC., Keim Boulevard and Bridge Plaza, Commerce Square, Burlington, NJ 08016. Representative: Robert R. Harris, 1730 M. Street, N.W., Washington, DC 20036. Lead permit broaden to between points in the U.S., under contract(s) with unnamed shippers.

MC 134370 (Sub-9)X, filed December 7, 1981. Applicant: OSBORNE TRUCKING CO., INC., Paradise Valley, Route Box 2409, Riverton, WY 82501. Representative: John T. Wirth, 2600 Petro Lewis Tower, 717 Seventeenth Street, Denver, CO 80202. Lead and Subs 4, 7, and 8, and MC–133741 and Subs 1, 3, 5, 6, 9, 11, 15, 20, and 22 permits. Broaden (1) from dry animal and poultry feed, to "food and related products," lead and Sub 4 certificates; ores, feldspar, feldspathic sand, aggregates, quartz, and stone chips, to "ores and minerals, and clay, concrete, glass or stone products", Sub-7; wallboard, gypsum blocks, and gypsum, to "building materials", Sub-8; lumber, lumber products, and wood chips, to "lumber and wood products," lead and Subs-3, 9, 11, 15, 20, and 22 permits; cement in bulk, concrete pipe and precast concrete products, reinforcing steel mesh, etc., to "clay, concrete, glass or stone products, metal products, and building materials," Sub-1; poly-vinyl chloride pipe, to "rubber and plastic products," Sub-5; and machinery, equipment, materials, and supplies used in * * * of concrete products, to "such commodities as are dealt in and used in the manfuacturing and distribution of concrete products," Sub-6; (2) remove: in bulk and/or in sacks restrictions lead certificate and Subs 1 and 20 permits; and in packages restriction, Sub 4; (3) to redial authority, all certificates; and (4) to between points in the U.S. under contracts with named shippers, all permits.

MC 134426 (Sub-8)X, filed December 8, 1981. Applicant: McCORT DRIVE-A-WAY, INC., P.O. Box 5057, Jacksonville, FL 32207. Representative: Sol H. Proctor, 1101 Blackstone Building, Jacksonville, FL 32202. BILLING CODE 7035–01–M

[Volume No. 210]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: December 14, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 Fr 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applicants may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Ewing, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 1486 (Sub-5)X, filed December 7, 1981. Applicant: VAN BRUNT & SON, INC., Box 192, Old Bridge, NJ 08857. Representative: Joseph A. Keating, Jr., 121 S. Main St., Taylor, PA 18517. Lead and Subs 3, and 4: (1) broaden (A) Matawan, NJ, and 20 miles thereof, to Ocean, Monmouth, Middlesex, Mercer, Somerset, Union and Essex Counties, NJ in the lead, irregular route portion, (B) points in PA within 100 miles of Matawan, NJ, to Lancaster, Lebanon, Schuylkill, Columbia, Northumberland, Luzerne, Wyoming, Susquehana, and Wayne Counties, PA in the lead; (C) Norristown, Bridgeport, and Conshohocken, PA, and one mile thereof, to Montgomery County, PA in the lead; (D) points in PA within 25 miles of Philadelphia City Hall to Chester, Berks, Montgomery, and Bucks Counties, PA in Sub-No. 4; (2) delete prior or subsequent movement by rail restriction in Sub-No. 3.

MC 35227 (Sub-23)X, filed December 7, 1981. Applicant: EDSON EXPRESS, INC., 1270 Boston Avenue, P.O. Box 925, Longmont, CO 80501. Representative: Dale E. Isley, Steele Park, Suite 330, 50 South Steele Street, Denver, CO 80209. Lead and Subs 9, 11F, 13, 14F, 15F, 17F, 18F and 21: (1) broaden from general commodities (with exceptions) to "general commodities (except classes A and B explosives)"; and (2) authorize service at all intermediate points, lead and Subs 13, 14F, 15F, 17F, 18F, and 21.

MC 88563 (Sub-3)X, filed December 7, 1981. Applicant: PAUL STRASSER, Box 191B, R.R. No. 1, Almena, WI 58405. Representative: James E. Ballenthin, 630 Osborn Building, St. Paul, MN 55102. Sub-2 certificate, (1) broaden: general commodities (exceptions) to "general commodities (except classes A and B explosives)"; wood to "lumber and wood products"; feed, seed, salt and farm machinery to "farm products, animal food and related products, chemicals and related products, and machinery"; livestock to "farm products"; firewood to "forest products"; household goods, twine and grain to "household goods, textile mill products, and farm products"; farm machinery and feed to "machinery and animal food and related products"; (2) replace: named points in Barron and Polk Counties, WI, with Barron and Polk Counties, WI; South St. Paul with Dakota County, MN; Newport and Stillwater with Washington County, MN; and (3) to radial authority.

MC 95376 (Sub-22)X, filed December 4, 1981. Applicant: McVEY TRUCKING, INC., R.R. No. 1, Box 116, Oakwood, IL 61858. Representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240. Sub 19 to broaden (1) from materials, and supplies used in the manufacture and distribution of foundry castings to "metal products," (2) plant site at Tilton, IL to Vermillion County, IL (3) to radial authority and (4) remove destinated to restriction.

MC 111941 (Sub-41)X, filed November 9, 1981, previously noticed in the **Federal Register** of November 25, 1981, republished as follows: Applicant: PIERCETON TRUCKING COMPANY, INC., P.O. Box 233, Laketon, IN 46943. Representative: Norman R. Garvin, Andrew K. Light, 1301 Merchants Plaza, East Tower, Indianapolis, IN 46204. Broaden to (1)(b) "building materials" from cement, lead; from pre-cast concrete, prefabricated cement slabs and allied products, brick, pre-cast and pre-stressed concrete products, Subs 11, 12, and 34; and (e) "those commodities, which because of their size or weight, require the use of special handling or equipment" from pre-fabricated steel articles, which, because of size or weight, require the use of special handling and materials in Sub-Nos. 18 and 34. The purpose of this republication is to correct the above-noted commodity descriptions.

MC 119968 (Sub-26)X, filed November 12, 1981. Applicant: A. J. WEIGAND, INC., P.O. Box 130, Dover, OH 44622. Representative: Michael Spurlock, 275 E. State St., Columbus, OH 43215. Lead and Subs 2, 6, 7, 10, 11, 12, 14, 15, 17, 18, 20 and 21, broaden to (1)(a) "commodities in bulk," from liquid chemicals, in bulk, Sub 6 and 21; chemicals, in bulk, Subs 10, 14, 15 and 20 hydrofluoric acid, in bulk, Sub 11; sodium bicarbonate, Sub 12; liquid commodities, in bulk, Sub 17, (b) "commodities in bulk and materials and supplies used in the production of commodities in bulk" from liquid chemicals and materials and supplies Sub 18; (c) "food and related products" from malt beverages, lead, (d) "chemicals and related products and ores and minerals" from caustic soda, silica pigment, peroxide and calcium hypochlorite, Sub 7 and (e) "metal products" from metal shipping containers, Sub 2 (2) remove facilities limitations, in tank vehicles, originating at and/or or destined to, against named commodities restrictions, (3) cities to county-wide authority (f) Dover, OH to Tuscarawas County lead, Sub 10; Niles, OH to Mahoning and Trumbull Counties, Sub 2; Barberton, OH to Summit County, Sub 7; Uhrichsville, OH to Tuscarawas County, lead; Nitro, WV to Putnam and Kanawah Counties, Sub 11; Old Fort, OH to Seneca County, Sub 12; Meredosa, IL to Morgan, Scott and Brown Counties, Sub 14; Charleston, WV to Kanawha County; Sub 15F; Newark, OH to Licking, OH, Sub 18; and Elwood City and Frisco, PA to Lawrence and Beaver Counties; Sub 20; and (4) to radial authority, lead, Subs 2, 7, 10, 11, 14, 20.

MC 125978 (Sub-10)X, filed December 7, 1981. Applicant: DEPENDABLE CAR TRAVEL SERVICE, INC., 130 West 42nd Street, New York, NY 10036. Representative: Roy A. Jacobs, Esq., 550 Mamaroneck Ave., Harrison, NY 10528. Subs–4M1F and 5 certificates, (1) broaden from used passenger automobiles, with or without baggage, personal effects, and pets of owners of such vehicles, in driveaway service, to "transportation equipment, with or without baggage, personal effects" both Subs; and (2) remove restrictions against the transportation of vehicles: (a) moving on government bills of lading, (b) ex-rail and (c) moving for, from or on behalf of manufacturers of new automobiles and station wagons (exceptions), both Subs.

MC 126516 (Sub-9)X, filed December 8, 1981. Applicant: SKYLINE MOTORS AIR CARGO, INC., Bridge St., and Riverside Dr., Bridegwater, Beaver, PA 15009. Representative: Russell S. Bernhard, 1625 K St., N.W., Washington, D.C. 20006. Sub-7: (1) replace airports with cities: Cleveland-Hopkins Airport, Cleveland, OH (Cleveland, OH) and Greater Pittsburgh International Airport, Pittsburgh, PA (Pittsburgh, PA); (2) remove the ex-air restriction.

MC 136713 (Sub-27)X, previously noticed in the **Federal Register** of November 16, 1981, republished as follows: Applicant: AERO LIQUID TRANSIT, INC., 1717 Four Mile Road, N.E., Grand Rapids, MI 49503. Representative: William H. Shawn, Suite 501, 1730 M Street, N.W., Washington, DC 20036. Lead and Subs 4, 5, 7, 10F, 11F, 12F, 13F, 15F, 17, 18F, 19F, 20, 22F, 23, 24F and 25 certificates: (1) Broaden (a) liquefied petroleum gases and natural gases (lead), liquefied petroleum gases (Subs 4, 10F, 12F, 13F, 18F, 19F, 21F, 22F, 23, and 24F), and propane and butane gas (Sub 5) to "acids and chemicals"; (b) anhydrous ammonia (Subs 7, 11F, and 20F), anhydrous ammonia and fertilizers (Sub 15F), and fertilizers (Sub 25) to "chemicals and related products"; and (c) gypsum and gypsum products (Sub 17) to "building materials"; (2) remove in bulk and/or in tank vehicles, lead and Subs 4, 5, 7, 10F,

11F, 12F, 13F, 15F, 18F, 19F, 20F, 21F, 22F, 23, and 24F; (3) change one-way to radial authority, lead and Subs 4, 5, 7, 10F, 11F, 12F, 13F, 15F, 17, 18F, 19F, 20F, 21F, 22F, 23, 24F, and 25; (4) replace ports of entry on the U.S.-Canada Boundary line in Port Huron, MI, with all ports of entry in MI; (5) eliminate facilities limitations, and originating at and/or destined to Subs 5, 7, 10F, 12F, 13F, and 15F; and (6) replace cities with counties: Lowell, MI (Kent County), Subs 4 and 18F; Alto, MI (Kent County), Subs 4 and 18F; Huntington, IN (Huntington County), Sub 7; Lemont, IL (Cook, DuPage, and Will Counties), Sub 10F; Lima, OH (Allen and Auglaize Counties), Sub 11F; New Hampton, IA (Chickasaw County), Sub 12F; Mankato, MN (Blue Earth and Nicollet Counties), Sub 12F; Benson, MN (Swift County), Sub 12F; Milford, IN (Kosciusko County), Sub 13F; Fort Madison, IA (Lee County), Sub 15F; Grand Rapids, MI (Kent, Ottaea, and Allegan Counties), Sub 17; Woodhaven, MI (Wayne County), Sub 19F; Wyandotte, MI (Wayne County), Sub 19F; Port Huron, MI (St. Clair County), Sub 20; Moberly County, MO (Randolph County), and Jefferson City, MO (Boone, Callaway, Cole and Osage Counties), Sub 21F; Inkster, MI (Wayne County), Sub 22F; Blue Island, IL (Cook County), Sub 24F; and Burns Harbor, IN (Lake and Porter Counties), Sub 25. MC-135012 and Subs 4F and 5F permits: (1) Broaden chemicals (lead and Sub 5F) and ethyl alcohol (Sub 4) to "chemicals and related products"; (2) remove in bulk, in tank vehicles, lead and Subs 4 and 5; and (3) broaden territorial authority to between points in the US, under continuing contracts with named shippers, lead and Sub 4 and 5. The purpose of this republication is to modify the commodity broadening in part (1) above.

MC 144082 (Sub-8)X, filed December 2, 1981. Applicant: DIST/TRANS MULTI SERVICES, INC., d.b.a. TAHWHEELALEN EXPRESS, INC., P.O. Box 7191, Charlotte, NC 28217. Representative: Wyatt E. Smith (same as applicant). Sub-No. 10F permit: broaden territory to all points in the U.S. under a continuing contract with a named shipper.

MC 145620 (Sub-4)X, filed December 2, 1981. Applicant: INDUSTRIAL HEAVY TRANSPORT, INC., P.O. Box 207, Wheatridge, CO 80033. Representative: Michael R. Werner, 241 Cedar Lane, Teaneck, NJ 07666. Sub-No. 3 certificate, broaden scrap metals and scrap metal alloys, waste products for recycling, forest products, scrap electrical products, ingots, scrap automobile bodies, plastic scrap products and scrap chemical solutions (except commodities in bulk), to "waste or scrap materials not identified by industry producing, and forest and primary metal products."

MC 145802 (Sub-10)X, filed December 2, 1981. Applicant: RONALD E. REED, d.b.a. TRIPLE R TRUCKING, R.F.D., Laurens, IA 50554. Representative: James M. Hodge, 1000 United Central Bank Bldg., Des Moines, IA 50309. Subs 3F, 5F, 6F, and 7F: (1) broaden (a) meats, meat products, and meat byproducts, and articles distributed by meat packinghouses, Sub 3F, (b) frozen bakery products, Subs 5F and 6F, and (c) frozen concentrates and canned fruit juices, Sub 7, to "food and related products"; (2) remove plantsite restrictions, Subs 3F and 6F; (3) broaden cities to counties: Storm Lake, IA (Buena Vista County) and Cherokee, IA (Cherokee County), Sub 3F and Nashville, TN (Davidson County), Subs 5F and 6F; and (4) change one-way to radial authority, Subs 3F, 5F, 6F and 7F.

MC 146110 (Sub-4)X, filed December 2, 1981. Applicant: SMALL SHIPMENTS EXPRESS OF ILLINOIS, INC., 9623 N. Karlov Ave., Skokie, IL 70076. Representative: Allan C. Zuckerman, 29 S. LaSalle St., Chicago, IL 60603. Lead and Sub-2 to broaden (1)(a) Chicago, IL, to Cook, Lake, DuPage, McHenry, Kane and Will Counties, IL, and Lake and Porter County, IN; Milwaukee, WI, to Kenosha, Waukesha, Washington and Milwaukee Counties; and Freeport, IL, facilities to Stephenson County, lead, (b) facilities at Chicago, IL, to Chicago, IL, Sub-2 and (2) to radial authority.

MC 146980 (Sub-1)X, filed November 24, 1981. Applicant: HOOSIER EXPRESS, INC., P.O. Box 705, Westville, IN 46391. Representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240. Lead permit: broaden (1) steel and aluminum articles to "metal products" and (2) to all points in the U.S. under continuing contract(s) with a named shipper.

MC 147088, (Sub-7)X, filed November 27, 1981. Applicant: DERBY CITY EXPRESS, INC., P.O. Box 19097, Louisville, KY 40219. Representative: James W. Kendrick, P.O. Box 19097, Louisville, KY 40219. Sub 5F: (1) broaden foodstuffs to "food and related products"; (2) remove the facility limitation and except in bulk and vehicle restrictions; (3) remove the originating at and destined to restriction; and (4) change one-way to radial authority.

MC 148301, (Sub-3)X, filed December 1, 1981. Applicant: FRANCIS J. BURKE d.b.a. BEE TRUCKING, 2812 South Hillock Avenue, Chicago, IL 60608. Representative: William H. Towle, 180 North LaSalle Street, Chicago, IL 60601. Lead certificate, (1) broaden general commodities (exceptions), to "general commodities (except classes A and B explosives)"; and (2) remove ex-rail and water restriction.

MC 150231 (Sub-13)X, filed November 13, 1981. Applicant: MAVERICK TRANSPORTATION, INC., P.O. Box 15428, Little Rock, AR 72231. Representative: Larry Leahy (same address as applicant). Subs 2F, 3F, 4F, and 6F: (1) broaden (a) wire products, Sub 2F, and iron and steel articles, Subs 3F and 6F, to "metal products", and (b) concrete roofing tile, Sub 4F, to "building materials; (2) remove facilities limitations, Subs 2F, 3F, and 4F; (3) remove except in bulk restriction, Subs 2F and 3F; (4) change one-way to radial authority, Subs 2F, 3F, and 4F; and (5) change cities to counties: Madill, OK (Marshall County), Sub 2F; Little Rock, AR (Pulaski County), Dallas, TX (Dallas County), and Houston, TX (Harris County), Sub 3F; and Shawnee, OK (Pottawatomie County), Sub 4F.

[Docket No. AB-88 (Sub-2)]

Rail Carriers; Bessemer and Lake Erie Railroad Co.—Abandonment—in the County of Armstrong, Commonwealth of Pennsylvania; Notice of Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that the Commission, Review Board Number 3, has issued a certificate authorizing the Bessemer and Lake Erie Railroad Company to abandon its rail line and discontinue service between Valuation Station 2460+98 (M.P. WA 46-48) to Valuation Station 2485+51 (M.P. WA 46.95) a distance of 0.46 miles, located in the County of Armstrong, Commonwealth of PA, subject to certain conditions. Since no investigation was instituted, the requirement of Section 1121.38(b) of the Regulations that publication of notice of abandonment decisions in the **Federal Register** be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing Exhibit I (Section 1121.45 of the Regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this notice. The offer, as filed, shall contain information required pursuant to § 1121.38(b)(2) and (3) of the Regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective 30 days from the service date of the certificate.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Finance Docket No. 29684 (Sub-1)]

Rail Carriers; Chicago and North Western Transportation Co.—Purchase—Chicago, Milwaukee, St. Paul and Pacific Railroad Co., Debtor (Richard B. Ogilvie, Trustee) Between Perry, Herndon and Waukee, IA

AGENCY: Interstate Commerce Commission.

ACTION: Application accepted for consideration.

SUMMARY: The Commission is accepting for consideration the application of the Chicago and North Western Transportation Company (C&NW) to acquire and operate a line of railroad owned by the Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor (Richard B. Ogilvie, Trustee) (Milwaukee), which runs between Perry, Herndon and Waukee, IA.

DATES: (1) Verified statements supporting or opposing the application must be received at the Commission by January 6, 1982. (2) Verified statements from the United States Secretary of Transportation and the Attorney General of the United States are due January 18, 1982. (3) Verified replies are due January 28, 1982.

ADDRESS: An original and 10 copies of all statementas should refer to Finance Docket No. 29684 (Sub-No. 1) and be sent to: Section of Finance, Room 5414, Interstate Commerce Commission, Washington, D.C. 20423; Attention: Milwaukee Acquisition.

FOR FURTHER INFORMATION CONTACT: Richard A. Kelly (202) 275-7245.

SUPPLEMENTARY INFORMATION: On December 7, 1981, the C&NW filed an application under Sections 5(b) and 17(b) of the Milwaukee Railroad Restructuring Act, 45 U.S.C. 904 and 915, for authority to acquire approximately 51.2 miles of Milwaukee's line which runs between Perry, Herndon, and Waukee, IA. The application will be handled under the rules adopted in Ex Parte No. 282 (Sub-No. 4) *Acquisition Procedures for Lines of Railroads*, 360 ICC 623 (1980), and published in subpart B of 49 CFR Part 1111 (1980). In Finance Docket No. 29487, *Chicago and North Western Transportation Company—Petition* (not printed), served November 5, 1980, the Commission determined that this acquisition is a minor transaction.

By order dated August 10, 1981, the Milwaukee's Reorganization Court approved the sale and purchase agreement between the C&NW and Milwaukee.

We have reviewed the applicaation and find that it contains the information required by our regulations.

A copy of all comments should be served upon the Attorney General of the United States, the United States Secretary of Transportation, and upon applicant's representative, Anne E. Keating, 165 North Canal Street, Chicago, IL 60606. By order of the Milwaukee's Reorganization Court, the Commission will issue a final decision on this application by March 5, 1982.

It is ordered:

1. The application in Finance Docket No. 29684 (Sub-No. 1) is accepted for consideration.

2. The parties shall comply with all provisions as stated above.

3.This decision is effective on December 15, 1981.

Dated: December 14, 1981.

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

Agatha L. Mergenovich,

Secretary.

Part IV

The Office of the Associate Attorney General propses to delete a notice of a system of records entitled "Financial Disclosure Statements, JUSTICE/AAG–012," most recently published on September 30, 1977 in **Federal Register** Volume 42, page 53360. This notice is unnecessary as these records are reported under a government-wide notice published by the Office of Personnel Management entitled "Confidential Statements of Employment and Financial Interests, OPM/GOVT–8."

The Office of Justice Assistance, Research and Statistics proposes to delete a system of records entitled "Law Enforcement Education System, JUSTICE/OJARS–002," most recently published in November 17, 1980 in **Federal Register** Volume 45, page 75933. These records are now maintained and are under the control of the Department of Education, which is responsible for the administraton of the Law Enforcement Education Program (LEEP). Requests for information under the Privacy Act or the Freedom of Information Act should be addressed to the Office of General Counsel, Department of Education, Room 4091, 400 Maryland Avenue, SW, Washington, D.C. 20202.

BILLING CODE 1505–01–M

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[Docket No. M–81–232–C]

Valley Camp Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

The Valley Camp Coal Company, 2971 E. Dupont Avenue, Shrewsbury, WV 25184 has filed a petition to modify the application of 30 CFR 75.305 (weekly examinations for hazardous conditions) to its No. 9 Tunnel located in Kanawha County, West Virginia. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that return air courses be examined in their entirety on a weekly basis.

2. The No. 9 Tunnel is used to transport coal by belt from the petitioner's other mines to the preparation plant.

3. When extraction of coal was taking place from the No. 9 Tunnel, ten panels were mined off the main entries. Those ten panels were all sealed when extraction of coal was completed. Since the erection of the seals, numerous roof falls along the main entries adjacent to the seals have occurred to a point where the seals cannot be located or examined. The seals are now blocked by fallen rock extending from the seals to the main belt entries, a distance of approximately 50 to 100 feet.

4. As an alternative method, petitioner proposes to perform examinations for hazardous conditions at designated evaluation points near the location where the seals are blocked by rock and debris.

5. Petitioner states that this proposed alternative method will provide the same degree of safety for the miners affected as that afforded by the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before January 18, 1982. Copies of the petition are available for inspection at that address.

Dated: December 7, 1981.

Patricia W. Silvey,

Acting Director, Office of Standards, Regulations and Variances.

BILLING CODE 4510–43–M

Pension and Welfare Benefit Programs

[Application Nos. D–2477, 2478, and 2479]

Proposed Exemption for Certain Transactions Involving the Bale Non-Salaried Employees Profit Sharing Plan, the Bale Employees Retirement Plan, and the Bale Finance Company, Inc., Employees Retirement Plan Located in Little Rock, Arkansas

AGENCY: Pension and Welfare Benefit Programs, Labor.

ACTION: Notice of proposed exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and the Internal Revenue Code of 1954 (the Code). The proposed exemption would permit the Bale Non-Salaried Employees Profit Sharing Plan (Bale Profit Sharing Plan), the Bale Employees Retirement Plan (Bale Retirement Plan) and the Bale Finance Company, Inc. Retirement Plan (Bale Finance Plan; collectively, the Plans) to purchase customer notes from the Bale Finance Company (Bale Finance) which receives such notes in the ordinary course of its business affiliation with Bale Chevrolet Company (Bale Chevrolet). The notes are collateralized by security agreements on the property purchased by Bale Chevrolet customers. The proposed exemption, if granted, would affect Bale Finance, Bale Chevrolet, the participants and beneficiaries of the Plans and certain other persons participating in the transactions.

EFFECTIVE DATE: January 1, 1975 until June 30, 1975 for those transactions covered by section III of the exemption otherwise from the date the exemption grant is published in the **Federal Register.**

DATE: Written comments and requests for a public hearing must be received by

the Department on or before February 1, 1982.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216, Attention: Application Nos. D–2477, 2478 and 2479. The applications for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N–4677, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Paul R. Antsen of the Department, telephone (202) 523–6915. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is given of the pendency before the Department of applications for exemption from the restrictions of sections 406(a), 406 (b)(1) and (b)(2) and 407(a) of the Act and from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code. The proposed exemption was requested in applications filed on behalf of the trustees of the Plans (the Trustees), pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Preamble

On March 23, 1979, the Department published a class exemption (Prohibited Transaction Exemption 79–9 (PTE 79–9), 44 FR 17819), which permits employee benefit plans to purchase certain notes from employers any of whose employees are covered by the plan where the employers receive such notes from their customers in the ordinary course of their business and the notes are collaterlized by security agreements on the property purchased by the customers.

In PTE 79–9 the Department defined a customer note for purpsoes of the exemption as ". . . a two party instrument executed along with a security agreement for tangible personal property, which is accepted in connection with, and in the normal course of the employer's primary business activity as a seller of such property. . . ." PTE 79–9 did not contain a definition of the term "employer" nor was the scope of that term the subject of any discussion or comment. Subsequent class exemptions have recognized the concept of an "affiliate" of the party dealing with the plan by incorporating the definition found in 29 CFR 2510.3–21(e) or defining the term using similar language.[1]

Based on the fact that PTE 79–9 did not address the issue of "affiliate" and because the definition of a customer note states that such note is accepted by the "employer" in the course of his primary business activity as a seller of such property, the Department is unable to conclude that the arrangement presented by this application request falls within the scope of PTE 79–9. Because the transactions which are the subject of this exemption request appear to parallel those transactions contemplated by PTE 79–9, but for the fact that the seller of the property and the entity holding the customer note are not identical, the Department has determined that relief comparable to that afforded by PTE 79–9 would be appropraiate.

PTE 79–9 was a temporary class exemption; therefore, the Department would similarly propose to make this exemption temporary, extending only to the expiration date of such class exemption. The Department would then make a determination with respect to future relief for the applicant at the same time the transactions covered by the existing class exemption were considered.

Summary of Facts and Representations

The applications contain representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the applications on file with the Department for the complete representations of the applicant.

1. Bale Chevrolet, a privately held corporation incorporated in the State of Arkansas, is engaged in the business of selling automobiles. Bale Finance, also a privately held corporation incorporated in the State of Arkansas, is engaged in the business of financing automobiles for customers of Bale Chevrolet. Bale Chevrolet and Bale Finance are the sole members of a controlled group (as defined in section 1563(a) of the Code).

2. The Bale Retirement Plan is a qualified money purchase plan having 34 participants as of December 31, 1980 and $2,927,642 in total assets. The Bale Profit Sharing Plan had 44 participants as of December 31, 1980 and assets totaling $313,725. Both of the above plans are sponsored by Bale Chevrolet. The Bale Finance Plan had 1 participant, a common law employee, as of December 31, 1980 and held $118,484 in total assets. This plan is sponsored by Bale Finance. The holding of customer notes has been the primary source of investment for the Plans since 1963 and would continue to be to the extent permitted by this exemption.

3. The applicant represents that the subject customer note transactions have met or will meet all of the conditions (except as discussed above) of PTE 79–9, in that:

(a) The customer notes meet the definition contained in PTE 79–9 except as discussed above regarding the multiple, but related, nature of the employer accepting the notes and the employer selling the property;

(b) Information has been furnished and would be furnished in the future to satisfy the recordkeeping and disclosure requirements;

(c) Sales of the customer notes to the Plans would be on terms at least as favorable to the Plans as arm's-length transactions with an unrelated third party would be;

(d) The acquisition of a customer note from Bale Finance shall not cause any of the Plans to hold (i) more than 50 percent of the current value (as the term is defined in section 3(26) of the Act) of assets such plan in customer notes for property purchased from Bale Chevrolet, and (ii) more than 10 percent of plan assets (as defined above) in customer notes of any one customer;

(e) Bale Chevrolet and Bale Finance jointly guarantee in writing the immediate repayment of the outstanding balance of the customer note and accrued interest in the event such note is more than 60 days in arrears, the obligor on such note fails to comply with any term or condition thereof, or the obligator's financial condition reaches a point (as enumerated in PTE 79–9) so as to impair the security underlying the customer note or increase the credit risk outstanding;

[1] Such definition provides that an affiliate of a person includes:

(i) Any person directly or indirectly, through one or more intermediaries, controlling, controlled by, or under common control with such person;

(ii) Any officer, director, partner, employee or relative (as defined in section 3(15) of the Act) of such person; and

(iii) Any corporation or partnership of which such person is an officer, director or partner.

For purposes of this definition the term "control" means the power to exercise a controlling influence over the management or policies of a person other than an individual.

(f) The Plans receive adequate security for the customer notes comparable to that enumerated in the PTE 79–9; and

(g) The Plans ensure that insurance against loss or damage to the collateral from fire or other hazards is procured and maintained by the obligor until the note is repaid or repurchased and that the proceeds of such insurance is assigned to whichever of the Plans holds the customer note involved.

4. The majority of the customer notes which are the subject of this exemption involve passenger automobiles and light-duty highway motor vehicles, the repayment terms of which were limited by PTE 79–9 to forty-eight (48) months. However, the applicant has represented that certain of the trucks sold by Bale Chevrolet were subsequently modified to exceed the weight limitation discussed in PTE 79–9. Therefore, the Department has proposed relief which permits the holding of customer notes for certain specifically defined heavy equipment and adopted the maximum allowable repayment term of sixty (60) months contained in PTE 79–9 for such customer notes.

5. In summary, the applicant represents that the statutory criteria contained in section 408(a) of the Act have been satisfied as follows:

(a) The customer notes involved represent individually 10 percent and collectively 50 percent of plan assets in obligations of third parties unrelated to the Plans;

(b) The customer notes are secured in accordance with Uniform Commercial Code or comparable state statute and insured against loss or damage to the benefit of the Plans;

(c) The customer notes are further protected, as an investment of the Plans, by the guarantee of repurchase by both Bale Chevrolet and Bale Finance;

(d) The terms under which a sale of customer notes would occur will always be at least equal to those terms of an arm's-length transaction with an unrelated third party; and

(e) The Trustees of the Plans represent that the transactions are in the best interests of the Plans and their participants and beneficiaries.

Notice to Interested Persons

Within ten days of publication of the proposed exemption in the **Federal Register** (on or before December 28, 1981) all participants in the Plan will receive by personal delivery or first class mail, certified with return receipt requested, a copy of the notice of pendency and a statement informing them of their right to comment and their right to request that a hearing be held.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the applications for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the applications, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of sections 406(a), 406 (b)(1) and (b)(2) and 407(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the purchase of customer notes by the Plans from Bale Finance provided the transactions satisfy the following conditions:

Section I. Definition of Customer Notes

For purposes of this exemption a customer note is a two-party instrument, executed along with a security agreement for tangible personal property, which is accepted in connection with, and in the normal course of Bale Finance's primary business activity—the financing of that property purchased from Bale Chevrolet. A two-party instrument is a promissory instrument used in connection with the extension of credit in which one party (the maker) promises to pay a second party (the payee) a sum of money.

Section II. General Exemption

Effective immediately the restrictions of sections 406(a), 406 (b)(1) and (b)(2), and 407(a) of the Act and the taxes imposed by section 4975 (a) and (b) of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply until July 1, 1984, to the purchase and holding by the Plans of customer notes (as defined in Section I) acquired from Bale Finance and the repurchase of such notes by Bale Chevrolet and/or Bale Finance in accordance with paragraph (E), below provided that the following conditions are met:

A. Within seven months after the close of a plan year during which the Plans engage in a transaction in reliance on this exemption, the Trustees or other appropriate fiduciary of the Plans shall submit the following information to the U.S. Department of Labor, Pension and Welfare Benefit Programs, 200 Constitution Avenue, N.W., Washington, D.C. 20216 (Attention: Customer Notes):

1. Name and address of employer;
2. Employer's identification number;
3. Name and address of plan administrator;
4. Plan administrator's identification number;

5. Plan name and number.

B. Upon request by the Department, the Trustees or other appropriate fiduciary of the Plans which engaged in a transaction in reliance on this exemption shall submit to the Department such additional information regarding transaction subject to this exemption as may be requested. All requests for additional information shall be in writing.

C. Any sale of customer notes to the Plans is on terms at least as favorable to the Plans as an arm's-length transaction with an unrelated third party would be.

D. The acquisition of a customer note from Bale Finance shall not cause any one of the Plans to hold: (i) more than 50 percent of the current value (as the term is defined in section 3(26) of the Act) of plan assets in customer notes of the employer, and (ii) more than 10 percent of plan assets (as defined above) in customer notes of any one customer.

E. Bale Chevrolet and Bale Finance guarantee in writing the immediate repayment of the outstanding balance and accrued interest due on any customer note in the event such note is more than 60 days in arrears, or the obligor on such note fails to comply with any terms or conditions thereof; or in the event the obligor shall become insolvent, commit an act of bankruptcy, make an assignment for the benefit of creditors or a liquidating agent, offer a composition or extention to creditors, make a bulk sale; or in the event any proceeding, suit or action at law, in equity or under any of the provisions of the Bankruptcy Act or of amendments thereto for reorganization, composition, extension, arrangements, receivership, liquidation, or dissolution shall be begun by or against the obligor; or in the event of the appointment under any jurisdiction at law or in equity of any receiver of any property of the obligor; or in the event the condition of affairs of the obligor shall so change as to, in the opinion of the Trustees or other appropriate fiduciaries, impair its security or increase its credit risk; or should the obligor fail to take proper care of the goods or abandon the same.

F. The Plans receive adequate security for the customer note. For purposes of this exemption, the term adequate security means that the customer note is secured by a perfected security interest in the property purchased by the obligor on such note so that if the security is foreclosed upon, or otherwise disposed of, in default of repayment of the loan, the value and liquidity of the security is such that it may reasonably be anticipated that loss of principal or interest will not result. In no event shall adequate security mean an interest in intangible personal property, such as, but not limited to, accounts, contract rights, documents, instruments, chattel paper, and general intangibles.

G. Insurance against loss or damage to the collateral from fire or other hazards will be procured and maintained by the obligor until the customer note is repaid or repurchased by Bale Cheverolet and/or Bale Finance, and the proceeds from such insurance will be assigned to whichever of the Plans holds the customer note involved.

H. Repayment must be provided for in the following manner:

1. Where the customer note is secured by heavy equipment, the term shall in no event exceed 60 months. For purposes of this exemption heavy equipment shall include trucks (cab and chassis only) over 10,000 pounds but shall not include such equipment which has been specifically designed, manufactured or modified to a users specifications and which cannot reasonably be expected to be resold in the ordinary course of the equipment distribution business.

2. Where the customer note is secured by passenger automobiles and light-duty highway motor vehicles, the term of repayment shall in no event exceed 48 months. For purposes of this exemption, passenger automobiles and light-duty highway motor vehicles are defined as vehicles which have a gross weight of 10,000 pounds or less, are propelled by means of their own motor and are a type used for highway transportation.

I. The Plans relying upon this exemption shall maintain or cause to be maintained for a period of six years from the date of such transaction such records as are necessary to enable the Department to determine whether the conditions of this exemption have been met, except that:

1. A prohibited transaction will not be deemed to have occurred if due to circumstances beyond the control of the Trustees or other appropriate fiduciary of the Plans, such records are lost or destroyed prior to the end of such six-year peiods; and

2. Bale Chevrolet and Bale Finance shall not be subject to the civil penalty which may be assessed under section 502(i) of the Act, or to the taxes imposed by section 4975 (a) and (b) of the Code, if such records are not maintained, or are not available for examination as required by paragraph J below; and

J. Notwithstanding anything to the contrary in subsections (a)(2) and (b) of section 504 of the Act, the records referred to in paragraph I above are unconditionally available at their customary location for examination during normal business hours by:

1. The Internal Revenue Service;

2. The Department of Labor;

3. Participants and beneficiaries of the Plans;

4. Any employer of plan participants;

5. Any employee organization any of whose members are covered by the Plans; or

6. Any duly authorized employee or representative of a person described in subparagraph (1) through (5) of this paragraph.

Section III. Special Exemption

A. The restrictions of sections 406(a) and 406 (b)(1) and (b)(2), and 407(a) of the Act and the taxes imposed by section 4975 (a) and (b) of the Code by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the purchase and holding by the Plans of customer notes purchased on or before June 30, 1975, from Bale Finance provided that the following conditions are met:

1. The terms of the purchase of the customer notes by the Plans were at least as favorable to the Plans as an arm's-length transaction with an unrelated third party would have been;

2. The Plans received adequate security as defined in Section (II)(F) above; and

3. Such purchases were ordinarily and customarily made by the Plans prior to January 1, 1975.

B. The restrictions of section 406(a) and 406 (b)(1) and (b)(2) of the Act and section 4975(c)(1) (A) through (E) of the Code shall not apply until 180 days after the grant of this exemption to the sale, exchange or other disposition of customer notes which are owned by the Plans on December 18, 1981 to a disqualified person or party in interest if:

1. Such sale is made in order to comply with the conditions of this exemption; and

2. The Plans receive not less than adequate consideration.

Signed at Washington, D.C., this 11th day of December 1981.

Alan D. Lebowitz,

Assistant Administrator for Fiduciary Standards, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

BILLING CODE 4510-29-M

[Application No. D-2889]

Proposed Exemption for Certain Transactions Involving the Hanes Corporation Retirement Plan Located in Chicago, Illinois

AGENCY: Pension and Welfare Benefit Programs, Labor.

ACTION: Notice of proposed exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt the sale of a parcel of undeveloped real estate by the Hanes Corporation Retirement Plan (the Plan) to Consolidated Foods Corporation (Consolidated), a party in interest with respect to the Plan. The proposed exemption, if granted, would affect Consolidated, the Plan and its participants and beneficiaries.

DATE: Written comments and requests for a public hearing must be received by the Department of Labor on or before February 1, 1982.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216, Attention: Application No. D-2889. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Gary H. Lefkowitz of the Department of Labor, telephone (202) 523-8881. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for exemption from the restrictions of sections 406(a), 406 (b)(1) and (b)(2) of the Act and from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code. The proposed exemption was requested in an application filed on behalf of the Plan's trustee, Wachovia Bank and Trust Company, N.A. (the Trustee), pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applicant.

1. The Plan is a defined benefit pension plan. The estimated number of Plan participants is 12,311.

2. The Trustee and Consolidated have entered into an Agreement of Purchase and Sale (the Agreement) pursuant to which the Trustee will sell to Consolidated a parcel of undeveloped real estate owned by the Plan. The Hanes Corporation (Hanes), the sponsor of the Plan, is a division of Consolidated. There are no common directors of the Trustee and Consolidated. All of the Trustee's stock is owned by the Wachovia Corporation (WC), and both Consolidated and WC are traded on the New York Stock Exchange.

3. In March, 1970, Hanes conveyed to the Plan 33.7 acres of land in Winston-Salem, North Carolina. The land abuts on Interstate 40, Silas Creek Parkway, and South Stratford Road, which are major business and commercial roads in Winston-Salem. The contribution of the land was in lieu of a cash contribution and was valued at $1,350,000, or approximately $.92 per gross square foot. This land has been developed by the Trustee into the Stratford Executive Park (the Park). The landowners in the Park currently include insurance firms, physicians, lawyers, retail stores and accountants, among others. The Park is almost fully developed except for the last phase (Phase 4), in which about half the land has been sold.

4. In January, 1980, Consolidated initiated negotiations with the Trustee for the sale of a tract of land in Phase 4 of the Park (the Parcel) on which a narrow street could be constructed. The Parcel joins a road in the Park, Shepherd Street, with property on which Consolidated maintains the Hanes Corporation Research Center (the Center). The only present access to the Center passes through a residential area and Consolidated desired to purchase the Parcel so as to provide access to the Center through a business area.

5. For the next 18 months, the parties negotiated the terms of the sale of the Parcel to Consolidated and on June 8, 1981, the parties executed the Agreement which contained a purchase price for the Parcel of $36,522.09, or $3.75 per square foot. This price per square foot was based on the Trustee's asking price for property in the Park during the time of the negotiations with Consolidated. On August 27, 1981, the Parcel was appraised and valued at $38,000 by Kenneth B. Compton & Associates, Inc., MAI, an independent real estate appraiser. The appraised value of $38,000 is approximately $3.90 per square foot, which is $.15 per square foot higher than the purchase price stated in the Agreement entered into on June 8, 1981. Consequently, Consolidated offered to pay $4.00 per square foot for the parcel, and on September 13, 1981, the parties executed the Amendment to the Agreement of Purchase and Sale, increasing the purchase price from $3.75 to $4.00 per square foot.

6. The Agreement as amended contains the following provisions: (1) the purchase price is $38,956.90, or $4.00 per square foot for the Parcel which contains 9,739.224 square feet. A deposit of $4,000 was paid on June 8, 1981, and the balance of $34,956.90 will be paid at the closing; (2) the sale is conditioned upon obtaining an exemption from the prohibited transaction restrictions of the Act and the Code. If an exemption is denied or not granted by February 28, 1982, the Trustee is obliged to return the $4,000 deposit to Consolidated. If an exemption is obtained, the sale must take place within 30 days of the Trustee's notice to Consolidated that the exemption has been granted; (3) Consolidated must construct a street on the Parcel connecting Shepherd Street to the Center property within one year of the closing. If Consolidated does not complete the street by the end of one year, the Parcel automatically reverts to the Trustee; and (4) the Trustee may retain Consolidated's $4,000 deposit if Consolidated fails for any unathorized reason to comply with the Agreement and fails to close the sale of the Parcel.

7. The Trustee represents that since the Parcel abuts on the Center property, Consolidated is a logical purchaser of the Parcel. The terms of the sale to Consolidated are comparable to the terms of other recent sales transactions for property in the Park, except for the price and the more stringent term requiring Consolidated to construct a street on the Parcel. It is possible that

the Parcel could be sold to an independent person. However, there have been few sales of property in the Park recently because of the currently depressed real estate market. In addition, no other party has expressed any interest in the property to be acquired by Consolidated. The sale of the Parcel will not adversely affect the sales of other property in the Park.

8. Consolidated is paying all the expenses associated with the sale, including the Trustee's attorneys fees for applying for an exemption and the costs of a survey and the appraisal. For sales of other tracts of land in the Park, the Trustee and the purchaser each generally pay whatever costs they incur. Furthermore, the real estate commission of 5% which is typically charged on sales in the Park and paid by the Trustee will not be charged on the proposed sale to Consolidated.

9. In summary, the applicant represents that the proposed transaction satisfies the criteria of section 408(a) of the Act because (1) the sale would be a one-time transaction with the balance of the purchase price to be paid at closing; (2) all expenses incidental to the sale will be borne by Consolidated, and no commission will be charged on the sale; (3) the sales price will be almost $1,000 greater than the fair market value of the Parcel as established by independent appraisal; and (4) the Trustee has determined that the proposed transaction is appropriate for the Plan and in the interests of Plan participants and beneficiaries and protective of their rights.

Notice to Interested Persons

Within 10 days from the date of publication of this notice of proposed exemption in the **Federal Register** (on or before December 28, 1981), the applicant will provide notice to all Plan participants, including retired participants. All active participants and all employee organizations will be notified by posting on official bulletin boards at all work locations, and all retired participants will be notified by mailing. Notification will include a copy of this notice of proposed exemption and will inform all interested persons of their right to comment and request a hearing.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaies of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the sale of the Parcel by the Plan to Conslidated for $38,956.90, provided such amount is not less than the fair market value of the Parcel at the time of sale.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 11th day of December 1981.

Alan D. Lebowitz,

Assistant Administrator for Fiduciary Standards, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

Proposed Exemption for Certain Transactions Involving Internal Medicine Group of Cape Girardeau, Inc.; Profit Sharing Plan; Located in Cape Girardeau, Missouri

AGENCY: Pension and Welfare Benefit Programs, Labor.

ACTION: Notice of proposed exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt the proposed sale by the Internal Medicine Group of Cape Girardeau, Inc. Profit Sharing Plan (the Plan) to Internal Medicine Real Estate Company (the Partnership), a partnership composed of shareholders, officers and directors of Internal Medicine of Cape Girardeau, Inc. (the Employer), the Plan sponsor, of certain bonds (the Bonds) issued by Cape Girardeau Doctors Park (Doctors Park). The proposed exemption, if granted would affect the participants and beneficiaries of the Plans, the Partnership and the Employer.

DATE: Written comments and requests for a public hearing must be received by

the Department on or before February 18, 1982.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216, Attention: Application No. D–2734. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N–4677, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Sandler of the Department, telephone (202) 523–8195. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for exemption from the restrictions of section 406(a), 406(b)(1) and (2) of the Act and from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code. The proposed exemption was requested in an application filed by the Partnership, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applicant.

1. The Employer is engaged in the group practice of internal medicine. The Plan is a profit-sharing plan with 40 participants as of July 15, 1981. Investment decisions for the Plan, including the decision regarding the transaction discussed herein, are made by the firm of Donelan and Phelps, an investment advisor and Guaranty Trust Company of Missouri, which acts as the Plan's trustee (the Trustee). Both Donelan and Phelps and the Trustee are independent of the parties to the proposed transaction.

2. Five of the six shareholders of the Employer are shareholders in Doctors Park, which has a total of approximately 30 shareholders. The Plan currently holds Bonds with a face value of $25,300 which represents 6% of Plan assets. Each of the Bonds was purchased at its face amount and each Bond had an interest rate of 8% per annum. One of the Bond issues reached its maturity date on March 23, 1980 and Doctors Park and the Trustee agreed that the maturity date would be extended to December 31, 1981 and the interest rate would be increased to 13%.

3. Due to the low rate of return on the Bonds, the Plan now proposes to sell the Bonds to the Partnership for a cash purchase price which would be the face amount of each Bond. It is represented that there is no present market for the Bonds and that if they could be sold, they would have to be substantially discounted from face value because of the low interest rate.

4. In summary, the applicant represents that the proposed transaction satisfies the statutory criteria of section 408(a) of the Act due to the following:

(a) the sale would be a one-time transaction for cash;

(b) There is no market for the Bonds;

(c) the Plan will receive the face amount of the Bonds from the Partnership, which is greater amount than the Plan could otherwise receive; and

(d) the decision to sell the Bonds was made by Donelan and Phelps and the Trustee, who are independent of the parties to the transaction.

Notice to Interested Persons

Notice of the proposed exemption will be given, either by hand or by mail, to all interested persons including all participants and beneficiaries of the Plan, within 30 days of its publication in the **Federal Register**. The notice will contain a copy of the proposed exemption and will inform each recipient of his right to comment on or request a hearing regarding the proposed exemption.

General Information

The attention of interested persons is directed to the following: (1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedures 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(a), 406(b) (1)

and (2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the sale of the Bonds by the Plan to the Partnership for a cash purchase price of $25,300, provided that this amount is not less than Bonds' fair market value on the date of sale.

The proposed exemption, if granted, will be subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C. this 11th day of December, 1981.

Alan D. Lebowitz

Assistant Administrator for Fiduciary Standards, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

BILLING CODE 4510-29-M

[Application Nos. D-2785 and D-2786]

Proposed Exemption for Certain Transactions Involving R. M. Bradley Co., Inc., Located in Boston, Massachusetts, and the First City National Bank of Houston Located in Houston, Texas

AGENCY: Pension and Welfare Benefit Programs, Labor.

ACTION: Notice of proposed exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and the Internal Revenue Code of 1954 (the Code). The proposed exemption involves certain aspects of the proposed provision of real estate services by the R. M. Bradley Co., Inc. (Bradley) to the First City National Bank of Houston (the Bank) as trustee of certain employee benefit plans. The proposed exemption, if granted, would affect Bradley, the Bank and the participants and beneficiaries of such employee benefit plans.

DATE: Written comments and requests for a public hearing must be received by the Department of Labor on or before January 22, 1982.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216, Attention: Application Nos. D-2785 and D-2786. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Gary H. Lefkowitz of the Department of Labor, telephone (202) 523-8881. (this is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for exemption from the restrictions of section 406(b) of the Act and from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(E) and (F) of the Code. The proposed exemption was requested in an application filed on behalf of Bradley and the Bank, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applicants.

1. Bradley is a privately-owned corporation with headquarters in Boston, Massachusetts, which provides real estate evaluation, management and other services for various clients, from initial evaluation of a real estate investment opportunity for a client through the acquisition, asset management and disposition stages of the client's involvement in a property. Bradley has engaged in such activities since its formation in 1887 and has developed a high degree of sophistication and expertise in the field. Its services inlcude conceptual planning, agency development, evaluation of existing properties, physical and financial management, marketing, leasing and disposition. Moreover, Bradley may evaluate, select and supervise on-site personnel; structure and manage rental and leasing programs; and supervise and direct the efforts of architects and builders in the construction phases of developing or redeveloping a property. Bradley, in an agency capacity, maintains the ability to perform such services with respect to properties in many different locations throughout the United States, including shopping centers, office buildings, distribution facilities, motel and hotel properties, land and residential developments.

2. The Bank is a national banking association in Houston, Texas, which is a wholly-owned subsidiary of First City Bancorporation of Texas, Inc., a publicly-owned bank holding company. The Bank, through its Trust Division, has long and broad experience in serving as a fiduciary with respect to employee benefit plans and currently serves as trustee with respect to over $2 billion of employee benefit plan assets.

3. The Bank has received numerous inquiries from many of its employee benefit plan customers regarding the possibilities of investing in real estate. These inquiries have paralleled a general increased interest in investing in real estate by pension funds throughout the country, and the Bank has explored various ways that real estate investment can be accomplished, including collective investment funds and certain direct ownership arrangements in real estate located primarily in the Houston, Texas area. Because the Bank believes that it is important to diversify real estate investments into other areas of the country and that it would inappropriately limit investment opportunities to confine investments to the Houston area, the Bank has sought assistance from real estate experts with national capability. Although the Bank maintains a high degree of sophistication and expertise in the real estate area, it does not believe it has the staffing necessary to search the country for acceptable properties or provide primary management of widely dispersed properties.

4. The Bank and Bradley are requesting an exemption that would allow them to enter into an agreement (the Agreement) pursuant to which Bradley would provide for the Bank certain real estate advisory services and asset management services. In its fiduciary capacity, the Bank has determined that no common or collective investments will be made pursuant to the Agreement and that any particular investment will be made by a single corporate pension account.

Moreover, only those pension funds of at least $100 million in total assets will be considered eligible for such an investment, and no more than 10% of any fund shall be committed to an investment to which the Agreement relates. The diversification and liquidity requirements of the pension fund customers of the Bank will be evaluated by the Bank in making its determination as to which accounts are appropriate for real estate investments under the Agreement.

5. Pursuant to investment guidelines established by the Bank, Bradley will locate and evaluate real estate investment opportunities and recommend appropriate opportunities to the Bank. Bradley will present to the Bank a detailed analysis of the investment and any other pertinent information the Bank requests. The Bank, in its sole discretion, will make the investment decision with respect to approval or rejection of the investment opportunity presented. If the Bank approves the proposed investment, Bradley will proceed to acquire the investment on behalf of the pension fund account designated by the Bank. Similarly, Bradley will locate, evaluate and present to the Bank opportunities for disposition of investments previously acquired under the Agreement. Acceptance or rejection of any opportunity for disposition is made by the Bank in its sole discretion. If the Bank approves the proposed disposition, Bradley will proceed wih the disposition of the investment as approved.

6. Pursuant to the Agreement, Bradley will receive from the Bank (on behalf of the separate pension account) for its real estate services a fee equal to one percent of the purchase price of an investment at the time of acquisition and a fee equal to one percent of the sales price of an investment at the time of disposition. Bradley will not act for compensation as a broker with respect to the acquisition or disposition of an investment. The reasonable expenses of Bradley incurred with respect to an approved acquisition or proposed disposition will be reimbursed by the Bank (on behalf of the separate pension account).

7. During the period in which an investment is held by a separate pension account under the Agreement, Bradley will operate and manage the investment and arrange for on-site management, operation and leasing. Bradley will perform or supervise the performance of all other necessary management duties, including rental collections, leasing, maintenance and repair, marketing, providing insurance and making required payments. Bradley will monitor the investment and make complete reports quarterly to the Bank regarding the operation of the property. Expenses relating to asset management, including travel for periodic on-site inspections, will be paid as an expense of the separate pension account.

8. Pursuant to the Agreement, Bradley will receive from the Bank (on behalf of the separate pension account) for its asset management services an annual fee equal to six-tenths of one percent of the fair market value of the assets managed, based on an annual MAI appraisal. In addition, if Bradley itself performs actual leasing services or actual on-site management (as opposed to contracting for and supervising same), then Bradley will receive reasonable fees for such services as agreed upon by the Bank, but not in excess of compensation that would be considered normal and reasonable for similar services within the same geographical area.

9. The Agreement provides that except as specifically agreed to in writing by the Bank, Bradley will not be entitled to any fee with respect to the acquired properties other than the asset acquisition, disposition and management fees to be paid by the Bank on behalf of the pension funds and that Bradley will not solicit, accept or retain any fee from any person other than the Bank in connection with properties acquired by the pension funds.

10. In the search for appropriate real estate investments pursuant to the Agreement, a particular investment opportunity may be located by Bradley and presented to the Bank in the form of a joint venture with an unrelated third party. In connection with such joint venture investments, it is possible that Bradley might, with the specific consent of the Bank, receive consideration from the third party joint venturer under the following circumstances: (1) Where a particular investment is acquired by a joint venture between the pension funds and a third party, the third party may pay an acquisition fee to Bradley with respect to its interest in the investment. The acquisition fee payable by the Bank under the Agreement would be based on the pension funds' investment only; (2) Bradley may receive an asset management fee from the third party joint venturer, based only on the joint venturer's interest in the venture; (3) Where it is appropriate for Bradley to provide on-site management or leasing services, the third party joint venturer would pay its share of Bradley's fee for such services, based on its interest in the venture; and (4) Where a joint venture investment is to be sold, the joint venturer might pay to Bradley an asset disposition fee based on its interest in the venture.

11. The Agreement is for a term of ten years, subject to additional five-year terms if not sooner terminated, but may be terminated by the Bank in the event of Bradley's violation of the Agreement or bankruptcy or if the Bank determines that the separate accounts have suffered a material loss attributable to investment performance.

12. The applicants are not requesting relief from section 406(a) of the Act. The applicants represent that the proposed transactions are exempted from section 406(a) of the Act by the statutory exemption provided by section 408(b)(2) of the Act. Notwithstanding the above, Bradley represents that it may be deemed to be a fiduciary with respect to the employee benefit plans that will invest in the real estate, and therefore may require relief from section 406(b) of the Act. In any event, pursuant to the Agreement, Bradley will acknowledge its fiduciary status under the Act and Code.

13. The Bank believes that it is in the best interests of the plans and their participants to pursue real estate investments and that the plans and their participants might suffer from an investment program that excluded real estate assets. Moreover, the Bank believes that an appropriate real estate investment program for such plans may only be accomplished with the assistance of a firm providing the expertise and capability that Bradley provides. Furthermore, the Bank believes that it would be much more costly to the plans if the Bank retained one firm to locate, evaluate and acquire and dispose of investment opportunities and another firm to provide management for the properties while held. The information, familiarity and special knowledge acquired in evaluating an investment opportunity will be very valuable in providing subsequent asset management and allows the two services to be provided on a more economic basis.

14. In summary, the applicants represented that the proposed transactions meet the statutory criteria for an exemption under section 408(a) of the Act because: (1) the terms of the Agreement and transactions thereunder will be negotiated at arm's-length between unrelated and sophisticated parties; (2) investments will be made only in accordance with investment guidelines specified by the Bank; (3) the Bank will exercise independent fiduciary judgment over each

transaction since the Agreement provides that the Bank, in its sole discretion, determines whether a property presented by Bradley is an appropriate investment for a plan and, likewise, whether a particular investment should be sold; (4) the Bank is subject to the rules and regulations of the Act and the banking rules and regulations of the Comptroller of the Currency, and Bradley is subject to the rules and regulations of the Act; (5) pursuant to the Agreement, Bradley will not present or recommend for acquisition any property in which Bradley or any of its affiliates has an interest; (6) Bradley and its affiliates will not acquire any interest in a property held by a plan and will not have any interest in the purchase side of a transaction in which a plan is the seller; and (7) Bradley agrees that it will not be entitled to any brokerage fee, commission or other fee with respect to properties acquired or sold under the Agreement and that it will not solicit, accept or retain any fee other than from the Bank with respect to properties acquired, managed or sold, other than as specifically agreed to by the Bank.

Notice to Interested Persons

This notice of pendency will constitute the only notice to interested persons because the identity of the interested persons that will be affected by the proposed exemption is not known at this time.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(a) of the Act and section 4975(c)(1)(A) through (D) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(b) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(E) and (F) of the Code shall not apply to the provision of real estate services as described above and the receipt of fees with respect to such services by Bradley.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transactions to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 11th day of December, 1981.

Alan D. Lebowitz,

Assistant Administrator for Fiduciary Standards, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

BILLING CODE 4510-29-M

Office of the Secretary

Steering Subcommittee of the Labor Advisory Committee for Trade Negotiations and Trade Policy; Postponement and Rescheduling of Meeting

Pursuant to provisions of the Federal Advisory Committee Act (Pub. L. 92–463 as amended), notice is hereby given of postponement and the rescheduling of the meeting of the Steering Subcommittee of the Labor Advisory Committee for Trade Negotiations and Trade Policy.

Date changes from: January 5, 1982 to January 12, 1982.

The time and place remains the same: 10 a.m., N3437 A&B, Frances Perkins, Department of Labor Building, 200 Constitution Avenue NW., Washington, D.C. 20210.

Notice of the January 5 meeting was published on Tuesday, December 15, 46FR61180.

Purpose: To discuss trade negotiations and trade policy of the United States.

This meeting will be closed under the authority of section 10(d) of the Federal Advisory Committee Act. The Committee will hear and discuss sensitive and confidential matters concerning U.S. trade negotiations and trade policy.

FOR FURTHER INFORMATION CONTACT: Joseph S. Papovich, Executive Secretary, Labor Advisory Committee, Phone: (202) 523–6565, December 15, 1981.

Signed at Washington, D.C., this 15th day of December 1981.

Robert W. Searby,

Deputy Under Secretary, International Affairs.

[FR Doc. 81-36200 Filed 12-17-81; 8:45 am]

BILLING CODE 4510-28-M

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Subcommittee on Nuclear Safety Research Program; Meeting

The ACRS Subcommittee on Nuclear Safety Research Program will hold a meeting on January 6, 1982, in Room

1046, 1717 H Street, NW, Washington, DC. The Subcommittee will discuss the proposed FY 1983 budget for the NRC Safety Research Programs and the Draft ACRS Report to Congress on the NRC FY 1983 Safety Research Programs. Notice of this meeting was published November 25.

The entire meeting will be closed to discuss the NRC Safety Research Program budget as required (Sunshine Act Exemptions (2), (6), and (9)b). For the reason just stated, such a discussion would not be possible if held in public session.

The agenda for subject meeting shall be as follows:

Wednesday, January 6, 1982—8:30 a.m. until the conclusion of business.

During the initial portion of the meeting, the Subcommittee will hear presentations by and hold discussions with representatives of the NRC Staff, and their consultants regarding the NRC FY 1983 Safety Research Programs and the associated budget. Following this session the Subcommittee will discuss the Draft ACRS Report to Congress on the NRC FY 1983 Safety Research Programs.

I have determined, in accordance with subsection 10(d) Pub. L. 92–463 that it may be necessary to close sessions of the meeting as noted above to discuss matters which relate solely to the internal personnel rules and practices of the agency (Exemption (2)), to discuss information of a personal nature, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy (Exemption (6)), and to discuss preliminary information the release of which would be likely to significantly frustrate the Committee in the performance of its statutory function (Exemption (9)b). The authority for such closure are Exemptions (2), (6), and (9)b to the Sunshine Act (5 U.S.C. 552b(c)(2)(6)(9)b).

Dated: December 15, 1981.

John C. Hoyle,

Advisory Committee.

BILLING CODE 7590–01–M

Application for License To Export Nuclear Material

Pursuant to 10 CFR 110.70(b) "Public Notice of Receipt of an Application," please take notice that the Nuclear Regulatory Commission has received the following applications for export licenses. A copy of each application is on file in the Nuclear Regulatory Commission's Public Document Room located at 1717 H Street, NW., Washington, D.C.

A request for a hearing or a petition for leave to intervene may be filed by January 18, 1982. Any request for hearing or petition for leave to intervene shall be served by the requester or petitioner upon the applicant, the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, the Secretary, U.S. Nuclear Regulatory Commission, and the Executive Secretary, Department of State, Washington, D.C. 20520.

In its review of applications for license to export production or utilization facilities, special nuclear material or source material, noticed herein, the Commission does not evaluate the health, safety or environmental effects in the recipient nation of the facility or material to be exported.

Dated this 11th day of December 1981 at Bethesda, Maryland.

For the Nuclear Regulatory Commission.

James R. Shea,

Director, Office of International Programs.

BILLING CODE 7590–01–M

[Docket Nos. 50–325 and 50–324]

Carolina Power & Light Co.; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 43 and 66 to Facility Operating License Nos. DPR–71 and DPR–62 issued to Carolina Power & Light Company (the licensee) which revised Technical Specifications for operation of the Brunswick Steam Electric Plant, Unit Nos. 1 and 2 (the facility) located in Brunswick County, North Carolina. The amendments are effective as of the date of issuance.

The amendments revise the Technical Specifications to clarify action requirements and reflect current methodology based on dose factors for radioactive materials in gaseous effluents. The change will assure that releases of radioactive materials in gaseous effluents are as low as reasonably achievable.

The application for the amendment complies with the standards and requirements of Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of the amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendments.

For further details with respect to this action, see (1) the application for amendment dated November 25, 1981, as supplemented October 30, 1981, (2) Amendment No. 43 to License No. DPR–71 and Amendment No. 66 to DPR–62, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555, and at the Southport-Brunswick County Library, 109 West Moore Street, Southport, North Carolina 28461. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission,

Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 9th day of December 1981.

For the Nuclear Regulatory Commission.

Philip J. Polk,

Acting Chief, Operating Reactors Branch No. 2, Division of Licensing.

BILLING CODE 7590-01-M

OFFICE OF PERSONNEL MANAGEMENT

Federal Prevailing Rate Advisory Committee; Open Meetings

Pursuant to the provisions of section 10 of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on:

Thursday, January 7, 1982
Thursday, January 14, 1982
Thursday, January 21, 1982
Thursday, January 28, 1982

These meetings will convene at 10 a.m., and will be held in Room 5A06A, Office of Personnel Management Building, 1900 E Street, NW, Washington, D.C.

The Federal Prevailing Rate Advisory Committee is composed of a Chairman, representatives of five labor unions holding exclusive bargaining rights for Federal blue-collar employees, and representatives of five Federal agencies. Entitlement to membership of the Committee is provided for in 5 U.S.C. 5347.

The Committee's primary responsibility is to review the prevailing rate system and other matters pertinent to the establishment of prevailing rates under subchapter IV, chapter 53, 5 U.S.C., as amended, and from time to time advise the Office of Personnel Management thereon.

These scheduled meetings will convene in open session with both labor and management representatives attending. During the meeting either the labor members or the management members may caucus separately with the Chairman to devise strategy and formulate positions. Premature disclosure of the matters discussed in these caucuses would impair to an unacceptable degree the ability of the Committee to reach a consensus on the matters being considered and disrupt substantially the disposition of its business. Therefore, these caucuses will be closed to the public on the basis of a determination made by the Director of the Office of Personnel Management under the provisions of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and 5 U.S.C. 552b(c)(9)(B). These caucuses may, depending on the issues involved, constitute a substantial portion of the meeting.

Annually, the Committee publishes for the Office of Personnel Management, the President, and Congress a comprehensive report of pay issues discussed, concluded recommendations thereon, and related activities. These reports are also available to the public, upon written request to the Committee Secretary.

Members of the public are invited to submit material in writing to the Chairman concerning Federal Wage System pay matters felt to be deserving of the Committee's attention. Additional information concerning these meetings may be obtained by contacting the Committee Secretary, Federal Prevailing Rate Advisory Committee, Room 1340, 1900 E Street, NW, Washington, D.C. 20415 (202-632-9710).

William B. Davidson, Jr.,

Federal Prevailing Rate Advisory Committee.

December 11, 1981.

BILLING CODE 6325-01-M

POSTAL RATE COMMISSION

[Docket No. C82-1]

Warshawsky & Co.; Filing of Complaint Relating to Third-Class Bulk Mail Rates

Issued: December 11, 1981.

Notice is hereby given that on November 16, 1981 Warshawsky & Company (hereinafter "Warshawsky") of Chicago, Illinois, has filed, pursuant to 39 U.S.C. 3662, a complaint relating to the schedule of rates applicable to third-class bulk regular mail. Warshawsky alleges, *inter alia*, that the United States Postal Service has violated several mandates of the Postal Reorganization Act of 1970 (Title 39, U.S.C.), specifically: (1) That rates of postage are to be fair and equitable, (2) that the effect of rate increases upon business mail users must be considered, and (3) that available alternative means of sending and receiving letters and other mail matter at reasonable costs must also be considered.

Warshawsky also asserts that third-class bulk regular mailers who mail at the per-pound rate established by the Decision of the Board of Governors of the United States Postal Service on September 29, 1981, must pay rates which cover approximately 240 percent of attributable costs while those mailers using the applicable minimum per-piece rate would pay rates which would cover only 172 percent of attributable costs. Warshawsky also points out that the November 1, 1981 rate increase has resulted in a 36 percent increase in its postal rates, that the increase will force it to decrease its third-class mailings during 1982 and, in conjunction with substantial secondary volume effects due to reduced first-class order responses and reduced fourth-class order shipments, will result in a net revenue loss to the Postal Service.

Although Warshawsky cannot specify which other persons would be similarly affected by the rates which are the subject of its complaint, it does state that the alleged inequity would be applicable to any mailer of bulk third-class mail who mails at the pound rate. The relief requested by Warshawsky is for third-class regular rate bulk pieces subject to the pound rate to be charged 33 cents per pound, the temporary rate placed into effect by the Governors on March 22, 1981, rather than the current 45 cents per pound.

On December 4, 1981, the United States Postal Service filed its response to Warshawsky's complaint. The Postal Service therein asserted several grounds upon which it urges the Commission to conclude that institution of a proceeding based upon Warshawsky's complaint would be inappropriate. First, the Service alleges that the subject matter of Warshawsky's complaint is now *sub judice*, establishing, according to the Service, that Warshawsky has not exhausted its administrative remedies. The Postal Service notes that the decision of the Governors, of September 29, 1981, on Docket No. R80-1, is now under review by the United States Court of Appeals for the Second Circuit in *Time, Inc., et al.*, v. *United States Postal Service*, Nos. 81-4183, *et al.*, (2d Cir., filed Sept. 30, 1981). The Service also asserts that the doctrines of *res judicata* and collateral estoppel bar the institution of a proceeding based upon Warshawsky's complaint in that the subject matter of that complaint is identical to the issue of the proper rate for the pound component of third-class bulk regular mail, which was fully litigated in Commission Docket No. R80-1. According to the Postal Service, there is no reason why those doctrines should not apply simply because Warshawsky's complaint has been raised in an administrative rather than judicial form.

Since the Commission's jurisdiction under section 3662 of the Act is discretionary, Postal Service urges that the Commission decline to exercise its jurisdiction and has moved that the

Commission dismiss Warshawsky's complaint.

By order of the Commission

David F. Harris,

Secretary.

BILLING CODE 7715-01-M

PRESIDENT'S COMMISSION ON WHITE HOUSE FELLOWSHIPS

Meeting

Pursuant to section 10 of Pub. L. 92-463, the Federal Advisory Committee Act, notice is hereby given that a meeting of the President's Commission on White House Fellowships will be held on January 15, 1982, from 9:00 a.m. to 5:00 p.m., in the New York room of the Capital Hilton, 16th and K Streets, N.W., Washington, D.C.

This meeting is scheduled to give the Commissioners an opportunity to evaluate and review the Fellowship program. The items to be discussed will include the criteria for White House Fellowship selection, processing of background investigations, a review of Fellows' salary restrictions and other Commission matters.

The meeting will be open to the public. Questions about the agenda can be directed to (202) 395-4522.

James C. Roberts,

Director.

BILLING CODE 6325-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 12102; 812-4955]

Eberstadt International Fund, L.P. and Eberstadt Asset Management, Inc.; Filing of Application

December 11, 1981.

Notice is hereby given that Eberstadt International Fund, L.P. ("Fund"), 61 Broadway, New York, New York 10006, registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified management investment company, and Eberstadt Asset Management, Inc. ("Adviser"), a general partner of and the investment adviser to the Fund (Fund and Adviser are hereinafter referred to together as ("Applicants"), filed an application on August 20, 1981, and an amendment thereto on November 16, 1981, requesting an order of the Commission exempting the Fund and one of the general partners of the Fund (other than the Adviser) from the provisions of section 2(a)(19) of the Act to the extent that such general partner would otherwise be deemed an "interested person" of the Fund or of the Adviser solely because such general partner is a partner in the Fund. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicants state that the Fund has been organized as a limited partnership under the Uniform Limited Partnership Act of the State of New York as a vehicle for providing large investors with a means of obtaining long-term capital appreciation through the acquisition of securities, generally common stock, of companies organized outside the United States. It is stated further that the Fund will require a minimum initial investment of $500,000 by each investor-limited partner, and subsequent investments of not less than $100,000.

It is stated that the Fund will have two kinds of partners ("Partners"): general partners ("General Partners") and limited partners ("Limited Partners"). Applicants state further that the entire interest of the Partners will be divided into units ("Shares"), which will all be of a single class, having equal rights including one vote per share, and equal participation in profits and losses of the Fund.

Applicants state that, prior to the public offering of Shares, the Fund will have at least six General Partners, consisting of individual General Partners ("Managing General Partners") and one or more corporate general partners ("Non-Managing General Partners"). It is stated that the Adviser is presently the Fund's only Non-Managing General Partner. It is further stated that the Fund will be managed by the Managing General Partners, who will have complete and exclusive control over the management, conduct and operation of the Fund's business, and that, except in the limited circumstances described below, a Non-Managing General Partner shall have no power to engage in the management, conduct, or operation of the Fund's business. However, Applicants acknowledge that in its capacity as Adviser, the Non-Managing General Partner may have the authority to act on behalf of the Fund to the extent provided in its advisory agreement. It is stated that the Managing General Partners will perform the same functions as do directors of investment companies in the corporate form.

Section 10(d) of the Act sets forth an exception to the requirements of sections 10(a) and 10(b)(2) of the Act regarding the composition of boards of directors of investment companies, by providing that certain investment companies which do not impose a sales charge in connection with the distribution of their securities may have a board of directors all of the members of which, except one, are interested persons of the company's investment adviser or are officers or employers of the company, if certain enumerated conditions are met. Applicants state that the Fund intends to meet the conditions of section 10(d) of the Act and have one of its Managing General Partners assume the role of the non-interested director required by the section. It is further stated that such Managing General Partner (referred to hereinafter as the "Non-Associated General Partner") is also to be deemed the director who is not an interested person of the Fund for purposes of section 15(c) of the Act and of any other provision of the Act which requires action to be taken by a non-interested director of the Fund. Section 15(c) of the Act provides that it shall be unlawful for any registered investment company having a board of directors to enter into, renew, or perform any contract or agreement, written or oral, whereby a person undertakes regularly to serve or act as investment adviser of such company, unless the terms of such contract or agreement and any renewal thereof have been approved by the vote of a majority of directors, who are not parties to such contract or agreement or interested persons of any such party.

Section 2(a)(19)(A) of the Act provides, in pertinent part, that an "interested person" of another person, when used with respect to an investment company, means (1) any affiliated person of such investment company, and (2) any interested person of any investment adviser or principal underwriter for such company. Section 2(a)(19)(B) of the Act provides, in pertinent part, that an "interested person" of another person, when the other person in an investment adviser or principal underwriter for any investment company, means any affiliated person of such investment adviser or principal underwriter.

Section 2(a)(3)(D) of the Act provides that an "affiliated person" of another person means any officer, director, partner, co-partner, or employee of such othr person.

Applicants state that pursuant to the provisions of sections 2(a)(19) and 2(a)(3) of the Act, the Non-Associated General Partner's relationships with the Fund and with the Adviser would preclude his being a non-interested

person of either the Fund or of the Adviser, since the Non-Associated General Partner would, as an affiliated person of the Fund, within the meaning of section 2(a)(3)(D) of the Act, be an interested person of the Fund pursuant to section 2(a)(19)(A)(i) of the Act, and because, as an affiliated person of the Adviser within the meaning of section 2(a)(3)(D) of the Act, the Non-Associated General Partner would be an interested person of the Adviser pursuant to section 2(a)(19)(B)(i) of the Act, and an interested person of the Fund under the terms of section 2(a)(19)(A)(iii) of the Act. Applicants further state that the Non-Associated General Partner, as an interested person of the Fund and the Adviser, would not be able to assume the role of a non-interested director for purposes of Section 10(d), 15(c), or of any other section of the Act requiring that action be taken by a non-interested director.

Section 6(c) of the Act provides, in pertinent part, that the Commission may, by order upon application, conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision of the Act or any rule or regulation under the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants, to ensure compliance with section 10(d) of the Act, and with section 15(c) and any other provision of the Act requiring action to be taken by a non-interested director of an investment company, have requested that the Non-Associated General Partner of the Fund be exempted (a) from the definition of "interested person" of an investment company found in section 2(a)(19)(A)(i) of the Act to the extent that the Non-Associated General Partner would otherwise be deemed an interested person of the Fund solely because he is a General Partner of the Fund; and (b) from the definition of "interested person" of an investment adviser found in section 2(a)(19)(B)(i) of the Act to the extent that the Non-Associated General Partner would otherwise be deemed an interested person of the Adviser solely because the Non-Associated General Partner is a co-partner of the Adviser in the Fund.

In support of the exemption requested from section 2(a)(19)(A)(i) of the Act, Applicants cite the provisions of section 2(a)(19)(A)(vi)(aa) of the Act, declaring that no person shall be deemed to be an interested person of an investment company solely by reason of his being a director or owner of the securities of the investment company. Applicants submit that the relationship of the Non-Associated General Partner to the Fund is essentially that of a director to an incorporated investment company. In this regard, Applicants note that the Managing General Partners, including the Non-Associated General Partner, may only act pursuant to majority vote at duly authorized meetings, and that no single Managing General Partner, including the Non-Associated General Partner, has authority to act on behalf of the Fund or to bind the Fund.

In support of the exemption requested from section 2(a)(19)(B)(i) of the Act, Applicants assert that the Non-Associated General Partner could appropriately assume the role of the non-interested director of the Fund for purposes of section 10(d) of the Act because he would be sufficiently independent of the Adviser to act as a "watchdog" with respect to the relationship between the Fund and the Adviser. It is represented that the Non-Associated General Partner will be affiliated with the Adviser only by reason of his status as a co-partner of the Adviser in the Fund; that the Non-Associated General Partner will not be an officer, director, or employee of the Adviser, not will he engage in business dealings with the Adviser while serving as a General Partner which might affect his judgment with regard to matters on which he is required to vote as a General Partner. Lastly, Applicants state that the fiduciary obligation which the Non-Associated General Partner would owe, under the laws of the State of New York, to the Adviser as a fellow General Partner, the main elements of which are the utmost good faith, fairness and loyalty, would not create circumstances in which the Non-Associated General Partner would be induced to favor the interests of the Adviser in derogation of the fiduciary obligations which he has with respect to other General Partners, as well as with respect to Limited Partners.

Notice is further given that any interested person may, not later than January 5, 1982, at 5:30 p.m., submit to the Commission in writing, a request for a hearing on the application accompanied by a statement as to the nature of his of her interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he or she may request that he or she be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidivit or, in the case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. As provided by rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc. 81-36191 Filed 12-17-81; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 12101; 812-4997]

Midland Bank, Ltd.; Filing of Application

December 11, 1981

Notice is hereby given that Midland Bank, Limited ("Applicant"), c/o Peter Darrow, Esq., Shearman & Sterling, 53 Wall Street, New York, New York 10005, filed an application on October 21, 1981, for an order of the Commission, pursuant to Section 6(c) of the Investment Company Act of 1940 ("Act"), exempting Applicant from all provisions of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that it provides directly, or through its subsidiaries, a wide range of banking and financial services to individuals and corporations. Applicant further states that it was first established as a banking corporation in 1836 by a deed of settlement under the name "The Birmingham and Midland Bank", and changed its name in 1923. Applicant's principal office is at Poultry, London, EC2P 2BX, England. Applicant states that its domestic banking in England, Wales, Scotland, Northern Ireland and in the Republic of Ireland is conducted through a network of approximately 3,000 branches of

Applicant itself or by subsidiaries. In addition to traditional commercial banking services, Applicant states it is also engaged in merchant banking, equity finance, property finance, consumer finance, credit card operations, equipment leasing, factoring and the world-wide provision of travel services and the sale of travelers checks through The Thomas Cook Group Limited.

Applicant states that as of December 31, 1980, the Midland Bank Group had total assets of approximately $60.4 billion, of which approximately $47 billion consisted of loans and overdrafts and placings with banks. As of December 31, 1980, total liabilities were approximately $57.2 billion, of which $54.6 billion consisted of deposits. According to the application, Applicant had outstanding as of December 31, 1980, 164,307,933 shares of common stock representing an aggregate market value of approximately $1.3 billion. Applicant states that as of December 31, 1980, it was the third largest banking organization in the United Kingdom and the seventeenth largest bank in the world in terms of total assets.

Applicant represents that it is subject to a variety of regulatory measures in the United Kingdom. According to the application, the Bank of England has broad power under the Bank of England act 1946 to request information from and to make recommendations to United Kingdom banks. In addition, Applicant states it is subject to the Banking Act 1979 which supplements the Bank of England's general supervisory powers. Applicant states the Bank Act 1979 regulates the use of banking names and descriptions, incorporates provisions controlling advertisements for deposits, and provides for the establishment of a Deposit Protection Board. Applicant further states that regulation of the United Kingdom banking system is largely based upon informal cooperation between the Bank of England and United Kingdom banks and operates through a number of accepted practices including the filing of periodic reports and periodic statistical returns prescribed by the Bank of England. In addition, the Banking Act 1979 requires the Bank of England to introduce formalized codes relating to the adequacy of capital, liquidity and foreign currency exposure. According to the application, the Bank of England also advises H.M. Treasury in the formulation of the United Kingdom government's monetary policy. Applicant states that on August 20, 1981, the bank of England introduced new methods of monetary control whereby United Kingdom banks must maintain at least a certain proportion of their eligible liabilities in certain defined assets.

Applicant states that on October 15, 1981, it completed the acquisition of approximately a 51% equity interest in Crocker National Corporation, a bank holding company organized under the laws of Delaware whose principal executive offices are located in San Francisco, California. According to the application, Applicant will be required to register as a foreign bank holding company as a result of this acquisition under the Bank Holding Company Act of 1956. Applicant states that under the Bank Holding Company Act of 1956, the Federal Reserve Board regulates the types of activities in which a foreign bank holding company may engage in the United States and requires the filing of annual reports regarding its overall operations. Applicant further states that it has arranged to register as a foreign bank holding company within four months after the end of its current fiscal year.

Applicant proposes to offer, issue and sell short-term commercial paper maturing in nor more than nine months after the date of issue ("Notes"). The Notes will be in bearer form, denominated in United States dollars and issued in minimum denomination of $100,000. They will rank *pari passu* among themselves and equally with all other unsecured indebtedness of Applicant, including deposits and superior to the rights of shareholders of Applicant. According to the application, the Notes will not be payable on demand nor include any provision for extension, renewal on automatic "roll-over" at the option of either the holders thereof or the Applicant.

Applicant states that the Notes will qualify for the exemption from registration under the Securities Act of 1933 ("1933 Act") provided by section 3(a)(3) of the 1933 Act. Applicant will not offer the Notes until it has received an opinion of its legal counsel in the United States to the effect that the proposed offering is entitled to the exemption provided by section 3(a)(3) of the 1933 Act. Applicant does not request review or approval of such opinion letter and the Commission expresses no opinion as to the availability of any such exemption. Applicant represents that the presently proposed issue of Notes, and any future issue of debt securities in the United States will have received, prior to issuance, one of the three highest investment grades from at least one nationally recognized statistical rating organization and that its United States counsel will have certified that such rating has been received.

Applicant states that the Notes will be sold through a United States securities dealer to institutional investors and other entities and individuals who normally purchase commercial paper, and will not be advertised or otherwise offered to the general public. Applicant agrees to secure an undertaking from the dealer in the Notes that it will provide each offeree of the Notes, prior to any sale of Notes to such offeree, with a memorandum that describes the business of Applicant and that contains the most recent publicly available annual financial statements of Applicant which will include a balance sheet, profit and loss account and statement of source and application of funds and which have been audited in such a manner as is customarily done for Applicant by its auditors. In addition, such memorandum will contain Applicant's most recent publicly available unaudited interim financial statement and will be updated periodically to reflect material changes in Applicant's business and financial condition. The memorandum will be at least as comprehensive as those customarily used in offering commercial paper in the United States. Such memorandum will describe the material differences between the accounting principles applied by Applicant and generally accepted accounting principles applicable to United States commercial banks. Applicant consents to any order granting the relief requested pursuant to section 6(c) of the Act being expressly conditioned upon Applicant's compliance with all undertakings regarding disclosure documents.

The Application states that Applicant will appoint a bank in the United States as its authorized agent to issue the Notes from time to time and will appoint an agent to accept any service of process in any action based on the Notes and instituted in any state or federal court by the holder of any Note. Applicant consents to the jurisdiction of any state or federal court in the Borough of Manhattan in the City and State of New York in respect of any such action. Such appointment of an authorized agent to accept service of process and consent to jurisdiction will be irrevocable until all amounts due and to become due with respect to the Notes have been paid by Applicant. Applicant will also be subject to suit in any other court in the United States which would have jurisdiction because of the manner of the offering of the Notes or otherwise. Applicant states that the authorized agent will not be a trustee for the

holders of the Notes or otherwise obliged to act for them. Applicant similarly represents that it will consent to jurisdiction and will appoint an agent for service of process in suits arising from any future offer of debt securities that it may make in the United States.

Applicant states that it may offer other securities for sale in the United States, including long-term debt securities. Applicant represents that any future offering of its securities in the United States will be made pursuant to a 1933 Act registration statement or an applicable exemption from registration under the 1933 Act. In connection with any such offering, Applicant undertakes to insure that any offeree will be provided with disclosure documents at least as comprehensive in their description of Applicant and its business and financial condition as the dealer's memorandum referred to above. In no event will such disclosure be less comprehensive than is customary for United States offerings of similar debt securities.

Section 3(a)(3) of the Act defines investment company to mean "any issuer which is engaged or proposes to engage in the business of investing, reinvesting, owning, holding, or trading in securities, and owns or proposes to acquire investment securities having a value exceeding 40 per centum of the value of such issuer's total assets (exclusive of Government securities and cash items) on an unconsolidated basis."

Section 6(c) of the Act provides, in part, that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction, or any class or classes of persons, securities or transactions, from any provision of the Act, or any rule or regulation under the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Applicant states it is applying to the Commission because of uncertainty whether or not it would be defined as an "investment company" under the Act.

Applicant contends that approval of its application is both necessary and appropriate in the public interest. According to Applicant, if it were required to register as an investment company, it would be precluded from selling securities in the United States and, thus, denied access to the only dollar-denominated commercial paper market in existence. Applicant asserts the public interest would be served by permitting institutional and other sophisticated investors the opportunity to acquire commercial paper issued by it. Applicant further asserts that the requested exemption would be consistent with the protection of investors. Applicant notes that it is subject to regulation by United Kingdom banking authorities and is subject to regulation as a foreign bank holding company under the Bank Holding Company Act of 1956. In addition, Applicant states any offering of its securities in the United States would be subject to the antifraud provisions of the federal securities laws. Finally, Applicant contends that it is different from the type of institution that Congress intended the Act to regulate. Applicant asserts that granting an exemptive order pursuant to section 6(c) of the Act would be appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than January 5, 1982, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-02-M

[Release No. 22314; 70-6672]

Mississippi Power and Light Co.; Proposal To Enter Into Agreement Relating to Financing of Pollution Control Facilities

December 11, 1981

Mississippi Power and Light Company ("Company"), P.O. Box 1640, Jackson, Mississippi 39205, a public utility subsidiary of Middle South Utilities, Inc., a registered holding company, has filed an application-declaration pursuant to Sections 6(a) and 7 of the Public Utility Holding Company Act of 1935 ("Act") and Rule 50(a)(5) thereunder.

The Company is participating in the construction of two 815 MW nominally rated coal-fired generating units known as the Independence Steam Electric Generating Station ("Independence Plant") to be located near Newark, in Independence County, Arkansas ("County"). The Company owns a 25% undivided interest in the Independence Plant.

The Company proposes to dispose of, and to contract to reacquire, a portion of its anticipated undivided interest in certain of the pollution control and sewerage and solid waste disposal facilities at the Independence Plant ("Facilities").

The Company proposes to enter into an installment sale agreement ("Agreement") with the County, which will provide for the acquisition, construction and installation of the Facilities on behalf of the County. The Agreement contemplates the issuance by the County under a trust indenture between the County and a trustee ("Indenture") of up to $60,000,000 aggregate principal amount of its Pollution Control Revenue Bonds, Series 1981 ("Bonds"), the net proceeds of which would be used to defray the cost of construction of the Facilities.

The Agreement will provide that the Company will convey to the County such portions of the Facilities as have already been constructed or acquired by the Company, subject to the lien of the Company's Mortgage and Deed of Trust ("Mortgage") dated as of September 1, 1944, as supplemented and amended.

The Agreement will provide for the sale of the Facilities by the County to the Company. The Company will assent to the assignment and pledge to the trustee of the rights of the County in the Facilities (if any) and the County's interest in, and of the money's receivable by the County under the Agreement, expect for certain rights to indemnification and reimbursement of expenses.

'The purchase price of the Facilities payable by the Company will be such amount as shall be sufficient (together with other moneys held by the trustee under the Indenture and available therefor) to pay the principal of the Bonds as they become due and payable. The Company will also agree to pay interest on the unpaid balance of the purchase price of the Facilities equal to the premium, if any, and interest on the Bonds. It will also be obligated to pay (i) the fees and charges of the trustee and any paying agent or agents under the Indenture, (ii) all expenses incurred by the County in connection with its rights and obligations under the Agreement, (iii) all expenses necessarily incurred by the County or the trustee under the Indenture in connection with the transfer or exchange of Bonds and (iv) all other payments which the Company agrees to pay under the Agreement.

The Agreement will provide that the Company may at any time prepay all or any portion of the unpaid balance of the purchase price of the Facilities, together with interest thereon, in whole or in part, such payment to be sufficient (together with other moneys held by the trustee under the Indenture and available therefor) to redeem Bonds as provided in the Indenture.

The Indenture will provide that, upon occurrence of certain events relating to the construction or operation of the Independence Plant or the Facilities, the Bonds will be redeemable by the County, at the direction of the Company. The Bonds may be subject to mandatory redemption in the case of certain events relating to the taxability of the interest on the Bonds. The payments by the Company in such circumstances shall be sufficient (together with other moneys held by the trustee under the Indenture and available therefor) to pay the principal of all Bonds together with interest accrued or to accrue to the redemption date.

The Bonds will be issued as either serial bonds ("Serial Bonds") or term bonds ("Term Bonds"), or a combination thereof. The Term Bonds, if any, will mature not later than 30 years from the first day of the month in which they are initially issued and may be subject to a mandatory cash sinking fund. Serial Bonds, if any, will mature at various times prior to the maturity of the Term Bonds. The Indenture will provide for the application of such of the proceeds of the Bonds which, after completion of the Facilities, may remain unused for the redemption or purchase of the Bonds, at the direction of the Company.

In order to obtain the benefit of a rating for the Bonds equivalent to the rating accorded the first mortgage bonds outstanding under the Mortgage, the Company proposes to obtain the authentication of a series of first mortgage bonds ("Collateral Bonds") under the Mortgage, as proposed to be supplemented by an additional supplemental indenture ("Supplemental Indenture") to be dated as of the first day of the month in which the Collateral Bonds are to be authenticated and delivered. As evidence of its obligations to make purchase price payments, the Company proposes to deliver to the Trustee the Collateral Bonds in principal amount equal to the principal amount of the Bonds. The Collateral Bonds will bear interest at a rate equal to the interest rate per annum to be borne by the Bonds, will mature on the maturity date and each sinking fund date, if any, of such Bonds, and will be non-transferable by the Trustee, except to a successor Trustee. Payment of the principal and interest on the Collateral Bonds will constitute payment of the installments of the purchase price, together with interest, of the Facilities under the Agreement. Interest in respect of the Collateral Bonds will be included in computing the "annual interest requirements" restricting the amount of first mortgage bonds which may be issued and sold under the Mortgage in relation to the Company's adjusted net earnings. The Collateral Bonds will be issued on the basis of the retirement of first mortgage bonds previously outstanding and, to the extent necessary, on the basis of the unfunded net property additions.

The Indenture will provide that, upon deposit with the Trustee of funds sufficent to pay or redeem all or any part of the Bonds, or upon direction to the Trustee by the Company to so apply funds available therefor, or upon delivery of outstanding Bonds to the Trustee by or for the account of the Company, the Trustee will be obligated to deliver to the Company, or for the account of the Company, the related Collateral Bonds then held in an aggregate principal amount equal to the aggregate principal amount of Bonds for the payment or redemption of which such funds have been deposited or applied or which shall have been so delivered.

If, due to insufficiency of coverages or for other reasons, the Company is unable or determines not to issue the Collateral Bonds, the Bonds would be issued without the benefit of such security. In that event the Company may convey to the Trustee a subordinated security interest in the Facilities as security for its obligations under the Agreement. In accordance with the laws of the State of Arkansas, the interest rate to be borne by the Bonds will be fixed by the County. The Company will not be party to the underwriting arrangements; however, the Agreement provides that the terms of the Bonds and their sale by the County, shall be satisfactory to the Company. The Company understands that interest payable on the Bonds will be exempt from Federal income taxes. The Company expects the annual interest rate of the Bonds to be 3% to 4% lower than the rates of obligations of like tenor and comparable quality, interest on which is fully subject to Federal income tax.

It is contemplated that the Bonds will be sold by the County pursuant to arrangements with a group of underwriters represented by Kidder, Peabody & Co. Incorporated, Leland Speed, Mounger & Bartlett, Incorporated, T. J. Raney & Sons, Inc., Scharff & Jones, Incorporated and Stephens Inc. The Company requests an exception from the competitive bidding requirements of rule 50(b) pursuant to subparagraph (a)(5) thereof.

The application-declaration and any amendments thereto are available for public inspection through the Commission's Office of Public Reference. Interested persons wishing to comment or request a hearing should submit their views in writing by January 4, 1982, to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549, and serve a copy on the applicant-declarant at the address specified above. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for a hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in this matter. After said date the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

SMALL BUSINESS ADMINISTRATION

[SBLC No. 05/B0021]

ITT Small Business Finance Corp.; Issuance of Small Business Lending Company Participation Certificate

On January 22, 1981, a Notice was published in the **Federal Register** (46 FR 7120) stating that an Application had been filed with the Small Business Administration pursuant to § 120.4(b) of the Regulations governing Small Business Lending Companies (13 CFR 120.4(b) (1981)) by ITT Small Business Finance Corporation, 300 South County Road 18, Minneapolis, Minnesota 55426, to participate with the SBA as a Small Business Lending Company (SBLC).

Interested parties were given until the close of business on February 6, 1981, to submit their comments on the Applicant and/or its management. Only one comment was received and it was favorable.

Notice is hereby given that after review of the Application and all other pertinent information, SBA issued Small Business Lending Company Participation Certificate No. SBLC 05/B–0021 to ITT Small Business Finance Corporation to operate as an SBLC on this date.

VETERANS ADMINISTRATION

Special Medical Advisory Group; Meeting

The Veterans Administration gives notice under 38 U.S.C. 4112, that a meeting of the Special Medical Advisory Group will be held in the Administrator's Conference Room at the Veterans Administration Central Office, 810 Vermont Avenue, NW., Washington, DC, on January 28 and 29, 1982. The purpose of the Special Medical Advisory Group is to advise the Administrator and the Chief Medical Director relative to the care and treatment of disabled veterans, and other matters pertinent to the Veterans Administration's Department of Medicine and Surgery.

The sessions will convene at 8:30 a.m. both days. These sessions will be open to the public up to the seating capacity of the room. Because this capacity is limited, it will be necessary for those wishing to attend to contact Mrs. Barbara Pryor, Executive Secretary, Special Medical Advisory Group, Veterans Administration Central Office (phone 202/389–2298) prior to January 8, 1982.

Dated: December 10, 1981.

Robert P. Nimmo,

Administrator.

[FR Doc. 81–36139 Filed 12–17–81; 8:45 am]

BILLING CODE 8320–01–M

Veterans Administration Wage Committee; Meetings

Under the provisions of section 10 of Pub. L. 92–463, notice is hereby given that meetings of the Veterans Administration Wage Committee will be held on:

Thursday, January 7, 1982
Thursday, January 21, 1982
Thursday, March 18, 1982

The meetings will convene at 2:30 p.m. and will be held in Room 815A, Veterans Administration Central Office, 810 Vermont Avenue, NW., Washington, DC 20420.

The Committee's primary responsibility is to consider and make recommendations to the Chief Medical Director, Department of Medicine and Surgery, on all matters involved in the development and authorization of wage rate schedules for Federal Wage System (blue-collar) employees.

At these scheduled meetings, the Committee will consider wage survey specifications, wage survey data, local committee reports and recommendations, statistical analyses and proposed wage schedules derived therefrom.

Under the provisions of section 10(d) of Pub. L. 92–463, the Federal Advisory Committee Act, as amended by Pub. L. 94–409, meetings may be closed to the public when they are concerned with matters listed under section 552b, Title 5, United States Code. Two of the matters so listed are those related solely to the internal personnel rules and practices of an agency (5 U.S.C. 552b(c)(2)), and those involving trade secrets and commercial or financial information obtained from a person and privileged or confidential (5 U.S.C. 552b(c)(4)).

Accordingly, I hereby determine that all portions of the meetings cited above will be closed to the public because the matters considered are related to the internal rules and practices of the Veterans Administration (5 U.S.C. 552b(c)(2)), and the detailed wage data considered by the Committee during its meetings have been obtained from officials of private establishments with a guarantee that the data will be held in confidence (5 U.S.C. 552b(c)(4)).

However, members of the public who wish to do so are invited to submit material in writing to the Chairman regarding matters believed to be deserving of the Committee's attention.

Additional information concerning these meetings may be obtained by contacting the Chairman, Veterans Administration Wage Committee, Room 1175, 810 Vermont Avenue, NW., Washington, DC 20420.

Dated: December 10, 1981.

Robert P. Nimmo,

Administrator.

INTERNATIONAL TRADE COMMISSION

[USITC SE-81-40A]

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 46 FR 61199, December 15, 1981.

PREVIOUSLY ANNOUNCED TIME AND DATE OF THE MEETING: 2 p.m., Tuesday, December 22, 1981.

CHANGES IN THE MEETING: Emergency change of time and place of meeting.

In deliberations held Wednesday, December 16, 1981, the United States International Trade Commission, in conformity with 19 CFR 201.37(b), voted to change the time and place for its meeting on Tuesday, December 22, 1981, from 2:00 p.m., in room 117, to 2:30 p.m., in the Hearing Room. There are no other changes to the agenda.

Commissioners Alberger, Stern, and Eckes determined by unanimous consent that Commission business requires the change in time and place and affirmed that no earlier announcement of the change to the agenda was possible, and directed the issuance of this notice at the earliest practicable time.

Commissioners Calhoun and Frank were not present for the vote.

CONTACT PERSON FOR MORE INFORMATION: Kenneth R. Mason, Secretary, (202) 523-0161.

METRIC BOARD

Bimonthly Board Meeting

TIME AND DATE: 9 a.m., Thursday, January 7, 1982; 9 a.m., Friday, January 8, 1982.

PLACE: The San Diego Hilton Hotel, Acapulco Room, 1775 East Mission Bay Drive, San Diego, California 92109.

STATUS: Thursday, January 7, 1982—Open to the public; Friday, January 8, 1982—9:00-9:40 a.m., Closed to the public.

MATTERS TO BE CONSIDERED: Thursday, January 7, 1982—Open session:

Approval of Agenda—Approval of Agenda for this meeting.
Review/Approval of Minutes of the Board Meeting held on November 5, 1981 in Denver, Colorado (open session).
Committee Reports—Committee Chairmen who wish to report to the Board will be recognized.
Action on Chemicals and Allied Products Sector Conversion Plan—The Chairman of the Planning and Coordination Committee will present findings and recommendations

resulting from review of the American National Metric Council's Chemicals and Allied Products Sector Metric Conversion Plan. The findings are based on analysis of conformity to the Board's Planning Guidelines and analysis of written comments and oral testimony at a public hearing received from interested parties in response to a **Federal Register** announcement, direct mail and telephone solicitation. Based on the findings, appropriate recommendations will be made to the Board.

Action on Instruments Metric Conversion Plan—The Chairman of the Planning and Coordination Committee will present findings and recommendations resulting from review of the American National Metric Council's Instruments Sector Conversion Plan. The findings are based on analysis of conformity to the Board's Planning Guidelines and analysis of written comments and oral comments received at a public hearing from interested parties in response to a **Federal Register** announcement, direct mail and telephone solicitation. Based on the findings, appropriate recommendations will be made to the Board.

Briefing on Industry Panel Presentation—The Board approved a plan to host a series of expert panels selected from commerce and industry sectors to provide the Board input and insight as prescribed in sections 6(1) and 6(2) of Pub. L. 94–168. A report of progress in developing a prototype panel presentation will be made.

Review/Approval of Minutes of the Board Meeting held on November 6, 1981 in Denver, Colorado (closed session).

Revised Operating Plan FY–82.

Friday, January 8, 1982—Open session

USMB Research Program Overview and Implications—a presentation to the Board will consist of the major findings, conclusions and implications of all completed USMB research.

Briefing on Small Business Cost Benefit Study—A follow-up presentation to that of the September meeting. Emphasis will be placed on the large metrication firm-small business supplier interrelationships, overall findings, and the implications for the USMB final report.

Research Committee Recommendations from Distilled Spirits Containers Conversion Policy and Planning Evaluation—The Chairman of the Research Committee will present the Committee's recommendations to the Board.

Agenda Items for March Board Meeting—Discussion of agenda items for the Board Meeting to be held in Washington, D.C. on March 4–5, 1982.

FOR FURTHER INFORMATION CONTACT:
Lu Verne V. Hall, 702/235–3058.

SECURITIES AND EXCHANGE COMMISSION

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94–409, that the Securities and Exchange Commission will hold the following meetings during the week or December 21, 1981, in Room 825, 500 North Capitol Street, Washington, D.C.

A closed meeting will be held on Tuesday, December 22, 1981, at 10:00 a.m. An open meeting will held on Wednesday, December 23, 1981, 10:00 a.m.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meeting. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meeting may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C.

552b(c)(4)(8)(9)(A) and (10) and 17 CFR 200.402(a)(4)(8)(9)(i) and (10).

Chairman Shad and Commissioners Loomis, Evans, Thomas, and Longstreth voted to consider the items listed for the closed meeting in closed session.

The subject matter of the closed meeting scheduled for Tuesday, December 22, 1981, at 10:00 a.m., will be:

Access to investigative files by Federal, State, or Self-Regulatory authorities.
Formal order of investigation.
Settlement of administrative proceeding of an enforcement nature.
Institution of administrative proceedings of an enforcement nature.
Litigation matter.
Regulatory matters bearing enforcement implications.

The subject matter of the open meeting scheduled for Wednesday, December 23, 1981, at 10:00 a.m., will be:

1. Consideration of an application by Northern States Power ("Northern States"), an exempt holding company, under the Public Utility Holding Company Act of 1935 seeking authorization to acquire the outstanding shares of common stock of Lake Superior District Power Company ("Lake Superior"), a Wisconsin corporation, through an offer to shareholders of Lake Superior to exchange .48 shares of Northern States common stock for each share of Lake Superior common stock. Northern States also requests continuation of its exemption pursuant to Section 3(a)(2) of the Act. Hearings on the application have been held. An initial decision was waived by all parties appearing at the hearing pursuant to Rule 17(b) of the Commission's Rules of Practice. For further information, please contact Mary Ann Oliver at (202) 523–5685.

2. Consideration of whether to adopt under the Trust Indenture Act as final Rule 4a–1, which provides that offerings of up to $2,000,000 are exempt from the Act, and Rule 4a–2, which provides that offerings up to $5,000,000 although required to use an indenture, need not use a qualified indenture under that Act. For further information, please contact Mark R. Beatty at (202) 272–2644.

3. Consideration of whether to issue a release reminding registrants utilizing Form S–8 of the requirements of that Form concerning signatures and accountants' consents. For further information, please contact William H. Carter at (202) 272–3229.

4. Consideration of whether to approve proposals by the American Stock Exchange, Chicago Board Options Exchange and New York Stock Exchange to trade options on U.S. Treasury securities (SR–Amex –81–1, SR–NYSE–81–5 and SR–CBOE–81–27). For further information, please contact D. Michael Lefever at (202) 272–3117.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Arthur C. Delibert at (202) 272–2467.

December 15, 1981.

Part II

Department of Labor

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

DEPARTMENT OF LABOR

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and Supersedeas Decisions to General Wage Determination Decisions

Modifications and supersedeas decisions to general wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the modifications and supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing general wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedeas decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Office of Government Contract Wage Standards, Division of Government Contract Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Determination Decision.

Modifications to General Wage Determination Decisions

The numbers of the decisions being modified and their dates of publication in the **Federal Register** are listed with each State.
